FEDERAL REGISTER

VOLUME 12 NUMBER 78

Washington, Saturday, April 19, 1947

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

PART 9—PRICE SUPPORT OF AGRICULTURAL COMMODITIES

SUPPORT PRICES FOR HOGS

Public announcement has heretofore been made (6 F. R. 4644; 7 F. R. 422, 9986; 8 F. R. 12524; 9 F. R. 4837), pursuant to the provisions of section 4 (a) of the act approved July 1, 1941 (55 Stat. 498), as amended October 2, 1942 (56 Stat. 768); February 28, 1944 (58 Stat. 105); that it was necessary to encourage the expansion of the production of certain agricultural commodities, including hogs. Hogs were first designated as a commodity subject to support prices under the above legislation on August 29, 1941.

Hog support prices have heretofore been based on a marketing year for hogs running from October 1 of one calendar year through September 30 of the following calendar year. Hog production, however, consists of two crops—a spring crop and a fall crop. The marketing season for the spring crop is normally the period October 1 through March 31. The marketing season for the fall crop is normally the period April 1 through September 30. In the circumstances it is desirable that the support price for each crop be based upon the parity price of hogs as of the beginning of the marketing season for such crop. It is therefore announced that the support price for the spring crop of hogs will be based upon the parity price of hogs as of October 1 and the support price for the fall crop of hogs will be based upon the parity price for hogs as of April 1. The September 15 parity, the latest available as of October 1, will be used in determining the parity price of hogs as of October 1 and the March 15 parity, the latest available parity as of April 1, will be used in determining the parity price of hogs as of April 1.

Accordingly, based upon the March 15 parity for hogs, the following provision is hereby substituted for the corresponding provisions relating to the level and period of support of hogs in the announcement heretofore made:

§ 9.1 *Hogs.* The support price for good and choice barrow and gilt butcher hogs for the period April 1, 1947, through September 30, 1947, shall average, on an annual basis with seasonal variations, $15.60 per hundred pounds at Chicago with appropriate differentials for other markets. (Sec. 4 (a), 55 Stat. 498, as amended, 15 U. S. C. Sup.; 713a-8).

Done at Washington, D. C., this 15th day of April 1947.

[SEAL] N. E. DODD, *Acting Secretary of Agriculture.*

[Orange Reg. 117]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.343 *Orange Regulation 117*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 12 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement

[Lemon Reg. 218]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.325 *Lemon Regulation 218*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1, et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., April 20, 1947, and ending at 12:01 a. m., P. s. t., April 27, 1947, is hereby fixed at 400 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 217 (12 F. R. 2401) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order.

[Grapefruit Reg. 45]

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IMPERIAL COUNTY, CALIF.; AND THAT PART OF RIVERSIDE COUNTY, CALIF., SITUATED SOUTH AND EAST OF THE SAN GORGONIO PASS

LIMITATION OF SHIPMENTS

§ 955.306 *Grapefruit Regulation 45*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 955.1 et seq.) regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation of the Administrative Committee established under the said marketing agreement and the said order, and upon other available information, it is hereby found that the limitation of shipments of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* During each of the periods specified in subparagraphs (1), (2), and (3) of this paragraph, no handler shall ship any grapefruit except as permitted by the respective subparagraphs.

(1) During the period beginning at 12:01 a. m., P. s. t., April 20, 1947, and ending at 12:01 a. m., P. s. t., May 18, 1947, no handler shall ship:

(i) Any grapefruit grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, which grade lower than U. S. No. 2 grade, as such grades are defined in the revised United States Standards for Grapefruit (California and Arizona), 12 F. R. 1975; or

(ii) From the State of California or the State of Arizona to any point outside thereof in Canada, any such grapefruit (*a*) which are of a size smaller than $3^{3}/_{16}$ inches in diameter, or (*b*) which are of a size larger than $4^{14}/_{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than such minimum size shall be permitted, and a tolerance of 5 percent, by count, of grapefruit larger than such maximum size shall be permitted, which tolerances shall be applied in accordance with the provisions for the application of tolerances, specified in the said revised United States Standards for Grapefruit (California and Arizona): *Provided,* That in determining the percentage of grapefruit in any lot which are smaller than $3^{3}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $3^{10}/_{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are larger than $4^{14}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4^{5}/_{16}$ inches in diameter and larger.

(2) During the period beginning at 12:01 a. m., P. s. t., April 20, 1947, and ending at 12:01 a. m., P. s. t., April 27, 1947, no handler shall ship, from the State of California or the State of Arizona to any point outside thereof in the United States, any such grapefruit (i) which are of a size smaller than $3^{11}/_{16}$ inches in diameter, or (ii) which are of a size larger than $4^{14}/_{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than such minimum size shall be permitted, and a tolerance

of 5 percent, by count, of grapefruit larger than such maximum size shall be permitted, which tolerances shall be applied in accordance with the provisions for the application of tolerances, specified in the said revised United States Standards for Grapefruit (California and Arizona): *Provided*, That in determining the percentage of grapefruit in any lot which are smaller than $3^{11}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4^{5}/_{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are larger than $4^{11}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4^{5}/_{16}$ inches in diameter and larger.

(3) During the period beginning at 12:01 a. m., p. s. t., April 27, 1947, and ending at 12:01 a. m., p. s. t., May 18, 1947, no handler shall ship, from the State of California or the State of Arizona to any point outside thereof in the United States, any such grapefruit (i) which are of a size smaller than $3^{5}/_{16}$ inches in diameter, or (ii) which are of a size larger than $4^{11}/_{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than such minimum size shall be permitted, and a tolerance of 5 percent, by count, of grapefruit larger than such maximum size shall be permitted, which tolerances shall be applied in accordance with the provisions for the application of tolerances, specified in the said revised United States Standards for Grapefruit (California and Arizona): *Provided*, That in determining the percentage of grapefruit in any lot which are smaller than $3^{9}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $3^{13}/_{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are larger than $4^{11}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4^{5}/_{16}$ inches in diameter and larger.

(4) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said marketing agreement and order.

[Orange Reg. 174]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.320 *Orange Regulation 174*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., April 20, 1947, and ending at 12:01 a. m., P. s. t., April 27, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate Districts Nos. 1 and 2, no movement; and (*b*) Prorate District No. 3, 60 carloads.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, unlimited movement; (*b*) Prorate District No. 2, 1,100 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order.

(48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 17th day of April 1947.

TITLE 10—ARMY: WAR DEPARTMENT

Subtitle A—Organization, Functions and Procedures

PART 1—DESCRIPTION OF CENTRAL AND FIELD AGENCIES

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 3 (a) (1) and (2) of the Administrative Procedure Act of June 11, 1946, Part 1, 10 CFR, Subtitle A (11 F. R. 177A-761 and 177A-763) is amended as follows:

1. Delete the last sentence of § 1.2 (a).

2. Amend the last sentence of paragraph (d) of § 1.3 to read as follows:

§ 1.3 *Assignment of functions established by statute.* • • •

(d) • • • The functions, duties and powers of the Quartermaster General relating to the procurement and supply of general purpose vehicles and for all third or higher echelon vehicle maintenance are assigned to the Chief of Ordnance.

3. Section 1.4 is amended by revising paragraph (a), and that part of the text of paragraph (b), pertaining to assigning functions of command, which reads "To Commanding General, Seventh Army, Third Army Area" is changed as set forth below.

§ 1.4 *Organization of continental United States.* (a) For command of all activities except activities of the Army Air Forces and exempted installations, the continental United States is divided as follows:

First Army Area	States presently included in the First and Second Service Commands.
Second Army Area	States presently included in the Third and Fifth Service Commands.
Third Army Area	States presently included in the Fourth Service Command.
Fourth Army Area	States presently included in the Eighth Service Command.
Fifth Army Area	States presently included in the Sixth and Seventh Service Commands.
Sixth Army Area	States presently included in the Ninth Service Command.
Military District of Washington.	District of Columbia, and such adjacent territory as may be prescribed from time to time.

(b) All functions of command • • •

To Commanding General Third Army—Third Army Area.

• • • • •

4. Section 1.14 is superseded by the following:

§ 1.14 *Director of Research and Development.* The Director of Research and Development, War Department General Staff, is the adviser to the Secretary of War and the Chief of Staff on all War Department matters relating to research and development. He has primary General Staff responsibility for the mobilization and application of national research and development resources in support of the mission of the Army in peace and in national emergency. He has General Staff responsibility for the initiation, allocation, coordination, and progress of research and development programs; for insuring correlation of user interest in connection with research and development activities; and for the correlation of War Department research and development plans, policies, objectives, and programs with the Army-wide plans, policies, objectives, and programs.

Chapter III—Claims and Accounts

PART 306—CLAIMS AGAINST THE UNITED STATES

MISCELLANEOUS AMENDMENTS

Part 306 is amended in the following respects:

Section 306.28 is revoked effective June 30, 1947, and §§ 306.30 and 306.40 are superseded by the following:

§ 306.28 *Recovered personnel.* [Revoked.]

§ 306.30 *Apprehension of absentees and deserters*—(a) *Military personnel.* All military personnel are authorized to arrest absentees and deserters, whatever may be the grade of the person making the arrest or the person arrested.

(b) *Civil personnel.* Any civil officer or citizen may arrest, detain, and deliver an absentee or deserter when authorized by an officer of the Army. Such authority may be given by distributing Form 45 (Descriptive List of Absentee Wanted by United States Army), or in reply to an inquiry in accordance with paragraph (c) of this section.

(c) *Inquiry from civil officer or citizen.* Upon receipt of word by a post or organization commander from a civil officer or other citizen that such civilian intends to arrest, or has arrested, an alleged absentee or deserter from his post or organization, the commander will ascertain such person's status and will promptly inform the inquirer and the soldier's organization commander (if other than his own) concerning it, by telephone, telegraph, or other expeditious means. If the person held is an absentee or deserter, the commander will request the person holding him either to deliver him to, or request a guard from the nearest military post, or hold him awaiting the arrival of the guard, and will inform such person of his right to payment for his services. See § 306.32.

(d) *Guards.* Upon receipt of information that a civil officer, or other civilian, is holding an absentee or deserter, the post commander will cause a guard to be sent with all reasonable speed and in any event not later than 24 hours after receipt of the notification. If it is impracticable for the commanding officer receiving the notifiation to provide a guard from his command, he will make arrangements with a commander capable of providing a guard, or will report the case to the commanding general of the army concerned.

(e) *Commanding generals of armies (ZI).* Commanding generals of armies (ZI) will take steps to secure the active cooperation of all State and local police forces, and such other offials and organizations as they may deem useful to insure that absentees and deserters are returned promptly to military control.

§ 306.40 *Property of absentee.* (a) When a soldier absents himself without leave, his company commander will cause the public property, including clothing, for which the absentee is responsible, to be searched for and secured. His personal effects will be inventoried and retained with his organization until he returns to military control, or until he is dropped from the rolls as AWOL. In the latter case they will be disposed of as follows:

(1) Decorations, medals, discharges, and other military papers will be forwarded to The Adjutant General.

(2) Articles having material value will be disposed of by auction sale within the organization and the proceeds therefrom, together with any money left by the absentee, will be deposited with a disbursing officer, whose receipt will be taken and forwarded to The Adjutant General. The receipt will show the nature of the deposit, whether from the proceeds of sale, or money left by the absentee.

(3) Articles having no salable value will be destroyed.

(b) In no case will the effects of an absentee, or any proceeds of the sale thereof, be turned over to his relatives, nor any payment made therefrom on any account except with the approval of the War Department.

TITLE 15—COMMERCE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

PART 360—ORGANIZATION, FUNCTIONS AND PROCEDURE OF THE OFFICE OF INTERNATIONAL TRADE

BRITISH TOKEN IMPORT PLAN

Subpart B is amended by adding thereto a new § 360.15A to read as follows:

§ 360.15A *Procedure relating to the British Token Import Plan.* The procedure governing administration of the British Token Import Plan, and the role of the Office of International Trade therein, have been revised as set forth in this section:

(a) *Introduction*—(1) *What the plan is.* The "British Token Import Plan" is an arrangement with the British Government which permits United States manufacturers, their authorized agents, or other qualified exporters, with established pre-war trade connections in the United Kingdom (England, Scotland, Wales, and Northern Ireland) to export to that area token shipments of specified commodities, the importation of which the British Government prohibited as a war measure. Under the plan, the British Government will permit imports in a yearly amount not to exceed 20% of the value of the average annual shipments of the specified commodities of each qualified exporter during a base period consisting of the years 1936, 1937, and 1938. The British Government requires appropriate evidence, issued under authority of the United States Government, that manufacturers wishing to take advantage of opportunities under the arrangement did in fact make shipments of the commodities to the United Kingdom during the base period. The Office of International Trade has agreed to act as certifying agent and issue appropriate certificates, in the form of token scrip, which the exporter forwards to the British importer for presentation to the British Board of Trade as a basis for obtaining an import license.

(2) *How to secure information.* Announcements regarding the British Token Import Plan will no longer appear in Current Export Bulletins or Comprehensive Export Schedules. Hereafter, all official announcements regarding the plan will be published in the "Foreign Commerce Weekly," subscription to which may be arranged through the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Announcements will also be made in press releases which will be available to trade journals. Copies of announcements (including lists of commodities currently subject to the plan) as well as all forms needed in connection with the plan may be obtained from the Office of International Trade, Areas Branch, British Token Import Plan Unit, Washington, D. C., or from any of the Field Offices of the Department of Commerce.

(3) *Effect on export restrictions.* The issuance of token scrip in no way affects United States export restrictions which may be applicable to commodities coming under the plan.

(b) *Procedure for obtaining certification of prewar exports*—(1) *Eligibility* (i) Manufacturers, or their duly authorized agents, who exported any of the items on the approved list to the United Kingdom (England, Scotland, Wales, and Northern Ireland) during the base period 1936, 1937, and 1938, are eligible for certification under the plan. "Manufacturer" means an individual, firm or corporation which produces directly or indirectly products sold through established markets. "Authorized agent" means an export merchant, export commissioner, or any other person who has been authorized by the manufacturer to handle products produced by the manufacturer. Such an individual cannot be certified under the plan without a letter from the manufacturer addressed to the Office of International Trade, specifically authorizing him to apply for certification for the manufacturer's total basic quota or for a portion of the total basic quota. Such authorization must be submitted for each calendar year or otherwise must state the period of time for which the authorization is made. "Basic quota" means 20% of the value of manufacturer's average annual shipments of the product to the United Kingdom during the base period years 1936, 1937, and 1938. If a manufacturer authorizes an agent, or agents, to apply for certification of only a portion of the quota, the manufacturer may apply for certification of the balance.

(ii) Individuals or firms, other than manufacturers, having an established export trade from the United States to the United Kingdom during the years 1936, 1937, and 1938 in the items on the approved list, may be eligible if they can demonstrate clearly that such trade was developed by them and not by a manufacturer. Any person who is not a manufacturer, or an authorized agent, who feels that he is eligible for participation under the plan should request a determination of eligibility from the Office of International Trade, Areas Branch, British Token Import Plan Unit. Such a request should fully identify his export connections during the years 1936, 1937, and 1938 with the United Kingdom and should explain in detail his reasons for requesting eligibility under the plan.

(2) *Applying for certification*—(i) *Time and manner of submitting application.* Applications for certification shall be made in triplicate on Form IT-558 (Rev.), "Request for Certification of Pre-War Exports to the United Kingdom," and submitted to the Office of International Trade, Areas Branch, British Token Import Plan Unit, Washington, D. C. A separate application, Form IT-558 (Rev.), shall be submitted for each commodity group covered by the plan and shall give the information requested on the application form. The commodity description, section 3, should include brand name(s) for all branded products included in the applicant's export figures for the base period. The quantity and value of exports listed under section 6 should cover only the permitted types of each commodity shown on the approved list. All data shown on the form must be based upon actual records or other documentary evidence. Only those applications will be considered which have the certification on the bottom of the form executed.

Applicants who received token scrip during the year 1946 should indicate, under section 5, the IT case number assigned to such scrip, in addition to stating their own reference number, but the data submitted in the previous application should be rechecked before insertion in the 1947 form. Because of the haste with which the plan was put into operation last year and the difficulties of securing data that corresponded exactly with commodity definations, etc., there has been a tendency for pre-war exports, in some cases, to be over-estimated. Applicants are, therefore, urged to re-examine their figures carefully and make whatever corrections may be necessary in filling out their 1947 applications.

All applications should be filed as early in the year as possible. With respect to commodities on the approved list, as of March 10, 1947, the following conditions will apply:

(a) Only those applications received on or before April 30, 1947, can be assured of consideration as claims for full annual basic quotas.

(b) Applications received later than April 30, 1947, may require treatment as partial claims entitling applicants to allotments of scrip only in proportion to the number of months remaining after the applications are received.

(c) No applications for 1947 scrip can be accepted after September 30, 1947.

With respect to any commodity which may be added to the approved list after March 10, 1947, program operation dates will be appropriately adjusted and will be announced when notice is published of the inclusion of the new commodity under the plan.

(ii) *Acknowledgment card (Form IT-116).* Acknowledgment card, Form IT-116, shall be filed in by the applicant and submitted with each application. The portion of the card returned to the applicant will inform him of the case number assigned to the application.

(iii) *Evidence of authority.* If an application is signed by an agent, it will be necessary to have evidence of authorization as explained above.

(3) *Action by office of International Trade*—(i) *Numbering and certifying applications.* Upon receipt of Form IT-558 (Rev.) by the Office of International Trade, a number is assigned to the application for identification purposes. The first part of the number corresponds to the commodity group number assigned to the item as shown on the approved list. The second part of the number is a numerical case number. For example, number 17-435 indicates that the application covers "Lawnmowers," since "17" is the commodity group for lawnmowers and "435" is the numerical case number.

When an applicant has been approved for participation under the plan, the Department of Commerce certification stamp is placed on all three copies of the application. The original copy is returned to the applicant, together with token scrip. The duplicate copy is retained by the Office of International Trade, and the triplicate copy is forwarded to the British Board of Trade. If scrip cannot be issued for the total amount of the basic quota requested on the application, notice will be sent to the applicant and to the Board of Trade of the amount of scrip which is being issued as an interim allotment pending verification or adjustment of the claim as explained in subdivision (ii) of this subparagraph.

(ii) *Issuance of token scrip.* When an application is approved in full or in part, scrip will be issued in denominations requested by the applicant under section 7 of Form IT-558 (Rev.) totalling, to the nearest $25, an amount determined as explained in the subdivisions (*a*) and (*b*) of this subdivision. When issued, scrip is given a number identical with the number assigned to the certified application, Form IT-558 (Rev.). Scrip is neither transferable nor negotiable. It cannot be transferred by the certified manufacturer to another manufacturer of the same commodity or to a manufacturer of another product, nor can it be used by the holder for a product other than the one for which it was issued.

Under the terms of the plan, as established by the British Government, import licenses will be issued by the British Board of Trade, up to 20% of each United States applicant's pre-war exports into the United Kingdom. Since the total exports of these items, as reported by individual applicants, should not exceed 20% of the total imports for each commodity during the base period, the pre-war exports certified by the Office of International Trade and scrip issued under such certification must be kept within the overall national quotas computed from official trade statistics and mutually accepted by the Department of Commerce and the British Board of Trade.

In order to operate the plan with the flexibility needed for convenience of American exporters, and, at the same time, with assurance that total national quotas will not be exceeded in any way which would endanger the continuance of the program, it is necessary to issue scrip on an installment basis. It is to be expected that scrip can be issued during the year to the full amount of each applicant's basic quota, but since errors are possible and time is therefore required before there can be complete assurance that all data are accurate, the quantities of scrip will be issued from time to time in installments as follows:

(*a*) *Applications filed on or before April 30, 1947 (or in the case of new commodities, within two months after announcement of the addition of the commodity to the approved list).* For applications filed by April 30, 1947, in accordance with instructions in this section, the procedure will be, in general, to issue scrip immediately upon receipt of the application in an amount totaling approximately one-third of the applicant's basic quota. As soon as possible after April 30, 1947 (or after two months, in the case of new commodities), a second installment of scrip will be issued in as large amount as practicable. If it is clear that there will be no danger of the total of all applications covering a specific commodity exceeding the over-all national quota for that commodity, scrip will be issued for the full remainder of the individual's basic quota. The amount of the initial and subsequent installments of scrip will vary for different commodities. Applicants having justifiable need for the full issue of scrip may request that arrangements be made to have their records and documents examined by a Department of Commerce representative. If this is done, and it is found that the full claim is substantiated, scrip will then be issued for the total unissued balance of the basic quota. Final issue of all scrip will be made as soon as possible after closing date for filing applications, September 30, 1947.

(*b*) *Applications filed after April 30, 1947, but prior to October 1, 1947.* Applications filed after April 30, 1947, will be certified in amounts consistent with any balance of the over-all national quota which was not applied for on or before April 30, 1947. This will apply similarly to new commodity applications which are received more than two months after announcement of the addition of the commodity to the approved list. In these cases scrip will also be

issued in installments as explained in subdivision (a) of this subdivision.

(4) *Use of token scrip by certified exporter.* When the certified exporter receives an order from a United Kingdom importer, he should forward to the importer sufficient scrip, to the nearest $25 to cover the order. The importer will attach the scrip to his application for an import permit. The British Board of Trade, upon receipt of the import license application and accompanying scrip, will, prior to issuance of an import permit, check the application and scrip against the certified copy of the Form IT–558 (Rev.) forwarded from the Office of International Trade.

(5) *Validity period of scrip.* Scrip issued for 1947 will be valid and accepted by the British Board of Trade through February 29, 1948.

(c) *Procedure for requesting additions to list.* Manufacturers or other eligible persons who exported to the United Kingdom (England, Scotland, Wales, and Northern Ireland) during the years 1936, 1937, and 1938, products other than those on the approved list, may request that the plan be made applicable to such products. A separate request must be made for each commodity by filing, in triplicate, Form IT–570, "Request for Addition of Commodity to the British Token Import Plan," with the Office of International Trade, Areas Branch, British Token Import Plan Unit, Washington, D. C. The Office of International Trade forwards two copies of the form to the American Embassy in London for transmittal to the British Board of Trade. The completeness of the information furnished on the form will be a major factor in determining acceptance by the Board of Trade. Effectiveness of presentation will be increased if manufacturers who exported to the United Kingdom during the base period make a joint request through their trade association. The applicant will be notified of whatever action is taken by the Board of Trade and announcement of all additions to the list will be made in press releases and the Foreign Commerce Weekly. (Pub. Law 404, 79th Cong., 60 Stat. 237)

Issued this 14th day of April 1947.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5557]

PART 113—DOCUMENTARY STAMP TAXES

STAMP TAX ON PASSAGE TICKETS

In order to conform Regulations 71 (26 CFR, Part 113) to section 8 (c) of the Excise Tax Act of 1947 (Pub. Law 17, 80th Cong.), approved March 11, 1947, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 113.90 the following:

SEC. 8 [EXCISE TAX ACT OF 1947].

* * * * * *

(c) Effective with respect to tickets sold or issued on or after the first day of the first month which begins more than twenty days after the date of the enactment of this act, section 1806 of the Internal Revenue Code (relating to stamp tax on passage tickets) is hereby repealed.

PAR. 2. Section 113.90 is amended as follows:

(A) By inserting immediately following the heading "Scope of tax" the following:

(a) *Termination.* Effective with respect to tickets sold or issued on or after the first day of the first month beginning more than twenty days after the date of the enactment of the Excise Tax Act of 1947, section 1806 of the Internal Revenue Code was repealed by section 8 (c) of such act. The act was approved March 11, 1947, and therefore the tax on passage tickets and the regulations in this part relating to such tickets are inapplicable to such tickets sold or issued on or after April 1, 1947.

(B) By inserting immediately preceding the first sentence of such section as it appeared prior to amendment by this Treasury decision, as the beginning of the second paragraph of such section, the following:

(b) *Application of tax prior to the termination date.* Because of the short period of time between the date of the

repealing act and the effective date of the repeal, it is found impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act. * * *

This Treasury decision shall be effective on April 1, 1947.

(Section 3791 of Internal Revenue Code (53 Stat. 467; 26 U. S. C. 3791))

[SEAL] WM. T. SHERWOOD,
Acting Commissioner of Internal Revenue.

Approved: April 11, 1947.

PART 320—RETAILERS' EXCISE TAXES

RETAILERS EXCISE TAXES

In order to conform Regulations 51 (26 CFR, Part 320), relating to retailers' excise taxes under Chapters 9A and 19 of the Internal Revenue Code, to the Excise Tax Act of 1947 (Pub. Law 17, 80th Cong.), approved March 11, 1947, such regulations are amended as follows:

PARAGRAPH 1. The subheading immediately preceding the heading "Subpart A—Introductory", as amended by Treasury Decision 5353, approved March 31, 1944, is further amended to read as follows:

Regulations relating to excise taxes on sales by the retailer (Chapter 19 of the Internal Revenue Code, added by section 552 of the Revenue Act of 1941, and Chapter 9A of the Internal Revenue Code, added by section 210 of the Revenue Act of 1940, and amended by section 302 of the Revenue Act of 1943 and by the Excise Tax Act of 1947).

PAR. 2. The first sentence of § 320.0, as amended by Treasury Decision 5353, is further amended to read as follows:

§ 320.0 *Scope of regulations.* The regulations contained in this part deal with excise taxes imposed by Chapter 19 of the Internal Revenue Code, as added by section 552 of the Revenue Act of 1941, and Chapter 9A of the Internal Revenue Code, as added by section 210 of the Revenue Act of 1940, and amended by section 302 of the Revenue Act of 1943 and by the Excise Tax Act of 1947, on sales by the retailer of:

(a) Jewelry.
(b) Furs.
(c) Toilet preparations.
(d) Luggage.

PAR. 3. Immediately preceding § 320.1, there is inserted the following:

EXCISE TAX ACT OF 1947 (PUB. LAW 17, 80TH CONG.) APPROVED MARCH 11, 1947

SEC. 3. Sections * * * and 1655 (definition of "date of the termination of hostilities in the present war") of such Code are hereby repealed.

PAR. 4. Section 320.1, as amended by Treasury Decision 5353, is further amended by striking out paragraph (k) thereof.

PAR. 5. Immediately preceding § 320.2, there is inserted the following:

EXCISE TAX ACT OF 1947 (PUB. LAW 17, 80TH CONG.) APPROVED MARCH 11, 1947

SEC. 3. Sections 1654 (termination of retail tax on luggage, etc.) and 1655 (definition of "date of the termination of hostilities in the present war") of such Code are hereby repealed.

PAR. 6. Immediately preceding § 320.30, as amended by Treasury Decision 5353, there is inserted the following:

EXCISE TAX ACT OF 1947 (PUB. LAW 17, 80TH CONG.) APPROVED MARCH 11, 1947

SEC. 2. Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war".

PAR. 7. Section 320.38, as amended by Treasury Decision 5353, is further amended to read as follows:

§ 320.38 *Rate of tax.* With respect to articles sold during the period October 1, 1941, through March 31, 1944, both dates inclusive, the tax is payable by the retailer at the rate of 10 percent of the price for which sold. With respect to articles sold on or after April 1, 1944, the tax is payable by the retailer at the rate of 20 percent of the price for which sold, except that in the case of watches selling at retail for $65 or less, and alarm clocks selling at retail for $5 or less, the tax is at the rate of 10 percent of the price for which sold. The price for which an article is sold shall be determined in accordance with the provisions of §§ 320.5 to 320.10, inclusive, and § 320.74.

PAR. 8. Immediately preceding § 320.40, there is inserted the following:

EXCISE TAX ACT OF 1947 (PUB. LAW 17, 80TH CONG.) APPROVED MARCH 11, 1947

SEC. 2. Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war".

SEC. 7. (a) Section 2401 of the Internal Revenue Code (relating to the tax on furs) is hereby amended by inserting after the words "chief value" a comma and the following: "but only if such value is more than three times the value of the next most valuable component material".

(b) The amendment made by subsection (a) shall apply in the case of articles sold on or after the first day of the first month which begins more than twenty days after the date of the enactment of this act.

PAR. 9. Section 320.40 is amended to read as follows:

§ 320.40 *Scope of tax.* The tax attaches to the sale by the retailer of certain articles as follows:

(a) Articles made of fur on the hide or pelt sold on or after October 1, 1941;

(b) Articles of which fur on the hide or pelt is the component material of chief value sold during the period October 1, 1941, through March 31, 1947, both dates inclusive; and

(c) Articles of which fur on the hide or pelt is a component material, the value of which is more than three times the value of the next most valuable component material, sold on or after April 1, 1947.

The tax does not apply to sales of raw fur.

The tax is not confined to the sale of fur articles used as wearing apparel but applies to sales of any fur article suitable for any use, such as fur rugs, fur robes, etc.

In determining, for the purposes of (b) and (c) of this section whether the sale of an article of which fur is a component material is subject to tax, the value of such fur at the time of assemblage of the article must be compared to the value of each other single component at such time.

Where fur is a component material of an article and exemption with respect to the sale of such article is claimed on the ground that the value of the fur as compared with that of the most valuable of the other component materials is not such as to render the sale taxable under (b) or (c), of this section, the retailer must maintain adequate records or have in his possession proper documentary evidence to establish that fact to the satisfaction of the Commissioner. In the absence of such records or documentary evidence, the tax must be paid with respect to the sale of such article at retail.

PAR. 10. Section 320.42, as renumbered and amended by Treasury Decision 5353, is further amended to read as follows:

§ 320.42 *Rate of tax.* With respect to articles sold during the period October 1, 1941, through March 31, 1944, both dates inclusive, the tax is payable by the retailer at the rate of 10 percent of the price for which sold. With respect to articles sold on or after April 1, 1944, the tax is payable by the retailer at the rate of 20 percent of the price for which sold. The price for which an article is sold shall be determined in accordance with the provisions of §§ 320.5 to 320.10, inclusive, and § 320.74.

PAR. 11. Immediately preceding § 320.50, there is inserted the following:

EXCISE TAX ACT OF 1947 (PUB. LAW 17, 80TH CONG.) APPROVED MARCH 11, 1947

SEC. 2. Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war".

PAR. 12. Section 320.51, as amended by Treasury Decision 5353, is further amended to read as follows:

§ 320.51 *Rate of tax.* With respect to articles sold during the period October 1, 1941, through March 31, 1944, both dates inclusive, the tax is payable by the retailer at the rate of 10 percent of the price for which sold. With respect to articles sold on or after April 1, 1944, the tax is payable by the retailer at the rate of 20 percent of the price for which sold. The price for which an article is

sold shall be determined in accordance with the provisions of §§ 320.5 to 320.10, inclusive, and § 320.74.

Because of the short period of time remaining between March 11, 1947, the date of approval of the Excise Tax Act of 1947, and April 1, 1947, the date on which, pursuant to such act, the amendment to section 2401 of the Internal Revenue Code becomes effective, and because of the technical nature of the amendments made herein, it is found that it is impracticable and unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

This Treasury decision shall be effective on April 1, 1947.

(ii) By inserting immediately after the paragraph headed "Form 936" the following new paragraphs:

Form 949. Annual report of profit on Navy contracts. This form of report is required under the provisions of the Vinson Act, as amended, to be filed by every contracting par[illegible] completing within its taxable year a Navy contract or subcontract for the construction or manufacture of any completed Naval vessel or aircraft or any portion thereof entered into (a) after December 31, 1945, in the case of a contracting party making its income tax return on the calendar year basis, or (b) after the close of the contracting party's taxable year ending in 1946, in the case of a contracting party making its income tax return on a fiscal year basis.

Form 949-A. Annual report of profit on Army contracts. This form of report is required under the provisions of the Vinson Act, as amended, to be filed by every contractor or subcontractor completing within its taxable year an Army contract for the construction or manufacture of any completed Army aircraft or any portion thereof, entered into (a) after December 31, 1945, in the case of a contracting party making its income tax return on the calendar year basis, or (b) after the close of the contracting party's taxable year ending in 1946, in the case of a contracting party making its income tax return on a fiscal year basis.

(iii) By inserting immediately after the paragraph headed "Form 1042-B" the following new paragraphs:

Form 1042-C. Annual return of income tax withheld from French addressees. This return (in duplicate) is required to be made by all United States withholding agents who have paid to persons whose addresses of record are in France any fixed or determinable annual or periodical income. There shall be reported on this return, not only items of income listed on Form 1042, but also items of interest listed on quarterly returns, Form 1012, including items of interest where the liability for withholding is only 2 percent.

Form 1042-D. Annual return of income tax withheld from United Kingdom addressees. This return (in duplicate) is required to be made by all United States withholding agents who have paid to residents of the United Kingdom or corporations managed and controlled in the United Kingdom any fixed or determinable annual or periodical income. There shall be reported on this return not only items of income listed on Form 1042, but also items of income exempt from tax under the United States-United Kingdom income tax Convention. However, items of interest need not be listed where Form 1001-UK (in duplicate), or substitute Form 1001-UK (in duplicate), has been filed.

F. R. Doc. 46-20950, 11 F. R. 14261, is amended by substituting for "Form 1042-D" appearing in item 34 (n) thereof the following: "Form 1042-B".

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1110]

HARRY YAFFEE

Harry Yaffee, d/b/a Banner Products Company, 3417 North Pulaski, Chicago, Illinois, as a retailer of solder, from March 16, 1946 to July 31, 1946 sold and delivered approximately 9,931 pounds of bar solder without having received the certificate required by Conservation Order M-43. Respondent had knowledge of the restrictions in M-43 and his conduct constituted a wilful violation thereof. The violation had diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1110 *Suspension Order No. S-1110.* (a) Harry Yaffee, d/b/a Banner Products Company, his successors or assigns, shall not accept delivery of, sell, transfer, or otherwise deal in any solder as governed by Conservation Order M-43, for a period of one month from the effective date of this order, unless specifically authorized in writing by the Civilian Production Administration.

(b) Nothing contained in this order shall be deemed to relieve Harry Yaffee, d/b/a Banner Products Company, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the 28th day of April 1947.

Issued this 18th day of April 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1123]

AUGUST W. BAUMGART & WILBUR K. BAUMGART

August W. Baumgart and Wilbur K. Baumgart, d/b/a A. C. Automotive Finishes Company, 456 North Oakley Boulevard, Chicago, Illinois, as retailers of solder, from May 20, 1946 to August 31, 1946 sold approximately 4,560 pounds of solder containing 1.5% or more tin without having received the certificate required by Conservation Order M-43. They had knowledge of the restriction in M-43 and their conduct constituted a wilful violation thereof. The violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1123 *Suspension Order No. S-1123.* (a) August W. Baumgart and Wilbur K. Baumgart, d/b/a A. C. Automotive Finishes Company, individually or doing business under any other name, their successors and assigns, shall not accept delivery of, sell, transfer, or otherwise deal in any solder containing 1.5% or more tin as governed by Conservation Order M-43, for a period of two months from the effective date of this order, unless specifically authorized in writing by the Civilian Production Administration.

(b) Nothing contained in this order shall be deemed to relieve August W. Baumgart and Wilbur K. Baumgart, d/b/a A. C. Automotive Finishes Company, individually or doing business under any other name, their or its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the 28th day of April 1947.

Issued this 18th day of April 1947.

PART 4600—RUBBER, SYNTHETIC RUBBER AND PRODUCTS THEREOF

[Rubber Order R-1, Appendix II, as Amended April 18, 1947]

APPENDIX II—MANUFACTURING REGULATIONS

Findings under sec. 4 (a) of Public Law 404, 79th Congress.

In connection with the issuance of the following amendments, pursuant to section 4 (a) of the Administrative Procedure Act (Public Law 404, 79th Congress, 60 Stat. 237), the Civilian Production Administration finds that compliance with the notice, public rule making procedure and effective date requirements of the said Act is impractical and contrary to the public interest, in that the time intervening between the approval of Public Law 24, 80th Congress, on which the following amendments are based, and the date when the said amendments must become effective in order to effectuate the policy of said Public Law 24, is insufficient for such compliance; and any delay in the effective date of the following amendments will jeopardize the orderly allocation of natural and synthetic rubber and the production of synthetic rubber, contrary to the public interest. Therefore, the Civilian Production Administration, pursuant to Public Law 24, 80th Congress, hereby takes the following action:

Rubber Order R-1, Appendix II, as amended November 29, 1946, is hereby amended to read as follows:

APPENDIX II—MANUFACTURING REGULATIONS

Appendix II to Rubber Order R-1 establishes certain compounding proportions and manufacturing regulations for many of the products enumerated in Appendix I to Rubber Order R-1. These compounding proportions and manufacturing regulations are set out in the lists appearing below.

(a) *Limitation on production of rubber products.* No person may manufacture any of the products covered by the lists set out in this Appendix II except in accordance with the restrictions and regulations in the list applicable to the products.

(b) *General provisions.* (1) The total rubber hydrocarbon (designated total RHC in this Appendix) is the sum total of natural rubber, synthetic rubber, the rubber hydrocarbon value of reclaimed rubber and the RHC value of master batches or compounds of natural rubber or natural rubber latex. The rubber hydrocarbon value of reclaimed rubber shall be calculated from the rubber value of reclaimed rubber as certified by the manufacturer of the reclaimed rubber and shall be determined by the "difference" or "indirect" method. Natural rubber includes the rubber hydrocarbon value of natural rubber master batches or compounds as certified by the manufacturer of master batches or compounds which include natural rubber or natural rubber latex.

(2) "X" when used in the tables appearing in the lists, means that the materials so designated may be consumed in the minimum quantities required by any manufacturer who has received authorization to accept delivery on Form CPA-4488, subject to any special restrictions or provisions applicable to the particular products.

TABLE OF LISTS INCLUDED IN APPENDIX II

No.	Title
2	Tire and flap curing bags.
6	Tube identification.
7	Tire and tube repair materials.
8	Tires.
9	Tire tubes.
10	Tire flaps.
13	Retreading materials.
15	Use of tire-type high tenacity rayon cord, fabric or yarn. Deleted December 17, 1946.

LIST 2—MANUFACTURE OF TIRE AND FLAP CURING BAGS

(a) *Manufacturing regulations.* The use of natural rubber as required in the manufacture of all sizes and types of tire and flap curing bags is permitted.

(b) *Marking of synthetic curing bags.* All curing bags containing synthetic rubber shall have a permanent circumferential colored strip approximately three-eighths inch wide applied on the base section of the bag. The appropriate color shall be determined from List 6.

LIST 6—TUBE IDENTIFICATION

Identification of synthetic rubbers. Identification of the various types of synthetic rubbers shall be effected by designating each type by a letter and a color, as follows:

Letter and color:	Type of synthetic
S—Red	GR-S
M—Yellow	GR-M (neoprene)
I—Light Blue	GR-I (Butyl)

LIST 7—MANUFACTURE OF TIRE AND TUBE REPAIR MATERIALS

(a) *Manufacturing regulations.* Natural rubber as required may be used in the manufacture of tire and tube repair materials, except as provided in List 13 hereof.

LIST 8—MANUFACTURE OF TIRES

(a) *General provisions.* (1) Natural rubber latex may be consumed in the treatment of rayon and cotton cord, provided the overall average by weight of natural rubber latex so consumed does not exceed 7.5 pounds per 1000 pounds (dry weight) of total rayon and cotton cord treated. Natural rubber latex may be consumed in the treatment of nylon cord without limit.

(b) *Manufacturing regulations.* Natural rubber may be consumed in the manufacture of tires, rubber tracks and blocks as follows:

(1) Solid tires of all types except where elsewhere listed, as required.

(2) Rubber tracks and track blocks, as required.

(3) In the sizes and types of pneumatic tire groups listed in Table A below, only the maximum percent of natural rubber specified:

Table A—All Types of Pneumatic Tires

NOTE: Table A revised April 1947.

Maximum per cent [1] natural rubber of total RHC, by weight, rayon, nylon or cotton

Tire groups—Size and type	*Per cent natural rubber*
11.00 and up (all types)	X
All airplane, all inter-city bus mileage, all low platform trailer, and all wire tires	94
8.25 through 10.00 (all other types except tractor, implement and industrial pneumatic)	94
All other truck (including 15" and 16" diameters)	67
6.50 and up, passenger and industrial	67
6.00 and down, passenger, motorcycle, and industrial	23
Bicycle, light weight only	X
Bicycle, balloon size	27
All other	13

[1] Individual sizes may exceed the specified maximum percentage, provided the average natural rubber content of all sizes within the groups as listed in this Table A, does not exceed the indicated maximum percentage. No tire within the groups permitted 94 percent or more natural rubber shall be manufactured with a natural rubber content more than 5% greater than the maximum allowable percentage of total RHC for tires in those groups. No tire within the groups permitted 67% or less shall be manufactured with a natural rubber content more than 10% greater than the maximum allowable percentage of total RHC, for tires in each group. For example, a tire in the group in which a maximum of 23% of natural rubber is permitted, may be made with 33%.

LIST 9—MANUFACTURE OF TIRE TUBES

(a) *Manufacturing regulations.* (1) Natural rubber may be consumed as required in the manufacture of valves, valve cap gaskets, valve adhesion pads, and splicing gum strips for tubes.

(2) GR–I (Butyl) may be consumed as required in the manufacture of all sizes and types of tubes.

(3) Natural rubber may be consumed as required in the manufacture of tubes as follows:

(i) In airplane tubes and in puncture seal and other types of safety tubes.

(ii) In all other tubes except those of 15" and 16" diameters equipped with rubber valves.

(b) *Marking of synthetic tubes.* All tubes containing synthetic rubber shall have a permanent circumferential colored stripe approximately three-eighths inch wide applied on the base section of the tube. The appropriate color shall be determined from List 6.

LIST 10—MANUFACTURE OF TIRE FLAPS

Manufacturing regulations. The use of natural rubber in the manufacture of tire flaps shall be limited as follows:

	Maximum percent natural rubber of total RHC by weight
Flaps for 12.00 cross section and larger tires	X
Flaps for 11.00 cross section and smaller tires	50

LIST 13—MANUFACTURE OF RETREADING MATERIALS

(a) *Manufacturing regulations.* The manufacture of retreading materials shall conform to the restrictions shown in the following table:

	Maximum percent natural rubber of total RHC by weight
Camelback for all airplane tires and all types for use on 8.25 and larger size tires of 6" die width and 1/32 gauge and up	X
All other camelback	O
Padding stock (maximum thickness 1/16")	X
Stripping stock (maximum thickness 1/8")	X
Filling stock (maximum thickness 1/8")	X
Camelback cushion (maximum thickness 1/16")	X
Full circle curing tubes	X

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter III—Coast Guard: Inspection and Navigation

[CGFR 47-21]

PART 303—REGULATIONS TO PROMOTE THE SAFETY OF LIFE ON NAVIGABLE WATERS DURING REGATTAS OR MARINE PARADES

CLOSING OF OAKLAND ESTUARY, OAKLAND, CALIF.

Pursuant to the authority vested in me by section 1, act of April 28, 1908 (Title 46, U. S. C., sec. 454) and Reorganization Plan No. 3 of 1946, and at the request of the University of California, I find it necessary, in order to promote the safety of life on navigable waters, that the section of the Oakland Estuary, Oakland, California, bounded on the west by the line extending across the Estuary from the foot of Broadway in Oakland and bounded on the east by the Fruitvale Avenue Bridge shall be closed to all through navigation and that the movement of all other craft in the area shall be subject to the control of the U. S. Coast Guard Regatta Patrol Officer in accordance with the regulations for marine regattas or marine parades in 33 CFR, Part 303, for the University of California Crew Races, between the hours of 2:00 p. m. and 5:00 p. m. on the following dates:

Saturday, May 3, 1947.
Saturday, May 10, 1947.
Saturday, May 31, 1947.

It is hereby found that compliance with the notice, public rule making procedures, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong.; 60 Stat. 238), is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this order is based became available and when this order must become effective is insufficient for such compliance; however, pursuant to notices published in the local newspapers and notice to mariners, a public hearing was held in San Francisco, California, and no objections were raised by interested parties to the closing of the channel for the races.

Dated: April 15, 1947.

[SEAL] J. F. FARLEY,
Admiral, U. S. C. G.,
Commandant.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[Rev. S. O. 647, Amdt. 2]

PART 95—CAR SERVICE

PRIORITY FOR WHEAT IN PACIFIC NORTHWEST

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 15th day of April A. D. 1947.

Upon further consideration of Revised Service Order No. 647 (12 F. R. 104), as amended (12 F. R. 2168) and as amended by Service Order No. 647–C (12 F. R. 1724), and good cause appearing therefor: *It is ordered*, That:

Revised Service Order No. 647 (codified as 49 CFR § 95.647, *Box cars to be used for loading export wheat*, be, and it is hereby, further amended by substituting the following paragraph (a) for paragraph (a) thereof and adding paragraphs (d) and (e) thereto:

(a) *Priority for wheat loading.* All common carriers by railroad subject to the Interstate Commerce Act, at any point in the States of Oregon, Washington, or Idaho, or at Paradise or Troy, Montana, or west thereof, shall give preference and priority over all other traffic to supplying or placing box cars daily except Sunday, to the extent of the weekly quotas of box cars shown below:

Union Pacific RR	450
Great Northern Ry	72
Northern Pacific Ry	210
Spokane, Portland and Seattle Ry	18
Chicago, Milwaukee, St. Paul and Pacific RR	36

. . . . .

(d) *Diversion from inspection points.* Cars loaded with export wheat subject to this order moving to inspection points named in paragraph (a) (2) hereof may be diverted to domestic consignees upon special permit which may be issued by the Permit Agent designated herein.

(e) *Appointment of permit agent.* A. R. Mollison, Service Agent, Room 531 Post Office Bldg., Portland, Oreg., telephone Atwater 6171, Extension 352, is hereby designated and appointed permit agent for the purpose of issuing permits authorized by this order.

It is further ordered, that this amendment shall become effective at 12:01 a. m., April 17, 1947; that a copy of this order and direction be served upon the State railroad regulatory bodies of the States of Oregon, Washington, Idaho and Montana, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 15th day of April A. D. 1947.

It appearing, that 2 cars containing pipe at Bowie, Texas, on The Chicago, Rock Island and Pacific Railway Company (Joseph B. Fleming and Aaron Colnon, Trustees), have been on hand under load for unreasonable lengths of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Pipe at Bowie, Tex., be unloaded.* The Chicago, Rock Island and Pacific Railway Company (Joseph B. Fleming and Aaron Colnon, Trustees), its agents or employees, shall unload immediately cars B&O 254561 and PRR 775757, loaded with pipe, now on hand at Bowie, Texas, consigned to Bennett Brothers Drilling Company.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., April 17, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD CO.

ORDER GRANTING APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 15th day of April A. D. 1947.

The New York Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, having made application to strike from listing and registration the Common Stock, No Par Value, and the 5% Non-Cumulative Preferred Stock, $100 Par Value, of Chicago, Milwaukee, St. Paul and Pacific Railroad Company;

APR 23 '47

Appropriate notice and opportunity for hearing having been given to interested persons and the public generally;

No request having been received from any interested person for a hearing in this matter; and

The Commission having duly considered the facts stated in the application, and having due regard for the public interest and the protection of investors;

It is ordered, That said application be, and the same is, hereby granted, effective at the close of the trading session on April 24, 1947.

CHICAGO AND NORTH WESTERN RAILWAY CO.

FINDINGS AND ORDER GRANTING PERMISSION TO EXTEND UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 15th day of April A. D. 1947.

The Boston Stock Exchange has made application to the Commission pursuant to Section 12 (f) (2) of the Securities Exchange Act of 1934 and Rules X-12F-1 for permission to extend unlisted trading privileges to the Voting Trust Certificates for the No Par Value Common Stock of Chicago and North Western Railway Company.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the Chicago Stock Exchange and the New York Stock Exchange; that the geographical area deemed to constitute the vicinity of the Boston Stock Exchange for the purpose of this application is the New England States exclusive of Fairfield County, Connecticut; that out of a total of 800,977 shares outstanding, 50,490 shares are owned by 828 shareholders in the vicinity of the Boston Stock Exchange; and that in the vicinity of the Boston Stock Exchange there were 907 transactions involving 61,260 shares from January 1, 1946, to December 31, 1946;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Boston Stock Exchange for permission to extend unlisted trading privileges to the Voting Trust Certificates for the No Par Value Common Stock of Chicago and North Western Railway Company be, and the same is, hereby granted.

By the Commission.

NATIONAL AVIATION CORP.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 15th day of April A. D. 1947.

Notice is hereby given that National Aviation Corporation has filed an application pursuant to sections 10 (f) and 17 (b) of the Investment Company Act of 1940 for an order granting exemption from the provisions of sections 10 (f) and 17 (a) of said act so as to permit the applicant to purchase from Hornblower & Weeks or Paine, Webber, Jackson & Curtis, not to exceed 2.8% of the total number of shares of Cumulative Preference Stock proposed to be issued by Northwest Airlines, Inc.

National Aviation Corporation is a closed-end, nondiversified, management company registered under the Investment Company Act of 1940. Certain directors of National Aviation Corporation are partners in either Hornblower & Weeks or in Paine, Webber, Jackson & Curtis, members of the syndicate which proposes to underwrite the Cumulative Preference Stock to be issued by Northwest Airlines, Inc.

Section 10 (f) of the act prohibits a registered investment company from knowingly purchasing or otherwise acquiring during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer), if a principal underwriter of such securities is a person of which a director of the registered investment company is an affiliated person. Section 17 (a) (1) of the act prohibits any affiliated person of an affiliated person of a registered investment company, acting as principal, from knowingly selling any security or other property to such registered company subject to certain exceptions not herein applicable. The applicant has therefore filed an application pursuant to sections 10 (f) and 17 (b) of the act requesting an order granting exemption from the provisions of sections 10 (f) and 17 (a) of the act, and asserting that the proposed transaction meets the standards of the act and of section 17 (b) in particular.

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that, upon a preliminary examination of the application, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination:

(1) Whether the proposed transaction is fair and reasonable;

(2) Whether the proposed transaction involves overreaching on the part of any person concerned;

(3) Whether the proposed transaction is consistent with the policy of National Aviation Corporation as recited in its registration statement and reports filed under the act;

(4) Whether the proposed transaction has been proposed for the purpose of stimulating the market in the securities of Northwest Airlines, Inc. or for the purpose of relieving the underwriting syndicate, or any members thereof, of securities otherwise unmarketable;

(5) Whether the proposed transaction is consistent with the protection of investors;

(6) Whether the proposed transaction is consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on April 29, 1947, at 10:00 a. m., Eastern Standard Time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That William W. Swift, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-mentioned National Aviation Corporation; Northwest Airlines, Inc.; Hornblower & Weeks; Paine, Webber, Jackson & Curtis; and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceedings should file with the Secretary of the Commission, on or before April 25, 1947 his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

TITLE 32—NATIONAL DEFENSE

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1305—ADMINISTRATION

[SO 131, Amdt. 89]

REVISED MAXIMUM PRICES FOR CERTAIN COTTON TEXTILES

Section 4 of Supplementary Order 131 is amended in the following respects:

1. The words, "and/or Colonial Mills, Inc.," are added to the table in paragraph (aaa), the added words are to immediately follow the words, "Southeastern Cotton, Inc."

This amendment shall become effective as of May 13, 1946.

Issued this 21st day of April 1947.

PHILIP B. FLEMING, *Temporary Controls Administrator.*

Statement of Considerations Involved in the Issuance of Amendment 39 to Supplementary Order No. 131

Amendment 25 to Supplementary Order 131, effective May 13, 1946, was issued to accomplish the price revision in anticipation of which adjustable pricing was granted to the producers of yarn-dyed slack suitings, in Revised Supplementary Order No. 114. Of the several price increases, there was an increase granted to Southeastern Cotton, Inc., for "36" H. P. 2 and H. P. 14 plains, sanforized." It was thought at the time that Southeastern Cotton, Inc., was the selling agent of Hannah Pickett Mills, Inc., the producer of these types of cloth. Actually, however, Southeastern Cotton, Inc., ceased to be such an agent several months previously. Colonial Mills, Inc., had become the exclusive selling agent and was acting in that capacity at the time the amendment was issued.

When Colonial Mills, Inc., called attention to the error, the Office of Price Administration was willing to correct it, but action was held up pending consideration of a request by the company for an additional, prospective increase in its maximum prices, so that if an increase was found justified, then both matters could be taken care of in a single amendment. The company approved that course. Before a determination could be made on the request for an additional increase, the particular items were decontrolled and the question of an additional increase became moot. Upon the specific request of Colonial Mills, Inc., the accompanying amendment is, therefore, issued to correct the previous error.

PART 203—BRIDGE REGULATIONS

BRIDGE ACROSS SANDUSKY BAY BETWEEN BAYBRIDGE AND DANBURY, OHIO

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.707 is hereby prescribed to govern the operation of the Ohio Department of Highways bridge across Sandusky Bay between Baybridge and Danbury, Ohio.

§ 203.707 *Sandusky Bay, Ohio: Ohio Department of Highways bridge between Baybridge and Danbury, Ohio.* (a) The owner of or agency controlling this bridge will not be required to keep a draw tender in constant attendance during the period December 16 to March 15, both dates inclusive.

(b) Whenever a vessel unable to pass under the closed bridge desires to pass through the draw, during the period described in paragraph (a) of this section, at least 24 hours' advance notice of the time the opening is required shall be given to the authorized representative of the owner or agency controlling the bridge.

(c) Upon receipt of such advance notice, the authorized representative shall, in compliance therewith, arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owner of or agency controlling the bridge shall keep conspicuously posted on both sides thereof, in such a manner that it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraph (b) of this section may be reached.

PART 5—ADJUDICATION; DEPENDENTS' CLAIMS

FILING OF CLAIMS AND SUPPORTING EVIDENCE

§ 5.2500 *Application for death benefits.* (a) A specific claim on the form prescribed by the Administrator of Veterans' Affairs must be filed by the widow, child or children and/or dependent mother or father applying for pension or compensation or by the claimant for accrued benefits. A claim for compensation under the General Law based on service prior to April 21, 1898, must be executed before a notary public or other officer authorized to administer oaths for general purposes, or before an employee of the Veterans' Administration to whom authority to administer oaths has been delegated by the Administrator. In the event the claimant's application is not complete at the time of original submission, the Veterans' Administration will notify the claimant of the evidence necessary to complete the application and if such evidence is not received within one year from the date of request therefor, pension or compensation may not be paid by virtue of that application (§ 35.021 (a) (1) (ii) of this chapter); *Provided*, That a claim for pension or compensation filed by a widow or by the next friend or guardian of a child or by a parent will also be considered as a claim for any accrued amount due; *Provided further*, That a claim filed by a widow in which additional pension or compensation is claimed on account of a child or children in her custody, who herself does not have title, will be accepted as a valid claim on behalf of the child or children.

(b) The provisions of § 2.1027 of this chapter are for application under any law authorizing the payment of death pension or death compensation where the claim is based upon service rendered on or after April 21, 1898. (Sec. 1, Pub. Law 144, 78th Cong.)

(c) For the purposes of any law authorizing the payment of death pension or death compensation based on service rendered on or after April 21, 1898, new and material evidence relating to the same factual basis as that of a finally disallowed claim shall be accepted as a claim in determining the commencing date of an award, when such evidence or accompanying communication meets the requirements of an informal claim. PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 26]

OFFICIAL GRAIN STANDARDS OF UNITED STATES FOR SOYBEANS

NOTICE OF HEARINGS ON PROPOSED AMENDMENTS

Notice is hereby given that consideration is being given to amending in several respects the official grain standards of the United States for soybeans (7 CFR and Cum. Supp. 26.601), promulgated under the authority and provisions of the United States Grain Standards Act, 1916, as amended (39 Stat. 482; 54 Stat. 765; 7 U. S. C. 71 et seq.).

Consideration is being given to proposals that (1) the maximum limits for splits should be increased 5 percent in grade No. 2, 5 or 10 percent in grade No. 3, and 10 percent in grade No. 4; (2) the definition for soybeans should be amended to fix a maximum limit for splits; (3) the maximum limits for damaged kernels of soybeans and other grains should be increased not more than 1 percent in grade No. 1, not more than 2 percent in grade No. 2, not more than 3 percent in grade No. 3, and not more than 7 percent in grade No. 4; (4) the maximum limits for foreign material other than dockage should be increased not more than 1 percent in grade no. 1, not more than 2 percent in grade No. 2, not more than 4 percent in grade No. 3, and not more than 5 percent in grade No. 4; (5) moisture content should be discontinued as a numerical grading factor and in lieu thereof a new special grade "Tough" be promulgated for soybeans containing 14 percent or more moisture; (6) soybeans with green seed coats which are yellow, or have a yellow tinge, in cross section should be included in the class "Yellow Soybeans"; (7) 10 percent of other classes should be permitted in classes "Yellow Soybeans" and "Green Soybeans"; (8) 5 percent of Brown, Black, or bicolored soybeans, singly or combined, shall be permitted in grade No. 2 of the classes "Yellow Soybeans" and "Green Soybeans"; and (9) the definition for splits be amended to include all pieces of kernels of soybeans.

Consideration is being given also to minor changes in language intended to simplify and clarify the standards.

Informal hearings will be held at Toledo, Ohio; Peoria and Chicago, Illinois; and Cedar Rapids, Iowa; at which interested persons may present their views and opinions orally with respect to the desirability of promulgating the proposed amendments. The time and place of each such hearing will be as follows:

May 12, 2:00 p. m., 3d Floor, Produce Exchange Building, Toledo, Ohio.

May 13, 2:00 p. m., Trading Floor, Peoria Board of Trade Building, Peoria, Illinois.

May 14, 2:00 p. m., Room 660, Board of Trade Building, Chicago, Illinois.

May 15, 2:00 p. m., Assembly Room, Chamber of Commerce Building, Cedar Rapids, Iowa.

Interested persons may submit written data, views, or arguments to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., to be received by him not later than May 29, 1947.

Consideration will be given to all information obtained at the hearings, to written data, views, and arguments received not later than May 29, 1947, and to all other information available in the United States Department of Agriculture before a decision is made as to whether or not any amendments to the official grain standards of the United States for soybeans shall be promulgated.

Robert H. Black, Grain Branch, Production and Marketing Administration, is hereby designated to conduct the hearings held pursuant to this notice.

Issued this 16th day of April 1947.

OFFICIAL GRAIN STANDARDS OF UNITED STATES FOR SOYBEANS

NOTICE OF HEARINGS ON PROPOSED AMENDMENT

Notice is hereby given that consideration is being given to amending regulations under the United States Grain Standards Act (7 CFR and Cum. Supp. 26.1) promulgated under the authority and provisions of the United States Grain Standards Act, 1916, as amended (39 Stat. 482, 485; 54 Stat. 765; 7 U. S. C. 71 et seq.).

Consideration is being given to a proposal that the moisture content of soybeans shall be stated in whole and half percents instead of whole and tenth percents when moisture content is a grading factor. Consideration is also being given to a proposal that licensed inspectors shall be required to state the moisture content on all certificates of grade issued for soybeans, except for export shipments.

Informal hearings will be held at Toledo, Ohio; Peoria and Chicago, Illinois; and Cedar Rapids, Iowa; at which interested persons may present their views and opinions orally with respect to the desirability of promulgating the proposed amendment. The time and place of each such hearing will be as follows:

May 12, 2:00 p. m., 3d Floor, Produce Exchange Building, Toledo, Ohio.

May 13, 2:00 p. m., Trading Floor, Peoria Board of Trade Building, Peoria, Illinois.

May 14, 2:00 p. m., Room 660 Board of Trade Building, Chicago, Illinois.

May 15, 2:00 p. m., Assembly Room, Chamber of Commerce Building, Cedar Rapids, Iowa.

Interested persons may submit written data, views, or arguments to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., to be received by him not later than May 29, 1947.

Consideration will be given to all information obtained at the hearings, to written data, views, and arguments received not later than May 29, 1947, and

to all other information available in the United States Department of Agriculture before a decision is made as to whether or not the proposed amendment to the regulations under the United States Grain Standards Act shall be promulgated.

Robert H. Black, Grain Branch, Production and Marketing Administration, is hereby designated to conduct the hearings held pursuant to this notice.

Issued this 16th day of April 1947.

[Docket No. AO-181]

HANDLING OF MILK IN ST. JOSEPH, MISSOURI, MARKETING AREA

PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Supps. 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of a public hearing to be held in the Federal Building at St. Joseph, Missouri, beginning at 10 a. m., c. s. t., May 19, 1947, with respect to a proposed marketing agreement and order regulating the handling of milk in the St. Joseph, Missouri, marketing area. The proposals have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic or marketing conditions which relate to the provisions of the proposed marketing agreement and order, or to any modifications thereof which are hereinafter set forth.

The St. Joseph Milk Producers Association, Inc., has proposed the following marketing agreement and order.

SECTION 1. *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937) 7 U. S. C. 601 et seq.), as amended.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture of the United States.

(c) "St. Joseph, Missouri, marketing area" hereinafter called "marketing area" means all the territory in Buchanan County, Missouri, Jefferson Township in Andrew County, Missouri and Doniphan County, Kansas.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Producer" means any person, irrespective of whether such person is also a handler, who, under a dairy farm permit or rating issued by the health authorities of the City of St. Joseph for the production of milk to be used for consumption as milk or cream in the marketing area produces milk which is (1) purchased or received at an approved plant, or (2) caused to be diverted from the farm of such person to an unapproved plant by a cooperative association for the account of such association.

(f) "Handler" means (1) any person who operates an approved plant from which Class I milk or Class II milk is disposed of in the marketing area, or (2) any cooperative association, with respect to the milk of any producer, which such cooperative association causes to be diverted to the plant of a handler or to the plant of a non-handler for the account of such cooperative association.

(g) "Producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers: *Provided*, That (1) the maintenance, care and management of the dairy animals and other resources necessary to produce the milk are the personal enterprise of and at the personal risk of such person in his capacity as a producer, and (2) the processing, packaging and distribution of milk are the personal enterprise of and at the personal risk of such person in his capacity as a handler. A producer who processes and packages milk of his own production shall not be considered a producer-handler if his entire output is disposed of to other handlers who purchase or receive milk in bulk from producers.

(h) "An approved plant" means any milk plant approved by health authorities of the City of St. Joseph, Missouri, for the handling of milk to be disposed of for fluid consumption as milk in the marketing area, and currently used for any or all of the function of receiving, weighing (or measuring), sampling, cooling, pasteurizing or other preparation of milk for sale or disposition as milk or cream for fluid consumption in the marketing area.

(i) "Producer milk" means all milk produced by a producer other than a producer-handler, which is purchased or received by a handler either directly from such producers or from other handlers.

(j) "Other source milk" means all milk and milk products other than producer milk.

(k) "Market Administrator" means the person designated pursuant to section 2 as the agency for the administration hereof.

(l) "Delivery period" means the current marketing period from the first to, and including, the last day of each month.

(m) "Cooperative association" means any cooperative association of producers which the Secretary determines (1) to have its entire activities under the control of its members and (2) to have and to be exercising full authority in the sale of milk of its members.

SEC. 2. *Market Administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall:

(1) Administer the terms and provisions hereof;

(2) Report to the Secretary complaints of violation of the provisions hereof; and

(3) Make rules and regulations to effectuate the terms and provisions hereof.

(c) *Duties.* The market administrator shall:

(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(2) Pay, out of the funds provided by section 10, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(3) Keep such books and records as will clearly reflect the transactions provided for herein and surrender the same to his successor or to such other persons as the Secretary may designate;

(4) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not (i) made reports pursuant to section 3 or (ii) made payments pursuant to section 8; and

(5) Promptly verify the information contained in the reports submitted by handlers.

SEC. 3. *Reports of handlers*—(a) *Periodic reports.* On or before the 5th day after the end of each delivery period, each handler who purchased or received milk from sources other than his own production or other handlers shall with respect to milk or dairy products which were purchased, received, or produced by such handler during such delivery period report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(1) The receipts at each plant of milk from each producer, the butterfat content, and the number of days on which milk was received from each producer;

(2) The receipts from such handler's own farm production and the butterfat content;

(3) The receipts of milk, cream, and milk products from handlers who purchase or receive milk from producers and the butterfat content;

(4) The receipts of other source milk;

(5) The respective quantities of milk and milk products and the butterfat content which were sold, distributed, or used, including sales to other handlers for the purpose of classification pursuant to section 4;

(6) The sales of milk and Class II products outside the marketing area, listing

the market or area in which such milk and such Class II products were sold or disposed of, the date of such sale or disposition, and the plant from which such milk and milk products were supplied;

(7) Such other information with respect to the use of milk as the market administrator may request.

(b) *Reports of payments to producers.* On or before the 20th day after the end of each delivery period, upon the request of the market administrator, each handler who purchased or received milk from producers shall submit to the market administrator his producer pay roll for such delivery period which shall show for each producer: (1) The daily and total pounds of milk delivered and the average butterfat content thereof and (2) the net amount of such handler's payment to such producer with the prices, deduction, and charges involved.

(c) *Reports of producer-handlers and handlers whose sole source of supply is from other handlers.* Producer-handlers and handlers whose sole source of supply is from other handlers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(d) *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose disposition of milk the classification depends. Each handler shall keep adequate records of receipts and utilization of milk and milk products and shall, during the usual hours of business, make available to the market administrator or his representatives such records and facilities as will enable the market administrator to:

(1) Verify the receipts and disposition of all milk and milk products, and in case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content the milk purchased or received from producers and any product of milk upon which classification depends; and

(3) Verify the payments to producers prescribed in section 8.

SEC. 4. *Classification of milk*—(a) *Milk to be classified.* All milk and milk products purchased or received by each handler at his approved plant shall be classified by the market administrator in the classes set forth in paragraph (b) of this section.

(b) *Classes of utilization.* Subject to the conditions set forth in paragraph (c) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk and bottled skim milk disposed of in the form of milk, skim milk, buttermilk, and flavored milk drinks, and unaccounted for butterfat in excess of 3 percent of the total receipts of butterfat other than receipts from other handlers converted to a 3.8 percent milk equivalent, except such milk as is classified as Class II milk and as Class III milk pursuant to subparagraphs (2) and (3) of this paragraph.

(2) Class II milk shall be all milk used to produce cream which is disposed of in the form of cream, other than for use in products specified in subparagraph (3) of this paragraph, creamed cottage cheese, products sold or disposed of in the form of cream testing less than 18 percent of butterfat, aerated cream, and eggnog.

(3) Class III milk shall be all milk used to produce butter, cheese, (other than creamed cottage cheese), evaporated milk, condensed milk, ice cream, and powdered whole milk; used for starter churning, wholesale baking and candy making purposes; accounted for as salvage from products where the recovery of fat is impossible; and not accounted for but not in excess of 3 percent of the total receipts of butterfat other than receipts from other handlers.

(c) *Transfers of milk, skim milk, and cream.* (1) Milk or skim milk sold or disposed of in fluid form by a handler to a plant of a nonhandler who distributes fluid milk shall be Class I unless all of the following conditions are met: (i) Such nonhandler's plant is located less than 100 miles from the approved plant where such milk was received from producers; (ii) the market administrator is permitted to audit the records of such nonhandler; (iii) the receipts of producer milk at approved plants are greater than the total sales of Class I and Class II milk from handlers' routes in the marketing area; and (iv) such nonhandler receives milk from dairy farmers who the market administrator determines constitute such nonhandlers' regular source of supply.

If all the above conditions are met the market administrator shall classify such milk as follows: (*a*) Determine the use of all milk and all milk products received at the plant of such nonhandler, and (*b*) allocate the milk disposed of by the handler to such nonhandler to the highest use remaining after subtracting in series beginning with the highest use classification receipts of milk by such nonhandler direct from dairy farmers.

(2) Cream sold or disposed of in fluid form by a handler to a plant of a nonhandler who distributes fluid cream shall be Class II unless all of the following conditions are met: (i) Such nonhandler's plant is located less than 100 miles from the approved plant where such milk was received from producers; (ii) the market administrator is permitted to audit the records of such nonhandler; (iii) the receipts of producer milk at approved plants are greater than the total sales of Class I and Class II milk from handlers' routes in the marketing area; and (iv) such nonhandler receives milk from dairy farmers who the market administrator determines constitutes such nonhandler's regular source of supply.

If all the above conditions are met the market administrator shall classify such milk as follows: (*a*) Determine the use of all milk and all milk products received at the plant of such nonhandler; and (*b*) allocate the cream disposed of by the handler to such nonhandler to the highest use remaining after subtracting in series beginning with the highest use classification receipts of milk by such nonhandler direct from dairy farmers.

(3) Milk, skim milk or cream sold or disposed of by a handler to a plant of a nonhandler who does not distribute fluid milk or cream shall be Class III milk.

(4) Milk or skim milk sold or disposed of in fluid form by a handler, who purchases or receives milk from producers to another handler who purchases or receives milk from producers, shall be Class I milk: *Provided*, That if the amount of such milk so sold or disposed of is in excess of the amount classified as Class I at such purchasing handler's plant, such excess milk shall be classified in series beginning with the next highest class in which such purchasing handler has use: *Provided*, That if either or both handlers have purchased other source milk, such milk so sold or disposed of, shall be classified at both plants so as to return the highest class utilization to producer milk.

(5) Cream sold or disposed of as fluid cream by a handler who purchases or receives milk from producers to another handler who purchases or receives milk from producers shall be Class II: *Provided*, That if the amount of such cream so sold or disposed of is in excess of the amount classified as Class II in such purchasing handler's plant such excess cream shall be classified in the next highest class in which such purchasing handler has use: *Provided*, That if either or both handlers have purchased other source milk such cream so sold or disposed of shall be classified at both plants so as to return the highest class utilization to producer milk.

(6) Milk or skim milk sold or disposed of in fluid form by a handler who purchases or receives milk from producers to a producer-handler or to a handler who purchases or receives no milk from producers shall be Class I milk.

(7) Cream sold or disposed of as fluid cream by a handler who purchases or receives milk from producers to a producer-handler or to a handler who purchases or receives no milk from producers shall be Class II milk.

(d) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification as required in paragraph (b) of this section of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

(e) *The allocation of other source milk.* Other source milk purchased or received at an approved plant of a handler who purchases or receives milk from producers shall be allocated to Class III except that other source milk may be allocated to Class II to the extent that Class II milk exceeds the amount of all producer milk classified as Class II milk, and other source milk may be allocated to Class I only to the extent that the total amount of Class I milk of the handler exceeds the total amount of producer milk received by such handler.

(f) *Computation of milk in each class.* For each delivery period each handler shall compute, in the manner and on forms prescribed by the market admin-

istrator, the amount of milk in each class as defined in paragraph (b) of this section, as follows:

(1) Determine the total pounds of milk received as follows: add together the total pounds of milk received from (i) producers, (ii) own farm production, (iii) other handlers, and (iv) other sources.

(2) Determine the total pounds of butterfat received as follows: (i) mutiply by its average butterfat test the weight of the milk received from (*a*) producers, (*b*) own farm production, (*c*) other handlers, and (*d*) other sources, and (ii) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (i) convert to pounds the quantity of Class I milk on the basis of 2.15 pounds per quart, (ii) multiply the result by the average butterfat test of such milk, and (iii) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk, computed pursuant to subparagraph (4) (ii) and subparagraph (5) (iv) of this paragraph, is less than the total pounds of butterfat received, computed in accordance with subparagraph (2) of this paragraph, an amount equal to the difference shall be divided by 3.8 percent and added to the quantity of milk determined pursuant to subdivision (i) of this subparagraph.

(4) Determine the total pounds of milk in Class II as follows: (i) multiply the actual weight of each of the several products of Class II milk by its average test, (ii) add together the resulting amounts, and (iii) divide the result obtained in subdivision (ii) of this subparagraph by 3.8 percent.

(5) Determine the total pounds of milk in Class III as follows: (i) multiply the actual weight of each of the several products of Class III milk by its average butterfat test, (ii) add together the resulting amounts, (iii) subtract from the total pounds of butterfat computed pursuant to subparagraph (2) of this paragraph, the total pounds of butterfat in Class I milk, computed pursuant to subparagraph (3) (ii) of this paragraph, the total pounds of butterfat in Class II milk, computed pursuant to subparagraph (4) (ii) of this paragraph and the total pounds of butterfat computed pursuant to subdivision (ii) of this subparagraph which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 3 percent of the total receipts of butterfat except receipts from other handlers), (iv) add together the results obtained in subdivisions (ii) and (iii) of this subparagraph and (v) divide the result obtained in subdivision (iv) of this subparagraph by 3.8 percent.

(6) Determine the classification of milk received from producers as follows:

(i) Subtract from the total pounds of milk in each class the pounds of producer milk which were received from other handlers and used in such class.

(ii) Subtract from the remaining pounds of milk in each class the pounds of other source milk allocated to such class pursuant to paragraph (e) of this section.

(g) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* In the event of a difference between the total quantity of milk utilized in the several classes as computed pursuant to paragraph (f) (6) of this section and the quantity of milk received from producers, except for excess milk or milk equivalent of butterfat pursuant to paragraph (c) of section 6, such difference shall be reconciled as follows:

(1) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (f) (6) of this section, is less than the receipts of milk from producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (f) (6) of this section, is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk for such handler by subtracting in series beginning with the lowest class use of such handler an amount equal to the difference between receipts of milk from producers and the total utilization of milk by classes for such handler.

SEC. 5. *Minimum prices*—(a) *Class prices.* Subject to the differentials set forth in paragraphs (c) and (d) of this section, each handler shall pay producers, at the time and in the manner set forth in section 8, for milk purchased or received from them not less than the following prices:

(1) *Class I milk.* The price per hundredweight of Class I milk during each delivery period shall be the price determined pursuant to paragraph (b) of this section, plus 75 cents.

(2) *Class II milk.* The price per hundredweight of Class II milk during each delivery period shall be the price determined pursuant to paragraph (b) of this section, plus 50 cents.

(3) *Class III milk.* The price per hundredweight of Class III milk during each delivery period shall be the highest price ascertained by the market administrator to have been quoted for ungraded milk of 3.8 percent butterfat content received during such delivery period by any of the following plants:

Center Milk Products Co., Maryville, Mo.
Beatrice Foods Co., St. Joseph, Mo.
Western Dairy & Ice Cream Co., St. Joseph, Mo.
Hy-Klass Food Products Co., St. Joseph, Mo.

(b) *Basic formula price to be used in determining Class I and Class II prices.* The basic formula price to be used in determining the Class I and Class II prices, set forth in this section, per hundredweight of milk as computed and announced by the market administrator on or before the 5th day of the delivery period shall be the arithmetical average of the prices per hundredweight reported to the United States Department of Agriculture as being paid all farmers for milk of 3.5 percent butterfat content delivered f. o. b. plant during the immediately preceding delivery period at the following plants and places:

Borden Co., Mt. Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
Borden Co., New London, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

divided by 3.5 and multiplied by 3.8, but in no event shall such basic formula price to be used be less than the following: multiply by 3.8 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the immediately preceding delivery period, and add 20 percent: *Provided*, That such price shall be subject to the following adjustments: (1) Add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above 5½ cents per pound or (2) subtract 3½ cents per hundredweight for each full one-half cent that the price of such dry skim milk is below 5½ cents per pound. For purposes of determining this adjustment the price per pound of dry skim milk to be used shall be the average of the carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for the Chicago area during the immediately preceding delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the average of the carlot prices for dry skim milk for human consumption, delivered at Chicago, shall be used. In the latter event such price shall be subject to the following adjustments: (i) Add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption, delivered at Chicago, is above 7½ cents per pound or (ii) subtract 3½ cents per hundredweight for each full one-half cent that such price of dry skim milk is below 7½ cents per pound.

(c) *Butterfat differential.* If the average butterfat content of milk purchased or received from producers by any handler during any delivery period is more or less than 3.8 percent, there shall be added or subtracted per hundredweight of such milk for each one-tenth of 1 percent above or below 3.8 percent an amount equal to the Class III price for such delivery period, divided by 38.

SEC. 6. *Application of provisions.* (a) The provisions of sections 4, 7, 8, 9 and 10 shall not apply to a producer-handler or to a handler whose sole source of supply is from other handlers.

(b) If a handler has purchased or received other source milk the market administrator, in determining the net pool obligation of the handler pursuant to paragraph (a) of section 7, shall consider such milk as Class III milk. If the receiving handler sells or disposes of such milk for other than Class III purposes, the market administrator shall add an amount equal to the difference between (1) the value of such milk according to its utilization by the handler, and (2) the value at the Class III price. (This provision shall not apply if Association is not in position to supply producers milk.)

(c) If a handler, after subtracting receipts from other handlers and receipts of other source milk, has disposed of milk or butterfat in excess of the milk or butterfat which, on the basis of his reports, has been credited to his producers as having been delivered by them, the market administrator, in determining the net pool obligation of the handler pursuant to paragraph (a) of section 7, shall add an amount equal to the value of milk or butterfat according to its utilization by the handler.

(d) Milk which is caused to be diverted by a handler directly from producers' farms to an approved plant of another handler for not more than 5 days during any delivery period shall be considered an interhandler transfer of milk, and shall be reported by the handler who caused such milk to be diverted, as though the milk had first been received at such handler's plant.

SEC. 7. *Determination of uniform price to producer*—(a) *Net pool obligation of handlers.* Subject to the provisions of section 6, the net pool obligation of each handler for milk received during each delivery period shall be a sum of money computed for such delivery period by the market administrator as follows:

(1) Multiply the pounds of milk in each class computed pursuant to section 4 by the class prices set forth in section 5 and add together resulting values;

(2) Add, if the average butterfat content of all milk purchased or received from producers is more than 3.8 percent, or deduct if the average butterfat content of all milk purchased or received from producers is less than 3.8 percent, an amount equal to the total value of the butterfat differential applicable pursuant to paragraph (c) of section 5.

(3) Add an amount equal to the total values pursuant to paragraphs (b) and (c) of section 6; and

(4) Deduct, if the average butterfat content of all milk purchased or received from producers is more than 3.8 percent, and add, if the average butterfat content of all milk purchased or received from producers is less than 3.8 percent, the total value of the butterfat differential applicable pursuant to paragraph (c) of section 8.

(b) *Computation and announcement of the uniform price.* The market administrator shall compute and announce the uniform price per hundredweight for milk purchased or received from producers during each delivery period in the following manner:

(1) Combine into one total the net pool obligation computed pursuant to paragraph (a) of this section of all handlers who made the reports prescribed by section 3 and who made the payments prescribed by section 8 for the previous delivery period;

(2) For each of the delivery periods of May, June and July, subtract an amount equal to 20 cents per hundredweight of the total amount of milk received by handlers from producers and included in these computations, to be retained in the producer-settlement fund for the purpose specified in paragraph (f) (2) of section 8;

(3) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(4) Divide by a figure equal to the total hundredweight of milk received by handlers from producers and included in these computations;

(5) Subtract from the figures computed pursuant to subparagraph (4) of this paragraph not less than 4 cents nor more than 5 cents for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers. This result shall be known as the uniform price for such delivery period for the milk of producers containing 3.8 percent butterfat; and

(6) On or before the 8th day after the end of such delivery period, mail to all handlers (i) such of these computations as do not disclose information confidential pursuant to the act; (ii) the uniform price per hundredweight computed pursuant to this subparagraph; (iii) the prices for Class I milk, Class II milk and Class III milk; and the butterfat differentials computed pursuant to paragraph (c) of section 5 and paragraph (c) of section 8.

SEC. 8. *Payments for milk*—(a) *Time and method of payment.* On or before the 12th day after the end of each delivery period, each handler, after deducting the amount of the payment made pursuant to paragraph (b) of this section, and subject to the differentials set forth in paragraph (c) of this section, shall make payment to producers at the uniform price per hundredweight computed pursuant to paragraph (b) of section 7 for the total quantity of milk received from producers: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this subparagraph.

(b) *Half-delivery period payments.* On or before the 23d day of each delivery period, each handler shall make payment to each producer for the approximate value of the milk of such producer which, during the first 15 days of such delivery period, was received by such handler: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this subparagraph.

(c) *Butterfat differential.* If during the delivery period, any handler has purchased or received from any producer milk having an average butterfat content other than 3.8 percent, such handler, in making the payments prescribed in paragraph (a) of this section, shall add to the prices per hundredweight for such producer for each one-tenth of 1 percent of average butterfat content in milk above 3.8 percent not less than, or shall subtract from such prices for such producer for each one-tenth of 1 percent of average butterfat content in milk below 3.8 percent not more than, an amount computed as follows: add 4 cents to the average price of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and divide the resulting sum by 10.

(d) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to paragraphs (e) and (g) of this section and out of which he shall make all payments to handlers pursuant to paragraphs (f) and (g) of this section: *Provided*, That the market administrator shall offset any such payment due to any handler against payments due from such handler. Immediately after computing the uniform price for each delivery period, the market administrator shall compute the amount by which each handler's net pool obligation is greater or less than the sum required to be paid producers pursuant to this section by such handler, and shall enter such amount on such handler's account as such handler's pool debit or credit, as the case may be, and render such handler a transcript of his account.

(e) *Payments to the producer-settlement fund.* On or before the 10th day after the end of each delivery period, each handler shall make payment to the market administrator of any pool debit balance shown on the account rendered pursuant to paragraph (d) of this section for such delivery period.

(f) *Payments out of the producer-settlement fund.* (1) On or before the 11th day after the end of each delivery period, the market administrator shall pay to each handler the pool credit balance shown on the account rendered pursuant to paragraph (d) of this section for such delivery period, less any unpaid obligations of the handler. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uni-

formly such payments and shall complete such payments as soon as the necessary funds are available. No handler, who, on the 12th day after the end of each delivery period, has not received the balance of the payment due him from the market administrator shall be deemed to be in violation of paragraph (a) of this section if he reduces his total payments uniformly to all producers by not more than the amount of the reduction in payment from the producer-settlement fund. Nothing in this paragraph shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

(2) On or before the 15th day after the end of each of the delivery periods of October, November, and December, the market administrator shall pay out of the producer-settlement fund to each producer an amount computed as follows: divide one-third of the total amount held pursuant to paragraph (b) (2) of section 7 by the hundredweight of producer milk received during the delivery period (October, November, or December, as above) and apply the resulting amount per hundredweight to the milk of each producer for such delivery period: *Provided*, That payment under this subparagraph due any producer who has given authority to a cooperative association which is qualified pursuant to paragraph (b) of section 9 to receive payments for his milk shall be distributed to such cooperative association if the cooperative association requests receipt of such payment.

(g) *Adjustment of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to the producer-settlement fund pursuant to paragraph (c) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billings, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to paragraph (f) of this section, the market administrator shall, within 5 days, make such payment to such handler or offset any such payment due any handler against payments due from such handler. Whenever verification by the market administrator of the payment by a handler to any producer, for milk purchased or received by such handler, discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payments to producers next following such disclosures.

(h) *Statements to producers.* In making payments to producers as prescribed in paragraph (a) of this section, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of paragraphs (a) and (c) of this section;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and section 9 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

SEC. 9. *Marketing service.*—(a) *Deduction for marketing service.* Except as set forth in paragraph (b) of this section, each handler shall deduct 4 cents per hundredweight from the payments made to each producer other than himself pursuant to paragraph (a) of section 8 with respect to all milk of each producer purchased or received by such handler during the delivery period, and shall pay such deductions to the market administrator on or before the 12th day after the end of such delivery period. Such monies shall be expended by the market administrator for market information to, and for the verification of weights, sampling, and testing of milk received from said producers.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing the services set forth in paragraph (a) of this section, each handler shall make the deductions from the payments to be made pursuant to paragraph (a) of section 8, which are authorized by such producers, and, on or before the 12th day after the end of each delivery period, pay over such deductions to the association of which such producers are members.

SEC. 10. *Expense of administration.*—(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler who purchased or received milk from producers, with respect to all milk received from producers during the delivery period, shall pay to the market administrator, on or before the 12th day after the end of such delivery period, or such lesser amount as the Secretary may from time to time prescribe.

The Dairy Branch, Production and Marketing Administration, has proposed the following provisions:

SEC. 11. *Effective time, suspension, or termination.*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The Secretary may suspend or terminate this order, or any provision hereof, whenever he finds that this order, or any provision hereof, obstructs, or does not tend to effectuate the declared policy of the act. This order shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which require further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(d) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary, (ii) from time to time account for all receipts and disbursements and, when so directed by the Secretary, deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary may direct, and (iii) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate, shall liquidate, if so directed by the Secretary, the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

SEC. 12. *Separability of provisions.* If any provisions hereof, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

SEC. 13. *Agents.* The Secretary may, by designation in writing name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

The St. Joseph milk distributors have proposed the following provisions:

1. In place of paragraph (c) of section 1 of the above proposed marketing agreement and order substitute the following:

(c) "St. Joseph marketing area," hereinafter called the "marketing area," means all the territory in Buchanan County, Missouri, Jefferson Township and Nodaway Township, both in Andrew County, Missouri, and Doniphan County, Kansas.

2. In place of paragraphs (e) and (f) of section 1 of the above proposed marketing agreement and order substitute the following:

(e) "Producer" means any person, except a producer-handler, having certification issued by the appropriate health authority in the marketing area to produce milk for disposition within the marketing area in the form of fluid milk.

(f) "Handler" means (1) any person, including any cooperative association, who operates a milk plant from which a route is operated wholly or partially within the marketing area; (2) any cooperative association which operates a milk plant at which milk is received from producers. This definition shall include a cooperative association with respect to the milk of any producer which it causes to be diverted from a plant from which milk is disposed of as Class I milk in the marketing area to a plant from which no milk is disposed of as Class I milk in the marketing area.

3. Add to section 5 of the above proposed marketing agreement and order the following:

(d) *Sales outside the marketing area.* The price to be paid by handlers for Class I milk disposed of outside the marketing area shall be 23 cents per hundredweight less than the Class I price.

Copies of this notice of hearing may be procured from the Hearing Clerk, United States Department of Agriculture, Room 0306, South Building, Washington 25, D. C., or may be there inspected.

Dated: April 17, 1947.

PEORIA UNION STOCK YARDS CO.

NOTICE OF PETITION FOR EXTENSION OF TEMPORARY RATES

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), the Secretary of Agriculture on December 18, 1946, issued an order (5 A. D. 877) providing for certain temporary rates and charges for the respondent stockyard company and for the continuation of certain temporary rates and charges of the respondent company then in effect for a period ending May 31, 1947.

By petition filed on April 11, 1947, the respondent has requested that the said temporary rates and charges of the respondent stockyard company be extended and made effective until May 31, 1948.

It appears that public notice should be given of the filing of such petition in order that all interested persons may have an opportunity to be heard in the matter.

Now, therefore, notice is hereby given to the public and to all interested persons of the filing of such petition for an extension of temporary rates and charges.

All interested persons who desire to be heard upon the matter requested in said petition shall notify the hearing clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of publication of this notice.

Copies hereof shall be served upon the respondent by registered mail or in person.

Done at Washington, D. C., this 16th day of April 1947.

CIVIL AERONAUTICS BOARD

[Docket No. 2841]

ADDITIONAL AIRMAIL SERVICE FOR HAWAII

NOTICE OF HEARING

In the matter of the certification by the Postmaster General of the additional needs of the postal service for the transportation of mail by aircraft in Hawaii filed pursuant to section 401–n of the Civil Aeronautics Act of 1938, as amended.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, that a hearing in the above-entitled proceeding is assigned to be held on April 24, 1947, at 10:00 o'clock, a. m., eastern standard time, in Room 1302, Temporary Building "T", 14th St. and Constitution Ave., N. W., Washington, D. C., before Examiner F. A. Law, Jr. Without limiting the scope of the issues presented by said certification, particular attention will be directed to the following needs and questions:

1. Whether the proposed additional mail service is required by the public convenience and necessity.

2. Whether the present airlines serving the points involved, except with respect to mail is fit, willing and able to perform the transportation proposed by the Postmaster General and conform to the provisions of the act and the rules, regulations and requirements of the Board thereunder.

Notice is further given that any person desiring to be heard in this proceeding shall file with the Board, on or before April 24, 1947, a statement setting forth the issues of fact or law raised in said proceeding, which he desires to controvert. For further details of the service proposed, the authorization requested, interested parties are referred to the statement and certificate of the Postmaster General on file with the Civil Aeronautics Board in the above-designated docket.

Dated at Washington, D. C., April 17, 1947.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 7949]

BENDIX AVIATION CORP.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In the matter of Bendix Aviation Corporation for construction permit for an experimental Class 2 portable radio station for developing and testing an automatic warning system for oil field pumping equipment. File No. 3533–PE–B, Docket No. 7949.

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of April 1947,

The Commission, having under consideration the application of Bendix Aviation Corporation (File No. 3533–PE–B) for a construction permit for an Experimental Class 2 portable radio station for developing and testing an automatic warning system for oil field pumping equipment; and

It appearing, that this application presents various questions concerning the technical qualifications of the applicant and the most efficient use of available radio frequencies;

It is ordered, That the above-entitled application be, and it is hereby designated for hearing, pursuant to section 309 (a) of the Communications Act of 1934, as amended, upon the following issues:

1. To determine whether the applicant is qualified to be the licensee of the Experimental Class 2 station proposed in its application.

2. To determine the nature, extent and purpose of the operations proposed to be conducted by the applicant.

3. To determine whether additional experimentation is necessary in the development and testing of the applicant's automatic warning system for oil field pumping equipment.

4. To obtain full information with respect to the feasibility of rendering the proposed service by means other than radio.

5. To determine whether a grant in the 72–76 Mc band would be consistent with the Commission's general allocation plan.

6. To obtain full information with respect to availability of equipment for operation in the 940–960 Mc band.

7. To determine whether a grant of interim operation in the 72–76 Mc band as proposed by the applicant would or would not be conducive to the development of the service in accordance with the Commission's allocation plan.

8. To determine whether the proposed operation in the 72–76 Mc band would result in objectionable interference to or from stations authorized, or which may be authorized, pursuant to the Commission's report of allocations above 25 Mc dated May 25, 1945, and the Commission's frequency service allocations dated July 19, 1946.

It is further ordered, That any person desiring to intervene herein shall petition therefor pursuant to § 1.388 of the Commission's rules and regulations; and

It is further ordered, That upon the filing of a notice of appearance herein by the applicant on or before April 28, 1947, the hearing on the foregoing application shall commence on a date to be determined at the offices of the Commission, Washington, D. C.

By the Commission.

MID-CAROLINA BROADCASTING CO. AND T. JULIAN SKINNER, JR.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Mid-Carolina Broadcasting Company, Salisbury, North Carolina, Docket No. 8029, File No. BP-5322; T. Julian Skinner, Jr., Charlotte, North Carolina, Docket No. 8286, File No. BP-5817; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled applications of Mid-Carolina Broadcasting Company requesting a construction permit for a new standard broadcast station to operate on the frequency 940 kc, with 1 kw power, daytime only, at Salisbury, North Carolina, and that of T. Julian Skinner, Jr., requesting a construction permit for such a station at Charlotte, North Carolina to operate on the frequency 930 kc, with 1 kw power, unlimited time, using a directional antenna day and night;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the individual applicant and of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine whether the operation of the proposed stations, or either of them, would involve objectionable interference with the Canadian station CFBC, St. Johns, New Brunswick, and Cuban station CMKN, Santiago de Cuba, or any other foreign broadcast station, as defined in the North American Regional Broadcasting Agreement, and the nature and extent thereof.

8. To determine, on a comparative basis which, if either, of the applications in this proceeding should be granted.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Blackhawk Broadcasting Company, Sterling, Illinois, Docket No. 8179, File No. BP-5409; WTAX, Inc. (WTAX), Springfield, Illinois, Docket No. 8180, File No. BP-5588; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled applications of Blackhawk Broadcasting Company requesting a construction permit for a new standard broadcast station to operate on 1240 kc, 250 w power, unlimited time, at Sterling, Illinois, and WTAX, Inc., requesting a construction permit to change the facilities of Station WTAX, Springfield, Illinois from 1240 kc, 100 w power, unlimited time to 1240 kc, 250 w power, unlimited time;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporations, their officers, directors and stockholders to construct and operate the proposed station and Station WTAX as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operations of the proposed station and Station WTAX as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station and Station WTAX as proposed would involve objectionable interference with Stations WSBC, WEDC and WCRW, Chicago, Illinois; WQUA, Moline, Illinois; KBIZ, Ottumwa, Iowa; KWLC and KDEC, Decorah, Iowa; WIBU, Poynette, Wisconsin; WHBF, Rock Island, Illinois; WJBC, Bloomington, Illinois; KFMO, Flat River, Missouri; WEBQ, Harrisburg, Illinois; and KWOS, Jefferson City, Missouri, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station and Station WTAX as proposed would involve objectionable interference, each with the others, or with the services proposed in the pending application of Rock Island Broadcasting Company (WHBF) (File No. BML-1246) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installations and operations of the proposed station and Station WTAX as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That Julius Miller, Oscar Miller, Bertha L. Miller, Gertrude Miller and Arnold B. Miller, d/b as Radio Station WSBC, licensee of Station WSBC, Chicago, Illinois; Emil Denemark, Incorporated, licensee of Station WEDC, Chicago, Illinois; Clinton R. [Docket No. 8278]

WESTERN UNION TELEGRAPH CO.

ORDER DESIGNATING APPLICATION FOR HEARING

In the matter of the application of The Western Union Telegraph Company, for an authorization under section 214 of the Communications Act of 1934, as amended; Docket No. 8278, File No. T-D-770; (Bellefontaine, Delphos, Lebanon, Marysville, Mount Gilead and Ottawa, Ohio).

At a session of the Federal Communications Commission, held at its offices in Washington, D. C. on the 10th day of April 1947;

The Commission, having under consideration the application filed under section 214 of the Communications Act of 1934, as amended, by The Western Union Telegraph Company, File No. T-D-770, for authority to discontinue its Class I-B telegraph offices at Bellefontaine, Delphos, Lebanon, Marysville, Mount Gilead and Ottawa, Ohio, with substitute service to be provided through teleprinter-operated agency offices to be established in each community and to be operated by local telephone companies under the management of the Telephone Service Company of Ohio; and

It appearing, that numerous communications have been received from the public both in opposition to, and in support of, a grant of the application;

It further appearing, that the present or future public convenience or necessity may be adversely affected by the conversion to agency operation as proposed in the application;

It is ordered, That pursuant to section 214 of the Communications Act of 1934, as amended, the above-described application of The Western Union Telegraph Company is designated for hearing, and that, with respect to each of the above-named points, the matters to be considered at such hearing shall include, but not be limited to, the following questions:

1. Whether the present or future public convenience or necessity will be adversely affected by the proposed replacement of Western Union operation with a telephone company-operated agency;

2. The character, quality, scope and adequacy of telegraph service, facilities, and personnel now provided through applicant's Class I-B office;

3. The character, quality, scope and adequacy of the telegraph service, facilities, and personnel which will be provided if the application is granted.

4. Comparison of the character, quality, scope, and adequacy of the proposed service, facilities, and personnel with those now being provided, with particular reference to any reduction, impairment, extension or improvement in service which may result from the proposed change;

5. The nature and extent of the requirements of local telegraph users for telegraph service, and the ability of the proposed telephone company-operated agency to meet such requirements;

6. The nature of the contractual arrangements between the applicant and its proposed agent, and the extent to which applicant will maintain control over the character, quality, scope, and adequacy of the telegraph service, facilities, and personnel to be provided by the agent, and over the availability of telegraph service to the public during specific hours;

7. The extent of any savings which will accrue to the applicant from the conversion of its Class I-B office to agency operation as proposed in the application and the weight to be given this factor in a determination upon the application;

8. The extent to which the proposed conversion to agency operation may result in either a diminution or increase in the use of telegraph service;

9. The nature of the proposed plan, referred to in paragraph (h) of the application, to provide physical representation and make available twenty-four hour telegraph service for telephone subscribers through telephone-operated agency offices at 115 communities adjacent to the six communities referred to

above, and the extent to which the public may benefit from such plan in the event it is consummated;

It is further ordered, That The Western Union Telegraph Company is made a party respondent to this proceeding, and that a copy hereof shall be served upon it;

It is further ordered, That a copy hereof shall be served upon the Secretary of War, the Secretary of the Navy, the Governor and Public Utilities Commission of the State of Ohio, the National Association of Railroad and Utilities Commissioners; the Commercial Telegraphers' Union—A. F. L., the Mayors of Bellefontaine, Delphos, Lebanon, Marysville, Mt. Gilead, and Ottawa, Ohio, and the Telephone Service Company of Ohio, and each of the above parties is given leave to intervene and participate fully in the proceedings herein; and that a copy hereof shall also be served upon each of the other persons who have communicated to the Commission their interest in this application;

It is further ordered, That this proceeding is assigned for hearing, to begin at 10:00 a. m. on the 14th day of May 1947, in Mt. Gilead, Ohio, at a location to be hereafter designated.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

WILMINGTON TRI-STATE BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Wilmington Tri-State Broadcasting Company, Inc., Wilmington, Delaware, for construction permit; Docket No. 8280, File No. BP-5873.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 650 kc, with 250 w power, daytime only, at Wilmington, Delaware;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Wilmington Tri-State Broadcasting Company, Inc., be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with Station WNBC, New York, New York, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That National Broadcasting Company, Inc., licensee of Station WNBC, New York, New York, be, and it is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

NORTHEAST RADIO, INC., ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Northeast Radio, Inc., Lawrence, Massachusetts, Docket No. 8283, File No. BP-5302; Viking Broadcasting Company, Newport, Rhode Island, Docket No. 8284, File No. BP-5953; Troy Broadcasting Company, Inc. (WTRY), Troy, New York, Docket No. 8282, File No. BP-4591; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947,

The Commission having under consideration the above-entitled applications of Northeast Radio, Inc., requesting a construction permit for a new standard broadcast station to operate on 980 kc, 1 kw power, daytime only, at Lawrence, Massachusetts, Viking Broadcasting Company, requesting the same facilities at Newport, Rhode Island, and Troy Broadcasting Company, Inc. (WTRY), presently operating on 980 kc, 1 kw, unlimited time, using a directional antenna, to increase power to 5 kw, to change the location of its transmitter, and to make changes in its directional antenna array,

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be designated by subsequent order of the Commission upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicants Northeast Radio, Inc., and Viking Broadcasting Co., their respective officers, directors and stockholders to construct and operate their proposed station, and the technical, financial and other qualifications of the applicant Troy Broadcasting Company, Inc., its officers, directors and stockholders, to construct and operate Station WTRY as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the proposed operations or any one of them would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the proposed operations would involve objectionable interference with the other or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installations and operations proposed by the applicants would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Keystone Broadcasting Company, Harrisburg, Pennsylvania, File No. BPH-183, Docket No. 8291; York Broadcasting Company, York, Pennsylvania, File No. BPH-184, Docket No. 8292; Reading Broadcasting Company, Reading, Pennsylvania, File No. BPH-522, Docket No. 8293; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 4th day of April 1947;

The Commission having under consideration the above-entitled applications for construction permits for new Class B FM broadcast stations; and

It appearing, that the Commission on March 10, 1947 designated for hearing in a consolidated proceeding the applications of WDEL, Inc., Wilmington, Delaware (File No. BPH-177, Docket No. 7834), and Wilmington Tri-State Broadcasting Company, Inc., Wilmington, Delaware (File No. BPH-1195, Docket No. 8234), each requesting a construction permit for a new class B FM broadcast station at Wilmington, Delaware,

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled applications be, and they are hereby, designated for hearing in a consolidated proceeding with the applications in the above-mentioned consolidated hearing to be heard at Wilmington, Delaware, commencing April 29, 1947 at 10 o'clock a. m. each upon the following issues:

1. To determine what overlap of service areas, if any, exists between the proposed station and any other existing or proposed stations owned, operated or controlled by the same interests as the proposed station, and whether such overlap, if any, is in contravention of § 3.240 of the Commission's rules and regulations.

2. To determine which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Commission's orders heretofore issued in the proceeding on Dockets Nos. 7834 and 8234 be, and they are hereby amended to include the applications of the Keystone Broadcasting Company (File No. BPH-183), The York Broadcasting Company (File No. BPH-184) and the Reading Broadcasting Company (File No. BPH-522).

FEDERAL POWER COMMISSION

[Docket No. G-880]

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

APRIL 16, 1947.

Notice is hereby given that on March 26, 1947, Texas Eastern Transmission Corporation (Applicant), a Delaware corporation having its principal office in Houston, Texas, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to acquire, construct and operate the following described natural gas transmission facilities:

A. Facilities to be acquired and operated (which are the so-called "Big Inch" and "Little Big Inch" pipelines):

1. 1253.70 miles of 24-inch transmission pipeline originating at Longview, Texas, and extending to Phoenixville, Pennsylvania, together with approximately 20 miles of 20-inch lateral pipeline and approximately 29 miles of 16-inch, 14-inch, and 12-inch lateral pipeline extending from Phoenixville to Philadelphia, and to the oil refinery area in the vicinity of Chester and Marcus Hook, Pennsylvania; also, approximately 84 miles of 20-inch lateral pipeline extending to Linden, New Jersey.

2. 1.477 miles of 20-inch transmission pipeline originating at Beaumont, Texas, and extending to Linden, New Jersey, together with approximately .39 mile of 16-inch, 1.77 miles of 14-inch, 12.67 miles of 12-inch, 6.39 miles of 10-inch, 1.41 miles of 8-inch and 1.42 miles of 6-inch lateral pipelines extending from Linden, New Jersey to coastal refineries in that area.

3. 60 oil pump stations with an aggregate of 243,500 installed horsepower.

B. Facilities to be constructed and operated:

1. 2 miles of 8-inch pipe to Chester, Pennsylvania.

2. 12 miles of 8-inch pipe to West Conshohocken, Pennsylvania.

3. 13 miles of 8-inch pipe to Trenton, New Jersey.

4. 4 miles of 8-inch pipe to Central Works, New Jersey.

5. 1 mile of 10-inch pipe to Philadelphia Station A.

6. 8 miles of 10-inch pipe to Philadelphia Station B.

7. 23 miles of 12-inch pipe extending from Linden to Paterson, New Jersey.

8. 3 miles of 12-inch pipe to Jersey City, New Jersey.

9. 24 gas compressor stations with an aggregate of 122,000 installed horsepower in addition to three (3) compressor stations with an aggregate of 18,000 installed horsepower to be built under a temporary certificate issued in Docket No. C-880 by order dated March 21, 1947.

10. 31 loop lines at river crossings of 20-inch pipeline.

11. 30 loop lines at river crossings of 16-inch pipeline.

12. 63 additional main line 24-inch valves and 69 additional main line 20-inch valves.

The application describes the proposed project substantially as follows:

Applicant is a new corporation, recently organized for the purpose, among other things, of buying, constructing and operating the pipeline and facilities hereinbefore specified for the transportation of natural gas in interstate commerce from the Southwest to the Appalachian and Eastern Seaboard areas. Applicant has entered into a Letter of Intent with the War Assets Administration, dated February 25, 1947, for the purchase of the Big Inch and Little Big Inch pipeline properties. Applicant has entered into a Lease Agreement with Reconstruction Finance Corporation, dated March 12, 1947, for the lease of said properties commencing on May 1, 1947. Applicant proposes to operate the pipelines in the transmission of natural gas to the Appalachian area during the term of such lease. Thereafter, Applicant proposes to operate the pipelines for the transmission of natural gas to the Appalachian area and initially to the Eastern Seaboard areas of Philadelphia and New Jersey. In the Philadelphia and New Jersey areas, Applicant proposes to sell natural gas to gas distributing companies now distributing manufactured gas in these areas. It is anticipated that the natural gas supplied to these companies will be used principally to supplement the present supply through the enrichment and reforming of the manufactured gas product, and in this use, it will replace in part the oil which is now used for enriching. It is not contemplated that natural gas will replace coal nor reduce the amount of coal or coke consumed or used in the manufacture of artificial gas. It is contemplated that such distributing companies will do their own load-balancing, but if it is necessary for Applicant to make any interruptible sales for load-balancing purposes, it will undertake to make such sales to oil refineries on the Eastern Seaboard which are using oil as fuel. Applicant further states that at a later date it may request authority to extend and enlarge its system to serve the Baltimore, New York and New England areas.

Applicant has obtained a permit to do business in the State of Texas, and it will obtain permits to do business in the States of Louisiana, Ohio, Pennsylvania, Maryland, New Jersey and New York.

The facilities sought to be acquired, constructed and operated are designed to deliver at the eastern terminal approximately 425,000,000 cubic feet of gas per day using all of the facilities described herein. The intake pressure will be approximately 750 pounds p. s. i. The pipelines will be operated as a looped system from Little Rock, Arkansas, to Linden, New Jersey, and this will require tying the lines together at river crossings and at compressor stations.

Applicant proposes to purchase its gas requirements from sources within economic gas pipeline gathering distances from the termini of its lines, or from other sources located along the lines within economic reach thereof, with particular reference to purchases from independent producers. Applicant does not, at present, contemplate entering into the business of producing or gathering gas, but intends to accept delivery of gas at its main line connections at the operating pressure in the main line at the point of connection (not to exceed 750 pounds).

Applicant is now negotiating with various producers for its gas requirements. Applicant is considering a proposal to purchase an amount not to exceed 25% of its requirements from United Gas Pipe Line Company. Additional negotiations are being undertaken to purchase other gas from producers in the Gulf Coast area, one of the major gas producing areas of the country. Applicant states that the reserves available to it in this area are adequate to support its project for a period in excess of thirty years.

Applicant's prospective physical connections with the United Gas System described above afford Applicant a unique opportunity to make the maximum utilization of flare gas and the gas of independent producers throughout the entire Gulf Coast area. Gas may be introduced into the main lines of Texas Eastern at any of the points of intersection with United's system, as well as at the termini of Texas Eastern's main lines. In cases where flare gas, or other gas of independent producers, is produced from fields located at points too remote for economic piping to the lines of the Texas Eastern System, the gas may be purchased and placed in United's system, and an equal quantity taken from United's system at the points of intersection. Applicant intends to give priority to the purchase of flare gas up to at least 25 percent of the throughput capacity of Applicant's lines.

The estimated total over-all capital cost of acquiring the Big Inch and Little Big Inch pipeline properties, converting the pipelines to gas transmission service, constructing compressor stations sufficient to provide a throughput capacity of approximately 425,000 Mcf per day, and extending the lines to the distribution systems to be served in the Philadelphia and New Jersey areas is $182,107,000. No estimated cash requirements for interest during construction is included. Applicant estimates that interest payments during the interim lease and conversion period will be more than

covered by cash income during such period. At or immediately prior to the time of transfer of title to the properties, Applicant intends to raise sufficient funds by the sale of securities to make the final payment due the Government amounting to approximately $138,000,000, and to repay the notes payable then outstanding. Applicant proposes in carrying out its permanent financing plan to repay the then outstanding notes payable and to authorize the issuance of the following securities: $20,000,000 of 2¼% Notes Payable, $123,000,000 of 3% First Mortgage Bonds and 37,900,000 Preferred and Common Stock. It is currently anticipated that the financing described above will be carried out through the sale of securities to private investors and/or the public generally.

Applicant will furnish an exhibit at the hearing, details concerning the contracts for the sale and purchase of gas which it is now negotiating. Applicant will at that time also furnish as an exhibit a statement of the total revenues expected from the operation of the properties to be acquired and operated, the total fixed charges and the total operating expenses, based, among other things, on the prices for natural gas established in Applicant's gas sales and gas purchase contracts.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

The application of Texas Eastern Transmission Corporation is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946) and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Docket No. G-885]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

APRIL 16, 1947.

Notice is hereby given that on April 2, 1947, Cities Service Gas Company (Applicant), a Delaware corporation having its principal office in Oklahoma City, Oklahoma, filed an application with the Federal Power Commission pursuant to section 7 of the Natural Gas Act for authority to abandon a certain portion of its natural gas facilities, subject to the jurisdiction of the Commission, described as follows:

Approximately 8.09 miles of 4-inch pipeline extending from a point on Applicant's 10-inch pipeline in Section 11, Township 25 South, Range 2 West, Sedgwick County, Kansas, North to a point near Halstead, Kansas, in Section 35, Township 23 South, Range 2 West, Harvey County, Kansas.

Applicant states in its application that the said line was constructed in 1906 to transport gas for distribution within the City of Halstead, Kansas, and that at the present time the said City of Halstead is operating its municipally owned distribution system for which purchases of gas are made from Drillers Gas Company. Applicant further states that the facility sought to be abandoned is not used for service to any other customer and said facility is no longer used or useful in its present location. Applicant wishes to reclaim the facility in order to obtain the pipe for use elsewhere on its pipeline system.

Applicant estimates that the cost of reclaiming the facility is $11,612.00 and will result in a net salvage value of the facility of $7,755.00.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

The application of Cities Service Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined.

Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Project No. 16]

NIAGARA FALLS POWER CO.

ORDER CHANGING DATE FOR ORAL ARGUMENT

(1) On April 8, 1947, the Commission fixed April 25, 1947, as the date for oral argument on application filed by The Niagara Falls Power Company, licensee, for amendment of the license for Project No. 16 to include certain claimed water rights which it proposes to acquire from Buffalo Niagara Electric Corporation.

(2) By letter dated April 15, 1947, licensee has requested a change in the date set for the oral argument.

The Commission finds that:

(3) A change in the date for the oral argument, as hereinafter provided, will not be inconsistent with the public interest.

It is ordered, That:

(4) The date and time set for oral argument before the Commission on the question of the validity of the water rights referred to above and the authority of the Federal Power Commission to approve the license amendment requested are hereby changed to commence at 10:15 a. m., on Wednesday, May 14, 1947, in the Commission's Hearing Room, 12th floor, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: April 17, 1947.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3069]

A. D. F. Co.

MEMORANDUM OPINION AND ORDER GRANTING APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of April A. D. 1947.

The New York Curb Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from listing and registration the Capital Stock, $5.00 Par Value, of A. D. F. Co., which until August 27, 1945 was known as Atlas Drop Forge Company.

Appropriate notice and opportunity for hearing has been given to interested persons and the public generally. No request has been received from any interested person for a hearing in this matter.

After due consideration of the record in this matter and on the basis of the facts stated under oath in the application of the New York Curb Exchange to strike this security from listing and registration, we make the following findings: (1) the issuer on September 4, 1945 sold substantially all of its assets to a wholly-owned subsidiary of Spicer Manufacturing Corporation in consideration of the sum of $1,436,835.47; (2) the issuer ceased manufacturing operations on August 31, 1945; (3) the issuer is in the process of complete and final liquidation; (4) the issuer has distributed to its shareholders two liquidating dividends totalling $13.00 per share; (5) the only remaining assets are approximately $400,000, composed principally of United States Government securities and cash, which would amount to $2.68 per share, subject to certain contingent liabilities in amounts not presently ascertainable; (6) the New York Curb Exchange suspended dealings in this security on January 15, 1947; and (7) the rules of the New York Curb Exchange with respect to the striking of a security from listing and registration have been complied with.

On the basis of these findings and pursuant to section 12 (d) of the Securities Exchange Act of 1934;

It is ordered, That the application be, and the same is, hereby granted, effective at the close of the trading session on April 26, 1947.

By the Commission.

LIGGETT & MYERS TOBACCO CO.

ORDER GRANTING DETERMINATION CONCERNING VALUE OF CERTAIN STOCK

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of April A. D. 1947.

The Philadelphia Stock Exchange has made application under Rule X-12F-2 (b) for a determination that the Common Stock, $25 Par Value, of Liggett & Myers Tobacco Company is substantially equivalent to the Common Stock B, $25 Par Value, of that company, which has heretofore been admitted to unlisted trading privileges on the applicant exchange.

The Commission having duly considered the matter, and having due regard for the public interest and the protection of investors;

It is ordered, Pursuant to sections 12 (f) and 23 (a) of the Securities Exchange Act of 1934 and Rule X-12F-2 (b) thereunder, that the Common Stock, $25 Par Value, of Liggett & Myers Tobacco Company is hereby determined to be substantially equivalent to the Common Stock B, $25 Par Value, of that company heretofore admitted to unlisted trading privileges on the applicant exchange.

MIDDLE WEST CORP. ET AL.

SUPPLEMENTAL ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 15th day of April 1947.

In the matter of The Middle West Corporation, Central and South West Utilities Company, and American Public Service Company, File No. 54-81.

The Middle West Corporation (Middle West), a registered holding company, having filed an application-declaration, and an amendment thereto, requesting the Commission, among other things, to extend to June 30, 1947 the time within which it may comply with that portion of an order of the Commission entered on April 30, 1946, as modified, approving a Plan filed pursuant to the provisions of section 11 (e) of the Public Utility Holding Company Act of 1935 for the merger and reorganization of Central and South West Utilities Company and American Public Service Company, subsidiaries of Middle West, which approved the distribution by Middle West to its own stockholders of the common stock of Central and South West Corporation (Central), the surviving company, to be received by it under the Plan; and

Pursuant to appropriate notice, public hearings having been held and counsel for certain stockholders of Central and Middle West, who were granted leave to be heard, having filed a Motion in the proceedings, which was certified to the Commission by the Hearing Officer, requesting, among other things, that the annual meeting of stockholders of Central to be held on April 15, 1947 be adjourned to a specified date subsequent to the divestment by Middle West of its interest in Central, that the election of directors at such adjourned meeting be held under the direction and control of the Commission and in accordance with the procedure specified in said Motion, and that pending such divestment Middle West not be permitted to vote its shares of Central common stock for the election of directors of Central; and

The Commission having heard oral argument on said Motion and Middle West having entered into a Stipulation with counsel for the Public Utilities Division that it will, among other things, cause the adjournment to August 15, 1947 of the annual meeting of stockholders of Central, cause Central to designate a new and appropriate date of record for the purpose of qualifying the stock of Central to be voted at the adjourned meeting of stockholders, and distribute on or about June 14, 1947 to its own stockholders, as of a record date to be determined, the common stock of Central which it owns on the basis of one share of common stock of Central for each share of common stock of Middle West; and

The Commission having considered the record, the motion filed on behalf of the participating common stockholders of Middle West and Central, the oral argument thereon, and the Stipulation entered into by counsel for Middle West with counsel for the Public Utilities Division:

It is ordered, That the provisions of the order of April 30, 1946, as modified, approving Middle West's proposal to distribute to its own stockholders the common stock of Central received under the Plan for the merger and reorganization of Central and South West Utilities Company and American Public Service Company be further modified to extend until June 14, 1947 the time within which Middle West may comply with the provisions of the Plan for the distribution of said stock, subject, however, to the conditions specified in Rule U-24 and to the following conditions:

(1) That The Middle West Corporation will cause the adjournment to August 15, 1947, of the Annual Meeting of Stockholders of Central and South West Corporation to be held on April 15, 1947, and that it will vote its shares of common stock of Central and South West Corporation or any proxies it may hold or control for such adjournment and for no other purpose.

(2) That The Middle West Corporation will cause Central and South West Corporation to designate a new date of record not exceeding 30 days prior to the 15th of August 1947, for the purpose of qualifying shares to vote for the election of directors of Central and South West Corporation.

It is further ordered, That jurisdiction be, and hereby is, reserved with respect to all other issues raised by the application-declaration, as amended, and by the Motion filed on behalf of certain stockholders of Central and Middle West and that the hearings in these proceedings be reconvened at an early date for the purpose of taking testimony and otherwise completing the record with respect to the issues remaining.

By the Commission.

NORTHERN NATURAL GAS CO. AND KANSAS POWER AND LIGHT CO.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of April 1947.

In the matter of Northern Natural Gas Company, File No. 70-1404; The Kansas Power and Light Company, File No. 70-1408.

The Commission having on February 17, 1947, issued an order granting the application, as amended, herein and permitting the declaration, as amended, herein to become effective subject to the terms and conditions prescribed in Rule U-24 promulgated under the Public Utility Holding Company Act of 1935, which order contained the recitals that both The Kansas Power and Light Company and Northern Natural Gas Company had filed applications with the Federal Power Commission for certificates of public convenience and necessity with respect to the transactions proposed in these proceedings; and

The Commission being advised that the Federal Power Commission has not acted pursuant to the applications for such certificates of public convenience and necessity filed by The Kansas Power and Light Company and Northern Natural Gas Company; and

The Northern Natural Gas Company having requested that the Commission extend the time within which the proposed transactions may be completed beyond the period of sixty days after the declaration became effective and the application was granted in these proceedings; and

It appearing to the Commission that such request may appropriately be granted:

It is hereby ordered, Pursuant to the provisions of Rule U-24 (c) (1) promulgated under the Public Utility Holding Company Act of 1935 that the transactions proposed in these proceedings shall be completed within 60 days after the date of this order, without prejudice to the right of the applicant and the declarant herein to request the Commission, upon a proper showing, for additional time within which to complete the proposed transactions.

By the Commission.

DELAWARE POWER & LIGHT CO. AND EASTERN SHORE PUBLIC SERVICE CO. OF VIRGINIA

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 15th day of April 1947.

Delaware Power & Light Company ("Delaware"), a registered holding company, and its subsidiary, Eastern Shore Public Service Company of Virginia ("Eastern Shore"), a public utility company, having filed a joint application-declaration, with amendments thereto, pursuant to sections 6 (b), 9 (a), 12 (d) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-43 and U-44 promulgated thereunder with respect to the following transactions:

Eastern Shore will issue and sell, from time to time, but not later than December 31, 1948, up to $350,000 principal amount of its 3½% promissory notes due October 1, 1973 and 3500 shares of its common stock of the par value of $100 per share. Delaware will purchase said securities at the principal amount or par value, respectively, and upon the purchase of any notes, Delaware will purchase common stock of an aggregate par value equal to the principal amount of such notes. The proceeds from the sale of said notes and common stock, which will not exceed $700,000, are to be used to reimburse Eastern Shore's treasury for money expended for construction during the year 1947. The notes and stock to be acquired by Delaware will be pledged by it with the Trustee under its mortgage dated October 1, 1943 in accordance with the provisions of the Indenture of Mortgage.

The proposed issue and sale of securities by Eastern Shore have been approved by the State Corporation Commission of Virginia.

The application-declaration having been filed February 21, 1947 and amendments thereto having been filed on February 27, 1947 and on March 12, 1947, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application-declaration, as amended, within the period specified or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective and deeming it appropriate to grant the request of declarants that the order become effective at the earliest date possible:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said joint application-declaration, as amended, be, and the same hereby is granted and permitted to become effective forthwith.

By the Commission.

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pa., on the 16th day of April A. D. 1947.

Public Service Company of New Hampshire ("New Hampshire"), a subsidiary of New England Public Service Company, a registered holding company, having filed an application, pursuant to the first sentence of section 6 (b) of the Public Utility Holding Company Act of 1935, with respect to the following transactions:

New Hampshire proposes to borrow from one or more banks, during the period from April 1, 1947, to December 31, 1947, an amount not in excess of $4,400,000 (including $1,200,000 presently outstanding short term obligations) and to issue from time to time in evidence thereof its promissory notes with a maturity of not more than nine months. The proceeds of said loans are to be used to finance the company's construction program prior to the time when funds will be available from permanent financing. Applicant states that it has been informed by the First National Bank of Boston that it will loan the company the additional funds required at the rate of 1½% per annum. It is represented by applicant that no state commission has jurisdiction over the proposed transactions; and

The application having been filed on March 19, 1947, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Applicant having requested that the Commission's order granting the application become effective immediately upon issuance, and the Commission deeming it appropriate to grant such request; and

The Commission finding with respect to said application that the requirements of the applicable sections of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application be granted;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that said application be, and the same hereby is granted forthwith.

INVESTMENT COUNSEL EQUITY FUND, INC.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of April A. D. 1947.

Notice is hereby given that Investment Counsel Equity Fund, Inc., a registered investment company, has filed an application pursuant to section 8 (f) of the Investment Company Act of 1940 for an order of the Commission, declaring that the applicant has ceased to be an investment company within the meaning of the act by virtue of the provisions of section 3 (c) (1) of the act. Section 3 (c) (1) of the act. Section 3 (c) (1) provides, in substance, that an issuer whose outstanding securities are beneficially owned by not more than one hundred persons[1] and who is not making and does not presently propose to make a public offering of its securities, shall not be deemed to be an investment company within the meaning of the act.

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination it deems the following issues to be raised by the application without prejudice to the specification of additional issues upon further examination:

(1) Whether the outstanding securities of Investment Counsel Equity Fund, Inc. are beneficially owned by not more than 100 persons; and

(2) Whether Investment Counsel Equity Fund, Inc. is not making and does not presently propose to make a public offering of its securities.

It appearing to the Commission that a hearing upon the application is necessary and appropriate;

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on April 28, 1947, at 9:45 a. m., eastern standard time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Willis E. Monty, Esquire, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-named applicant, Investment Counsel Equity Fund, Inc., and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceeding should file with the Secretary of the Commission, on or before April 25, 1947, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Hans Oertel, whose last known address is 36 Prenzenaner Strasse, Munich, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Hans Oertel, by The New Haven Bank N. B. A., 809 Chapel Street, New Haven 2, Connecticut, arising out of a checking account, entitled Hans Oertel, maintained at the aforesaid bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on April 14, 1947.

For the Attorney General.

ELISABETH SCHERER

In re: Bank account owned by Elisabeth Scherer. F-28-22701-E-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Elisabeth Scherer, whose last known address is Nussbach by Odenbach, Rh. Pfalz, Bavaria, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of Central Savings Bank in the City of New York, Broadway at 73d Street, New York, New York, arising out of a savings account, account number 1137333, entitled Elisabeth Scherer in trust for Arthur Scherer, maintained at the branch office of the aforesaid bank located at 157 4th Avenue, New York, New York, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Elisabeth Scherer, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on April 14, 1947.

It is ordered, That the respondent, Charles Shapiro, an individual trading and doing business as Modern Home Diathermy, or trading under any other name, his agents, representatives or employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of a device designated as "Vitatherm Short Wave Diathermy," or any other device of substantially similar character, whether sold under the same name or under any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents directly or by implication:

(a) That said device, when used by unskilled laymen in the treatment of self-diagnosed conditions, is a scientific or an effective or competent treatment of, or remedy for, arthritis, neuralgia, asthma, neuritis, bronchitis, rheumatism, lumbago, sinusitis, prostatitis, or similar disorders.

(b) That said device constitutes a competent or effective treatment for the alleviation of pain resulting from diseases and ailments of the human body, unless specifically limited to conditions which do not involve acute inflammatory processes, glandular structures, or the special senses.

(c) That the use of said device will establish body efficiency or provide resistance to infection or disease.

2. Disseminating or causing to be disseminated, by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which fails to reveal clearly and conspicuously that said device is not safe for use for any condition unless and until a competent medical authority has determined, as a result of diagnosis, that the use of diathermy is indicated, and has prescribed the frequency and rate of application of the treatments, and the user has been adequately instructed by a trained technician in the use of such device.

3. Disseminating or causing to be disseminated, by any means, any advertisement for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of respondent's device in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representation prohibited in paragraph 1 hereof or which fails to comply with the requirements set forth in paragraph 2 hereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

PART 945—REGULATIONS APPLICABLE TO THE OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

[Allocations Reg. 1, as Amended Apr. 22, 1947]

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of certain materials and facilities for defense, for private account, and for export; and the following regulation is deemed necessary and appropriate in the public interest and to promote the national defense.

Sec.

945.1 Purpose and scope of this regulation; definitions.
945.2 Certifications on purchase orders and other documents.
945.3 Effect of other regulations and orders.
945.4 Effect of revocation of orders and regulations.
945.5 Use or disposition of material acquired with allocations assistance.
945.6 Intra-company deliveries.
945.7 Scope of regulations and orders.
945.8 Defense against claims for damages.
945.9 Inventory restrictions.
945.10 Delivery for unlawful purposes prohibited.
945.11 Records.
945.12 Audit and inspection.
945.13 Reports.
945.14 Violations.
945.15 Appeals for relief in exceptional cases.
945.16 Notification of customers.
945.17 Transfers of quotas; transfers of a business as a going concern.
945.18 Quantities and kinds of materials or services obtainable with allocations assistance.

§ 945.1 *Purpose and scope of this regulation; definitions.* This regulation states the basic rules of the Civilian Production Administration which apply to business transactions after March 31, 1947, unless they are covered by more specific regulations or orders of the Civilian Production Administration which are inconsistent with this regulation.

It continues in effect certain of the general rules previously contained in CPA Priorities Regulations 1, 3, 7, 7A and 8. Those regulations were among the regulations and orders adopted by the Housing Expediter by Housing Expediter Priorities Order 5 and transferred to him by the Civilian Production Administration, effective April 1, 1947. CPA is continuing in simplified form only those rules deemed necessary in the administration of its functions which continue after March 31, 1947.

The following definitions apply for purposes of this regulation and any other regulation or order of the Civilian Production Administration, unless otherwise indicated.

(a) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(b) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(c) "Allocations assistance" means any authorization by the Civilian Production Administration under a regulation or other document issued by it, to obtain materials or facilities. The term includes but is not limited to authorizations for the use of export preference certificates on orders entitled to priority for export purposes, as well as certificates required to obtain materials but not entitled to priority. The terms "allocations" or "preference assistance" will usually be used in any general CPA regulation issued on or after April 1, 1947, to distinguish it from the "priorities" regulations transferred to the Housing Expediter on that date or subsequently issued by him.

§ 945.2 *Certifications on purchase orders and other documents.*—(a) *How to use a certificate on a purchase order.* When a person uses a certificate required or permitted under any CPA order, regulation or direction, he must place it on the purchase or delivery order which is being certified, or on a separate piece of paper either attached to the purchase order or clearly identifying it. A signature on the purchase order shall apply to the certificate on an attached or unattached piece of paper only where the words above the signature clearly make it include the certificate.

The certificate must be verified by the signature of the person placing the order, or of a responsible individual who is duly authorized to sign for that purpose. The signature must be either by hand or in the form of a rubber stamp or other facsimile reproduction of a handwritten signature; however, if a facsimile signature is used, the individual who uses it must be duly authorized in writing to use it by the person whose signature it is, and a written record of the authorization must be kept.

When a purchase order is placed by telegram and the certificate is used, the certificate must be set out in full in the telegram. It will be sufficient if the file copy of the outgoing telegram is signed in the manner required for certification by this regulation.

(b) *Signature on other documents.* The above rules for signing certificates on purchase orders also apply to the signature on reports, applications for authorizations to use a certificate, and other documents that are required to be filed under orders and regulations of the Civilian Production Administration.

(c) *Responsibility for truth of certification.* The person who places the

certified order or makes the application, report or other document, the individual whose signature is used, and the individual who approves the use of the signature shall each be considered to be making a representation to the Civilian Production Administration that the statements contained in the certificate or other document are true to the best of his knowledge and belief.

The person receiving the certification and other information required to be included with it shall be entitled to rely on it as a representation of the buyer unless he knows or has reason to know that it is false.

§ 945.3 *Effect of other regulations and orders.* A limited number of materials are subject to control under orders of the Civilian Production Administration, usually referred to as conservation or limitation orders, directions and supplements as published in the Federal Register, and in some instances allocations are made under them. Also, in exceptional cases, the Civilian Production Administration may issue specific directions by letter or telegram to named persons for the delivery of those or other materials or the use of facilities. Such published rules, specific allocations made under them, and specific directions for the delivery of materials or the use of facilities must be complied with regardless of export preference certificates or ratings, unless otherwise specified.

§ 945.4 *Effect of revocation of orders and regulations.* (a) When an order or regulation of the Civilian Production Administration is revoked, all published amendments, schedules, appendices, and directions to that order or regulation are revoked, unless otherwise stated in the instrument revoking the order or regulation.

(b) Whenever an order or regulation of the CPA is revoked, all directions, authorizations, allocations, production or delivery schedules and other instruments addressed to named persons pursuant to that order or regulation are revoked, unless otherwise stated in the instrument of revocation.

(c) "Suspension orders" and "consent orders" issued on the basis of a violation of orders and regulations of the Civilian Production Administration remain in effect after revocation of such orders and regulations, unless otherwise provided. If you are subject to a suspension order or consent order which you think should be lifted or modified because of the lifting of the restriction on which the violation was based, you may address a request for relief to the Civilian Production Administration, Washington 25, D. C.

§ 945.5 *Use or disposition of material acquired with allocations assistance.* (a) Any person who gets material with allocations assistance must, if possible, use or dispose of it (or of the product into which it has been incorporated) for the purpose for which the assistance was given. This restriction applies to material obtained by means of a certificate, allocation, specific direction, or any other action of the Civilian Production Administration. Physical segregation is not required as long as the restrictions applicable to any specific lot of material or product are observed with respect to an equivalent amount of the same material or product. The above restriction does not apply in the following two cases, but the rules on further use or disposition in paragraph (b) below must be observed: (1) When a material, or a product into which it has been incorporated, can no longer be used for the purpose for which the assistance was given (for example, when the assistance was given to fill a particular contract or purchase order and the material or product does not meet the customer's specifications or the contract or order is canceled); (2) When the material was obtained by means of any order, regulation, allocation, specific direction or other action of the CPA which has been revoked or cancelled, unless otherwise stated in the instrument of revocation or in any other action of the CPA.

(b) The holder of a material or product subject to paragraph (a) (1) or (2) above may sell it as long as he complies with all requirements of other applicable sections of this regulation and of other orders and regulations of the Civilian Production Administration, or he may use it himself in any manner or for any purpose as long as he complies with such requirements. If the intended use is prohibited or restricted, he must appeal or otherwise apply for permission under the applicable order or regulation.

§ 945.6 *Intra-company deliveries.* When any rule, regulation or order of the Civilian Production Administration prohibits or restricts deliveries of any material by any person, such prohibition or restriction shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

§ 945.7 *Scope of regulations and orders.* All regulations and orders of the Civilian Production Administration (including directions, directives and other instructions) apply to all subsequent transactions even though they are covered by previous contracts. Regulations and orders apply to transactions in the territories or insular possessions of the United States unless the regulation or order specifically states that it is limited to the continental United States or to the 48 states and the District of Columbia. However, restrictions of Civilian Production Administration orders or regulations on the use of material or on the amount of inventory shall not apply when the material is used or the inventory is held directly by the Army or Navy outside the 48 states and the District of Columbia, unless otherwise specifically provided. Exports and deliveries of material to be exported may be made regardless of any CPA order or regulation restricting inventories of material or uses thereof in manufacture or otherwise, or requiring certificates with respect to such inventories or uses, insofar as such inventories are maintained or such uses occur in the country to which such material is to be exported, but shall be subject to such restrictions with respect to inventories maintained or uses occurring within the United States prior to export.

§ 945.8 *Defense against claims for damages.* No persons shall be held liable for damages or penalties for any default under any contract or order which shall result directly or indirectly from compliance with any rule, regulation or order of the Civilian Production Administration, notwithstanding that any such rule, regulation or order shall thereafter be declared by judicial or other competent authority to be invalid.

§ 945.9 *Inventory restrictions.* No person may deliver or receive into inventory more of any material than is permitted under applicable CPA orders.

§ 945.10 *Delivery for unlawful purposes prohibited.* No person shall deliver any material which he knows or has reason to believe will be accepted, redelivered, held or used in violation of any order or regulation of the Civilian Production Administration.

§ 945.11 *Records.* Each person participating in any transaction to which any rule, regulation or order of the Civilian Production Administration in force on or after April 1, 1947 applies shall keep and preserve for at least two years accurate and complete records of the details of each such transaction and of his inventories of the material involved. Such records shall include the dates of all contracts or purchase orders accepted, the delivery dates specified in such contracts or purchase orders, and in any certificates accompanying them, the dates of actual deliveries thereunder, description of the material covered by such contracts or purchase orders, description of deliveries by classes, types, quantities, weights and values, the parties involved in each transaction, the certificates, if any, assigned to deliveries under such contracts or purchase orders, details of certified orders (or other orders required by the Civilian Production Administration to be filled) either accepted or offered and rejected, and other pertinent information. Records kept by any person pursuant to this section shall be kept either separately from the other records of such person and chronologically according to daily deliveries by such person, or in such form that such a separate chronological record can be promptly compiled therefrom; except that this section does not require the records kept under it to be kept separately from those which may be required under regulations or other rules of the Housing Expediter. Whenever a regulation or order requires a person to restrict his operations in proportion to his operations in a base period (for example, an order may forbid him to use more of a certain kind of material

than he used in the fourth quarter of 1942) he must determine, as accurately as is reasonably possible, his base period operations and preserve a written record of any figures and work sheets showing how he made his calculations for inspection by Civilian Production Administration officials as long as the regulation or order remains in force and for two years after that. Whenever a person is restricted as to the quantity of material he may use in production or the amount he may produce, under quota restrictions, limitation orders, authorized production schedules, special directions or similar provisions he must keep reasonably adequate records of the material consumed and of production to show whether he is complying with the restrictions. This record-keeping requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 945.12 *Audit and inspection.* All records required to be kept by this regulation or by any rule, regulation or order of the Civilian Production Administration shall, upon request, be submitted to audit and inspection by its duly authorized representatives.

§ 945.13 *Reports.* (a) Every person shall execute and file with the Civilian Production Administration such reports and questionnaires as it shall from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(b) *Reports under Civilian Production Administration orders and regulations.* (1) If a published regulation or order of the Civilian Production Administration requires the filing of a report by a specified class of persons you must file the report in accordance with any applicable instructions if you belong to that class. The instructions may be in the regulation or order itself, or on a form or separate instruction sheet.

(2) When a published regulation or order requiring you to file any reports is revoked, you do not need to file any more reports due after that date unless they are required by another published regulation or order or unless you are notified to continue to file them in accordance with the rules stated in paragraph (c) below. This does not, however, excuse you from filing any reports due before the regulation or order was revoked.

(c) *Reports not specified in an order or regulation.* The Civilian Production Administration may need information which is not required under a specific regulation or order. In such cases you must file reports when you receive or have received a written notice to do so in one of the following ways:

(1) A letter or other written instrument specifically addressed to you issued in the name of the Civilian Production Administration countersigned or attested by the Recording Secretary, or in accordance with Civilian Production Administration Regulation No. 1 (§ 903.0); or

(2) A report form or instruction sheet with an official form number in the "CPA" series bearing your name or enclosed in an envelope specifically addressed to you.

Approval of the Bureau of the Budget will be indicated on the notice or on a report form or instruction sheet referred to in the notice.

§ 945.14 *Violations.* **Any person who violates any provision of this regulation or any other rule, regulation or order of the Civilian Production Administration, or who, by any statement or omission, wilfully falsifies any records which he is required to keep, or who otherwise wilfully furnishes false or misleading information to the Civilian Production Administration, and any person who obtains a delivery, an allocation of material or facilities, or an authorization to use a certificate by means of a material and wilful, false or misleading statement, may be prohibited by the Civilian Production Administration from making or obtaining further deliveries of material or using facilities under allocation control and may be deprived of further allocations assistance. The Civilian Production Administration may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. sec. 80), or under other applicable statutes.**

§ 945.15 *Appeals for relief in exceptional cases.* Any person who considers that compliance by himself or another with a rule or regulation or order of the Civilian Production Administration would work an exceptional and unreasonable hardship on him may appeal for relief.

§ 945.16 *Notification of customers.* Any person who is prohibited from or restricted in making deliveries of any material by the provisions of any rule, regulation or order of the Civilian Production Administration shall, as soon as practicable, notify each of his regular customers of the requirements of such rule, regulation or order, but the failure to give notice shall not excuse any customer from the obligation of complying with any requirements applicable to him.

§ 945.17 *Transfers of quotas; transfers of a business as a going concern.* (a) This section explains when quotas and other rights under the allocations system may be transferred from one person to another and states the rules governing transfer of a business as a going concern.

(b) *Specific provisions in orders or regulations govern.* This regulation does not apply in any case where an applicable order or regulation provides a different rule.

(c) *What is meant by "quota".* As used in this regulation "quota" means a quantitative limit which is placed on the production or delivery of items, or on the acquisition or use of material, by an order or regulation of the CPA. Most quotas are in the form of a specified percentage of production or use during a previous base period or in the form of a specified number of items which may be produced.

(d) *Quota applies to actual manufacturer.* Where a manufacturer does not sell his product in his own name, but makes it for another person under whose name it is sold, and an order of the GPA imposes a quota on manufacturers of the product, that quota applies to the person who actually makes the product rather than to the one under whose name it is sold.

(e) *Distribution of quota where quota holder has several establishments.* Where the holder of a quota has several establishments, he may distribute his quota among them, and change the distribution in any way he wishes unless the quota was acquired on a transfer of a going business as explained in paragraph (h) (1) below.

(f) *Transfer of quotas forbidden in most cases.* No quota may be transferred from one person to another under any circumstances, except in connection with the transfer of a business as a going concern as explained in paragraph (h) (1) below or with the express permission of the CPA. Permission to transfer quotas may be expressly given in an order or regulation or on appeal as explained in paragraph (i) below.

(g) *Transfers of specific authorizations forbidden.* No person may transfer to another any right granted by specific authorization except where this is part of a transfer of a going business as explained in paragraph (h) (1) below.

(h) *Transfer of business as a going concern.* (1) Whenever an entire business is transferred as a going concern to a new owner who continues to operate substantially the same business in the same establishment, using substantially the same trade-mark or trade-name, if any, all rights and obligations under CPA orders and regulations which applied to the business before the transfer continue applicable after the transfer, and the old owner no longer has them. The business under the new ownership has the same quotas, specific authorizations and other rights and duties created by CPA orders and regulations as it had under the old ownership. However, the new owner may not continue to exercise any such rights if he discontinues operation of the business he acquired or operates it as a substantially different business or in another establishment, or if he uses a substantially different trademark or trade-name. He may not, at any time, use any quota of the transferred business for any other part of his business.

(2) If, on dissolution of a firm, the entire business is not transferred as a going concern to a single successor, but is divided up in any way, application must be made to the CPA for a determination of quotas and other rights and duties under CPA orders and regulations.

(3) An order or regulation of the CPA which places any restriction on the transfer of any particular material or product does not apply to a transfer which is part of a transfer of the ownership of an entire business as a going concern, and CPA approval need not be obtained for any such transfer.

(i) *Permission in exceptional cases on appeal.* In any case where the above rules work an exceptional hardship, specific permission may be given on appeal for the transfer of a quota, or a specific authorization or for other exceptions

from the rules. An appeal for the transfer of a quota should be filed as an appeal from the order imposing the quota by the person who wishes it transferred to him. If the person from whom it is to be transferred agrees to the transfer, he should join in the appeal. It is not expected that permission will be granted for the purchase or sale of a quota for any consideration in any case where the principal purpose of the transaction is merely to transfer the quota.

§ 945.18 *Quantities and kinds of materials or services obtainable with allocations assistance.* When allocations assistance is granted by the Civilian Production Administration, the person authorized may use it to get only that quantity and kind of material or that particular service specified in the authorization or other document issued by CPA. If the quantities of material are not stated in the CPA authorization or other document, it may be used only to get the minimum amount needed. No person may place such authorized orders for more material than he is authorized, even if he intends to cancel some of the orders or to reduce the quantity of material ordered to the authorized amount before it is all delivered. The only cases in which a certified order may be used to get services, as distinct from the production or delivery of material, are when CPA authorizes a named person to use the certificate to get specified services, or when a person authorized to use a certificate on a certified order to get processed material furnishes the unprocessed material to a processor and uses the certificate to get it processed.

Issued this 22d day of April 1947.

PART 945—REGULATIONS APPLICABLE TO THE OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

[Allocations Reg. 2, as Amended Apr. 22, 1947]

RESTRICTED EXPORT PREFERENCE ASSISTANCE

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of certain materials and facilities for defense, for private account, and for export; and the following regulations is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 945.40 *Allocations Regulation 2—*(a) *Purpose.* This regulation describes the very limited scope of export preference assistance which may be granted in the future. Such assistance, when granted, will usually be in the form of authorizations for the placing of orders with certificates entitling the orders to preference. Rating symbols, such as CC, will no longer be issued by the Civilian Production Administration.

The rules in this regulation and in Allocations Regulation 1 are a continuation in simplified form, for the purposes of the CPA, of rules contained in its former Priorities Regulation 1 and certain other CPA regulations transferred to the Housing Expediter on April 1, 1947, as explained in Allocations Regulation 1. This regulation also continues, on a limited basis, certain provisions of former CPA Priorities Regulation 28 relating to exports.

The issuance of authorizations to place certified export orders will in general be limited to assisting the procurement in this country of minimum quantities of materials or facilities required to expand the production in foreign countries of materials critically needed in this country, and other exceptional cases where necessary to meet international commitments.

For the purpose of this regulation, "certified order" means a purchase or delivery order which is certified by the purchaser by use of the standard form of export preference certificate described in paragraph (h) (7) below, or by use of any other certificate authorized and entitled to preference under another CPA order, regulation or direction for export purposes.

(b) *Exceptional cases when certified export orders may be authorized.* (1) If all the conditions of paragraph (b) (2) below are met, authorizations to place orders with an export preference certificate may be granted to permit the placing and filling of certified orders for procurement in this country of the minimum quantities of materials or facilities required either:

(i) To expand the production in foreign countries of materials critically needed in the United States; or

(ii) to meet international commitments, and certified by the Secretaries of State and Commerce as necessary for that purpose.

(2) When effective assistance of other kinds is not practicable (CPA may locate sources able to ship without preferential aid), an authorization to use an export preference certificate may be granted for specific items and quantities of materials in the limited classes of cases described in paragraph (b) (1) above, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without assistance; and

(iii) Preference assistance is required to obtain the item by the latest date and in the minimum quantity practicable, after taking into consideration material already acquired and material available without assistance.

(c) *How to apply for an authorization to use an export preference certificate.* Application for a CPA authorization to use an export preference certificate for all destinations except Canada should be made by letter in quadruplicate, addressed to the Office of International Trade, Department of Commerce, Washington 25, D. C., Ref. AR–2. Application for such a certificate for Canadian destinations should be made directly to the Civilian Production Administration, Washington 25, D. C., Ref. AR–2, also by letter in quadruplicate. Such applications should give the following information:

(1) Exact nature of applicant's business, i. e., manufacturing farm equipment, steel mill, etc.

(2) Exact description of the item for which assistance is required, stating (a) for materials the kind, quantity and unit of measure or (b) for equipment, the make, model, size, type, capacity, etc.

(3) The country of export destination, and the exact use to be made in that country of the item to be exported.

(4) Name of supplier and his present delivery promises, and his reasons for not promising satisfactory delivery dates. (Give the number and date of your purchase order.)

(5) Efforts made to obtain suitable substitutes or reasons why substitutes cannot be used.

(6) A full statement of the importance of making the export at this time from the standpoint of the interests of the United States.

(d) *How applications are granted.* If the application is granted, CPA will issue a written authorization to the applicant authorizing him to use an export preference certificate. He may then use the certificate described in paragraph (h) (7) below.

(e) *Expiration of ratings and certificates for export: re-validation—*(1) *Expiration.* All preference ratings assigned for materials to be exported shall expire on April 1, 1947 and all certificates used on certified orders for materials for export and required to be treated as rated orders under other CPA orders, regulations or directions shall also expire on April 1, 1947 except those for tinplate continued in effect under Direction 1 to this regulation.

(2) *When and how expiring export ratings or certificates may be replaced.* A person entitled to use a preference rating or a certificate entitled to be treated as a rated order for materials to be exported (including Canadian destinations), which expires on April 1, 1947, may apply to CPA for an authorization to use an export preference certificate if he can meet the conditions stated in paragraph (b) above.

If a new authorization is granted, it may be used by forwarding his supplier the export preference certificate described in paragraph (h) (7) below, signed in accordance with Allocations Regulation 1, together with any additional information needed to enable the person receiving it to know exactly the items to which it applies, the original purchase order referred to (if already placed), and the old rating or certificate.

(f) *Rules for acceptance and rejection of certified orders.* Every certified order must be accepted and filled regardless of existing contracts and orders except in the following cases:

(1) A person must not accept a certified order for delivery on a date which would interfere with delivery on other certified or rated orders which he has already accepted, or if delivery of the material ordered would interfere with delivery on an order which the Civilian Production Administration or the Housing Expediter has directed him to fill for that material or for a product which he makes out of it.

(2) A person must not accept a certified order for delivery on a date which can be met only by using material which was specifically produced for delivery on another certified order, and which is completed or is in production and scheduled for completion within 15 days.

(3) If a person, when receiving a certified order bearing a specific delivery date, does not expect to be able to fill it by the time requested, he must not accept it for delivery at that time. He must either (1) reject the order, stating when he could fill it, or (2) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date. He may adopt either of these two courses, depending on his understanding of which his customer would prefer.

(4) A certified order need not be (but may be) accepted in the following cases, but there must be no discrimination in such cases against certified orders, or between certified orders of different customers:

(i) If the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment (when a person authorized to place a certified order asks a supplier to quote his regularly established prices and terms of sale or payment or the earliest date on which he could make delivery on the certified order, the supplier must do so, except that if this would require detailed engineering or accounting work, he may give his best estimate without such work and state that it is not binding. However, the supplier need not quote if he is not required to accept the certified order and knows that he will not do so if he receives it. Any quotation as to delivery date to a person whose order has not been received will be subject to the effect on the supplier's deliveries of certified orders received by him after making the quotation and before he receives the firm order from the person making the inquiry).

(ii) If the order is for the manufacture of a product or the performance of a service of a kind which the person to whom the order is offered has not usually made or performed, and in addition if either (*a*) he cannot fill the order without substantially altering or adding to his facilities or (*b*) the order can readily be performed by someone else who has usually accepted and performed such orders.

(iii) If the order is for material which the person to whom the order is offered produces or acquires for his own use only, and he has not filled any orders for that material within the past two years. If he has, but the certified order would take more than the excess over his own needs, he may not reject the certified order unless filling it would interfere with other certified orders already on hand, or orders which the Civilian Production Administration has directed him to fill, for the material or for a product which he makes out of it.

(iv) If filling the order would stop or interrupt his production or operations during the next 40 days in a way which would cause a substantial loss of total production or a substantial delay in operations.

(5) Any person who fails or refuses to accept an order bearing a certificate provided for under this regulation shall, upon written request of the person placing the order, promptly give his reasons in writing for his failure or refusal.

(6) Some orders or directions of the Civilian Production Administration provide special rules as to the acceptance and rejection of orders for particular materials. In such cases, the rules stated above in this section are inapplicable to the extent that they are inconsistent with the applicable order or direction of the Civilian Production Administration. In addition, the Civilian Production Administration may specifically direct a person in writing to fill a particular purchase order or orders. In such cases he must do so without regard to any of the above rules in this paragraph (f), except that he may insist upon compliance with regularly established prices and terms of payment.

(7) *Certificates not effective for Government-owned surplus property.* The above rules in this paragraph (f) for the acceptance and rejection of certified orders, and in paragraph (i) below for the sequence of filling certified orders, do not apply to sales of surplus material by Government agencies. The certificates on certified orders have no effect either by way of obliging a Government agency to sell surplus property or by way of determining as among several buyers who shall get the surplus property.

(g) *Report to Civilian Production Administration of improperly rejected orders.* When a certified order is rejected in violation of this regulation, the person who wants to place it may file a report of the relevant facts with the Civilian Production Administration, which will take such action as it considers appropriate after requiring an explanation from the person rejecting the order.

(h) *Description of certificates and how they are used—*(1) *How authorized.* The standard export preference certificate provided for under this regulation is described in (h) (7) below. Other orders or directions of the Civilian Production Administration may also permit the use of other special forms of certificates entitled to preference, such as that for the use of the symbol CXS on certain orders for tinplate, described in Direction 1 to this regulation. The standard certificate described below and certificates entitled to preference under any other Civilian Production Administration order or direction are of equal value and precedence. Authorizations to use the standard export preference certificate will be issued under the conditions described in this regulation. The use of other certificates will be authorized under the conditions stated in the Civilian Production Administration order or direction under which they are issued, which may provide that they shall be treated as export preference certificates.

(2) *Materials or facilities obtainable with certificates.* A person authorized to use a certified order may use the certificates only to get the quantities and kinds of materials or services authorized, as provided in § 945.18 of Allocations Regulation 1.

(3) *How to use a certificate.* The certificate with a certified order must be filled in, signed and delivered to the supplier in accordance with the rules stated in Allocations Regulation 1, and with any special rules which may be stated in any other CPA order or direction permitting the use of any special form of certificate other than the standard export preference certificate.

(4) *Certificates not extendible.* A person receiving a certified order may not extend the certificate to any of his suppliers. If he is unable to fill the certified order without using a certificate to get some of the materials which he will need for that purpose, he may apply to CPA for an authorization to use a certificate for that purpose in accordance with this regulation.

(5) *Relation of certificates to preference ratings.* The certificate on a certified order, and an RR (or CC) preference rating assigned by CPA before April 1, 1947, or by the Housing Expediter, are equal in precedence, unless otherwise directed in writing by the Civilian Production Administration.

(6) *Time limit on certificates.* An authorization to use an export preference certificate, or other certificate permitted under another CPA order or direction for export purposes and entitled to preference, expires if not used on an order accepted by a supplier within 6 months of the date the use of the certificate was authorized. If the holder of an authorization to use an export preference certificate has been unable to use it before its expiration, he may apply to CPA for renewal. However, if the purpose for which use of the certificate was authorized should no longer exist, the certificate may not be used even though the time limit stated above has not elapsed.

(7) *Form of standard export preference certificate.* The standard export preference certificate must be in substantially the following form:

EXPORT PREFERENCE CERTIFICATE

The undersigned certifies to the seller and to the CPA, subject to the criminal penalties of section 35 (a) of the U. S. Criminal Code, that he is authorized to use this certificate

for the materials described, in accordance with CPA Allocations Regulation 2. My authorization number is ____ (insert the CPA authorization number).

(8) *Report to Civilian Production Administration of improper delay of orders.* When delivery or performance of a certified order is unreasonable or improperly delayed, the customer may file a report of the relevant facts with the Civilian Production Administration, which will take such action as it consider appropriate after requiring an explanation from the person with whom the order is placed.

(i) *Sequence of filling certified orders.* (1) Every person who has certified orders on hand must schedule his operations, if possible, so as to fill each certified order by the required delivery or performance date (determined as explained in paragraph (j) below). If this is not possible for any reason, he must give precedence to all certified over uncertified orders.

(2) As between conflicting certified orders, precedence must be given to the order which was received first with the certificate. As between conflicting certified orders received on the same date, precedence must be given to the order which has the earlier required delivery or performance date.

(3) If a certified order or the certificate applicable to an order is cancelled when the supplier has materials in production to fill it, he need not immediately stop to put other certified orders into production if doing so would cause a substantial loss of total production. He may continue to process that material which he had put into production for the cancelled order to a stage of completion which would avoid a substantial loss of total production, but he may not incorporate any material which he needs to fill any certified order on hand. He may not, however, delay putting other certified orders into production for more than 15 days.

(j) *Delivery or performance dates.* (1) Every certified order must specify delivery or performance on a particular date or dates or within specified periods of not more than 31 days each, which in no case may be earlier than required by the person placing the order. Any order which fails to comply with this rule must be treated as an uncertified order. The words "immediately" or "as soon as possible", or other words to that effect, are not sufficient for this purpose.

(2) The required delivery or performance date, for purposes of determining the sequence of deliveries or performance pursuant to paragraph (i), shall be the date on which delivery or performance is actually required. The person with whom the order is placed may assume that the required delivery or performance date is the date specified in the order or contract unless he knows either (1) that the date so specified was earlier than required at the time the order was placed, or (2) that delivery or performance by the date originally specified is no longer required by reason of any change of circumstances. A delay in the scheduled receipt of any other material which the person placing the order requires prior to or concurrently with the material ordered, shall be deemed a change of circumstances within the meaning of the foregoing sentence.

(3) If, after accepting a certified order which specifies the time of delivery, the person with whom it is placed finds that he cannot fill it on time or within 15 days following the specified time, for any reason, he must promptly notify the customer, telling him approximately when he expected to be able to fill the order. Inability to fill the order on time or within fifteen days following the specified time does not authorize a supplier to cancel the order.

(k) The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 22d day of April 1947.

PART 945—REGULATIONS APPLICABLE TO THE OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

[Allocations Reg. 2, Direction 1, as Amended Apr. 22, 1947]

USE AND EFFECT OF SYMBOL CXS ON CERTAIN EXPORT ORDERS FOR TINPLATE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tinplate and facilities for making tinplate, for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) *What this direction does.* This direction explains how certain exporters who have been authorized by the Office of International Trade, Department of Commerce, to use the symbol CXS (Certified Export Steel) on purchase orders for limited quantities of tinplate should furnish that information to steel producers. Such orders when properly certified are to be treated as certified export orders under Allocations Regulation 2. The Civilian Production Administration may also establish space reservations on steel producers' schedules for the benefit of these export orders.

(b) *Identification of certified export orders.* Any person who has been authorized in writing by the Office of International Trade, Department of Commerce, to use the symbol CXS on purchase orders for limited quantities of tinplate should, in addition to marking his purchase order with the symbol, specify the period in which shipment has been designated, and furnish the steel producer with a certificate, signed manually or as described in Allocations Regulation 1, in substantially the following form:

I certify, subject to the penalties of section 35A of the United States Criminal Code, that the tinplate covered by this purchase order is within the quantity which I have been authorized by the Office of International Trade, Department of Commerce, to purchase by orders identified with the symbol CXS.

(c) *Requests for authorization to use the symbol CXS.* All requests for authorization to use the symbol CXS should be addressed to the Steel Section, Office of International Trade, Department of Commerce, Washington 25, D. C.

(d) *Certified orders entitled to preference.* Unless the CPA directs otherwise, any purchase order certified under this Direction must be treated as a certified export order under Allocations Regulation 2, and be accepted, scheduled, and delivered accordingly. The rules of Allocations Regulation 2 will apply, except to the extent that this Direction is inconsistent with them. Tinplate obtained on certified orders must be used in accordance with § 945.5 of Allocations Regulation 1.

(e) *Refusal of certified orders.* (1) CXS orders may only be placed with steel producers for mill shipments. They may not be placed with distributors for shipment from warehouses.

(2) Steel producers need not accept a CXS certification on a previously accepted purchase order, or a new purchase order, which was received less than 45 days before the beginning of the month in which delivery is requested.

(f) *Other distribution of steel for export.* The provisions of this direction do not restrict acceptance, scheduling or shipment of noncertified orders for export, if this does not interfere with shipments of certified orders.

(g) *Direction 10 to Order M-21 superseded.* This direction supersedes former Direction 10 to Order M-21. Certificates for tinplate authorized under Direction 10 shall have the same force and effect under this Direction 1 as if authorized under it, and do not require revalidation.

Certificates authorized under Direction 10 to Order M-21 for steel products other than tinplate expire at the end of March 1947, under Allocations Regulation 2, although some may upon application be replaced with the new export preference certificate, as explained in that regulation.

(h) The Office of International Trade, Department of Commerce, may authorize the use of the symbol CXS under this direction on purchase orders for tinplate, but only to the extent and under the conditions authorized by the Civilian Production Administration in writing and transmitted to the Office of International Trade. The Office of International Trade may exercise this authority through such of its officials as the director of that Office may determine.

Issued this 22d day of April 1947.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 207—NAVIGATION REGULATIONS

LOGGING IN TIDAL SECTION, SOUTH FORK OF COOS RIVER, OREGON

Pursuant to the provisions of section 2 of the act of Congress approved May 9, 1900 (31 Stat. 172; 33 U. S. C. 410), § 207.663 is hereby prescribed to govern and regulate the floating of loose timber and logs, sack rafts, and other methods of navigation in the tidal section of the South Fork of Coos River, Oregon:

§ 207.663 *South Fork of Coos River, Oreg.; logging in tidal section.* (a) During the months of August, September, and October loose timber and logs and sack rafts of timber and logs, hereinafter referred to as logs, may be floated in the tidal section of the South Fork of Coos River above the mouth of Bessie Creek, at the times and under the conditions hereinafter prescribed, on Monday only of each week: *Provided*, That if it is impracticable because of insufficient stream flow above the tidal section to float logs into the tidal section on any Monday, they may be floated in the tidal section, at the times and under the conditions hereinafter prescribed, on the first day between that Monday and the following Monday when the stream flow will permit.

(b) From November to July, both inclusive, logs may be floated in the tidal section of the South Fork of Coos River above the mouth of Bessie Creek, at the times and under the conditions hereinafter prescribed, on Tuesday and Friday only of each week.

(c) On any of the days designated in paragraphs (a) and (b) of this section when the floating of logs is permitted in the tidal section above the mouth of Bessie Creek, they may be floated into the tidal section, at or near the head of tidewater, not more than two hours before the time of high tide at the point of entry, and be floated to the mouth of Bessie Creek: *Provided*, That such movement is handled expeditiously, and is entirely completed within five hours after the time of high tide at the point of entry.

(d) Two high tides normally occur each day. That high tide upon which logs may be floated into the tidal section above the mouth of Bessie Creek shall be the tide that reaches high slack at the point of entry nearest 12:00 o'clock meridian, Pacific Standard Time. The time of high tide at the head of the tidal section, for the purpose of this section, shall be considered as two hours and forty minutes after the predicted time of high tide at Humbolt Bay, California, the port of reference for Coos Bay, as published by the Coast and Geodetic Survey, Department of Commerce.

(e) In order that the river may be cleared in advance of an anticipated freshet, whenever the river stage above the tidal section rises more than two feet above the normal winter level as determined by the District Engineer, Corps of Engineers, in charge of the waterway, logs may be floated in the tidal section above the mouth of Bessie Creek.

(f) A single floating sheer boom shall be swung across the river above the mouth of Bessie Creek, at a location approved by the District Engineer, for the purpose of catching logs being floated as hereinabove prescribed: *Provided*, That such boom shall be in place only during the period in which the floating of logs is under way: *Provided, further*, That at all times when such boom is swung across the river so as to obstruct or interfere with navigation a competent operator shall be in attendance who shall, upon the approach of any craft or tow desiring to pass either upstream or downstream, promptly swing the boom so as to clear the channel and allow such craft or tow to pass.

(g) A written or printed notice giving the day and hour at which time the floating of logs is contemplated in accordance with paragraphs (a) and (b) of this section shall be posted at least twenty-four hours prior thereto at such place at or near the mouth of the South Fork as shall be prescribed by the District Engineer, and shall also be attached to the warning flag pole provided for in paragraph (h) of this section.

(h) At all times between sunrise and sunset when logs are being moved in the tidal section above the mouth of Bessie Creek, and during a period of three hours before such movement is to begin, a red flag not less than three feet square shall be flown from a staff on the river bank near the mouth of Bessie Creek, so located that it can be plainly seen by operators of river craft proceeding upstream in that vicinity, and said flag shall not be flown at any time other than herein designated. Between sunset and sunrise a red light, instead of a red flag, shall be so displayed. After completion of each movement of logs the red signal shall be promptly removed.

(i) In that portion of the South Fork below the mouth of Bessie Creek, the floating of logs shall be prohibited at all times, and rafts shall not exceed 650 feet in length and 45 feet in width.

(j) This section shall not affect the liability of persons in charge of logging operations for any damages resulting therefrom. [Regs. April 4, 1947 (800.214 Coos River, Oreg.)—ENGWR] (31 Stat. 172; 33 U. S. C. 410)

PROPOSED RULE MAKING

TREASURY DEPARTMENT

Bureau of Internal Revenue

[26 CFR, Part 182]

INDUSTRIAL ALCOHOL

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority of sections 2808, 2829, 2866, 3070, 3101, 3102, 3105, 3108, 3109, 3111, 3113, 3114, 3124, 3125, and 3176 of the Internal Revenue Code (U. S. C., title 26, sections 2808, 2829, 2866, 3070, 3101, 3102, 3105, 3108, 3109, 3111, 3113, 3114, 3124, 3125, and 3176).

1. The following sections are amended: 182.6 (h) and (aa), 182.94, 182.99, 182.102, 182.175, 182.179, 182.182, 182.183, 182.229 (g), 182.371 (a), 182.377 (a), 182.383 (a), 182.389 (a), 182.514, 182.706, 182.728, 182.731, 182.738, 182.750, 182.752 (b), 182.754 (Par. 1), 182.785, 182.786, 182.798, 182.802, 182.811, 182.812 (Par. 1), 182.813, 182.816, 182.908, 182.994, 182.995, 182.997, 182.1006.

DEFINITIONS

§ 182.6 *Definitions.* * * *

(h) "Carrier" shall mean a person or agency regularly engaged in the transportation of movable property by railroad, steamship, ferryboat, barge, motor truck, airplane, or other vehicle capable of being used as a means of transportation on land, in water, or through the air. The term "motor carrier" shall mean a motor carrier licensed under the Motor Carrier Act of 1935, or an applicable State law.

* * * * *

(aa) "Tank car" shall mean a railroad tank car conforming to the requirements of the regulations in this part. "Tank truck" shall mean a motor driven tank truck, including tank truck trailer, conforming to the requirements of the regulations in this part, and of a capacity of not less than 2,000 gallons. (Sec. 3124, I. R. C.)

EQUIPMENT

DENATURING PLANTS

§ 182.94 *Denatured alcohol storage tanks.* The proprietor of the denaturing plant shall provide substantially constructed denatured alcohol storage tanks for the storage of all alcohol denatured by him, unless permission is granted by the district supervisor to use mixing tanks for the storage of denatured alcohol or the denatured alcohol is drawn into packages or other portable containers for immediate shipment or storage in the denatured alcohol storeroom, or transferred to tank cars or tank trucks for immediate shipment, or transferred by pipe line to contiguous premises operated by the denaturer. Where denatured alcohol storage tanks are provided, they shall be constructed and secured in conformity with the provisions of § 182.74, and must be equipped with a suitable measuring device whereby the actual contents will be correctly indicated: *Provided*, That wooden storage tanks may be used for formulas for which metal storage tanks are unsuitable. Each such tank shall have plainly and legibly painted thereon the words "Denatured Alcohol Storage Tank," followed by its serial number and capacity in wine gallons. The denatured alcohol storage tanks must be located in the denaturing plant: *Provided further*, That the proprietor may be permitted to store denatured alcohol in tanks constructed in conformity with these provisions not necessarily located in a room or building, provided they are permanently fixed and of such size that they may not be readily removed. (Sec. 2829, I. R. C.)

SPECIALLY DENATURED ALCOHOL USERS' PREMISES

§ 182.99 *Tanks.* If the proprietor desires to receive specially denatured alcohol in tank cars, tank trucks or by pipe line from a denaturing plant on contiguous premises operated by him, he must provide tanks for the storage of the specially denatured alcohol so received by him. Each such tank must be constructed of metal, and shall be of uniform dimensions and equipped with a suitable measuring device whereby the actual contents will be correctly indicated: *Provided*, That wooden tanks may be used for formulas for which metal tanks are unsuitable. Each such tank shall have plainly and legibly painted thereon the words "Specially Denatured Alcohol Storage Tank," followed by its serial number and capacity in wine gallons. The tanks shall be equipped for locking in such a manner as to prevent access to the denatured alcohol. (Sec. 2829, I. R. C.)

SPECIALLY DENATURED ALCOHOL BONDED DEALERS' PREMISES

§ 182.102 *Tanks.* If specially denatured alcohol is received in tank cars or tank trucks, the proprietor must provide suitable storage tanks for the storage of such alcohol. Each such tank must be constructed in the manner prescribed in § 182.99 and all openings affording access to the contents shall be equipped for locking. Each such tank must have plainly and legibly painted thereon the words "Specially Denatured Alcohol Storage Tank," followed by its serial number and capacity in wine gallons, and be equipped with a suitable measuring device, whereby the actual contents will be correctly indicated. (Sec. 2829, I. R. C.)

QUALIFYING DOCUMENTS

CARRIERS

§ 182.175 *Application, Form 144.* Every person desiring to transport tax-free alcohol or specially denatured alcohol must file Form 144, "Application for Permit to Transport Tax-free or Specially Denatured Alcohol," in triplicate, for permit so to do. The carrier will specify the mode of transportation, such as railroad, express company, steamship, barge line, truck, etc., and the supervisory districts in which tax-free or specially denatured alcohol will be transported. Where steamship or barge lines or motor carriers operate between certain points and over certain courses or routes, such points and courses or routes will be specified in the application. Where the mode of transportation is by tank truck, the carrier will give the serial number of each tank truck and its capacity. In cases where transportation is in more than one supervisory district, the application shall be filed with the district supervisor in whose district the principal office or place of business of the applicant is located. The provisions of §§ 182.105, 182.106, 182.115, 182.117, and 182.118 are hereby extended, insofar as applicable, to carriers.

(a) *Persons entitled to permit.* Basic permits to transport tax-free or specially denatured alcohol shall be issued only to reputable carriers who are actively and regularly engaged generally in the legitimate business of transportation, and who possess adequate facilities to insure safe delivery at destination of any tax-free or specially denatured alcohol transported by them. (Sec. 3114 (a), I. R. C.)

§ 182.179 *Conditions of approval.* No application shall be approved unless and until it is established by the applicant to the satisfaction of the district supervisor that he is a reputable carrier and is actively and regularly engaged generally in the legitimate business of transportation and that he possesses adequate facilities to insure safe delivery at destination of any tax-free alcohol or specially denatured alcohol which may be transported by him. No application for an original or renewal permit for the transportation in tank trucks of specially denatured alcohol shall be approved unless and until it is determined by the district supervisor, after inspection, that each tank truck meets the requirements of the regulations in this part.

§ 182.182 *Bond, Form 49*—(a) *Tax-free alcohol and specially denatured alcohol in containers other than tank trucks.* Every person filing an application for a basic permit to transport tax-free alcohol or specially denatured alcohol, upon filing his application, Form 144, and before issuance of basic permit pursuant thereto, and before transporting any tax-free alcohol or specially denatured alcohol, shall execute a bond on Form 49, "Bond to Transport Specially Denatured or Tax-free Alcohol," in triplicate, in conformity with the provisions of §§ 182.184 to 182.205, inclusive, and file the same with the district supervisor: *Provided*, That a bond will not be required if the applicant is a railroad or steamship company, or an express company operating thereon, or a motor carrier who has qualified with the Interstate Commerce Commission as a "self-insurer."

(b) *Specially denatured alcohol in tank trucks*—(1) *Transportation by motor carriers.* Motor carriers, as defined in the regulations in this part, in order to transport specially denatured alcohol by tank trucks, must procure permits so to do, in accordance with the regulations in this part and file bond, Form 49, in the penal sum specified in § 182.183. Where such permit is obtained and bond is filed, the permit will also authorize transportation of tax-free alcohol or specially denatured alcohol in barrels or drums without additional bond requirement.

(2) *Transportation by consignors or consignees.* A consignor or consignee, in order to transport specially denatured alcohol in tank trucks controlled and operated by such consignor or consignee, must file application on Form 144 and procure permit, Form 145, authorizing such transportation and file consent of surety, Form 1533, on his bond Form 1432–A, 1435, 1475 or 1480, extending the terms thereof to be liable for the tax, together with penalties and interest on all specially denatured alcohol withdrawn, transported, used, or sold in violation of laws or regulations now or hereafter in force. If the maximum of the present bond is not sufficient when computed as set forth in § 182.183, a new bond in a sufficient penal sum must be furnished to cover the additional liability. These requirements shall not apply where specially denatured alcohol is withdrawn by the United States or any governmental agency thereof and is transported in tank trucks operated by employees of the United States.

(3) *Present permits and bonds.* Basic permits and bonds now held by motor carriers, and by consignors and consignees, which authorize the transportation of tax-free alcohol and specially denatured alcohol, may, on application and the filing of consents of surety, be modified to authorize tank truck shipments of specially denatured alcohol and to contain an undertaking to be liable for the tax, or an amount equal to the tax as provided in subparagraph (2) of paragraph (b) of this section. The consent of surety (or, if preferred, a new bond) must be modified so that the principal and surety will be responsible to the extent specified in § 182.183. (Sec. 3114 (a), I. R. C.)

§ 182.183 *Penal sum.* The penal sum of the bond must be computed at the rate of not less than $1,000 for each vehicle (other than a tank truck) to be used by the permittee, nor more than $10,000 for all such vehicles so used. The penal sum of the bond for the transportation of specially denatured alcohol in tank trucks shall be in the penal sum of $50,000 for each such tank truck, and not more than $200,000 for the total of all trucks used. (Sec. 3114 (a), I. R. C.)

BASIC PERMITS

ISSUANCE OF ORIGINAL BASIC PERMITS

§ 182.229 *Limitations under permit.* • • •

(g) *Permit to transport tax-free and specially denatured alcohol, Form 145.* The permit will specify the supervisory districts in which the carrier will be permitted to transport tax-free or specially denatured alcohol. If the carrier is a steamship or barge line or motor carrier operating between certain points and over certain courses or routes, such points and courses or routes will be specified in the permit. If the carrier is other than a railroad, steamship, express company, or motor carrier qualified with the Interstate Commerce Commission as a "self-insurer," or has filed bond in less than the maximum penal sum, specified in § 182.183, the permit shall specify the number of vehicles to be used by the permittee in transporting tax-free or specially denatured alcohol in vehicles other than tank trucks and in case of tank trucks the permit shall specify the number of tank trucks to be used in the transportation of specially denatured alcohol and the serial number and capacity of each. (Sec. 3114, I. R. C.)

OPERATION OF INDUSTRIAL ALCOHOL PLANTS

COLLECTION AND REMOVAL OF FUSEL OIL

§ 182.371 *Removal*—(a) *Containers.* Removable fusel oil may be drawn off into barrels, drums, or similar packages, or into tank cars or tank trucks. Packages containing such fusel oil shall be marked by the proprietor with his name, plant number, location (city or town and State), the words "Fusel Oil," and the date of removal in distinct and legible letters. When removal is made in tank cars or tank trucks, the proprietor will affix to the route board of each tank car or tank truck a label containing such data.

PRODUCTION AND REMOVAL OF BUTYL ALCOHOL

§ 182.377 *Removal*—(a) *Containers.* Removable butyl alcohol may be drawn off into barrels, drums, or similar packages, or into tank cars or tank trucks. Packages containing such butyl alcohol shall be marked by the proprietor with his name, plant number, location (city or town and State), the words "Butyl Alcohol," and the date of removal in distinct and legible letters. When removal is made in tank cars or tank trucks, the proprietor will affix to the route board of each tank car or tank truck a label containing such data.

PRODUCTION AND REMOVAL OF ACETONE

§ 182.383 *Removal*—(a) *Containers.* Removable acetone may be drawn off into barrels, drums, or similar packages, or into tank cars or tank trucks. Packages containing such acetone shall be marked by the proprietor with his name, plant number, location (city or town and State), the word "Acetone," and the date of removal in distinct and legible letters. When removal is made in tank cars or tank trucks, the proprietor will affix to the route board of each tank car or tank truck a label containing such data.

PRODUCTION AND REMOVAL OF ETHER

§ 182.389 *Removal*—(a) *Containers.* Removable ether may be drawn off into barrels, drums, or similar packages, or into tank cars or tank trucks. Packages containing such ether shall be marked by the proprietor with his name, plant number, location (city or town and State), the word "Ether," and the date of removal in distinct and legible letters. When removal is made in tank cars or tank trucks, the proprietor will affix to the route board of each tank car or tank truck a label containing such data.

OPERATION OF INDUSTRIAL ALCOHOL BONDED WAREHOUSES

APPROVED CONTAINERS

§ 182.514 *Tank trucks prohibited.* The transportation of undenatured ethyl alcohol in tank trucks will not be permitted. (Sec. 3101, I. R. C.)

OPERATION OF INDUSTRIAL ALCOHOL DENATURING PLANTS

DENATURING MATERIALS

§ 182.706 *Sample for chemist.* The storekeeper-gauger shall take a 1-pint sample of each lot of each denaturant received at the denaturing plant, and forward or deliver the sample to the authorized chemist. Where a lot of any denaturant is received in a tank car, tank truck or in packages and is placed in two or more storage tanks, or is received in a number of packages and retained therein pending analysis and approval of the denaturant, the storekeeper-gauger will take a proportionate sample from each tank or package, as the case may be, and thoroughly mingle the samples together. From this mixture the officer will take a 1-pint sample and forward or deliver it to the authorized chemist. The storekeeper-gauger shall then lock the tanks with a Government lock or securely close and seal the packages and none of the contents of the tanks or packages may be used until the sample has been officially tested and approved and a report of such test is received by the storekeeper-gauger in charge of the denaturing plant. All samples submitted for analysis must be placed in heavy glass bottles or other suitable containers, to be provided by the denaturer, and must be securely closed and sealed with a wax seal furnished for this purpose or a paper seal signed by the storekeeper-gauger taking the sample.

(a) *Labels on samples.* Each sample shall have a label, Form 1469, "Label for Denaturing Material," affixed thereto showing the name of the denaturer, plant number, serial number of the tank or the number and kind of the package from which the sample was taken, the kind and quantity of the denaturant represented by the sample, the date taken, and the name of the officer taking the sample. (Secs. 3070, 3102, I. R. C.)

APPROVED CONTAINERS

§ 182.728 *Railroad tank cars or tank trucks.* Denatured alcohol may be shipped in railroad tank cars only where the premises of both the denaturer and the consignee are equipped with suitable railroad siding facilities. Denatured alcohol may be transported by tank trucks only where suitable storage tanks are provided on the consignees' premises. The manhole covers, outlet valves and all other openings on all railroad tank cars or tank trucks used for shipping denatured alcohol shall be equipped with facilities for sealing so that the contents cannot be removed without showing evidence of tampering. Railroad or other appropriate seals, dissimilar in marking from cap seals used by the Bureau of Internal Revenue, for securing manhole covers, outlet valves and all other openings in tank cars or tank trucks containing denatured alcohol shall be furnished and affixed by the carrier or the proprietor: *Provided*, That serially numbered cap seals for use on tank trucks for the transportation of specially denatured alcohol shipped from denaturing plants shall be furnished by the Government and affixed by the storekeeper-gauger. Immediately after filling, the tank car or tank truck shall be sealed in such a manner as will secure all openings affording access to the contents of the tank.

(a) *Shipments of completely denatured alcohol*—(1) *To denaturers and their agents.* Completely denatured alcohol may be shipped in tank cars or tank trucks to other denaturing plants, as authorized in § 182.743. Completely denatured alcohol may also be shipped in tank cars or tank trucks by the denaturer to a person or concern acting as his agent, where the title does not pass from the denaturer, for transfer to packages for sale to others, and such packages shall be furnished by the denaturer. When completely denatured alcohol is thus shipped, the packages filled by the agent must be marked the same as if filled in the denaturing plant of the denaturer (except that the registry number of such plant will be omitted), and must also bear the embossed symbol and serial number, as required in § 182.727. Completely denatured alcohol may also be shipped in tank cars or tank trucks by the denaturer to himself at other premises for disposition in the same manner as in the case of completely denatured alcohol disposed of directly from the denaturing plant of the producer, or it may be so shipped by the denaturer to other producers of completely denatured alcohol at points not on the denaturing plant premises of such other producers, where the product will be filled into properly marked and embossed packages of the person to whom the shipment is made.

(2) *To users.* Upon approval of the district supervisor, completely denatured alcohol may be shipped in tank cars or tank trucks to manufacturers for their own exclusive use and not for resale: *Provided*, That the completely denatured alcohol is run directly from the tank car or tank truck into suitable storage tanks on the manufacturer's premises. Manufacturers desiring to procure completely denatured alcohol in tank cars or tank trucks shall file application therefor with the district supervisor of their district. If the completely denatured alcohol is to be procured from a denaturer located in the same district, the application shall be filed in triplicate, and if the completely denatured alcohol is to be procured from another district, the application shall be filed in quadruplicate. The application shall give the name and address of the denaturer from whom it is desired to procure the completely denatured alcohol, and shall specify the quantity to be received, the reasons for desiring to receive the completely denatured alcohol in tank cars or tank trucks and whether the applicant's premises are equipped with railroad siding facilities. Where it is desired to receive completely denatured alcohol in tank cars or tank trucks regularly, the application may be made for that purpose. If the district supervisor approves the application he will note his approval on all copies thereof, retain one copy, return one copy to the applicant, and forward one copy to the denaturer, and, where shipment is to be made from another district, one copy to the district supervisor of such district. (Secs. 2808, 3070, 3108 (a), 3109, I. R. C.)

§ 182.731 *Tank trucks.* Tank trucks may be used for transporting completely denatured alcohol or specially denatured alcohol subject to the provisions of the regulations in this part. Every tank truck used to transport denatured alcohol must conform to the following requirement: The tank shall be securely and permanently attached to the frame or chassis of the truck or trailer and shall be securely constructed of metal. Inter-

for bulkheads or stiffners must have proper drainage cut-outs. Manhole covers, outlet valves, vents or pressure relief valves, and all other openings shall be equipped for sealing so as to prevent unauthorized access to the contents of the tank. Outlets of each compartment must be so arranged that delivery of any compartment will not afford access to the contents of any other compartment. Partial delivery, by meter or otherwise, will not be permitted. There shall be but one consignor and one consignee per load. Calibrated charts, prepared or certified by competent and recognized authorities or engineers, showing the capacity of each compartment in wine gallons for each inch of depth shall be carried in each truck. Each tank truck shall also be equipped with a route board, at least 10 by 12 inches, constructed of substantial material and permanently attached thereto by roundheaded or carriage bolts, nutted and riveted, battered or welded. Provision will also be made for protection, against the weather, of the permit and label by the use of celluloid or equally substantial material. A copy of the basic permit under which transportation is authorized (as required by § 182.230) and the prescribed label will be affixed to such route board. Tanks shall be so constructed that they will completely drain the contents of each compartment, even when the ground is not perfectly level. Suitable ladders and cat walks, permanently attached, must be provided in order to permit ready examination of manholes and other openings. Provision shall be made for the proper grounding of tank trucks when filling or emptying. Prior to filling, the storekeeper-gauger, or the proprietor where no storekeeper-gauger is assigned, shall determine whether the tank truck is authorized to be used, by comparing the serial number and the capacity of the tank as marked thereon, with the basic permit, and will inspect all openings to the tank truck to determine whether they may be effectively sealed. If the tank truck does not meet such requirements, its use for the transportation of denatured alcohol will not be permitted. After filling, the storekeeper-gauger or the proprietor, as the case may be, shall seal the tank truck in such a manner as will secure all openings affording access to the contents of the tank. (Secs. 3070, 3108 (a), 3109, I. R. C.)

MARKS AND BRANDS

§ 182.738 *Tank cars and tank trucks*—(a) *Tank cars.* Every railroad tank car used to transport denatured alcohol must have permanently and legibly marked or painted thereon its number, capacity in wine gallons, and the name or symbols of the owner. If the tank car consists of two or more compartments, each compartment must be identified by a letter of the alphabet, such as "A," "B," etc., and the capacity in wine gallons of the compartment must be marked thereon. The denaturer shall securely attach to the route board of each such tank car a label showing the name, registry number, and location (city or town and State) of the denaturing plant, and the name, address, and permit number (if any) of the person to whom the denatured alcohol is shipped, followed by the date of shipment.

(b) *Tank trucks.* Every tank truck used to transport denatured alcohol must have permanently and legibly marked or painted thereon its number, capacity in wine gallons, and the name of the owner in letters at least four inches in height. If the tank truck consists of two or more compartments, each compartment must be identified by a letter of the alphabet, such as "A," "B," etc., and the capacity in wine gallons of each compartment must be marked thereon. The consignor shall securely attach to the route board of each tank truck, a label showing the name, registry number, and location (city or town and State) of the shipping plant or premises; the name, address and permit number (if any) of the person to whom the denatured alcohol is shipped, followed by the date of shipment; the quantity in wine gallons; and the formula number of denatured alcohol contained in each compartment. Such labels shall be destroyed upon emptying the tank truck. (Sec. 2808, I. R. C.)

TRANSFER OF DENATURED ALCOHOL BETWEEN DENATURING PLANTS

§ 182.750 *Receipt of denatured alcohol; general.* Upon receipt of the Forms 1467 and 1473, the storekeeper-gauger in charge of the receiving denaturing plant will make a memorandum record of the shipment and deliver the forms to the proprietor. When the denatured alcohol is received at the denaturing plant, the proprietor and the storekeeper-gauger will examine the shipment and where packages bear evidence of having sustained losses in transit, or railroad tank cars or tank trucks bear evidence of having sustained a loss, the losses will be determined and a report of such losses and of the examination of the shipment will be made to the district supervisor.

§ 182.752 *Method of deposit.* • • •

(b) *Denatured alcohol received in tank cars or tank trucks.* Denatured alcohol received in tank cars or tank trucks shall be weighed or measured and transferred immediately to storage tanks. If it is desired to receive denatured alcohol in railroad tank cars, proper railroad siding facilities must be provided at the denaturing plant. When denatured alcohol is received in tank cars or tank trucks, the seals must not be broken or any denatured alcohol removed, except in the presence of the storekeeper-gauger assigned to the receiving denaturing plant.

WITHDRAWAL OF DENATURED ALCOHOL

§ 182.754 *Specially denatured alcohol.* Specially denatured alcohol may be procured under appropriate permit by manufacturers using specially denatured alcohol, dealers in specially denatured alcohol, and the United States or governmental agency thereof. Prospective permittees or manufacturers may procure samples of specially denatured alcohol, as provided in § 182.826. Specially denatured alcohol must be removed from denaturing plants in approved containers, including tank cars and tank trucks provided the consignee's premises are equipped with suitable storage tanks. The exact contents of each package must be determined and the package marked in accordance with the regulations in this part. The details of such packages shall be entered on the appropriate forms as hereinafter provided. Specially denatured alcohol removed from denaturing plants must be transported in accordance with § 182.677. The denaturer shall present the permit, Forms 1477, 1485, 1486, or 1512, authorizing shipment, to the storekeeper-gauger prior to withdrawal. (Secs. 3070, 3108 (a), 3109, 3114 (a), I. R. C.)

RECORDS AND REPORTS OF PROPRIETOR

§ 182.785 *Form 1453–A.* When specially denatured alcohol is shipped to the United States or a governmental agency thereof, the proprietor will prepare one copy of Form 1453–A, except in the case of tank truck shipments when two copies will be prepared, and deliver them to the storekeeper-gauger who will check the forms with the records and permit, and, if found to agree therewith, he will initial all copies of the form and in the case of tank truck shipments, enclose one copy in a sealed envelope addressed to the Government officer to whom the specially denatured alcohol is consigned, and give the same to the driver of the tank truck for delivery to such officer. Upon receipt of the specially denatured alcohol, the receiving Government officer will execute the certificate of receipt on the form, after noting thereon any deficiency in the quantity received, and forward it to the district supervisor specified at the bottom of the form. The other copy of Form 1453–A will be forwarded by the storekeeper-gauger at the time of shipment to the district supervisor of the district in which the consignor's premises are located. The data required by § 182.786 to be entered on Form 1473 covering tank truck shipments will be entered on Form 1453–A for such transactions. The provisions of § 182.786 (d) will be followed by district supervisors in verifying such shipments of specially denatured alcohol. (Sec. 3070, I. R. C.)

§ 182.786 *Form 1473.* When specially denatured alcohol is shipped from the denaturing plant, the proprietor will prepare Form 1473 reporting the shipment. One copy of the form will be made for intradistrict shipments, and two copies for interdistrict shipments. An additional copy of the form will be prepared in the case of tank truck shipments. Where the proof of the alcohol used in producing specially denatured alcohol is other than 190 degrees of proof, the proof must be shown on Form 1473. Where shipments are made in tank cars, tank trucks, or consist of barrels or drums in carload lots, the name of the carrier and number of the car or tank truck, together with the routing (in the case of railroad tank cars or box cars), shall be entered on the form. The consignor shall not change the routing without giving prompt notice of such action to the district supervisor of his district, and if shipment is made to another district, to the district supervisor of such district. In addition, the serial numbers of the seals used, and in the case of tank trucks,

the State license number, the driver's full name, and the driver's permit number and State issuing the same, shall be recorded on all copies of Form 1473.

(a) *Disposition of forms.* At the time of shipment, the proprietor will deliver all copies of Form 1473 to the storekeeper-gauger, who will check the forms with the records and permits (in the case of specially denatured alcohol), and if found to agree therewith, he will initial the forms. In the case of tank truck shipments, he will enclose one copy in a sealed envelope addressed to the consignee, and give the same to the driver of the tank truck for delivery to the consignee. On receipt at the consignee's premises, the storekeeper-gauger or the consignee will receipt for the shipment, verify the information on the form and note thereon any discrepancies relative to the shipment. The Form 1473 will be forwarded by the storekeeper-gauger or the consignee immediately to the district supervisor of the district in which the consignor is located. In addition, on the day shipments are made, the storekeeper-gauger will forward one copy of the form to the district supervisor of the district in which the consignor is located, and, if shipments are made to another district, one copy to the district supervisor of such district. The same procedure will be followed where shipments in tank trucks are made of completely denatured alcohol, except Forms 1473 will be modified to read "completely" instead of "specially" denatured alcohol.

(b) *Intradistrict shipments.* Where shipment is made to a consignee located in the same district as the denaturing plant, the district supervisor will check Form 1473 with the monthly reports of the consignor and the consignee, and, if receipt of the shipment is duly reported by the consignee and the form agrees with the consignor's monthly report, the district supervisor will initial Part II of the form.

(c) *Interdistrict shipments.* Where shipment is made to another district, the district supervisor of the consignee's district will check Form 1473 with the consignee's monthly report, and, if receipt of the shipment is duly reported, he will execute Part III of the form and forward it to the district supervisor of the district in which the alcohol was shipped, who will check the receipted form with the consignor's monthly report, and, if found to agree therewith, he will initial Part II of the form.

(d) *Nonreceipt of shipment.* When specially denatured alcohol is not received within a reasonable time after shipment, or where any material or unexplained difference exists between the kind and quantity shipped and that received, or where there is reasonable ground to suspect that the specially denatured alcohol has been or will be used for purposes other than those authorized by the consignee's permit and by the law and regulations, the district supervisor shall investigate each case and take appropriate action in respect thereto. In addition, the district supervisor will check daily, on receipt, the Form 1473 covering tank truck shipments, and make any inquiry which he deems necessary with respect to any discrepancy. In the event of failure to receive a form from the storekeeper-gauger at the consignee's premises or from the consignee, as the case may be, within the time normally required for the truck to make the shipment and the form to be sent by mail, the district supervisor will make appropriate investigation. (Sec. 3070, I. R. C.)

SALE AND USE OF COMPLETELY DENATURED ALCOHOL

PROPRIETARY ANTI-FREEZE SOLUTIONS

§ 182.798 *Manufacture of proprietary anti-freeze solutions.* Proprietary anti-freeze solutions may be made with completely denatured alcohol for sale under trade names: *Provided*, That materials such as dye, rust inhibtor, petroleum distillates, etc., satisfactory to the Commissioner are added to the completely denatured alcohol in sufficient quantities to materially change to the composition and character of the completely denatured alcohol. Such solutions are not classified as completely denatured alcohol and may not be marked, branded, or sold as completely denatured alcohol. Completely denatured alcohol may not be obtained in tank cars or tank trucks for use in manufacturing proprietary anti-freeze solutions except by producers of denatured alcohol. (Secs. 3070, 3109, 3111, I. R. C.)

§ 182.802 *Prohibited containers.* Proprietary anti-freeze solutions may not be shipped in tank cars, tank trucks, or packages exceeding 55 wine gallons in capacity, except when shipped in tank cars or tank trucks by manufacturers to themselves at another location for packaging thereat in accordance with the regulations in this part. (Sec. 3070, I. R. C.)

OPERATIONS BY DEALERS IN SPECIALLY DENATURED ALCOHOL

RECEIPT OF SPECIALLY DENATURED ALCOHOL

§ 182.811 *Railroad tank cars or tank trucks.* If the bonded dealer receives specially denatured alcohol in railroad tank cars, railroad siding facilities for the receipt of such tank cars must be provided at the bonded dealer's premises. The denatured alcohol received in tank cars or tank trucks must be immediately deposited in storage tanks constructed in conformity with the provisions of § 182.102. When so deposited, the formula of the denatured alcohol shall be plainly marked on the storage tank. (Sec. 3070, I. R. C.)

FILLING OF PACKAGES BY BONDED DEALERS

§ 182.812 *When permissible.* Bonded dealers who receive specially denatured alcohol in tank cars or tank trucks and transfer the same to storage tanks in their storerooms, as provided in § 182.811, may fill packages of such specially denatured alcohol. Bonded dealers may also fill packages of specially denatured alcohol from denaturers' original packages where such original packages have been so damaged in transit as to necessitate repackaging, or where, upon receipt of approved Form 1477, Form 1485, Form 1486, or Form 1512, it is necessary to fill smaller packages for sale to authorized permittees in quantities less than the contents of the denaturer's original package, and specially denatured alcohol of the formula desired is not available in storage tanks for the filling of such packages. (Secs. 2808, 2866, 3070, I. R. C.)

§ 182.813 *Sale.* Specially denatured alcohol may be sold by bonded dealers holding basic permit, Form 1476, to manufacturers using specially denatured alcohol, and to other bonded dealers in specially denatured alcohol, pursuant to withdrawal permit, Form 1485 or Form 1477, as the case may be. Bonded dealers may also furnish samples of specially denatured alcohol to manufacturers, other bonded dealers, and to prospective permittees pursuant to sample permit, Form 1512: *Provided*, That in the case of samples, where the quantity involved in any case does not exceed 8 fluid ounces, permit, Form 1512, will not be required. Sales of specially denatured alcohol may also be made to the United States or governmental agencies thereof pursuant to permit, Form 1486. The provisions of § 182.754, respecting sales of specially denatured alcohol by denaturers, are hereby made applicable to sales of specially denatured alcohol by bonded dealers. Specially denatured alcohol sold by bonded dealers must be transported in accordance with § 182.677. Record and report of such transactions shall be reported on Form 1478, as provided in § 182.822. Tank trucks used for the transportation of specially denatured alcohol by bonded dealers, after filling, shall be sealed by appropriate seals, serially numbered, furnished and affixed by the shipper. The seal shall be dissimilar in marking from the cap seals used by the Bureau of Internal Revenue. The serial numbers of seals used and the data with respect to the carrier set forth in § 182.786 will be recorded by the dealer on Form 1473. One copy of the form will be forwarded by the dealer to the district supervisor of the district in which the dealer is located. One copy of the form will be forwarded to, and verified, by the consignee, and forwarded by him to the district supervisor of the district in which the consignor is located. (Secs. 3070, 3109, 3114 (a), I. R. C.)

LOSSES OF SPECIALLY DENATURED ALCOHOL

§ 182.816 *Losses in transit.* Losses in transit to bonded dealer's premises must be ascertained at the time the specially denatured alcohol is received by the bonded dealer. Accordingly, when packages, tank cars or tank trucks are received which show evidence of having sustained a loss in transit the bonded dealer should determine the extent of the loss at that time. The quantity ascertained to have been lost will be reported on Form 1478 on the line on which receipt of the shipment is reported, and in the column provided therefor. Where the quantity lost from any package, tank car or tank truck exceeds 1 per cent of the quantity originally contained therein, claim for allowance of the entire quantity lost from the package, tank car or tank truck will be made by the bonded dealer. If the

loss does not exceed 1 per cent, so calculated, claim for allowance will not be required, provided there are no circumstances indicating that the specially denatured alcohol lost or any part thereof, was unlawfully used or removed. (Sec. 3113, I. R. C.)

CARRIERS

§ 182.908 *Restricted use of containers*—(a) *Tank trucks.* Tank trucks shall not be used for the transportation of undenatured ethyl alcohol.

(b) *Railroad tank cars.* Shipment of alcohol or denatured alcohol by railroad tank cars may be made only when the premises of the consignor and consignee are equipped with satisfactory railroad siding facilities and the consignee is otherwise authorized to receive such shipment. (Secs. 3111, 3114 (a), I. R. C.)

IMPORTATION OF ALCOHOL FOR INDUSTRIAL PURPOSES

§ 182.994 *Customs gauge and release.* Prior to release from customs custody, the alcohol will be gauged by a customs officer who will enter the details of the gauge on all copies of the Form 1440. When shipments are made in tank cars, the details of gauge of each tank car will be reported separately thereon in accordance with the column headings on Form 1440. The customs officer will also show on each copy of Form 1440 the country of exportation of the alcohol. In addition, he will ascertain and state on each copy of the Form 1440 the rate of customs duty paid on the alcohol and the rate of customs duty which would have been applicable had such spirits been imported for beverage purposes. The customs officer will forward two copies of Form 1440 to the storekeeper-gauger at the industrial alcohol plant, bonded warehouse, or denaturing plant designated in the application, and retain one copy for customs purposes. The storekeeper-gauger at the plant or warehouse will, on receipt of the two copies of Form 1440, verify the shipment, note on both copies any discrepancies, forward one copy to the district supervisor of the district in which the plant or warehouse is located, and deliver the remaining copy to the proprietor of the plant or warehouse. (Sec. 3125 (a), I. R. C.)

§ 182.995 *Tank car, tank truck, and package shipments*—(a) *Tank cars to be sealed.* Where shipments of alcohol from customs custody to the industrial alcohol plant, bonded warehouse, or denaturing plant are made in tank cars, all openings affording access to the tanks will be sealed by the customs officer with customs seals.

(b) *Packages.* Where shipments of alcohol from customs custody are made in packages, the customs officer will gauge and release the alcohol pursuant to appropriate permit, Form 1436 or Form 1463, and application, Form 1440, in triplicate, in the same manner as alcohol shipped in tank cars, except that the sealing of the car in which transported will not be required. (Sec. 3125 (a), I. R. C.)

§ 182.997 *Gauging.* Upon receipt of the alcohol at the industrial alcohol plant, bonded warehouse, or denaturing plant from customs custody, it will be gauged in accordance with §§ 182.325 to 182.469 and §§ 182.683 to 182.790, inclusive, and the Gauging Manual: *Provided,* That where the bonded premises consist of storage tanks only, the spirits may be gauged upon receipt at such premises by any one of the following four methods, preference to be given in the order named:

(a) Weighed in scale tanks.

(b) Gauged by volume in accurately calibrated storage tanks.

(c) Weighed on railroad car scales located on bonded premises by weighing tank cars before and after filling and emptying, as the case may be.

(d) Gauged by volume in accurately calibrated tank cars. (Sec. 3125 (a), I. R. C.)

WITHDRAWAL OF IMPORTED ALCOHOL TAX FREE FOR USE OF THE UNITED STATES

§ 182.1006 *Bill of lading and customs seals.* Where the alcohol is transported by common carrier, the person to whom the alcohol was delivered for shipment shall furnish a copy of the bill of lading covering transportation of the alcohol from the port of entry to final destination to the governmental agency of the United States to whom the alcohol is consigned. If the alcohol is shipped in tank cars, all openings affording access to the tanks will be sealed by the customs officer with customs seals. (Sec. 3125 (b), I. R. C.)

2. Treasury Decision 5121, approved February 26, 1942, and Treasury Decision 5164, approved July 15, 1942, are hereby revoked.

3. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

(Secs. 2808, 2829, 2866, 3070, 3101, 3102, 3105, 3108, 3109, 3111, 3113, 3114, 3124, 3125, and 3176 of Internal Revenue Code (U. S. C., title 26, sections 2808, 2829, 2866, 3070, 3101, 3102, 3105, 3108, 3109, 3111, 3113, 3114, 3124, 3125, and 3176))

DRAWBACK OF TAX ON DISTILLED SPIRITS USED IN MANUFACTURE OF NONBEVERAGE PRODUCTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority of sections 3250 and 4041 of the Internal Revenue Code (26 U. S. C. A. 3250 and 4041).

Regulations 29 (26 CFR, Part 197) are hereby amended in these respects:

1. Sections 197.8, 197.24 (c) (2), 197.26 and Article VII (§§ 197.33 and 197.34) are revoked; and

2. Sections 197.2, 197.3, 197.5, 197.17, 197.18, 197.21, 197.22, 197.23 (d), 197.24 (d), 197.24 (e), 197.25, and 197.28, are amended as follows:

§ 197.2 *Definitions.* As used in the regulations in this part, the following terms shall have the meaning as defined herein:

(a) "Domestic distilled spirits" and "Distilled spirits" shall mean that substance known as ethyl alcohol produced at industrial alcohol plants operated under Regulations 3 (26 CFR, Cum. Sup., Part 182), and those substances known as whisky, brandy, rum, or other spirits, produced at registered distilleries or fruit distilleries operated under Regulations 4 (26 CFR, Cum. Sup., Part 183) and 5 (26 CFR, Cum. Sup., Part 184).

(b) "Year" shall mean the period which begins July 1 and ends on the following June 30.

(c) "Intermediate products" shall mean products containing distilled spirits which are not subject to drawback until used in a nonbeverage product eligible for drawback.

§ 197.3 *Terms used in the statute.* * * *

(c) *"Time".* The "time" at which distilled spirits shall be deemed to have been used is when the product contains the ingredients called for by an approved formula, or formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy, as the case may be. (Sec. 3250 (1), I. R. C.)

(d) *"Filed".* A claim for drawback shall be deemed to have been "filed" when it is delivered to the proper district supervisor, Alcohol Tax Unit, and by him received.

(e) *"Total annual withdrawals".* The term "total annual withdrawals" shall mean the total quantity of distilled spirits (proof gallons), which are used in the manufacture or production of nonbeverage products during a year.

§ 197.5 *Payment and rates of special tax.* Each person who uses distilled spirits in the manufacture or production of medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes, in order to be eligible to claim the drawback on the distilled spirits so used, must pay special tax at the rate of $25 per annum for total annual withdrawals not exceeding 25 proof gallons of distilled spirits; $50 per annum for total annual withdrawals not exceeding 50 proof gallons; or $100 per annum for total annual withdrawals of more than 50 proof gallons. Where a claim is filed in the first quarter of a year, covering distilled spirits used during the last quarter of the preceding year, and special tax has not been paid for the preceding year, special tax for such preceding year must be paid in the appropriate amount prior to or at the time of filing the claim. Special tax, based upon estimated withdrawals, may be paid in advance of actual withdrawals. Adjustments of the special tax where improperly paid will be made in accordance with § 197.17. The manufacturer is not required to pay the special tax if he does not claim drawback on the distilled spirits used by him. (Secs. 3250 (1) and 4041 (a), I. R. C.)

§ 197.17 *Change to higher or lower rate of special tax*—(a) *Change to higher rate.* A manufacturer of nonbeverage products who pays special tax of $25 per annum and has filed or intends to file a claim or claims for drawback covering distilled spirits in excess of 25 proof gallons used during the year for which the special tax was paid, must pay special tax of $50 or $100, as the case may be, and obtain a stamp therefor. The manufacturer may thereupon submit the special tax stamp of $25 to the collector of internal revenue to whom the special tax was paid with a claim on Form 843 for refund of the value thereof. Similar procedure will govern in the case of a manufacturer of nonbeverage products who pays special tax of $50 and has filed or intends to file claim for drawback covering distilled spirits used in excess of 50 proof gallons.

(b) *Change to lower rate.* A manufacturer of nonbeverage products who pays special tax of $100 or $50 per annum, as the case may be, and, during the year for which the special tax was paid, files claim or claims for drawback covering the use of not more than 50 or 25 proof gallons of distilled spirits, as the case may be, may file a claim on Form 843 for refund of the difference between the special tax paid and the special tax due. The special tax stamp shall be attached to the claim. (Secs. 3250 (1), 3304, 3770, and 4041 (a), I. R. C.)

§ 197.18 *Refund of special tax.* Refund of special tax may be made if it is established that the taxpayer did not file a claim for drawback for the period covered by the special tax stamp. Where claim for drawback was filed, refund of special tax may be made if it is established that no drawback was allowed or paid for the period covered by the stamp. (Secs. 3250 (1) and 3770, I. R. C.)

§ 197.21 *Claims.* The claim for drawback shall be filed on Form 843, "Claim," in duplicate, with the district supervisor, Alcohol Tax Unit, for the district in which the place of manufacture is located, and shall pertain only to distilled spirits used in the manufacture or production of nonbeverage products during any one quarter of the year, and only one claim may be filed for each quarter. (Sec. 3250 (1), I. R. C.)

§ 197.22 *Date of filing claim.* The claim for drawback must be filed with the district supervisor, Alcohol Tax Unit, within the three months next succeeding the quarter in which the distilled spirits covered by the claim were used in the manufacture of nonbeverage products. (Sec. 3250 (1), I. R. C.)

§ 197.23 *Information to be shown by the claim.* * * *

(d) That the nonbeverage products were manufactured in compliance with (1) quantitative formulas filed with the Commissioner on Form 1678 prior to or at the time of manufacture, or (2) formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy.

§ 197.24 *Supporting data.* Each claim will be accompanied by statements of supporting data which shall be prepared in duplicate. One copy shall be attached to the original and one copy shall be attached to the duplicate of the claim.

* * * * *

(d) *Summaries*—(1) *Summary of distilled spirits.* A statement showing in proof gallons the quantity of all distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity received during the quarter, quantity used during the quarter in the manufacture of nonbeverage products subject to drawback, quantity used in the manufacture of intermediate products, quantity otherwise used not subject to drawback, quantity in process at the end of the quarter, and the quantity remaining on hand at the end of the quarter. Distilled spirits in process will include distilled spirits represented in unfinished nonbeverage products, mixtures, menstruums, etc. Any discrepancy between the amount of distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof.

(2) *Summary of distilled spirits recovered from the dregs or marc of percolation, or extraction, of products eligible for drawback under section 3250 (1), Internal Revenue Code.* A statement showing in proof gallons the quantity of all recovered distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity recovered during the quarter, quantity used not subject to drawback, quantity in process at the end of the quarter, and the quantity remaining on hand at the end of the quarter. Any discrepancy between the amount of recovered distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof. Distilled spirits recovered from dregs or marc of percolation, or extraction, of products eligible for drawback may be reused in the manufacture of medicines or flavoring extracts of the kind in which originally used. Such recovered distilled spirits are not eligible for drawback and may be reused only in the manufacture of nonbeverage products. They may not be used in the manufacture of intermediate products. (Sec. 190.4 (f), Reg. 15)

(3) *Summary of distilled spirits recovered from the dregs or marc of percolation, or extraction, of intermediate products.* A statement showing in proof gallons the quantity of all recovered distilled spirits on hand at the beginning of the quarter, quantity in process beginning of the quarter, quantity recovered during the quarter, quantity used during the quarter in the manufacture of nonbeverage products subject to drawback, quantity otherwise used, and the quantity remaining on hand at the end of the quarter. Any discrepancy between the amount of recovered distilled spirits on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the summary with an explanation of the cause thereof. Any distilled spirits recovered from the dregs or marc of percolation, or extraction, of intermediate products as defined in the regulations in this part are eligible for drawback of tax only when used in the manufacture of a nonbeverage product.

(e) *Statement of intermediate products.* A statement showing the quantity in wine gallons of each intermediate product and the quantity of distilled spirits (proof gallons) used therein: (1) On hand at the beginning of the quarter, (2) produced during the quarter, and (3) on hand at the end of the quarter, and showing the quantity in wine gallons of each intermediate product and the quantity of the distilled spirits contained therein (proof gallons): (1) Used during the quarter in eligible products, (2) used during the quarter in other intermediate products, and (3) otherwise disposed of during the quarter. Any discrepancy between the amount of intermediate products on hand at the end of the quarter as disclosed by actual inventory and the amount shown by the manufacturer's records must be reported in the statement with an explanation of the cause thereof. Only the distilled spirits remaining in an intermediate product at the time of its use in the manufacture of an approved nonbeverage product are eligible for drawback.

§ 197.25 *Handling of claims.* The district supervisor, Alcohol Tax Unit, will date-stamp each copy of the claim on Form 843, and, after recording, will examine the claim for the purpose of determining whether it is properly executed and that all supporting data have been submitted and will conduct such inquiries and investigations as may be necessary to verify that drawback is allowable on the distilled spirits covered by the claim. After completion of such verification he will forward the original copies of the claim and supporting data, and a copy of the report of investigation, with his recommendation as to the merit of the claim to the Commissioner. (Sec. 4041 (a), I. R. C.)

§ 197.28 *Statement of process.* The Commissioner, at his discretion, may at any time require any person claiming drawback under the regulations in this part to file a statement of process in addition to that required by Form 1678 and such other data as he may deem necessary for consideration of such person's claim for drawback. When such additional data are required, the statement of process should be submitted in triplicate with copies of the commercial labels used on the finished products. (Sec. 3250 (1), I. R. C.)

NORTH CONTINENT UTILITIES CORP. ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO LIQUIDATION PLAN

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 16th day of April A. D. 1947.

The Commission having by order entered on November 16, 1943 (Holding Company Act Release No. 4686) approved a plan providing for the liquidation and dissolution of North Continent Utilities Corporation ("North Continent"), a registered holding company, filed by that company and its subsidiary companies pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, designed to enable the North Continent holding company system to comply with section 11 (b) of the act; and the Commission having by said order reserved jurisdiction as to any steps taken to effectuate disposition of North Continent's assets;

The District Court of the United States for the District of Delaware having on March 17, 1944 entered an order approving said plan, and having on July 7, 1945, entered an amendatory order providing that "North Continent Utilities Corporation until further order of this court may enter into transactions not inconsistent with the plan, including sales of its assets or assets of its subsidiaries, upon the filing of appropriate applications and declarations with, and the entry of appropriate orders by the Securities and Exchange Commission, in conformity with the Public Utility Holding Company Act of 1935 and the rules, regulations and orders promulgated and issued thereunder";

The Commission having by order entered on November 5, 1945 (Holding Company Act Release No. 6190), released jurisdiction in respect of the following transactions:

(a) The sale by Elk River Power & Light Company, a wholly owned subsidiary of North Continent, of all its physical properties to the Village of Elk River, a municipal corporation in Minnesota, for a base price of $50,000;

(b) The following sales by New Mexico Public Service Company, a wholly owned subsidiary of North Continent, of certain of its physical properties, known as its "Farmington Division";

(1) The sale of the properties of the "Farmington Division" located in the Town of Farmington and extending five miles beyond the town's boundaries to the Town of Farmington, a municipal corporation in New Mexico, for a base price of $210,000;

(2) The sale of the properties of the "Farmington Division" extending more than five miles beyond the Town of Farmington's boundaries to Basin Light and Power Company, a New Mexico corporation, for a base price of $90,000;

North Continent having filed an application and amendments thereto requesting a supplemental order releasing jurisdiction in respect of the sale by New Mexico Public Service Company of certain of its physical properties, known as its "Hot Springs Division" to the Town of Hot Springs, a municipal corporation in New Mexico, for a base price of $167,500; and it appearing to the Commission that said transaction represents a necessary step to effectuate disposition of the assets of North Continent, and that said sale is, by virtue of the provisions of paragraph (b) (3) of Rule U-44 promulgated under the provisions of section 12 (d) of the act, excepted from the requirements of Rule U-44; and that jurisdiction should be released in respect of said sale;

It is ordered, That jurisdiction reserved in the order heretofore entered herein on November 16, 1943, be and hereby is released in respect of said sale.

It is further ordered, That in all other respects said order of November 16, 1943, remains in full force and effect.

North Continent having requested that the order entered herein contain findings and recitals necessary to meet the requirements of sections 371, 372, 373 and 1808 of the Internal Revenue Code, as amended, in respect of said sale by New Mexico Public Service Company of its "Hot Springs Division", as well as the sales by New Mexico Public Service Company and by Elk River Power & Light Company referred to in our order of November 5, 1945, and hereinabove described, and in respect of the use of the proceeds of all said sales; and it appearing that said request may be appropriately granted;

It is further ordered and recited, That the following transactions are necessary and appropriate to the integration or simplification of the North Continent holding company system, of which New

Mexico Public Service Company and Elk River Power & Light Company are members, and are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935;

(a) The sale by New Mexico Public Service Company of certain of its physical properties, known as its "Hot Springs Division" to the Town of Hot Springs, New Mexico, for a base price of $167,500;

(b) The use by New Mexico Public Service Company of the net proceeds of the aforesaid sale, together with other funds of said company, to reduce the unpaid principal amount of its promissory notes, dated February 24, 1934, aggregating $550,000, held by North Continent Utilities Corporation;

(c) The sale by Elk River Power & Light Company of all its physical properties to the Village of Elk River, Minnesota, for a base price of $50,000;

(d) The use by Elk River Power & Light Company of the net proceeds of the aforesaid sale, together with other funds of said company, to reduce the unpaid principal amount of its promissory note, dated February 23, 1929, in the principal amount of $145,000, held by North Continent Utilities Corporation;

(e) The sales by New Mexico Public Service Company of certain of its physical properties, known as its "Farmington Division," in part to the Town of Farmington, New Mexico and in part to Basin Light and Power Company, for base prices of $210,000 and $90,000, respectively;

(f) The use by New Mexico Public Service Company of the net proceeds of the aforesaid sales, together with other funds of said company, to reduce the unpaid principal amount of the promissory notes referred to in subdivision (b) above, held by North Continent Utilities Corporation;

(g) The use by North Continent Utilities Corporation of the funds received by it as a result of the transactions referred to in subdivisions (a) through (f) above to cause ratable payments to be made on the unpaid principal amount of its First Lien Collateral and Refunding Gold Bonds, Series A, 5½%, due January 1, 1948;

The properties referred to in subdivision (a) above being more completely specified, itemized, and described in the Exhibit annexed to the amended application filed herein on March 24, 1947, and the properties referred to in subdivision (c) and (e) above being more completely specified, itemized, and described in the Exhibits annexed to the applications filed herein on September 28, 1945 and September 20, 1945, respectively; said specifications, itemizations, and descriptions of said properties contained in said exhibits to said applications are hereby incorporated by reference in this order and made a part hereof, with the same force and effect as if set forth at length herein.

By the Commission.

VIRGINIA ELECTRIC AND POWER CO.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of April A. D. 1947.

Notice is hereby given that Virginia Electric and Power Company ("Virginia"), a public utility operating company and subsidiary of Engineers Public Service Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder. Applicant designates sections 9 (a) (1) and 10 of the act as applicable to the proposed transactions.

All interested persons are referred to the application which is on file in the office of this Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

East Coast Electric Company ("East Coast") proposes to file a declaration which will seek authority to sell at competitive bidding, pursuant to the provisions of Rule U-50 promulgated under the act, 60,000 shares of its common stock, $10 par value, and $1,300,000 principal amount of First Mortgage Bonds, Series A, due January 1, 1977, being all the securities of the company then outstanding. East Coast, presently known as Virginia East Coast Utilities, Inc., a subsidiary operating company of East Coast Public Service Company, a registered holding company, is presently undergoing reorganization pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935. Virginia desires to qualify as a bidder for such common stock and bonds, when and if such securities are offered at competitive bidding by East Coast.

Virginia proposes, if it is the successful bidder for the East Coast securities, to finance its purchase temporarily with treasury cash to the extent available, and any excess cash required will be obtained under a credit agreement with The Chase National Bank of the City of New York, pursuant to which agreement Virginia is authorized to borrow up to an aggregate of $5,000,000. The application states that permanent financing of this proposed acquisition is expected to be accomplished subsequently.

The application further states that in the event Virginia acquires the common stock and bonds of East Coast, Virginia will either cause East Coast to transfer its property and assets to Virginia and thereupon dissolve and will file any necessary applications in connection therewith, or it will file an application with the Commission requesting exemption of Virginia as a holding company.

The applicant further states that the State Corporation Commission of Virginia has jurisdiction over the proposed transaction.

It is ordered, That a hearing on said matters under the applicable provisions of the act and the rules of the Commission thereunder, be held on April 28, 1947, at 10:00 a. m., e. d. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That William W. Swift or any other hearing officer or officers designated by the Commission to preside at such hearing shall exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That the specific matters of fact and law to be considered and determined at said hearing (subject to such amendment as may hereafter be made and subject to the consideration and determination of such other issues as may be raised by interested parties), are the following:

(1) Whether the proposed acquisition by Virginia of the securities of East Coast meets the requirements of the applicable provisions of the act, particularly section 10 thereof.

(2) Whether, within the meaning of section 10 (b) (1) of the act, the acquisition by Virginia of the common stock of East Coast will tend toward a concentration of control of public utility companies of a kind or to an extent detrimental to the public interest or the interest of investors or consumers.

(3) Whether, within the meaning of section 10 (c) (1) of the act, the proposed acquisition by Virginia of the securities of East Coast will be detrimental to the carrying out of the provisions of section 11.

(4) Whether, within the meaning of section 10 (c) (2) of the act, the acquisition by Virginia of the securities of East Coast will serve the public interest by tending toward the economical and efficient development of an integrated public-utility system.

(5) Whether, if the proposed acquisition is authorized and Virginia is the successful bidder, the accounting entries to be made upon the books of Virginia meet the requirements of the applicable provisions of the act.

(6) Whether, if the proposed acquisition by Virginia is authorized and Virginia is the successful bidder, the proposed financing of such acquisition satisfies the standards of sections 7 (c) and (d) of the act.

(7) Whether the fees, commissions or other remunerations to whomsoever paid in connection with the proposed transactions are reasonable.

(8) Whether it is necessary or appropriate to impose terms or conditions with respect to the proposed transactions in the public interest or for the protection of investors or consumers, and if so, what terms and conditions should be imposed.

It is further ordered, That any person desiring to be heard in connection with these proceedings or proposing to intervene herein shall file with the Secretary of the Commission, on or before the 25th day of April 1947, his requests or application therefor, as provided by Rule XVII of the rules of practice of the Commission. Such requests shall set forth the nature of such person's interest in the proceedings, the reasons for request to be heard or to intervene, which of the issues, as set forth above, such person proposes to controvert, together with a statement of any additional issues proposed to be raised in such proceedings.

It is further ordered, That jurisdiction be, and hereby is, reserved to separate, either in whole or in part, or for disposition in whole or in part, any of the issues, questions or matters herein set forth, or which may arise in these proceedings, or to consolidate with these proceedings other filings or matters pertaining to the subject matter of these proceedings and to take such other action as may appear conducive to an orderly, prompt and economic disposition of the matters involved.

It is further ordered, That the Secretary of this Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to Virginia, East Coast, and the State Corporation Commission of Virginia by registered mail, and to all other interested persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the act and by publication in the FEDERAL REGISTER.

By the Commission.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspection, Marketing Practices)

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (GRADING, CERTIFICATION AND STANDARDS)

STANDARDS FOR FRESH FRUITS AND VEGETABLES AND OTHER PRODUCTS

By virtue of the authority (11 F. R. 7713) vested in me by the Secretary of Agriculture, I hereby approve the publication in the FEDERAL REGISTER of the following United States Standards for Tangerines which were issued September 22, 1941 and amended October 27, 1941. These amended standards are currently in effect pursuant to the Department of Agriculture Appropriation Act of 1947 (Pub. Law 422, 79th Cong., 2d sess., approved June 22, 1946).

§ 51.416 *Tangerines*—(a) *General.* (1) Standards for tangerines, formerly issued as a part of the U. S. Standards for Citrus Fruits, are issued herewith as separate standards. These standards apply only to tangerines and not to other varieties of the Mandarin group.

(2) The tolerances for the standards are on a container basis. However, individual packages in any lot may vary from the specified tolerances as stated below, provided the averages for the entire lot, based on sample inspection, are within the tolerances specified.

(3) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified, provided at least one specimen which does not meet the requirements shall be allowed in any one package.

(4) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, provided at least one specimen which does not meet the requirements shall be allowed in any one package.

(b) *Grades*—(1) *U. S. Fancy.* U. S. Fancy shall consist of tangerines which are mature, firm, and well-formed; free from soft bruises, bird pecks, unhealed skin-breaks, and decay; free from damage by ammoniation, creasing, dryness or mushy condition, green spots or oil spots, pitting, scale, sprouting, sprayburn, sunburn, unsightly discoloration, buckskin, melanose, scars, scab, dirt or other foreign materials, disease, insects, mechanical or other means.

(i) Each fruit in this grade shall be highly colored.

(ii) In this grade not more than $\frac{1}{10}$ of the surface in the aggregate of each fruit may have a light shade of brown discoloration caused by rust mite, or an equivalent in appearance to this amount when the fruit is discolored by any cause. (See Tolerances.)

(2) *U. S. No. 1.* U. S. No. 1 shall consist of tangerines which are mature, firm and well-formed; free from soft bruises, bird pecks, unhealed skin-breaks, and decay; free from damage by ammoniation, creasing, dryness or mushy condition, green spots or oil spots, pitting, scale, sprouting, sprayburn, sunburn, unsightly discoloration, buckskin, melanose, scars, scab, dirt or other foreign materials, disease, insects, mechanical or other means.

Part 95—Car service 2635

(i) Each fruit of this grade shall be well-colored and the fruits in each container shall be fairly uniform in color.

(ii) In this grade not more than one-third of the surface in the aggregate of each fruit may have a light shade of brown discoloration caused by rust mite, or an equivalent in appearance to this amount when the fruit is discolored by any cause. (See Tolerances.)

(3) *U. S. No. 1 Bronze.* The requirements for this grade are the same as for U. S. No. 1 except for discoloration. In this grade at least 75 percent, by count, of the fruit shall show some discoloration, and more than 20 percent, by count, of the fruit shall have more than one-third of the surface of each fruit affected with bronzed russeting: *Provided*, That no discoloration that exceeds the amount allowed in the U. S. No. 1 grade shall be permitted unless such discoloration is caused by thrip or wind scars, or rust mite.

(4) *U. S. Combination Grade.* Any lot of tangerines may be designated "U. S. Combination" when not less than 50 percent, by count, of the fruits in each container meet the requirements of U. S. No. 1 grade and the remainder U. S. No. 2 grade: *Provided*, That the fruits in each container shall be fairly uniform in color. (See Tolerances.)

(5) *U. S. No. 2.* U. S. No. 2 shall consist of tangerines which are mature, fairly firm, and fairly well-formed; free from soft bruises, bird pecks, unhealed skin-breaks and decay; free from serious damage by ammoniation, creasing, dryness or mushy condition, green spots or oil spots, pitting, scale, sprouting, sprayburn, sunburn, unsightly discoloration, buckskin, melanose, scars, scab, dirt or other foreign materials, disease, insects, mechanical or other means.

(i) Each fruit of this grade shall be fairly well-colored.

(ii) In this grade not more than two-thirds of the surface in the aggregate of each fruit may be affected with light brown discoloration, or may have the equivalent to this amount in appearance when the fruit has lighter or darker shades of discoloration. (See Tolerances.)

(6) *U. S. No. 2 Russet.* The requirements for this grade are the same as for U. S. No. 2 except that more than 20 percent, by count, of the fruits shall have in excess of two-thirds of the surface in the aggregate affected with light brown discoloration. (See Tolerances)

(7) *U. S. No. 3.* U. S. No. 3 shall consist of tangerines which are mature, not flabby and not seriously lumpy; which are free from unhealed bird pecks, unhealed skin-breaks and decay; free from very serious damage by bruises, ammoniation, creasing, dryness or mushy condition, pitting, scale-sprouting, sprayburn, sunburn, unsightly discoloration, melanose, scars, scab, dirt or other foreign materials, disease, insects, mechanical or other means.

(c) *Tolerances.* In order to allow for variations incident to proper grading and handling in each of the foregoing grades, the following tolerances are provided, as specified:

(1) *U. S. Fancy, U. S. No. 1, U. S. No. 1 Bronze, U. S. No. 2 and U. S. No. 2 Russet.* Not more than a total of 10 percent, by count, of the fruit in any container may be below the requirements of the grade other than for discoloration but not more than 5 percent shall be allowed for very serious damage other than by dryness or mushy condition and not more than one-half of 1 percent shall be allowed for decay at shipping point: *Provided*, That a total tolerance of not more than 3 percent shall be allowed for decay enroute or at destination. In addition, not more than a total of 10 percent, by count, of the fruit in any container may not meet the requirements relating to discoloration but not more than 2 percent shall be allowed for serious damage by unsightly discoloration.

(2) *U. S. Combination.* Not more than a total of 10 percent, by count, of the fruit in any container may be below the requirements of this grade but not more than 5 percent shall be allowed for very serious damage other than by dryness or mushy condition, and not more than one-half of 1 percent shall be allowed for decay at shipping point: *Provided*, That a total tolerance of not more than 3 percent shall be allowed for decay enroute or at destination. No part of any tolerance shall be allowed to reduce for the lot as a whole the percentage of U. S. No. 1 required in the combination but individual containers may have not more than a total of 10 percent less than the percentage of U. S. No. 1 required or specified: *Provided*, That the entire lot averages within the percentage specified.

(3) *U. S. No. 3.* Not more than a total of 15 percent, by count, of the fruit in any container may be below the requirements of this grade but not more than 5 percent shall be allowed for defects other than dryness or mushy condition, and not more than 1 percent shall be allowed for decay at shipping point: *Provided*, That a total tolerance of not more than 3 percent shall be allowed for decay enroute or at destination.

(d) *Standard pack.* (1) The tangerines in each container shall be packed in accordance with recognized methods. Each container shall be well filled and properly marked to indicate the size of the fruit. When the figures used to indicate size of the fruit vary from the actual number of tangerines in the container, as in the case of fractional parts of boxes, the figures indicating size shall be followed by the letter "s" or the word "size," as, for example, "210's," or "210 size." Containers which are not so marked shall not be regarded as meeting requirements of "standard pack."

(2) Fruit in each container shall be of a size not less than the minimum diameters specified below for the various packs. Packs other than those listed shall have a minimum size not less than that specified for the nearest count.

DIAMETER IN INCHES

Pack:	Minimum
100	2 5/16
120	2 1/16
150	2
176	2
210	2
246	2
294	2

(3) In order to allow for variations incident to proper sizing, not more than 10 percent, by count, of the fruit in any container may be below the minimum size for the count as specified above.

(e) *Definitions.* (1) "Firm" means that the flesh is not soft and the fruit is not badly puffy, and that the skin has not become materially separated from the flesh of the tangerine.

(2) "Well-formed" means that the fruit has the characteristic tangerine shape and is not deformed.

(3) "Damage" means any defect or blemish which more than slightly affects the appearance, or edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as damage:

(i) Ammoniation, when not occurring as speck-type similar to melanose: *Provided,* That no ammoniation shall be permitted that detracts from the appearance of the individual fruit to a greater extent than the amount of discoloration allowed for the grade.

(ii) Creasing, when it materially affects the appearance or shipping quality of the fruit.

(iii) Dryness or mushy condition, when mushy or distinctly dry to a depth of more than one-eighth inch in all segments at the stem end, or the equivalent of this amount, by volume, of mushy condition or dryness when occurring in any portion of the fruit.

(iv) Green spots or oil spots, when the appearance is affected to a greater extent than 10 green spots caused by scale, each of which is approximately one-eighth inch in diameter.

(v) Pitting, when materially affecting the appearance or shipping quality of the individual fruit.

(vi) Scale, when occurring as a blotch which averages more than three-eighths inch in diameter or any scale that detracts from the appearance of the individual fruit to a greater extent than a three-eighths inch blotch. "Blotch" refers to actual scale and not the discolored area caused by scale.

(vii) Sprayburn, when causing the skin to become hard or when it materially affects the appearance of the fruit.

(viii) Sunburn, when causing the skin to become hard or when it materially affects the appearance of the fruit.

(ix) Unsightly discoloration, when the color or the pattern, or a combination of color and pattern, causes the fruit to have an unattractive appearance.

(x) Buckskin, when it detracts from the appearance of the fruit to a greater extent than the amount of discoloration allowed for the grade.

(xi) Melanose, when not small smooth speck-type, or any speck-type that detracts from the appearance of the fruit to a greater extent than the amount of discoloration allowed in the grade. Melanose that exceeds the amount allowed in the U. S. No. 1 grade is not permitted in the U. S. No. 1 Bronze grade.

(xii) Scars, when not smooth, or when causing any noticeable depression or when detracting from the appearance of the fruit to a greater extent than the amount of discoloration allowed for the grade.

(xiii) Scab, when not smooth, or when it affects shape or when it detracts from the appearance of the fruit to a greater extent than the amount of discoloration allowed for the grade. Scab injury that exceeds the amount allowed in the U. S. No. 1 grade is not permitted in the U. S. No. 1 Bronze grade.

(4) "Highly colored" means that the ground color of each fruit is a deep tangerine color with practically no trace of yellow color.

(5) "Discoloration" includes discoloration caused by rust mite, melanose, scars, scab, or any other means. Shades of discoloration which blend with the ground color of the fruit may be allowed on a larger area than that specified in the grade for light brown discoloration, and shades of discoloration which are more in contrast with the ground color shall be restricted to a lesser area, provided no discoloration may affect the appearance to a greater extent than the amount of light brown discoloration specified for the grade. Tangerines which show discoloration caused by melanose, scab, or any cause other than by thrip, or wind scars, or by rust mite shall not be permitted in the U. S. No. 1 Bronze grade when such discoloration exceeds the amount allowed in the U. S. No. 1 grade. (See definition 7, "Bronzed russeting")

(6) "Well-colored" means that the ground color of each fruit is a good shade of yellow or reddish tangerine color and not a pale yellow color.

(7) "Bronzed russeting" means russeting caused by thrip, or wind scars, or by rust mite or similar russeting which is not readily distinguishable from that caused by rust mite. Discolorations caused by melanose, scab, etc. are not considered as "bronzed russeting" within the meaning of these standards but are regarded as defects when they exceed the amounts permitted in the U. S. No. 1 grade and are not permitted in the U. S. No. 1 Bronze grade.

(8) "Fairly uniform in color" means that the fruits in each container have the same general shade of color; that is, tangerines of pronounced differences in color shall not be mixed in the same container.

(9) "Fairly firm" means that the flesh may be slightly soft but is not bruised or badly puffy, and that the skin has not become seriously separated from the flesh of the tangerine.

(10) "Fairly well-formed" means that the fruit may not have the shape characteristic of the variety but that it is not badly deformed.

(11) "Serious damage" means any defect or blemish which seriously affects the appearance, or edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as serious damage:

(i) Ammoniation, when scars are cracked, or dark and aggregating more than one-half inch in diameter or when light-colored and aggregating more than 1 inch in diameter.

(ii) Creasing, when it causes the skin to be seriously weakened.

(iii) Dryness or mushy condition, when mushy or distinctly dry to a depth of more than one-quarter inch in all segments at the stem end, or the equivalent of this amount, by volume, of mushy condition or dryness when occurring in any portion of the fruit.

(iv) Green spots or oil spots, when the appearance is affected to a greater extent than 25 green spots, caused by scale, each of which is approximately one-eighth inch in diameter.

(v) Pitting, when seriously affecting the appearance or shipping quality of the fruit.

(vi) Scale, when occurring as a blotch which averages more than one-half inch in diameter, or any scale that detracts from the appearance of the fruit to a greater extent than a one-half inch blotch. "Blotch" refers to actual scale and not the discoloration caused by scale.

(vii) Sprayburn, when it has caused the skin to become hard, or when it seriously affects the appearance of the fruit.

(viii) Sunburn, when it has caused the skin to become hard, or when it seriously affects the appearance of the fruit.

(ix) Unsightly discoloration, when the color or the pattern, or a combination of both, causes the fruit to have a distinctly unattractive appearance.

(x) Buckskin, when it detracts from the appearance of the fruit to a greater extent than the amount of discoloration allowed for the grade.

(xi) Melanose, when badly caked and aggregating more than ½ inch in diameter or when lightly caked and aggregating more than 1 inch in diameter, or when unsightly or when it detracts from the appearance of the fruit to a greater extent than the amount of discoloration allowed for the grade.

(xii) Scars, when not fairly smooth, or when causing any materially depressed areas, or when detracting from the appearance to a greater extent than the amount of discoloration allowed for the grade. Scars which are not fairly smooth, or which are materially depressed, are not permitted in either U. S. No. 2 or U. S. No. 2 Russet grades.

(xiii) Scab, when not fairly smooth, or when it materially affects the shape of the fruit, or when it detracts from the appearance to a greater extent than the maximum amount of discoloration allowed for the grade.

(12) "Fairly well-colored" means that a yellow or reddish tangerine ground color shall predominate over the green color on practically the entire surface of each fruit.

(13) "Very serious damage" means any defect or blemish which very seriously affects the appearance, or edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as very serious damage:

(i) Ammoniation, when scars are badly cracked, or when dark and aggregating more than 1 inch in diameter, or when light-colored and detracting from the appearance of the fruit to a greater extent than 1 inch of dark ammoniation.

(ii) Creasing, when causing the skin to be seriously weakened.

(iii) Dryness or mushy condition, when mushy or distinctly dry to a depth of more than one-quarter inch in all segments at the stem end or the equivalent of this amount, by volume, of mushy condition or dryness when occurring in any portion of the fruit.

(iv) Pitting, when it very seriously affects the appearance or the shipping quality of the fruit.

(v) Scale, when it very seriously affects the appearance of the fruit.

(vi) Sprayburn, when it very seriously affects the appearance of the fruit.

(vii) Sunburn, when it very seriously affects the appearance of the fruit.

(viii) Unsightly discoloration, when the fruit has a very objectionable appearance caused by any means. The color or the pattern of the discoloration, or a combination of both, or a combination of defects may cause the fruit to have a very unsightly appearance.

(ix) Melanose, when caked to the extent that the appearance of the fruit is very seriously affected.

(x) Scars, when so deep, rough, or so unsightly that the appearance of the fruit is very seriously injured.

(xi) Scab, when it causes the fruit to be very seriously injured.

(f) *Cull.* A cull is a fruit which does not meet the requirements of U. S. No. 3 grade. (54 Stat. 555; 7 U. S. C. and Sup. 414)

PART 301—DOMESTIC QUARANTINE NOTICES

STERILIZATION OF GRAPEFRUIT

Because of increasing numbers of infestations of Mexican fruitflies now occurring in the regulated area in the Rio Grande Valley it has become necessary to require the sterilization of grapefruit produced in and moved interstate from the Texas counties of Cameron, Hidalgo, and Willacy effective 12:01 a. m., April 24, 1947, and continuing for the remainder of the shipping season.

The date upon which this requirement becomes necessary depends upon development of insect conditions and cannot be determined in advance. To accomplish the purpose for which it is intended this requirement must be made effective immediately upon determination that it is necessary. Accordingly, it is found, upon good cause, that compliance with the rule making procedure of section 4 (a) of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 238) is impracticable and contrary to the public interest, and it is found that good cause exists for noncompliance with the thirty day publication requirement of section 4 (c) of that act.

§ 301.64-4d *Administrative instructions relative to the Mexican fruitfly quarantine.* Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by paragraph (e) of § 301.64-4 (Notice of Quarantine No. 64), it is hereby required that effective 12:01 a. m., April 24, 1947, and continuing throughout the harvesting season to the close of June 15, 1947, all grapefruit, as a condition of certification for interstate movement from the Texas counties of Cameron, Hidalgo, and Willacy, shall be sterilized in accordance with the methods authorized in B. E. P. Q. 472, revised effective September 25, 1941 (7 CFR Cum. Supp. 301.64-4a).

[1947 Bulletin, Amdt. 1]

PART 702—INSULAR AGRICULTURAL CONSERVATION PROGRAM

GENERAL PROVISIONS RELATING TO PAYMENTS; FAILURE TO MAINTAIN PRACTICES

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, (49 Stat. 1148, 16 U. S. C. 590g to 590q) the 1947 Agricultural Conservation Program Bulletin for the Insular Region, issued August 23, 1946, is hereby amended as follows:

Section 702.805, *General provisions relating to payments,* is amended with the addition of a paragraph (f) as follows:

(f) *Failure to maintain practices carried out under previous programs.* Where the State office determines that any conservation practice carried out under previous agricultural conservation programs is not maintained in accordance with good farming practice or the effectiveness of any such practice is destroyed during the 1947 program year, a deduction shall be made for the extent of the practice destroyed or not maintained from the payment of the person responsible for incurring such deduction after the payment has been increased in accordance with the provisions of § 702.803. The deduction rate shall be the 1947 practice rate, or if the practice is not offered in 1947, the practice rate in effect during the year the practice was performed.

PART 1490—MISCELLANEOUS FOOD PRODUCTS

TERMINATION OF CONTROL OF EDIBLE MOLASSES

War Food Order No. 51, as amended (11 F. R. 12282, 14509), is hereby terminated.

This termination shall become effective at 12:01 a. m., e. s. t., April 21, 1947. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 51, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

TITLE 13—BUSINESS CREDIT

Chapter I—Reconstruction Finance Corporation

PART 02—PROCEDURES

CENTRAL ORGANIZATION

Section 02.16 (11 F. R. 177A-459) is deleted in its entirety and the following substituted therefor:

§ 02.16 *Office of Metal Reserve*—(a) *In general.* Inquiries regarding the activities of the Office of Metals Reserve should be addressed to the Reconstruction Finance Corporation, Office of Metals Reserve, 811 Vermont Avenue NW., Washington 25, D. C.

(b) *Sale of certain strategic and critical metals and minerals*—(1) *Sale of strategic and critical metals and minerals.* The Office of Metals Reserve, Reconstruction Finance Corporation, has available for sale to the public limited quantities of the metals and minerals listed below in List A. These are termed "strategic and critical materials" and are available to meet the current requirements of industry under the provisions of the Strategic and Critical Materials Stock Piling Act of 1946, PL 520, 79th

Congress, The Office of Metals Reserve will sell these List A materials in quantities not less than the minimum sales quantities specified in List A.

(2) *Recommendations by the Civilian Production Administration to the Office of Metals Reserve, as to the sale of these materials.* The Office of Metals Reserve in making sales to the public of List A materials, will be guided by the recommendations of the Civilian Production Administration of the Office of Temporary Controls, as to the buyers and quantities.

(3) *Criteria for recommendations by the Civilian Production Administration.* In order to make the most effective use of these materials to help meet industrial deficiencies, CPA will consider applications and make recommendations to the Office of Metals Reserve on the basis of the following criteria:

(i) The applicant requires the material for his own immediate use in its present form; or

(ii) The applicant is a distributor of the material engaged in supplying the needs of small businesses, whose current requirements are less than the RFC minimum sales quantities, and the distributor undertakes to make the material purchased by him available only to persons recommended by the CPA.

(iii) In the limited cases described in subdivisions (i) and (ii) of this subparagraph, recommendations will be made only upon the further findings by CPA that:

(*a*) The use of a substitute or less scarce material is not practical; and

(*b*) The material is not available from private sources, foreign or domestic; and

(*c*) The quantity of material requested, including materials in inventory and to be received from other sources, will not result in more than a minimum working inventory.

(iv) In respect to any material in which the Office of Metals Reserve stocks are extremely limited in relation to the amounts required to meet industrial deficiencies, as established by CPA under the Strategic and Critical Stock Piling Act, recommendations to sell will generally be made only in cases of emergency such as to prevent a plant shutdown or for public health and safety.

(4) *How to make application for purchase of List A materials from RFC.* Any person wishing to purchase any List A material from the Office of Metals Reserve and who believes that he meets the criteria referred to in subparagraph (3) of this paragraph, may apply directly to the CPA, Washington 25, D. C., on RFC Form MR-45. These forms are available at the CPA, Washington 25, D. C. Applications on RFC Form MR-45 should be filed with CPA on or before the 15th day of the month previous to the month in which delivery is required. Applicants will be advised by CPA of its action.

(5) *Bureau of the Budget approval.* The above requirements for information to be supplied with the application have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

LIST "A"

Metals and minerals	Minimum sales quantities	Remarks
Aluminum: Primary pig	Minimum carload.	
Asbestos: Rhodesian Chrysotile fiber (grade C and GI, C & G/2) African Amosite fiber (grades 3/DM1, B3 and D3).	Minimum carload.	
Beryl: Ores or concentrates	Minimum carload.	
Bismuth: Metal	1 case	In view of the extremely limited supply, recommendation will be made only for the urgent needs of the Armed Forces or where bismuth metal is required for emergency use for public health and safety and it cannot be supplanted by drugs ordinarily furnished to hospitals and similar institutions.
Cadmium: Metal	100 pounds	In view of the extremely limited supply, recommendation will be made only in cases of emergency.
Chromite: Metallurgical and chemical ores and concentrates.	Minimum carload.	
Copper: Electrolytic or fire refined copper; cathodes, wire bars, cakes, slabs, ingot bars, billet, or bars.	Minimum carload	In view of the extremely limited supply, recommendation will be made only in cases of emergency.
Corundum: Canadian concentrates	No minimum necessary.	
Graphite: Madagascar flake and fines and Ceylon lump.	Minimum carload 10 tons.	
Pig lead	Minimum carload	In view of the extremely limited supply, recommendation will be made only in cases of emergency.
Manganese: Metallurgical ores	Minimum carload.	
Mica: Muscovite block, film and splittings.	No minimum necessary.	
Zinc: Slab, zinc oxide, ores and concentrates.	Minimum carload	In view of the extremely limited supply of metal (slab) and zinc oxide, recommendation will be made only in cases of emergency.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21-386]

PART 170—TRADE PRACTICE RULES RESPECTING THE TERMS "WATERPROOF," "SHOCKPROOF," "NONMAGNETIC," AND RELATED DESIGNATIONS, AS APPLIED TO WATCHES, WATCHCASES, AND WATCH MOVEMENTS

At a regular session of the Federal Trade Commission held at its office in the City of Washingto, D. C., on the 21st day of April 1947.

Due proceedings having been held under the Trade Practice Conference procedure, in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

It is now ordered, That the Trade Practice Rules of Group I, as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of April 24, 1947.

Statement by the Commission. Trade practice rules covering use of the terms "waterproof," "shockproof," "nonmagnetic," and related designations, as applied to watches, watchcases, and watch movements, have today been promulgated by the Federal Trade Commission under the Trade Practice Conference procedure.

Such rules, as hereinafter set forth, clarify requirements for proper use of the terms and have for their purpose the elimination and prevention of deception in the marketing of watches, watchcases, and watch movements, whether of domestic or foreign manufacture, and the maintenance of fair competition among persons, firms, and corporations engaged in the sale, offering for sale, or distribution of these articles.

Provisions of the rules respecting the use of such terms are applicable with respect to every species of advertisement, whether in newspapers, periodicals, sales catalogs, sales promotional literature, on the radio, or otherwise; and also to the use of the terms as a mark, or part of the marking, on any watch, watchcase, or watch movement, or on any label, tag, container, or literature used in connection with the sale, offering for sale, or distribution of such articles.

In the proceeding, instituted upon application from members of the industry, a Trade Practice Conference was held in New York City under the auspices of the Commission. Following the conference, draft of proposed rules in appropriate form was published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent suggestions, amendments, or objections as they desired to offer, and to be heard in the premises. Pursuant to the notice, public hearing was held in Washington, D. C., and all matters presented, or otherwise received in the proceeding, were duly considered by the Commission.

Thereupon, and after full consideration of the entire matter, the Federal Trade Commission approved the rules in the form set out below.

Such approved rules become operative thirty (30) days after promulgation.

The Rules. These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which suppresses competition, restrains trade, fixes or controls price through combination or agreement, or which otherwise injures, destroys, or prevents competition, that the rules are to be applied.

Group I. The unfair trade practices embraced in the Group I rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

Sec.

170.1 Terms "waterproof," "moistureproof," "water sealed," etc.
170.2 Terms "water resistant," "water repellent," etc.
170.3 Terms "shockproof," "shock protected," "shock resistant," etc.
170.4 Term "jarproof."
170.5 Terms "nonmagnetic," "antimagnetic," etc.

AUTHORITY: §§ 170.1 to 170.5, inclusive, issued under 38 Stat. 717, as amended; 15 U. S. C. 41, et seq.

§ 170.1 *Terms "waterproof," "moistureproof," "water sealed," etc.—(a) Improper use of the term "waterproof."* It is an unfair trade practice to use the term "waterproof" as descriptive of a watch or watchcase under any false, misleading, or deceptive circumstances or conditions, or in any manner which has the capacity and tendency or effect of causing the purchasing or consuming public to be misled or deceived, or of aiding, abetting, or causing salesmen, dealers, or other marketers to mislead, deceive, or confuse the purchasing or consuming public.

(b) *Use of term "waterproof" without qualifications or limitations.* This section shall not be construed as prohibiting the application of the word "waterproof" in a nondeceptive manner as descriptive of a watch or watchcase which is of such composition and construction as to be and remain impervious to water and moisture and immune to damage therefrom, through immersion or otherwise, throughout the life of such watch or watchcase.

(c) *Use of the term "waterproof" with qualifications and limitations.* In respect to watchcases or watches which have been manufactured, processed, or finished so as to be, and when sold to the purchasing public are, impervious to water or moisture under Test No. 1 specified in paragraph (d) of this section, and immune to damage from water or moisture, but as to which the continuance of such imperviousness or immunity is contingent upon certain special care or maintenance (such as tightening, or replacing stem packing, back gaskets, etc., after wear, or after opening the case for repairs, adjustment, or for other purposes, again resealing, repacking, or closing the case by specially adapted tools or instruments, or by competent experts or by use of other means or methods, adequate to maintain or restore said imperviousness and immunity to water, moisture, and damage), nothing in this section shall be construed as prohibiting use of the term "waterproof" as descriptive of such watch or watchcase: *Provided*, That in immediate conjunction with the word "waterproof" such term is qualified by full and nondeceptive statement and disclosure of such contingencies and need for said special care and maintenance: *And provided further*, That in such use of the term "waterproof" no advertising or trade-promotional set-up, form of labeling, or other type of representation or presentation to the public, is used which is deceptive or misleading as a whole or in any part: *And provided further*, That the term "waterproof" is not used or set forth in such position or at such location on the watch or elsewhere that the necessary qualifying statement or disclosure above specified cannot be shown clearly and fully in immediate conjunction with the term "waterproof."

(d) *Test No. 1; for imperviousness to water and moisture under paragraph (c).* For purposes of determining imperviousness to water and moisture specified in paragraph (c) of this section, the following test shall be acceptable for a watch or watchcase, namely, complete immersion for at least five minutes in water under atmospheric pressure of 15 pounds per square inch and for at least an additional five minutes in water under pressure of at least 35 pounds per square inch, without admitting, or showing any evidence or capacity to admit, any moisture or water. (This test is not to be accepted as showing or indicating the durability of such imperviousness to water or moisture or any time or period during which such imperviousness may continue.)

(e) *Improper use of the terms "moistureproof," "water sealed," "water tight," "water protected," etc.* The foregoing several provisions of this section applicable to the term "waterproof" shall be applicable with like force and effect to the terms "moistureproof," "water sealed," "water tight," "water protected," and words, terms, depictions, or representations of like import. [Rule 1]

§ 170.2 *Terms "water resistant," "water repellent," etc.—(a) Improper use of the terms "water resistant," "water repellent," etc.* It is an unfair trade practice to use the term "water resistant" or "water repellent," or any word, expression, depiction, or representation of like import, as descriptive of a watch or watchcase under any false, misleading, or deceptive circumstances or conditions, or in any manner which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, or of aiding, abetting, or causing salesmen, dealers, or other marketers to mislead, deceive, or confuse the purchasing or consuming public.

(b) *Use of term "water resistant" or "water repellent" in relation to test, etc.* Nothing in this section shall be construed as prohibiting use of the term "water resistant" or "water repellent" as descriptive of a watchcase or watch under the following conditions and limitations, namely, when the watchcase or watch has been so constructed and is of such composition as to provide protection against water or moisture to the extent of meeting the following test, designated as "Test No. 2," or a more severe test, and when, before being placed upon the market by manufacturers, assemblers, importers, or other marketers, the watch and the case have undergone such test: *Provided, however*, That subsequent to undergoing such test and before sale of the product to the purchasing public as and for a water resistant or water repellent watchcase, the water resistant condition thereof has not been impaired or destroyed by opening the case, or otherwise: *And provided further*, That no representation is made which is deceptive in implication, or otherwise, by reason of concealment of material fact or by way of guarantee, warranty, advertisement, label, or other means indicating or tending to indicate that the water resistant condition of the watch or watchcase will remain unaffected throughout the life thereof, or that it will not be affected by opening of the case for repairs or adjustment, or will not be affected by wear or other condition, when such is not the fact.

NOTE: In the interest of avoiding possibilities of misunderstanding and deception of purchasers, members of the industry or marketers of watches or watchcases offered for sale or sold as and for "water repellent" or "water resistant" products should disclose to and inform the purchasing public, when such is the fact, that the water-repellent and water-resistant condition of the watch or case will be or may be destroyed or impaired by, or will not or may not continue after, having been opened for repairs, adjustment, or for other purpose, or because of other contingency encountered in the customary use or wear of the watch, unless the case is again serviced or treated by competent experts or by other methods adequate to renew or restore its condition of water resistance or water repellency.

(c) *Test No. 2; for water resistance or water repellency.* For purposes of this section, the following is deemed an acceptable test for water resistance or water repellency of a watch or watchcase, namely, complete immersion of the case or watch for at least 3 minutes in water at a pressure equivalent to a depth of 26 feet of water under normal atmospheric pressure of 15 pounds per square inch, without admitting, or showing any evidence of capacity to admit, any moisture or water. The so-called vacuum test of complete immersion in water under a vacuum sufficient to be productive of conditions of equivalent or greater severity may be used as an alternate or additional test for purposes of this section. (Neither test is to be accepted, however, as showing or indicating the durability of such water resistant or water repellent condition or any time or period during which such condition may continue.) [Rule 2]

§ 170.3 *Terms "shockproof," "shock protected," "shock resistant," etc.*—(a)

Improper use of terms "shockproof," "shock protected," "shock absorbing," "shock resistant," etc. It is an unfair trade practice to use the term "shockproof," "shock protected," "shock absorbing," "shock resistant," or any other word, expression, depiction, or representation of like import, as descriptive of a watch, watchcase, watch movement, or any part thereof, under any false, misleading, or deceptive circumstances or conditions, or in any manner which has the capacity and tendency or effect of causing the purchasing or consuming public to be misled or deceived, or of aiding, abetting, or causing salesmen, dealers, or other marketers to mislead, deceive, or confuse the purchasing or consuming public.

(b) *Misuse of designation "unconditionally shock resistant," and the like.* The foregoing provisions of this section, which are applicable to the terms "shockproof" and "shock protected," shall be applicable with like force and effect to such terms or expressions as "unconditionally shock resistant," "100% shock resistant," "absolutely shock absorbing," and any other superlative or accentuation, or other representation of similar import.

(c) *Use of the terms "shock resistant" and "shock absorbing."* Nothing in this section, however, shall be deemed to prohibit use with superlatives or accentuation of the term "shock resistant" or "shock absorbing" as descriptive of a watch, watch movement, or part thereof, to which a mechanical or other device or type of construction has been adapted and applied by reason of which both balance pivots in such watch or watch movement are protected for shocks, concussions, jolts, or accidental blows of at least that degree of damaging potentialities as would be sustained by said balance pivots in the watch or watch movement when falling in an unprotected condition upon a level solid hardwood floor in any position from a height of three feet: *Provided, however,* That no representation is made directly or indirectly by words, statement, depiction, or otherwise, in the use of such terms "shock resistant" and "shock absorbing," or in any other manner indicating or tending to indicate that the shock resisting or shock absorbing properties or condition of the watch or watch movement provided greater or more extensive protection than is in fact true. [Rule 3]

§ 170.4 *Term "jarproof"*—(a) *Improper use of the term "jarproof."* It is an unfair trade practice to use the term "jarproof" as descriptive of a watch, watch movement, or part thereof, under any circumstances or conditions which are false, misleading, or deceptive, or in any manner which has the capacity and tendency or effect of causing the purchasing or consuming public to be misled or deceived, or of aiding, abetting, or causing salesmen, dealers, or other marketers to mislead, deceive, or confuse the purchasing or consuming public.

(b) *Use when watch fully protected from jars.* Nothing in this section shall be construed as prohibiting use of the term "jarproof" as descriptive of a watch or watch movement when such watch or watch movement has been so constructed or fitted with devices or otherwise prepared as to be and remain immune to damage from jars of any type or degree which are encountered in the uses of a watch or are likely to be experienced in such uses. [Rule 4]

§ 170.5 *Terms "nonmagnetic," "antimagnetic," etc.*—(a) *Improper use of the terms "nonmagnetic," "antimagnetic," etc.* It is an unfair practice to use the terms "nonmagnetic," "antimagnetic," or words, terms, or representations of like import, as descriptive of a watch or watch movement under any false, misleading, or deceptive conditions or circumstances, or in any manner which has the capacity and tendency or effect of causing the purchasing or consuming public to be misled or deceived in respect of the protection or immunity of such product from magnetization or of aiding, abetting, or causing salesmen, dealers, or other marketers to mislead, deceive, or confuse the purchasing or consuming public in respect thereto or in any other respect.

(b) *Use of the term "nonmagnetic."* Nothing in this section shall be construed as prohibiting use of the term "nonmagnetic" as descriptive of a watch, watch movement, or any part thereof, if the same is immune to magnetization, or cannot be magnetized under any conditions of use, or other conditions which are or may be encountered by users.

(c) *Use of the term "antimagnetic."* Nothing in this section shall be construed as prohibiting the use of the term "antimagnetic" as descriptive of a watch or watch movement which is of such composition, construction, or treatment that the metal or substance in the balance, hairspring, and other parts of the movement essential to accurate timekeeping is such that the daily rate of the watch or watch movement, in a demagnetized condition, will not be changed by more than 15 seconds as a result of having been placed in an electrical field of not less than 60 Gauss and therein kept for at least 5 seconds in each of the following positions:

Vertical (with pendant in any position),
Horizontal (with dial either up or down);

Provided, however, That in the use of such term "antimagnetic" no representation is made, directly or by implication, whether by the addition of absolute or superlative adjectives or by depiction or other form of representation indicating or tending to indicate that the freedom or immunity of such watch or watch movement from the possibilities of magnetization is greater or more certain than is in fact true. TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 137]

PART 101—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR CLASS A AND CLASS B UTILITIES AND LICENSEES

COMMON UTILITY PLANT

APRIL 15, 1947.

The Commission, having under consideration an amendment to § 101.3–15 entitled "Common Utility Plant" of Part 101—Uniform System of Accounts Prescribed for Class A and Class B Public Utilities and Licensees, Subchapter C—Accounts, Federal Power Act, Chapter I of Title 18, Code of Federal Regulations;[1] and

It appearing that all persons subject to aforesaid part and Uniform System of Accounts have been given notice of the proposed amendment thereof, including publication of notice in the FEDERAL REGISTER (11 F. R. 13144, 13221), and that all such persons as well as interested State and Federal governmental agencies have been afforded an opportunity for the submission of written data, views and suggestions concerning the proposed amendment;

It further appearing that the comments received relating to the revision of the Electric Plant Instruction proposed by the amendment expressed generally a concurrence in or no objection to the proposed amendment, except certain few comments in which suggestions were contained for changing and clarifying the language of the amendment proposed;

It further appearing that the proposed amendment was discussed with and approved by the Committee on Statistics and Accounts of the National Association of Railroad and Utilities Commissioners at its meeting in Buffalo, New York, September 18–20, 1946, and that the amendment would not be in conflict with the NARUC's Uniform System of Accounts for Electric Utilities, but rather would be consistent therewith; and

It further appearing that in order that the Commission's practice and application of the Electric Plant Instructions of its Uniform System of Accounts may be set forth clearly in the aforesaid Part and System of Accounts, it is desirable that the proposed amendment be adopted, modified in accordance with certain suggestions referred to above; and

Finding that such action is necessary and appropriate for carrying out the provisions of the Federal Power Act;

The Commission, pursuant to authority vested in it by the Federal Power Act, particularly sections 3 (13), 4 (b), 301 (a), 304 (a) and 309 thereof (49 Stat. 839, 854, 855, 858; 16 U. S. C. 796 (13), 797 (b), 825 (a), 825c (a), 825h), hereby adopts, promulgates and prescribes that paragraph (b) of § 101.3–15 entitled "Common Utility Plant" of Part 101—Uniform System of Accounts Prescribed for Class A and Class B Public Utilities and Licensees, Subchapter C—Accounts, Federal Power Act, Chapter I of Title 18, Code of Federal Regulations, be and it is hereby amended to read as follows:

§ 101.3–15 *Common utility plant.* • • •

(b) The book amount of utility plant designated as common plant shall be included in Account 108, Other Utility Plant, and if applicable in part to the electric department, shall be segregated and accounted for in sub-accounts as electric plant is accounted for in Accounts 100:1 to 100:6, inclusive, and electric plant adjustments in Account 107; any amounts classifiable as common plant acquisition adjustments or common plant adjustments shall be subject to disposition as provided in paragraphs (c) and (d) of Accounts 100.5 and 107, respectively, for amounts classified in those accounts. The original cost of common utility plant in service shall be classified according to detailed utility plant accounts appropriate for the property.[2]

The amendment prescribed by this order shall become effective July 1, 1947. The Secretary of the Commission shall cause publication of this order to be made in the FEDERAL REGISTER, and further, shall cause to be published in the FEDERAL REGISTER a revision of § 101.3–15 (b) of Part 101 of Subchapter C, Chapter I, Title 18, Code of Federal Regulations, in conformity with this order.

(49 Stat. 839, 854, 855, 858; 16 U. S. C. 796 (13), 797 (b), 825 (a), 825c (a) 825h)

Date of issuance: April 18, 1947.

By the Commission.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5559]

PART 130—TAXES ON SAFE DEPOSIT BOXES AND ON CERTAIN TRANSPORTATION AND COMMUNICATIONS SERVICES

MISCELLANEOUS AMENDMENTS

In order to conform Regulations 42 (1942 edition) (26 CFR, Part 130), relating to the taxes on safe deposit boxes, transportation of oil by pipe line, telephone, telegraph, radio and cable messages and services, and transportation of persons under the provisions of the Internal Revenue Code, to the Excise Tax Act of 1947 (Pub. Law 17, 80th Cong., 1st sess.), approved March 11, 1947, such regulations are amended as follows:

1. The first paragraph of § 130.0 *Scope of regulations*, as amended by Treasury Decision 5347, approved March 15, 1944, is further amended as follows:

a. By inserting immediately after "Revenue Act of 1943" in paragraph (c) "and sections 2, 3, and 4 of the Excise Tax Act of 1947".

b. By inserting immediately after "Revenue Act of 1942" in paragraph (d) "and section 8 (a) of the Excise Tax Act of 1947", and by inserting immediately after "Revenue Act of 1943" in such paragraph "and sections 2, 3, and 4 of the Excise Tax Act of 1947".

2. Immediately preceding § 130.1 *Meaning of terms*, there is inserted the following:

[EXCISE TAX ACT OF 1947]

SEC. 3. Sections • • • 1655 (definition of "date of the termination of hostilities in the present war") of such Code are hereby repealed.

• • • • • •

SEC. 8. (a) • • • For the purposes of this section, the words "northern portion of the Western Hemisphere" mean the area lying west of the thirtieth meridian west of Greenwich, east of the International Date Line, and north of the equator, but not including any country of South America.

3. Section 130.1, as amended by Treasury Decision 5521, approved June 14, 1946, is further amended by striking out paragraph (c) thereof and inserting in lieu of such paragraph the following:

§ 130.1 *Meaning of terms.* • • •

(c) *Northern portion of the Western Hemisphere.* The term "northern portion of the Western Hemisphere" means the area lying west of the thirtieth meridian west of Greenwich, east of the International Date Line, and north of the equator, but not including any country of South America.

4. Immediately preceding § 130.30 *Effective period*, there is inserted the following:

SEC. 2 [EXCISE TAX ACT OF 1947].

Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war".

5. The second paragraph of § 130.30, added by Treasury Decision 5347, is amended to read as follows:

The increases in rates made by section 1650 of the Internal Revenue Code, as amended by section 302 of the Revenue Act of 1943 and section 2 of the Excise Tax Act of 1947, are effective as of April 1, 1944, and apply to amounts paid on and after that date for services specified in section 3465 (a) (1) (A) and (B) which were rendered on and after that date.

6. Section 130.33, as amended by Treasury Decision 5347, is further amended as follows:

a. The first paragraph of paragraph (a) is amended to read as follows:

§ 130.33 *Rate and application of tax—*(a) *Telephone and radio telephone messages, and conversations.* In the case of each telephone or radio telephone message or conversation where the charge is more than 24 cents, the rate of tax is 25 percent of the amount paid. With respect to the period November 1, 1942, through March 31, 1944, the tax was at the rate of 20 percent of the amount paid. Prior to November 1, 1942, the tax was at the rate of 5 cents for each 50 cents or fraction thereof of the amount paid.

b. The first paragraph of paragraph (b) is amended to read as follows:

(b) *Telegraph, cable, and radio dispatches and messages.* The amount paid for each telegraph, cable, or radio dispatch or message is subject to tax at the rate of 25 percent of the amount paid, except that in the case of each international dispatch or message the rate of tax is 10 percent. With respect to the period November 1, 1942, through March 31, 1944, the tax on each domestic telegraph, cable, or radio dispatch or message was 15 percent. Prior to November 1, 1942, the tax on all telegraph, cable, or radio dispatches or messages was 10 percent.

7. Immediately preceding § 130.36 *Effective period*, as amended by Treasury Decision 5347, there is inserted the following:

SEC. 2 [EXCISE TAX ACT OF 1947].

Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war".

8. The second paragraph of § 130.36, added by Treasury Decision 5347, is amended to read as follows:

The increases in rates made by section 1650 of the Internal Revenue Code, as amended by section 302 of the Revenue Act of 1943 and section 2 of the Excise Tax Act of 1947, apply to amounts paid pursuant to bills rendered on or after May 1, 1944, for services furnished on or after March 1, 1944, for which no previous bill was rendered.

9. Section 130.38, as amended by Treasury Decision 5347, is further amended as follows:

a. The first paragraph of paragraph (a) is amended to read as follows:

§ 130.38 *Rate and application of tax—*(a) *Leased wire, teletypewriter, or talking circuit special service.* In the case of leased wire, teletypewriter, or talking circuit special service, the tax is to be computed at the rate of 25 percent of the amount paid therefor. In the case of service taxable under section 3465 (a) (2) prior to modification by section 302 of the Revenue Act of 1943, the tax was at the rate of 15 percent of the amount paid; and in the case of service taxable under section 3465 (a) (2) prior to amendment by section 606 of the Revenue Act of 1942, the tax was at the rate of 10 percent of the amount paid.

b. The first paragraph of paragraph (b) is amended to read as follows:

(b) *Wire and equipment services.* In the case of wire and equipment service the tax is computed at the rate of 8 percent of the amount paid therefor. Prior to April 1, 1944, the rate of tax was 5 percent of the amount paid.

10. Immediately preceding § 130.39 *Effective period*, as amended by Treasury Decision 5347, there is inserted the following:

SEC. 2. [EXCISE TAX ACT OF 1947].

Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war."

11. The second paragraph of § 130.39, as amended by Treasury Decision 5347, is further amended to read as follows:

The increase in the rate made by section 1650 of the Internal Revenue Code, as amended by section 302 of the Revenue Act of 1943 and section 2 of the Excise Tax Act of 1947, applies to amounts paid pursuant to bills rendered on and after May 1, 1944, for services furnished on or after March 1, 1944, for which no previous bill was rendered.

12. The first paragraph of § 130.41, as amended by Treasury Decision 5347, is further amended to read as follows:

§ 130.41 *Rate and application of tax.* The tax is imposed at the rate of 15 percent of the amount paid by any subscriber for local telephone service or any other telephone service which is not subject to the provisions of section 3465 (a) (1) or (2) of the Code, as amended. (See §§ 130.30 to 130.38.) In the case of service taxable under section 3465 (a) (3) prior to modification by section 302 of the Revenue Act of 1943, the tax was at the rate of 10 percent of the amount paid; and in the case of service taxable under section 3465 (a) (3) prior to amendment by section 606 of the Revenue Act of 1942, the tax was at the rate of 6 percent of the amount paid.

13. Immediately preceding § 130.50 *Effective period*, as amended by Treasury Decision 5347, there is inserted the following:

SEC. 2 [EXCISE TAX ACT OF 1947].

Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war".

14. Section 130.50, as amended by Treasury Decision 5347, is further amended by striking out the last two sentences of such section and inserting in lieu thereof the following: "The further increase in the rate of tax made by section 1650 of the Internal Revenue Code, as amended by section 302 of the Revenue Act of 1943 and section 2 of the Excise Tax Act of 1947, is effective April 1, 1944.

15. The second paragraph of § 130.51 is amended to read as follows:

§ 130.51 *Scope of tax.* • • •

The taxability of a payment for transportation is determined by (1) the place of payment, i. e., whether within or without the United States, and (2) the place where the transportation service is furnished, i. e., whether within or without the northern portion of the Western Hemisphere as provided in § 130.64.

16. The first paragraph of § 130.52, as amended by Treasury Decision 5347, is further amended to read as follows:

§ 130.52 *Rate and application of tax.* The tax is 15 percent of the amount of the taxable payment for transportation. With respect to the period November 1, 1942, through March 31, 1944, the rate of tax was 10 percent of the amount of such taxable payment. Prior to November 1, 1942, the rate of tax was 5 percent of such amount.

17. Section 130.53 *Payments for transportation subject to tax*, is amended by striking out the words "The following are examples of taxable payments for transportation" as they appear immediately following the title of the section, and by inserting in lieu thereof the words "The following are examples of payments for transportation which, unless otherwise exempt under §§ 130.61 through 130.64, inclusive, are subject to tax."

18. Immediately preceding § 130.55 *Effective period*, as amended by Treasury Decision 5347, there is inserted the following:

SEC. 2 [EXCISE TAX ACT OF 1947].

Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war".

19. Section 130.55, as amended by Treasury Decision 5347, is further amended by striking out the last two sentences of such section and inserting in lieu thereof the following: "The further increase in the rate of tax made by section 1650 of the Internal Revenue Code, as amended by section 302 of the Revenue Act of 1943 and section 2 of the Excise Tax Act of 1947, is effective April 1, 1944."

20. The first paragraph of § 130.57, as amended by Treasury Decision 5347 is further amended to read as follows:

§ 130.57 *Rate and application of tax.* The tax is 15 percent of the amount of the taxable payment for the seating or sleeping accommodations. With respect to the period November 1, 1942, through March 31, 1944, the rate of tax was 10 percent of the amount of such taxable payment. Prior to November 1, 1942, the rate of tax was 5 percent of such amount.

21. Immediately following § 130.63 *members of military and naval service*, as amended by Treasury Decision 5190, approved November 30, 1942, there is inserted the following:

SEC. 8 [EXCISE TAX ACT OF 1947].

(a) Section 3469 (a) of the Internal Revenue Code (relating to the tax on transportation of persons) is hereby amended by inserting after the first sentence two new sentences to read as follows: "The tax shall not apply with respect to transportation any part of which is outside the northern portion of the Western Hemisphere, except with respect to any part of such transportation which is from any port or station within the United States, Canada, or Mexico to any other port or station within the United States, Canada, or Mexico. For the purposes of this section, the words 'northern portion of the Western Hemisphere' mean the area lying west of the thirtieth meridian west of Greenwich, east of the International Date Line, and north of the equator, but not including any country of South America."

(b) The amendment made by subsection (a) shall apply to amounts paid on or after the first day of the first month which begins more than twenty days after the date of the enactment of this act for transportation on or after such first day.

22. Section 130.64 *Stamp tax*, is renumbered § 130.65, and a new § 130.64 is inserted to read as follows:

§ 130.64 *Transportation outside the northern portion of the Western Hemisphere.* No tax is imposed upon a payment made within the United States on or after April 1, 1947, for transportation, on or after such date, any part of which is outside the northern portion of the Western Hemisphere (for definition of "northern portion of the Western Hemisphere" see § 130.1 (c)), except that the tax shall be collected with respect to any part of such transportation which is from any port or station within the United States, Canada, or Mexico to any other port or station within the United States, Canada, or Mexico. In the case of through transportation from a port or station within the United States, Canada, or Mexico to a point outside the northern portion of the Western Hemisphere with intermediate stops by the carrier en route, the tax attaches with respect to that part of such transportation which is from the originating port or station within the United States, Canada, or Mexico to the last stop within the United States, Canada, or Mexico, made for any purpose other than an emergency, and irrespective of whether the passenger disembarks or a stopover is permitted.

The following examples illustrate the application of this exemption.

Example 1. A purchases a ticket in New York for transportation to Lisbon aboard a vessel or aircraft bound from New York to Lisbon, with a stop at Bermuda. No part of the amount paid by A for his ticket is subject to the tax on transportation of persons.

Example 2. If, in the foregoing example, A decides to disembark at Bermuda and not to continue to Lisbon, A is liable for the tax with respect to the amount paid for transportation to Bermuda and, upon presentation of his ticket for refund, the carrier is required to withhold such tax.

Example 3. B, C, and D purchase tickets in New York for transportation aboard a vessel bound from New York to San Francisco via the Panama Canal, with stops at Trinidad and Venezuela. B's ticket entitles him to transportation to Port of Spain, Trinidad; C's ticket is for Asuncion, Venezuela; and D's ticket is for San Francisco. The amount paid by B is subject to tax since Trinidad is not a country of South America and is within the northern portion of the Western Hemisphere. The amount paid by C is not subject to tax, since Asuncion is located on the island of Nueva Esparta and is included within Venezuela, a country of South America. The amount paid by D is not subject to tax even though the voyage begins at a port within the United States and ends at another port within the United States, since part of the transportation was to Venezuela, a country of South America.

Example 4. E purchases in Chicago a round-trip ticket for transportation by air from Chicago to New York to Newfoundland to London. The amount paid for that part of the transportation between Chicago and New York on both going and return trips is subject to tax. If because of weather or other emergency the aircraft is forced, while on the New York-Newfoundland leg of the journey, to land at Boston, no tax is imposed by reason of such emergency stop.

Example 5. F purchases a ticket in Detroit for transportation from Ottawa to Vancouver to Honolulu to Shanghai. Only the amount paid for transportation from Ottawa to Honolulu is subject to the tax.

Example 6. G charters a plane in New York for transportation to Bogota and pays the charter charges in New York. The plane stops at Miami for refueling. The tax attaches with respect to that part of the transportation which is between New York and Miami.

23. Immediately preceding renumbered § 130.65, there is inserted the following:

SEC. 8 [EXCISE TAX ACT OF 1947].

• • • • •

(c) Effective with respect to tickets sold or issued on or after the first day of the first month which begins more than twenty days after the date of the enactment of this Act, section 1806 of the Internal Revenue Code (relating to stamp tax on passage tickets) is hereby repealed.

24. Renumbered § 130.65 is amended to read as follows:

§ 130.65 *Stamp tax.* Section 554 (c) of the Revenue Act of 1941 made the stamp tax imposed under section 1806 of the Internal Revenue Code, as amended, on passage tickets sold or issued in the United States for passage on any vessel to any port or place not in the United States, Canada, Mexico, Cuba, or Puerto Rico inapplicable where the amount paid for the ticket is subject to the tax imposed under section 3469 of the Code. (See Subpart H of Part 113 of this chapter.) By reason of section 8 (c) of the Excise Tax Act of 1947, passage tickets sold or issued on or after April 1, 1947, are not subject to the stamp tax imposed by section 1806 of the Internal Revenue Code, irrespective of whether the amount paid therefor is subject to the tax imposed under section 3469 of the Code.

Because of the short period of time between March 11, 1947, the date of approval of the Excise Tax Act of 1947, and April 1, 1947, the date on which, pursuant to such act, the amendment to section 3469 of the Internal Revenue Code becomes effective, and because of the technical nature of the amendments made herein, it is found that it is impracticable and unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

This Treasury decision shall be effective on April 1, 1947.

(Secs. 3791 and 3472 of the Internal Revenue Code (53 Stat. 467, 423, 55 Stat. 722; 26 U. S. C. and Sup. 3791, 3472))

WM. T. SHERWOOD,
Acting Commissioner of Internal Revenue.

Approved: April 18, 1947.

Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration,[1] Department of Agriculture

[Rev. Gen. RO 5,[2] Amdt. 20]

PART 705—ADMINISTRATION

SUGAR RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Revised General Ration Order 5 issued by the Office of Price Administration and amended by the Office of Temporary Controls under § 1305.202 of Title 32, Chapter XI is designated Revised General Ration Order 5, issued under § 705.1, Title 32, Chapter VII pursuant to the authority vested in the Secretary of Agriculture by the "Sugar Control Extension Act of 1947" and is amended in the following respect:

1. Section 5.7 (a) is amended to read as follows:

(a) The meal service and refreshment allotments under this order (except allotments issued under §§ 5.6, 7.10, 11.6, 12.1, 26.2, 27.2 and 27.3) shall be increased by forty percent (40%) for the May-June, 1947, and subsequent allotment periods.

This amendment shall become effective this 1st day of May 1947.

Issued this 17th day of April 1947.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Sugar Rationing Administration, Department of Agriculture, Rationale Accompanying Amendment No. 20 to Revised General Ration Order 5

Proposed amendment. This amendment provides that meal service and refreshment allotments issued under this order (except allotments issued under §§ 5.6, 7.10, 11.6, 12.1, 26.2, 27.2, and 27.3) shall be increased by forty percent for the May-June 1947 and subsequent allotment periods.

Reason for amendment. Because of the increase in the civilian sugar alloca-

tion made for the second quarter of 1947, a determination was made, prior to April 1, 1947, to increase the amount of sugar available to consumers, institutional and industrial users. Accordingly, an amendment, issued on March 10, 1947, validated a consumer stamp, good for ten pounds of sugar, on and after April 1, 1947. Further, an amendment to the sugar rationing regulations, effective March 10, 1947, increased the allotments to be issued to industrial users by approximately twenty-five percent for the allotment periods on and after April 1, 1947. Since institutional user allotments are issued for a two-month period rather than a three-month period, as for industrial users, the corresponding increase in allotments for institutional users is made effective beginning with the May-June allotment period.

By this amendment the allotments for institutional users for the May-June and subsequent allotment periods are increased by approximately 25% which represents approximately the same increase which was granted to industrial users for the second quarter of 1947.

TITLE 36—PARKS AND FORESTS

Chapter I—National Park Service, Department of the Interior

PART 2—GENERAL RULES AND REGULATIONS

PART 12—PRIVATE LANDS SUBJECT TO EXCLUSIVE JURISDICTION OF THE UNITED STATES

MISCELLANEOUS AMENDMENTS

On February 11, 1947, notice of intention to amend § 2.32 (e) of the rules and regulations of the National Park Service was published in the daily issue of the Federal Register (12 F. R. 959). Interested persons were thereby given an opportunity to participate in preparing the amendments by submitting data or arguments within 30 days from date of publication of the notice. No communications, written or oral, having been received within the prescribed period, the said rules and regulations are hereby amended as hereinafter set forth and are hereby promulgated.

1. Section 2.32 *Private lands* is amended as follows:

a. Paragraph (e) is revoked.

b. Paragraph (f) is redesignated paragraph (e).

(Sec. 3, 39 Stat. 535; 16 U. S. C. 3)

2. Part 12 and the following sections are added to Chapter I:

Sec.
12.1 Applicability.
12.2 Fishing.
12.3 Fires.
12.4 Protection of wildlife.
12.5 Firearms.
12.6 Gambling.
12.7 Discrimination in furnishing public accommodations.

AUTHORITY: §§ 12.1 to 12.7, inclusive, issued under sec. 3, 39 Stat. 535; 16 U. S. C. 3.

§ 12.1 *Applicability.* The regulations in this part shall be applicable to privately owned lands within the following national parks, exclusive jurisdiction over which is vested in the United States: Crater Lake, Glacier, Lassen Volcanic, Mesa Verde, Mount McKinley, Mount Rainier, Olympic, Rocky Mountain, Sequoia-Kings Canyon, Yellowstone, and Yosemite.

§ 12.2 *Fishing.* (a) Any person fishing in the waters of the parks listed in § 12.1 shall secure a sport fishing license as required by the laws of the state in which such waters of the park are situated, except that no such said license shall be required of any person fishing in the waters of Glacier, Mount McKinley, Mount Rainier, Olympic, and Yellowstone National Parks.

(b) All fishing in the waters of the parks listed in § 12.1 shall be done in conformity with the laws of the state or territory in which such waters of the park are situated regarding open seasons, size of fish, and the limit of catch, except as otherwise provided in the following paragraphs:

(c) Fishing with nets, seines, traps, or by the use of drugs or explosives, or for merchandise or profit, or in any other way than with hook and line, the rod or line being held in the hands, is prohibited.

(d) Fishing in particular waters may be suspended, or restricted, in regard to the use of particular kinds of bait under special regulations.

(e) The number of fish that may be taken by one person in any one day from the various lakes and streams shall be limited to 10 fish, unless otherwise provided by special regulations.

(f) Possession of more than 2 days' catch by any person at any one time is prohibited, unless otherwise provided by special regulations.

(g) No fish less than 6 inches long may be retained unless a different limit be established by special regulations. All fish hooked less than such limit in length shall be carefully handled with moist hands and returned at once to the water if not seriously injured. Undersized fish retained because seriously injured shall be counted in the number of fish which may be taken in one day.

(h) The possession of live or dead minnows, chubs, or other bait fish, or the use thereof as bait, is prohibited.

(i) The canning or curing of fish for the purpose of transporting them out of any of the said parks is prohibited.

(j) The possession of fishing tackle or fish upon or along any waters closed to fishing shall be prima facie evidence that the person or persons having such fishing tackle or fish are guilty of unlawful fishing in such closed waters.

(k) State fishing licenses, where required, and all fish taken shall be exhibited, upon demand, to any person authorized to enforce the provisions of the regulations in this part.

§ 12.3 *Fires.* (a) Fires on privately-owned lands within any of the parks listed in § 12.1 shall not be kindled near or on the roots of trees, dead wood, moss, dry leaves, forest mold, or other vegetable refuse, but in some open space on rocks or earth. On public campgrounds the regular fireplaces constructed for the convenience of visitors shall be used. Should camp be made in a locality where no such open space exists or is provided, the dead wood, moss, dry leaves, etc., shall be scraped away to the rock or earth over an area considerably larger than that required for the fire.

(b) Fires shall be lighted on privately-owned lands within the said parks only when necessary, and, when no longer needed, shall be completely extinguished, and all embers and beds smothered with earth or water, so that there remains no possibility of reignition.

(c) Permission to burn in connection with any cleanup operation on privately-owned lands within the said parks shall first be obtained, in writing, from the office of the superintendent, and in such cases as it is deemed advisable such burning will be under Government supervision. All costs of suppression and all damage caused by reason of loss of control of such burning operations shall be paid by the person or persons to whom such permit has been granted.

(d) No lighted cigarette, cigar, pipe heel, match, or other burning material shall be thrown from any vehicle or saddle horse or dropped into any grass, leaves, twigs, tree mold, or other combustible or inflammable material on any privately owned lands within any of the said parks.

(e) The building of fires on privately owned lands within the said parks may be prohibited or limited by the superintendent when, in his judgment, the hazard makes such action necessary.

§ 12.4 *Protection of wildlife.* (a) The parks are sanctuaries for wildlife of every sort, and all hunting, or the killing, wounding, frightening, capturing, or attempting to kill, wound, frighten, or capture at any time of any wild bird or animal, except dangerous animals when it is necessary to prevent them from destroying human lives or inflicting personal injury, is prohibited on privately owned lands within the parks listed in § 12.1.

(b) Unauthorized possession on privately owned lands within any of the said parks of the dead body, or any part thereof, of any wild bird or animal shall be prima facie evidence that the person or persons having the same are guilty of violating this section.

(c) The carcasses of animals or birds or parts thereof, unlawfully taken or possessed on privately owned lands within any of the said parks, shall be seized and shall be disposed of as the Director may prescribe.

(d) During the hunting season, arrangements shall be made at entrance stations to identify and transport within or through the said parks, where necessary, the carcasses of birds or animals legally killed outside the parks.

§ 12.5 *Firearms.* Firearms, explosives, traps, seines, and nets are prohibited on privately owned lands within the parks listed in § 12.1, except upon written permission of the superintendent.

§ 12.6 *Gambling.* Gambling in any form, or the operation of gambling devices, whether for merchandise or otherwise, is prohibited on privately owned lands within the parks wherein the regulations of this part are applicable.

§ 12.7 *Discrimination in furnishing public accommodations.* The proprietor, owner, or operator and the employees of any hotel, inn, lodge, or other public accommodation within any of the parks listed in § 12.1 are prohibited from (a) publicizing such facilities in any manner that would directly or inferentially reflect upon or question the acceptability of the patronage of any person or persons because of race, creed, color, or national origin; and (b) discriminating against any person or persons because of race, creed, color or national origin by refusing to furnish such person or persons any accommodations, facilities, or privileges offered to or enjoyed by the general public.

The regulations in this part shall become effective on and after April 1, 1947. The regulations in this part are a reissuance, with minor amendments, of existing regulations for the purpose of consolidating the regulations now applicable to private lands within National Parks which are subject to the exclusive sovereign jurisdiction of the United States, and to facilitate future amendment of such regulations in accordance with the Administrative Procedure Act of June 11, 1946 (60 Stat. 237).

Issued this 25th day of March 1947.

[SEAL] C. GIRARD DAVIDSON,
Assistant Secretary of the Interior.

PART 261—TRESPASS

DOGS RUNNING AT LARGE

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35, 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), I, Clinton P. Anderson, Secretary of Agriculture, do hereby amend Regulation T-7½ of the rules and regulations governing the occupancy, use, protection, and administration of the National Forests, which constitutes § 261.7a, Chapter II, Title 36, Code of Regulations, to read as follows:

§ 261.7a *Dogs running at large.* The following acts are prohibited on lands of the United States within the boundaries of the Sylamore Ranger District, Ozark National Forest, Arkansas, The George Washington and Jefferson National Forests, Virginia, and The Beaver Creek Wildlife Management Area, Laurel Ranger District, Cumberland National Forest, Kentucky.

Permitting dogs to run at large, or having in possession dogs not in leash or confined. [Reg. T-7½]

(30 Stat. 35, 33 Stat. 628; 16 U. S. C. 551, 472)

In testimony whereby, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 21st day of April 1947.

TITLE 46—SHIPPING

Chapter I—Coast Guard: Inspection and Navigation

[CGFR-47-18]

PROMULGATION OF REGULATIONS

By virtue of authority vested in me by section 101 of the Reorganization Plan No. 3 of 1946, I declare that the amendments to the regulations contained in document numbered CGFR-47-10 (F. R. Doc. 47-2103), and published in the FEDERAL REGISTER dated March 7, 1947, 12 F. R. 1549, shall be in effect on and after May 1, 1947.

All Coast Guard actions on applications, examinations, tests, or other matters pending before the Coast Guard on the effective date of the new regulations in Subchapter B—Merchant Marine Officers and Seamen will be in accordance with the regulations under which the actions were initiated. All persons who were qualified under the regulations which were cancelled but who were unable to submit applications for licenses or certificates before the effective date of the regulations in Subchapter B—Merchant Marine Officers and Seamen may submit such applications until June 30, 1947 and all actions by the Coast Guard with respect to such applications will be in accordance with the regulations in effect before Subchapter B became effective.

As the licenses issued to officers and certificates issued to seamen do not generally distinguish between service on merchant tank vessels and on other merchant vessels, and in order that the reconversion of the merchant marine from a wartime to a peacetime basis can be accomplished without confusion, I find that these are good causes for declaring that the rules and regulations promulgated under the authority of R. S. 4417a (46 U. S. C. 391a) shall become effective before 90 days have elapsed after their promulgation and publication in the FEDERAL REGISTER March 7, 1947 (12 F. R. 1549).

Subchapter B—Merchant Marine Officers and Seamen

PART 10—LICENSING OF DECK AND ENGINEER OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

The regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1550, shall be in effect on and after May 1, 1947.

PART 12—CERTIFICATION OF SEAMEN

The regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1566, shall be in effect on and after May 1, 1947.

Subchapter C—Motorboats, and Certain Vessels Propelled by Machinery Other Than by Steam More Than 65 Feet in Length

PART 25—REQUIREMENTS FOR ALL MOTORBOATS EXCEPT THOSE OF OVER 15 GROSS TONS CARRYING PASSENGERS FOR HIRE

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1572, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

PART 27—REQUIREMENTS FOR MOTORBOATS AND MOTOR VESSELS OF MORE THAN 15 GROSS TONS CARRYING PASSENGERS FOR HIRE

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1572, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Subchapter D—Tank Vessels

PART 36—LICENSED OFFICERS AND CERTIFICATED MEN

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1572, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Subchapter G—Ocean and Coastwise: General Rules and Regulations

PART 62—LICENSED OFFICERS AND CERTIFICATED MEN

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1572, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Subchapter H—Great Lakes: General Rules and Regulations

PART 78—LICENSED OFFICERS AND CERTIFICATED MEN

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1572, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Subchapter I—Bays, Sounds, and Lakes Other Than the Great Lakes: General Rules and Regulations

PART 96—LICENSED OFFICERS AND CERTIFICATED MEN

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1572, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Subchapter J—Rivers: General Rules and Regulations

PART 115—LICENSED OFFICERS

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1573, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Subchapter K—Seamen

PART 138—RULES AND REGULATIONS FOR ISSUANCE OF CERTIFICATES AND CONTINUOUS DISCHARGE BOOKS

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1573, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Subchapter O—Regulations Applicable to Certain Vessels and Shipping During Emergency

PART 155—LICENSED OFFICERS AND CERTIFICATED MEN: REGULATIONS DURING EMERGENCY

The cancellation of regulations in this part as published in the FEDERAL REGISTER March 7, 1947, 12 F. R. 1573, shall be effective on and after May 1, 1947, subject to the conditions set forth in this document.

Dated: April 17, 1947.

[CGFR 47-20]

MISCELLANEOUS AMENDMENTS

A notice regarding the proposed changes in the dangerous cargo regulations governing the transportation of chlorine in bulk and in the regulations for the use of liquefied petroleum gases for cooking and heating on vessels other than passenger vessels was published in the FEDERAL REGISTER, dated February 18, 1947 (12 F. R. 1109), and a public hearing was held by the Merchant Marine Council on March 27 and 28, 1947, at Washington, D. C.

The purpose for the amendments to dangerous cargo regulations in 46 CFR 146.24–15, regarding the transportation of liquid chlorine in bulk, is to provide for customary operational practices followed by carriers. The general basis, purpose and application of dangerous cargo regulations is set forth in 46 CFR Cum. Supp. 146.01–1 to 146.01–12, inclusive. All the written and oral comments and suggestions were considered by the Merchant Marine Council and where practicable incorporated into the amendments to the regulations.

The purpose for the regulations for using liquefied petroleum gases for cooking and heating purposes on vessels other than passenger vessels is to provide minimum safety and fire prevention requirements. The Merchant Marine Council at a public hearing held October 22, 1946, in accordance with the announcement published in the FEDERAL REGISTER dated September 27, 1946 (11 F. R. 11014), postponed, because of the rapid increase in the use of liquefied petroleum gases, final recommendations until further study of the subject was made and additional suggestions could be received. The regulations in 46 CFR 32.9–11, 61.25, 77.24, 95.24, and 114.25, as set forth in this document, are based on the comments and suggestions made at the public hearings held October 22, 1946 and March 28, 1947.

By virtue of the authority vested in me the following amendments to the regulations are prescribed, which shall become effective on the ninety-first day after the date of publication of this document in the FEDERAL REGISTER:

Subchapter D—Tank Vessels

PART 30—GENERAL PROVISIONS

Section 30.1 is amended to read as follows:

§ 30.1 *Basis and purpose of regulations.* By virtue of authority vested in the Commandant of the Coast Guard under section 101 of the Reorganization Plan No. 3 of 1946 (11 F. R. 7875), R. S. 4405 and 4417a, as amended, and section 5 (e) of the act of June 6, 1941 (46 U. S. C. 375, 391a, 50 U. S. C. 1275), the rules and regulations in this subchapter are prescribed for all tank vessels in accordance with the intent of the various statutes and to obtain their correct and uniform administration. (R. S. 4405, 4417a, as amended, sec. 5 (e), 55 Stat. 244; 46 U. S. C. 375, 391a, 50 U. S. C. 1275; sec. 101, Reorganization Plan No. 3 of 1946; 11 F. R. 7875)

PART 32—REQUIREMENTS FOR HULLS, MACHINERY AND EQUIPMENT

EQUIPMENT AND MISCELLANEOUS

Part 32 is amended by adding a new § 32.9–11, reading as follows:

§ 32.9–11 *Liquefied petroleum gases for cooking and heating—TB/ALL*—(a) *Liquefied petroleum gas (definition).* For purposes of this section "liquefied petroleum gas" shall be defined as any liquefied inflammable gas which is composed predominantly of hydrocarbons or mixtures of hydrocarbons, such as propane, propylene, butanes, butylenes, and butadienes, and which has a Reid [1] vapor pressure exceeding 40 pounds per square inch absolute or a vapor pressure exceeding 25 pounds per square inch gage at 100° F., as determined by the Natural Gasoline Association of America's [2] method or other recognized test method.

(b) *Approvals.* Liquefied petroleum gas may be used on inspected vessels, except passenger vessels, *Provided:*

(1) Gas consuming appliances are approved for use of liquefied petroleum gas by the American Gas Association Testing Laboratories (as indicated by label or seal of approval for liquefied petroleum gas on stationary installations) and are also approved by the Commandant.

(2) Cylinders or drums in which liquefied petroleum gas is stored and handled shall comply with Interstate Commerce Commission specifications and retest requirements for the specific gas filled therein.

(3) The relief valves, shut off valves, excess flow valves, pressure regulators, and vaporizer, when used, shall conform to the requirements of and bear the label of the Underwriters Laboratories, Inc., or other recognized testing laboratory.

(4) The location and installation of gas burning appliances, gas cylinders and regulating equipment, together with all piping must be approved by the Commandant.

(c) *Odorization of gas.* All liquefied petroleum gas used on vessels shall be effectively odorized by an agent of such character as to indicate positively by a distinctive odor the presence of gas down to a concentration in air of not over ⅕ the lower limit of combustibility.

(d) *Location and securing of containers.* (1) Cylinders shall be located in a substantially constructed and firmly fixed metal inclosure located on or above the weather deck level. Access to this inclosure shall be from the weather deck only. This inclosure shall be so constructed that when the access opening is closed any gas leakage can escape only through a top and bottom ventilating system which shall consist of a fresh air inlet pipe and an exhaust pipe both entering the inclosure from above.

(2) Cylinders or drums located within the metal inclosure shall be suitably secured in place.

(3) Storage of spare and empty cylinders must be within the metal inclosure or they must be properly chocked on the weather deck.

(e) *Valves and regulators.* (1) A spring loaded relief valve shall be incorporated in the system, its size and pressure setting to be according to Interstate Commerce Commission's requirements, and it shall be located and vented within the metal inclosure. This relief valve must be located on or between the cylinder and the pressure regulator.

(2) The low pressure side of all pressure regulators shall be protected against excessive pressure by means of a suitable relief valve which shall discharge into the metal inclosure.

(3) All regulator vents must discharge into the metal inclosure.

(4) All valves and regulators embodied in the system for the purpose of pressure relief, regulation, and control of gas pressure and flow rates, shall be securely mounted in positions readily accessible for inspection, maintenance, and testing.

(5) Valves in the assembly of multiple cylinder systems shall be so arranged that the change of cylinders may be made without shutting down the system.

(6) A shut-off valve shall be installed in each branch connection.

(f) *Vaporizers.* Where a vaporizer is required approval shall be obtained from the Commandant.

(g) *Piping and fittings.* (1) All piping shall be installed so as to provide minimum interior runs with adequate flexibility.

(2) The piping between the cylinders and the appliances shall be seamless annealed copper tubing or any other tubing approved by the Commandant. The tubing connections shall be flared and the number held to a minimum.

(3) All piping or tubing shall be tested (such as with a manometer employing water) after assembly and at each annual inspection and proved free from leaks at not less than normal operating pressures. Tests may be made by qualified persons acceptable to the Officer in Charge, Marine Inspection, and one copy of a report of such test shall be posted and another copy forwarded to the Officer in Charge, Marine Inspection, in the district in which the test was made.

(h) *Ventilation of compartments having gas appliances.* (1) Compartments which are located above the weather deck and which contain gas consuming devices shall be ventilated by openings to the outside near the deck level and by openings overhead or near the overhead in the compartment. Mechanical ventilators may also be provided.

(2) Where compartments in which gas consuming devices are located are entirely below the weather deck, mechanical ventilation shall be provided with sufficient capacity to effect a change of air at least once every six minutes.

(i) *Identification and instructions.* (1) The outside of metal inclosure housing liquefied petroleum gas cylinders, valves and regulators shall be marked:

Liquefied Petroleum Gas
Keep Open Fires Away
Operating Instructions
Inside and In--------

(2) Operating instructions shall be framed under glass and shall be posted prominently, both in the interior of the metal inclosure and near the most frequently used gas consuming device, so they may be easily read.

(j) *Operating instructions.* (1) Before opening a cylinder valve, the outlet of cylinder shall be connected tightly to system; and, in the case where only a single cylinder is used in the system, all appliance valves and pilots must be shut off before the cylinder valve is opened.

(2) Before opening cylinder valve after connecting it to system, the cylinder shall be securely fastened in place.

(3) When cylinders are not in use their outlet valves shall be kept closed.

(4) Cylinders when exhausted shall have their outlet valves closed.

(5) Nothing shall be stored in the metal inclosure except liquefied petroleum gas cylinders and permanently fastened parts of the system.

(6) Valve protecting caps if provided shall be firmly in place on all cylinders not attached to the system. Caps for cylinders in use may remain in metal inclosure if rigidly fastened to the metal inclosure structure.

(7) The opening into the metal inclosure must be closed at all times except when access is required to change cylinders or maintain equipment.

(8) Gas pressure to consuming devices should be approximately eleven inches water column (6.4 oz. per square inch).

(9) No smoking should be permitted in the vicinity of the metal inclosure when access to inclosure is open.

(10) If electric connections are made within the metal inclosure they must be installed in strict accordance with the requirements of the National Electrical Code [3] for Class I, Group D, Hazardous Locations.

(11) Tests for gas leaks should be made with a soap solution or low freezing point liquids but in no case shall a flame be used.

(12) Report any presence of gas odor to ------. (R. S. 4405, 4417a, as amended, sec. 5 (e), 55 Stat. 244; 46 U. S. C. 375, 391a, 50 U. S. C. 1275; sec. 101, Reorganization Plan No. 3 of 1946; 11 F. R. 7875)

Subchapter G—Ocean and Coastwise: General Rules and Regulations

PART 61—FIRE APPARATUS; FIRE PREVENTION

Section 61.25 is amended to read as follows:

§ 61.25 *Liquefied petroleum gases for cooking and heating*—(a) *Liquefied petroleum gas (definition).* For purposes of this section "liquefied petroleum gas" shall be defined as any liquefied inflammable gas which is composed predominantly of hydrocarbons or mixtures of hydrocarbons, such as propane, propylene, butanes, butylenes, and butadienes, and which has a Reid [2] vapor pressure exceeding 40 pounds per square inch absolute or a vapor pressure exceeding 25 pounds per square inch gage at 100° F., as determined by the Natural Gasoline Association of America's [2] method or other recognized test method.

(b) *Approvals.* Liquefied petroleum gas may be used on inspected vessels, except passenger vessels: *Provided,*

(1) Gas consuming appliances are approved for use of liquefied petroleum gas by the American Gas Association Testing Laboratories (as indicated by label or seal of approval for liquefied petroleum gas on stationary installations) and are also approved by the Commandant.

(2) Cylinders or drums in which liquefied petroleum gas is stored and handled shall comply with Interstate Commerce Commission specifications and retest requirements for the specific gas filled therein.

(3) The relief valves, shut off valves, excess flow valves, pressure regulators, and vaporizer, when used, shall conform to the requirements of and bear the label of the Underwriters Laboratories, Inc., or other recognized testing laboratory.

(4) The location and installation of gas burning appliances, gas cylinders and regulating equipment, together with all piping must be approved by the Commandant.

(c) *Odorization of gas.* All liquefied petroleum gas used on vessels shall be effectively odorized by an agent of such character as to indicate positively by a distinctive odor the presence of gas down to a concentration in air of not over ⅕ the lower limit of combustibility.

(d) *Location and security of containers.* (1) Cylinders shall be located in a substantially constructed and firmly fixed metal inclosure located on or above the weather deck level. Access to this inclosure shall be from the weather deck only. This inclosure shall be so constructed that when the access opening is closed any gas leakage can escape only through a top and bottom ventilating system which shall consist of a fresh air inlet pipe and an exhaust pipe both entering the inclosure from above.

(2) Cylinders or drums located within the metal inclosure shall be suitably secured in place.

(3) Storage of spare and empty cylinders must be within the metal inclosure or they must be properly chocked on the weather deck.

(e) *Valves and regulators.* (1) A spring loaded relief valve shall be incorporated in the system, its size and pressure setting to be according to Interstate Commerce Commission's requirements, and it shall be located and vented within the metal inclosure. This relief valve must be located on or between the cylinder and the pressure regulator.

(2) The low pressure side of all pressure regulators shall be protected against excessive pressure by means of a suitable relief valve which shall discharge into the metal inclosure.

(3) All regulator vents must discharge into the metal inclosure.

(4) All valves and regulators embodied in the system for the purpose of pressure relief, regulation, and control of gas pressure and flow rates, shall be securely mounted in positions readily accessible for inspection, maintenance, and testing.

(5) Valves in the assembly of multiple cylinder systems shall be so arranged that the change of cylinders may be made without shutting down the system.

(6) A shut off valve shall be installed in each branch connection.

(f) *Vaporizers.* Where a vaporizer is required approval shall be obtained from the Commandant.

(g) *Piping and fittings.* (1) All piping shall be installed so as to provide minimum interior runs with adequate flexibility.

(2) The piping between the cylinders and the appliances shall be seamless annealed copper tubing or any other tubing approved by the Commandant. The tubing connections shall be flared and the number held to a minimum.

(3) All piping or tubing shall be tested (such as with a manometer employing water) after assembly and at each annual inspection and proved free from leaks at not less than normal operating pressures. Tests may be made by qualified persons acceptable to the Officer in Charge, Marine Inspection, and one copy of a report of such test shall be posted and another copy forwarded to the Officer in Charge, Marine Inspection, in the district in which the test was made.

(h) *Ventilation of compartments having gas appliances.* (1) Compartments which are located above the weather deck and which contain gas consuming

(j) Cargo tanks shall be examined and retested every two years in the presence of an inspector of the Coast Guard. The examination shall consist of a thorough internal and external inspection. The hydrostatic test shall be at a pressure of 450 pounds per square inch. The relief valve or valves shall be dismantled, overhauled, and reset at the time of this biennial inspection. Said valve or valves may be dismantled, overhauled, and reset at such other times as is the desire of the carrier; provided such dismantling, overhauling, and reseting are made with the cognizance of and under such conditions as are agreed upon with the Officer in Charge, Marine Inspection. Upon satisfactory conclusion of test at the time of the biennial inspection, the inspector shall stamp upon the tank the date and other identification necessary to indicate authority for continued use of the cargo tanks and relief valves. When a carrier finds it necessary to replace a relief valve, he shall report the change in writing to the Officer in Charge, Marine Inspection, in the district where the change took place or at the first port of call. The replacement shall be the same size, capacity, and material as the replaced valve and shall be set to relieve at the safe working pressure of the tank.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 260, Amdt. 8]

PART 95—CAR SERVICE

SALTING OF ICE ON CARS OF CITRUS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 18th day of April A. D. 1947.

Upon further consideratiton of the provisions of Service Order No. 260 (9 F. R. 14547), as amended (10 F. R. 4818; 11 F. R. 8452, 13639; 12 F. R. 48, 128, 1394, 2037), and good cause appearing therefor: It is ordered, that:

Section 95.260 *Salting of ice on cars of citrus*, of Service Order No. 260, as amended, be, and it is hereby, further amended by adding the following exception to paragraph (a) thereof:

Exception. The provisions of this section, during the effectiveness of this amendment, shall not apply to the salting, at regular icing stations en route, with not to exceed three percent (3%) salt, of ice in the bunkers of refrigerator cars, shipped from any origin in the State of Florida, loaded with straight carloads of oranges or grapefruit or mixed carloads of oranges and grapefruit.

Effective date. This amendment shall become effective at 12:01 a. m., April 20, 1947.

Expiration date. This amendment shall expire at 11:59 p. m., June 30, 1947.

It is further ordered, that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

PROPOSED RULE MAKING

TREASURY DEPARTMENT

Bureau of Internal Revenue

[26 CFR, Part 142]

[Treasury Decision 5438]

TAX-FREE WITHDRAWALS OF CIGARS FROM CUSTOMS BONDED WAREHOUSE, CLASS 6

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form herewith are proposed to be prescribed by the Commissioner of Internal Revenue and the Commissioner of Customs, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commisioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 2135 of the Internal Revenue Code, 53 Stat. 234; sec. 3, 44 Stat. 1362; sec. 556, 46 Stat. 743 (26 U. S. C. 2135, 5 U. S. C. 281b; 19 U. S. C. 1556).

Treasury Decision 5438, approved February 7, 1945 (26 CFR, Part 142), is amended as follows:

(A) By inserting immediately following the heading "Table of Contents" an additional center heading as follows: "Subpart A".

(B) By changing the first line of the table of contents reading "142.0 Scope of regulations" to read "142.0 Scope of "Subpart A".

(C) By inserting immediately following the table of contents the following:

SUBPART B

142.20 Scope of Subpart B.
142.21 Definitions.
142.22 Shipment restricted.
142.23 Bond.
142.24 Packing, marking or branding.
142.25 Shipping containers.
142.26 Application for withdrawal.
142.27 Inspection and verification of shipment.
142.28 Report of inspecting officer.
142.29 Delay in withdrawal of shipment; cancelation of shipment.
142.30 Change in consignee.
142.31 Withdrawal of shipment and disposition of original of application, Form 550.
142.32 Return of shipment to warehouse.
142.33 Tax liability.
142.34 Credit for shipment.
142.35 Penalties.

(D) By inserting immediately preceding § 142.0 a center heading as follows: "Subpart A".

(E) By substituting for the words "these regulations" wherever occurring in §§ 142.0 to 142.15, inclusive, the words "the regulations in this subpart".

(F) By changing the heading of § 142.0 *Scope of regulations* to read *Scope of Subpart A.*

(G) By inserting in the first sentence of § 142.0 immediately following the word "withdrawal" the following: ", prior to the effective date of Treasury Decision -----".

(H) By inserting immediately following § 142.15 the following:

SUBPART B

§ 142.20 *Scope of Subpart B.* This subpart comprising §§ 142.20 to 142.35, inclusive, relates to the withdrawal, on and after the effective date of Treasury Decision -----, without payment of tax from customs bonded manufacturing warehouses, class 6, for export to foreign countries or shipment to possessions of the United States, of cigars produced in such warehouses of imported tobacco on which the duties have been paid. Duties paid on tobacco used in the manufacture of cigars withdrawn under this subpart may not be recovered. However, this subpart is exclusive only with respect to the withdrawal of cigars for shipment to a foreign country or possession of the United States where the customs regulations are not applicable to such shipment. This subpart does not relate to any withdrawal of cigars made of imported tobacco on which the customs duties have not been paid, which withdrawals must always be made in accordance with customs regulations and procedure.

§ 142.21 *Definitions.* As used in this subpart:

(a) The term "collector" means the collector of internal revenue for the district in which is located the customs bonded manufacturing warehouse, class 6, from which withdrawal of cigars under this subpart is made or intended to be made.

(b) The term "manufacturer" means the proprietor of a customs bonded manufacturing warehouse, class 6.

(c) The term "warehouse" means a customs bonded manufacturing warehouse, class 6, where cigars withdrawn, or intended to be withdrawn, under this subpart, are made.

(d) The term "Commissioner" means the Commissioner of Internal Revenue.

SEC. 2135 [Internal Revenue Code]. EXEMPTION FROM TAX (As amended by act approved March 23, 1943, 57 Stat. 42).

(a) *Shipments to foreign countries and possessions of the United States*—(1) *Manufactures.* Manufactured tobacco, snuff, cigars or cigarettes may be removed for export to a foreign country or for shipment to a possession of the United States (or, until the date on which the President proclaims that hostilities in the present war have terminated, to a territory of the United States for the use of members of the military or naval forces of the United States) without payment of tax under such rules and regulations and the making of such entries, and the filing of such bonds and bills of lading as the Commissioner, with the approval of the Secretary, shall prescribe.

A PROCLAMATION

* * * * * *

* * * I, Harry S. Truman, President of the United States of America, do hereby proclaim the cessation of hostilities of World War II, effective twelve o'clock noon, December 31, 1946.

§ 142.22 *Shipment restricted.* The withdrawal of cigars under this subpart, without payment of tax, may be made only for export to foreign countries or possessions of the United States where the United States internal revenue laws are not in effect.

§ 142.23 *Bond.* Before or at the time of filing his first application, a manufacturer who desires to withdraw cigars from his warehouse without payment of tax under this subpart, shall furnish to the collector a bond, in duplicate, in such form as the Commissioner shall prescribe, with surety satisfactory to the collector. The penal sum of the bond shall be sufficient to cover the estimated amount of tax which shall at any time constitute a charge against the bond, and in no case less than $5,000.00. When the bond, in duplicate, is received by the collector, he shall, if the bond meets with his approval, make endorsement to that effect on both the original and duplicate of the bond and forward the duplicate to the Commissioner. The liability under such bond shall be a continuing one, and will be subject to increase or decrease as withdrawals are made and completed. When the limit of liability under such bond has been reached, further withdrawals may not be made thereunder. Instead, a new bond, in duplicate, must be filed by the manufacturer, under which subsequent withdrawals shall be made.

§ 142.24 *Packing, marking, or branding.* Cigars withdrawn under this subpart may be put up in packages of any sizes desired. Each package of cigars shall have securely affixed in place of the internal revenue stamp a label, which label shall be readily distinguishable from an internal revenue stamp and on which shall be printed the following legend:

Free of tax. For use only outside the jurisdiction of the internal revenue laws of the United States.

§ 142.25 *Shipping containers.* Each shipping container in which cigars are to be withdrawn under this subpart shall be plainly numbered by the manufacturer, the number to be a consecutive one of a series beginning with No. 1, and begin again with No. 1 on July 1 of each subsequent year.

Shipping containers shall not be closed and fastened until their contents have been inspected and verified by a customs officer at the warehouse, as hereinafter prescribed.

§ 142.26 *Application for withdrawal.* An application on Internal Revenue Form 550, appropriately modified, shall be executed and filed by the manufacturer with the collector for each shipment intended to be withdrawn under this subpart. Such application shall be filed in triplicate for each parcel post shipment, and in quadruplicate for each shipment otherwise than by parcel post. Each application shall bear a serial number, such number to be a consecutive one of a series beginning with No. 1 to cover the first shipment, and commencing again with No. 1 on July 1 of each year thereafter. Copies of each application shall bear the same serial number as the original. Each application shall be completely and legibly modified and filled in. The cigars described in the application shall not be withdrawn from the warehouse until after inspection and verification by the customs officer as hereinafter required.

Upon receipt of each application, properly executed, the collector shall, if the tax liability on the particular shipment does not increase the outstanding liability in excess of the penal sum of the bond under which the withdrawal is to be made, immediately after signing the original and each copy of the application, forward the original and the two or three copies of the application to the customs officer in charge of the warehouse from which the shipment is to be withdrawn, in order that the customs officer can make proper inspection and verification of the cigars described in the application.

§ 142.27 *Inspection and verification of shipment.* It shall be the duty of the customs officer in charge of the warehouse from which the shipment of cigars is to be withdrawn under this subpart, to inspect the shipment and determine definitely that the shipment contains the exact class and quantity of cigars specified in the application, and that the boxes or packages of such cigars meet the requirements of this subpart. The packing of the shipping containers shall be under the supervision of the customs officer who will see that the number required by this subpart is properly inscribed on each shipping container.

Cigars withdrawn under this subpart may be stored within the jurisdiction of the internal revenue laws of the United States only under Government control and supervision, or with the approval of the Commissioner. Cigars withdrawn and otherwise held in such jurisdiction are subject to seizure by and forfeiture to the United States.

§ 142.28 *Report of inspecting officer.* After inspection and verification of the shipment have been completed and the shipping containers have been made ready for withdrawal and the customs officer has filled in and signed his report on the original and each copy of the application, the shipment shall be released for withdrawal by the manufacturer. One copy of the application is to be retained for customs purposes, one copy forwarded immediately to the collector and the original and the remaining copy delivered to the manufacturer to go forward with the shipment and be disposed of as hereinafter prescribed.

§ 142.29 *Delay in withdrawal of shipment; cancelation of shipment.* In case a shipment is not withdrawn from the warehouse within ten days after inspection and verification as provided in this subpart, the manufacturer must advise the collector as to the probable date of withdrawal. If the order for the shipment has been canceled, the manufacturer should so advise the collector and request premission to return the shipment to stock in the warehouse under the supervision of the customs officer in charge of the warehouse.

§ 142.30 *Change in consignee.* If, after inspection and verification, but before withdrawal of the shipment, the manufacturer for good and sufficient reasons desires to change the consignee or the address of the original consignee shown by the application, the manufacturer shall forward to the collector for correction and endorsement the original and copy of the application delivered to him by the inspecting officer with a letter setting forth his reasons for the change. The collector, after making correction and endorsement of the change, shall forward the original and copy of the application to the customs officer in charge of the warehouse with a letter instructing the customs officer to make similar change in the copy of the application which he retained after inspection and verification of the shipment, and to deliver the original and copy of the application to the manufacturer.

§ 142.31 *Withdrawal of shipment and disposition of original of application, Form 550*—(a) *General.* After the shipment has been released for withdrawal, the manufacturer shall enter on the original and copy of the application the actual date of withdrawal of the shipment from the warehouse, after which the shipment may go forward to the consignee. The original and copy of the application shall then be disposed of by the manufacturer as hereinafter prescribed.

(b) *Shipment other than by parcel post.* (1) If the warehouse is located at the port of exportation, the manufacturer shall file with the collector of customs at the port, at least six hours prior to lading of the shipment, the original and one copy of the application on Form 550 returned to him by the customs officer who inspected the shipment at the warehouse.

(2) If the warehouse is located elsewhere than at the port of exportation, the manufacturer shall forward the original and one copy of the application on Form 550 to the collector of customs at the port or to the agent of the manufacturer at the port so that these forms may reach or be filed with the collector of customs at least six hours prior to lading of the shipment. Where the original and one copy of the Form 550 are forwarded by the manufacturer to his agent at the port, the agent may fill in the name of the carrier or exporting vessel and give the location of the pier where the shipment will be laden.

(3) In case of exportation to a foreign contiguous territory by rail through a border port the manufacturer will forward the original and one copy of the application on Form 550 to the collector of customs at the border port through which the shipment will be routed for exportation.

(4) After the shipment has been inspected and laden on the exporting vessel or carrier or where the shipment has been inspected at the border port of exit with respect to shipment to a foreign contiguous territory the customs inspector who supervised the inspection and lading of the shipment will execute the Certificate of Inspection and Lading on the reverse side of both the original and copy of the Form 550 and return these forms to his collector of customs. After the vessel or carrier has cleared from the port of exportation or exit, the collector of customs will execute the Certificate of Exportation on both the original and copy of the Form 550, retain the copy for his file and forward the completed original to the collector of internal revenue of the district from which the shipment originated as indicated on the back of the form.

(c) *Shipment by parcel post.* If the shipment is to be made by parcel post, the manufacturer shall execute on each shipping container or parcel a waiver of his right to withdraw the container or parcel from the mails, and then at the time of mailing present the original Form 550 covering the shipment to the postmaster or his agent for execution of the certificate of mailing provided on the back of the form. The original Form 550 so executed shall be filed promptly thereafter by the manufacturer with the collector.

§ 142.32 *Return of shipment to warehouse.* If, after withdrawal, the manufacturer desires to return a shipment to the warehouse, he must make application to the Commissioner for permission to do so. The manufacturer must identify the shipment, and show where it has been since it left the factory, where held and in whose custody it is at the time of making application, and the reasons for returning the shipment. After receipt of such application, the Commissioner will issue appropriate instructions. The return of cigars to the warehouse will operate only to relieve the manufacturer of liability to internal revenue tax. Cigars so returned may not thereafter be withdrawn with benefit of refund of duties on the tobacco of which the cigars were made. Section 558, Tariff Act of 1930, as amended (19 U. S. C. 1558).

§ 142.33 *Tax liability.* The responsibility for the delivery to the consignee of cigars withdrawn under this subpart shall rest upon the manufacturer making the withdrawal, who will be liable for the internal revenue tax on any cigars withdrawn or delivered otherwise than in accordance with this subpart.

§ 142.34 *Credit for shipment.* Upon receipt of the original of the application on Form 550 with the "Certificate of Inspection and Lading" and the "Certificate of Exportation" executed by the appropriate customs officers or the "Certificate of Mailing by Parcel Post" executed by the appropriate postal officer with no shortage reported, the collector shall enter the proper credit in the account, Form 94, which he shall keep with the bond under which the shipment was made. In case a shortage is reported, the collector shall enter credit for the cigars actually delivered and require the manufacturer to pay the amount of tax due on the shortage.

§ 142.35 *Penalties.* Various sections of the Internal Revenue Code impose severe penalties for the unlawful withdrawal of cigars from the place of manufacture and for the possession, use, or delivery within the United States (including its territories) of manufactured cigars upon which the tax has not been paid. These sections apply to cigars withdrawn without the payment of tax under this subpart, and, accordingly, any person withdrawing, possessing, using, or delivering any such cigars otherwise than as authorized by this subpart may be subject to the penalties prescribed by these sections of the Code.

[SEAL] WM. T. SHERWOOD,
Acting Commissioner of Internal Revenue.
G. H. GRIFFITH,
Acting Commissioner of Customs.

[Docket No. G-884]

SOUTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

APRIL 17, 1947.

Notice is hereby given that on March 31, 1947, an application was filed with the Federal Power Commission by Southern Natural Gas Company (Applicant), a Delaware corporation, having its principal place of business at Birmingham, Alabama, and authorized to do business in the States of Alabama, Georgia, Louisiana, Mississippi and Texas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described natural-gas pipeline facilities:

(1) *Trunk Line.* A 16-inch line extending approximately 225 miles due east to the vicinity of Colfax, Georgia from the point in Lee County, Alabama on the proposed 24-inch Gwinville, Mississippi-Atlanta line where said line bends northeasterly toward Atlanta, Georgia. The capacity (delivery on peak day) of this line is 203,900 Mcf.

(2) Extensions from 16-inch line:

Tallahassee Line. An 8⅝-line, having a daily delivery capacity of 27,500 Mcf, extending 56.4 miles south from Compressor Station B on the 16-inch trunk line, to Albany, Georgia, reduced to 6⅝-inch pipe for 53.0 miles from Albany to Thomasville, Georgia, with 4½-inch laterals to Cordele, Moultrie and Cairo, Georgia, and Tallahassee, Florida, and with a 4½-inch lateral through Quitman to Valdosta, Georgia.

Jacksonville Line. A 10¾-inch line, having a daily delivery capacity of 47,500 Mcf, extending southeasterly 147.5 miles from the vicinity of Covena, Georgia, to the junction with the Fernandina branch, and continuing as an 8⅝-inch line 18 miles long to Jacksonville, Florida. Extending 59 miles southeasterly from the junction at Compressor Station E is 6⅝-inch lateral to Brunswick. The Fernandina-St. Marys lateral is an 8⅝-inch line extending 15.3 miles to the point where 6⅝-inch branch lines extend respectively 10 miles to Fernandina and 21 miles to St. Marys. There is also a 12.2 mile lateral of 4½-inch pipe to Waycross, Georgia.

Savannah Line. A 10¾-inch line, having a daily delivery capacity of 45,000 Mcf extending 54.2 miles from the Colfax terminus of the 16-inch line to Savannah, Georgia.

Georgetown Extension. A 14-inch line, having a daily delivery capacity of 78,500 Mcf, extending 54.4 miles from the Colfax terminus of the 16-inch trunk line to Compressor Station D, located at the junction of the Augusta Line. From this point to the junction of the junction of the Charleston Line, the line is reduced to a 12¾-inch line, where it is further reduced to 8⅝ inches extending to the easterly terminus at Georgetown, South Carolina. This extension will supply the following branch lines:

Augusta Line. An 8⅝-inch line extending 46.7 miles from Compressor Station D in the vicinity of Allendale, South Carolina, to the Aiken, South Carolina, junction with 6⅝-inch branches to Augusta (4.8 miles) and Aiken (18.3 miles). The daily delivery capacity of the Augusta Line is 21,750 Mcf.

Columbia Line. An 8⅝-inch line, having a daily delivery capacity of 14,000 Mcf, extending 55.6 miles north from the vicinity of Branchville, South Carolina.

Charleston Line. An 8⅝-inch line, having a daily capacity of 20,200 Mcf, extending 46 miles from the Georgetown line to Charleston, South Carolina.

(3) The location, rated horsepower and capacity of proposed Compressor stations as follows:

Compressor Station A of 9,000 installed horsepower, (8,720 active H. P.) with a delivery capacity of 203,900 Mcf, will be located on the 16-inch trunk line 21 miles east of its junction with the Gwinville-Atlanta 24-inch line.

Compressor Station B of 9,000 installed horsepower (8,660 active H. P.), with a delivered capacity of 201,400 Mcf, will be located on the 16-inch trunk line 56 miles east of Compressor Station A, at its junction with the Tallahassee Line.

Compressor Station C of 8,000 installed horsepower (7,420 active H. P.), with a delivery capacity of 171,100 Mcf, will be located on the 16-inch line 69 miles east of Compressor Station B.

Compressor Station D of 4,000 installed horsepower, with a delivery capacity of 78,300 Mcf will be located on the Georgetown Extension at its Junction with the Augusta Branch.

Compressor Station E of 1,600 installed horsepower, having a delivery capacity of 47,000 Mcf, will be located on the Jacksonville Line at its junction with the Brunswick laterial.

The pipe lines will include multiple line crossings at 21 major streams, and the compressor stations will include coolers, water systems and other appurtenances.

Meter and regulator stations of appropriate capacities will be located at all city and town gates and industrial delivery points. All facilities will be operated as an integral part of Applicant's system.

All lines will be operated at maximum pressures of 1080 p. s. i. with delivery pressures of not less than 50 p. s. i. The maximum day demand on this system is etimated to be 197,600 Mcf.

Applicant recites that the construction of the facilities covered by the present application is dependent upon approval by the Commission of Applicant's application, Docket No. G-796, including particularly the 24-inch Gwinville-Atlanta main line. Applicant states that the date of commencing construction is thus dependent upon Commission approval of the Gwinville-Atlanta main line for which pipe is now on order with deliveries expected in 1949.

The Applicant further recites that with the construction of the new 24-inch Gwinville-Atlanta main line sufficient excess capacity will be provided to supply the South Georgia-North Florida-South Carolina territory. This 24-inch main line, when operated with compressors at 1,000 pounds pressure, will have a capacity of 540,000 Mcf per day, when the additional necessary compression has been added to the above-mentioned 24-inch Gwinville-Atlanta line west of Lee County, Alabama. Less than half of this additional capacity will be required to meet all the estimated requirements of the markets now being served by Applicant, and those covered by Applicant in G-796, leaving more than 270,000 Mcf per day available to serve the South Georgia-North Florida-South Carolina territory.

Applicant recites that the estimated total over-all capital cost of the proposed facilities is $25,711,955.

Information with respect to Applicant's plans for financing the project, including working capital and other incidental costs, will be supplied by amendment hereto.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Southern Natural Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1489]

CENTRAL ILLINOIS LIGHT CO. AND COMMONWEALTH & SOUTHERN CORP.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 18th day of April 1947.

Notice is hereby given that a joint application-declaration has been filed with the Commission pursuant to the Public Utility Holding Company Act of 1935 by Central Illinois Light Company ("Central Illinois") and its parent, The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company. The applicants-declarants have designated sections 6 (a), 7, 9 (a), 10, 12 (c), 12 (d) and 12 (f) of the act and Rules U-42, U-43, U-44 and U-62 thereunder as applicable to the proposed transactions.

All interested parties are referred to said application-declaration, which is on file in the office of the Commission, for a statement of the transactions therein proposed which may be summarized as follows:

Central Illinois proposes to amend its Articles of Incorporation so as to (a) increase the authorized number of shares of its common stock without par value from 250,000 shares to 1,500,000 shares and (b) change Central Illinois' issued and presently outstanding common stock, all of which is owned by Commonwealth, from 210,000 shares into 800,000 shares. Central Illinois also proposes to increase the aggregate stated capital represented by its common stock from $10,833,988 to $13,600,000 by the transfer of $2,766,012 from earned surplus to the common stock capital account. As of December 31, 1946, this entry would have had the effect of reducing Central Illinois' earned surplus from $4,102,108 to $1,336,096.

Commonwealth has filed with this Commission a plan dated March 25, 1946, pursuant to section 11 (e) of the act, for partial compliance with section 11 (b). As part of a program preliminary to such plan, and irrespective of the approval of said plan, Commonwealth proposes, subject to the approval of this Commission in appropriate proceedings, to dispose of the common stock of Central Illinois. The application states that the consummation of the instant proposed transactions will facilitate the disposition by Commonwealth of the common stock of Central Illinois and will make the company's common stock more marketable and a better vehicle of financing for the company. Central Illinois has filed an application with the Illinois Commerce Commission, the State Commission of the State in which Central Illinois is organized and doing business, for approval of the proposed transactions to be effected by it.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the matters set forth in said application-declaration and that said application-declaration should not be granted or permitted to become effective except pursuant to further order of this Commission:

It is ordered, That a hearing on said application-declaration, pursuant to the applicable provisions of the act and the rules and regulations thereunder, be held on May 7, 1947 at 11:00 a. m., e. d. s. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing shall be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of this Commission, on or before May 5, 1947, a written request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Robert P. Reeder, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application-declaration and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters or questions upon further examination:

1. Whether the proposed increase in the outstanding shares of common stock of Central Illinois and in the aggregate stated capital represented thereby meets the applicable standards of sections 7 and 12 (c) of the act.

2. Whether the terms and conditions of the proposed common stock issue are detrimental to the public interest or the interest of investors or consumers.

3. What terms or conditions, if any, with respect to the proposed transactions should be prescribed in the public interest or for the protection of investors or consumers and, particularly, to insure that voting power shall be fairly and equitably distributed among the security holders of Central Illinois.

4. Whether the proposed acquisition by Commonwealth of the common stock of Central Illinois meets the applicable requirements of section 10 of the act.

5. Whether the fees and expenses to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount.

6. Whether the proposed accounting treatment of the transactions is proper and in conformity with sound accounting principles.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on the applicants-declarants herein, the Illinois Commerce Commission and on all parties of record and all parties granted leave to be heard in the proceedings on Commonwealth's plan of reorganization (File Nos. 59-20, 59-8 and 54-75); and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL WATER AND GAS CORP.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 18th day of April A. D. 1947.

Notice is hereby given that a declaration and an amendment thereto has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Federal Water and Gas Corporation ("Federal"), a registered holding company. Declarant designates section 7 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than April 29, 1947, at 5:30 p. m. e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration, as amended, proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Federal proposes to extend for a period of six months all or a portion of two notes in the unpaid principal amounts of $671,641.60 and $328,358.20, held by Guaranty Trust Company of New York and The Chase National Bank of the City of New York, respectively, and maturing June 1, 1947. Said notes are secured by 794.054½ shares of the no par value common stock of Scranton-Spring Brook Water Service Company ("Scranton"), a subsidiary of Federal, and were originally issued in the aggregate principal amount of $3,830,615.62 to enable Federal to acquire the common stock of Scranton in connection with the latter's reorganization (Holding Company Act Release No. 6458). The aggregate principal amount of said notes has been reduced to $1,000,000 by the use of cash received by Federal from the sale of its investments in Chattanooga Gas Company and Mississippi Gas Company and treasury cash.

The filing further states that Federal will not have sufficient cash available to meet the payment at the present maturity date of said notes; and that although Federal originally intended to sell such shares of the common stock of Scranton as may be necessary to provide funds with which to retire said notes, it is now contemplated that as soon as practicable after the United States Supreme Court hands down its decision in "Securities and Exchange Commission v. Chenery Corporation et al.," Federal will file with the Commission a plan for the distribution of its remaining assets including the Scranton stock and the dissolution of the corporation, and that funds for the payment of said notes will be obtained from other sources.

The declarant requests that the Commission's order be issued herein as soon as possible, and become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 3—THE PRESIDENT

PROCLAMATION 2729

COPYRIGHT EXTENSION: NEW ZEALAND

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS by the act of Congress approved September 25, 1941 (55 Stat. 732) the President is authorized, on the conditions prescribed in that act, to grant an extension of time for the fulfilment of the conditions and formalities prescribed by the copyright laws of the United States of America with respect to works first produced or published outside the United States of America and subject to copyright or to renewal of copyright under the laws of the United States of America, including works subject to *ad interim* copyright, by nationals of countries which accord substantially equal treatment to citizens of the United States of America; and

WHEREAS the Governor-General of New Zealand has issued an Order in Council, effective from this day, by the terms of which treatment substantially equal to that authorized by the aforesaid act of September 25, 1941 is accorded in New Zealand to literary and artistic works first produced or published in the United States of America; and

WHEREAS the aforesaid Order in Council is annexed to and is part of an agreement embodied in notes exchanged this day between the Government of the United States of America and the Government of New Zealand; and

WHEREAS by virtue of a proclamation by the President of the United States of America dated April 9, 1910 (36 Stat. 2685) citizens of New Zealand are, and since July 1, 1909 have been, entitled to the benefits of the act of Congress approved March 4, 1909 (35 Stat. 1075) relating to copyright, other than the benefits of section 1 (e) of that act; and

WHEREAS by virtue of a proclamation by the President of the United States of America dated February 9, 1917 (39 Stat. 1815) the citizens of New Zealand are, and since December 1, 1916 have been, entitled to the benefits of section 1 (e) of the aforesaid act of March 4, 1909;

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, under and by virtue of the authority vested in me by the aforesaid act of September 25, 1941, do declare and proclaim:

That with respect to (1) works of citizens of New Zealand which were first produced or published outside the United States of America on or after September 3, 1939 and subject to copyright under the laws of the United States of America, including works subject to *ad interim* copyright and (2) works of citizens of New Zealand subject to renewal of copyright under the laws of the United States of America on or after September 3, 1939, there has existed during several years of the time since September 3, 1939 such disruption or suspension of facilities essential to compliance with the conditions and formalities prescribed with respect to such works by the copyright laws of the United States of America as to bring such works within the terms of the aforesaid act of September 25, 1941; and that accordingly the time within which compliance with such conditions and formalities may take place is hereby extended with respect to such works until the day on which the President of the United States of America shall, in accordance with that act, terminate or suspend the present declaration and proclamation.

It shall be understood that the term of copyright in any case is not and cannot be altered or affected by this proclamation, and that, as provided by the aforesaid act of September 25, 1941, no liability shall attach under the Copyright Act for lawful uses made or acts done prior to the effective date of this proclamation in connection with the above-described works, or in respect to the continuance for one year subsequent to such date of any business undertaking or enterprise lawfully undertaken prior to such date involving expenditure or contractual obligation in connection with the exploitation, production, reproduction, circulation, or performance of any such work.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this twenty-fourth day of April, in the year of our Lord nineteen hundred and forty-seven, and of the Independence of the United States

EXECUTIVE ORDER 9841

TERMINATION OF THE OFFICE OF TEMPORARY CONTROLS

WHEREAS the Congress, in the Urgent Deficiency Appropriation Act, 1947, approved March 22, 1947, has declared its intent that the Office of Temporary Controls be closed and liquidated by June 30, 1947; and

WHEREAS it is necessary to provide for the orderly liquidation of such Office and the disposition of its residual affairs:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and Statutes, including the last paragraph of Title I of the First Supplemental Surplus Appropriation Rescission Act, 1946, approved February 18, 1946, Title III of the Second War Powers Act, 1942 as amended by the First Decontrol Act of 1947, section 201 (b) of the Emergency Price Control Act of 1942, as amended, section 2 of the Stabilization Act of 1942, as amended, and Title I of the First War Powers Act, 1941, and as President of the United States, it is hereby ordered, in the interest of the internal management of the Government, as follows:

PART I

101. The Office of Temporary Controls, established by Executive Order No. 9809 of December 12, 1946, shall be terminated and disposition shall be made of its functions according to the provisions of this order.

PART II

201. The provisions of this Part shall become effective on May 4, 1947.

202. Functions of the Temporary Controls Administrator under the Emergency Price Control Act of 1942, as amended, Executive Order No. 9809, and any other statute, order, or delegation are transferred as follows:

(a) Functions with respect to rent control are transferred to the Housing Expediter and shall be performed by him or, subject to his direction and control, by such officers or agencies of the Government as he may designate.

(b) Functions with respect to price control over rice are transferred to the Secretary of Agriculture and shall be performed by him or, subject to his direction and control, by such officers or agencies of the Department of Agriculture as he may designate.

(c) Functions with respect to (1) subsidies, including determinations of the correct amounts of claims and the recovery of over-payments (but excluding premium-payment functions transferred under paragraph 302 (b) hereof); (2) applications for price adjustments filed under Supplementary Order 9 and Procedural Regulation 6 (Adjustment of Maximum Prices for Commodities and Services under Government Contracts or Subcontracts, 7 F .R. 5037, 5444) of the Office of Price Administration; and (3) the interpretation and application of price and subsidy regulations and orders which affect the amount of subsidy payable; are transferred to the Reconstruction Finance Corporation.

203. The following functions of the Temporary Controls Administrator are transferred to the Secretary of Commerce and shall be performed by him or, subject to his direction and control, by such officers and agencies of the Department of Commerce as he may designate:

(a) Functions of the President under Title III of the Second War Powers Act, 1942, as amended, vested in the Temporary Controls Administrator immediately prior to the taking of effect of this Part.

(b) Functions with respect to determining, under section 6 (a) of the Strategic and Critical Materials Stockpiling Act, the amount of strategic and critical materials necessary to make up any deficiency of the supply thereof for the current requirements of industry.

(c) Functions under section 124 of the Internal Revenue Code, as amended.

(d) Functions under section 12 of the act of June 11, 1942 (the Small Business Mobilization Act).

(e) Functions with respect to claims relating to the expansion of the capacity of defense plants when such expansion is alleged to have been undertaken at the request of the War Production Board or any of its predecessor agencies.

(f) Functions with respect to claims relating to property requisitioned by the Chairman of the War Production Board or by any of his predecessors.

(g) Except as otherwise provided by statute or this or any other Executive order, all other functions of the Temporary Controls Administrator which were immediately prior to the taking of effect of Executive Order No. 9809 vested in the Civilian Production Administrator.

204. Executive Order No. 9705 of March 15, 1946 (as modified by Executive Orders Nos. 9762 and 9809) is revoked.

205. Any authority vested in the Temporary Controls Administrator in pursuance of section 120 of the National Defense Act of 1916 (with respect to placing compulsory orders for products or materials) is withdrawn and terminated.

PART III

301. The provisions of this Part shall become effective June 1, 1947.

302. All functions vested in the Temporary Controls Administrator by Executive Order No. 9809 not otherwise disposed of by statute or by this or any other Executive order are transferred to the Secretary of Commerce and shall be performed by him or, subject to his direction and control, by such officers or agencies of the Department of Commerce as the Secretary may designate. Such functions shall include, but not be limited to, the following:

(a) Functions of the President under the Stabilization Act of 1942, as amended, vested in the Temporary Controls Administrator immediately prior to the taking of effect of this Part.

(b) Functions with respect to premium payments under section 2 (e) (a) (2) of the Emergency Price Control Act of 1942, as amended, insofar as such payments relate to copper, lead, and zinc ores.

(c) Functions with respect to the establishment of maximum prices for industrial alcohol sold to the Government or its agencies.

(d) The liquidation of the functions of the Office of Temporary Controls and of the agencies thereof, except liquidation relating to functions specifically transferred to other agencies (by the provisions of this order or otherwise).

303. The Office of Temporary Controls is terminated.

PART IV

401. The provisions of this Part shall become effective, respectively, on the dates on which functions are transferred or otherwise vested by the provisions of this order.

402. Functions under the Emergency Price Control Act of 1942, as amended, transferred under the provisions of this order shall be deemed to include authority on the part of each officer to whom such functions are transferred hereunder to institute, maintain, or defend in his own name civil proceedings in any court (including the Emergency Court of Appeals), relating to the matters transferred to him, including any such proceedings pending on the effective date of the transfer of any such function under this order. The provisions of this paragraph shall be subject to the provisions of the Executive order entitled "Conduct of Certain Litigation Arising under Wartime Legislation," issued on the date of this order and effective June 1, 1947.[1]

403. (a) The records, property, and personnel relating primarily to the respective functions transferred under the provisions of this order shall be transferred, and the funds relating primarily to such respective functions shall be transferred or otherwise made available, to the agencies to which such functions are transferred. Such measures and dispositions as may be determined by the Director of the Bureau of the Budget to be necessary to effectuate the purposes and provisions of this paragraph shall be carried out in such manner as the Director may determine and by such agencies as he may designate.

(b) In order that the confidential status of any records affected by this order shall be fully protected and maintained, the use of any confidential records transferred hereunder shall be so restricted by the respective agencies as to prevent the disclosure of information concerning individual persons or firms to persons who are not engaged in functions or activities to which such records are directly related, except as provided for by law or as required in the final disposition thereof pursuant to law.

404. All provisions of prior Executive orders in conflict with this order are amended accordingly. All other prior and currently effective orders, rules, regulations, directives, and other similar instruments relating to any function transferred by the provisions of this order or issued by any agency terminated hereunder or by any predecessor or constituent agency thereof, shall remain in effect except as they are inconsistent herewith or are hereafter amended or revoked under proper authority.

405. As used in this order, "functions" includes powers, duties, authorities, discretions, and responsibilities.

EXECUTIVE ORDER 9842

CONDUCT OF CERTAIN LITIGATION ARISING UNDER WARTIME LEGISLATION

By virtue of the authority vested in me by the Constitution and statutes, including Title I of the First War Powers Act, 1941, and as President of the United States, and having regard to the established responsibilities and powers of the Department of Justice and of the Attorney General under the statutes of the United States, it is hereby ordered, in the interest of the internal management of the Government, as follows:

1. The Attorney General is authorized and directed, in the name of the United States or otherwise as permitted by law, to coordinate, conduct, initiate, maintain or defend:

(a) Litigation before the Emergency Court of Appeals for and on behalf of the Secretary of Agriculture, the Secretary of Commerce, and the Reconstruction Finance Corporation, respectively;

(b) Litigation against violators of regulations, schedules or orders relating to maximum prices pertaining to any commodity which has been removed from price control;

(c) Litigation arising out of Directive 41, as amended, of the Office of Economic Stabilization pertaining to the withholding of subsidies because of noncompliance with or violations of control orders.

2. Nothing herein shall be deemed to restrict or limit the powers conferred upon the Attorney General by law with respect to the conduct, settlement, disposition or review of litigation.

3. The functions and duties of the Attorney General under this order shall be performed by him or, subject to his direction and control, by such officers or agencies of the Department of Justice as he may designate, and there shall be made available to the Attorney General, pursuant to the provisions of Executive Order No. 9784 of September 25, 1946, any files or records pertinent to the subject matter hereof.

4. This order shall become effective June 1, 1947.

PART 12—REMOVALS AND REDUCTIONS

RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

In the FEDERAL REGISTER of February 25, 1947, Chapter I was revised and certain parts, including part 12, §§ 12.301 to 12.314, inclusive, were redesignated effective May 1, 1947 (12 F. R. 1270). This amendment to § 12.306, which is effective on publication in the FEDERAL REGISTER, is to be carried over on May 1, the effective date of the redesignation.

Section 12.306 (redesignated as § 20.6 effective May 1, 1947) is amended to read as follows:

§ 12.306 *Special regulations relating to consolidations and mergers.* (a) Before any reduction in force is made in connection with the transfer of any or all of the functions of one department to another continuing department, all veteran preference employees and all retention group A employees assigned to any such function shall be transferred to such continuing department, without change in tenure of employment.

(b) Where, in the course of liquidation of an agency, functions are transferred only for liquidation, and functional operations have terminated or will terminate by law or authoritative order within sixty calendar days, employees engaged on such functions may be given temporary appointments, initially without change in grade or compensation, in the department or agency responsible for such liquidation.

All changes to temporary appointments under these regulations are subject to review by the Civil Service Commission on appeal by affected employees, and shall be corrected to transfers without change in tenure of employment in all cases where the Commission finds such action to be proper. Employees given temporary appointments under these regulations shall be notified that they may appeal such action within thirty days to the Civil Service Commission.

(c) Any employee assigned to a transferred function, who has been given a temporary appointment because functional operations were to be terminated by law or authoritative order within sixty calendar days, shall be restored to his tenure of employment prior to the transfer of the function, whenever such function is continued in operation for a longer period by law or authoritative order.

NOTE: Because of the necessity of making the procedures provided for in the above amendment available for use in current reductions in force, the Commission finds that good cause exists for making the amendment effective upon publication in the FEDERAL REGISTER.

Chapter VIII—Production and Marketing Administration (Sugar Branch)

[SECO 1]

PART 803—SUGAR EXPORTS

RESTRICTION ON EXPORTS OF SUGAR

Pursuant to the authority vested in the Secretary of Agriculture by law, including the Sugar Control Extension Act of 1947, it is hereby ordered as follows:

§ 803.1 *Sugar exports*—(a) *Definitions.* For purposes of this section: (1) "Order administrator" means the employee of the Department of Agriculture authorized by the Administrator of the Production and Marketing Administration to administer Sugar Export Control Order 1.

(2) "Export" means to transport or cause to be transported any commodity covered by this section in any manner from the United States or any of its territories and possessions to any foreign country or foreign territory. The term includes but is not limited to transporting from a free port, free zone, or bonded custody of the U. S. Bureau of Customs (bonded warehouse), and trans-shipment through the United States or any of its territories or possessions, to any foreign country or foreign territory.

(3) "Person" means an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(4) "Sugar" means any grade or type of saccharine product derived from sugarcane, sugar beets or corn, whether principally of crystalline or non-crystalline structure, which contains sucrose, dextrose, or levulose and which contains less soluble non-sugar solids (exclusive of any foreign substance that may have been added or developed in the product) than 6 percent by weight of the total soluble solids.

(5) "Sirup and molasses, including blackstrap" means any grade or type of saccharine product (other than sugar or sugar-containing products) derived from sugarcane, sugar beets, or corn, either edible or inedible, which is principally of non-crystalline structure, which contains sucrose, dextrose, or levulose, and which contains soluble non-sugar solids (exclusive of any foreign substance that may have been added or developed in the product) equal to 6 percent or more by weight of the total soluble solids.

(6) "Sugar-containing product" means any product (other than sugar or sirup and molasses, including blackstrap) which contains any amount of sucrose, dextrose, or levulose, derived from sugarcane, sugar beets, or corn.

(b) *General restriction.* No person shall export the commodities listed below without authorization from the Order Administrator:

(1) Sugar.

(2) Sirup and molasses, including blackstrap.

(3) Sugar-containing products the sugar contents of which is 70 percent or more by weight: *Provided*, That the provisions of this paragraph shall not apply to the exportation of such sugar-containing products from the continental United States.

(c) *Application for authorization.* (1) The exporter, or his duly authorized agent, desiring an export authorization required under paragraph (b) of this section shall make application therefor on Form SU-210, "Application for Export Authorization for Sugar, Sirup and Molasses, Including Blackstrap, and Certain Sugar-Containing Products," (or such other form as may be issued for this purpose) and proceed as follows:

(i) The application shall be completed in triplicate. All data requested on the form shall be furnished, including Department of Commerce Schedule B numbers. Where the exporter intends to make shipments from more than one part at the same time, separate applications shall be filed covering shipment from each port.

(ii) The copy marked "Duplicate" must bear the signature of the applicant.

(iii) The "Original" and "Duplicate" of the application shall be forwarded to the Sugar Branch, Production and Marketing Administration, Department of Agriculture, Washington 25, D. C. The "Triplicate" shall be retained by the applicant.

(iv) The "Original" of the application, when properly validated, constitutes the authorization. Such authorization will be returned to the applicant and must be presented to the Collector of Customs at the port of exit, or in the case of shipment by mail, to the Postmaster at the point of mailing. In the case of shipment by water or air the authorization must be presented prior to loading. In the case of shipments by means other than water, air or mail, the authorization must be presented to the Collector of Customs at the port of exit prior to the inspection by the customs official. Additional copies of Form SU-210, or such other form as may be issued, may be obtained from the Sugar Branch, Production and Marketing Administration, Department of Agriculture, Washington 25, D. C., or from the Sugar, Fibers, Fats and Oils Office, Production and Marketing Administration, 150 Broadday, New York 7, New York.

(2) Any person desiring an export authorization required for any sugar-containing product containing less than 70 percent of sugar by weight shall make application, where required, on such form and under such procedures as may be prescribed by the Office of International Trade of the Department of Commerce.

(d) *Exceptions.* Unless otherwise directed by the Order Administrator, the restrictions set forth in this section shall not apply to:

(1) Commodities owned at the time of exportation by the United States Government or any agency thereof.

(2) Food consigned as a gift to the consignee or exported for personal use by the consignor where the value of each consignment or shipment is less than $10.00: *Provided*, That (i) each gift parcel is restricted to 11 pounds in weight, (ii) not more than two gift parcels per month is sent by the same sender to the same address, and (iii) each gift parcel sent by mail conforms to restrictions established by the Post Office Department.

(e) *Submission of authorizations to collectors of customs.* No commodity subject to the provisions of paragraph (b) of this section shall be exported until an original validated export authorization therefor has been presented to the Collector of Customs or Postmaster as provided by paragraph (c) (1) (iv) of this section.

(f) *Records and reports.* (1) Any person granted an export authorization under the provisions of this section shall for at least two years or such period of time as the Order Administrator may designate, keep complete and accurate books, records and accounts of the product exported under such authorization. The Order Administrator shall have the right at any time or times during business hours to examine such books and records and other books and records relating to the export.

(2) Any person granted an export authorization under the provisions of this section shall execute and file with the Sugar Branch, Production and Marketing Administration, Department of Agriculture, such reports and questionnaires as shall be prescribed by the Order Administrator, subject to approval by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Existing contracts.* The restrictions of this section shall be observed without regard to existing contracts or any rights accrued or payments made thereunder.

(h) *Violations.* Any person who willfully violates any provisions of this section or who, in connection with this section, willfully conceals a material fact or furnishes false information to any Department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. Civil action may also be instituted to enforce any liability or duty

created by, or to enjoin any violation of, any provision of this section. The person to whom the authorization is issued will be held strictly accountable for the proper use thereof.

(i) *Hardship case.* Any person affected by this section who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Administrator of Production and Marketing Administration, obtain a review by the Administrator of Production and Marketing Administration, of such action. After said review, the Administrator of Production and Marketing Administration may take such action as he deems appropriate, which action shall be final.

(j) *Communications.* Appeals and other communications concerning this section shall be directed to the Sugar Branch, Production and Marketing Administration, Department of Agriculture, Washington 25, D. C.

(k) *Delegation of authority.* (1) Authority is hereby delegated to the Office of International Trade, Department of Commerce, to exercise and perform all such powers and functions under section 6 of the act of July 2, 1940 (54 Stat. 714), as amended and extended, as are now vested in the Secretary of Agriculture, with respect to sugar-containing products containing less than 70 percent of sugar by weight, insofar as such products may be included in the definition of sugar contained in the Sugar Control Extension Act of 1947.

(2) The administration of this section and the powers vested in the Secretary of Agriculture insofar as such powers relate to the administration of this section are hereby delegated to the Administrator of Production and Marketing Administration. The Administrator of Production and Marketing Administration is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this section.

(l) *Effective date.* This section shall become effective immediately upon the issuance thereof and shall supersede the Export Control Regulations of the Office of International Trade, Department of Commerce, insofar as it relates to sugar, sirup and molasses, including blackstrap, and sugar-containing products containing 70 percent or more of sugar by weight, all as defined herein: *Provided*, That export licenses issued by the Office of International Trade, Department of Commerce, prior to April 1, 1947, shall be valid until the expiration date thereof. With respect to violations, rights accrued, liabilities incurred, or appeals taken prior to the effective date hereof, under the Export Control Regulations issued by the Office of International Trade, Department of Commerce, all provisions of said regulations shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal. (Sec. 6, 54 Stat. 714, as amended by 56 Stat. 463, 58 Stat. 671, 59 Stat. 270, 60 Stat. 215, Pub. Law 30, 80th Cong., 50 U. S. C. App. Supp. 701)

NOTE: The record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 21st day of April 1947.

[Suspension Order S-12]

PART 807—SUSPENSION ORDERS

RALPH T. CHILTON & STONEWALL J. WEBSTER

About April 23, 1946, Ralph T. Chilton and Stonewall J. Webster, partners, without authorization by the Civilian Production Administration began the construction of a tobacco pack house on Murphy Street, Madison, North Carolina, at an estimated cost of $2,700. On May 4, 1946, the partners were authorized by the Civilian Production Administration to erect a tobacco pack house of four Butler Ready-Made buildings at that location but thereafter continued construction of such tobacco pack house out of concrete block, brick, lumber and other materials not covered by the authorization and exceeded dimensions of the structure authorized. This was a wilful violation of Veterans' Housing Program Order 1 and has diverted critical material to uses not authorized by the Civilian Production Administration or the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.12 *Suspension Order No. S-12.* (a) Neither Ralph T. Chilton nor Stonewall J. Webster, their successors and assigns, nor any other person, shall do any further construction on the said pack house property located on Murphy Street, Madison, North Carolina, including putting up, completing or altering any structure located thereon, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) Ralph T. Chilton and Stonewall J. Webster shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Radph T. Chilton and Stonewall J. Webster, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 23d day of April 1947.

PART 807—SUSPENSION ORDERS

KURTZ-HODGE IMPLEMENT CO., INC.

Kurtz-Hodge Implement Co., Inc., a New York Corporation of 10 Park Place, Avon, New York, is the owner of property located at that address. It violated Veterans' Housing Program Order 1 in that (1) on or about May 15, 1946 it began construction, repairs, additions and alterations, without authorization, and at a cost in excess $1,000, of a partly residential and partly commercial building located at 10 Park Place, Avon, New York; (2) on and after May 15, 1946 it carried on construction, repairs, additions and alterations, without authorization and at a cost in excess of $1,000, of a partly residential and partly commercial building located at 10 Park Place, Avon, New York. In view of the foregoing, it is hereby ordered that:

§ 807.13 *Suspension Order No. S-13.* (a) The temporary suspension order issued by telegram dated November 18, 1946, is hereby revoked.

(b) Neither Kurtz-Hodge Implement Co., Inc., its successors and assigns, nor any other person shall do any further construction on the premises located at 10 Park Place, Avon, New York, including the putting up, completing or altering of any of the structures located on said premises, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(c) Kurtz-Hodge Implement Co., Inc. shall refer to this order in any application or appeal which it may file with the Office of the Housing Expediter for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve Kurtz-Hodge Implement Co., Inc., its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

PART 807—SUSPENSION ORDERS

JOHN H. WOOD

John H. Wood, of 857 Hawthorne Road, Grosse Pointe Woods, Michigan, on or about December 1, 1946, without authorization of the Civilian Production Administration or the Office of the Housing Expediter, began and thereafter carried on construction of a structure, dimensions 50' x 78', for use as a gasoline and service station, the estimated cost of which was in excess of $1,000. These violations have diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.18 *Suspension Order No. S-18.* (a) Neither John H. Wood, his successors or assigns, nor any other person, shall, except to the extent authorized by the Civilian Production Administration—Application CPA 4423, Case No. 3-5-3705—do any further construction on the structure located at Mack Avenue and Cook Road, Grosse Pointe Woods, Michigan, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) John H. Wood shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for authority to construct or for priorities assistance.

(c) Nothing contained in this order shall be deemed to relieve John H. Wood, his successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

PART 807—SUSPENSION ORDERS

DETROIT CONSTRUCTION CO.

Detroit Construction Company, 13836 Linwood Avenue, Detroit, Michigan, is a copartnership consisting of Micheal Chernick and Belle V. Chernick, his wife. The company is charged by the Office of the Housing Expediter with violating Veterans' Housing Program Order 1 in that without authorization of the Civilian Production Administration or the Office of the Housing Expediter the company began, on or about October 23, 1946 and thereafter carried on construction of a non-residential structure containing approximately 4,000 square feet, at 3954 Dix Highway, Lincoln Park, Michigan, the estimated cost of which was in excess of $1,000. This violation has diverted scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.21 *Suspension Order No. S-21.* (a) Neither the Detroit Construction Company, its successors and assigns, nor any other person shall do any further construction on the premises located at 3954 Dix Highway, Lincoln Park, Michigan, including putting up, completing or altering the structure, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) Detroit Construction Company shall refer to this order in any application or appeal which it may file with the Office of the Housing Expediter for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Detroit Construction Company, its successors and assigns, from any restriction prohibition, or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

TITLE 30—MINERAL RESOURCES

Chapter I—Bureau of Mines, Department of the Interior

Subchapter D—Electrical Equipment, Lamps, Methane Detectors: Tests for Permissibility; Fees

PART 25—MULTIPLE-SHOT BLASTING UNITS

The rules and regulations in this part relate to the requirements for construction of multiple-shot blasting units under which satisfactory 10-shot units may be approved for use in gassy mines, and include forms for application for approval, conditions under which tests are made, and the fees charged. Applications for approval are voluntary with manufacturers of multiple-shot blasting units. Such manufacturers are few in number and have been consulted in the revision of the rules, and good cause exists for making them effective immediately. For these reasons the notice and public procedure prescribed by section 4 of the Administrative Procedure Act (Public Law 404, 79th Cong.), are unnecessary and the regulations shall become effective as of the date of their approval by the Secretary of the Interior.

Section 25.11 is revoked, and §§ 25.0 to 25.10, inclusive, are amended as follows:

Sec.
25.0 Compliance with the requirements for obtaining approval.
25.1 Purpose.
25.2 Fees charged.
25.3 Instructions on making applications.
25.4 Conditions governing investigations.
25.5 General requirements.
25.6 Specific requirements.
25.7 Material required for Bureau of Mines records.
25.8 How approvals are granted.
25.9 Wording, purpose, and use of approval plate.
25.10 Instructions on handling future changes in design.

AUTHORITY: §§ 25.0 to 25.10, inclusive, issued under sec. 311, 47 Stat. 410; 30 U. S. C. 7; E. O. 6611, Feb. 22, 1934.

§ 25.0 *Compliance with the requirements necessary for obtaining approval.* To receive approval of the Bureau of Mines for any multiple-shot blasting units a manufacturer must comply with the requirements specified in this part.

§ 25.1 *Purpose.* The purpose of investigations under this part is to promote the development of suitable multiple-shot blasting units for use under special conditions where the firing of several shots, one at a time, may be considered less safe than firing all simultaneously. The sanction of the use of multiple-shot firing units, with capacities up to ten shots, does not rescind the general recommendation of this Bureau in favor of single-shot firing except under special conditions, and in no way modifies the safety principles prescribed by the Bureau for handling permissible explosives as published in Part 16 of this chapter. Lists of such units will be published from time to time for the information of State mine inspection departments, compensation bureaus, mine operators, miners, and others interested in safe equipment for mines. This part shall become effective when approved by the Secretary of the Interior.

Any blasting unit that meets the requirements set forth in this part will be termed "permissible" by the Bureau of Mines.

§ 25.2 *Fees charged.* (a) The fee for a complete investigation of a multiple-shot blasting unit under this part is $100.[1]

(b) The fee for tests covering only a part of a complete investigation shall be proportional to the work involved.

Application for retests that may be equivalent to more than one-half of a complete investigation should be accompanied by a check for the full fee. Application for tests covering changes in design, which may require less than one-half of a complete investigation, should be accompanied by a check for one-half of the full fee. Any surplus will be refunded at the close of the investigation.

(c) Under the present provisions of this part, extensions of approvals that do not require tests will be made without charge.

(d) Tests to assist a manufacturer in the development of his device may be made upon request to the Director of the Bureau and will be charged for in amounts proportionate to the work involved.

§ 25.3 *Instructions on making applications.* A form of request for an investigation of a blasting unit follows:

The Director of the Bureau of Mines,
Department of the Interior,
Washington 25, D. C.

Dear Sir:

We hereby make application for approval of the (*type or model*) Multiple-Shot Blasting Unit under the provisions of Schedule 16B. Attached is a certified check for one hundred dollars ($100) made payable to the Treasurer of the United States to cover the fee for the tests.

A copy of this application, one set of drawings, one complete unit, and a full set of instructions for operating are being sent to the Central Experiment Station, 4800 Forbes Street, Pittsburgh, Pa., marked for the attention of the "Supervising Engineer, Electrical-Mechanical Section."

Signature of Applicant

§ 25.4 *Conditions governing investigations.* (a) One complete unit, with assembly and detail drawings that show its construction and the materials of which it is made, should be forwarded to the Central Experiment Station at the time the application for approval is made.

(b) When the unit and drawings have been inspected by the Bureau's engineers, the applicant will be notified as to the amount of material that will be required for the tests.

(c) The applicant will be notified of the date on which tests will be started and will be given an opportunity to witness the tests.

(d) No one is to be present at the time the tests are made except the necessary Bureau of Mines engineers, their assistants, a representative of the applicant, and such other persons as may be mutually agreed upon by the applicant and the Bureau.

(e) Permissibility tests will not be made unless the unit has been completely developed and is in a form that can be marketed.

(f) The results of the tests shall be regarded as confidential by all present at the tests and shall not be made public in any way prior to the formal approval of the shot-firing unit by the Bureau of Mines.

(g) No verbal report of approval or disapproval will be made to the applicant. After the Bureau's engineers have considered the results of the tests, a formal report of the approval or disapproval will be made to the applicant in writing by the Director of the Bureau of Mines. The applicant shall not be free to advertise the unit as being permissible or as having passed the tests prior to receipt of formal notice of approval.

§ 25.5 *General requirements.* Multiple-shot blasting units approved under this part shall be portable. They shall be durable in construction, practical in operation, and suitable for service conditions underground, particularly regarding resistance to moisture. They shall offer no probable explosion hazard when used in gaseous mine atmospheres. Under laboratory test conditions, they shall satisfy the various requirements of minimum performance that are specified in this part.

§ 25.6 *Specific requirements*—(a) *All types.* In determination of adequacy of design, the following points will be considered: (1) Materials used; (2) construction; (3) size, weight, and shape; (4) life of the active parts, and (5) maintenance. The suitability of the materials and the construction shall be determined by preliminary inspection, dropping tests, insulation measurements, and by the general performance of the unit during the investigation.

(b) *Units of the battery type.* (1) The units shall fire 10 electric blasting caps in series through a total resistance of 30 ohms.

A unit whose source of energy is the battery of a permissible cap lamp shall meet this requirement after the cap lamp has burned six hours.

(2) Unless a unit is inherently safe, that is, cannot produce electric arcs or sparks that will ignite an explosive mixture of natural gas and air, it shall be so designed that the terminal voltage of the unit is less than 12 volts, maximum or crest value, within 30 milliseconds after firing contact is made.

(3) A unit designed to be inherently safe shall be enclosed in a waterproofed housing and shall not have directly exposed terminals. The terminals may be recessed, provided the depth, shape, and position of the recesses are such as to guard against accidental contact and to insure ready disconnection of the leading wires as soon as the shot has been made. In this respect, it is recommended that the recesses be at least ½ inch deep, with a small bell-mouth opening, and be placed at a side or end of the unit.

(4) A unit designed to limit the duration of voltage on the firing circuit shall be enclosed in a housing that is sealed or locked to prevent unauthorized tampering with the device. Firing shall be by a detachable key or by a system of two or more push buttons requiring a definite sequence of operation that gives adequate protection against accidental firing; release of the key or buttons shall automatically return the firing contactors to their original positions.

Units in which firing is by discharge of a condenser shall have provision for insuring its discharge automatically after each shot or attempt to fire.

(c) *Units of the generator type.* (1) The units shall fire 10 electric blasting caps in series through a total resistance of 50 ohms.

(2) Generator units shall be so designed that electrical connection to the firing circuit is not made until near the end of the operation stroke and the terminal voltage of the unit within 30 milliseconds thereafter shall be less than 12 volts, maximum or crest value.

(3) The unit shall be operated by means of a special key or handle which, when released by the hand, will be returned automatically to its original starting position.

(4) Provision shall be made for sealing or locking the housing of the unit to prevent unauthorized changes in timing.

§ 25.7 *Material required for Bureau of Mines records.* In order that the Bureau may know exactly what it has tested and approved, it keeps detailed records covering each investigation. These records include drawings and actual equipment as follows:

(a) *Drawings.* The original drawings submitted with the application for the tests and the final drawings which the manufacturer must submit to the Bureau before the approval is granted, to show the details of the unit as approved. These drawings are used to identify the unit in the approval and as a means of checking the future commercial product of the manufacturer.

(b) *Actual equipment.* If the Bureau so desires, parts of the units that are used in the tests will be retained as records of the equipment submitted. If the unit is approved, the Bureau will require the manufacturer to submit a production model with the approval plate attached, as a record of his commercial product.

§ 25.8 *How approvals are granted.* All approvals are granted through the office of the Director of the Bureau of Mines at Washington, D. C. A blasting unit will be approved under this part only when the testing engineers have judged that it has met the requirements of the part and the Bureau's records are complete, including drawings from the manufacturer showing the unit as it is to be commercially made. No verbal reports of the investigation will be given and no informal approvals will be granted. The manufacturer shall not advertise the unit as permissible or approved until the formal notification of approval from Washington has been received.

§ 25.9 *Wording, purpose, and use of approval plate*—(a) *Approval plate.* Manufacturers shall attach, stamp, or mold an approval plate on each permissible blasting unit. The plate shall bear the seal of the Bureau of Mines and be inscribed as follows:

Permissible Ten-Shot Blasting Unit
Approval No. ------ Issued to the ----------
Company

When deemed necessary, appropriate caution statements shall be added. The size and position of the approval plate shall be satisfactory to the Bureau.

A photograph of the approval plate design will be supplied with the approval letter. This letter will assign an approval number for reference and for identification of the unit approved.

(b) *Purpose of approval plate.* The approval plate is a label that identifies the device so that anyone can tell at a glance whether it is of the permissible type or not. By the plate, the manufacturer can point out that the blasting unit complies with the Bureau's requirements and that it has been approved for use in gassy mines.

(c) *Use of approval plate.* Permission to place the Bureau's approval plate on the blasting unit obligates the manufacturer to maintain the quality of the product and to see that it is constructed according to the drawings accepted by the Bureau and in the Bureau's files. Blasting units exhibiting changes in design that have not been authorized by extension of approval are not permissible and must not bear the Bureau's approval plate.

(d) *Withdrawal of approval.* The Bureau reserves the right to rescind for cause at any time any approval granted under this part.

§ 25.10 *Instructions on handling future changes in design.* All approvals are granted with the understanding that the manufacturer will make the blasting unit according to the drawings included in the approval. Therefore, when the manufacturer desires to make any changes in the design the Bureau's authorization of the change should be obtained beforehand. The procedure is as follows:

(a) The manufacturer should write to the Director of the Bureau of Mines at Washington, D. C., requesting an extension of the original approval and describing the change or changes desired. A copy of the letter, a revised drawing showing the change in detail, and one of each of the parts affected should be sent to the Central Experiment Station, 4800 Forbes Street, Pittsburgh, Pa., marked for the attention of the Supervising Engineer, Electrical-Mechanical Section.

(b) The Bureau will consider the application and inspect the drawings and parts to determine whether it will be necessary to make any tests.

(c) If no tests are necessary, the applicant will be advised whether the change or changes are considered to meet the requirements. Changes judged to meet the requirements will be authorized by extension of approval issued through the Director's office.

(d) If tests are judged necessary, the applicant will be advised of the material that will be required and of the necessary deposit to cover the fee for the tests. Upon satisfactory completion of the tests, extension of approval authorizing the changes will be issued through the Director's office.

R. R. SAYERS,
Director.

Approved: April 16, 1947.

J. A. KRUG,
Secretary of the Interior.

TITLE 31—MONEY AND FINANCE: TREASURY

Subtitle A—Office of the Secretary of the Treasury

PART 11—CUSTOMHOUSE BROKERS

REVOCATION OR SUSPENSION OF LICENSES

1. Section 11.10 is hereby amended to read as follows:

§ 11.10 *Revocation or suspension of licenses*—(a) *Provisions of Tariff Act.* Amended section 641 (b) of the Tariff Act of 1930 provides in part:

The collector or chief officer of the customs may at any time, for good and sufficient reasons, serve notice in writing upon any customhouse broker so licensed to show cause why said license shall not be revoked or suspended, which notice shall be in the form of a statement specifically setting forth the ground of complaint. The collector or chief officer of customs shall within ten days thereafter notify the customhouse broker in writing of a hearing to be held before him within five days upon said charges. At such hearing the customhouse broker may be represented by counsel, and all proceedings including the proof of the charges and the answer thereto, shall be presented, with the right of cross-examination to both parties, and a stenographic record of the same shall be made and a copy thereof shall be delivered to the customhouse broker. At the conclusion of such hearing the collector or chief officer of customs shall forthwith transmit all papers and the stenographic report of the hearing, which shall constitute the record of the case, to the Secretary of the Treasury for his action. Thereupon the said Secretary of the Treasury shall have the right to revoke or suspend the license of any customhouse broker shown to be incompetent, disreputable, or who has refused to comply with the rules and regulations issued under this section, or who has, with intent to defraud, in any manner willfully and knowingly deceived, misled, or threatened any importer, exporter, claimant, or client, or prospective importer, exporter, claimant, or client, by word, circular, letter or by advertisement. (Sec. 4, 49 Stat. 864)

[1] Although the standard fee for a complete investigation is $100, the work involved in the investigation of a battery-type unit may not justify the full fee. In such cases a refund, depending upon the amount of work performed, but not exceeding $50, will be made.

(b) *Rules of procedure.* A proceeding for the revocation or suspension of a customhouse broker's license shall, subject to the Tariff Act of 1930, as amended, and the Administrative Procedure Act, be governed by the following rules:

(1) *Inability of collector to act.* In the case of sickness or necessary absence of the collector which prevents him from acting as provided in this section, the assistant collector shall be deemed the chief officer of the customs referred to in amended section 641 (b) of the Tariff Act of 1930, and shall perform the duties of the collector prescribed in this section. [Rule 1]

(2) *Investigation.* All complaints or charges against customhouse brokers filed with collectors or other customs officers shall forthwith be forwarded for investigation to the supervising customs agent in charge of the district in which the broker is located. The supervising customs agent shall make his report and transmit it, with recommendation, to the collector of the appropriate district, for such action as may be necessary, and shall also transmit a copy thereof to the Commissioner of Customs. [Rule 2]

(3) *Abatement of charges.* If the collector determines that there is not sufficient evidence to prefer charges, he shall report all of the facts to the Commissioner of Customs. [Rule 3]

(4) *Institution of proceedings.* If the collector determines that there is sufficient evidence to prefer charges, he shall, subject to the applicable provisions of this section, institute and conduct a proceeding pursuant to amended section 641 (b) of the Tariff Act of 1930. [Rule 4]

(5) *Drafting of notice.* The collector may call upon the Attorney for the Government to aid him in preparing the statement of charges to be served upon the accused broker. [Rule 5]

(6) *Opportunity to avoid proceeding.* The collector shall, before a proceeding is instituted, give to the accused broker preliminary notice in writing that:

(i) Transmits a copy of the proposed statement of charges, or a specification of the substance thereof;

(ii) Cites sections 5 (b) and 9 (b) of the Administrative Procedure Act;

(iii) Calls upon the accused broker to show cause why the proceeding should not be instituted;

(iv) Informs the accused broker that the notice affords him opportunity to make submissions and demonstrations of the character contemplated by the cited statutory provisions;

(v) Invites any negotiation that the accused broker deems it desirable to enter into; and

(vi) Specifies a reasonable time for response to that notice: *Provided*, That, if prior to service of the statement of charges, the collector determines that the case is one where such preliminary notice would be improper and unnecessary, he shall incorporate his findings and his reasons therefor in the statement of charges, and the statement of charges shall be served without first giving such preliminary notice. [Rule 6]

(7) *Service of statement of charges.* Notice of the charges, signed by the collector, shall be served upon the accused customhouse broker in the following manner:

(i) If an individual:

(*a*) By delivery to the accused broker personally, or

(*b*) By registered mail, with demand for a return card signed solely by the addressee;

(ii) If a corporation, association, or partnership:

(*a*) By delivery to any officer of such corporation or association, or member of such partnership, or

(*b*) By registered mail addressed to any such officer or member, with demand for a return card signed solely by the addressee: *Provided*, That, if a customhouse broker shall have signed and filed with the Committee his written consent to be served in some other manner, it shall be sufficient if service is made in that manner. Where the service is by registered mail, the receipt of the return card duly signed shall be satisfactory evidence of service. [Rule 7]

(8) *Content of statement of charges.* The notice of charges shall state the place where and time within which the accused may file in duplicate his verified answer, and shall contain or be accompanied by a statement of charges, which statement shall be signed by the collector, giving a plain and concise, but not necessarily detailed, description of the facts which it is claimed constitute grounds for suspension or revocation of license. A statement of charges which fairly informs the accused of the charges against him so that he is able to prepare his defense shall be deemed sufficient. Different means by which a purpose might have been accomplished or different intents with which acts might have been done so as to constitute ground for suspension or revocation of license, may be alleged in the statement of charges in a single count in the alternative. If, in order to prepare his defense, the accused desires additional information as to the time and place of the alleged misconduct, or the means by which it was committed, or any other more specific information concerning the alleged misconduct, he may present a motion in writing to the collector asking that the statement of charges be made more specific, setting forth in such motion in what specific respect the statement of charges leaves him in doubt and describing the particular language of the statement of charges as to which additional information is needed. If in the opinion of the collector such information is reasonably necessary to enable the accused to prepare his defense, the collector shall furnish the accused with an amended statement of charges giving the needed information. [Rule 8]

(9) *Service of other papers.* After notice of the charges has been duly served, all other papers in the case, including notice of the time and place of the hearing, shall be served as follows:

(i) By delivering the same to the accused personally if an individual; or if a corporation, association, or partnership, to any officer or member thereof; or

(ii) By leaving them at the office of the accused, or of such officer or member, with his clerk or with a person in charge thereof; or

(iii) By depositing them in a United States post office or post-office box, enclosed in a sealed envelope, plainly addressed to such accused, or to such member or officer, at the address under which the accused is licensed or at the last known address of the accused, or such member or officer.

(iv) When the accused, whether an individual, corporation, association, or partnership, is represented by attorney, by service upon the attorney in the same manner as provided for in subdivision (i), (ii) or (iii) of this subparagraph for service on the accused personally. [Rule 9]

(10) *Copies filed with Committee.* Copies of all papers in the case, including the notice of charges, and notice of the time and place of all hearings, shall be sent promptly by the collector to the Committee on Practice. [Rule 10]

(11) *Hearing.* The hearing shall be before the collector. The collector shall designate an officer of his staff to represent the Government at the hearing and shall provide a stenographer to make the stenographic record. The Attorney for the Government, or another attorney designated by the Secretary of the Treasury, shall be present and participate in the presentation of testimony. The accused or his attorney shall have the right to examine all exhibits introduced at the hearing. Pursuant to order of the collector giving due notice to the parties, depositions upon oral or written interrogatories may be taken by either party for use at the hearing before any officer duly authorized to administer oaths for general purposes or in customs matters. [Rule 11]

(12) *Submittals.* After conclusion of the reception of the evidence, the collector shall by rule afford the parties a reasonable opportunity to submit proposed findings and conclusions and supporting reasons therefor as contemplated by section 8 (b) of the Administrative Procedure Act. [Rule 12]

(13) *Decision by the collector.* After compliance with subparagraph (12) of this paragraph the collector shall make his recommended decision in the case and certify the entire record to the Secretary of the Treasury. The collector shall recommend to the Secretary the dismissal of the charges when in his opinion the charges have not been proved. The collector shall recommend to the Secretary that the license be suspended or revoked if in the opinion of the collector such action is warranted by the record. The collector's decision shall conform with the requirements of section 8 of the Administrative Procedure Act. [Rule 13]

(14) *Decision by Secretary of the Treasury.* Upon receipt of the record the Secretary of the Treasury will afford the parties a reasonable opportunity to make such additional submittals as may then be required by section 8 (b) of the Administrative Procedure Act and by the circumstances of the case. Thereafter the Secretary of the Treasury will make his decision. [Rule 14]

(15) *Dismissal subject to new proceedings.* If the evidence at the hearing indicates that a proper disposition of the case cannot be made on the basis of the charges preferred, the Secretary is authorized to instruct the collector to file appropriate charges as a basis for new proceedings. [Rule 15]

(16) *Immaterial mistakes.* The deciding officer shall disregard an immaterial misnomer of a third person, an immaterial mistake in the description of any person, thing, or place or the ownership of any property, a failure to prove immaterial allegations in the description of the accused's conduct, or any other immaterial mistake in the statement of charges. [Rule 16]

(17) *Proof; partial.* If the deciding officer finds that a part of the charges in the statement of charges is not sufficiently proved but that the residue thereof is so proved, he may base his decision on any facts established by the evidence which are grounds for suspension or revocation of the license and which are substantially charged by the said residue of the statement of charges. [Rule 17]

(18) *Default.* No decision by default shall be made against an accused broker except upon evidence submitted on behalf of the Government. [Rule 18]

(19) *Notice of suspension or revocation.* If the Secretary of the Treasury in the exercise of his discretion issues his order of suspension or revocation of the license of the accused, notice thereof shall be given by the Committee to the heads of all interested bureaus, offices, and divisions of the Treasury Department and to other interested departments and agencies of the Government in such manner as the Committee may determine. Except as provided in § 11.13, such person will not thereafter be recognized as a customhouse broker during the period of suspension or revocation of his license. [Rule 19]

(20) *Reopening.* Any customhouse broker who has been suspended or whose license has been revoked may make written application to the collector to have the order of suspension or revocation set aside or modified upon the ground (i) of newly discovered evidence, or (ii) that important evidence is now available which the applicant was unable to produce at the original hearing by the exercise of due diligence. Every such application shall be filed with the collector in duplicate. Such application must set forth specifically the precise character of the evidence to be relied upon in its support and shall state the reasons why the applicant was unable to produce it when the original charges were heard. If the collector after due consideration of the application shall deem it sufficiently meritorious to warrant a hearing, he shall so recommend to the Secretary, who may order the taking of additional testimony before the collector. The collector shall set a time and place for such hearing, and give due notice thereof to the applicant. The procedures governing the hearing and decision will be the same as those governing the original proceeding. [Rule 20]

(21) *Notice of reinstatement.* In the event that the Secretary shall issue an order vacating or modifying the prior order of suspension or revocation, notice thereof shall be given to all those to whom notice of the original order of suspension or revocation was sent. [Rule 21]

(22) *Saving provision.* The provisions of this section that were in force and effect April 30, 1947 are referred to in this subparagraph as the old rules. The provisions of this section as amended effective May 1, 1947 are referred to in this subparagraph as the new rules. The old rules shall continue to govern any proceeding that was instituted prior to April 30, 1947: *Provided, however*, That if in the course of the proceeding there is taken any action that is authorized by the old rules but that is not authorized by the new rules, said action shall not constitute grounds for disturbing any order thereafter made in the proceeding: (i) unless it is shown that the action was in derogation of substantive rights, and not merely procedural rights; and (ii) unless upon occurrence of the action the respondent made timely objection supported by his reasons, and the objection was overruled: *Provided further*, That adherence may be had to the new rules pursuant to stipulation of the parties. [Rule 22]

2. These amendments shall take effect on May 1, 1947.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Ch. IX]

[Docket No. AO-182]

HANDLING OF MILK IN TOPEKA, KANS., MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure governing the formulation of marketing agreements (7 CFR Supps. 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of a public hearing to be held in the Federal Building at Topeka, Kansas, beginning at 10 a. m., c. s. t., May 12, 1947, with respect to a proposed marketing agreement and order regulating the handling of milk in the Topeka, Kansas, marketing area. The proposed marketing agreement and order has not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic or marketing conditions which relate to the provisions of the proposed marketing agreement and order, or to any modifications thereof, which are hereinafter set forth.

The Shawnee County Milk Producers Association has proposed the following marketing agreement and order:

SECTION 1. *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937) 7 U. S. C. 601 et seq.), as amended.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture of the United States.

(c) "Topeka, Kansas, marketing area" hereinafter called "marketing area" means all the territory in Shawnee County, Kansas.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Producer" means any person, irrespective of whether such person is also a handler, who, under a dairy farm permit or rating issued by the health authorities of the City of Topeka for the production of milk to be used for consumption as milk or cream in the marketing area produces milk which is (1) purchased or received at an approved plant, or (2) caused to be diverted from the farm of such person to an unapproved plant by a cooperative association for the account of such association.

(f) "Handler" means (1) any person who operates an approved plant from which Class I milk or Class II milk is disposed of in the marketing area, or (2) any cooperative association, with respect to the milk of any producer, which such cooperative association causes to be diverted to the plant of a handler or to the plant of a non-handler for the account of such cooperative association.

(g) "Producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers: *Provided*, That (1) the maintenance, care and management of the dairy animals and other resources necessary to produce the milk are the personal enterprise of and at the personal risk of such person in his capacity as a producer, and (2) the processing, packaging and distribution of milk are

the personal enterprise of and at the personal risk of such person in his capacity as a handler. A producer who processes and packages milk of his own production shall not be considered a producer-handler if his entire output is disposed of to other handlers who purchase or receive milk in bulk from producers.

(h) "An approved plant" means any milk plant approved by health authorities of the City of Topeka, Kansas, for the handling of milk to be disposed of for fluid consumption as milk in the marketing area, and currently used for any or all of the function of receiving, weighing (or measuring), sampling, cooling, pasteurizing or other preparation of milk for sale or disposition as milk or cream for fluid consumption in the marketing area.

(i) "Producer milk" means all milk produced by a producer other than a producer-handler, which is purchased or received by a handler either directly from such producers or from other handlers.

(j) "Other source milk" means all milk and milk products other than producer milk.

(k) "Market administrator" means the person designated pursuant to section 2 as the agency for the administration hereof.

(l) "Delivery period" means the current marketing period from the first to, and including, the last day of each month.

(m) "Cooperative association" means any cooperative association of producers which the Secretary determines (1) to have its entire activities under the control of its members and (2) to have and to be exercising full authority in the sale of milk of its members.

SEC. 2. *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall:

(1) Administer the terms and provisions hereof;

(2) Report to the Secretary complaints of violation of the provisions hereof; and

(3) Make rules and regulations to effectuate the terms and provisions hereof.

(c) *Duties.* The market administrator shall:

(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(2) Pay, out of the funds provided by section 10, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(3) Keep such books and records as will clearly reflect the transactions provided for herein and surrender the same to his successor or to such other person as the Secretary may designate;

(4) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not (i) made reports pursuant to section 3 or (ii) made payments pursuant to section 8; and

(5) Promptly verify the information contained in the reports submitted by handlers.

SEC. 3. *Reports of handlers*—(a) *Periodic reports.* On or before the 5th day after the end of each delivery period, each handler who purchased or received milk from sources other than his own production or other handlers shall with respect to milk or dairy products which were purchased, received, or produced by such handler during such delivery period report to the market administrator in the detail and form prescribed by the market administrator, as folows:

(1) The receipts at each plant of milk from each producer, the butterfat content, and the number of days on which milk was received from each producer;

(2) The receipts from such handler's own farm production and the butterfat content;

(3) The receipts of milk, cream, and milk products from handlers who purchase or receive milk from producers and the butterfat content;

(4) The receipts of other source milk;

(5) The respective quantities of milk and milk products and the butterfat content which were sold, distributed, or used, including sales to other handlers for the purpose of classification pursuant to section 4;

(6) The sales of Class I milk and Class II products outside the marketing area, listing the market or area in which such Class I milk and such Class II products were sold or disposed of, the date of such sale or disposition, and the plant from which such milk and milk products were supplied; and

(7) Such other information with respect to the use of milk as the market administrator may request.

(b) *Reports of payments to producers.* On or before the 20th day after the end of each delivery period, upon the request of the market administrator, each handler who purchased or received milk from producers shall submit to the market administrator his producer pay roll for such delivery period which shall show for each producer: (1) The daily and total pounds of milk delivered and the average butterfat content thereof and (2) the net amount of such handler's payments to such producer with the prices, deduction, and charges involved.

(c) *Reports of producer-handlers and handlers whose sole source of supply is from other handlers.* Producer-handlers and handlers whose sole source of supply is from other handlers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(d) *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose disposition of milk the classification depends. Each handler shall keep adequate records of receipts and utilization of milk and milk products and shall, during the usual hours of business, make available to the market administrator or his representatives such records and facilities as will enable the market administrator to:

(1) Verify the receipts and disposition of all milk and milk products, and in case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content the milk purchased or received from producers and any product of milk upon which classification depends; and

(3) Verify the payments to producers prescribed in section 8.

SEC. 4. *Classification of milk*—(a) *Milk to be classified.* All milk and milk products purchased or received by each handler at his approved plant shall be classified by the market administrator in the classes set forth in paragraph (b) of this section.

(b) *Classes of utilization.* Subject to the conditions set forth in paragraph (c) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk and skim milk disposed of as milk, skim milk, buttermilk or flavored milk drinks and all milk not classified as Class II milk or Class III milk pursuant to subparagraphs (2) and (3) of this paragraph.

(2) Class II milk shall be all milk, used to produce cream which is disposed of in the form of cream, other than for use in products specified in subparagraph (3) of this paragraph, creamed cottage cheese, products sold or disposed of in the form of cream testing less than 18 percent of butterfat, aerated cream, and eggnog.

(3) Class III milk shall be all milk used to produce butter, cheese (other than creamed cottage cheese), evaporated milk, condensed milk, ice cream, and powdered whole milk; used for starter churning, wholesale baking and candy making purposes; accounted for as salvage from products where the recovery of fat is impossible; and not accounted for but not in excess of 3 percent of the total receipts of butterfat other than receipts from other handlers.

(c) *Transfers of milk, skim milk, and cream.* (1) Milk or skim milk sold or disposed of in fluid form by a handler to a plant of a nonhandler who distributes fluid milk shall be Class I unless all of the following conditions are met: (i) Such nonhandler's plant is located less than 100 miles from the approved plant where such milk was received from producers; (ii) the market administrator is permitted to audit the records of such nonhandler; (iii) the receipts of producer milk at approved plants are greater than the total sales of Class I and Class II milk from handlers' routes in the marketing area; and (iv) such nonhandler receives milk from dairy farmers who the market administrator determines constitute such nonhandler's regular source of supply.

If all the above conditions are met the market administrator shall classify such milk as follows: (a) Determine the use of all milk and all milk products received at the plant of such nonhandler, and (b) allocate the milk disposed of by the handler to such nonhandler to the highest use remaining after subtracting in series beginning with the highest use classification receipts of milk by such nonhandler direct from dairy farmers.

(2) Cream sold or disposed of in fluid form by a handler to a plant of a nonhandler who distributes fluid cream shall be Class II unless all of the following conditions are met: (i) Such nonhandler's plant is located less than 100 miles from the approved plant where such milk was received from producers; (ii) the market administrator is permitted to audit the records of such nonhandler; (iii) the receipts of producer milk at approved plants are greater than the total sales of Class I and Class II milk from handlers' routes in the marketing area; and (iv) such nonhandler receives milk from dairy farmers who the market administrator determines constitutes such nonhandler's regular source of supply.

If all the above conditions are met the market administrator shall classify such milk as follows: (*a*) Determine the use of all milk and all milk products received at the plant of such nonhandler; and (*b*) allocate the cream disposed of by the handler to such nonhandler to the highest use remaining after subtracting in series beginning with the highest use classification receipts of milk by such nonhandler direct from dairy farmers.

(3) Milk, skim milk or cream sold or disposed of by a handler to a plant of a nonhandler who does not distribute fluid milk or cream shall be Class III milk.

(4) Milk or skim milk sold or disposed of in fluid form by a handler, who purchases or receives milk from producers to another handler who purchases or receives milk from producers, shall be Class I milk: *Provided*, That if the amount of such milk so sold or disposed of is in excess of the amount classified as Class I at such purchasing handler's plant, such excess milk shall be classified in series beginning with the next highest class in which such purchasing handler has use: *Provided*, That if either or both handlers have purchased other source milk, such milk so sold or disposed of, shall be classified at both plants so as to return the highest class utilization to producer milk: *Provided further*, That the provisions of this paragraph shall apply with respect to the milk of producers which is caused to be diverted by a handler directly from the farms of producers to a plant of a second handler for not more than 5 days during the delivery period.

(5) Cream sold or disposed of as fluid cream by a handler who purchases or receives milk from producers to another handler who purchases or receives milk from producers shall be Class II: *Provided*, That if the amount of such cream so sold or disposed of is in excess of the amount classified as Class II in such purchasing handler's plant such excess cream shall be classified in the next highest class in which such purchasing handler has use: *Provided*, That if either or both handlers have purchased other source milk such cream so sold or disposed of shall be classified at both plants so as to return the highest class utilization to producer milk.

(6) Milk or skim milk sold or disposed of in fluid form by a handler who purchases or receives milk from producers to a producer-handler or to a handler who purchases or receives no milk from producers shall be Class I milk.

(7) Cream sold or disposed of as fluid cream by a handler who purchases or receives milk from producers to a producer-handler or to a handler who purchases or receives no milk from producers shall be Class II milk.

(d) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification as required in paragraph (b) of this section of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

(e) *The allocation of other source milk.* Other source milk purchased or received at an approved plant of a handler who purchases or receives milk from producers shall be allocated to Class III except that other source milk may be allocated to Class II to the extent that Class II milk exceeds the amount of all producer milk classified as Class II milk, and other source milk may be allocated to Class I only to the extent that the total amount of Class I milk of the handler exceeds the total amount of producer milk received by such handler.

(f) *Computation of milk in each class.* For each delivery period each handler shall compute, in the manner and on forms prescribed by the market administrator the amount of milk in each class as defined in paragraph (b) of this section, as follows:

(1) Determine the total pounds of milk received as follows: add together the total pounds of milk received from (i) producers, (ii) own farm production, (iii) other handlers, and (iv) other sources.

(2) Determine the total pounds of butterfat received as follows: (i) multiply by its average butterfat test the weight of the milk received from (*a*) producers, (*b*) own farm production, (*c*) other handlers, and (*d*) other sources, and (ii) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (i) Convert to pounds the quantity of Class I milk on the basis of 2.15 pounds per quart, (ii) multiply the result by the average butterfat test of such milk, and (iii) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk, computed pursuant to subdivisions (ii) of subparagraph (4) and (iv) of subparagraph (5) of this paragraph, is less than the total pounds of butterfat received, computed in accordance with subparagraph (2) of this paragraph, an amount equal to the difference shall be divided by 3.8 percent and added to the quantity of milk determined pursuant to subdivision (i) of this subparagraph.

(4) Determine the total pounds of milk in Class II as follows: (i) Multiply the actual weight of each of the several products of Class II milk by its average butterfat test, (ii) add together the resulting amounts, and (iii) divide the result obtained in subdivision (ii) of this subparagraph by 3.8 percent.

(5) Determine the total pounds of milk in Class III as follows: (i) Multiply the actual weight of each of the several products of Class III milk by its average butterfat test, (ii) add together the resulting amounts, (iii) subtract from the total pounds of butterfat computed pursuant to subparagraph (2) of this paragraph, the total pounds of butterfat in Class I milk, computed pursuant to subdivision (ii) of subparagraph (3) of this paragraph, the total pounds of butterfat in Class II milk, computed pursuant to subdivision (ii) of subparagraph (4) of this paragraph and the total pounds of butterfat computed pursuant to subdivision (ii) of this subparagraph which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 3 percent of the total receipts of butterfat except receipts from other handlers), (iv) add together the results obtained in subdivisions (ii) and (iii) of this paragraph and (v) divide the result obtained in subdivision (iv) of this subparagraph by 3.8 percent.

(6) Determine the classification of milk received from producers as follows: (i) Subtract from the total pounds of milk in each class the pounds of producer milk which were received from other handlers and used in such class, (ii) subtract from the remaining pounds of milk in each class the pounds of other source milk allocated to such class pursuant to paragraph (e) of this section.

(g) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* In the event of a difference between the total quantity of milk utilized in the several classes as computed pursuant to subparagraph (6) of paragraph (f) of this section and the quantity of milk received from producers, except for excess milk or milk equivalent of butterfat pursuant to paragraph (c) of section 6 such difference shall be reconciled as follows:

(1) If the total utilization of milk in the various classes for any handler, as computed pursuant to subparagraph (6) of paragraph (f) of this section, is less than the receipts of milk from producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to subparagraph (6) of paragraph (f) of this section, is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk for such handler by subtracting in series beginning with the lowest class use of such handler an amount equal to the difference between receipts of milk from producers and the total utilization of milk by classes for such handler.

SEC. 5. *Minimum prices*—(a) *Class prices.* Subject to the differentials set forth in paragraphs (c) and (d) of this section, each handler shall pay producers, at the time and in the manner set forth in section 11, for milk purchased or received from them not less than the following prices.

(1) *Class I milk.* The price per hundredweight of Class I milk during each delivery period shall be the price determined pursuant to paragraph (b) of this section, plus 75 cents.

(2) *Class II milk.* The price per hundredweight of Class II milk during each delivery period shall be the price determined pursuant to paragraph (b) of this section plus 50 cents.

(3) *Class III milk.* The price per hundredweight of Class III milk during each delivery period shall be the highest price ascertained by the market administrator to have been quoted for ungraded milk of 3.8 percent butterfat content received during such delivery period by any of the three following plants: The Jensen Creamery Company at its plant at Topeka, Kansas; The Beatrice Foods Products Company at its plant at Topeka, Kansas; The Meyer Sanitary Milk Company at its plant at Valley Falls, Kansas.

(b) *Basic formula price to be used in determining Class I and Class II prices.* The basic formula price to be used in determining the Class I and Class II prices, set forth in this section, per hundredweight of milk as computed and announced by the market administrator on or before the 5th day of the delivery period shall be the arithmetical average of the prices per hundredweight reported to the United States Department of Agriculture as being paid all farmers for milk of 3.5 percent butterfat content delivered f. o. b. plant during the immediately preceding delivery period at the following plants and places:

Borden Co., Mt. Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
Borden Co., New London, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

divided by 3.5 and multiplied by 3.8, but in no event shall such basic formula price to be used be less than the following: Multiply by 3.8 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the immediately preceding delivery period, and add 20 percent: *Provided*, That such price shall be subject to the following adjustments: (1) Add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above 5½ cents per pound or (2) subtract 3½ cents per hundredweight for each full one-half cent that the price of such dry skim milk is below 5½ cents per pound. For purposes of determining this adjustment the price per pound of dry skim milk to be used shall be the average of the carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for the Chicago area during the immediately preceding delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the average of the carlot prices for dry skim milk for human consumption, delivered at Chicago, shall be used. In the latter event such price shall be subject to the following adjustments: (1) Add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption, delivered at Chicago, is above 7½ cents per pound or (2) Subtract 3½ cents per hundredweight for each full one-half cent that such price of dry skim milk is below 7½ cents per pound.

(c) *Butterfat differential.* If the average butterfat content of milk purchased or received from producers by any handler during any delivery period is more or less than 3.8 percent, there shall be added or subtracted per hundredweight of such milk for each one-tenth of 1 percent above or below 3.8 percent an amount equal to the Class III price for such delivery period, divided by 38.

SEC. 6. *Application of provisions.* (a) The provisions of sections 4, 7, 8, 9, and 10 shall not apply to a producer-handler or to a handler whose sole source of supply is from other handlers.

(b) If a handler has purchased or received other source milk the market administrator, in determining the net pool obligation of the handler pursuant to paragraph (a) of section 7 shall consider such milk as Class III milk. If the receiving handler sells or disposes of such milk for other than Class III purposes, the market administrator shall add an amount equal to the difference between (1) the value of such milk according to its utilization by the handler, and (2) the value at the Class III price. (This provision shall not apply if Association is not in position to supply producers milk.)

(c) If a handler, after subtracting receipts from other handlers and receipts of other source milk, has disposed of milk or butterfat which, on the basis of his reports, has been credited to his producers as having been delivered by them the market administrator, in determining the net pool obligation of the handler pursuant to paragraph (a) of section 7, shall add an amount equal to the value of milk or butterfat according to its utilization by the handler.

(d) Milk which is caused to be diverted by a handler directly from producers' farms to an approved plant of another handler for not more than 5 days during any delivery period shall be considered an interhandler transfer of milk, and shall be reported by the handler who caused such milk to be diverted, as though the milk had first been received at such handler's plant.

SEC. 7. *Determination of uniform price to producer*—(a) *Net pool obligation of handlers.* Subject to the provisions of section 6, the net pool obligation of each handler for milk received during each delivery period shall be a sum of money computed for such delivery period by the market administrator as follows:

(1) Multiply the pounds of milk in each class computed pursuant to section 4 by the class prices set forth in section 5 and add together resulting values;

(2) Add, if the average butterfat content of all milk purchased or received from producers is more than 3.8 percent, and deduct if the average butterfat content of all milk purchased or received from producers is less than 3.8 percent, an amount equal to the total value of the butterfat differential applicable pursuant to paragraph (c) of section 5;

(3) Add an amount equal to the total values pursuant to paragraphs (b) and (c) of section 6; and

(4) Deduct, if the average butterfat content of all milk purchased or received from producers is more than 3.8 percent, and add, if the average butterfat content of all milk purchased or received from producers is less than 3.8 percent, the total value of the butterfat differential applicable pursuant to paragraph (c) of section 8.

(b) *Computation and announcement of the uniform price.* The market administrator shall compute and announce the uniform price per hundredweight for milk purchased or received from producers during each delivery period in the following manner:

(1) Combine into one total the net pool obligation computed pursuant to paragraph (a) of this section of all handlers who made the reports prescribed in section 3 and who made the payments prescribed by section 8 for the previous delivery period;

(2) For each of the delivery periods of May, June and July subtract an amount equal to 20 cents per hundredweight of the total amount of milk received by handlers from producers and included in these computations, to be retained in the producer-settlement fund for the purposes specified in subparagraph (2) of paragraph (g) of section 8.

(3) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(4) Divide by a figure equal to the total hundredweight of milk received by handlers from producers and included in these computations;

(5) Subtract from the figure computed pursuant to subparagraph (4) of

this paragraph not less than 4 cents nor more than 5 cents for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers. This result shall be known as the uniform price for such delivery period for the milk of producers containing 3.8 percent butterfat; and

(6) On or before the 8th day after the end of such delivery period, mail to all handlers (i) such of these computations as do not disclose information confidential pursuant to the act; (ii) the uniform price per hundredweight computed pursuant to subparagraph (6) of this paragraph; (iii) the prices for Class I milk, Class II milk, and Class III milk; and the butterfat differentials pursuant to paragraph (c) of section 5 and paragraph (c) of section 8.

SEC. 8. *Payments of milk*—(a) *Time and method of payment.* On or before the 12th day after the end of each delivery period, each handler, after deducting the amount of the payment made pursuant to paragraph (b) of this section, and subject to the differentials set forth in paragraphs (c) and (d) of this section, shall make payment to producers at the uniform price per hundredweight computed pursuant to paragraph (b) of section 7 for the total quantity of milk received from producers: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

(b) *Half-delivery period payments.* On or before the 25th day of each delivery period, each handler shall make payment to each producer for the approximate value of the milk of such producer which, during the first 15 days of such delivery period, was received by such handler: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

(c) *Butterfat differential.* If during the delivery period, any handler has purchased or received from any producer milk having an average butterfat content other than 3.8 percent, such handler, in making the payments prescribed in paragraph (a) of this section, shall add to the prices per hundredweight for such producer for each one-tenth of 1 percent of average butterfat content in milk above 3.8 percent not less than, or shall subtract from such prices for such producer for each one-tenth of 1 percent of average butterfat content in milk below 3.8 percent not more than, an amount computed as follows: Add 4 cents to the average price of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and divide the resulting sum by 10.

(e) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to paragraphs (g) and (i) of this section and out of which he shall make all payments to handlers pursuant to paragraphs (h) and (i) of this section: *Provided*, That the market administrator shall offset any such payment due to any handler against payments due from such handler. Immediately after computing the uniform price for each delivery period, the market administrator shall compute the amount by which each handler's net pool obligation is greater or less than the sum required to be paid producers pursuant to this section by such handler, and shall enter such amount on such handler's account as such handler's pool debit or credit, as the case may be, and render such handler a transcript of his account.

(f) *Payments to the producer-settlement fund.* On or before the 10th day after the end of each delivery period, each handler shall make full payment to the market administrator of any pool debit balance shown on the account rendered pursuant to paragraph (e) of this section for such delivery period.

(g) *Payments out of the producer-settlement fund.* (1) On or before the 11th day after the end of each delivery period, the market administrator shall pay to each handler the pool credit balance shown on the account rendered pursuant to paragraph (e) of this section for such delivery period, less any unpaid obligations of the handler. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler, who, on the 12th day after the end of each delivery period, has not received the balance of the payment due him from the market administrator shall be deemed to be in violation of paragraph (a) of this section if he reduces his total payments uniformly to all producers by not more than the amount of the reduction in payment from the producer-settlement fund. Nothing in this paragraph shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

(2) On or before the 15th day after the end of each of the delivery periods of October, November and December, the market administrator shall pay out of the producer-settlement fund to each producer an amount computed as follows: Divide one-third of the total amount held pursuant to subparagraph (2) of paragraph (b) of section 7 by the hundredweight of producer milk received during the delivery involved (October, November or December as above) and apply the resulting amount per hundredweight to the milk of each producer for such delivery period: *Provided*, That payment under this subsection due any producer who has given authority to a cooperative association which is qualified pursuant to paragraph (b) of section 9 to receive payments for his milk shall be distributed to such cooperative association if such cooperative association requests receipt of such payment.

(h) *Adjustment of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to the producer-settlement fund pursuant to paragraph (f) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billings, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to paragraph (g) of this section, the market administrator shall, within 5 days, make such payment to such handler or offset any such payment due any handler against payments due from such handler. Whenever verification by the market administrator of the payment by a handler to any producer, for milk purchased or received by such handler, discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payments to producers next following such disclosure.

(i) *Statements to producers.* In making payments to producers as prescribed in paragraph (a) of this section, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of paragraphs (a) and (c) of this section;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and section 9 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

SEC. 9. *Marketing service*—(a) *Deduction for marketing services.* Except as set forth in paragraph (b) of this section, each handler shall deduct 3 cents per hundredweight from the payments made to each producer other than himself pursuant to paragraph (a) of section 8, with respect to all milk of each producer purchased or received by such handler during the delivery period, and shall pay such deductions to the market administrator on or before the 12th day after the end of such delivery period. Such moneys shall be expended by the market administrator for market information to, and for the verification of weights, sampling, and testing of milk received from said producers.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing the services set forth in paragraph (a) of this section, each handler shall make the deductions from the payments to be made pursuant to paragraph (a) of section 8, which are authorized by such producers, and, on or before the 12th day after the end of each delivery period, pay over such deductions to the market administrator for the account of the association of which such producers are members.

SEC. 10. *Expense of administration*—(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler who purchased or received milk from producers, with respect to all milk received from producers during the delivery period, shall pay to the market administrator, on or before the 12th day after the end of such delivery period, 2 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe.

Copies of this notice of hearing may be procured from Mr. M. M. Morehouse, Market Administrator, 510 Porter Building, 406 W. 34th Street, Kansas City 2, Missouri, or from the Hearing Clerk, United States Department of Agriculture, Room 0306, South Building, Washington 25, D. C., or may be there inspected.

COMMISSION'S STATEMENT ON MULTIPLE OWNERSHIP RULES

NOTICE OF PROPOSED RULE MAKING

APRIL 11, 1947.

The Commission today announced its action on certain applications involving §§ 3.240 and 3.640 of the rules and regulations (FM and Television multiple ownership rules). The Commission's action followed the oral argument held on February 24, 1947 "In the matter of the Rules and Regulations Concerning Multiple Ownership of Broadcast Stations" (Docket No. 8050) (12 F. R. 1111).

The Commission also announced that, as a result of the oral argument and its consideration of the matter, it had determined that the public interest would not be served by adoption of an ironclad rule defining the extent of overlap of service areas or the degree of common ownership, operation of control that would be deemed to be in contravention of §§ 3.35, 3.240 and 3.640 of the rules and regulations (AM, FM and Television multiple ownership rules). On the contrary, the Commission will continue to decide each such case on its own merits, considering all pertinent factors.

In each case the Commission will consider (1) the extent of overlap of service areas, (2) the degree of common ownership, operation and control, and (3) all other pertinent factors, including location of centers of population, distribution of population, other competitive service to the overlap areas and populations, location of trade areas, metropolitan districts, and political boundaries, areas and populations to which services of stations are directed (as indicated by commercial business of stations, news broadcasts, sources of programs and talent, nature of programs, coverage claims, and listening audience), and location of main and secondary studios.

T. J. SLOWIE,
Secretary.

FREQUENCIES FOR VARIOUS CLASSES OF NON-GOVERNMENTAL SERVICES IN THE RADIO SPECTRUM FROM 10 KILOCYCLES TO 30,000,000 KILOCYCLES

NOTICE OF PROPOSED RULE MAKING

APRIL 14, 1947.

1. Notice is hereby given of further proceedings in the above-entitled matter involving changes in existing frequency service-allocations.

2. The proposed changes are designed to revise the existing frequency service-allocations to make available for the use of medical diathermy and industrial heating equipment certain additional radio frequency bands. The proposed changes are set forth in Federal Register Document 47-3937, *infra*.

3. These proposed changes are issued under the authority of sections 303 (c) and 303 (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed changes should not be adopted in the form set forth may file with the Commission on or before April 30, 1947 fifteen copies of a written statement or brief setting forth his comments. The Commission will consider these written comments before taking any final action regarding the proposed rules; and, if comments are submitted which request or appear to warrant the holding of an oral argument, notice of the time and place of such oral argument will be given all interested parties.

Approved: April 10, 1947.

NOTICE OF PROPOSED ALLOCATIONS

APRIL 14, 1947.

The Commission previously has made available the frequencies 13.66, 27.32, 40.98 and 2450 Mc for the industrial, scientific, medical service.[1] The Commission has received testimony and information from representatives of this service substantiating a need for additional frequencies at approximately 3, 6, 500, 1000, 5000, 10000, and 15000 Mc. To satisfy this requirement, the Commission proposes to allocate the frequencies listed in the left column below to the industrial, scientific, medical service. Opposite each frequency is shown the corresponding modification in the table of U. S. service-allocations which also would be made if this proposal is adopted:

Frequency, Mc.	Band, Mc	U. S. service-allocation
915	470-890	Broadcasting 470-475 Mc: Facsimile. 475-500 Mc: (a) Facsimile.[4] (b) Developmental broadcasting. (c) Television.[2] 500-890 Mc: Television broadcasting.[3]
(5)	890-940	(a) Broadcasting.[3] (b) Fixed.[6]
[7] 940-960		Fixed: 940-952 Mc: FM studio-to-transmitter links.[8] 952-960 Mc: Fixed circuits except common carrier and television STL.[9]

[1] Assignments to this service may be made in any area from 475 Mc progressing upward whenever the band 470-475 Mc is utilized fully in that area.

[2] Assignments to this service may be made in any area whenever the band 500-890 Mc is utilized fully in that area.

[3] Frequencies for experimental television stations may be made available in any area until they are required in that area for television broadcasting.

[4] The frequency 915 Mc is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 890-940 Mc.

[5] This service recognizes that interference to its operations within this band may result from the emissions on the frequency 915 Mc of industrial, scientific and medical devices. Separations between assigned frequencies will be 100 kc and exact multiples thereof, and assignments will be made, in any area, progressively upward from 890 Mc.

[6] This service recognizes that interference to its operations within this band may result from the emissions on the frequency 915 Mc of industrial, scientific and medical devices. Separations between assigned frequencies, will be 100 kc and exact multiples thereof, and assignments will be made, in any area, progressively downward from 940 Mc. Assignments to FM studio-to-transmitter links may be made in any area in this band where insufficient space in that area is available in the band 940-952 Mc.

[7] Separations between assigned frequencies will be 100 kc and exact multiples thereof.

[8] Assignments in any area will be made progressively upward from 940 Mc.

[9] Assignments in any area will be made progressively downward from 960 Mc.

[1] Industrial, scientific, medical service: A service other than a radiocommunication service, for industrial, scientific, or medical uses, which results in the transmission of energy by radio.

Frequency, Mc	Band, Mc	U. S. service-allocation
5850	[10] 5650–5925 5925–7125 7125–8500	Amateur.[11] Non-Government; fixed and mobile. Government; fixed and mobile.

[10] The frequency 5850 Mc is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 5775–5925 Mc.
[11] This service recognizes that interference to its operations on frequencies within 75 Mc of 5850 Mc may result from emissions on the frequency 5850 Mc of industrial, scientific and medical devices.

Frequency, Mc	Band, Mc	U. S. service-allocation
10600	[12] 10500–10700 10700–13200 13200–16000	Industrial, scientific, medical.[13] Non-Government; fixed and mobile. Government; fixed and mobile.

[12] The frequency 10600 Mc is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 10500–10700 Mc.
[13] Sharing by communications services to be determined at a later date.

Frequency, Mc	Band, Mc	U. S. service-allocation
18000	[14] 16000–21000	(a) Fixed.[15] (b) Mobile.[15] 16000–18000 Mc—Non-Government. 18000–21000 Mc—Government.

[14] The frequency 18000 Mc is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 17850–18150 Mc.
[15] This service recognizes that interference to its operations on frequencies within 150 Mc of 18000 Mc may result from emissions on the frequency 18000 Mc of industrial, scientific and medical devices.

In addition, the Commission expects to assign a specific frequency in the vicinity of 6 Mc for use by the industrial, scientific, medical service subsequent to the forthcoming Radio Administration Conference of the International Telecommunications Union. This frequency would be intended to accommodate all radiating devices used in this service which cannot be adequately shielded and which require frequencies below 13.66 Mc.

These actions of the Commission, if and when fully implemented, following any oral argument which may be held, and the International Telecommunications Conference, will result in a complete family of frequencies for the industrial, scientific, medical service as follows:

6 Mc±2.5 kc (specific frequency to be announced later)
13.66 Mc±7.5 kc
27.32 Mc±160 kc
40.98 Mc±20 kc
915 Mc±25 Mc
2450 Mc±50 Mc
5850 Mc±75 Mc
10600 Mc±100 Mc.
18000 Mc±150 Mc

[No. 2]

DESCHUTES IRRIGATION PROJECT, NORTH UNIT, OREGON

ANNOUNCEMENT OF ANNUAL WATER RENTAL CHARGES

APRIL 4, 1947.

1. I have determined that it is not possible, because construction work is not sufficiently advanced, to promulgate during the year 1947 any of the notices of construction charges contemplated in article 16 of the contract between the United States and the Jefferson Water Conservancy District of January 4, 1938, as amended by the contract of September 5, 1945.

2. *Water rental.* Pursuant to article 34 of the contract of January 4, 1938, irrigation water will be furnished, when available, upon a rental basis during the irrigation season of 1947 to the irrigable lands generally described below and shown on maps available upon request to the Construction Engineer, Bend, Oregon:

(a) To lands which can be served by turnouts from the main canal, laterals, or sublaterals up to mile 43.9 of the main canal, which is the location of the turnout to lateral M–43, for which area construction of the canals and laterals has been completed.

(b) Where the progress of construction will permit, to lands which can be served by turnouts from the main canal, laterals, or sublaterals beyond mile 43.9 of the main canal, for which area construction of canals and laterals may be completed for delivery of irrigation water during a part of the irrigation season of 1947.

3. *Charges and terms of payment.* The minimum water rental charge shall be $2.00 per irrigable acre for each irrigable acre of the 40-acre legal subdivision for which water service is requested, payment of which will entitle the water user to 1½ acre-feet of water per irrigable acre, except that where a farm contains less than a 40-acre legal subdivision the minimum charge shall be based on the irrigable area in the entire farm; however, for lands described in paragraph 2 (b) above for which water may be first available in 1947 the minimum charge shall be paid for each irrigable acre of land for which water service is requested. Additional water, if available, will be furnished during the irrigation season at the rate of $1.50 per acre-foot, but not to exceed a total of 2½ acre-feet of water will be furnished for each acre for which water service is requested. All charges shall be payable by the District to the United States in advance of the delivery of water.

4. Water will be delivered and measured by Government forces at the turnout or weir nearest to the individual farm, topographic conditions considered.

5. The District will request water delivery for, and certify to the United States as entitled to receive water, only such lands as are owned or held under contract of purchase by persons duly qualified to receive water under the terms of the Reclamation Act of June 17, 1902 (32 Stat. 388), and acts of Congress amendatory thereof or supplementary thereto, and who have duly complied with the requirements of the contract of January 4, 1938, as amended, between the United States and the District, including:

(a) The execution and delivery of the recordable contract as provided for in article 31 of said contract;

(b) The execution and delivery of an application and affidavit for water service, as provided for in article 31 of said contract; and

(c) The execution and delivery of a valid recordable contract, in the case of ownership of excess land, as provided for in article 32 of said contract.

The recordable contracts under (a) and (c) hereof may be combined into one contract.

6. Applications for water on the basis of this announcement will be received at the office of the Secretary of the Jefferson Water Conservancy District at Madras, Oregon, and payments will be made to that office in advance of the delivery of water.

(Act of June 17, 1902, 32 Stat. 388, as amended or supplemented)

MICHAEL W. STRAUS,
Commissioner.

3. *Charges and terms of payment.* The water rental charge shall be $4.00 per acre-foot for each acre-foot of water requested. No application for the initial delivery of less than five acre-feet of water for each ownership will be received by the District. All charges shall be payable by the District to the United States in advance of the delivery of water.

4. Water will be delivered and measured by Government forces at the nearest available measuring device to the individual farm.

5. The District will request water delivery for, and certify to the United States as entitled to receive water, only such lands as are owned or are held under contract of purchase by persons duly qualified to receive water under the terms of the Reclamation Act of June 17, 1902 (32 Stat. 388), and acts of Congress supplementary thereto or amendatory thereof, and who have duly complied with the requirements of the contract of January 12, 1942, between the United States and the District, including:

(a) The execution and delivery of the valid recordable contract, in the case of ownership of excess land, as provided for in articles 27 and 29 (b) of said contract.

6. Individual applications for water on forms approved by the United States and the payments required by this announcement will be received at the office of the Secretary of the Lugert-Altus Irrigation District, Altus, Oklahoma. Requests by the District for water for such lands as are entitled to receive water and payments by the District to the United States will be received at the office of the Bureau of Reclamation, Altus, Oklahoma.

[Public Notice 25]

OWYHEE PROJECT, OWYHEE AND GEM IRRIGATION DISTRICTS—OREGON-IDAHO

PUBLIC NOTICE OPENING PUBLIC LAND TO ENTRY AND ANNOUNCING AVAILABILITY OF WATER

APRIL 8, 1947.

1. *Public land for which water is available and for which entry may be made.* In pursuance of the act of June 17, 1902 (32 Stat. 388) and acts amendatory thereof or supplementary thereto, it is hereby announced that water will be furnished in the irrigation season of 1947 and thereafter until further notice, and beginning on June 2, 1947, entry may be made in accordance with this notice for the following described public lands in the Owyhee Project, in Oregon and Idaho, as shown on farm unit plats of:

SUCCOR CREEK DIVISION, OWYHEE PROJECT, WILLAMETTE MERIDIAN, OREG.

Township 21 South, Range 46 East

Order of unit in drawing	Section	Farm unit	Description	Total irrigable acres
1	34	C	W½NW¼.....	41
Township 22 South, Range 46 East				
2	27	B	N½N½.....	51

BOISE MERIDIAN, IDAHO

Township 4 North, Range 5 West

3	19	A	N½SE¼.....	46

The farm unit plats referred to above were approved on the date of this notice and are on file in the office of the Project Superintendent, Bureau of Reclamation, Vale, Oregon; the Irrigation Manager, Bureau of Reclamation, Nyssa, Oregon; the District Office, Bureau of Reclamation, 214 Broadway, Boise, Idaho, and in the Land Office at The Dalles, Oregon, or the Land Office at Blackfoot, Idaho, where they may be examined by any person desiring to make application hereunder.

2. *Preference rights to honorably discharged veterans of World War II*—(a) *Nature of preference.* Pursuant to the provisions of the act of Congress of September 27, 1944 (58 Stat. 747), as amended June 25, 1946 (Pub. Law No. 440, 79th Cong.), for a period of 90 days from the opening of these lands to entry or until September 2, 1947, the lands described in paragraph 1 above will be open to entry only by persons who have served or may serve not less than 90 days in the Army, Navy, Marine Corps or Coast Guard of the United States in World War II, and are honorably separated or discharged therefrom: *Provided, however,* That they must be qualified to make entry under the homestead laws and also possess the qualifications as to industry, experience, character, capital and physical fitness required of all applicants under this notice. This right extends to the widow of a veteran of World War II, and to the guardian of his or her minor orphan child or children. The commencement of the United States' participation in World War II shall be deemed, for purposes of this notice, to be December 8, 1941.

(b) *Definition of honorable discharge.* An honorable discharge, within the meaning of the act of September 27, 1944, shall mean:

(1) Separation from the service by means of an honorable discharge or a discharge under honorable conditions.

(2) Transfer from active duty to a reserve or retired status.

(3) End of the period of war service by reason of the termination of the war, even though the person remains in the service of the armed forces of the United States.

(c) *Submission of proofs of veteran status.* An applicant who claims a preference right on account of service in the armed forces of the United States must attach to the application a photostatic copy of both sides of his or her discharge papers, a certified copy of his or her recorded discharge papers, or an affidavit which states the applicant's time of service, the unit of which he or she was a member, the date of honorable discharge and the fact that he or she did not refuse to wear the uniform of such service or to perform the duties thereof.

3. *Qualifications required by the reclamation laws.* Pursuant to the provisions of subsection 4C of the act of December 5, 1924 (43 Stat. 702, 43 U. S. C. 433), the following are established as minimum qualifications, which, in the opinion of the local examining board, are necessary to insure the success of an entryman or entrywoman on a reclamation farm unit. Applicants must meet these qualifications as determined by the examining board, in order to be considered for entry, and failure to meet them in all respects will be sufficient cause for rejection of an application. No credit will be given for qualifications in excess of the minimum required.

(a) *Character and industry.* Each applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct and a bona fide intent to engage in farming as an occupation. Persons named as references in paragraph 17 of the Farm Application blank should be responsible individuals (not relatives) who are personally acquainted with the applicant and are willing and able to disclose full information relative to the applicant's qualifications for entry on a reclamation farm unit.

(b) *Health.* Each applicant must be in such physical condition as will enable him or her to engage in normal farm labor. Any person who is physically handicapped or afflicted with any condition which makes such ability questionable should attach to his or her application the detailed statement of an examining physician which defines the limitation upon such ability and its causes.

(c) *Farm experience.* Each applicant must have had at least two years' full-time farm experience acquired after the age of 15 years. Two years of study in agricultural courses in an accredited agricultural college or two years of responsible technical work in agriculture which, in the opinion of the examining board, may contribute toward knowledge of the successful operation of a farm may be credited as one year of farm experience. No more than one year's experience may be credited from such courses. No advantage will accrue from farming experience on irrigated land. Applicants must furnish three written statements signed by a Vocational Agriculture teacher, county agent, County Farmers Home Administration supervisor, Production and Marketing Administration chairman, an officer of any local farm organization or other comparable persons who have personal knowledge of the applicant's farm experience or have verified it to their satisfaction. Women applicants should describe fully the farm activities in which they have participated and the relation of agricultural courses they have taken to farm operation and management.

(d) *Capital.* Each applicant must possess at least $3,000 in operating capital or equivalent property, such as livestock and farm machinery, or adequate credit. Credit must be evidenced by a certified statement from the credit source, indicating the amount to be loaned and the terms of the loan. Credit will be regarded as adequate if the terms of repayment, in the opinion of the board, will not interfere with the development of a farm unit.

In addition, in order to be qualified for entry on project lands, applicants must not own or hold within any Federal Reclamation Project irrigable land for which construction charges payable to the United States have not been fully paid. Proofs of conformity with this requirement need not be furnished, but a check of project land ownership will be made to determine eligibility of applicants before awards of farm units are made.

4. *Qualifications required by homestead laws.* The homestead laws require that an entryman or entrywoman:

(a) Must be a citizen of the United States or have declared an intention to become a citizen of the United States.

(b) Entrywomen who are married must be heads of families. (Except veterans of World War II, all entrymen must be 21 years of age or the head of a family, and entrywomen must be 21 years of age and the head of a family. The act of June 25, 1946, removes the age requirement for both men and women who are veterans, but does not affect the homestead requirement that entrywomen who are married must be the heads of families.) Proofs of such status must be submitted with the applications of married women.

(c) Must not own more than 160 acres of land in the United States (with certain exceptions).

(d) Must not have exhausted the right to make homestead entry on public land by prior exercise of this right. Complete information concerning qualifications for homesteading may be obtained from the District Land Office at The Dalles, Oregon, and at Blackfoot, Idaho, or the Bureau of Land Management, Washington 25, D. C.

5. *When and how to apply for a farm unit*—(a) *Application blanks.* Any person desiring to acquire any of the public land farm units described in this notice must fill out the attached Farm Application blank. Additional application blanks may be obtained from the Owyhee Project Office, Nyssa, Oregon; the Vale Project Office, Vale, Oregon; the Regional Director, Bureau of Reclamation, P. O. Box 937, Boise, Idaho, or the Commissioner of Reclamation, Department of the Interior, Washington 25, D. C. Full and frank answers must be made to each question on the Farm Application blank, except that preference of farm units should not be listed.

(b) *Filing of application and proofs.* An application for a farm unit listed in this notice, together with proofs of veteran status and farm experience and married women's proofs of their status as the heads of families, must be filed with the Project Superintendent, Bureau of Reclamation, Vale, Oregon, either in person or by mail. No advantage will accrue to an applicant who presents his or her application in person.

(c) *Priority of applications.* All applications received prior to 2:00 p. m., June 2, 1947, will be held and treated as filed simultaneously, except that applications of persons who do not establish their eligibility for veterans' preference, as outlined in paragraph 2 of this notice, will be set aside and will not be considered until September 2, 1947. Applications received after 2:00 p. m., June 2, 1947, from persons eligible to receive veterans' preference will be considered in the order filed if there are any farm units still available. If any farm units are still available on September 2, 1947, all applications from persons not eligible to receive veterans' preference which have been received up to that time will be considered as filed simultaneously in the awarding of any remaining farm units.

6. *Selection of qualified applicants*—(a) *Examining board.* An Examining Board of three members, including the Superintendent of the Vale Project, who will act as secretary of the board, has been approved by the Commissioner of Reclamation to consider the fitness of each applicant to undertake the development and operation of a farm on the Owyhee Project. Careful investigations will be made to verify the statements and representations made by applicants in order to determine their qualifications as prescribed in paragraph 3 above. Any falsification or misrepresentation made or discovered at any time will cause an application to be rejected.

(b) *Basis of examination.* The eligibility for the award of a reclamation farm unit under subsection 4C of the act of December 5, 1924, will be determined by the examining board. Applicants will be judged on the basis of character, industry, farming experience and capital. No applicant will be considered eligible who does not qualify in all respects, or who does not, in the opinion of the board, possess the health and vigor to engage in farm work.

(c) *Procedure*—(1) *Preliminary examination.* If an applicant fails to make a prima facie case; that is, an examination of the application discloses that the applicant is unqualified in respect to the requirements prescribed herein, the application shall be rejected and the applicant notified by the board of examiners of such rejection by registered mail, with return receipt requested, and of the right to appeal in writing to the Regional Director within ten (10) days from receipt of such notification. All appeals shall be filed within ten (10) days of the receipt of such notice with the Project Superintendent, Bureau of Reclamation, Vale, Oregon, who will forward them to the Regional Director. If an appeal is decided by the Regional Director in favor of the applicant, the application will be referred to the board of examiners for inclusion in the drawing. All decisions on appeals will be based exclusively on information obtained prior to rejection of the application.

(2) *Selection of applicants.* After the expiration of the appeal period fixed by the above-mentioned notices and after the Regional Director has decided such appeals, the board shall select the successful applicants in the following manner: From the names of all qualified applicants in the group whose applications were considered as filed simultaneously, the board shall draw nine (9) names or three times as many as the number of farm units available. These applicants will be closely investigated, in the order in which selected, and any falsehood or misrepresentation shall be ground for disqualification. The examining board may, in its discretion, request any applicant to appear for a personal interview. Should any applicant so requested fail to appear for examination, his or her application will receive no further consideration at that time. Should such applicant appear later, his or her application may be placed at the bottom of the list of the nine (9) applicants whose names were drawn by the board.

(3) *Disqualification and appeals.* The board shall notify applicants from among the group of nine (9) who are disqualified as a result of the investigations of the board of such disqualification and the reasons therefor, and of the right of appeal to the Regional Director within ten (10) days from receipt of such notice, by registered mail with return receipt requested.

(d) *Award of farm units.* After the expiration of the appeal period and after the Regional Director has decided the appeals from the action of the board, the board shall award farm units in the order listed in this public notice to the first three qualified applicants who have been selected in the order drawn, without regard to preference as to units. Other applicants will retain their places in the order drawn and will be awarded such farm units as may become available in the event any of the original applicants to whom the units were awarded fail to complete their entries. An alternate will become ineligible for further consideration after having been offered right of entry to a single farm unit. In the event that there are farm units to be awarded after all applications that were filed simultaneously have been considered, consideration will be given to applications of other eligible veterans, in the order filed, as indicated in paragraph 5 (c) above. Farm units not awarded before September 2, 1947, will be open to entry to qualified applicants without regard to veterans' preference, in accordance with the procedure established by this public notice.

(e) *Notification to applicants.* Immediately after the selection of the three successful applicants, the board shall notify each of the other applicants, by registered mail with return receipt requested, of his or her standing as an alternate or otherwise and of the circumstances under which the applications must be rejected.

7. *Notification of selection of applicants and acceptance of farm units.* After the completion of the selection process and the determination of all appeals, the Board shall notify each of the three selected applicants, by registered mail with return receipt requested, that he or she has been awarded a farm unit. With such notice the board shall enclose a form for formal acceptance of the farm unit awarded. This form must be executed by the applicant and returned to the office of the Project Superintendent, Bureau of Reclamation, Vale, Oregon, within ten (10) days from receipt of the said notice. Upon receipt by the Project Superintendent of the acceptance executed by the applicant and the payment of the construction charge instalments as required in paragraph 9 (a) of this public notice before the expiration of the said 10-day period, the Secretary of the board shall furnish each such applicant by registered mail, unless delivery is made in person, a certificate, stating that his or her qualifications to enter public lands, as required by subsection 4C of the act of December 5, 1924, have been passed upon and approved by the board. Such certificate, a copy of which will be forwarded by the secretary of the board to the Land Office at The Dalles, Oregon, or the Land Office at Blackfoot, Idaho, immediately upon its issuance, must be attached by the applicant to his or her homestead application when such application is filed at the Land Office at The Dalles, Oregon, or the Land Office at Blackfoot, Idaho. Such homestead application must be made within twenty (20) days from the date of receipt by the applicant of said certificate. Failure to make application for homestead entry within the period specified herein will render the application subject to rejection.

8. *Warning against unlawful settlement.* No person shall be permitted to gain or exercise any right under any settlement or occupation of any of the public lands covered by this notice except under the terms and conditions prescribed by this notice: *Provided, however,* That this shall not affect any valid existing right obtained by settlement or entry while the land was subject thereto.

9. *Irrigation charges*—(a) *Construction.* The total construction charges payable to the United States for the entire Owyhee Project are presently estimated to be $18,825,000. The average estimated construction charge per irriga-

ble acre is $186. Under existing contractual arrangements with the Owyhee and Gem Irrigation Districts, the construction charges payable to the United States on the irrigable lands in the districts during the years 1946, 1947, 1948 and 1949 will be $2.00 per irrigable acre per year, payable in two semi-annual instalments beginning on December 31, 1946, and July 1, 1947. The remainder of the construction charges will be payable in accordance with the contract arrangements with the districts. The applicants to whom the farm units are awarded must pay the semi-annual construction charge instalments otherwise due on December 31, 1946, and July 1, 1947, to the Project Superintendent prior to issuance of the certificate of eligibility by the Secretary of the examining board. When entries have been completed, the Project Superintendent will pay to the Owyhee and Gem Irrigation Districts the construction charge instalments received from the applicants. In the event that an applicant fails to complete homestead entry, any moneys paid to the United States on account of construction charges as herein specified shall be returned to the applicant.

(b) *Operation and maintenance.* In addition to the payment of construction charges as required by the existing repayment contracts, the entrymen, to be entitled to water, must pay operation and maintenance charges levied by the District in which the land is situated. The minimum charge per irrigable acre, whether water is used or not, has been fixed at $2.70, exclusive of any amounts that may be added by the District for its own purposes.

(c) *Amount of water and charges.* Payment of construction charges due and the operation and maintenance charges levied by the District will entitle the entryman to delivery of not more than four (4) acre-feet of water per irrigable acre in the 1947 season. Water in excess of this amount will be furnished to water users during the 1947 irrigation season at not less than eighty-four cents ($0.84) per acre-foot or fraction thereof, and water users shall be required to make advance payment for such additional water to the districts or to make arrangements for such payment that are satisfactory to the districts and in accordance with legal requirements. The minimum charges for operation and maintenance and maximum of water deliverable therefor and charges for excess water in subsequent years through 1949 are to be determined as provided in the Notice of Availability of February 19, 1946.

10. *Contracts with irrigation districts and recordable agreement.* The lands covered by this notice are included in the Owyhee Irrigation District and the Gem Irrigation District, which districts are bound under contracts dated October 14, 1926, as amended by the contracts of March 15, 1936, and the Public Notice of availability of water dated February 19, 1946, copies of which are available for inspection in the project offices at Nyssa, Oregon, and Homedale, Idaho, to pay all charges due to the United States from the districts and to collect the necessary funds for that purpose from the landowners and entrymen of the district by the levy of assessments or the collection of toll charges. The first two semi-annual construction charge installments paid by the applicants will be credited in the same manner as if paid at the regular time for payment. Each applicant for entry, in order to receive water, will also be required to execute and deliver a recordable contract as required under article 41 of the said contracts of October 14, 1926. (The recordable contract is designed to prevent land speculation based upon increased value of the land resulting from irrigation. It provides that in case of the sale of project land by an entryman or landowner, a portion of the sale price over and above the appraised value, as set by a board, without increment on account of the construction of the irrigation project works, shall be applied on the construction charge against the land which is being sold.) Each applicant for entry, in paying the first two semi-annual construction charge installments shall be deemed to have agreed to be bound by the provisions of the said contracts with the Owyhee Irrigation District and the Gem Irrigation District, dated October 14, 1926, as amended and supplemented.

11. *Reservation of rights of way for County, State and Federal Highways and access roads.* Rights of way are reserved for county, state and federal highways and access roads to the farm units shown on said plats along section lines and other lines shown in red on the farm plats, said rights of way being in general 30 feet in width on each side of said lines for county roads, 20 feet each side of said lines for access roads, and not to exceed 50 feet on each side of said lines for state and federal highways.

12. *Reservation of rights of way for telephone, electric transmission, water and sewer lines and water-treating and pumping plants.* Rights of way are reserved for government-owned telephone, electric transmission, water and sewer lines and water-treating and pumping plants, as now constructed, and the Secretary reserves the right to locate such other government-owned facilities over and across the farm units above described, as hereafter in his opinion may be necessary for the proper construction, operation or maintenance of said project.

13. *Waiver of mineral rights.* All homestead entries for the above-described farm units will be subject to the laws of the United States governing mineral land and all homestead applicants under this notice must waive the right to the mineral content of the land, if required to do so by the Bureau of Land Management, otherwise the homestead applications will be rejected or the homestead entry or entries canceled.

14. *Settler assistance in land development.* The Bureau of Reclamation, as an incident to the completion of the project, will assist entrymen, in appropriate cases, on a reimbursable basis, in development of farm units, including clearing and rough leveling the land and roughing in of farm irrigation and surface drainage systems beyond the farm turnout.

15. *Effect of relinquishment.* In the event that any entry of public land shall be relinquished prior to 2:00 p. m., September 2, 1947, the lands so relinquished shall be subject to entry in accordance with the procedure described in paragraph 6 of this notice. In the event that any entry of public land shall be relinquished subsequent to 2:00 p. m., September 2, 1947, and at any time prior to actual proving up of the land through necessary residence, cultivation and other homestead requirements, the lands so relinquished shall not be subject to entry for a period of 60 days after the filing and notation of the relinquishment in the local land office. During the 10-day period next succeeding the expiration of such 60-day period, any person having the necessary qualifications may file application for said public land. If, on the tenth day of said 10-day period, prior to 2:00 p. m., the number of applications filed exceeds the number of available farm units, then the right to make entry for such farm units shall be determined in accordance with the procedure described in paragraph 6 of this notice.

C. GIRARD DAVIDSON,
Assistant Secretary of the Interior.

APPLICANTS FOR HOMESTEADS ON OWYHEE PROJECT, OREGON AND IDAHO

LOCATION

1. The farm units opened for homesteads by Public Notice No. 25 may be readily located with the use of the farm unit location map attached to the public notice.

PERSONAL INQUIRIES

2. Personal inquiries with respect to this public land opening may be made at the Superintendent's office, Bureau of Reclamation, Vale, Oregon.

LODGING

3. Government lodging is not available for visitors at Vale. Visitors should make reservations for lodging at local hotels in Vale, Ontario, or Nyssa, Oregon.

FORMS REQUIRED

4. Applications with all substantiating data should be mailed to the Superintendent, Bureau of Reclamation, Vale, Oregon. (Caution: It is of utmost importance that all the required forms be completely and accurately filled out and attached to the application. Failure to do so may disqualify the applicant.)

5. If you are claiming veteran preference, be sure to submit a photostatic, certified, or authenticated copy of your discharge or certificate of service.

6. If physically handicapped or afflicted, submit a detailed statement by an examining physician which defines your limitations because of the disability.

7. Attach to your application the signed statement of three agricultural leaders, setting forth the place, period, and years in which you received farming experience.

8. Be sure to list the names and addresses of three responsible individuals who are willing and able to disclose full information with respect to your character and industry as required in paragraph 17 of the application.

9. If you list credit as partial fulfillment of the capital requirement, be sure you attach to your application a certified statement from the credit source indicating the amount and terms of the loan available to you.

10. Married entrywomen must be heads of families to be eligible. Proof of such status must be returned with the application.

SETTLER ASSISTANCE

11. The Bureau of Reclamation and Oregon State College Extension Service will provide technical assistance to settlers in becoming familiar with local agricultural practices and in planning and laying out the farm fields and irrigation systems.

TIME LIMIT

12. Applications received prior to 2:00 p. m., June 2, 1947, will be considered as simultaneously filed. Applications received the last week of the filing period will delay the public land opening; therefore, the completed application and substantiating evidence should be mailed at the earliest possible moment. You will be notified of action taken by the Board and of the award of a farm unit if your name is drawn and you are found to be qualified.

[Public Notice No. 9]

VALE PROJECT, VALE, OREGON, IRRIGATION DISTRICT

PUBLIC NOTICE OPENING PUBLIC LAND TO ENTRY AND ANNOUNCING AVAILABILITY OF WATER

APRIL 8, 1947.

1. *Public Land for which water is available and for which entry may be made.* In pursuance of the act of June 17, 1902 (32 Stat. 388) and acts amendatory thereof or supplementary thereto, it is hereby announced that water will be furnished in the irrigation season of 1947 and thereafter until further notice, and beginning June 2, 1947, entry may be made in accordance with this notice for the following described public lands in the Vale Project, Oregon, as shown on the farm unit plat of

Township 17 South, Range 44 East, Willamette Meridian

Section 22, Farm Unit "D"; N½NW¼; 55.0 irrigable acres.

The farm unit plat referred to above was approved on April 15, 1936, and is on file in the office of the Project Superintendent, Bureau of Reclamation, Vale, Oregon; the District Office, Bureau of Reclamation, 214 Broadway, Boise, Idaho; and in the Land Office at The Dalles, Oregon, where it may be examined by any person desiring to make application therefor. A mess hall formerly used as a part of a CCC camp, BR 45, now located on the farm unit, will not be included in the award of the farm unit and will be removed from the premises by the owner.

2. *Preference rights to honorably discharged veterans of World War II*—(a) *Nature of preference.* Pursuant to the provisions of the act of Congress of September 27, 1944 (58 Stat. 747), as amended June 25, 1946 (Pub. Law No. 440, 79th Cong.), for a period of 90 days from the opening of these lands to entry or until September 2, 1947, the lands described in paragraph 1 above will be open to entry only by persons who have served or may serve not less than 90 days in the Army, Navy, Marine Corps or Coast Guard of the United States in World War II, and are honorably separated or discharged therefrom: *Provided, however,* That they must be qualified to make entry, under the homestead laws and also possess the qualifications as to industry, experience, character, capital and physical fitness required of all applicants under this notice. This right extends to the widow of a veteran of World War II and to the guardian of his or her minor orphan child or children. The commencement of the United States' participation in World War II shall be deemed, for purposes of this notice, to be December 8, 1941.

(b) *Definition of honorable discharge.* An honorable discharge within the meaning of the act of September 27, 1944, shall mean:

(1) Separation from the service by means of an honorable discharge or a discharge under honorable conditions.

(2) Transfer from active duty to a reserve or retired status.

(3) End of the period of war service by reason of the termination of the war, even though the person remains in the service of the armed forces of the United States.

(c) *Submission of proofs of veteran status.* An applicant who claims a preference right on account of service in the armed forces of the United States must attach to the application a photostatic copy of both sides of his or her discharge papers, a certified copy of his or her recorded discharge papers or an affidavit which states the applicant's time of service, the unit of which he or she was a member, the date of honorable discharge and the fact that he or she did not refuse to wear the uniform of such service or to perform the duties thereof.

3. *Qualifications required by the reclamation law.* Pursuant to the provisions of subsection 4C of the act of December 5, 1924 (43 Stat. 702, 43 U. S. C. 433), the following are established as minimum qualifications, which, in the opinion of the local examining board, are necessary to insure the success of an entryman or entrywoman on a reclamation farm unit. Applicants must meet these qualifications, as determined by the examining board, in order to be considered for entry, and failure to meet them in all respects will be sufficient cause for rejection of an application. No credit will be given for qualifications in excess of the minimum required:

(a) *Character and industry.* Each applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct and a bona fide intent to engage in farming as an occupation. Persons named as references in paragraph 17 of the Farm Application blank should be responsible individuals (not relatives) who are personally acquainted with the applicant and who are willing and able to disclose full information relative to the applicant's qualifications for entry on a reclamation farm unit.

(b) *Health.* Each applicant must be in such physical condition as will enable him or her to engage in normal farm labor. Any person who is physically handicapped or afflicted with any condition which makes such ability questionable should attach to his or her application the detailed statement of an examining physician which defines the limitation upon such ability and its causes.

(c) *Farm experience.* Each applicant must have had at least two years' full-time farm experience acquired after the age of 15 years. Two years of study in agricultural courses in an accredited agricultural college or two years of responsible technical work in agriculture which in the opinion of the examining board may contribute toward knowledge of the successful operation of a farm may be credited as one year of farm experience. No more than one year's experience may be credited from such sources. No advantage will accrue from farming experience on irrigated land. Applicants must furnish three written statements signed by a Vocational Agriculture teacher, county agent, County Farmers Home Administration supervisor, Production and Marketing Administration chairman, an officer of any local farm organization, or other comparable persons who have personal knowledge of the applicant's farm experience or have verified it to their satisfaction. Women applicants should describe fully the farm activities in which they have participated, and the relation of agricultural courses they have taken to farm operation and management.

(d) *Capital.* Each applicant must possess at least $3,000 in operating capital or equivalent property such as livestock and farm machinery or adequate credit. Credit must be evidenced by a certified statement from the credit source, indicating the amount to be loaned and the terms of the loan. Credit will be regarded as adequate if the terms of repayment will not, in the opinion of the board, interfere with the development of a farm unit.

In addition, in order to be qualified for entry on project lands, applicants must not own or hold within any Federal Reclamation Project, irrigable land for which construction charges payable to the United States have not been fully paid. Proofs of conformity with this requirement need not be furnished, but a check of project land ownership will be made to determine eligibility of applicants before awards of farm units are made.

4. *Qualifications required by homestead laws.* The homstead laws require that an entryman or entrywoman:

(a) Must be a citizen of the United States or have declared an intention to become a citizen of the United States.

(b) Entrywomen who are married must be heads of families. (Except veterans of World War II, all entrymen must be 21 years of age or the head of a family and entrywomen must be 21 years of age and the head of a family. The act of June 25, 1946, removes the age requirement for both men and women who are veterans, but does not

affect the homestead requirements that entrywomen who are married must be the heads of families.) Proofs of such status must be submitted with the applications of married women.

(c) Must not own more than 160 acres of land in the United States (with certain exceptions).

(d) Must not have exhausted the right to make homestead entry on public land.

Complete information concerning qualifications for homesteading may be obtained from the District Land Office at The Dalles, Oregon, or the Bureau of Land Management, Washington 25, D. C.

5. *When and how to apply for a farm unit*—(a) *Application blanks.* Any person desiring to acquire the public land farm unit described in this notice must fill out the attached Farm Application blank. Additional application blanks may be obtained from the Vale Project office, Vale, Oregon; the Regional Director, Bureau of Reclamation, P. O. Box 937, Boise, Idaho, or the Commissioner of Reclamation, Department of the Interior, Washington 25, D. C. Full and frank answers must be made to each question on the Farm Application blank.

(b) *Filing of application and proofs.* An application for the farm unit listed in this notice, together with proofs of veteran status and farm experience and married women's proofs of their status as the heads of families, must be filed with the Project Superintendent, Bureau of Reclamation, Vale, Oregon, either in person or by mail. No advantage will accrue to an applicant who presents his or her application in person.

(c) *Priority of applications.* All applications for the farm unit listed in this notice which are received prior to 2:00 p. m., June 2, 1947, will be held and treated as filed simultaneously, except that applications of persons who do not establish their eligibility for veterans' preference, as outlined in paragraph 2 of this notice, will be set aside and will not be considered until September 2, 1947. Applications received after 2:00 p. m., June 2, 1947, from persons eligible to receive veterans' preference, will be considered in the order filed if the farm unit is still available. If the farm unit is still available on September 2, 1947, all applications from persons not eligible to receive veterans' preference which have been received up to that time will be considered as filed simultaneously in the awarding of the farm unit.

6. *Selection of qualified applicants*—(a) *Examining board.* An examining board of three members, including the Superintendent of the Vale Project, who will act as Secretary of the Board, has been approved by the Commissioner of Reclamation to consider the fitness of each applicant to undertake the development and operation of a farm on the Vale Project. Careful investigations will be made to verify the statements and representations made by applicants in order to determine their qualifications as prescribed in paragraph 3 above. Any falsification or misrepresentation made or discovered at any time will cause an application to be rejected.

(b) *Basis of examination.* The examining board will determine the eligibility for the award of a reclamation farm unit under subsection 4C of the act of December 5, 1924. Applicants will be judged on the basis of character, industry, farming experience and capital. No applicant will be considered eligible who does not qualify in all respects, or who does not, in the opinion of the Board, possess the health and vigor to engage in farm work.

(c) *Procedure*—(1) *Preliminary examination.* If an applicant fails to make a prima facie case, that is, an examination of the application discloses that the applicant is unqualified in respect to the requirements prescribed herein, the application shall be rejected and the applicant notified by the board of examiners of such rejection by registered mail, with return receipt requested, and of the right to appeal in writing to the Regional Director within ten (10) days from the receipt of such notification. All appeals shall be filed within ten (10) days of the receipt of such notice with the Project Superintendent, Bureau of Reclamation, Vale, Oregon, who will forward them to the Regional Director. If an appeal is decided by the Regional Director in favor of the applicant, the application will be referred to the board of examiners for inclusion in the drawing. All decisions on appeals will be based exclusively on information obtained prior to rejection of the application.

(2) *Selection of applicants.* After the expiration of the appeal period fixed by the above-mentioned notices and after the Regional Director has decided such appeals, the Board shall select the successful applicant in the following manner: From the names of all qualified applicants in the group whose applications where considered as filed simultaneously the board shall draw four (4) names or four times as many as the number of farm units available. These applicants will be closely investigated, in the order in which selected, and any falsehood or misrepresentation shall be ground for disqualification. The examining board may, in its discretion, request any applicant to appear for a personal interview. Should any applicant so requested fail to appear for examination, his or her application will receive no further consideration at that time. Should such applicant appear later, his or her application may be placed at the bottom of the list of the four (4) applicants whose names were drawn by the board.

(3) *Disqualification and appeals.* The board shall notify applicants from among the group of four (4) who are disqualified as a result of the investigations of the board of such disqualification and the reasons therefor, and of the right of appeal to the Regional Director within ten (10) days from receipt of such notice, by registered mail with return receipt requested.

(d) *Award of farm units.* After the expiration of the appeal period and after the Regional Director has decided the appeals from the action of the board, the board shall award the farm unit to the qualified applicant whose name was drawn first. Other applicants will retain their places in the order drawn and will be awarded the farm unit if the applicant to whom it was originally awarded or the alternate next in order fails to complete the entry of the land. In the event that the farm unit should not be awarded to any applicant whose application was one of those filed simultaneously, consideration will be given to applications of other eligible veterans, in the order filed, as indicated in paragraph 5 (c) above. If the farm unit is not awarded before September 2, 1947, it will be open to entry to qualified applicants without regard to veterans' preference, in accordance with the procedure established by this public notice.

(e) *Notification to applicants.* Immediately after the selection of the successful applicant, the board shall notify each of the other applicants, by registered mail with return receipt requested, of his or her standing as an alternate or otherwise and of the circumstances under which the applications must be rejected.

7. *Notification of selection of applicants and acceptance of farm units.* After the completion of the selection process and the determination of all appeals, the board shall notify the selected applicant, by registered mail with return receipt requested, that he or she has been awarded the farm unit. With such notice, the board shall enclose a form for formal acceptance of the farm unit awarded. This form must be executed by the applicant and returned to the office of the Project Superintendent, Bureau of Reclamation, Vale, Oregon, within ten (10) days from receipt of the said notice. Upon receipt by the Project Superintendent of the acceptance executed by the applicant, and the payment of the construction charge instalments as required in paragraph 9 (a) of this public notice, before the expiration of the said 10-day period, the Secretary of the Board shall furnish such applicant by registered mail, unless delivery is made in person, a certificate, stating that his or her qualifications to enter public lands, as required by subsection 4C of the act of December 5, 1924, have been passed upon and approved by the board. Such certificate, a copy of which will be forwarded by the Secretary of the Board to the local Land Office immediately upon its issuance, must be attached by the applicant to his or her homestead application, when such application is filed at the local Land Office at The Dalles, Oregon. Such homestead application must be made within twenty (20) days from the date of receipt by the applicant of said certificate. Failure to make application for homestead entry within the period specified herein will render the application subject to rejection.

8. *Warning against unlawful settlement.* No person shall be permitted to gain or exercise any right under any settlement or occupation of the public lands covered by this notice except under the terms and conditions prescribed by this notice: *Provided, however,* That this shall not affect any valid existing right obtained by settlement or entry while the land was subject thereto.

9. *Irrigation charges*—(a) *Construction.* Construction charges for the Vale Irrigation District are now estimated at

$154 per irrigable acre of district lands. Under existing contractual arrangements with the District, the construction charges payable to the United States for and on account of the irrigable lands of the District during the years 1946, 1947, 1948 and 1949 will be $2.00 per irrigable acre per year, payable in two semiannual installments beginning December 31, 1946, and July 1, 1947. The remainder of the construction charges will be payable in accordance with contract arrangements with the District. The applicant to whom the farm unit is awarded must pay the semi-annual construction charge installments otherwise due on December 31, 1946, and July 1, 1947, to the Project Superintendent prior to issuance of the certificate of eligibility by the Secretary of the examining board. When entry has been completed, the Project Superintendent will pay to the Vale, Oregon, Irrigation District the construction-charge installments received from the applicant. In the event that an applicant fails to complete homestead entry, any moneys paid to the United on account of construction charges as herein specified shall be refunded to the applicant.

(b) *Operation and maintenance.* Pursuant to article 10 (e) of the contract of October 22, 1926, the operation and maintenance charges payable to the United States for 1947 shall be transferred to and paid as a part of the construction costs. However, the District may levy an assessment against the District lands for operation and maintenance purposes in 1947, and will levy assessments for operation and maintenance costs regularly thereafter as provided in the contract of October 22, 1926. Lands entered pursuant to this notice will be liable for such assessments on the same basis as other lands of the District.

(c) *Amount of water and charges.* During the period of operation of the project by the United States, payment of construction charges and of the annual minimum operation and maintenance charge levied by the District will entitle the entryman to not less than three (3) acre-feet of water per irrigable acre annually. Water in excess of this amount will be delivered at not less than the following rates:

The first acre-foot or fraction thereof at a charge per acre-foot which shall be not less than fifty percent (50%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum operation and maintenance charge; the second acre-foot or fraction thereof and each additional acre-foot at a charge per acre-foot which shall not be less than seventy-five percent (75%) more than the average charge per acre-foot of water which said land is entitled to secure for the annual minimum operation and maintenance charge.

No excess water will be delivered to any farm unit unless advance payment therefor has been made by the water user to the District, or arrangements have been made for payment that are satisfactory to the District and in accordance with legal requirements.

During the period of operation of the project (exclusive of reserved works) by the District, payment of construction charges and of operation and maintenance charges as levied by the District and in accordance with the contract between the District and the United States will be the prerequisite to delivery of water. Fixing of minimum operation and maintenance charges and of the maximum amount of water which can be delivered per irrigable acre and of charges for excess water will then be the responsibility of the District. Lands entered pursuant to this notice will be liable for such charges on the same basis as other lands of the District.

10. *Contract with Vale, Oregon, Irrigation District and recordable agreement.* The lands covered by this notice are included in the Vale, Oregon, Irrigation District, which District agreed under contract dated October 22, 1926, a copy of which is available for inspection in the Project Office, Bureau of Reclamation, Vale, Oregon, to pay all charges due to the United States from the District and to collect the necessary funds for that purpose from the landowners and entrymen of the District by the levy of assessments or the collection of toll charges. The first two semi-annual construction charge instalments paid by the applicant will be credited in the same manner as if paid at the regular time for payment. An applicant for entry, in order to receive water, will also be required to execute and deliver a recordable contract as required under article 25 of the said contract of October 22, 1926. (The recordable contract is designed to prevent land speculation based upon increased value of the land resulting from irrigation. It provides that in case of the sale of project land by an entryman or landowner, a portion of the sale price over and above the appraised value, as set by a board, without increment on account of the construction of the irrigation project works, shall be applied on the construction charges against the land which is being sold.) The applicant for entry, in paying the first two semi-annual construction charge instalments, shall be deemed to have agreed to be bound by the provisions of the said contract with the Vale, Oregon, Irrigation District dated October 22, 1926.

11. *Reservation of rights of way for County, State and Federal highways and access roads.* Rights of way are reserved for County, State and Federal highways and access roads to the farm unit shown on said plat along section lines and other lines shown in red on the farm plat, said right of way being in general 30 feet in width on each side of said lines for county roads, 20 feet each side of said lines for access roads, and not to exceed 50 feet on each side of said lines for State and Federal highways.

12. *Reservation of rights of way for telephone, electric transmission, water and sewer lines and water-treating and pumping plants.* Rights of way are reserved for government-owned telephone, electric transmission, water and sewer lines and water-treating and pumping plants, as now constructed, and the Secretary reserves the right to locate such other government-owned facilities over and across the farm unit above described, as hereafter in his opinion may be necessary for the proper construction, operation or maintenance of said project.

13. *Waiver of mineral rights.* All homestead entries for the above-described farm unit will be subject to the laws of the United States governing mineral land and all homestead applicants under this notice must waive the right to the mineral content of the land, if required to do so by the Bureau of Land Management, otherwise the homestead applications will be rejected or the homestead entry or entries cancelled.

14. *Settler assistance in land development.* The Bureau of Reclamation, as an incident to the completion of the project, will assist entrymen, in appropriate cases, on a reimbursable basis, in development of farm units, including clearing and rough leveling the land and roughing in of farm irrigation and surface drainage systems beyond the farm turnout.

15. *Effect of relinquishment.* In the event that any entry of public land shall be relinquished prior to 2:00 p. m., September 2, 1947, the lands so relinquished shall be subject to entry in accordance with paragraphs 2 and 6 of this notice. In the event that any entry of public land shall be relinquished subsequent to 2:00 p. m., September 2, 1947, and at any time prior to actual proving up of the land through necessary residence, cultivation and other homestead requirements, the lands so relinquished shall not be subject to entry for a period of 60 days after the filing and notation of the relinquishment in the local land office. During the 10-day period next succeeding the expiration of such 60-day period, any person having the necessary qualifications may file application for said public land. If, on the tenth day of said 10-day period, prior to 2:00 p. m., the number of applications filed exceeds the number of available farm units, then the right to make entry for such farm unit shall be determined in accordance with the procedure described in paragraph 6 of this notice.

C. GIRARD DAVIDSON,
Assistant Secretary of the Interior.

APPLICANTS FOR HOMESTEAD
ON
VALE PROJECT, OREGON

LOCATION

1. The farm unit opened for homestead by Public Notice No. 9 may be readily located with the use of the farm unit location map attached to the public notice.

PERSONAL INQUIRIES

2. Personal inquiries with respect to this public land opening may be made at the Superintendent's office, Bureau of Reclamation, Vale, Oregon.

LODGING

3. Government lodging is not available for visitors at Vale. Visitors should make reservations for lodging at local hotels in Vale or Ontario, Oregon.

FORMS REQUIRED

4. Applications with all substantiating data should be mailed to the Superintend-

ent, Bureau of Reclamation, Vale, Oregon. (Caution: It is of utmost importance that all the required forms be completely and accurately filled out and attached to the application. Failure to do so may disqualify the applicant.)

5. If you are claiming veteran preference, be sure to submit a photostatic, certified, or authenticated copy of your discharge or certificate of service.

6. If physically handicapped or afflicted, submit a detailed statement of an examining physician which defines your limitations because of the disability.

7. Attach to your application the signed statement of three agricultural leaders, setting forth the place, period, and years in which you received farming experience.

8. Be sure to list the names and addresses of three responsible individuals who are willing and able to disclose full information with respect to your character and industry as required in paragraph 17 of the application.

9. If you list credit as partial fulfillment of the capital requirement, be sure you attach to your application a certified statement from the credit source indicating the amount and terms of the loan available to you.

10. Married entrywomen must be heads of families to be eligible. Proof of such status must be returned with the application.

SETTLER ASSISTANCE

11. The Bureau of Reclamation and Oregon State College Extension Service will provide technical assistance to settlers in becoming familiar with local agricultural practices and in planning and laying out the farm fields and irrigation systems.

TIME LIMIT

12. Applications received prior to 2:00 p. m., June 2, 1947, will be considered as simultaneously filed. Applications received the last week of the filing period will delay the public land opening; therefore, the completed application and substantiating evidence should be mailed at the earliest possible moment. You will be notified of action taken by the Board and of the award of a farm unit if your name is drawn and you are found to be qualified.

FEDERAL COMMUNICATIONS COMMISSION

SOLUTION TO FM BROADCAST-INSTRUMENT LANDING SYSTEMS INTERFERENCE

TEMPORARY CHANGE IN FREQUENCIES

MARCH 28, 1947.

Earlier in the year it was reported to the Commission that interference existed in certain cases between the transmission of FM broadcast stations and the aircraft "Instrument Landing Systems". The cause of this interference appeared to be the use by aircraft of equipment which was designed for the military but which is inadequate for civilian operations. The only equipment now available for the "Instrument Landing Systems" uses this particular surplus military receiver. This matter was referred to the Radio Technical Commission for Aeronautics for investigation. On the 11th of March that body recommended that the frequencies of certain FM stations in the New York area be changed for a temporary period ending March 1, 1948. The reasons for this recommendation were:

1. Because of the large number of aids to air navigation in the New York area, it was impossible to change localizer frequencies to avoid interference.

2. New aviation receiving equipment now in production will be installed by March 1, 1948, and the basic cause of the interference removed.

3. It would take longer to modify existing inadequate aviation equipment than it would to install the new replacement equipment.

In other than the New York area, interference can be avoided by appropriate selection of Instrument Landing and FM frequencies, giving consideration to geographical separation. This need for correlation will disappear on March 1, 1948, with the installation of adequate aircraft receivers.

The Commission has held a series of meetings with the various interests involved and has reached a solution which will be satisfactory to all concerned and will make no change in the service now available to the public. The solution is:

WGYN will occupy channel 251 (98.1 Mc) in lieu of 241 (96.1 Mc).

WNYC will occupy channel 231 (94.1 Mc) in lieu of 237 (95.3 Mc).

WBAM is conducting propagation tests and will not go on its regularly assigned frequency channel 243 (96.5 Mc) until March 1, 1948.

The Commission appreciates the cooperative attitude in which this problem has been approached by all concerned. It wishes to emphasize that in no sense can this interference be charged to improper operation of FM stations or failure in the engineering on the part of the aviation interests. The receiver used on the aircraft was designed to meet a particular military need and was installed aboard commercial aircraft because it was the only receiver in existence available in quantities to make possible the use of Instrument Landing Systems.

In these meetings representatives of both the airlines and the Civil Aeronautics Administration expressed their desire to join with the Commission in its expression of appreciation of the cooperation offered by the FM interests.

EAST TEXAS BROADCASTING CO. (KGKB) ET AL.

ORDER ENLARGING ISSUES AND CONTINUING HEARING

In re applications of Jas. G. Ulmer and James G. Ulmer, Jr., doing business as East Texas Broadcasting Company (KGKB), Tyler, Texas, for construction permit, Docket No. 7950, File No. BP-4769; Hugh J. Powell (KGGF), Coffeyville, Kansas, for construction permit, Docket No. 7951, File No. BMP-2021; Radio Enterprises, Inc. (KELD), El Dorado, Arkansas, for construction permit, Docket No. 8114, File No. BP-5644.

The Commission having under consideration a petition filed March 27, 1947, by East Texas Broadcasting Company (KGKB), Tyler, Texas, requesting enlargement of the issues in the consolidated proceeding upon the above-entitled applications, so as to include the following issues:

1. To determine whether the alternative directional antenna pattern for nighttime operation of Station KELD, as set forth in Exhibit 1 attached to the petition of KGKB to enlarge issues of hearing, dated March 27, 1947, is suitable for use by said Station KELD, and, if so, whether public interest, convenience and necessity would be served by a grant of the application of said Station KELD, subject to the condition that it use the said alternative pattern.

2. To determine whether the alternative directional antenna pattern for nighttime operation of Station KGKB, as set forth in Exhibit 2 attached to the petition of KGKB to enlarge issues of hearing, dated March 27, 1947, is suitable for use by said Station KGKB, and, if so, whether public interest, convenience and necessity would be served by a grant of the application of said Station KGKB, subject to the condition that it use the said alternative pattern.

and an opposition thereto filed April 9, 1947, by Radio Enterprises, Inc. (KELD), El Dorado, Arkansas; and

It appearing, that the opposition of KELD to the KGKB proposal is based on the fact that the proposal is unworkable, and that it forces KELD to serve an area substantially different from that KELD desires to serve; and

It appearing, that the question of the feasibility of the proposal and the change in area to be served by KELD are matters for determination after a hearing; and

It appearing, that the proposal to enlarge the issues is in conformity with the policies outlined in the Commission's Public Notice of January 8, 1947, relative to the Temporary Expediting Procedure; and

It appearing further, that the engineering hearing in the above-entitled proceeding is scheduled for April 16, 1947, at Washington, D. C.; and that in the event the petition is granted, counsel for all parties desire a two-week continuance of the hearing for the purpose of making further engineering studies;

It is ordered, This 11th day of April 1947, that the petition be, and it is hereby, granted; and the issues adopted November 7, 1946, January 30, 1947, and February 14, 1947, in the proceeding upon the above-entitled applications, be, and they are hereby, enlarged, to include the following:

1. To determine whether the alternative directional antenna pattern for nighttime operation of Station KELD, as set forth in Exhibit 1 attached to the petition of KGKB to enlarge issues of hearing, dated March 27, 1947, is suitable for use by said Station KELD, and, if so, whether the public interest, convenience and necessity would be served by a grant of the application of said Station KELD, subject to the condition that it use the said alternative pattern.

2. To determine whether the alternative directional antenna pattern for nighttime operation of Station KGKB, as set forth in Exhibit 2 attached to the petition of KGKB to enlarge issues of hearing, dated March 27, 1947, is suitable for use by said Station KGKB, and, if so, whether public interest, convenience and necessity would be served by a grant of the application of said Station KGKB, subject to the condition that it use the said alternative pattern.

It is further ordered, That the further hearing in the above-entitled proceeding, presently scheduled for April 16, 1947, be, and it is hereby, continued to 10:00 o'clock a. m., Monday, May 12, 1947.

Notice is hereby given, that the foregoing action is not to be construed in any way as having the effect of constituting an amendment to any above-entitled application within the meaning of the Commission's rules, regulations and standards.

RADIO STATION KTBS

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Allen D. Morris, P. E. Furlow and George D. Wray, a partnership d/b as Radio Station KTBS, Shreveport, Louisiana, for construction permit; Docket No. 7598, File No. BP-4720.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled application for a construction permit for an increase in power for standard broadcast station KTBS at Shreveport, Louisiana, to 5 kilowatts, 10 kilowatts local sunset, to change frequency from 1480 kilocycles to 710 kilocycles, to install a new transmitter and to make changes in the antenna system;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial and other qualifications of the applicant partnership and the partners to construct and operate Station KTBS as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KTBS as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station KTBS as proposed would involve objectionable interference with Station WHB, Kansas City, Missouri, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station KTBS as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station KTBS as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That WHB Broadcasting Company, licensee of Station WHB Kansas City, Missouri, be and it is hereby made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

COCONINO BROADCASTING CO. AND GRAND CANYON BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Coconino Broadcasting Company, Flagstaff, Arizona, Docket No. 8276, File No. BP-5667; James L. Stapleton, Jessie Martin and Duard K. Nowlin, d/b as Grand Canyon Broadcasting Company (KWRZ), Flagstaff, Arizona, Docket No. 8277, File No. BP-6004; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled applications for construction permits of Coconino Broadcasting Company, filed January 29, 1947, requesting a new standard broadcast station to operate on the frequency 600 kc, with 1 kw power, unlimited time using directional antenna at night, and of Grand Canyon Broadcasting Company, submitted for filing February 6, 1947, permittee of station KWRZ, presently authorized the use of the frequency 1340 kc, requesting the frequency 600 kc, with 1 kw daytime and 250 watts nighttime power (non-directional), and the following related matters:

(1) Petition of Coconino Broadcasting Company requesting that the said application of Grand Canyon Broadcasting Company, since it requests nighttime op-

eration with 250 watts power on a channel for which the minimum power specified by the Commission's rules and regulations (§ 3.22 (c) (2)) is 500 watts, be returned to the applicant as defective under § 1.361 (c) of the rules and regulations;

(2) Request for waiver of § 3.22 (c) (2), filed on March 4, 1947, by Grand Canyon Broadcasting Company to be associated with its said application which, as submitted for filing on February 6, 1947, was not accompanied by such a request; and

(3) Related oppositions filed by the respective parties to the foregoing matters; and

It appearing, that the alleged defect in the said application of Grand Canyon Broadcasting Company involves its request for a nighttime Class IV station (Class III daytime) on a regional channel; that § 3.29 of the Commission's rules specifically authorizes the assignment of a Class IV station to a regional channel on certain conditions; that as a matter of Commission practice and procedure such applications have in the past been accepted for filing without a request for waiver or an affirmative showing in the application that the conditions specified in § 3.29, as implemented in the Standards of Good Engineering Practice, have been complied with; that to adopt a contrary policy at this time would be manifestly unfair and unjust and neither within the spirit or letter of the Commission's public notice of January 24, 1947, concerning the return of defective applications pursuant to established practice; and that § 1.361 (a) of the Commission's rules provides, in effect, that the return of defective applications shall be a matter within the Commission's discretion;

It is ordered, That the said petition of Coconino Broadcasting Company be, and it is hereby, denied; that the said request for waiver of § 3.22 (c) (2), filed by Grand Canyon Broadcasting Company, be, and it is hereby, accepted and associated with that applicant's said application which is hereby accepted for filing; and that the said applications of Coconino Broadcasting Company and Grand Canyon Broadcasting Company (KWRZ) be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate Station KWRZ, as proposed, and of the applicant corporation, its officers, directors and stockholders to construct and operate its proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the proposed operations would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the proposed operations would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the proposed installations and operations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine whether the proposed nighttime operation of station KWRZ with 250 watts power on the requested frequency of 600 kc would be in compliance with § 3.29 of the Commission's rules and the Standards of Good Engineering Practice relating to the operation of Class IV stations on regional channels.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

In re application of Kenneth R. Giddens & T. J. Rester, a partnership d/b as Giddens & Rester (WKRG), Mobile, Alabama, for construction permit; Docket No. 8300, File No. BP-5887.

At a session of the Federal Communications Commission, held at its office in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled application for a construction permit to increase its time of operating on 710 kilocycles to include nighttime operation using 250 watts with a directional antenna,

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate station WKRG as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station WKRG as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station WKRG as proposed would involve objectionable interference with station WOR, New York, New York or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station WKRG as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation WKRG as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Bamberger Broadcasting Service, Inc., licensee of station WOR, New York, New York, be, and it is hereby made a party to this proceeding.

In re application of Charles Wilbur Lamar, Jr., Morgan City, Louisiana, for construction permit; Docket No. 8302, File No. BP-4913.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station to operate on the frequency 980 kc, with 250 w power, unlimited time, at Morgan City, Louisiana.

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the operation of the proposed station would involve objectionable interference with Station CMCK, Havana, Cuba, Station XECA, Tampico, Mexico, XEY, Cuernavaca, Mexico or with any other foreign station, within the meaning of the North American Regional Broadcasting Agreement.

7. To determine whether the operation as proposed herein would preclude the most efficient use of the frequency 980 kilocycles.

8. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, particularly with reference to section 1, footnote 4, thereof.

9. To determine the overlap, if any, that will exist between the service areas of the proposed station, and of station KCIL at Houma, Louisiana, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

designated as chairman thereof, are abolished.

(b) The name of the Federal Farm Board is changed to the Farm Credit Administration.

(c) The name of the office of Chairman of the Federal Farm Board is changed to Governor of the Farm Credit Administration, and he is vested with all the powers and duties of the Federal Farm Board.

(d) The functions of the Secretary of the Treasury as a member of the Federal Farm Loan Board, and the offices of the appointed members of the Federal Farm Loan Board, except the office of the member designated as Farm Loan Commissioner, are abolished, and all the powers and functions of the Federal Farm Loan Board are transferred to and vested in the Farm Loan Commissioner, subject to the jurisdiction and control of the Farm Credit Administration as herein provided.

(e) There are transferred to the jurisdiction and control of the Farm Credit Administration:

(1) The Federal Farm Loan Bureau and the functions thereof; together with the functions of the Federal Farm Loan Board, including the functions of the Farm Loan Commissioner;

(2) The functions of the Treasury Department and the Department of Agriculture, and the Secretaries thereof, under Executive authorizations to give aid to farmers, dated July 26, 1918, and any extensions or amendments thereof;

(3) The functions of the Secretary of Agriculture under all provisions of law relating to the making of advances or loans to farmers, fruit growers, producers and owners of livestock and crops, and to individuals for the purpose of assisting in forming or increasing the capital stock of agricultural-credit corporations, livestock-loan companies, or like organizations, except Public Resolution No. 74, Seventieth Congress, approved December 21, 1928 (45 Stat. 1067), providing for the Puerto Rican Hurricane Relief Commission;

(4) The Crop Production Loan Office and the Seed Loan Office of the Department of Agriculture, and the functions thereof;

(5) The functions of the Reconstruction Finance Corporation and its Board of Directors relating to the appointment of officers and agents to manage regional agricultural credit corporations formed under section 201 (e) of the Emergency Relief and Construction Act of 1932 (47 Stat. 713; 12 U. S. C. 1148); relating to the establishment of rules and regulations for such management; and relating to the approval of loans and advances made by such corporations and of the terms and conditions thereof.

(f) The functions vested in the Federal Farm Board by section 9 of the Agricultural Marketing Act (46 Stat. 15; 12 U. S. C. 1141g) are abolished, except that such functions shall continue to be exercised to such extent and for such time as may be necessary to permit the orderly winding up of the activities of stabilization corporations heretofore recognized under authority of such section, and the government of the Farm Credit Administration shall take appropriate action for winding up at the earliest practicable date the activities of such corporations and all affairs related to the exercise of such functions.

(g) The records, property (including office equipment), and personnel used and employed in the execution of the functions hereinbefore transferred are transferred to the jurisdiction and control of the Farm Credit Administration.

(h) The sum of $2,000,000 of the unexpended balances of appropriations made to the Federal Farm Board by Public Resolutions No. 43 and No. 51 of the Seventy-second Congress (47 Stat. 741, 799) shall be impounded and returned to the Treasury, which sum shall be in addition to the other savings to be effected by the Farm Credit Administration as a result of this order.

(i) The unexpended balances of appropriations to the Secretary of Agriculture, the Federal Farm Loan Bureau, and the Federal Farm Board for salaries, expenses, and all other administrative expenditures in the execution of the functions herein vested in the Farm Credit Administration shall be transferred to and vested in the Farm Credit Administration as a single fund for its use for salaries, expenses, and all other administrative expenditures for the execution of any or all of such functions without restriction as to the particular functions for the execution of which the same were originally appropriated. All other appropriations, allotments, and other funds available for use in connection with the functions and executive agencies hereby transferred and consolidated are hereby transferred to and vested in the Farm Credit Administration, and shall be available for use by it, for the same purposes as if the Farm Credit Administration were named in the law or authority providing such appropriations, allotments, or other funds.

(j) All power, authority, and duties conferred by law upon any officer, executive agency, or head thereof, from which or from whom transfer is hereinbefore made, in relation to the executive agency or function transferred, are

transferred to and vested in the Governor of the Farm Credit Administration.

(k) The Governor of the Farm Credit Administration is directed to dismiss, furlough, transfer, or make other appropriate disposition of such of the officers and employees under his jurisdiction and control as are not required for the proper execution of the functions of the Farm Credit Administration.

(m) The Governor of the Farm Credit Administration is authorized to execute any and all functions and perform any and all duties vested in him through such persons as he shall by order designate or employ.

(n) The Governor of the Farm Credit Administration, by order or rules and regulations, may consolidate, regroup, and transfer offices, bureaus, activities, and functions in the Farm Credit Administration, so far as may be required to carry out the purposes to which this order is directed, and may fix or change the names of such offices, bureaus, and activities and the duties, powers, and titles of their executive heads.

This order shall take effect upon the sixty-first calendar day after its transmission to Congress unless otherwise determined in accordance with the provisions of section 407 of the Legislative Appropriation Act, fiscal year 1933, as amended. (Secs. 401, 403, 407, as amended by sec. 16, 47 Stat. 1517–1519, 48 Stat. 16; 5 U. S. C. and Sup., 124, 126, 130) [E. O. 6084, Mar. 27, 1933]

§ 1.2 *Transfer of Division of Cooperative Marketing to Federal Farm Board.*[1] The whole of the Division of Cooperative Marketing in the Bureau of Agricultural Economics of the Department of Agriculture, all functions pertaining to the work and services of such division, its records, property, including office equipment, personnel, and unexpended balances of appropriation, pertaining to such work or services is hereby transferred from the Department of Agriculture to the jurisdiction and control of the Federal Farm Board. The transfer above mentioned shall be effective from and including October 1st, 1929. (Sec. 13 (e), 46 Stat. 18; 12 U. S. C. 1141 h) [E. O. 5200, Oct. 1, 1929]

§ 1.3 *Allocation of funds to meet the necessity for relief in stricken agricultural areas.* There is hereby allocated to the Director of Emergency Conservation Work for the establishment and maintenance of Civilian Conservation Corps camps, the sum of $12,500,000; to the Farm Credit Administration for making loans to farmers for seed, feed, freight, summer fallowing, and similar purposes, under such terms and conditions as the Governor thereof may prescribe, the sum of $25,000,000; to the Federal Emergency Relief Administration for making grants to States the sum of $56,250,000, and for the purpose of increasing employment through the purchase of lands in the stricken areas, the sum of $12,500,000; and to the Secretary of Agriculture or such agency as he may designate the sum of $43,750,000 for the purchase, sale, gift, or other disposition of seed, feed, and livestock, and for transportation thereof. (49 Stat. 115) [E. O. 6747, June 23, 1934]

§ 1.4 *Allocation of funds to the Farm Credit Administration for the making of emergency crop loans.* (a) There is set aside from funds provided by the Emergency Relief Appropriation Act of 1935 (49 Stat. 115) for the use of the Farm Credit Administration for the purpose of making loans to farmers during the year 1936, under limitation (b) in section 1 of the said act, in the United States, Hawaii, and Puerto Rico, for fallowing, for the production of crops, for planting, cultivating, and harvesting crops, for supplies incident to and necessary for such production, planting, cultivating, and harvesting, and for feed for livestock, or for any of such purposes, under such terms and conditions as the Governor of the Farm Credit Administration (hereinafter referred to as the Governor) may prescribe, a sum not to exceed $30,000,000, of which the sum of $7,000,000 is hereby allocated to the said Administration to be supplemented from time to time by such additional allocations as may be necessary.

(b) The amount which may be lent to any one borrower shall not exceed $200, and each applicant for a loan shall establish to the satisfaction of the proper officer or employee of the Farm Credit Administration, under such conditions as the Governor may prescribe, that the applicant is unable to procure such loans from any other source: *Provided*, That preference shall be given to the applications of farmers whose cash requirements are small.

(c) Loans made under the provisions of this section shall be secured by a first lien, or by an agreement to give a first lien, upon all crops of which the production, planting, cultivating, or harvesting is to be financed, in whole or in part, with the proceeds of such loan, or, in case of any loan for the purchase or production of feed for livestock, a first lien upon the livestock to be fed. Such loans shall be made and collected under such regulations as the Governor shall prescribe, and shall bear interest at the rate of 5½ per centum per annum.

(d) Fees for recording, filing, registration, and examination of records (including certificates) in connection with each loan made hereunder shall be paid by the borrower: *Provided, however*, That such fees aggregating not to exceed 75 cents per loan may be paid by him from the proceeds of his loan. No fees for releasing liens given to secure loans shall be paid from the funds made available hereunder.

(e) The funds hereby or hereafter allocated may be used also for all necessary administrative expenses in carrying out the provisions of this section to and including June 30, 1937.

(f) In carrying out the provisions of this section, the Farm Credit Administration may (1) make expenditures for supplies and equipment, traveling expenses, rental of offices, printing and binding, and other necessary expenses, and (2) accept voluntary and uncompensated services, appoint officers and employees without regard to the provisions of the Civil Service laws and regulations, and fix the compensation of any officers and employees so appointed without regard to the Classification Act of 1923 (42 Stat. 1488, as amended; 5 U. S. C. and Sup., 661–674). [E. O. 7305, Feb. 28, 1936]

[1] The Farm Credit Administration has succeeded to the functions of the Federal Farm Board. See E. O. 6084, Mar. 27, 1933, 6 CFR 1.1.

PART 2—ORGANIZATION, FUNCTIONS, AND PROCEDURES OF THE FARM CREDIT ADMINISTRATION, WASHINGTON, D. C.

Sec.
2.1 Organization.
2.2 Functions and procedures.

AUTHORITY: §§ 2.1 and 2.2 issued under sec. 40, 48 Stat. 51; 12 U. S. C. 636.

§ 2.1 *Organization.* All functions and activities of the Farm Credit Administration are conducted under the general supervision of the Secretary of Agriculture. The work of the Farm Credit Administration is directed by the Governor of the Farm Credit Administration, assisted by the Deputy Governors, and is performed by the four Commissioners named in sec. 80, 48 Stat. 273, 12 U. S. C. 638, and the several divisions of the Farm Credit Administration as follows:

(a) The Land Bank Commissioner, assisted by the personnel of the Land Bank Division, regulates and supervises the twelve Federal land banks, the national farm loan associations, and the joint stock land banks under 39 Stat. 360, as amended; 12 U. S. C., Chap 7, Subchap. I; and regulates and supervises the Federal Farm Mortgage Corporation in the discharge of its functions as disposal agency for surplus agricultural and forest real property under the Surplus Property Act of 1944 (58 Stat. 765, as amended; 50 U. S. C. App., Sup. 1611–1646).

(b) The Intermediate Credit Commissioner, assisted by the personnel of the Intermediate Credit Division, regulates and supervises the twelve Federal intermediate credit banks under 42 Stat. 1454, as amended; 12 U. S. C. Chap. 7, Subchap. III.

(c) The Production Credit Commissioner, assisted by the personnel of the Production Credit Division, regulates and supervises the twelve production credit corporations and the production credit associations under 48 Stat. 257, as amended; 48 Stat. 266, as amended; 12 U. S. C. Chap 7, Subchaps. IV and VI.

(d) The Cooperative Bank Commissioner, assisted by the personnel of the Cooperative Division, regulates and supervises the twelve district banks for cooperatives and the Central Bank for Cooperatives under 48 Stat. 257, as amended; 48 Stat. 266, as amended; 12 U. S. C. Chap. 7, Subchaps. V and VI. The Cooperative Bank Commissioner is ex officio the chairman of the board of directors of the Central Bank for Cooperatives and that Bank has its headquarters with the Farm Credit Administration in Washington, D. C., and utilizes the personnel and facilities of the Farm Credit Administration.

(e) The Mortgage Corporation Service Division, headed by the Director of that Division who is also the Executive Vice President of the Federal Farm Mortgage Corporation, performs various functions for that Corporation which conducts its affairs under 48 Stat. 48, as amended; 48 Stat. 344, as amended; 12 U. S. C. and Sup., Chap. 7, Subchaps. II and II A. The Governor and the Land Bank Commissioner, together with the Secretary of the Treasury or an officer of the Treasury designated by him, are ex officio the directors of the Federal Farm Mortgage Corporation, and that Corporation has its headquarters with the Farm Credit Administration in Washington, D. C., and utilizes the personnel and facilities of the Farm Credit Administration. The Land Bank Commissioner makes loans on behalf of the Federal Farm Mortgage Corporation under 48 Stat. 48, as amended; 12 U. S. C. and Sup., Chap. 7, Subchap. II.

(f) The Regional Agricultural Credit Division, headed by the Director of that Division, regulates and supervises the Regional Agricultural Credit Corporation of Washington, D. C., under 47 Stat. 713, as amended; 12 U. S. C., Chap. 7, Subchap. VIII. The Regional Agricultural Credit Corporation of Washington, D. C., has its headquarters with the Farm Credit Administration in Washington, D. C., and utilizes the personnel and facilities of the Farm Credit Administration.

(g) The Revolving Fund Section, headed by the Director of the Revolving Fund, conducts the liquidation of loans made to cooperative associations out of the Revolving Fund created by the Agricultural Marketing Act (46 Stat. 11, as amended; 12 U. S. C. 1141–1141j), and the liquidation of loans made to individuals to capitalize local agricultural credit corporations under 46 Stat. 1932, as amended by 46 Stat. 1160, and 47 Stat. 60, as amended; 12 U. S. C. 1401–1404.

(h) The Cooperative Research and Service Division, headed by the Director of that Division, gathers and disseminates information pertaining to cooperatives and promotes the organization and development of cooperative associations, under the Cooperative Marketing Act (44 Stat. 802; 7 U. S. C. 451–457) and the Agricultural Marketing Act (46 Stat. 11, as amended; 12 U. S. C. 1141–1141j).

(i) The Examination Division, headed by the Chief Examiner, conducts examinations of the various institutions supervised by the Farm Credit Administration.

In addition, there are five other staff divisions in the Farm Credit Administration which perform, for the Administration as a whole, the services denoted by their titles as follows: Finance and Accounts; Administrative; Personnel; Information and Extension; and Economic and Credit Research.

Prior to the enactment of the Farmers' Home Administration Act of 1946 (Pub. Law 731, 79th Cong., 60 Stat. 1062), the Farm Credit Administration, through the Emergency Crop and Feed Loan Division, made and collected emergency crop, feed, drought, and rehabilitation loans under an act of Congress approved January 29, 1937 (50 Stat. 5), and a number of earlier statutes and Executive orders. The Farmers' Home Administration Act of 1946 abolished these functions of the Farm Credit Administration and vested in the Farmers' Home Administration the function of collecting such loans.

§ 2.2 *Functions and procedures*—(a) *Supervision of institutions in farm credit districts.* The Farm Credit Administration regulates and supervises the Federal land banks and national farm loan associations, the Federal intermediate credit banks, the production credit corporations and production credit associations, and the district banks for cooperatives, through the respective Commissioners under the general direction of the Governor. Such regulation and supervision is exercised in the various respects and by the methods stated in the respective statutes enumerated in § 2.1 (a) to (d). The Farm Credit Administration also conducts examinations of these institutions. The substantive rules and regulations promulgated by the Farm Credit Administration with respect to these institutions are contained in Subchapters B, D, E, and F of this chapter.

(b) *Functions with respect to the Federal Farm Mortgage Corporation.* The Governor of the Farm Credit Administration and the Land Bank Commissioner, together with the Secretary of the Treasury or an officer of the Treasury designated by him, are ex officio the directors of the Federal Farm Mortgage Corporation and as such they direct its affairs. The loans of the Federal Farm Mortgage Corporation are made on its behalf by the Land Bank Commissioner. The Farm Credit Administration conducts examinations of the Federal Farm Mortgage Corporation.

The functions of the Department of Agriculture as disposal agency for surplus agricultural and forest real property under the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App. Sup., 1611–1646), have been delegated by the Secretary of Agriculture to the Governor of the Farm Credit Administration, and redelegated by the Governor to the Federal Farm Mortgage Corporation, which utilizes the facilities of the Federal land banks in performing these functions. The Farm Credit Administration regulates and supervises the execution of these functions. The regulations issued by the Farm Credit Administration, with the approval of the Secretary of Agriculture, are contained in Part 5 of this subchapter.

(c) *Functions with respect to the Central Bank for Cooperatives.* The Cooperative Bank Commissioner is ex officio chairman of the board of directors of the Central Bank for Cooperatives, and the other six directors are appointed by the Governor of the Farm Credit Administration. The Cooperative Bank Commissioner is also the chief executive officer of the Central Bank. The Commissioner, as chairman of the Board, and the Governor prescribe rules and regulations governing the activities of the Central Bank and these rules and regulations are contained in Subchapter F of this chapter. The Farm Credit Administration conducts examinations of the Central Bank and supervises it in other respects and by the methods stated in

48 Stat. 257, 266, as amended; 12 U. S. C., Chap. 7, Subchaps. V and VI.

(d) *Functions with respect to the Regional Agricultural Credit Corporation of Washington, D. C.* The Farm Credit Administration prescribes the charter provisions and bylaws of the Regional Agricultural Credit Corporation of Washington, D. C., appoints its directors and officers, prescribes rules and regulations governing its activities, and conducts examinations of its affairs. The rules and regulations governing the Corporation are contained in Subchapter G of this chapter.

(e) *Revolving Fund Section.* The Farm Credit Administration, through this Section, conducts the liquidation of loans made to cooperative associations by the Federal Farm Board and the Farm Credit Administration out of the Revolving Fund created by the Agricultural Marketing Act (46 Stat. 11, as amended; 12 U. S. C. 1141–1141j). Since loans to cooperative associations for the purposes specified in the Agricultural Marketing Act are now available from the banks for cooperatives, loans under that act are not ordinarily made by the Farm Credit Administration out of the Revolving Fund, except in furtherance of the liquidation by outstanding loans. The requirements for such loans and the terms and conditions thereof are stated in the Agricultural Marketing Act.

The Farm Credit Administration, through the Revolving Fund Section, also conducts the liquidation of loans made to individuals by the Secretary of Agriculture to capitalize local agricultural credit corporations under 46 Stat. 1032, as amended by 46 Stat. 1160, and 47 Stat. 60, as amended; 12 U. S. C. 1401–1404. No loans under these statutes are now being made.

A cooperative association desiring to apply for a loan from the Revolving Fund should submit an application on a prescribed form to the Director of the Revolving Fund, together with evidence of the association's eligibility under the act, and of the authority of its officers to execute the loan documents, and statements of its financial condition. Forms for making application for loans may be obtained from the Director of the Revolving Fund upon request.

Real and personal properties acquired by the United States as a result of loans made from the Revolving Fund are leased and sold in accordance with the provisions of 46 Stat. 13, as amended; 12 U. S. C. 1141b (7). Ordinarily, these properties are advertised and sold on the basis of sealed bids, reserving the right to reject any and all bids. Each bidder is notified of the acceptance or rejection of his bid.

Certain indebtedness of farmers being liquidated by the Farm Credit Administration through the Revolving Fund Section may be compromised, adjusted, or canceled, in appropriate cases, in accordance with 58 Stat. 836; 12 U. S. C. Sup., 1150–1150c; and the regulations contained in Part 01 of Subtitle A of this title. Applications of debtors for compromise, adjustment, or cancelation of their debts should be submitted on prescribed forms which may be obtained

from the Director of the Revolving Fund upon request.

(f) *Cooperative Research and Service Division.* The Farm Credit Administration, through this Division, conducts studies and gathers information regarding the organization and operations of agricultural cooperative associations, and disseminates such information and gives technical assistance to cooperative associations and persons and groups interested in the organization or operation of such associations, in accordance with the Cooperative Marketing Act (44 Stat. 802; 7 U. S. C., 451–457) and the Agricultural Marketing Act (46 Stat. 11, as amended; 12 U. S. C., 1141–1141j). The Division prepares various publications and distributes them generally to cooperative associations and other interested persons and groups, and confers and advises with individual associations, persons, and groups on their problems with respect to the organization and operation of particular cooperative associations.

(g) *Liquidation of joint stock land banks.* The Farm Credit Administration supervises and examines the few remaining joint stock land banks which are now in process of liquidation. Plans for the voluntary liquidation of joint stock land banks are subject to approval by the Farm Credit Administration in accordance with 39 Stat. 374, as amended; 12 U. S. C. 822. In the case of some insolvent joint stock land banks, the Farm Credit Administration has appointed receivers to liquidate them under its supervision in accordance with 39 Stat. 381, as amended; 12 U. S. C. 963.

Paul Fankhauser, Assistant Deputy Production Credit Commissioner, is authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Production Credit Commissioner in the event that the Production Credit Commissioner, Deputy Production Credit Commissioner Esgate, and Assistant Production Credit Commissioner Scott are all unavailable to act by reason of absence from the central office of the Farm Credit Administration or for any other cause.

Homer G. Smith, Assistant Deputy Production Credit Commissioner, is authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Production Credit Commissioner in the event that the Production Credit Commissioner, Deputy Production Credit Commissioner Esgate, Assistant Production Credit Commissioner Scott, and Assistant Deputy Production Credit Commissioner Fankhauser are all unavailable to act by reason of absence from the central office of the Farm Credit Administration or for any other cause. (Sec. Memo. 846, Jan. 6, 1940)

§ 3.18 *Authority of production credit corporation presidents to approve production credit association bylaws and amendments thereto.* The president of each production credit corporation is designated the amanuensis of the Governor of the Farm Credit Administration to endorse his approval upon all production credit association bylaws which conform with Form PCA–202 and amendments thereto, the forms of which have been approved by him.

§ 3.19 *Authority of production credit corporation vice presidents to approve production credit association bylaws and amendments thereto.* The vice president of each production credit corporation is designated an amanuensis with full power and authority, in the absence or disability of the president of such production credit corporation, to endorse the Governor's approval upon all bylaws which conform with Form PCA–202 and amendments thereto heretofore or hereafter approved by the Governor, and which have been formally adopted by the respective boards of directors of production credit associations located within the district served by such production credit corporation.

§ 3.20 *Functions, powers, authority, and duties of the Cooperative Bank Commissioner, Deputy Cooperative Bank Commissioner, and Assistant Deputy Cooperative Bank Commissioners.* The Cooperative Bank Commissioner shall, subject to the jurisdiction and control of the Governor of the Farm Credit Administration, execute and perform all functions, powers, authority, and duties pertaining to the administration of the provisions of law relative to the Central Bank for Cooperatives and the district banks for cooperatives.

B. F. Viehmann, Deputy Cooperative Bank Commissioner, is hereby authorized to execute and perform the functions, powers, authority, and duties pertaining to the office of Cooperative Bank Commissioner with respect to the Central Bank for Cooperatives in the event that the Cooperative Bank Commissioner is unavailable to act, by reason of absence from the central office of the Farm Credit Administration, or for any other cause, and with respect to the district banks for cooperatives in the event that the Cooperative Bank Commissioner and S. Y. McConnell, Assistant Deputy Cooperative Bank Commissioner, are unavailable to act, by reason of absence from the central office of the Farm Credit Administration, or for any other cause.

S. Y. McConnell, Assistant Deputy Cooperative Bank Commissioner, is hereby authorized to execute and perform the functions, powers, authority, and duties pertaining to the office of Cooperative Bank Commissioner with respect to the district banks for cooperatives in the event that the Cooperative Bank Commissioner is unavailable to act, by reason of absence from the central office of the Farm Credit Administration, or for any other cause, and with respect to the Central Bank for Cooperatives in the event that the Cooperative Bank Commissioner, B. F. Viehmann, Deputy Cooperative Bank Commissioner, and W. C. Frazee, Assistant Deputy Cooperative Bank Commissioner, are unavailable to act, by reason of absence from the central office of the Farm Credit Administration, or for any other cause.

W. C. Frazee, Assistant Deputy Cooperative Bank Commissioner, is hereby authorized to execute and perform the functions, powers, authority, and duties pertaining to the office of Cooperative Bank Commissioner with respect to the Central Bank for Cooperatives in the event that the Cooperative Bank Commissioner and B. F. Viehmann, Deputy Cooperative Bank Commissioner, are unavailable to act, by reason of absence from the central office of the Farm Credit Administration, or for any other cause, and with respect to the district banks for cooperatives in the event that the Cooperative Bank Commissioner, S. Y. McConnell, Assistant Deputy Cooperative Bank Commissioner, and B. F. Viehmann, Deputy Cooperative Bank Commissioner, are unavailable to act, by reason of absence from the central office of the Farm Credit Administration, or for any other cause. (Sec. Memo. 846, Jan. 6, 1940)

§ 3.21 *Functions and duties of Director of the Revolving Fund.* The Director of the Revolving Fund is authorized and empowered: (a) To accept or reject applications for loans from the Revolving Fund authorized by the Agricultural Marketing Act (46 Stat. 11; 12 U. S. C. 1141–1141j), in whole or in part, and to make commitments therefor; to designate such officers of the Revolving Fund Section as he may deem necessary and to prescribe their authority and duties; to execute, either in person or through such officer as he may authorize, instruments for the release, modification, renewal, or revival of real and chattel mortgages, pledges, and other lien instruments, and such other documents as may be necessary to carry out the functions of his office, and all such instruments and documents heretofore executed are ratified and confirmed; and to perform any and all functions and duties, in accordance with law, which the Governor of the Farm Credit Administration is authorized to perform with respect to the administration of the Revolving Fund Section of Farm Credit Administration and of the Agricultural Marketing Act Revolving Fund, except the signing of vouchers for the disbursement of money from the Revolving Fund; and (b) to perform any and all functions and duties, in accordance with law, which the Governor of Farm Credit Administration is authorized to perform under the regulations of the Secretary of Agriculture issued pursuant to the provisions of an act of Congress approved December 20, 1944 (58 Stat. 836; 12 U. S. C., Sup. 1150–1150c), insofar as the said act and regulations apply to indebtedness administered by the Revolving Fund Section, and to redelegate any or all of said functions and duties in accordance with said regulations. (Sec. Memos. 846, Jan. 6, 1940, 1086, Apr. 26, 1943)

§ 3.22 *Official acts of Treasurer and Assistant Treasurer of the Revolving Fund ratified.* The office of "Treasurer and Disbursing Officer for the Revolving Fund of the Federal Farm Board," created by a resolution of the Federal Farm Board, adopted November 12, 1929, and the office of "Assistant Treasurer and Deputy Disbursing Officer for the Revolving Fund of the Federal Farm Board," created by a resolution of the Federal Farm Board, adopted March 17, 1930, are hereby discontinued. All official acts of said officers (also entitled Treasurer and Assistant Treasurer of the Agricultural Marketing Revolving Fund and Treasurer and Assistant Treasurer of the Revolving Fund) and in particular all instruments executed by the persons occupying said offices, for the release, modification, renewal, or revival of real or chattel mortgages, pledges, or other lien instruments, are hereby ratified and confirmed. (Sec. Memos. 846, Jan. 6, 1940, 1086, Apr. 26, 1943)

§ 3.23 *Functions, powers, authorities, and duties of the Director and the Assistant Director of the Regional Agricultural Credit Division.* The Director of the Regional Agricultural Credit Division of the Farm Credit Administration is authorized and empowered, subject to the jurisdiction and control of the Governor of the Farm Credit Administration, to execute and perform all functions, powers, authority, and duties which the Governor of the Farm Credit Administration is authorized to do and perform relative to all matters and things arising in connection with the administration of the regional agricultural credit corporations and the provisions of law pertaining thereto.

The Assistant Director of the Regional Agricultural Credit Division of the Farm Credit Administration is authorized and empowered to execute and perform all functions, powers, authority, and duties pertaining to the office of the Director of the Regional Agricultural Credit Division of the Farm Credit Administration in the event the Director is unavailable to act, by reason of absence from the Washington office of the Farm Credit Administration, or for any other cause.

§ 3.24 *Designation of Acting Director, Assistant Director, and Acting Assistant Director of the Regional Agricultural Credit Division.* Arthur C. Sullivan, in addition to his functions as Deputy Intermediate Credit Commissioner, is hereby designated to serve as Acting Director of the Regional Agricultural Credit Division in the absence of C. C. Jacobsen, Director of said Division, and in that capacity he is hereby authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Director of the Regional Agricultural Credit Division in the absence of C. C. Jacobsen.

The designation of Robert T. Hall as Assistant Director of the Regional Agricultural Credit Division, heretofore made as of June 16, 1939, is hereby confirmed and continued, and all acts done by him in that capacity are hereby ratified and approved; and he is hereby authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of Director of the Regional Agricultural Credit Division in the absence of C. C. Jacobsen and Arthur C. Sullivan.

The designation of C. W. Bachman to serve as Acting Assistant Director of the Regional Agricultural Credit Division, heretofore made as of October 17, 1942, is hereby confirmed and continued, and all acts done by him in that capacity are hereby ratified and approved; and he is hereby authorized to execute and perform (in addition to his functions as Special Representative of the Regional Agricultural Credit Corporation of Minneapolis, Minnesota) all functions, powers, authority, and duties pertaining to the office of Director of the Regional Agricultural Credit Division in the absence of C. C. Jacobsen, Arthur C. Sullivan, and Robert T. Hall. (Sec. Memo. 846, Jan. 6, 1940)

§ 3.25 *Functions, powers, authority, and duties of Chief, Administrative Division.* The Chief, Administrative Division, is authorized and empowered:

(a) To supervise and direct the Administrative Division.

(b) To consult and advise with the Governor, deputy governors, and division heads, on matters pertaining to the organization of new activities, the reorganization of existing activities and offices, and general administrative policies.

(c) To sign letters of authorization for travel.

(d) To sign contracts covering the procurement of goods, space, and services other than personnel. (Sec. Memo. 846, Jan. 6, 1940)

§ 3.26 *Functions, powers, authority, and duties of Assistant Chief, Administrative Division.* The Assistant Chief, Administrative Division, is authorized to execute and perform all functions, powers, authority, and duties pertaining to the office of the Chief, Administrative Division, in the event the Chief, Administrative Division, is unavailable to act by reason of absence from the central office of the Farm Credit Administration or for any other cause. (Sec. Memo. 846, Jan. 6, 1940)

§ 3.27 *Authority of Chief Clerk and Assistant to the Chief Clerk to issue certificates.* The Chief Clerk and the Assistant to the Chief Clerk of the Farm Credit Administration are hereby authorized to execute and issue under the seal of the Farm Credit Administration, statements (a) authenticating copies of, or excerpts from, official records and files of the Farm Credit Administration; (b) certifying, on the basis of the records of the Farm Credit Administration, the effective periods of regulations, orders, instructions, and regulatory announcements; and (c) certifying, on the basis of the records of the Farm Credit Administration, the appointment, qualification, and continuance in office of any officer or employee of the Farm Credit Administration, or any conservator or receiver acting under the supervision or direction of the Farm Credit Administration. (Sec. Memos. 846, Jan. 6, 1940, 1086, Apr. 26, 1943)

§ 3.28 *Attestation of signatures of officials.* The Chief Clerk and the Assistant to the Chief Clerk of the Farm Credit Administration are hereby authorized to sign official documents and to affix the seal of the Farm Credit Administration thereon for the purpose of attesting the signatures of officials of the Farm Credit Administration. (Sec. Memos. 846, Jan. 6, 1940, 1086, Apr. 26, 1943)

Sec.

4.1 Officers and employees of Farm Credit Administration and of corporations functioning thereunder.
4.2 Information regarding personnel.
4.3 Information regarding borrowers and applicants for loans.
4.4 Officer or employee summoned as witness.
4.5 General information.
4.6 Submittals and requests.
4.7 Official records.

AUTHORITY: §§ 4.1 to 4.7, inclusive, issued under sec. 6, 47 Stat. 14, sec. 17, 39 Stat. 375, sec. 2, 42 Stat. 1459, secs. 1–43, 48 Stat. 257, et seq., as amended, sec. 4, 46 Stat. 13, sec. 201 (c), 47 Stat. 713, sec. 6, 44 Stat. 803; 12 U. S. C. 665, 831, 1101, 1131–1138f, 1141b, 1148, 7 U. S. C. 456.

§ 4.1 *Officers and employees of Farm Credit Administration and of corporations functioning thereunder.* (a) Except as specifically authorized by law or rules and regulations promulgated thereunder, no officer, employee, or agent of the Farm Credit Administration or of any corporation under its supervision and control:

(1) Shall, in any manner directly or indirectly, participate in the deliberation upon, or the determination of, any question affecting his personal interest, those of any person related to him by blood or marriage, or those of any partnership, association, or any corporation in which he is directly or indirectly interested;

(2) Shall divulge to another person, except in the performance of his official duties, or utilize for his personal benefit or that of another, any fact or information acquired by such officer, employee, or agent, directly or indirectly, by virtue of his employment;

(3) Shall speculate, directly or indirectly, in any agricultural commodity or product thereof, or in contracts relating thereto, or in the stock or membership interests of any association or corporation engaged in handling, processing, or disposing of any such commodity or product;

(4) Shall, by any agreement or arrangement whatever, divide or share, directly or indirectly, with another person any compensation or other emolument received by such officer, employee, or agent for or on account of services rendered in the performance of his official duties;

(5) Shall accept or receive any salary, fee, commission, honorarium, or substantial gift, or other benefit for any purpose or in any way, directly or indirectly, from any borrower from or debtor to the Farm Credit Administration or any such corporation, or from any loan applicant or representative thereof.

(b) In this connection, particular attention is directed to the following provisions of law containing the Federal penal provisions which relate particularly to officers, employees, and agents of the Farm Credit Administration and the corporations under its supervision and control: section 31 of the Federal Farm Loan Act (39 Stat. 382; 12 U. S. C. 981) as amended; paragraphs (a) to (e), inclusive, of section 211 of the Agricultural Credits Act of 1923 (42 Stat. 1459; 12 U. S. C. 1121–1125) as amended; paragraphs (b), (c), and (d) of section 15 of the Agricultural Marketing Act (46 Stat. 18; 12 U. S. C. 1141j); section 3 (b) of the Act of February 3, 1933 (47 Stat. 795); section 10 (g) of the Act of May 12, 1933 (Agricultural Adjustment Act) (48 Stat. 37; 7 U. S. C. 610); and paragraphs (a), (c), (e), and (f) of section 64 of the Farm Credit Act of 1933 (48 Stat. 267; 12 U. S. C. 1138d).

§ 4.2 *Information regarding personnel.* Lists of employees shall not be released by a division, office, or corporate unit of the Farm Credit System without the approval of the Governor, a deputy governor, or a commissioner having general supervision over such division, office, or corporate unit. This section is subject to the exceptions set forth in paragraphs (a) to (d), inclusive, of this section.

(a) Federal and State taxing authorities shall be supplied, on request, with the names, addresses, and compensation of the officers, agents, and employees of any association, bank, or corporation. Requests for similar information shall be forwarded to the Farm Credit Administration at Washington, D. C., when they relate to personnel of the Federal Farm Mortgage Corporation or of the Farm Credit Administration (including registrars, reviewing appraisers, and examiners).

(b) A Federal land bank may release lists of the national farm loan association of its district, and their secretary-treasurers; and for use in connection with the nomination and election of members of a district farm credit board by national farm loan associations, a Federal land bank may release lists of the presidents and directors of national farm loan associations of its district.

(c) A production credit corporation may release lists of the production credit associations of its district, and their secretary-treasurers; and for use in connection with the nomination and election of members of a district farm credit board by production credit associations, a production credit corporation may release lists of the presidents and directors of production credit associations of its district.

(d) A bank for cooperatives may release lists of cooperative associations which hold stock in the bank or which have subscribed to its guaranty fund, and lists of the presidents of such cooperative associations, for use in connection with the nomination and election of members of a district farm credit board.

§ 4.3 *Information regarding borrowers and applicants for loans.* Every bank, association, corporation, and loan office of the Farm Credit System, its officers, directors, and employees, shall hold in strict confidence all information regarding the character, credit standing, and property of borrowers and applicants for loans, and shall not exhibit or quote the following listed documents: loan applications; supplementary statements by applicants; letters and statements relative to the character, property, and credit standing of borrowers and applicants; recommendations of loan committees; and reports of inspectors, fieldmen, and appraisers. This section is subject to the exceptions set forth in paragraphs (a) to (j) of this section.

(a) Examiners and other accredited representatives of the Farm Credit Administration shall have free access to all information, records, and files.

(b) Accredited representatives of the following offices of the United States Government, at their request, may be given information pertinent to official investigations of individual cases by such offices, and may be permitted to examine such portions of the records and files as contain the pertinent information: Secret Service and Bureau of Internal Revenue, Treasury Department; Federal Bureau of Investigation, Department of Justice; and Office of the Chief Inspector, Post Office Department. Before information is given to any such representative, he should be required to present his official identification card, and to make a written request identifying the individual case on which information is sought and the particular information desired and certifying that such information is pertinent to the official investigation of that case and is requested for confidential use of the investigating office.

(c) Accredited employees of bureaus and offices of the United States Department of Agriculture (other than the Farm Credit Administration) may be supplied with statistical data and impersonal information concerning borrowers, applicants, and loans, when such information is requested for a stated official purpose. If it appears that undue work would be involved in assembling the desired information, the request should be handled as follows: in the case of a national farm loan association, referred to the Federal land bank; in the case of a production credit association, referred to the production credit corporation; in the case of a regional agricultural credit corporation, referred to the Director, Regional Agricultural Credit Division; and in the case of any unit of a district Farm Credit Administration, referred to the appropriate commissioner. Thus, if the matter is not readily adjusted in the field, the appropriate Farm Credit Administration official in the central office may consult the head of the requesting unit, and agree upon a practical method of cooperation.

(d) The general agents and the presidents of the Federal land banks, Federal intermediate credit banks, production credit corporations, and banks for cooperatives may supply statistical and other impersonal information pertaining to groups of borrowers, applicants, and loans, in response to requests from any department or independent office of the Government of the United States, with the understanding that the information is requested for official use, and that it will not be published. Such information may be given in response to requests from non-Government sources, but only with the approval of the Governor, a deputy governor, or the appropriate commissioner.

(e) Full information concerning individual borrowers may be given for the confidential use of any bank, association, corporation, or loan office of the Farm Credit System, or any other Government agency, in response to inquiries made in contemplation of the extension of credit or the collection of loans. To the extent that such information relates to the character and personal traits of a borrower, it shall be ascribed to reports from unnamed sources believed to be reliable, and shall be accompanied by the statement that no responsibility is assumed for the accuracy of such reports.

(f) Information may be given in confidence to reliable private institutions (lending and mercantile) concerning the amount, terms, and payment records of loans to individual borrowers, in response to inquiries made in contemplation of the extension of credit.

(g) Credit information concerning any institutional borrower (including cooperative associations) may be given when such borrower consents thereto in writing: *Provided, however,* That opinions as to the ability of such borrower to meet its obligations and commitments may be given to creditors and prospective creditors of such borrower without its consent upon the following conditions: (1) that the opinion is to be held in strict confidence by the creditor or prospective creditor; (2) that the opinion is for the private use of the creditor or prospective creditor; and (3) that the opinion be accompanied by a statement that no responsibility for its accuracy is assumed.

(h) The loan application and any supplementary statements signed by a borrower may be examined and their contents may be proved in court by the borrower who signed them, or by his accredited representative, or by the successor in interest of a deceased borrower.

(i) An unsuccessful loan applicant, or a person authorized to inquire in his behalf, may be informed of impersonal credit factors which caused the rejection of his application, but if a loan is denied because of the applicant's personal shortcomings, no explanation may be made which would tend to defame his character or betray the confidence of an informant.

(j) In litigation between a borrower (or his successor in interest) and the United States or a bank or association of the Farm Credit System, any competent evidence may be introduced on behalf of either party with respect to any relevant statements made orally or in writing by or to the borrower or his successor.

§ 4.4 *Officer or employee summoned as witness.* If an officer or employee of any association, bank, corporation, or loan office of the Farm Credit System is summoned as a witness in litigation to which neither the Government nor any farm credit agency is a party for the purpose of testifying and/or producing documentary evidence with respect to matters which he is forbidden by these regulations to disclose, he shall arrange, if possible, with counsel who obtained the summons, to be excused from testifying. If such arrangement cannot be made, the officer or employee shall appear in response to the summons, and respectfully decline to give any testimony or produce any documents containing information which is designated as confidential by these regulations. Immediately upon receiving any such summons, the officer or employee shall notify counsel for the agency with which he is connected, requesting advice and assistance, and for this purpose, the officers and employees of national farm loan associations and production credit associations shall consult counsel for the appropriate Federal land bank or production credit corporation.

§ 4.5 *General information.* Information regarding the Farm Credit Administration or any of its activities, and general information regarding any of the institutions under its supervision (named in § 2.2 of this chapter) may be obtained from the Farm Credit Administration, Washington, D. C., or from the particular institution concerned.

§ 4.6 *Submittals and requests.* Submittals and requests pertaining to the activities of the Farm Credit Administration should be sent to the Farm Credit Administration, Washington, D. C. Submittals and requests pertaining to the activities of any particular institution supervised by the Farm Credit Administration should be sent to that institution.

§ 4.7 *Official records.* The Farm Credit Administration and the several institutions under its supervision keep confidential the classes of records enumerated in §§ 4.1 to 4.4, inclusive. Information contained in other official records in the custody of the Farm Credit Administration or of a particular institution may be made available to persons directly and properly concerned upon written application to the Farm Credit Administration or the particular institution. Such application must identify the specific information sought and must show how the applicant is concerned therewith. Such applications with respect to official records in the custody of the Farm Credit Administration may be granted by the Governor or any deputy governor or by the commissioner or other division head in charge of the functions to which the records relate. Such applications with respect to official records in the custody of a particular institution may be granted by the chief executive officer of the institution.

DEFINITIONS AND DELEGATIONS OF AUTHORITY

§ 5.103–01 *Definitions; Surplus Property Act of 1944.* The following definitions are contained in the act and are adopted for the purposes of this part:

(a) The term "Government agency" means any executive department, board, bureau, commission, or other agency in the executive branch of the Federal Government, or any corporation wholly owned (either directly or through one or more corporations) by the United States.

(b) The term "owning agency," in the case of any property, means the executive department, the independent agency in the executive branch of the Federal Government, or the corporation (if a Government agency), having control of such property otherwise than solely as a disposal agency.

(c) The term "disposal agency" means any Government agency designated under section 10 of the act to dispose of one or more classes of surplus property.

(d) The term "property" means any interest, owned by the United States or any Government agency, in real or personal property, of any kind, wherever located, but does not include (1) the public domain, or such lands withdrawn or reserved from the public domain as the Surplus Property Board (created by section 5 of the act) determines are suitable for return to the public domain for disposition under the general land laws, or (2) naval vessels of the following categories: battleships, cruisers, aircraft carriers, destroyers, and submarines.

(e) The term "surplus property" means any property which has been determined to be surplus to the needs and responsibilities of the owning agency in accordance with section 11 of the act.

(f) The term "contractor inventory" means (1) any property related to a terminated contract of any type with a Government agency or to a subcontract thereunder; and (2) any property acquired under a contract pursuant to the terms of which title is vested in the Government, and in excess of the amounts needed to complete performance thereunder; and (3) any property which the Government is obligated to take over under any type of contract as a result of any change in the specifications or plans thereunder.

(g) The term "care and handling" includes completing, repairing, converting, rehabilitating, operating, maintaining, preserving, protecting, insuring, storing, packing, handling, and transporting, and, in the case of property which is dangerous to public health or safety, destroying, or rendering innocuous, such property.

(h) The term "person" means any individual, corporation, partnership, firm, association, trust, estate, or other entity.

(i) The term "State" includes the several States, Territories, and possessions of the United States, and the District of Columbia.

(j) The term "tax-supported institution" means any scientific, literary, educational, public-health, or public-welfare institution which is supported in whole or in part through the use of funds derived from taxation by the United States, or by any State or political subdivision thereof.

§ 5.103–02 *Definitions; regulations of War Assets Administrator.* The following definitions are contained in WAA revised Regulation 5 and are adopted for the purposes of the regulations in this part:

(a) "Administration" means the War Assets Administration.

(b) "Administrator" means the War Assets Administrator.

(c) "Continental United States" means the 48 States and the District of Columbia.

(d) "Former owner" means the person from whom the real property was acquired by the Government.

(e) "Nonprofit institution" means any scientific, literary, educational, public-health, public-welfare, charitable, or eleemosynary institution, any hospital or similar institution, and any volunteer fire company, (1) which is supported in whole or in part through the use of funds derived from taxation by the United States, its territories or possessions, or by any State or political subdivision thereof, or (2) which is exempt from taxation under section 101 (6) of the Internal Revenue Code.

(f) "Educational institution" means any school, school system, library, college, university, or other similar institution, organization, or association, which is organized for the primary purpose of carrying on instruction or research in the public interest, and which is a nonprofit institution.

(g) "Offer" means a written offer to purchase surplus real property or a written application by a Government agency or a State or local government requesting that such property be held for disposal to it.

(h) "Owner-operator" means a person who will personally operate and cultivate agricultural land to earn a livelihood rather than lease it to a tenant.

(i) "Priority" means the right of a person, subject to stated conditions and limitations, to purchase surplus real property to the exclusion of other persons.

(j) "Public-health institution" means any hospital, board, agency, institution, organization, or association, which is organized for the primary purpose of carrying on medical, public health, or sanitational services in the public interest, or research to extend the knowledge in these fields, and which is a nonprofit institution.

(k) "Real property" means any interest, owned by the United States or any Government agency, in real property, of any kind, wherever located, but does not include the public domain, or such lands withdrawn or reserved from the public domain as the War Assets Administration determines are suitable for return to the public domain for disposition under the general land laws. It is not limited to the definition thereof as contained in section 23 of the act.

(l) "Section 23 real property" means property consisting of land, together with any fixtures and improvements thereon (including hotels, apartment houses, hospitals, office buildings, stores, and other commercial structures) located outside the District of Columbia, but does not include (1) commercial structures constructed by, at the direction of, or on behalf of any Government agency, (2) commercial structures which the Administrator determines have been made an integral part of a functional or economic unit which should be disposed of as a whole, and (3) war housing, industrial plants, factories, airports, airport facilities, or similar structures and facilities, or the sites thereof, or land which the Administrator determines essential to the use of any of the foregoing.

(m) "State or local government" means any State, territory, or possession of the United States, the District of Columbia, and any political subdivision or instrumentality thereof.

(n) "Veteran" means any person who served in the active military or naval service of the United States during the present war, or any person who served in the active military or naval service of the United States on or after September 16, 1940, and prior to the termination of the present war, and who has been discharged or released therefrom under honorable conditions. "Veterans released" from military or naval service shall include persons on terminal leave or final furlough and those whose status has been changed from "active" to "inactive."

(o) "War housing" means real properties improved with housing structures, acquired or constructed by the Government subsequent to September 8, 1939, either (1) for the purpose of housing servicemen, war workers, and their families, or (2) by the use of funds earmarked or appropriated for the housing of persons engaged in national defense activities, and their families.

(p) "Own" business enterprise of a veteran means one of which more than fifty (50) percent of the invested capital thereof is beneficially, and not merely nominally or formally, owned by a veteran or veterans, or one of which more than fifty (50) percent of the net income thereof beneficially, and not merely nominally or formally, accrues to a veteran or veterans.

(q) "Small business" as used herein with respect to a veteran, means a veteran's own small business and may include any commercial, agricultural, or industrial enterprise or group of enterprises under common ownership or control, which does not at the date of purchase of surplus real property hereunder have more than five hundred (500) employees, or any such enterprise which, by reason of its relative size and position in its industry, is determined by the disposal agency to be a small business. The disposal agency may in its discretion apply either or both criteria in determining whether or not the applicant is a small business.

§ 5.103–03 *Definitions; regulations of Farm Credit Administration.* As used in this part:

(a) "Act" means the Surplus Property Act of 1944 as modified by the act of Sept. 18, 1945 (Pub. Law 181, 79th Cong., 59 Stat. 533; 50 U. S. C. App. Sup., 1614a, 1614b), E. O. 9689, Jan. 31, 1946, and any other amendatory or supplementary acts or executive orders.

(b) "FCA" means the Farm Credit Administration.

(c) "Central office" means the central office of the Farm Credit Administration.

(d) "District office" means the office of the FFMC maintained in each of the 12 Federal land banks, including the Regional Director of Surplus Property Disposal and district vice president.

(e) "FFMC" or "Corporation" means the Federal Farm Mortgage Corporation.

(f) "FLB" or "bank" means the Federal land bank serving the farm credit district in which a project of surplus agricultural and forest property concerned is located.

(g) "Project" means the area included in a particular assignment which may or may not be composed of contiguous parts.

(h) "Project office" means an office established on the site of the project or at such other place as may be designated where business relating to the disposal of property in the project may be transacted.

(i) "Tract" means a separate parcel of land as acquired by the Government or any other unit established by the disposal agency in reblocking an area.

(j) "USDA" means the United States Department of Agriculture.

(k) "WAA" means War Assets Administrator or War Assets Administration.

§ 5.105–02 *Delegations of authority.* (a) An order of the Secretary of Agriculture dated April 26, 1945 (10 F. R. 4647), delegates, subject to his general supervision and direction, authority and responsibility to the Governor of the FCA, with authority to redelegate to any appropriate officer, agent, or employee of the FCA or of the USDA, including the FFMC, with a provision that the services and facilities of the Federal land banks and national farm loan associations may be used.

(b) An order of the Governor of the FCA dated April 28, 1945 (10 F. R. 4694), redelegates, subject to his general supervision and direction, authority and responsibility to FMC, with a provision that the services and facilities of the Federal land banks and national farm loan associations may be used.

(c) An order of the Governor of the FCA dated August 3, 1945, redelegates to the Land Bank Commissioner, subject to the Governor's supervision and direction, his supervisory powers related to surplus property disposal, and permits redelegation thereof to any officer or employee in the Land Bank Division of the FCA. An order of the Land Bank Commissioner, dated August 9, 1945, makes a further redelegation, subject to the Commissioner's supervision, to the Director of Surplus Property Disposal.

(d) A resolution of the Board of Directors of the FFMC adopted April 30, 1945, authorizes the President of the FFMC to act for the FFMC in executing the surplus property disposal program. An order of the President of the FFMC dated August 3, 1945, appoints the president of each Federal land bank ex officio an executive officer of the Corporation with the title of Regional Director of Surplus Property Disposal and makes the Regional Director of Surplus Property Disposal responsible for the Corporation's surplus property disposal activities in the district, subject to the supervision of the president of the Corporation. A letter from the president of the Corporation to each district vice president dated August 3, 1945, appearing in the Appendix hereto as Exhibit 33,[1] outlines the powers and duties of the district vice president and subordinates his authority and responsibility to that of the Regional Director of Surplus Property Disposal.

(e) A resolution of the Board of Directors of the FFMC adopted April 30, 1945, authorizes any vice president of the Corporation to sign deeds, leases, and other instruments in connection with the surplus property disposal program.

PURCHASE OF SURPLUS PROPERTY BY OFFICERS, EMPLOYEES, OR AGENTS

§ 5.109–01 *Purchase of surplus property by officers, employees, or agents.* No officer, employee, or agent of the Farm Credit Administration, the Federal Farm Mortgage Corporation, or any institution under the supervision of the Farm Credit Administration shall, except in the exercise of a priority right pursuant to the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App., Sup., 1611 et seq.), purchase any surplus property assigned for disposal to the Department of Agriculture as disposal agency for agricultural and forest property; and no sale of any such surplus property to any such officer, employee, or agent in the exercise of any such priority right shall be made except with the prior approval of the Farm Credit Administration.

FUNCTIONAL ORGANIZATION

§ 5.201–01 *Services and facilities of existing Farm Credit Administration units.* The units of the FCA whose services and facilities are used in the disposal of surplus property will function under the general direction of the Governor or officials designated by him. The experience of the Farm Credit Administration in connection with the servicing and selling of real estate acquired by the FFMC and the Federal land banks in the course of their regular business, the trained personnel in the various units concerned, the existing field organization, and the distribution of offices make it unnecessary to set up a special separate organization to dispose of surplus real property. Whatever services may be required should be rendered with as little disturbance to the regular organization as practicable. Such time records should be maintained as will facilitate reimbursement of all expenses.

§ 5.201–02 *Federal Farm Mortgage Corporation.* The responsibility for disposal of surplus agricultural and forest property is that of the FFMC by delegation of authority from the Governor of the FCA. The Board of Directors of the Corporation has authorized the president of the Corporation to administer the program on behalf of the Corporation. Provision has been made for the use of the facilities of the FCA and the Federal land bank and, where desired, the national farm loan associations, in the performance of the necessary operations.

§ 5.201–03 *Facilities of central office of Farm Credit Administration.* Services and facilities of the central office of the Farm Credit Administration will be used to the extent necessary or appropriate in administering the program.

§ 5.201–04 *Federal land banks.* It is expected that the services and facilities of the Federal land banks will be made available to the Corporation as needed in administering the program and in executing established policies, but the banks shall not exercise any authority or bear any responsibility of the disposal agency as such.

§ 5.201–05 *National farm loan associations.* While it is recognized that not many national farm loan association offices will be so located that their facilities can be used effectively, nevertheless in case such offices are located near project areas, it is possible that their services and facilities will be used if that is found convenient and practicable. The associations will not exercise any authority or bear any responsibility of the disposal agency as such.

§ 5.202–01 *Farm Credit Administration central office organization.* (a) The Governor of the FCA exercises general supervision and direction of the program and as President of the FFMC exercises the Corporation's authority and is responsible for actions taken in its name.

(b) The Land Bank Commissioner, subject to the supervision and direction of the Governor, is responsible for the direction and supervision of the disposal program, using the facilities of the Land Bank Division and appropriate service divisions of the FCA, and supervises the Federal land banks (and national farm loan associations when used) in the discharge of their responsibilities in rendering services to the FFMC.

(c) The Director of Surplus Property Disposal, under supervision and direction of the Land Bank Commissioner, exercises supervision and direction of disposal program; advises with representative of WAA and with the office of Assistant Secretary of Agriculture on operations; advises with USDA agencies and other Government agencies concerned; advises with FCA service units; is responsible for assembling of data and preparation of necessary reports, maintenance of necessary control records and files, correspondence, and the formulation, preparation, and issuance of appropriate regulations; makes recommendations on policies and procedures to Land Bank Commissioner.

(d) *Service units*—(1) *Legal.* Legal services to the FCA and FFMC in connection with the disposal of surplus agricultural and forest property will be rendered by the Office of the Solicitor.

(2) *Appraisal.* The Appraisal Subdivision will render assistance in developing policies and operating procedures relating to appraisal; exercise general su-

[1] Not filed with the Division of the Federal Register.

pervision over appraisers; cooperate with the banks in arranging for appraisal services as needed; make field reviews of appraisal work; and render such other services relating to appraisals as may be deemed advisable.

(3) *Real estate service and sales.* This section of the Land Bank Division will assist in developing policies and procedures relating to leasing, care and handling, and sale of real property; advise with the Federal land banks on operating problems; and render such other services as may be considered advisable.

(4) *Finance and accounts.* The Finance and Accounts Division will be responsible for developing a manual of accounts in cooperation with the field units responsible for accounting operations; for maintenance of necessary accounts in the central office; for assembling necessary data for the preparation of reports; for general supervision of accounting operations; and for such other assistance on fiscal problems as may be necessary.

(5) *Examination.* (i) The operations of Farm Credit Administration, Federal Farm Mortgage Corporation, Federal land banks, and national farm loan associations relating to surplus property disposal shall be included within the scope of the examinations of these agencies conducted by the Examination Division of the Farm Credit Administration. The Examination Division is designated the compliance organization to perform the functions and duties required by Surplus Property Administration Regulation 15, dated November 16, 1945, and any other related requirements of the Surplus Property Administrator, the Department of Agriculture, or the Farm Credit Administration.

(ii) Section 5 of SPA Regulation 15, dated November 16, 1945 (32 CFR, 1945 Supp., 8315.5) provides that subject to the provisions set forth in 32 CFR, 1945 Supp., 8315.6, the Examination Division shall perform such investigatory functions as are necessary to insure compliance with the provisions of the act and with the regulations, orders, directions, and policy statements of the Administrator including:

(a) Periodic surveys of field unit disposal operations, to prevent or correct irregularities in the disposition of surplus property.

(b) Such special investigations as the agency or the Administrator may consider necessary to insure the observance of prescribed disposal procedures.

(c) Investigations upon the receipt of complaints or information from any source indicating irregular or improper disposal of surplus property.

(6) *Personnel.* Personnel actions will be processed in accordance with established procedure of the Farm Credit Administration.

(7) *Information and extension.* This division will render appropriate assistance with reference to publicity and advertising.

(8) *Files and clerical.* Such services as may be necessary to maintain adequate files, conduct necessary correspondence and other clerical service will be rendered by the sections engaged in similar work for the FCA.

§ 5.203–01 *District organization.* (a) The president of the Federal land bank, as president of the Federal land bank, is responsible for the services rendered by the bank in executing the disposal program; and as regional director of Surplus Property Disposal of the FFMC, exercises general supervision and direction of the program on behalf of the FFMC, under general direction of the President of the FFMC.

(b) The district supervisor of Surplus Property Disposal, under the direction of the president of the FLB, exercises direction and supervision of the services and facilities of the bank and the national farm loan associations in connection with surplus property disposal in the district; advises with service units of the FLB; communicates with district U. S. Engineer's office concerning available information on particular projects; advises with FCA central office on operations problems, including proposed communications and contacts with other Government agencies; makes recommendations on prices and offers to purchase to vice president of FFMC and on any other transactions requiring the approval of the FFMC.

(c) The project manager, under the direction of the District Supervisor of Surplus Property Disposal, is responsible for field operations, arranging for appraisals, recommending prices and sales offers; maintenance of field records and correspondence; and other activities as may be assigned.

(d) The district vice president of FFMC, under the general direction of the Regional Director of Surplus Property Disposal of FFMC, takes such official action on behalf of the Corporation as may be assigned by the regional director, including approval of prices and signing of instruments and documents in accordance with established procedure.

(e) The district service units will render such service as may be necessary and advisable in discharging the responsibilities of the banks and associations to the FFMC. These service units include legal, personnel, appraisal, accounting, association service division, files, and clerical and records. It is expected that it will ordinarily not be necessary to assign personnel on a full-time basis or to create new sections for the purposes of the disposal program.

PREPARATORY STEPS

§ 5.301–01 *Receipt of declaration by disposal agency.* After real property is declared surplus by the owning agency, reported to the WAA, and classified by it, two copies of the declaration (WAA Form 1005 or Form SPB 5), with accompanying schedules, will be forwarded by the WAA to the FCA, either to the central office or in care of one of the Federal land banks. If the copies of the declaration are sent to the central office, it will reproduce such information as it deems necessary for its use and forward both copies of the declaration to the district supervisor. Date of assignment will be the date the declaration is received by the FCA.

§ 5.302–01 *Obtaining information from owning agency.* Section 10 (d) of SPA Revised Regulation 5 (32 CFR, Supps., 8305.10 (d)) provides that, upon request of the disposal agency, the owning agency shall immediately supply the disposal agency with the originals or true copies of all information and documents pertaining to the surplus real property in the possession of the owning agency and copies of which have not been filed with the declaration. Upon receipt of the copies of the declaration, the district supervisor will request from the owning agency originals or true copies of all such information and documents. This material ordinarily will include appraisal reports, maps, abstracts of title, tax receipts, affidavits of title, copies of judgment in condemnation proceedings, and other title papers relating to the property. In instances where the War Department is the owning agency, requests for abstracts of title or other title papers should be addressed to the Office of the Chief of Engineers, Attention: Director of Real Estate, Washington 25, D. C.

§ 5.302–02 *Return of documents to owning agency.* Any papers or documents which the owning agency requests be returned to it shall be returned promptly when there is no further need for them in connection with the disposal operations.

§ 5.303–01 *Assumption of custody and control of property.* Upon the filing of a declaration of surplus real property, the War Assets Administration shall work out with the owning agency mutually satisfactory arrangements for the assumption by the Administration of the custody and control of, and accountability for, the property covered by such declaration. After assumption of custody and control of the property, the Administration shall be responsible for the care and handling of such property pending its disposition or pending its assignment, in whole or in part to another disposal agency. When surplus real property is assigned to the Farm Credit Administration as disposal agency, the district supervisor shall promptly work out by agreement with the appropriate regional office of the WAA mutually satisfactory arrangements for the disposal agency's assumption of the physical custody and control of, and accountability for the property covered by the declaration of assignment. This acceptance of accountability should be signed by the district vice president of the Federal Farm Mortgage Corporation.

§ 5.303–02 *Repairs and improvements.* The disposal agency shall make repairs necessary for the preservation and maintenance of the property; no disbursement may be made for these purposes without the approval of the district office. The disposal agency is not authorized to expend any funds for improvement of real property declared to it as surplus or for the erection of structures thereon, except as may be specially authorized by the WAA.

§ 5.303–03 *Leasing.* In proper cases the disposal agency may lease or grant

permits on the property as provided in § 5.610–01, et seq.

§ 5.303–04 *Insurance.* In accordance with the general policy of the Government not to incur expense for the insurance of public property, insurance shall not be obtained or carried on improvements at Government expense.

§ 5.304–01 *Descriptions.* The disposal agency shall obtain the full and correct legal description of the property to be disposed of and take the steps necessary to determine its exact location and area.

§ 5.305–01 *Surveys.* Surveys shall be made when necessary and markers or monuments placed upon the ground in order to establish the boundaries of tracts as acquired by the Government. Ordinarily it will not be advisable to make the survey prior to appraisal in order that appraisals may conform to the area of the original tracts.

§ 5.306–01 *Subdivisions; economic units.* For disposal to other than Government agencies, State or local governments, former owners or tenants, surplus real property shall be subdivided by the disposal agency into appropriate units for disposal. Section 23 real property classified as suitable for agricultural use shall be subdivided by the disposal agency into economic family-size units wherever practicable. The size of such units may vary according to the conditions and farming practices in the locality where the land is situated. Section 23 real property not classified as suitable for agricultural use shall be subdivided or regrouped into appropriate units considering the character of the property, the use or uses to which it may be put, and the possibility of giving veterans and those who will use the property personally a fair opportunity to acquire and utilize the property. Plans for repatterning should be developed as soon as practicable after the disposal agency receives the declaration of surplus and the actual work of repatterning should be completed at the earliest possible date after the expiration of the priority period. Repatterning may be delayed if it appears that the property will be absorbed by the priorities of Government agencies, State or local governments, former owners, or tenants.

§ 5.306–02 *Contacts with other agencies.* In repatterning real property into economic family-size units, consideration shall be given to any available information published by the Department of Agriculture relating to economic size of farms in the area concerned. Ordinarily it will be desirable to confer on the site with representatives of the Bureau of Agricultural Economics, Soil Conservation Service, Agricultural Extension Service, and local representatives. In most instances agencies of the Department would be represented in such conferences by persons from regional offices of the agencies. Arrangements for such conferences and requests for information should be made by the district supervisor through the central office of the Farm Credit Administration except that any State and local contacts may be made direct.

§ 5.307–01 *Notice and advertisement; wide publicity.* The disposal agency shall avail itself of all suitable means to give wide publicity to the availability for disposal of surplus real property.

§ 5.307–02 *Publication of notice.* Except where a transfer is requested by a Government agency, the disposal agency, upon receipt of a declaration of surplus real property, shall promptly and widely publicize the property, giving information adequate to inform interested persons of the general nature of the property and its possible uses. Such publicity shall be by public advertising and also may include press releases, display advertisements, and other appropriate means which it is customary to use in advertising public notices of sale. Public advertising shall consist of a sale notice containing substantially the matter set forth in exhibit 34,[1] including a reservation of fissionable materials, as provided in 32 CFR, Supps. 8305.12 (f) (5). With respect to other than section 23 real property, including structures to be disposed of separate from land, such notice shall be published one or more times during the 10 days following the date of the first publication. With respect to section 23 real property, exclusive of structures to be disposed of separate from land, such notice shall be published at least three times during the 90 days following the date such notice is first published, at approximate intervals of 21 days, unless a Government agency or State or local government exercises its priority to acquire the property within the prescribed 10-day priority period for such claimants. The priority chart set forth in exhibit 35[1] hereof may be used as a guide in preparing the notice for publication. Ordinarily it will not be necessary to include all the information in the chart in any one notice. For example, if the declaration indicates that all tracts within the project area were acquired by the Government on or before December 31, 1939, it will not be necessary in preparing the notice to call attention to the priorities applicable only to section 23 real property acquired after that date.

§ 5.307–03 *Notice of sale.* In the "Notice of Sale" the FFMC shall be indicated as the disposal agency. If an office is established on the site, the address of the office, and ordinarily the name of the project manager, shall be shown in the notice for the benefit of persons seeking information about the project. If no project office is established on the site and a project manager will not be available there, such other address shall be indicated as will enable all persons to obtain information readily. The notice of sale shall be signed by the district vice president of the FFMC authorized by order of the Secretary of Agriculture to contract with the newspaper for advertising space.

§ 5.307–04 *Advertising order.* The disposal agency shall arrange with the newspapers selected for the publication of the notice of sale on Government Advertising Order, Standard Form No. 1053.

[1] Not filed with the Division of the Federal Register.

§ 5.307–05 *Payment of public voucher for advertising.* The following forms set forth the requirements to be met as a condition to payment of the voucher:

Statement of Advertising Rates—Std. Form No. 1052.
Public Voucher for Advertising—Std. Form No. 1054 (white copy).
Public Voucher for Advertising—Std. Form No. 1054a (yellow memorandum copy).

Standard Form No. 1052 requires that the publisher file with the department or office a sworn statement of his advertising rates which must be the commercial rates charged to private individuals with the usual discounts. After this sworn statement is once filed with the district office and space is again purchased from the same newspaper, it will not be necessary for the publisher to again file his sworn statement of advertising rates unless there has been a change in the rates charged subsequent to the filing of the last statement. The district office should determine that Standard Form No. 1054 has been properly completed by the publisher and that a clipping from the publication is pasted thereon; if the voucher is to be supported by a Standard Form No. 1052 previously received from the publisher, appropriate indication that a form 1052 is on file, and the date thereof, should be stated in the block provided for additional statements by the Corporation. The district vice president of the Federal Farm Mortgage Corporation should execute the certifications at the bottom of the voucher. The bank should retain in its files, as evidence of its payment as agent of the Corporation, a copy of the notice originally submitted to the publisher, a copy of the advertising order, and the voucher, to which should be attached a copy of the notice published.

§ 5.307–06 *Authority for payment of public voucher.* Authority is furnished the vice president of the Federal Farm Mortgage Corporation to sign Standard Form No. 1053 in contracting for newspaper space under order of the Secretary of Agriculture dated September 7, 1945 (10 F. R. 11415). Copies of this order may be used as required in furnishing the publisher with evidence of the authority of the officer in contracting for newspaper space. Ordinarily the information to be furnished on the advertising order showing the date of authority to advertise should be sufficient evidence to the publisher of the authority of the officer contracting for newspaper space. Ordinarily, in purchasing advertising space from a particular newspaper arrangements should be made for the four publications of the notice at the time of submitting the advertising order. This would obviate the necessity of furnishing the same newspaper with additional advertising orders and provide for the payment of one voucher covering the total cost of the four publications required.

§ 5.307–07 *Selection of newspapers.* In selecting the newspaper in which to publish the notice and advertisement, consideration should be given to the total circulation of newspapers and to the coverage of the general area in which

the project is located. Within the discretion of the district office the notice may be in the form of a display ad or a legal notice depending upon the circumstances, with due regard for the need for economy.

§ 5.307–08 *Notice by mail.* Where (a) a transfer is requested by one of the armed forces for national defense purposes prior to the conclusion of peace, its need being recognized as paramount, or (b) a transfer is requested by the National Housing Administrator pursuant to Public Law 292, 79th Congress (59 Stat. 674; 42 U. S. C. Sup., 1572), no notice to other Government agencies is required. In all other cases where a transfer is requested by a Government agency, the disposal agency shall send (not publish) a notice of availability by mail to all Government agencies listed in exhibit 36 [1] of the regulations in this part. When publication is required, as provided by § 5.307–02, at the time of the first publication of the notice, the disposal agency shall send a copy of the notice by mail to all Government agencies listed in exhibit 36 hereof, to the State and the political subdivision in which the property is located, and to the former owner when he is entitled to priority. The notice to the former owner shall be sent by registered mail to his last known address with return receipt requested. Where the former owner is outside the continental United States, a copy of the notice to the former owner may be sent to the spouse at the last known address. Notices to the State governments shall be addressed to the Secretary of State, and those to political subdivisions of a State should be addressed to appropriate officers. In order to bring to the attention of the proper officials the special priority of State and local governments in reestablishing highways or streets, a covering letter to the Secretary of State should be sent with the notice of sale, advising him that no additional notice has been mailed to the other State officers and requesting that he bring this matter to the attention of the appropriate State officials who might be interested. Also a copy of the notice should be sent by registered mail to the county highway commissioners and other appropriate officials of incorporated cities or municipalities or other political subdivisions in which the property is located. Such notices should be accompanied by a covering letter, which may be a circular letter, calling attention to the special priorities provided by the act and regulations and quoting the pertinent portion of WAA Regulation 5, section 11 (32 CFR, Supps., 8305.11). If there is any question as to the political subdivisions within a State, information should be requested from the Secretary of State prior to sending out notices.

§ 5.307–09 *Form of notice by mail.* Where publication is not required, as provided in §§ 5.307–02 and 5.307–08, the form of notice shall be prepared in substantially the same form as that prescribed for publication. Where publication is required, a copy of the notice published in newspapers will be sufficient to constitute appropriate notice by mail. In order that these notices may be mailed as of the date of publication in newspapers, the district office should request preprints from the newspapers in sufficient quantity to cover its needs for all notices by mail. One preprint of each notice as first published shall be mailed to the central office for its records, and one should be retained in the project file in the district supervisor's office. In the event preprints cannot be obtained, copies of the notice may be prepared in appropriate form and substituted for the preprints in meeting the requirements of this section.

§ 5.307–10 *Additional notice.* If the disposal agency decides to permit priority holders who have not exercised their priorities during the priority period to submit offers after such period has expired, such additional notice may be given to priority holders as the disposal agency shall deem proper.

§ 5.308–01 *Time when, and nature of, information to be made available.* Every effort shall be made to have available in the office of the officer having charge of the disposal, as soon as possible after notice of availability is first published, all necessary information concerning the property. This shall include the appraised value of the property, the unit sizes in which the property will be sold to various classes of purchasers, the priorities and the time and method of exercising them, the maximum prices which may be charged different priority buyers, and all other terms and conditions of sale. Any person shall be entitled, upon request, to receive such information or have access thereto at all reasonable times, as well as information concerning offers, exercises of priorties, and sales that have been made at the time of the inquiry.

APPRAISALS

§ 5.401–01 *Application of established policies and standards.* The policies, standards, definitions, and basic methods for determining values as established and used in the regular appraisal work of the FCA shall be followed in appraising surplus agricultural and forest property insofar as they are applicable to particular situations.

§ 5.401–02 *Scope of information.* Because of the numerous priority rights established by the act, it is important that appraisers develop complete information and data which may affect any of the values established for each property. Appraisal reports should reflect full information on all factors which have a bearing upon the appraiser's conclusions as to values established.

§ 5.401–03 *Developing information.* The act establishes rights to be accorded various groups of priority holders and the regulations provide that information regarding the appraised value of property, unit sizes in which the property will be sold to various classes of purchasers, and the maximum prices which may be charged different priority buyers shall be made available to anyone who requests it. Accordingly, in developing appraisal information the appraiser should refer to all available sources in order that the conclusions reached may be supported by valid evidence. It is particularly important that the damage or benefit to property as a result of action by the United States be fixed only after thorough consideration of the original appraisal data, the results of court action in case of condemnation proceedings, and of any available information furnished by the former owner, the former tenant, or others in the community.

§ 5.402–01 *Current market value.* (a) This value is the highest price the property will bring in terms of money if offered for sale in the open market with reasonable time to find a purchaser, buying with knowledge of the uses and purposes to which it is adapted and for which it is capable of being used. The appraiser should approach the problem from the viewpoint of the average buyer or seller in the community. Emphasis should be placed upon those factors affecting the sale price of the particular property, such as the productivity and earning power of the land, and proximity to towns and real estate developments. Consideration should be given to the highest and best use to which the property is reasonably adapted. Actual sales of similar properties in the community are the best evidence of market value. The appraiser should have intimate knowledge of recent sales and prices for which properties are offered for sale. When no recent transfers have been made, sales of more remote date may be used provided consideration is given to the trend of real estate values from the time of such sales to the date of appraisal. The sales information should be verified, the subject property inspected, and the conditions determined under which the transfers were made. It is believed that sales where the soil is of similar type and productivity can be used by making appropriate adjustments to compensate for differences, such as the absence of community advantages, the lack of buildings, or the fact that the land may be somewhat out of condition. Comparative studies of such information should be helpful in estimating the value of the particular property and in substantiating the conclusions reached.

(b) The appraisal supervisor will be responsible for the development of a list of comparable sales where practicable, to be used by the appraisers and other project personnel. To be of most value to those who will use it, the list should include the actual transfer data as taken from the records, a statement as to whether the sales data was verified, including any special conditions under which the transfer was made, and a brief general description of the property transferred. The list should be accompanied by a map showing the location of the listed properties in relation to the project. In view of the great variation among projects, it will be discretionary with the project appraisal supervisor as to whether the complete list or portions thereof be included in the individual appraisal reports. At any rate, the list should be made a matter of record in the project office, and two copies should be furnished the chief reviewing appraiser.

§ 5.402–02 *Adjusted value to be used as basis for price to former owners and tenants.* (a) In cases of section 23 real property acquired by the Government after December 31, 1939, former owners, or the spouse and children of deceased former owners, and tenants of former owners at the time of acquirement are entitled to purchase substantially the identical tract which the Government acquired from them, at the lower of (1) current market value or (2) the price for which the property was acquired by the Government, adjusted to reflect any increase or decrease in the value of such property resulting from action by the United States. In order to establish this price it is necessary to make a determination as to the effect on the value of the property, which was acquired by the Government and which has been assigned for disposal, of any improvement or damage resulting from action by the United States.

(b) The acquisition price shall be the basis for determining this adjusted value regardless of whether such acquisition price was based on the value in the acquisition appraisal report or was fixed by negotiation or by court action. The land, building, and unit values shown in the acquisition appraisal report will furnish evidence as to their relative value at the time of acquirement, which should prove helpful to the appraiser in the determination of adjusted value.

(c) In those cases where only a portion of the original tract acquired by the Government is being disposed of, the acquisition price of the portion to be sold will be determined by prorating the purchase price of the whole tract on the basis of the relative value of each portion at the time of acquisition. In most cases a study of the original acquisition appraisal report in conjunction with a field inspection will be required in order to properly determine the relative proportion of the acquisition price assignable to the part to be sold. This proportionate amount shall thereafter represent the acquisition price of the tract to be disposed of.

(d) In those cases where only a part of a farm was acquired by the Government, the acquisition price shall include any amount which may have been allowed for "severance damage." "Severance damage" may be defined as the amount paid by the Government over and above the value of the portion taken, representing payment for damages to the remainder caused by the taking. While the methods perhaps varied considerably, the general practice in connection with appraisals made at the time of acquisition by the Government, where the case involved a partial taking, consisted fundamentally of (1) appraising the value of the entire unit as it existed before the taking and (2) appraising the value of the portion remaining considered as a unit by itself. The difference between these two values constitutes the acquisition price in such cases.

(e) In many cases where the Government acquired land for war purposes the amount paid the owners for land purchased included a certain amount for damages to growing crops. If the amount paid for crop damage can be determined as a separate item, it should not be included in the "acquisition price" of the tract.

(f) In some cases the owners of the land reserved, in their sale to the Government, certain buildings or improvements which they removed from the land at their own expense. In some such instances the Government deducted an amount, representing the fixed or agreed salvage value of the improvements, from the actual purchase price of the farm and paid the owner the balance. If, in those cases, the amount so deducted can be determined, it should be included in establishing the "acquisition price" of the tract. The removal of the improvements, even though it was actually done by the owner, will be considered to be action of the Government and will be reflected in the "adjusted value." In other words for all practical purposes the reservation of the improvements would be treated as a separate transaction representing a resale by the Government to the former owner.

(g) The direct effect of action by the United States ordinarily will relate to such factors as the removal of buildings, fences, other types of improvements, the construction of ditches, or other changes that may affect the farm from the viewpoint of facility of farming operations. Also, it may be appropriate to consider the indirect effect of actions such as the elimination of roads and the removal of schools or other community facilities. Ordinarily, information should be available prior to appraisal as to the intention of the State or local government with reference to the placement of public roads and perhaps other community facilities. Insofar as practicable, damages should be calculated upon those factors which lend themselves to objective measurement. The removal of a church or community center from a community is an example of an action the effect of which would be difficult to establish by any objective method in fixing the value of a particular tract of land. On the other hand, if it can be determined that in reestablishing any such facilities assessments against a tract of land will be made, appropriate weight should be given to this fact. Likewise, consideration should be given to any measurable benefits that have accrued or may accrue as a result of actions by the United States. For example, the improvement of drainage facilities or elimination of ditches may have resulted in measurable benefits to the tracts in the area affected; such benefits should be reflected in the value to be established.

(h) In estimating this increase or decrease in the value of the property substantially the same general procedure will be followed as is used to determine in the case of land bank loans the effect of a partial release on the value of property which, as outlined in paragraph (d) of this section, is also the usual procedure followed by the War Department in determining severance damage where only a portion of the farm is to be acquired. In applying this principle the acquisition price will be the value of the property before action by the United States and the adjusted value will reflect any changes resulting from the action of the United States. In effect the adjusted value will be an estimate of what the value of the property would have been as of the date of acquisition if the damage or improvement caused by action of the United States such as removal or construction of buildings, destruction or building of roads, or other changes had occurred at that time. This estimate should be made on the basis of the same levels of value as are reflected in the acquisition price regardless of how such acquisition price was determined.

§ 5.402–03 *Value to be used in fixing price to veterans.* Veterans, or the spouse and children of deceased veterans or the spouse and children of deceased servicemen, are given the right to purchase surplus real property at a price fixed by the disposal agency after taking into consideration the character of the property and if income producing the estimated earning capacity thereof on the basis of its highest and best use. This value in no event should be greater than the current market value and is defined as a price that is justified on the basis of expected returns with appropriate consideration given to present conditions and current commodity prices as well as to normal conditions and prices. It can be considered as a price which a purchaser is warranted in paying for the property for continued use or as a long-term investment.

§ 5.402–04 *Fair value.* Government agencies are accorded the right to acquire surplus real property at a price equal to the fair value. Fair value is defined as the maximum price a well-informed buyer acting intelligently and voluntarily would be warranted in paying if he were acquiring the property as a long-term investment or for continued use with the intention of devoting it to the best or most productive type of use for which the property is suitable or capable of being adapted. The appraiser shall give consideration to the character of the property, and if income-producing, the estimated earning capacity thereof. This value in no event shall be greater than the current market value and may be further defined as a price that is justified on the basis of expected returns with appropriate consideration given to present conditions and current commodity prices as well as to normal conditions and prices. In making the appraisal of fair value to be used in disposal to Government agencies, neither the original cost to the Government nor the purposes for which it is being acquired shall be taken into account. For the purpose of appraisal of "Section 23 real property", the term "fair value" is considered virtually synonymous with the "price to veterans" as defined in § 5.402–03.

[1] Not filed with the Division of the Federal Register.

§ 5.404–01 *Developing basic information.* It is likely that each project will present special problems and in order to plan the work effectively the appraisal supervisor and the appraisers should (a) study the appraisal data and all other information furnished by the owning agency on each tract acquired by the Government, and the instructions under which the appraiser operated when the original appraisals were made; (b) make a general survey of the project noting (1) the type of community, (2) the condition of the land, (3) the changes since acquirement, such as removal of buildings and destruction of roads, and whether any buildings constructed by the owning agency can be utilized for farming operations, (4) possible uses that may be made of the land, (5) wells or other sources of water supply, and (6) conveniences, such as telephone, electric power lines, schools, churches, and roads that are or will be available; (c) establish tentative levels of value for the different grades of land in the project; (d) assemble where practicable recent sales data for use in supporting the current market values established as outlined in § 5.402–01 (b); and (e) develop information as to the demand for land of the type in the particular project. (Since it is important to have the standards used in establishing values consistent among projects, the chief reviewing appraiser should, if possible, assist in this preliminary survey.)

§ 5.404–02 *Appraising the individual tracts.* With respect to section 23 real property acquired by the Government after December 31, 1939, in making appraisals of the individual tracts arrangements should be made for the former owner to accompany the appraiser during his inspection of the property, if practicable. This will give him an opportunity to present to the appraiser any information he may have as to the changes in the property and the effect on the price for which he is entitled to repurchase his farm. The appraisers will assign a current market value and also estimate the adjusted price at which each tract may be sold to the former owner or tenant. It will not be feasible to establish the price to veterans at this time unless (a) it is anticipated that only a relatively small part of the land will be sold to higher priority holders and (b) it is unnecessary to make changes in the original boundaries in order to block the land into economic units before offering it for sale to veterans. In other words, it would not be practicable to establish the price to veterans until it is determined definitely what land will be available to offer to them. Likewise it will not be feasible to establish the fair value at this time unless it is contemplated that disposal will be made to a Government agency. In such instance the fair value will be established for the specific acreage or property to be acquired by the Government agency.

§ 5.404–03 *Appraisal report.* (a) Since in many instances it will not be practicable to establish the price to the former owner and to veterans at the same time, two appraisal report forms are provided, FCA 1181 SPD and FCA 1181a SPD. Where the price for all priority holders is established at the same time, it will not be necessary to duplicate any information in the second report that is included in the first. In such cases the second form will be in the nature of a supplemental report. In reporting the fair value of "section 23 real property" Form FCA 1181a SPD will be used, adapting it where necessary to fit the case. In making appraisals, full information should be shown in the report to substantiate the conclusions reached. This will include any sales data used in establishing the current market value of the particular property and a clear statement of the consideration given to various factors relating to the estimate of the increase or decrease in value resulting from action by the United States.

(b) It is extremely important to maintain a high degree of consistency in the valuations of the various tracts of each project. The appraisal supervisor shall not release the appraisal reports until the valuations on all the properties have been completed and adjustments made to correct any inconsistencies in values among the individual units. A representative of the chief reviewing appraiser's office should participate in this final review.

(c) After the review is made the appraisal reports should be prepared in final form in duplicate in the project office. The original copies will be transmitted to the district office and the duplicate copies will be filed in the tract folders in the project office.

§ 5.404–04 *Appraisal report (Form FCA 1181 SPD).* (a) The "Current Market Value" and the "Adjusted Value" will be furnished on Form FCA 1181 SPD. However, since former owners or tenants of former owners do not have any priority to purchase property acquired by the Government on or before December 31, 1939, this form will not be used in any instance where the property was acquired on or prior to that date.

(b) The following should be observed in completing Form FCA 1181 SPD:

(1) *Sections A to D.* This page is designed to enable the appraiser to give in sections A and C, a description of the immediate area and the property at the present time and to list in sections B and D the changes in both the area and property since acquirement. This information is necessary to substantiate the current market value and to show the factors considered in determining the increase or decrease in value resulting from action by the United States. The information should be complete and the changes in the property described in some detail in order to show clearly the factors taken into consideration in establishing the price at which former owners and tenants are entitled to purchase the property.

(2) *Section E; acreage classification.* This space is provided to give the acreage breakdown by types and grades of land, a description of the various classifications, and information with respect to the present condition and changes since acquirement. The acre values and total land value will not be shown.

(3) *Section F; description of buildings.* Each building or improvement of a structural nature should be described in this section of the report. However, it will not be necessary to show building values in this report except in those cases where the particular building has relatively little or no "in place" value and should be sold separate from the land. In that event the current market value of the building as defined in § 5.405–03, relating to buildings to be removed, will be shown in the column headed "current market value." The total of any such values should be shown on the face of the report as the "C. M. V. of Buildings Surplus to this Property", and the general remarks should include the appraiser's recommendation as to whether such buildings should be disposed of separate from the land. Ordinarily where it is recommended that the buildings be sold separate from the land, they should not be considered in the establishment of a value on the tract as a whole. In any event, this point should be clarified in the remarks.

(4) *Section G; classification of property.* An agricultural property should be classified in its present condition on the basis of the definitions for classification of farms in sections A205 and A209 of the Manual for Land Bank Appraisers. If the property is not agricultural then the classification may be omitted; however, in such event the nature of the property should be indicated together with the appraiser's opinion as to its highest and best use.

(5) *Section H; general remarks.* It is important that a statement be included in each report showing any material assumptions or factors on which the values established are based such as the reestablishment of roads, the availability of electricity and telephone, etc. Unless special circumstances make it necessary to take into account a prospective delay in delivering possession to a purchaser the appraisal should be based on the assumption that possession will be delivered immediately upon sale, and this assumption need not be expressed in the report. Cases of sales subject to unexpired leases will be handled as provided in § 5.610–05.

(6) *Plat of farm.* The plat is to be prepared in the regular manner using the standard legend except that land use will be designated by the words "crop," "pasture," etc., instead of by coloring. The plat should be prepared in all cases on the appraiser's copy of the report for use by the appraisal supervisor and the chief reviewing appraiser in checking and correlating the values established on the properties in the project. It is discretionary with the disposal agency whether the plat is furnished on the report when it is prepared in final form.

§ 5.404–05 *Appraisal report (Form FCA 1181a SPD).* (a) The "Price to Veterans" will be furnished on Form FCA 1181a SPD. This form will also be used in reporting the "Fair Value" of real property where purchase is contemplated by a Government agency. In the event

the form is used at the time the first appraisal is made or at a later date in reappraising the identical tract on which a report on Form 1181 has been made, any information shown in the former report need not be repeated. It will, however, be necessary to show any changes in the property or in the current market value since the previous appraisal.

(b) The following instructions should be observed in completing Form FCA 1181a SPD:

(1) *Sections A and B.* Sections A and B are the same as A and C in Form 1181.

(2) *Section C; earning power of farm.* The act requires that the earning capacity of the property be taken into consideration in establishing the price to veterans. In connection with agricultural property the cropping program and estimated yields should be on the basis of the present condition of the farm except that any improvement to the land or buildings which will require only a nominal amount of expense may be anticipated. The income should be estimated on the basis of normal prices. Full explanatory statements should be made in the event it is not possible to visualize a crop setup or income that may be expected because of the condition of the property.

(3) *Section D.* In the appraisal of agricultural property the classifications, descriptions, and valuations should be on the same basis as in regular farm appraisal work. In the appraisal of property not suitable for agriculture the acre values and total land values will not be shown.

(4) *Section E.* (i) In the appraisal of agricultural property the buildings will be described and the value to the farm established on the same basis as used in regular farm appraisal work, except those buildings referred to in subdivision (iii) of this subparagraph. The normal agricultural value and normal market value will be established on the same basis as used in regular farm appraisals.

(ii) In the appraisal of property not suitable for agriculture the buildings will be described, but individual building values will not be shown except for those buildings referred to in subdivision (iii) of this subparagraph. The space provided for the "normal agricultural value" will not be used in the appraisal of nonagricultural property.

(iii) Those buildings which have relatively little or no "in place" value and which should be sold separate from the land are to be handled in the same manner as prescribed for such buildings in connection with report Form FCA 1181 SPD (see § 5.404–04 (b) (3)).

(5) *Section F.* The same instructions will apply to this section as to section G of Form 1181.

(6) *Section G.* Section G is the same as section H in Form 1181.

(7) *"Fair value."* In reporting the "fair value" for sale to Government agencies it will not be necessary to show the current market value on Form 1181a.

§ 5.405–01 *Buildings and improvements to be sold separate from land.* In some instances the disposal agency may be called upon to dispose of certain buildings and improvements which cannot be sold advantageously with the land. As in the disposal of surplus land, Government agencies are entitled to purchase buildings and improvements at a fair value, the criterion for which is furnished in the following section. In the appraisal of such buildings and improvements to be removed from the land, unless otherwise designated the estimate of value shall be based on the assumption that the buildings and improvements will be sold "as is" to be removed from the premises by the purchaser within a specified time at his own expense.

§ 5.405–02 *Fair value of buildings and improvements to be removed.* The fair value shall be considered to be the maximum price which a well informed buyer acting intelligently and voluntarily would be warranted in paying if he were acquiring the property for the purpose of devoting it to its highest and best use or for adopting it or the material therein to equally useful purposes, taking into account the fact that the building or improvement will have to be removed to a new location. In this connection, the appraiser will consider the most probable and economical method or methods of removal and the cost thereof, i. e., whether the building can be moved intact, or in sections, or whether it may be necessary to dismantle it completely. This factor will require special consideration in rural areas where the cost of removal and reestablishment of the structures may be lower than in more industrialized areas. The estimate of fair value shall take into account only those rights in structures and facilities or equipment therein or attached thereto which would be of use to such a buyer and only to the degree to which they would be of use. It shall be recognized that the fair value of the property is not in excess of the prices at which other similar properties having a like utility are actually selling on the market or which amount together with cost of removal to a new location will not exceed the total cost which would be required to erect and equip a similarly useful structure. Neither the cost to the Government nor the characteristics nor readiness to buy of any particular prospective purchaser shall be taken into account.

§ 5.405–03 *Current market value of buildings and improvements.* "Current market value" as relating to improvements to be sold separate from the land is defined as the highest price the property will bring in terms of money if offered for sale in open market with reasonable time to find a purchaser. In establishing this value the appraiser should approach the problem from the viewpoint of the typical purchaser, taking into consideration those factors affecting the sale price of the particular property. Emphasis should be placed on the demand for the type of improvement or for salvageable material therein, with special consideration given to any unusual or enhanced local demand and the adaptability of the improvement or material to the current local needs. The probable method of removal of the building and the cost thereof are other factors to be considered by the appraiser. These factors are especially important in rural areas where a considerable portion of the buildings may be sold to farmers who could use family labor and comparatively low cost hired labor in the removal and reestablishment of the buildings. The appraiser should make a study of recent sales of similar buildings or improvements. If there are no available data on sales of similar improvements, comparative studies should prove helpful, e. g., buildings of entirely different types may have been constructed of similar materials and consequently the salvageable material may be similar or if not similar may have relative values which may be used as a guide in setting the current market value of the improvements or buildings to be sold.

§ 5.406–01 *Appraisal of surplus easements.* For the purpose of appraisal for disposal, easements will be considered from the standpoint of their expected future usefulness. It is anticipated that in some instances surplus easements to be disposed of will be of such nature or so located that they will have a commercial or resale value. In the evaluation of such easements the appraiser ordinarily will follow the same approach as outlined in §§ 5.402–01 to 5.402–04, inclusive. On the other hand there will be surplus easements which have no future use or commercial value as such. Ordinarily these easements will have only a "nuisance value" and will be disposed of to the owner of the land subject to the easement at a nominal consideration or without consideration. In that event no appraisal will be required. However, those easements originally acquired at a substantial consideration including those involving severance damages may be disposed of only at a "reasonable" value. In the determination of the reasonable value the appraiser will consider any improvement in the utility value or enhancement in desirability or salability of the property subject to the easement, which may arise from the elimination of the easement. Unless otherwise designated the appraisal will be based on the assumption that no physical changes or improvement will be effected by the Government, however, consideration should be given to the fact that once the easement is eliminated the owner of the land can make such improvements as are prudent, though at his own expense. In effect the appraiser will use a "before and after" approach in which the enhancement in value is measured by determining the difference between the value of the property subject to the easement (as the value before) and the value of the property with the easement eliminated (as the value after). In making this estimate of reasonable value the appraiser must bear in mind the fact that ordinarily the owner of the property subject to the easement is the only prospective purchaser.

PRIORITIES AND PRICING

§ 5.501–03 *Time and method of exercise of priority by Government agencies.* Government agencies shall have a period of ten (10) days in which to exercise

their priorities after the date notice of availability is first published, as provided in § 5.307–02, or the date on which notice of availability is mailed to them, as provided in § 5.307–08. Within such period the priority holder shall indicate an intention to exercise the priority by submitting to the disposal agency a written offer to purchase. When, however, an offer cannot be made because a disposal agency lacks necessary information on price, units, or other matters, it shall be sufficient if the priority holder files a written statement of its desire to acquire the property or one or more appropriate units thereof. As soon as the necessary information becomes available (whether during or after the priority period or any extension thereof), those that have filed such statements shall be so advised in writing and given fifteen (15) days within which to make an offer. The offer of a Government agency shall be in the form of a written application in duplicate requesting that the property be held for disposal to it. Such application shall state the price applicant would be willing to pay (or that a transfer without reimbursement or transfer of funds is authorized by law), the length of time, if any, needed to acquire funds to purchase the property, all pertinent facts pertaining to the needs of applicant for the property and that the property is being acquired for its own use and not for transfer or disposition. If the applicant shall require time to obtain funds, or authority to take the property without reimbursement or transfer of funds, it shall so state and indicate the length of time needed for that purpose. Upon receipt of such an application containing such a statement, the disposal agency shall forward a copy of the same to the WAA. The Administrator will review the application and determine what time, if any, shall be allowed applicant to obtain such funds and conclude such purchase and will advise the disposal agency and the applicant of such determination. During the time thus allowed, the property may not be disposed of except where the priority period has expired and applicant's price is less than the fair value and either a higher price has been offered by another person or another priority holder has offered the maximum price which he may be charged.

§ 5.502–03 *Time and method of exercise of State and local government priorities.* State and local governments shall have a period of ten (10) days in which to exercise their priority after the date notice of availability is first published, as provided in § 5.307–02. Within such period the priority holder shall indicate an intention to exercise the priority by submitting to the disposal agency a written offer to purchase, accompanied by an appropriate deposit if funds are available at the time for this purpose, it being in the discretion of the district office to determine the amount and whether funds are available. When, however, an offer cannot be made because a disposal agency lacks necessary information on price, units, or other matters, it shall be sufficient if the State or local government files a written statement of its desire to acquire the property or one or more appropriate units thereof. As soon as the necessary information becomes available (whether during or after the priority period or any extension thereof), those who have filed such statements shall be so advised in writing and given fifteen (15) days within which to make an offer. The offer of a State or local government shall be in the form of a written application in duplicate requesting that the property be held for disposal to it. Such application shall state the price applicant would be willing to pay for the property, and the length of time, if any, needed to acquire funds to purchase the property. The application shall show in detail the contemplated use of the property and set forth that the property is being acquired to fulfill, in the public interest, its legitimate needs. If the applicant shall require time to obtain funds, it shall so state and indicate the length of time needed for that purpose. Upon receipt of such application containing such a statement the disposal agency shall forward a copy of the same to the WAA. The Administrator will review the application and determine what time, if any, shall be allowed applicant to obtain such funds and conclude the purchase and will advise the disposal agency and the applicant of such determination. During the time thus allowed, the property may not be disposed of except when the priority period has expired and applicant's price is less than the current market value and a higher price has been offered by another person or another priority holder has offered the maximum price which he may be charged.

§ 5.503–02 *Multiple former owners.* No division of a tract as purchased by the Government from a single ownership may be made to accommodate a former owner. In the case of common or joint former owners, if all wish to exercise their priority rights, they may do so and the entire tract may be sold to them. If one or more of the former owners, but fewer than all, desire to purchase the tract, they may do so. The priority rights of those who do not exercise them within the 90-day period will expire. No tract will be partitioned for the benefit of a former owner and no undivided interest will be sold to a former owner or to former owners pursuant to the priority rights of former owners.

§ 5.503–04 *Time and method of exercise of priority by former owners.* The time for exercise of the former owner's priority shall be a period of ninety (90) days after the date given in the notice required by these regulations, or such additional period as the WAA may allow where necessary or appropriate to facilitate a sale of the property to a former owner entitled to priority; and an additional period of thirty (30) days shall automatically be allowed if the disposal agency determines that the former owner is outside the continental United States. Within such period the former owner shall indicate an intention to exercise the priority by submitting to the disposal agency a written offer to purchase, accompanied by an appropriate deposit as determined by the district office. When, however, an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if a former owner files a written statement of his desire to acquire the property. As soon as the necessary information becomes available (whether during or after the priority period or in the extension thereof), a former owner who has filed such a statement shall be so advised in writing and given 15 days or the remainder of the priority period, whichever is longer, within which to make an offer.

§ 5.503–06 *Deed to another party where former owner exercises his priority.* It is permissible for the disposal agency to make the wife of a former owner, or any other party, grantee or co-grantee in the deed upon the request of a former owner exercising his priority. Furthermore, a former owner is not prohibited from exercising his priority with the intention of reselling the property. However, no former owner may exercise his priority acting as agent of, or otherwise in a representative or fiduciary capacity for, another party. Therefore, a request from a former owner to name someone else in the deed might, depending upon the circumstances of each case, be deemed sufficient to put the disposal agency on inquiry as to the bona fides of the offerer and to justify a reasonable investigation of the facts.

§ 5.504–03 *Time and method of exercise of tenant's priority.* The time for exercise of a tenant's priority shall be a period of ninety (90) days after the date given in the notice required by the regulations in this part. Within such period the tenant shall indicate an intention to exercise the priority by submitting to the disposal agency a written offer to purchase accompanied by an appropriate deposit as determined by the district office. When, however, an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if a tenant files a written statement of his desire to acquire the property. After the necessary information becomes available, a tenant who has filed such a statement shall be so advised in writing and be given fifteen (15) days or the remainder of the priority period, whichever is longer, within which to make an offer.

§ 5.504–04 *Extent of tenant's priority.* The priority of a tenant not exercised during the priority period shall expire upon the termination of such period; provided the disposal agency may, in its discretion, permit a tenant to make an offer after the priority period has ended, as set forth in § 5.602–023. The priority of a tenant is limited to the particular property as described in 32 CFR Supps. 8305.11 (a) (4), and no assignment or transfer of a tenant's priority shall be recognized. The provisions of 32 CFR 8305.11 (c) shall apply to the exercise of a tenant's priority.

§ 5.506–01 *Veteran's priority.* A veteran and the spouse and children (in that order) of a person who died while in the active military or naval service of the United States on or after September 16, 1940, shall be accorded a priority as to all surplus section 23 real property classified by the WAA as suitable for agricultural, residential, or small business purposes. This priority shall be subordinate to the priorities of Government agencies, State and local governments, former owners, and tenants. This priority ceases to exist after its holder has once effectively exercised it, or any other priority accorded by section 23 of the act, with respect to a tract.

§ 5.506–02 *Price to veterans.* The price to veterans shall be fixed after taking into consideration the current market value and the normal agricultural value based on normal returns with appropriate consideration to present conditions and current commodity prices. Any offer by a veteran at a price less than the maximum he may be charged shall be treated as a nonpriority offer.

§ 5.506–03 *Time and method of exercise of veteran's priority.* To exercise this priority a veteran or the spouse and children of a deceased serviceman must within the ninety (90) days after publication of the notice required by the regulations in this part or any extension thereof file a written offer to purchase or statement of desire to acquire the property or an appropriate unit thereof: *Provided*, That the disposal agency may in its discretion permit veterans, or the spouse and children of deceased servicemen, to make offers after the priority period and be considered on the same basis as if they had exercised their priority during the priority period as set forth in § 5.602–023. An offer or statement filed within the priority period, even if restricted by its terms to a specifically identified tract, shall preserve the veteran's priority with respect to any and all tracts of the project. Where an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if a veteran files a written statement of his desire to acquire the property. As soon as the necessary information becomes available, a veteran who has filed such an offer or statement shall be notified in writing and given fifteen (15) days or the remainder of the priority period, whichever is longer, within which to make an offer.

§ 5.507–04 *Time and method of exercise of owner-operator's priority.* To exercise this priority, an owner-operator must within the ninety (90) days after publication of the notice required by the regulations in this part or any extension thereof file a written offer to purchase or statement of desire to acquire the property or an appropriate unit thereof: *Provided*, That the disposal agency may in its discretion permit owner-operators to make offers after the priority period and be considered on the same basis as if they had exercised their priority during the priority period as set forth in § 5.602–023. An offer or statement filed within the priority period, even if restricted by its terms to a specifically identified tract, shall preserve the owner-operator's priority with respect to any and all tracts of the project. Where an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if an owner-operator files a written statement of his desire to acquire the property. As soon as the necessary information becomes available, an owner-operator who has filed such an offer or statement shall be notified in writing and given fifteen (15) days or the remainder of the priority period, whichever is longer, within which to make an offer.

§ 5.508–04 *Time and method of exercise of nonprofit institution's priority.* Nonprofit institutions shall have a period of ten (10) days after notice of availability is first published in which to exercise their priority with respect to other than section 23 real property and shall have a period of ninety (90) days from the date notice of availability is first published in which to exercise their priority with respect to section 23 real property. Within the applicable period, a nonprofit institution shall file a written offer to purchase or statement of desire to acquire the property, accompanied by such deposit as the disposal agency may require. The written offer or statement shall show in detail the contemplated use of the property, and set forth that the property is being acquired to fulfill, in the public interest, the legitimate needs of the offeror. Such an offer or statement, even if restricted by its terms to a specifically identified tract, shall preserve the nonprofit institution's priority with respect to any and all tracts of the project. When an offer cannot be made because the disposal agency lacks the necessary information on the price, units, or other matters, it shall be sufficient if a nonprofit institution files a written statement of its desire to acquire the property. As soon as the necessary information becomes available, a nonprofit institution which has filed such a statement shall be notified in writing and given fifteen (15) days or, in the case of section 23 real property, the remainder of the priority period if that is longer, within which to make an offer.

§ 5.511–01 *Certificate to be executed by disposal agency covering giving of notice and failure of priority holders to exercise priority rights.* After a sales contract is entered into between the disposal agency and a purchaser, the disposal agency shall certify that it has complied with the requirements of the act and of the regulations of the War Assets Administration concerning the giving of notice and that no holder of a priority superior to that, if any, of the purchaser has exercised his priority rights within the time limits fixed by or pursuant to the act. The certificate shall be executed on Form FCA 1183 SPD and signed by the district vice president of the Corporation. A certified copy of such certificate shall be given to any purchaser of the property at the time of transfer.

DISPOSAL

§ 5.601.01 *Terms of disposal.* Disposals generally shall be of the entire interest of the Government, except as indicated in 32 CFR, Supps., Part 8305, and shall be made upon such terms and conditions as may be necessary to protect the interests of the Government and carry out the requirements of the act. No credit shall be extended by the disposal agency in its capacity as such except in special cases and with the prior approval of the central office. The project manager should in no instance recommend any particular credit agency. Where sales are to be on a cash basis, purchasers may be allowed a reasonable time, when necessary, in which to arrange for any financing needed to complete payment of the purchase price.

§ 5.602–02 *Offers to purchase.* (a) During the applicable priority period, the project manager shall receive offers from priority and nonpriority prospective buyers. However, no offer shall be accepted during any priority period except in the following cases:

(1) Where an immediate transfer is requested by one of the armed forces for national defense purposes prior to the conclusion of peace, or

(2) Where an immediate transfer is requested by the National Housing Administrator pursuant to Public Law 292, 79th Congress, and no application has been received from another Government agency offering the maximum priority price and showing a greater need for the property, or

(3) Where surplus section 23 real property is to be advertised for 90 days and a Government agency or State or local government exercises its priority within the prescribed 10-day period, the offer of the Government agency or State or local government may be accepted after the 10-day period and before the termination of the 90-day period, or

(4) Where a former owner exercises his priority to acquire surplus section 23 real property and no offer has been submitted by a Government agency or State or local government at its maximum price within the prescribed 10-day period of priority for such claimants.

(b) Offers by Government agencies, and offers by State and local governments where funds are not available, shall be made as provided in §§ 5.501–03 and 5.502–03. All other offers shall be made on the "Offer to Purchase" form accompanied by a reasonable earnest money deposit ordinarily not less than 10 percent of the purchase price, in the form of cash, certified check, or post office money order payable to the Treasurer of the United States. Submission of offers to purchase by anyone entitled to priority shall not preclude any other party from submitting an offer.

§ 5.602–023 *Failure to exercise priority in time.* The disposal agency may, in its discretion, permit priority holders to make offers after the priority period has ended, and offers may be considered on the same basis as if they had been submitted during the priority period. Such action by the disposal agency, however, shall not be construed as extending the priority period and such offers may not be accepted to the prejudice of a timely and acceptable offer from another

priority offeror. Notice shall be given as provided in § 5.307–10.

§ 5.602–025 *Former owner's and former tenant's affidavits of eligibility.* Before the offer of a former owner or former tenant is accepted, he shall furnish an affidavit to the effect that he is a former owner or former tenant (as the case may be) of the property in question, and that in exercising his right of priority he is acting in his own right and behalf and not in behalf of, or as agent, attorney in fact, or trustee of, or in any representative or fiduciary capacity for, another. Before the affidavit is accepted from the former owner or the former tenant, he shall be informed of the substance of the provisions of section 26 of the act.

§ 5.603–5–01 *Subdividing or regrouping of tracts.* For disposal to others than Government agencies, State or local governments, former owners or tenants, surplus real property shall be divided by the disposal agency into appropriate units for disposal. Section 23 real property classified as suitable for agricultural use shall be divided by the disposal agency into economic family-size units (including part-time farms) wherever practicable. The size of such units may vary according to the conditions and farming practices in the locality where the land is situated. Section 23 real property not classified as suitable for agricultural use shall be subdivided into appropriate units in view of the character of the property, the use or uses to which it may be put, and the possibility of giving veterans and those who will use the property personally a fair opportunity to acquire and utilize the property. Plans for dividing shall be developed as soon as practicable after the disposal agency receives the declaration of surplus. The actual work of dividing shall be completed at the earliest possible date after the expiration of the priority period. Division may be delayed if it appears that the property will be absorbed by the priorities of Government agencies, State or local governments, former owners, or tenants.

OFFERS FROM VETERANS

§ 5.604–01 *Notice to veterans of remaining properties.* After all acceptable offers from Government agencies, State or local governments, former owners, and tenants of former owners have been accepted, and the appraisal and pricing of the remaining tracts and units have been completed, the project manager will make out a list of all tracts and units for sale. In compiling these lists of properties a place for list prices will be indicated, so that the prices may be inserted later, when desired, on the list to be mailed to veterans who have a priority.

In carrying out the policy and intent of the act and the regulations of the War Assets Administration in affording an opportunity to veterans and the spouse or children of a deceased serviceman or servicewoman to acquire surplus property, the project manager shall notify in writing all those who have made offers or who have filed a written statement of their desire to acquire one or more units of property, and give them fifteen (15) days within which to make an offer. This notice should generally describe the tract or units remaining to be sold and the conditions upon which written offers will be received at the project office during the period indicated.

§ 5.604–02 *Obtaining formal offers from veterans.* During the period referred to in § 5.604–01, offers should be received from all veterans who have retained their priority rights by filing a statement during the 90-day priority period. Offers should be made on the regular form for any or all tracts listed as available. Since a veteran can buy only one tract, only one satisfactory earnest money deposit shall be required from a veteran even though he may make an offer on more than one tract. The Property Record will be posted in the project office and a copy of the offer submitted to the district supervisor's office with the remittance and receipt. The same procedure will be followed in the district supervisor's office and in the district office upon receipt of these offers, as was described for offers from others. The Index of Request card in the project office will be posted to show the amount offered and date.

§ 5.604–03 *Selection of acceptable purchasers.* At the end of the designated period all offers from veterans shall be reviewed for the purpose of selecting purchasers. If equal offers are received from two or more veterans on the same property, the offer to be accepted shall be selected by lot. This drawing should be made openly and in the presence of as many as practicable of the interested parties. A record shall be made at the time of the order in which the names are drawn with respect to each tract or unit sold in this manner. If a veteran is selected for more than one unit, he shall elect in writing which property he will take.

§ 5.604–05 *Veteran's affidavit of eligibility.* When the district office is ready to accept a veteran's offer, but before the acceptance is executed, the veteran shall be required to submit an affidavit to the effect that he served in the active military or naval services of the United States on or after September 16, 1940, and prior to the termination of World War II, and has been discharged or released from such service under honorable conditions; that he has not prior to the date of the affidavit purchased under a right of priority a tract or unit of surplus real property pursuant to section 23 of the Surplus Property Act of 1944; that in exercising his right of priority as a veteran, he is acting in his own right and behalf and not on behalf of, or as agent, attorney in fact, or trustee of, or in any representative or fiduciary capacity for, another, and that the property applied for is for the applicant's own personal use for agricultural or residential purposes or to enable him to establish or maintain his own small business enterprise, indicating the particular contemplated use. If the intended use is for his own small business enterprise, it will be necessary to obtain additional factual information in order that the disposal agency may determine if the applicant's own small business comes within the definitions set forth in § 5.103–02 (p) and (q). Before the affidavit is accepted from the veteran, he shall be informed of the substance of the provisions of section 26 of the Surplus Property Act of 1944.

OFFERS FROM OWNER-OPERATORS

§ 5.605–01 *Obtaining offers.* In order to retain their priority rights owner-operators must either express their desire to purchase a particular tract or any of the tracts in a project in a written statement or submit a formal offer on tracts in which they are interested during the 90-day priority period. However, no offer may be legally accepted from an owner-operator until the expiration of the period allowed for submitting offers. After all offers from veterans have been processed, a list of remaining salable tracts shall be prepared showing the current market value, and all offers and statements of desire to acquire property filed by owner-operators shall be reviewed at this time. The project manager shall notify in writing all such owner-operators and give them fifteen (15) days within which to make an offer. This notice should generally describe the tracts remaining to be sold and the conditions upon which offers will be received at the project office during the time allowed.

§ 5.605–02 *Selection of acceptable purchasers.* If acceptable offers are received, they should be handled in accordance with the procedure for processing other types of offers. If only one offer is received for any particular tract and it is acceptable, it may be submitted immediately to the district office for approval. If more than one offer is received for a particular tract at the current market value, the purchaser shall be selected by lot, as in the case of offers from veterans.

§ 5.605–03 *Owner-operator's affidavit of eligibility.* When the district office is ready to accept an owner-operator's offer, but before the acceptance is executed, the owner-operator shall be required to submit an affidavit that he expects to operate and cultivate the land personally to earn a livelihood rather than lease it to a tenant; that he has not theretofore under his right of priority as an owner-operator (as defined in SPA Revised Regulation 5; 32 CFR, Supps., Part 1805) purchased a tract or unit of surplus real property pursuant to section 23 of the Surplus Property Act of 1944; and that in exercising his right of priority as an owner-operator, he is acting in his own right and behalf and not on behalf of, or as agent, attorney in fact, or trustee of, or in any representative or fiduciary capacity for, another. Before the affidavit is accepted from the owner-operator, he shall be informed of the substance of the provisions of section 26 of the act.

OFFERS FROM NON-PROFIT INSTITUTIONS

§ 5.606–01 *Obtaining offers.* In order to retain its priority rights a nonprofit institution must either express its desire to purchase a particular tract or any of the tracts in a project in a written statement or submit a formal offer on tracts in which it is interested during the 90-day priority period. However, no offer may be legally accepted from a nonprofit institution until the expiration of the period allowed for submitting offers. After all offers from owner-operators have been processed, a list of remaining salable tracts shall be prepared showing the current market value, and all offers and statements of desire to acquire property filed by nonprofit institutions shall be reviewed at this time. The project manager shall notify in writing all such nonprofit institutions and give them fifteen (15) days within which to make an offer. This notice should generally describe the tracts remaining to be sold and the conditions upon which offers will be received at the project office during the time allowed.

SALES TO NON-PRIORITY HOLDERS

§ 5.607–01 *Obtaining offers and acceptance of offers.* After all offers from priority holders have been processed, a list of remaining properties shall be prepared and sales negotiated by the project manager in the manner and upon the basis determined to be to the best interest of the Government. At the discretion of the district office additional notices may be published at this time in newspapers or such other publicity given to the availability of property as may be deemed advisable. Notice should be sent to individuals who have expressed a desire to purchase or who have submitted an offer at some period. Depending upon circumstances, sales may be made on the basis of sealed bids, auctions, or private negotiations. In any event offers must be accepted on the basis of the highest obtainable bid provided that no sale shall be made at a price which is less than 75 percent of the current market value as established by appraisal until such offer has been reviewed and approved by the WAA unless the price offered is the maximum price which may be charged the purchaser. At this time sales may be made to the general public, including any former priority holders. The offers to purchase will be processed and handled in the same manner as indicated in previous sections of these regulations relating to offers from priority holders. If equal acceptable offers are received from two or more nonpriority offerors, selection shall be made by lot unless otherwise authorized by the Administrator.

§ 5.608–02 *Notices in cases of nonperformance by successful bidders.* If performance of the contract of a successful bidder is not completed or if the Government agency or State or local government fails to complete its acquisition of the property after having it held for the time allotted by the WAA, all those who made unsuccessful offers during the priority period or any time allowed thereafter shall be notified by mail that if they renew their offers within fifteen (15) days from the date of mailing the notice, they will be reconsidered on the same basis on which they would have been considered had the offer accepted not been received in the first instance; *Provided*, That any case in which, after acceptance of an offer by the disposal agency, the offeror requests more time for completion of the purchase than the disposal agency is willing to grant, shall be submitted to the central office for transmittal to the War Assets Administration.

LEASING

§ 5.610–01 *Authority.* The disposal agency may lease or grant a permit on surplus property to place it in productive use pending disposition: *Provided*, That such lease shall be revocable at the will of such disposal agency; and may also, with the approval of the Administrator, grant irrevocable leases where such action would be in the best interest of the Government and meet the objectives of the act.

§ 5.610–015 *Terms and form of lease.* Land shall be leased for a period of one crop year with a clause giving the disposal agency the right of revocation at its election, using the form of "Agricultural Lease" supplied for that purpose, and with a reservation of fissionable materials as provided in 32 CFR, Supps., Part 8305. Rental prices shall be substantially in accordance with the prevailing cash rental prices at the time for comparable land in the locality. All leases shall be on a cash basis, payable in advance either annually or quarterly, depending upon the circumstances and the amounts involved. Leases may be revoked at any time during the period of the lease, using the form, "Notice of Revocation," provided for that purpose. When leases are revoked, compensation will be on the basis outlined in the lease agreement.

§ 5.610–02 *Decision to lease and selection of tenant.* The basis of determining whether or not to lease will be of advantage to the Government not only in terms of income and increase of crop production, but also in terms of aid in preventing deterioration of the soil and improvements. Before selecting a tenant, the property to be leased should be advertised in order to insure the acceptance of the highest obtainable offer from a satisfactory tenant. The notice generally describing the property to be leased and inviting offers from parties interested should be approved by the vice president of the Federal Farm Mortgage Corporation and placed in the local newspaper which will afford the greatest publicity. Ordinarily one publication of the notice, to be contracted and paid for under the procedure established by this part, should furnish sufficient publicity and the date set in the notice should be far enough ahead to permit time for those interested to appear at the project office and submit a written offer. Preferably, leases of agricultural land should be made to farm operators with sufficient equipment, labor, and resources to cultivate properly the acreage leased. Where advantages to the Government are considered equal, preference shall be given to former owners. In the discretion of the district office, it will not be necessary to advertise a property for lease in those cases where a satisfactory tenant is already in possession of the property at a rental determined to be fair to the Government. A desirable cropping program should be worked out with the tenant and made a part of each lease and should provide reasonable assurance of proper maintenance of the soil, buildings, and other improvements.

§ 5.610–03 *Preparing lease form.* (a) Upon securing an acceptable offer from a desirable tenant to lease a tract of land, the district supervisor or project manager will prepare the form of Agricultural Lease showing the description of the property, terms of lease, rental arrangement, acreage and crops to be seeded, and possession date. In instances where more than one tract is involved, separate forms will be prepared on each tract. The signature of the tenant, together with his post office address, will be required on all copies of the lease. The three copies of the lease and any rental monies collected will be forwarded to the bank, together with a transmittal letter outlining the project manager's recommendations. A copy of the receipt given for any rental monies collected is to be attached to the remittance letter. The property record card in the project office will be tabbed to show "lease pending" and any necessary follow-up established.

(b) Upon receipt in the district supervisor's office, the district supervisor will make a recommendation to the vice president of the Corporation. If the vice president approves, he will execute all three copies of the lease form. Then the original will be filed in the property folder, the second copy forwarded to the tenant, and the third copy mailed to the project office. The property record card in the district supervisor's office will be posted to show the name and address of the tenant, rental terms, possession date, expiration date, and amounts and dates of any future payments.

(c) Upon the receipt of the executed copy of the lease in the project office, the property record card will be posted, showing the name and address of the tenant, the rental terms, possession date, expiration date, amounts, and dates of future payments, if any, and the property record card will be tabbed to show "leased" and to provide follow-up for billing purposes. A copy of the lease will be filed in the related property folder.

§ 5.610–04 *Revocation of lease.* Where it is decided to revoke a lease, the form of Notice of Revocation will be prepared by the project manager or district supervisor of surplus property disposal, in three copies accompanied by a detailed statement of the facts supporting his recommendation. Upon approval by the district office, the vice president of the Corporation will execute three copies. Thereupon the necessary information will be posted upon the property record card, the original filed in the property folder, the second copy mailed to the tenant with necessary instructions, and the third copy mailed to the project office for posting purposes and filing in the related property folder, if the project office is still in operation.

§ 5.610–05 *Sales subject to leases.* As a general policy, in cases where sales are made to priority holders subject to

leases on which advance rentals are paid to the Government covering a period after the date when the purchaser becomes entitled to a deed, the purchase price should reflect an allowance of a pro rata share of the rentals computed from that date. For this purpose, a purchaser should be considered entitled to deed on the date he completes his payment of the purchase price or date of acceptance of the offer, whichever is later. The allowance for such rentals may be effected in establishing the purchase price. This policy does not necessarily apply to sales to nonpriority holders, where matters such as rentals are ordinarily taken into account by prospective purchasers and the disposal agency in making and considering offers. In practice, it may be advisable for offers taken from priority holders in cases of the type concerned here to provide that the stated dollar amount shall be reduced by an amount determined by application of the formula for prorating the rentals.

DISPOSAL OF IMPROVEMENTS

§ 5.702–01 *Disposal of personalty.* Where equipment and supplies are assigned for disposition in conjunction with real property, they may be disposed of with the real property, and any discount applicable to the real property shall apply also to the equipment and supplies. The disposal agency shall hold the real property and personalty intact until such time as the disposal agency determines that the retention of the personalty will not facilitate the disposition of the real property: *Provided*, That in no event shall the personal property be separated from the real property until such time as such property has been offered for disposition intact and the period for the submission of bids has expired. Upon such determination by the disposal agency, the declaration covering the personal property shall be forwarded to the agency designated in SPA Regulation 1 (32 CFR, Supps., Part 8301) to dispose of such personalty, with notice to the Administrator, and the real property may be readvertised for disposition without the personalty.

§ 5.703–01 *Water rights.* (a) Water rights in connection with real property subject to irrigation shall ordinarily be disposed of with the real property to which they relate, whether such rights are evidenced by stock certificates in irrigation projects or otherwise, and shall be disposed of subject to the provisions of this part.

(b) In order to meet the objectives of the act to discourage disposals for speculative purposes, it shall be the policy of the Administrator to dispose of such rights to the owners of the real property who may be entitled to the benefits thereof, rather than to persons who are not owners, and in quantities proportionate to the amount of property owned by such persons.

(c) Former owners shall be entitled to a priority for any such rights acquired from them in connection with real property which they sold to the Government where such former owners are entitled to and claim priority as to such property.

(d) Except as to former owners who are governed by the provisions of 32 CFR, Supps., Part 8305 as to price, the price to be charged for such water rights shall be the fair value thereof.

§ 5.704–01 *General principles governing disposal of minerals.* This disposal agency is authorized to dispose of mineral interests in land assigned to it for disposal, unless such mineral interests are explicitly assigned to another disposal agency. Fee-owned mineral interests assigned to this disposal agency for disposition shall be disposed of as real property, subject to the provisions of this part.

§ 5.704–02 *Priorities.* Fee-owned mineral interests acquired by the Government separately from the land are subject to the following priorities in the order stated:

(a) Government agencies;

(b) State and local governments;

(c) Former owners—if interests were acquired by the Government after December 31, 1939; and

(d) Nonprofit institutions.

§ 5.704–03 *Leasehold mineral interests.* Former owners of leasehold mineral interests acquired by the Government are not entitled to priority rights as such former owners. The cost to the Government of acquiring leasehold interests shall not be included in computing the acquisition price of real property for the purpose of setting a priority price to a former owner of the real property. However, in the appraisal of the real property, any enhancement of value resulting from freeing the property—whether consisting of surface rights, fee-owned mineral interests, or both—from a mineral lease will be reflected in the appraisal. Furthermore, in establishing the adjusted acquisition price of the real property to a former owner, any such enhancement of value may properly be considered the result of action by the United States in purchasing and extinguishing the mineral lease.

§ 5.704–04 *Disposal of mineral interests separate from the land.* Where leasehold mineral interests acquired by the Government separately from the land are not purchased by priority holders, the disposal agency may exercise its discretion as to whether to sell such interests separately or with the land.

PART 8—FARM CREDIT DISTRICTS

Sec.
8.1 District institutions.
8.2 District organization.

AUTHORITY: §§ 8.1 and 8.2 issued under sec. 5 (a), 50 Stat. 704; 12 U. S. C. 640a.

§ 8.1 *District institutions.* The United States is divided into twelve farm credit districts, each served by a Federal land bank, a Federal intermediate credit bank, a production credit corporation, and a bank for cooperatives. These four institutions in each district maintain their offices together. The city in which their offices are located in each district and the area comprising each district are as follows:

District No.	Location of offices	Area in district
1	Springfield, Mass.	Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, and New Jersey.
2	Baltimore, Md. (Branch office at San Juan, P. R.)	Pennsylvania, Delaware, Maryland, Virginia, West Virginia, District of Columbia, and Puerto Rico.
3	Columbia, S. C.	North Carolina, South Carolina, Georgia, and Florida.
4	Louisville, Ky.	Ohio, Indiana, Kentucky, and Tennessee.
5	New Orleans, La.	Alabama, Mississippi, and Louisiana.
6	St. Louis, Mo.	Illinois, Missouri, and Arkansas.
7	St. Paul, Minn.	Michigan, Wisconsin, Minnesota, and North Dakota.
8	Omaha, Nebr.	Iowa, Nebraska, South Dakota, and Wyoming.
9	Wichita, Kans.	Oklahoma, Kansas, Colorado, and New Mexico.
10	Houston, Tex.	Texas.
11	Berkeley, Calif.	California, Nevada, Utah, and Arizona.
12	Spokane, Wash.	Washington, Oregon, Montana, and Idaho.

§ 8.2 *District organization.* The activities of the Federal land bank, Federal intermediate credit bank, production credit corporation, and bank for cooperatives in each district are coordinated through a farm credit board of seven members elected or appointed in accordance with 50 Stat. 704; 12 U. S. C. 640b–640j. The members of the farm credit board of the district are ex officio the directors of each of the four institutions in the district. Each of the four institutions has its own separate officers and employees, although the same individual may be an officer or employee of more than one institution. In addition, a general agent and other officers and employees appointed by the farm credit board, with approval by the Farm Credit Administration, pursuant to 50 Stat. 706, 12 U. S. C. 640*l*, serve as joint officers and employees of all four institutions. The general agent and the presidents of the four institutions constitute an advisory committee.

NOTE: In §§ 10.3 to 10.530–51, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Policy and Operations Manuals for Federal Land Banks, issued as of January 1, 1943.

GENERAL PROVISIONS

§ 10.1 *Organization of Federal land banks.* (a) The twelve Federal land banks, of which there is one in each farm credit district, were organized in 1917 under the Federal Farm Loan Act (39 Stat. 360, as amended; 12 U. S. C. and Sup., Chap. 7, Subchap. I). The location of each bank and the States served by it are given in § 8.1 of this chapter. The activities of the Federal land bank in each district are coordinated with those of the Federal intermediate credit bank, production credit corporation, and bank for cooperatives of the district through the district organization described in § 8.2 of this chapter. The farm credit board in each district elected or appointed under 50 Stat. 704, 12 U. S. C. 640b-j, is ex officio the board of directors of the Federal land bank. This board appoints the officers of the bank and is responsible for the management of its affairs under the general supervision of the Farm Credit Administration.

(b) Under the provisions of the act it was contemplated that the capital stock of the Federal land banks ultimately would be owned entirely by borrowers through their national farm loan associations and some few direct borrowers, although provision also has been made for subscriptions to such stock by the United States. At present the United States owns stock in only one of the land banks.

(c) The Federal land banks, together with the national farm loan associations (see §§ 11.1 and 11.2 of this chapter), constitute a cooperative system known as the land bank system which, since 1934, has been supplemented by the Federal Farm Mortgage Corporation (see §§ 12.1 and 12.2 of this chapter).

§ 10.2 *Functions and procedures of Federal land banks*—(a) *General.* The twelve Federal land banks were established as permanent institutions designed to provide long-term farm mortgage credit for agriculture in accordance with the Federal Farm Loan Act (39 Stat. 360, as amended; 12 U. S. C. and Sup., Chap. 7, Subchap. I). Related thereto is the issuance of farm loan bonds to obtain funds with which to make loans, or obtaining such funds otherwise, and investing in Government securities. As a consequence of the large scale lending by the banks, they have acquired properties through voluntary deeds and foreclosure of mortgages securing loans which have broken down, requiring the management and disposal of such properties. In servicing their loans and acquired properties, the banks have in nearly all instances utilized the services and facilities of national farm loan associations. An important objective of the banks has been the strengthening of the associations both financially and from the standpoint of management.

(b) *Agents for Land Bank Commissioner and Federal Farm Mortgage Corporation.* The Federal land banks also act as agents in making and servicing Land Bank Commissioner loans on behalf of the Federal Farm Mortgage Corporation.

(c) *Loans.* The principal function of the Federal land banks is to make first mortgage loans on farm land to eligible applicants for the purposes and on the terms prescribed in the Federal Farm Loan Act. These bank loans are limited to 65 percent of the normal value of the security and may not exceed $50,000 to any one borrower. The Land Bank Commissioner loans authorized by 48 Stat. 48, as amended, 12 U. S. C. and Sup. 1016,

which the banks make as agents, may be made up to 75 percent of the normal value of the property, or 75 percent of the prudent investment value under certain conditions, but not to exceed $7,500 to any one farmer. They are made either as a first mortgage loan or as a second mortgage loan supplementing a first mortgage land bank loan. The maximum term for land bank and Commissioner loans is 40 years, but they are commonly made for a shorter period. The present contract interest rate on Federal land bank loans made through national farm loan associations is 4 percent, and the rate on Commissioner loans 1 percent higher.

A joint application for a loan (bank or Commissioner or both), on a prescribed form available from the banks and associations, is filed with the secretary-treasurer of the national farm loan association in the territory in which the property offered as security is located. The application calls for information regarding the amount and purposes of the loan sought, the security offered, and the applicant's financial condition. As a first step, the Federal Farm Loan Act provides for an investigation as to the character and solvency of the applicant and the sufficiency of the security offered, by the association loan committee or its investigator, and for a written report thereon. The association loan committee may also request a written report on the value of the security by a land bank appraiser, who is a public official appointed by the Farm Credit Administration. Where such a report by an appraiser has been obtained, the association may notify the applicant of any loan approved by it, subject to further approval by the Federal land bank.

The application and written report of the association loan committee, as well as any report by a land bank appraiser, are next referred to the Federal land bank; if there has been no report by a land bank appraiser, the bank will then obtain one. No loan may be made by the bank unless the reports of both the association and the lank bank appraiser are favorable. On the basis of the association approval and the favorable report by a land bank appraiser, the Federal land bank determines the amount of any loan that can be soundly made. Whether a Land Bank Commissioner loan is to be approved is determined by the bank as agent. The actual passing on applications in each bank is usually done by a loan or executive committee, and notice of its action is duly given to the interested association and the applicant. Loans to livestock corporations in certain circumstances, and land bank loans in excess of $25,000, require the approval of the Land Bank Commissioner which may be given by authorized personnel in the districts (see §§ 3.8, 3.9, 3.10 of this chapter).

There are certain statutory provisions also for direct loans to borrowers by the Federal land banks and loans through agents, where they cannot be made through an association, but the general plan is for the land bank loans to be made through associations.

(d) *Bonds.* Related to the lending functions of the Federal land banks is the issuance of Federal farm loan bonds to obtain funds with which to make loans. While the Federal Farm Loan Act provides both for Federal farm loan bonds to be issued by the banks individually, with the approval of the Farm Credit Administration (39 Stat. 375; 12 U. S. C. 841–844), and for consolidated bonds of the twelve banks to be sold through a common selling agency (39 Stat. 377, as amended; 12 U. S. C. and Sup., 875–886), all issues now outstanding are consolidated bonds. The collateral for consolidated bonds is prescribed in 39 Stat. 376, 377, as amended; 12 U. S. C. and Sup., 857, 875–899. This collateral is deposited or pledged with the farm loan registrars who are public officials appointed for each district by the Farm Credit Administration. Federal farm loan bonds are not guaranteed by the United States either as to principal or interest.

Such bonds intended for sale to the investing public are generally advertised and a prospectus is prepared as to the details of a particular issue. Further information as to such issues may be obtained from the Fiscal Agent of the Federal Land Banks, 31 Nassau Street, New York City.

(e) *Surplus property disposal.* The services and facilities of the Federal land banks are utilized further by the Federal Farm Mortgage Corporation in discharging its functions as disposal agency for surplus agricultural and forest real property under the Surplus Property Act of 1944. A separate Surplus Property Disposal Manual has been issued to cover this work, Part 5 of this chapter.

§ 10.3 *Definitions.* For the purposes of section 12 (Fourth) of the Federal Farm Loan Act, as amended (39 Stat. 370; 12 U. S. C. 771 (4)), the terms "equipment" and "improvement" are defined as follows:

(a) *Equipment.* The term equipment shall include implements appropriate for the operation of a farm, and may consist of teams as well as machinery, tools, and like articles.

(b) *Improvement.* The term improvement shall include any beneficial structure or any useful, permanent physical change tending to increase the productive value of the farm, such as clearing, tiling, drainage, fencing, building, and preparations for irrigation.

§ 10.10 *Security standards for Federal land bank loans.* To be acceptable security for a bank loan, a property must meet each of the following minimum standards:

(a) It must be capable of producing, under typical operation, sufficient normal agricultural earnings to pay farm operating expenses, including taxes and other fixed charges, maintain the property, and meet installments on a bank loan that would be proper to a typical owner of the property.

(b) It must be sufficiently desirable to be readily salable or rentable under normal agricultural conditions.

(c) It must be sufficiently durable to maintain satisfactory production during the loan term specified.

(d) It must have sufficient stability of value to assure that, on a loan that would be proper to a typical owner of the property, the bank could recover its investment if unforeseen difficulties should result in acquirement of the property.

While the normal agricultural earnings must be sufficient to meet the expenses specified in paragraph (a) of this section, it is not necessary that they also be adequate in all cases to meet family living expenses. When it is necessary to rely on income other than farm earnings for family living expenses, such supplemental income must be available to the applicant and to a typical owner from dependable sources and in an amount sufficient to support customary living standards.

§ 10.10–50 *Security standards for first mortgage Commissioner loans.* To be acceptable security for a first mortgage Commissioner loan based on normal agricultural value, a property may be somewhat lacking with respect to the minimum standards for bank loans or be subject to some uncertainty as to future conditions, provided there is reasonable assurance that a loan in a proper amount would prove to be satisfactory. The same requirements are applicable to security for a first mortgage Commissioner loan based on prudent investment value except that, as a minimum, the normal agricultural earnings of the property need be sufficient only to constitute a material contribution to the income or living of the operator.

§ 10.25 *Normal agricultural value basis.* The normal value of farms for agricultural purposes shall be the basis of appraisal for loans. For the purpose of such appraisal, commodity prices received by farmers during the period from 1909 to 1914, with such adjustment as may be necessary because of the change in the economic position of particular products, shall be the basis for determining the earning power of farm land. The normal agricultural value of a farm may be defined as the amount a typical purchaser would, under usual conditions, be willing to pay and be justified in paying for the property for customary agricultural uses, including farm home advantages, with the expectation of obtaining average production and of receiving normal prices for farm commodities.

§ 10.27–50 *Interest rates on loans made through an association or by a branch bank.* Approval is hereby given to an interest rate of 4 per centum per annum on loans by banks through associations, except loans on the security of the classes specified in § 10.28, and to an interest rate of 4½ per centum per annum on loans made pursuant to section 672, Title 12, United States Code, notwithstanding that the interest rate on the Federal farm loan bonds of the last series issued prior to the making of any such loans may be less than 3 per centum per annum.

§ 10.28 *Special interest rates.* For bank loans secured by first mortgages on the following farm property in the continental United States:

(a) Land that is employed primarily in the production of naval stores as defined by section 2 of the Naval Stores Act (Sec. 2, 42 Stat. 1435; 7 U. S. C. 92);

(b) Land used for the raising of livestock, in estimating the earning power and in establishing the value of which leases or permits for the use of other lands were taken into consideration and were a factor in determining the amount of the loan; and

(c) A farm property, a substantial part of the earnings from which is from orchard crops;

approval has been given to the following interest rates:

(1) For loans through associations, one-half of 1 per centum per annum in excess of the interest rate on loans through associations not secured by mortgages on the foregoing classes of farm property, such interest rate not to exceed 6 per centum per annum;

(2) For direct loans, one-half of 1 per centum per annum in excess of the interest rate approved for loans through associations under (1) preceding; and

(3) For loans under section 25 (b) of the Farm Credit Act of 1937 (50 Stat. 711; 12 U. S. C. Sup. 724) through associations, the capital stock of which is impaired, one-fourth of 1 per centum per annum less than the interest rate approved for direct loans under (2) preceding.

§ 10.29 *Special payments.* A bank may accept special payments on a bank loan or payment in full thereof either before or after 5 years from the date the loan was made. Where payment arises from the refinancing of the loan from a non-Government lending source and the loan has not been in force for at least 5 years, the bank may collect from the borrower such a sum as will reimburse it for the expense of making the loan. In all other cases of special principal payments or full payment of bank loans, the bank should not charge a prepayment fee nor should it ordinarily charge interest beyond the date the funds are received.

§ 10.31 *Conditional payments.* Conditional payments shall be held for subsequent credit upon indebtedness to the bank or the Corporation, except in cases of unusual circumstances where the release of the funds is justified. Interest shall be allowed on such payments held for more than 1 month at the effective interest rate applicable to the indebtedness in connection with which such conditional payment is held.

§ 10.101 *Executors and administrators (including temporary administrators).* Bank loans may be made to executors and administrators (including temporary administrators) when (a) either some individual beneficiary of the decedent's estate, or the executor, administrator, or any coexecutor or coadministrator of the estate, independently of his representative capacity, is (1) eligible as a borrower, and (2) owns, or is about to become the owner of, an interest in the property on which the loan is sought, and (3) can and will incur personal liability for the loan and assume the obligations of national farm loan association membership; and (b) a valid lien can and will be given on the property on which the loan is sought. As used in this section, the term "eligible as a borrower" means a person who is engaged in farming operations, or who is shortly to become engaged in farming operations, or who derives the principal part of his income from farming operations.

§ 10.103 *Heirs (including a sole heir taking without administration), devisees, and grantees of a deceased owner of farm land.* Loans may be made to heirs (including a sole heir taking without administration), devisees and grantees of a deceased owner of farm land under the same conditions as will permit a loan's being made to any other owner of farm land.

§ 10.104 *Trustees (whether appointed by will or deed), and other fiduciaries.* Bank loans may be made to trustees (whether appointed by will or deed) when (a) the trustee in his fiduciary capacity is engaged, or shortly to become engaged, in farming operations, or the beneficiaries of the trust are engaged in farming operations or derive the principal part of their income from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the trustee, or any cotrustee, or some individual beneficiary of the trust can and will incur personal liability for the loan, and assume the obligations of national farm loan association membership.

§ 10.105 *Guardians.* Bank loans may be made to guardians when (a) the guardian in his fiduciary capacity is engaged, or shortly to become engaged, in farming operations, or the wards are engaged in farming operations or derive the principal part of their income from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the guardian, or any coguardian, independently of his fiduciary capacity owns an interest in the property, and can and will incur personal liability for the loan and assume the obligations of national farm loan association membership.

§ 10.107 *Persons not legally competent (including infants, insane persons, and incompetents) when not represented by a guardian.* Loans may not be made to persons not legally competent (including infants, insane persons, and incompetents) when not represented by a guardian; and property in which such a person, not represented by a guardian, owns an interest, is ineligible as security for a loan.

§ 10.108 *Landlords.* Loans may be made to landlords when (a) the landlord has the right to and does exercise substantial control over the management of the farm on which the loan is sought; or (b) he is engaged, or shortly to become engaged, in farming operations, independently of his capacity as landlord of the farm on which the loan is sought; or (c) the principal part of his income is derived from farming operations.

§ 10.109 *Owners of future interests.* Loans may be made to owners of future interests when (a) all interests necessary to the creation of a fee simple estate in the land on which the loan is sought are included in the mortgage; and (b) the owner of the future interest is engaged, or shortly to become engaged, in farming operations independently of his capacity as owner of a future interest in the farm on which the loan is sought, or derives the principal part of his income from farming operations.

§ 10.110 *Tenants for years.* Bank loans may not be made to tenants for years.

§ 10.112 *Life tenants.* Loans may be made to life tenants when (a) all interests necessary to the creation of a fee simple estate in the land on which the loan is sought are included in the mortgage; and (b) the life tenant, by reason of farming operations conducted by him on the land covered by his life interest, or otherwise, is eligible as a borrower. As used in this section, the term "eligible as a borrower" means a person who is engaged in farming operations, or who is shortly to become engaged in farming operations, or who derives the principal part of his income from farming operations.

§ 10.114 *Husband and wife.* Loans may be made on their respective lands to a husband and wife owning land in severalty.

§ 10.115 *Aliens.* To the extent that State laws do not restrict the right of aliens to hold and convey real estate, loans may be made to aliens upon the same basis as to citizens: *Provided, however,* That such loans are not prohibited by and are made in conformity with the provisions of the Trading with the Enemy Act, as amended, (40 Stat. 411, as amended; 50 U. S. C. App. and Sup. 1–31), the foreign Funds Control regulations, and any other applicable laws and regulations relating to transactions with or property of enemy or other aliens.

CROSS REFERENCE: For Foreign Funds Control regulations, see 31 CFR Parts 130 and 131.

§ 10.116 *Individuals taking title from a corporation (bona fide ownership required).* Loans which are otherwise qualified may be made to individuals who have taken title from a corporation in which they were interested as stockholders, provided the transfer is in good faith and not a mere temporary expedient for the purpose of evading the provisions of the Federal Farm Loan Act (39 Stat. 360, as amended; 12 U. S. C. 641), which preclude loans to corporations other than corporations engaged in the raising of livestock.

§ 10.117 *Corporations.* Loans may be made to corporations (in addition to those engaged in raising livestock, when acting solely in a representative or fiduciary capacity for individual beneficiaries, provided that conditions of §§ 10.101, 12.102, 10.104, 10.105, and 12.106 are satisfied).

§ 10.118 *Livestock corporations.* Loans may be made to livestock corporations, provided the corporation is primarily engaged in the raising of livestock. It may also be engaged in such general farming operations as are incidental to its livestock raising. If it engages in any secondary operations not

strictly incidental to livestock raising, such secondary operations may constitute only a minor part of the corporation's activities.

§ 10.148 *Computing amount loanable to one borrower.* The aggregate amount of existing bank loans to any one borrower for the purpose of applying the limitation in section 12 "Seventh" of the Federal Farm Loan Act (12 U. S. C. 771) shall be the total unpaid principal of all indebtedness to the bank and any other banks of the system which is secured by mortgages or real estate sales contracts on property owned or being acquired by the applicant, or for which the applicant is personally liable, less the unpaid principal of (1) purchase money mortgage or real estate contract indebtedness in connection with which no association or bank stock has been issued, (2) indebtedness which is secured by property the applicant no longer owns and which has been assumed with the permission of the bank by a subsequent owner of the property in accordance with section 12 "Sixth" of the Federal Farm Loan Act (12 U. S. C. 771), and (3) assets purchased from a joint stock land bank under section 16 of the Federal Farm Loan Act.

DIRECT LOANS

§ 10.174 *Applicability of association loan regulations.* Except as otherwise specifically provided in these direct bank loan regulations and in section 7 of the Federal Farm Loan Act, as amended (12 U. S. C. 711–723), all provisions of said act and of the rules and regulations adopted thereunder which are applicable with respect to loans made through national farm loan associations shall, insofar as practicable, apply with respect to direct loans.

§ 10.175 *Receipt evidencing stock subscription.* Each borrower who obtains a direct loan shall be furnished by the bank with a receipt evidencing his subscription and payment for, and the issuance to him of, shares of the capital stock of said bank, the number and amount of such shares to be stated in said receipt. Each such receipt shall contain the following statement:

> The shares of stock hereinbefore mentioned are held by the Federal land bank as collateral security for the direct loan obtained by said borrower; said stock is nonvoting, and may be transferred only on the books of said bank and with its permission, as provided in section 12 (Sixth) of the Federal Farm Loan Act (12 U. S. C. section 771 (Sixth)), or to the Federal Farm Mortgage Corporation as authorized in section 7 of the act (12 U. S. C. 723 (c)). Said stock will be canceled by the bank if and when said borrower becomes a member of a duly organized national farm loan association, and in such event there will be issued in the name of said national farm loan association an equal number of shares of the capital stock of the bank, such shares to be held by the bank as collateral security for the loan of said borrower. The shares of stock of the Federal land bank issued to said borrower shall, if still outstanding, upon payment in full of said loan or foreclosure of the mortgage securing the same, be canceled at par, or, in the event that such stock shall have become impaired, at the estimated value thereof as approved by the Land Bank Commissioner, and the proceeds thereof shall be paid to the borrower: *Provided, however,* That all sums accruing and payable as dividends on such stock, and/or proceeds of such stock upon payment in full of said loan or foreclosure of said mortgage, shall be subject to the right of the bank to retain and apply the same upon any obligation(s) due and unpaid under the terms of said mortgage.

§ 10.182–50 *Interest rate on Commissioner loans.* Under the provisions of the fourth sentence of section 32 of the Emergency Farm Mortgage Act of 1933 (48 Stat. 48, as amended; 12 U. S. C. 1016 (c)), the contract rate of interest on Commissioner loans, except those guaranteed under Title III of the Servicemen's Readjustment Act of 1944 (58 Stat. 291, as amended; 38 U. S. C. Sup. 694), is required to be 1 percent per annum higher than the basic rate on loans made at the same time by the bank through associations, otherwise than pursuant to section 25 (b) of the Farm Credit Act of 1937 (50 Stat. 711; 12 U. S. C. 724). With the exception stated, this requirement is applicable to all Commissioner loans, including those closed jointly with section 25 (b), direct, or special risk bank loans bearing a higher rate than such basic rate on bank loans made through associations.

INSURANCE REQUIREMENTS FOR BANK LOANS

AUTHORITY: §§ 10.183 to 10.197, inclusive, issued under sec. 12 "Ninth", 39 Stat. 370; 12 U. S. C. 771 "Ninth".

§ 10.183 *Insurance requirements.* Insurance on buildings shall be required against such risks and in such amounts as the bank may determine to be necessary for adequate protection of the mortgagee's interest. In making the determination consideration should be given to the size of the loan in relation to the value of the security, the extent to which the buildings enter into such value, and the extent to which the borrower's ability to operate the property efficiently would be affected if a loss occurred and the buildings were not replaced. In closing loans the associations should notify the bank when the maximum amount of insurance obtainable is less than that required by the bank.

§ 10.187 *Acceptable insurers.* Insurance required shall be evidenced by a lawful policy or policies issued by any insurance company, including any State supervised mutual insurance company, which is satisfactory to the bank: *Provided,* That such company be authorized to do such insurance business, and be subject to service of process in suits brought, in the State in which the insured property is located, except that, when insurance is procured and paid for by the bank upon default under the mortgage, such insurance company may be one which is subject to service of process in suits brought in the State where the bank is located. The acceptance by a bank of insurance from an organization other than one provided for by this section shall be subject to the approval of the Commissioner.

§ 10.188 *Losses to be made payable to mortgagee; exception.* Insurance shall be made payable to the bank and Corporation, as mortgagees, as their interests may appear at time of loss, and shall afford the bank and Corporation the same protection they would have under the New York standard mortgage clause, but the bank may, in its discretion, permit individual losses of $100 or under to be paid directly to the mortgagor for use in the prompt reconstruction of the buildings destroyed. The provisions of §§ 10.189 to 10.197, inclusive, shall not be applicable to losses of $100 or under which are paid directly to the mortgagor, with the permission of the bank, for use in reconstruction.

§ 10.189 *Subsequent owner deemed "mortgagor" under certain circumstances.* When a subsequent owner of a mortgaged farm has assumed the mortgage and, in the case of a land bank loan the stock interests of the original mortgagor in accordance with the provisions of section 12 "Sixth" of the Federal Farm Loan Act is primarily liable therefor, the term "mortgagor" shall be deemed for the purposes of the regulations in this part to refer to such subsequent owner.

§ 10.190 *Mortgagor's option to use loss proceeds for reconstruction.* At the option of the mortgagor and subject to the provisions of this part any sum received in settlement of a loss covered by insurance required by this part may be used to pay for the reconstruction of the buildings involved.

§ 10.190–50 *Circumstances under which mortgagor's option to use loss proceeds does not obtain.* The option of the mortgagor referred to in this part shall not apply in the case of (a) any sum received under a policy of insurance which was not provided or paid for by the mortgagor, or (b) any sum with respect to which liability to the mortgagor is denied by the insurer, unless and until such denial be rescinded or until final judgment of a court of competent jurisdiction that the insurer is liable to the mortgagor. In either event the mortgagor shall initiate the steps otherwise necessary under this part for the exercise of his option within 30 days after the establishment of the liability of the insurer to him for such loss.

§ 10.191 *Manner in which mortgagor's option to use loss proceeds shall be exercised.* The bank or association as promptly as possible after the receipt of the sum referred to in § 10.190 shall send to the mortgagor a notice in writing thereof. Within 30 days after such notice is sent, if the mortgagor desires to exercise his option, he shall so notify the bank or association in writing. With such notice or within 30 days thereafter, unless such time for good cause be extended, the mortgagor shall furnish information in such form as shall be satisfactory covering the plans of the mortgagor for the reconstruction of the building involved in sound and serviceable form and condition, at least equal to that which existed immediately prior to the loss. Within said 30 days the mortgagor shall also furnish satisfactory assurance that such reconstruction will be completed within a reasonable time, and that there will be no unsatisfied liens for labor, materials, and/or other expenses

that will have priority over the mortgage when such reconstruction shall have been completed or when the said sum received shall have been paid to or for the account of the mortgagor.

§ 10.192 *Loss proceeds not to be disbursed in absence of evidence that prior liens will not attach.* No sum received shall be paid to or for the account of the mortgagor for the purpose of enabling him to reconstruct a building until the bank or association is satisfied that no lien by reason of reconstruction of the buildings covered by such insurance will have priority over the mortgage thereon. The regulations adopted by the bank should establish adequate safeguards with respect to such disbursements.

§ 10.193 *Reconstruction of improvements in different form.* If the mortgagor desires to use the insurance money, in whole or in part, in order to replace the building involved with an insurable building of less expensive type, or to substitute any other insurable building, the said fund may be used for such purpose, provided the land bank or association is satisfied that the proposed building will be suitable and adequate to the agricultural needs of the farm.

§ 10.194 *Evidence that mortgagor can supply additional funds; meaning of term "reconstruction."* If the sum received (after making the deductions, if any, authorized by the regulations in §§ 10.183 to 10.197, inclusive) be inadequate to enable the mortgagor to reconstruct as herein provided, and he desires nevertheless to do so, he shall furnish satisfactory assurance that he will have the necessary additional funds. Where, under the regulations in §§ 10.183 to 10.197, inclusive, a building may be repaired, replaced, or substituted, the operations involved shall be deemed to be covered by the words "reconstruct" or "reconstruction," as the case may require.

§ 10.195 *Application of loss proceeds to mortgage debt.* If the mortgagor fails or refuses to exercise his option in accordance with the regulations in this part, or to comply with all of the conditions of the regulations in this part with respect thereto, or if the mortgage be in process of foreclosure, or if the mortgagor be in default in such manner that the mortgage is subject to foreclosure, the sum received may be retained for application upon the indebtedness secured by such mortgage or as collateral security therefor. Any portion of the sum received which is not used for reconstruction may also be retained for application upon the indebtedness or as collateral security therefor.

§ 10.197 *Conditional release of loss proceeds.* No insurance proceeds may be released unconditionally to a borrower or a junior lienor except for the purpose and under the conditions hereinbefore set forth, unless the remaining security meets the security requirements for a new loan. Exceptions to this requirement may be made only where it is clearly to the best interest of the mortgagee to do so. Where insurance proceeds are released unconditionally to a borrower or junior lienor the procedure governing the release of funds received from the sale of part of the security shall be followed so far as applicable.

§ 10.198 *Nonapplicability of regulations.* The provisions of §§ 10.190 through 10.197 are not applicable in the case of settlements of losses on buildings not required by the bank to be insured.

§ 10.199 *Applicability of regulations to loans, mortgages, and contracts purchased from the Federal Farm Mortgage Corporation.* The provisions with reference to insurance in connection with mortgage loans also apply to loans, purchase money mortgages, and contracts purchased from the Federal Farm Mortgage Corporation.

§ 10.222 *Refinancing mortgages purchased from joint stock land banks.* In connection with the purchase of a mortgage from a joint stock land bank, the right given a mortgagor to refinance under the provisions of section 13 "Second" of the Federal Farm Loan Act, as amended (12 U. S. C. 781 (2)), is a personal privilege granted only to the owner of the property at the time the mortgage is purchased by the Federal land bank. It is the responsibility of the Federal land bank to notify such an owner of his right to have his indebtedness refinanced. A reasonable time of not to exceed 6 months should be specified in the notice as the period in which he may file an application for a refinancing loan.

§ 10.223–53 *Reduction of interest rate.* The interest rate on any Commissioner loan, purchase money mortgage, or contract purchased or acquired by the bank must be reduced to the rate applicable to new land bank loans as of the date of the acquisition of the loan, purchase money mortgage, or contract by the bank, but upon acquisition the bank may make the reduced rate effective retroactively. This reduction in interest may be accomplished generally in the same manner and under the same procedure as was used to reduce the contract interest rate on land bank loans to 4 percent. The bank should notify each borrower of the interest reduction when effected. It may also wish to consider furnishing, or offering to furnish upon request of the borrower, an individual instrument in recordable form evidencing the reduction.

§ 10.223–55 *Maximum and minimum loanable amounts.* The limitations with respect to the maximum and minimum amounts of loans as provided in section 12 "Seventh" of the Federal Farm Loan Act shall be applied in connection with the purchase of a Commissioner loan, purchase money mortgage, or contract by the land bank. Accordingly, no such asset may be purchased from the Corporation if the amount thereof will increase the borrower's total indebtedness to the bank and any other banks of the system to an amount in excess of $50,000.

§ 10.223–58 *Acquiring stock in addition to any available stock which borrower owns; retirement of stock owned by borrower.* "Any available stock" already owned by the borrower shall be stock in an unimpaired association which is owned by the borrower or in which the borrower owns the beneficial interest, and which, computed at its par value, is in excess of 5 percent of any indebtedness (unpaid principal, advances, and any other items properly chargeable to the borrower, including accrued interest thereon at the date of acquirement of the purchased asset) to the bank in connection with which such stock was issued. Stock in an unimpaired association other than the one through which the purchased asset is being acquired may be treated as available stock provided such association consents to its retirement. Also, where an association has been through conservatorship and is operating under section 25 (b) of the Farm Credit Act of 1937 (50 Stat. 711; 12 U. S. C. 724), with a completed compartment, any stock owned by the borrower in group 1, computed at its fair book value, which is in excess of 5 percent of any bank loan or loans of the borrower through group 1, may be retired and the proceeds thereof used to purchase stock in group 2 in connection with the asset being acquired. Under the foregoing definition, where a borrower has more than one loan through the association or owns stock in connection with a loan which is secured only in part by the property securing the asset being acquired, any excess stock in connection with such loan or loans is available stock.

§ 10.223–59 *Farm Credit Administration approval of retirement of association or related bank stock.* The Administration approves the retirement, under section 7 of the Federal Farm Loan Act (12 U. S. C. 721), of related bank stock in an amount equal to such available association stock where such retirement is authorized by the board of directors of the bank and the proceeds are to be used for the purchase of stock needed in connection with the acquired asset.

§ 10.223–60 *Classes of borrowers; borrowers' disposition of stock or purchase of additional stock; election to membership and purchase of stock by borrowers not members of an association.* It will be necessary to deal with three classes of persons in meeting the foregoing requirements; (a) those who are members of the association through which the paper is being acquired and who own sufficient available stock; (b) those who are members of the association but who do not own sufficient available stock in connection with any paid-down bank loan or loans; and (c) those who are not members of the association and who own no stock in it. As to the first class, the existing available stock or the stock purchased with the proceeds of retired available stock must be pledged as collateral security in accordance with the provisions of the Federal Farm Loan Act, as amended, for the indebtedness being acquired. Persons in the second class must purchase additional stock either in cash or under the methods hereinafter prescribed and pledge such stock, as well as the available stock or the stock purchased with the proceeds of the re-

tired available stock, for the indebtedness being acquired. Persons in the third class must be elected to membership, purchase stock either for cash or under the methods hereinafter prescribed, and pledge such stock as collateral security for the indebtedness being acquired.

§ 10.223–61 *Personal liability of borrower.* In each of the classes mentioned above the person owning the property subject to the loan, mortgage, or contract being acquired may or may not be personally liable on the indebtedness. If not personally liable, the person must become personally liable on the paper being acquired by the bank.

§ 10.223–62 *Restrictions on eligibility of borrowers for association membership.* To be eligible for association membership, a person must meet the requirements for assumption of a bank mortgage under section 12, Sixth of the Federal Farm Loan Act, i. e., the person need not be a farmer, but must be a natural person or a livestock corporation eligible for membership.

§ 10.223–63 *Payment in cash by borrower where amount of stock required is not substantial; additional loan to borrower to provide for payment of stock to be purchased; release by bank of conditional payments in amounts sufficient to cover the purchase of required stock; procedure for purchase of stock by borrower.* Where the amount of stock required is not substantial, it may be feasible to obtain payment therefor in cash. In other cases the borrower may desire, and it may be feasible, to provide for payment for the stock by means of an additional loan. It will also be appropriate for the bank to permit the release of conditional payments, under § 10.31, in amounts sufficient to cover the purchase of the required stock. However, where none of the foregoing procedures is followed, the stock may be purchased under either of the following procedures:

(a) The bank may extend credit on a secured or unsecured basis to the borrower in an amount sufficient to purchase such stock. The type of agreement to be entered into with the borrower for the repayment of the purchase price of the stock and the procedure to be followed in handling such transactions on the bank's books shall have the approval of the Administration.

(b) The association, upon application by the borrower, may extend credit in an amount sufficient to purchase such stock, subject to the following:

(1) In such application the borrower shall agree that his liability to the association for such stock shall be secured by a lien on the borrower's property which is security for the paper being acquired, junior to any lien held or to be acquired by the Federal land bank on such property. It is not necessary that the lien for the stock indebtedness be recorded.

(2) The association may charge the borrower interest at a rate not to exceed 4 per centum per annum on the unpaid balance of any indebtedness incurred for this purpose.

(3) The association may in turn, pursuant to 12 U. S. C. 743, borrow from the Federal land bank the amount necessary to purchase stock in the bank where it has sold its stock on credit to its borrowers. Such borrowing may be evidenced by an assignment by the association to the bank of the borrower's agreement to pay for stock in the association.

(4) The applicant may request a deferment of principal payments in order to enable the association or the bank, as the case may be, to collect the amount for indebtedness for stock in the association, and the bank may grant such deferments under the provisions of section 7 of the bill.

§ 10.223–64 *Issuance of new stock sufficient to cover existing loan; retirement of existing stock.* Where an applicant who does not own the outstanding stock in connection with the existing bank loan on the farm covered by the mortgage or contract being purchased by the bank from the Corporation desires or is required by the bank, in its discretion, to acquire such stock or new stock in lieu thereof but cannot acquire the outstanding stock, the outstanding stock may be retired and paid off and new stock issued to the applicant and pledged in connection with the existing bank loan. The bank should require that the applicant purchase only enough new stock to collateralize the existing bank loan in the proportion of one share of stock for every $100 or major fraction thereof of the unpaid indebtedness under the existing bank loan or the original face amount of the loan, whichever is less. When stock in that amount is issued to the applicant, all other stock outstanding in relation to the existing bank loan should be retired. The Administration hereby approves the retirement of stock in such cases where it is authorized by the bank's board of directors. Where the applicant acquires no stock in connection with the bank loan, then, unless he procures from the owner of the association stock held in connection with the bank loan a power of attorney or other authorization to exercise the exclusive right to vote in connection with both loans, the applicant must agree with the association, in consideration of the bank's purchase of the Corporation asset, to forego the right to vote at any association meeting where he and the other stockholder are present, except when they agree as to which shall cast the one vote.

§ 10.236 *Conditional payments; joint indebtedness to a bank and the Corporation.* In cases where the respective indebtednesses of the borrower to the bank and Corporation are secured by the same or common real property, amounts to be accepted as conditional payments (by the bank for subsequent credit on its indebtedness and by the Corporation for subsequent credit on its indebtedness) should ordinarily be allocated to each indebtedness in such manner as to assure the borrower of relatively the same security against future delinquency on the respective indebtednesses.

§ 10.238 *Conditional payments; unrelated loans.* In those cases in which a borrower has indebtedness to the bank, the Corporation, or both, which is not secured by the same or common real property, determination should be made by the bank, on the basis of the facts in each case, as to the indebtedness or indebtednesses on which conditional payments are to be accepted and held for subsequent credit. When conditional payments are accepted in these cases, they shall be subject to all the provisions of the regulations in this part governing conditional payments insofar as practicable.

§ 10.239 *Interest allowance.* Interest shall be allowed on conditional payments in accordance with the following terms and conditions:

(a) The rate(s) at which interest is allowed the borrower on a conditional payment shall be the rate(s) effective on those installment dates of the indebtedness to which the conditional payments are applied and which installment dates occurred during the period such conditional payments were held. As used herein, "effective interest rate" means the rate actually charged the borrower on the indebtedness on which a conditional payment is applied.

(b) Interest shall be allowed on conditional payments from the date of acceptance of such payments to the date of application on the borrower's indebtedness and such interest shall be compounded as of the installment dates of such indebtedness which occurred during the period the conditional payments were held by the bank: *Provided*, That at the option of the bank, interest need not be allowed upon any amount which has not been held for the credit of the borrower as an unapplied conditional payment for a period up to 1 month: *And provided further*, That in any case where the aggregate interest credit does not exceed 25 cents, no allowance need be made.

(c) Interest allowed on a conditional payment shall be credited to the borrower as of the date of application of a conditional payment on his indebtedness, or returned to him in accordance with § 10.242.

§ 10.240 *Interest liability.* The books and statements of condition of the bank and Corporation shall reflect the liability for interest accrued in connection with conditional payments held for subsequent application. Such liability shall be accrued on installment dates and for the periods provided in § 10.239 for determining interest allowances, at the rate actually charged the borrower on the unmatured portion of the indebtedness in connection with which such conditional payment is held. Such accruals shall be subject to any adjustment required upon application of the conditional payment in order that the interest allowed on the conditional payment shall conform to the provisions of § 10.239.

§ 10.241 *Application of conditional payments not involving transfers between the bank and the Corporation.* Subject to any limitations contained in the Federal Farm Loan Act, the bank shall apply conditional payments on the borrower's indebtedness in connection with which they are held, or on other indebtedness to the bank when such indebtedness is secured by the same or common real property, in accordance with the following terms and conditions:

(a) As the borrower may direct in writing, the bank shall pay out of conditional payments held for the borrower's credit any portion of the indebtedness to the bank on regular installment dates; and, upon the written request of the borrower, the bank may, at any time, pay out of conditional payments held for the borrower's credit any portion of the indebtedness to the bank.

(b) At its option the bank may pay out of conditional payments held for the borrower's credit on his bank indebtedness any portion of the indebtedness to the bank as and when the same becomes due and payable.

(c) If at any time the balance of unapplied conditional payments held for a borrower's credit together with the interest allowance thereon equals or exceeds the total amount of the indebtedness, the whole indebtedness shall become due and payable at once and shall be paid out of such balance.

(d) In the event of the borrower's death or bankruptcy, or in the event of transfer of the indebtedness by the bank or conveyance of title to the property securing the indebtedness by the borrower, the bank at its option may apply all or any portion of the conditional payments held for the borrower's credit on the indebtedness.

§ 10.241–20 *Application; unrelated loans.* At the borrower's written request the bank may pay out of conditional payments held for the borrower's credit, any portion of the borrower's indebtedness to the bank that is not secured in whole or in part by the same property securing the indebtedness to which the funds were allocated when received.

§ 10.241–30 *Conditional payments held by Corporation.* The provisions of §§ 10.241 and 10.241–20 shall apply with equal force to any application on the borrower's indebtedness to the Corporation from the conditional payments held by the Corporation for the borrower's credit; for this purpose the term "Corporation" shall be substituted for the term "bank."

§ 10.241–50 *Transfer of conditional payments from bank to Corporation; same security.* Conditional payments held for the credit of the borrower on his bank indebtedness shall be applied on the borrower's indebtedness to the Corporation, which is secured in whole or in part by the same real property securing the indebtedness to the bank, in accordance with the following terms and conditions:

(a) At the borrower's written direction the bank shall pay out of conditional payments held for the borrower's credit on his bank indebtedness, any portion of the borrower's indebtedness to the Corporation, as and when the same becomes due and payable.

(b) At the option of the bank and with the consent of the Corporation, the bank may pay out of conditional payments held for the borrower's credit on his bank indebtedness, any portion of the borrower's indebtedness to the Corporation as and when the same becomes due and payable.

(c) If at any time the total of unapplied conditional payments held for a borrower's credit on his indebtedness to both the bank and the Corporation together with the interest allowance thereon equals or exceeds the total amount of his indebtedness to the Corporation, at the discretion of the bank, upon written direction from the borrower and with the consent of the Corporation, the whole indebtedness to the Corporation may be regarded as having become due and payable at once and may be paid out of such total payments.

§ 10.241–60 *Transfer of conditional payments from bank to Corporation; different security.* In any case in which a borrower has indebtedness to the bank and the Corporation which is not secured by the same or common real property, at the borrower's written request and with the consent of the Corporation, the bank may, out of conditional payments held for the borrower's credit on his bank indebtedness, pay any portion of the borrower's indebtedness to the Corporation, as and when the same becomes due and payable, or, if at any time the total of unapplied conditional payments held for a borrower's credit on his indebtedness to both the bank and the Corporation together with the interest allowance thereon equals or exceeds the total amount of his indebtedness to the Corporation, the whole indebtedness to the Corporation may be regarded as having become due and payable at once and may be paid out of such total payments.

§ 10.241–70 *Transfer of conditional payments from bank to Corporation; interest adjustment.* The bank shall make transfers, which are within the purview of §§ 10.241–50 and 10.241–60, in the full amount required to take up the indebtedness to the Corporation and no reimbursement for interest credited thereon as of the date of transfer or prior installment dates shall be made to the bank by the Corporation; *Provided, however*, That if the indebtedness to the Corporation to which the payment is to be applied bears a higher effective rate of interest than the indebtedness on which the payments were held unapplied, then the Corporation shall allow a simple interest credit at the difference in such rates for the period(s) such differences existed or the period(s) such payments were held unapplied by the bank, whichever is the lesser, and the bank shall transfer an amount which, together with the simple interest credit allowed by the Corporation, will take up the indebtedness. The first amount accepted as conditional payments by the bank shall be considered as the first amount paid out of the conditional payments either on the indebtedness to the bank or on the indebtedness to the Corporation.

§ 10.241–80 *Transfer of conditional payments from Corporation to bank.* The provisions of §§ 10.241–50, 10.241–60 and 10.241–70 shall apply with equal force to any application on the borrower's indebtedness to the bank from the conditional payments held by the Corporation for the borrower's credit; for this purpose the terms "bank" and "Corporation" shall be read conversely.

§ 10.242 *Disposition of unapplied conditional payments.* When the balance of unapplied conditional payments held by the bank together with interest allowance thereon is reduced to $10 or less, at its option the bank may apply such balance on the borrower's indebtedness to the bank, subject to notification to the borrower of such action and reversal if he so requests. Any balance of unapplied conditional payments together with interest allowance thereon held in connection with the borrower's indebtedness shall be refunded to the borrower by the bank when the indebtedness is paid in full: *Provided, however*, That amounts of conditional payments held by the bank for the credit of a borrower who is indebted also to the Corporation, may, at the written direction of the borrower, be transferred to the Corporation, when the borrower's indebtedness to the bank is paid in full. Such payments transferred shall be subject to an interest allowance by the Corporation, in accordance with §§ 10.239 (a) and 10.241–70. The provisions of this section shall apply with equal force to the disposition of balances of conditional payments held unapplied by the Corporation; for this purpose the terms "bank" and "Corporation" shall be read conversely.

§ 10.243 *Evidence of acceptance of conditional payments.* Upon acceptance of a conditional payment, the bank shall furnish the borrower with a receipt, which shall identify the indebtedness in connection with which the conditional payment is accepted, and set forth generally the conditions under which such payments are held; *Provided*, That if the bank, under a procedure approved by the Administration, furnishes the borrower a general statement of such conditions to apply to one or more payments, the receipts for such payments need not set forth the conditions. The form of receipt used by a bank shall have the approval of the Administration.

§ 10.244 *Indebtedness current before conditional payments accepted.* Conditional payments shall not be accepted by a bank while there are outstanding unpaid matured obligations of the borrower to the bank on such indebtedness or to the Corporation on an indebtedness secured by the same or common real property: *Provided*, That at the direction of the borrower funds tendered as conditional payments may be used to pay such matured and unpaid obligations and any balance remaining may be accepted as conditional payments.

§ 10.275 *Subrogation of insurer following payment of loss.* An insurance company which has made payment to a bank under the uniform loss payable clause, but which denies liability to the mortgagor, is not entitled to subrogation against the endorsing association because of such payment. Nor can such an insurer, in the case of an association-endorsed or direct loan, obtain an in-

terest in the bank stock pledged with the bank as security for the loan. No assignment of mortgage or other form executed by a bank in favor of such an insurer shall by express provision or by implication undertake (a) to transfer any right of the bank against the endorsing association or any interest in the bank stock pledged by the association in connection with the loan, or (b) in the case of a direct loan, to transfer any right or interest to the insurance company in the direct loan stock.

§ 10.279–50 *Partial retirement of stock.* In individual cases where the amount of bank stock held as security for a loan is substantially in excess of 5 percent of the unpaid balance of the loan and the bank determines that retirement of the excess stock is advisable, the Administration approves, under section 7 of the Federal Farm Loan Act (12 U. S. C. 721), the retirement of that portion of such stock which is in excess of 5 percent of the unpaid balance of the loan, *Provided,* (a) The capital stock of the association through which the existing loan was made is not impaired and such stock retirement will not make the principal remaining unpaid upon mortgages already received from the association exceed 20 times the amount of stock in the bank owned by such association, or the only stock outstanding in connection with the existing loan is bank stock, and (b) Such retirement of stock is in accordance with authorization given by the bank's board of directors by appropriate resolution.

§ 10.383 *Conversion of direct loan into association loan.* The provisions of section 7 of the Federal Farm Loan Act, as amended (12 U. S. C. 723 (d)), with respect to the reduction of interest rates and issuance of association stock in lieu of stock in the bank shall be applicable also to a borrower who has obtained a direct loan and who subsequently is elected to membership in an existing association whose endorsement at the time is acceptable to the bank.

§ 10.522 *Exchange of consolidated bonds.* Consolidated bonds issued by the 12 Federal land banks may be exchanged for bonds of the same issue, and assignments of registered consolidated bonds of all issues may be effected, under and in accordance with the regulations of the United States Treasury Department governing exchange and transfers of United States bonds.

LOST, STOLEN, DESTROYED, MUTILATED, OR DEFACED BONDS AND COUPONS

§ 10.523 *Bonds issued by individual banks.* Whenever it appears to the Land Bank Commissioner, by clear and satisfactory evidence, that any interest-bearing bond or any coupon thereof issued by any Federal land bank or joint stock land bank has, without bad faith on the part of the owner, been lost, stolen, or destroyed, and is not lawfully held by any person as his own property, or has been so mutilated or defaced as to impair its value to the owner, and is identified by number and description, the Land Bank Commissioner may authorize payment to be made (upon approval of the proofs of loss, etc., bonds of indemnity and related papers filed with the banks of issue in such cases, detailed information as to which has been furnished the banks) without requiring the issuance of any new bonds for record purposes.

§ 10.524 *Owner of lost bond to file bond of indemnity.* The owner of any such lost, stolen, or destroyed coupon bond or coupon thereof shall file with the bank of issue a bond of indemnity in a penal amount double the sum of the face amount of such coupon bond and the interest due and unpaid to the date when the bond was called or matured; and the owner of any such lost, stolen, or destroyed registered bond shall file with the bank of issue a bond of indemnity in a penal amount equal to the sum of the face amount of such bond and the interest thereon due and unpaid to the date when the bond was called or matured; with good and sufficient corporate surety to be approved by the bank of issue and the Land Bank Commissioner, and with conditions to indemnify and save harmless the bank of issue from all claims, demands, or loss, on account of the bond for which payment is requested.

§ 10.525 *Consolidated bonds.* The statutes of the United States, now or hereafter in force, and the regulations of the Treasury Department, now or hereafter in force, governing relief on account of loss, theft, destruction, mutilation, or defacement of United States securities, and the regulations of the Treasury Department, now or hereafter in force, governing the payment of mutilated or defaced coupons of United States securities, so far as such statutes and regulations may be applicable, and as modified to relate to consolidated Federal farm loan bonds, and coupons of such bonds, shall govern the granting of relief on account of lost, stolen, destroyed, mutilated, or defaced consolidated Federal farm loan bonds, and mutilated or defaced coupons of such bonds.

CONSOLIDATED BONDS; CALL FOR REDEMPTION

§ 10.530–50 *Method of calling consolidated Federal farm loan bonds.* When any Federal land bank shall desire to call for redemption any consolidated Federal farm loan bonds outstanding on its behalf, it shall, pursuant to appropriate authorization of the 12 Federal land banks, file with the Farm Credit Administration, at least 20 days prior to the date on which the call is to become effective, a certified copy of a resolution of its board of directors authorizing such call. The Land Bank Commissioner shall, at least 15 days prior to the date on which the call is to become effective, approve or disapprove the call and, if the call is approved, shall cause formal notice thereof to be published, at least 15 days prior to the effective date of the call, in the FEDERAL REGISTER and through any other facilities that the Farm Credit Administration may elect. Such notice shall describe the bonds so called for redemption and shall designate the place or places where and the date on and after which they will be payable. Approval of the call and publication of notice as herein required shall be deemed a complete call. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

§ 10.530–51 *Call for less than entire issue of consolidated Federal farm loan bonds.* In any case in which it is desired to call for redemption less than all of the outstanding bonds of any issue or issues, the bonds to be so called shall be selected in such manner as the Land Bank Commissioner shall prescribe.

AUTHORITY: §§ 11.1 to 11.1025–64, inclusive, issued under secs. 7, 8, 9, 12, 24, 29, 39 Stat. 365, 367, 368, 370, 379, 381, sec. 6, 47 Stat. 14, sec. 25 (d), 50 Stat. 713; 12 U. S. C. and Sup., 665, 716, 721, 733, 745, 771, 911, 965, 967.

NOTE: In §§ 11.64–50 to 11.1025–64, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Policy and Operations Manuals of Federal Land Banks and the Manual for National Farm Loan Associations, issued as of January 1, 1943.

§ 11.1 *Organization of national farm loan associations.* (a) National farm loan associations are corporations chartered by the Farm Credit Administration and operate under its supervision in accordance with the provisions of the Federal Farm Loan Act (39 Stat. 360, as amended; 12 U. S. C. and Sup., Chap. 7, Subchap. I). All of the stock of a national farm loan association is owned by the member borrowers. The territory within which an association may transact business is fixed in its charter. Some 1,300 associations now serve the United States. Membership in an association is confined to persons who are borrowers from a Federal land bank.

(b) The members of an association elect its board of directors from its membership. The board appoints its officers and employees, the secretary-treasurer being its executive officer. Each association has a loan committee which considers applications for loans and also may elect applicants to membership if so authorized by the board. The necessary blanks and instructions for the formation of an association may be obtained from the Federal land bank authorized to operate in the particular State. The organization of a new association is not undertaken if an existing association is giving adequate service in the territory.

(c) The office address of the association serving a particular locality may be obtained from the Federal land bank of the district.

§ 11.2 *Functions and procedures of national farm loan associations.* (a) The Federal Farm Loan Act (39 Stat. 360, as amended; 12 U. S. C. and Sup., Chap. 7, Subchap. I) provides, in connection with Federal land bank loans through associations, that the borrower will be elected to membership in the association and subscribe for association stock in the amount of 5 percent of his loan, such stock to be held by the association as collateral security for repayment of the loan, and that the association will in turn endorse and thereby become liable for the loan and subscribe for a similar amount of stock in the bank, which stock will be held by the bank as collateral security for the association's obligations. Unless the capital of the association is impaired, both types of stock ordinarily are retired and paid off at par when the loan is repaid. The further association procedure on applications for loans is indicated under the heading "Loans" in § 10.2 of this subchapter.

(b) Full information as to the farm loans available from the land banks is obtainable from the local associations.

(c) The Federal land banks also utilize the services and facilities of the associations in servicing land bank and Commissioner loans in their territory, and have delegated certain functions with respect to loans and acquired properties to qualified associations. Among the transactions reserved for decision by the banks is the approving of new loans, calling loans for foreclosure, accepting deeds in lieu of foreclosure, filing suit for judgments, accepting offers for the sale of real estate, and the sale and disposition of minerals. In any event, even though final decision with respect to a transaction is reserved to the bank, initial application therefor should be made to the local association.

(d) Further, the services and facilities of the associations may be utilized, if convenient, by the Federal Farm Mortgage Corporation in discharging its functions as disposal agency for surplus agricultural and forest real property under the Surplus Property Act of 1944 (58 Stat. 765, as amended; 50 U. S. C. App. Sup., 1611–1646).

LIQUIDATION OF ASSOCIATIONS

§ 11.64–50 *Method of liquidation* Any association may be liquidated by the retirement by a bank, with the approval of the Administration, of all the stock held by the association in the bank and the retirement of the corresponding shares of stock in the association. In the absence of special circumstances, approval will not be given to a liquidation by this method unless the association has less than 10 members and it appears to the satisfaction of the Administration that the association cannot or will not funcion and that its continuance will not serve a useful purpose.

§ 11.64–51 *Distribution of assets; completing liquidation.* The Administration will advise the association of the retirement by the bank of its stock. Upon receipt of this information the association shall have recorded on its books the retirement of the corresponding stock of the association held by the borrowers; determine by agreement with the bank the amount of contingent liabilities incurred by the association on account of endorsed mortgages and include such amount in the liabilities of the association; apply all assets of the association to the extent necessary to the payment of its liabilities; distribute any remaining assets to its stockholders, or their successors in interest, of record on the books of the association as of the effective date of liquidation, pro rata according to their respective shareholdings; and return the charter of the association to the bank for transmittal to the Administration for cancelation.

RETIREMENT OF STOCK UPON REPAYMENT OF LOANS

§ 11.65 *Classification of associations.* The banks shall review periodically the financial condition of each association, and each completed compartment formed under the provisions of section 25 (b) of the Farm Credit Act of 1937 (50 Stat. 711; 12 U. S. C. 724), to determine whether its capital stock is impaired or unimpaired. For this purpose, the stock of an association shall be considered impaired if the total of its liabilities (including estimated losses on contingent liabilities) and capital stock is in excess of its total assets and such excess may not reasonably be regarded, under all the circumstances, as negligible in amount or percentage, as apparent rather than real, or as temporary only.

PROCEDURE CONSOLIDATING ASSOCIATIONS

§ 11.348 *Action by directors.* The board of directors of each association to be consolidated shall take appropriate action to authorize the execution of a consolidation agreement and articles of association for the consolidated association. The board may designate one or more of its members to serve with representatives of each of the boards of the other associations involved as an organization committee for the formation of the consolidated association. Each board of directors, or the representatives of each association on the organization committee pursuant to authority by the association board of directors, shall execute on behalf of such associations the agreement of consolidation and articles of association on forms prescribed by the Commissioner and shall appoint not less than five or more than seven qualified persons to serve as directors for the consolidated association, who will constitute the board of directors for the period intervening from the date of organization to the date fixed in the bylaws for the first annual meeting of stockholders or until their successors are elected and have qualified.

§ 11.349 *Action by members.* Meetings of association members shall be called in accordance with the provisions of the bylaws of the association. Notices of the meetings, containing a brief statement of the proposal shall be mailed to each stockholder of record and to members who are not stockholders, if any. Where an association has completed a compartment under section 25 (b) of the Farm Credit Act of 1937, a separate meeting shall be held of the members admitted under that section including those who have not been issued association stock because their loans are not in good standing. A favorable vote of a majority of the members present and voting at each separate meeting shall be necessary for the approval of the proposed consolidation, and such members shall adopt resolutions ratifying and approving the execution of the agreement of the consolidation and articles of association in the name of the association. The secretary-treasurer shall certify to the action taken at the meetings of members and his certificate shall set out the resolution adopted by the members ratifying the execution of the consolidation agreement.

§ 11.350 *Completing consolidation.* Upon completion of the association action, one set of organization papers, with the bank's recommendation, and a financial statement for each constituent association and the consolidated association, shall be submitted to the Commissioner for consideration. Upon approval by the Commissioner, notice of such approval and the effective date of the consolidation will be sent to the bank and the association, and a charter will be issued to the consolidated association which will be forwarded to the association through the bank. Upon receipt of the approval notice, the bank should provide assistance in transferring all assets to the consolidated association, setting up the new books and establishing such other procedures as may be found necessary. The transfer of all assets to the consolidated association should be made the day following the effective date of the consolidation, if possible. The secretary-treasurer of the consolidate ' association should take appropriate action to effect changes in stock issues, and should notify promptly each

of the members, as well as all former members of the constituent associations who hold participation certificates, if any, that the consolidation has been approved. The charters of the constituent associations should be surrendered and sent to the Administration for cancelation. The Administration should be notified by the bank of the completion of the consolidation upon the issuance of new bank stock to the consolidated association in exchange for the stock held by the constituent associations.

§ 11.351 *Legal reserve requirement.* The legal reserve requirement for the consolidated association at the time of completion of the consolidation shall be the total of the unimpaired legal reserves of the constituent associations.

§ 11.373 *Merger of shareholder groups in associations operating under section 25* (b). The following sections are issued pursuant to the fourth paragraph of section 25 (b) of the Farm Credit Act of 1937 (12 U. S. C. 724 (d)):

§ 11.374 *Definitions.* For the purpose of the regulations in this part the following words and phrases shall have the meaning herein ascribed to them:

(a) "To merge" shall mean to combine pursuant to an agreement authorized by the fourth paragraph of said section 25 (b) and entered into in accordance with the regulations in this part and "merger" shall describe the consummation of the union provided for in such an agreement.

(b) "Group 1" shall mean those shareholders of an association with loans which were made prior to the date on which the first member was admitted to such association pursuant to said section.

(c) "Group 2" shall mean those shareholders of an association with loans which were made on or after the date on which the first member was admitted to the association pursuant to said section and with respect to whom the special provisions of paragraphs "First" to "Sixth" of that section have become applicable.

(d) "When all impairment is removed," as used in the fourth paragraph of said section, shall mean when the Administration shall determine that the aggregate corporate liabilities of a group in an association authorized to operate under said section, including capital stock, do not exceed in amount the fair value of the total assets of such group, or, if there is an excess of such liabilities over such assets, that excess reasonably may be regarded, under all the circumtances, as negligible in amount or percentage, as apparent rather than real, or as temporary only.

§ 11.375 *Procedure.* Whenever, in an association authorized to operate under section 25 (b) of the Farm Credit Act of 1937, all impairment is removed in the stock owned by shareholders in group 1, and there is no impairment in the stock owned by shareholders in group 2, such groups may merge in the manner hereinafter set forth:

(a) The board of directors of the association shall call separate special meetings of the shareholders of group 1 and the shareholders of group 2 for the purpose of considering a proposed resolution of merger in a form prescribed by the Administration. Such meetings shall be called and held in accordance with the provisions of the association's bylaws applicable to meetings of association shareholders. The notice of the meetings shall contain a statement that a merger of the two groups of associaton shareholders will be voted upon and should contain a brief statement of the nature and effect of the proposal. At these meetings the effect of the proposed merger should be fully explained to the shareholders.

(b) The approval of a majority of the shareholders present and voting at each meeting at which the resolution of merger is considered shall be requisite for the adoption of such resolution.

(c) At least three copies of such resolution shall be prepared, and, when the resolution has been duly adopted by both groups, two copies shall be forwarded to the bank.

(d) The bank may request an examination of the association either on or before the adoption of the merger resolution. An examination may be required by the Land Bank Commissioner at any stage in the proceedings if it appears necessary in the interests of the shareholders.

(e) The bank shall forward to the Administration one copy of the resolution, a current financial statement of groups 1 and 2, and its recommendation as to whether the merger should be approved.

(f) No merger shall be effective unless or until it has been approved by the Commissioner. If the merger resolution is approved by the Commissioner, the effective date will be specified in his written approval and the bank and association will be notified of the approval and effective date by letter. Upon receipt of the approval notice the bank shall take such steps as it deems necessary to assist the secretary-treasurer of the association in consolidating the accounts and records of the two groups pursuant to the merger resolution. Such consolidation of accounts and records shall be made as of the close of business on the effective date of the merger. As soon as the merger has been completed, the secretary-treasurer shall notify each of the members of the association that the merger has been effected. A copy of that notice shall be sent to the Administration.

§ 11.385–50 *Liquidation of associations; action by bank.* The board of directors of the bank shall take appropriate action to adopt a resolution requesting approval of the Administration to pay off at par and retire all stock held by the association in the bank. The resolution should specifically state that, in the judgment of the board, it is advisable for the benefit and best interests of the association members and those engaged in agriculture in the territory of such association that all stock held by the association in the bank and all corresponding shares of stock in the association held by borrowers through it should be retired and the association liquidated. In the event an association is unable to pay its indebtedness in full, the resolution should further state the consideration the bank has given to the enforcement of the liability of the stockholders for the payment of the association's debts and the conclusion reached.

§ 11.385–51 *Certification by officer of bank.* The appropriate bank officer shall certify to the action taken at the meeting of the board of directors, and his certificate shall set out the resolution adopted by the board.

§ 11.385–52 *Approval by Administration.* Upon completion of the board's action, a certified copy of the resolution, accompanied by a detailed statement of facts concerning the condition, operations, and prospects of the association, should be forwarded to the Administration. Upon approval or disapproval of the bank's request by the Administration, notice of such decision will be sent to the bank. Upon receipt of approval notice, the bank shall take the necessary action to pay off at par and retire the stock held by the association in the bank, and when such action has been completed, the bank shall notify the Administration. The Administration will advise the association of the retirement by the bank of its stock.

§ 11.385–53 *Examination; disposition of books and records.* Upon completion of liquidation, the books and records of the association shall be forwarded to the office of the resident farm credit examiner for final examination: *Provided, however,* That upon the written request of the secretary-treasurer of the association, such final examination shall be made at the association's office prior to the release of the books and records by the association. Upon completion of the examination, the books and records will be forwarded to the Administration by the resident farm credit examiner.

§ 11.932 *Disposition of stock proceeds where association stock is unimpaired.* When a mortgage loan through an association with unimpaired stock is paid in full, the bank shall retire its stock outstanding in connection with such loan and shall pay its par value in cash to the association. Upon the retirement of the bank stock, the association shall retire its stock outstanding in connection with such loan and shall pay the full proceeds thereof, less the amount of any claim of the association which may properly be offset against such stock proceeds, to the owner of, or the holder of a valid assignment of the beneficial interest in, such stock. The bank may, however, pursuant to a general resolution adopted by its board of directors and approved by the Farm Credit Administration, retire its stock and, with the consent of the association, credit an amount equal to the par value thereof as a last payment on the retiring borrower's loan. Before crediting stock of an unimpaired association to the retiring borrower's loan, the bank shall have satisfactory evidence that the person paying off the loan either owns, or holds a valid assignment of the beneficial interest in, stock issued by the association in connection with such loan and the association does not have a valid claim which properly may be offset against the proceeds of such stock upon its retirement.

§ 11.393 *Disposition of stock proceeds where association stock is impaired.* When a mortgage loan through an association with impaired stock is paid in full, the bank shall retire its stock outstanding in connection with such loan, and, if the association is indebted to the bank, it may retain the full amount of the proceeds of such stock and apply it as a credit on such indebtedness or it may pay to the association from the proceeds of such retired stock an amount sufficient to permit the association to make settlements pursuant to conservatorship proceedings, under section 29 of the Federal Farm Loan Act as amended, in which case any balance of such proceeds shall be retained by the bank and applied as a credit on the indebtedness of the association to it. Upon the retirement of the bank stock the association shall retire its stock outstanding in connection with such loan, and, unless it has been through conservatorship as provided in said section 29, it shall not make any payments to its retired shareholders of record or their heirs or assigns until it has paid, or made adequate provision for paying, its indebtedness to its creditors and has sufficient funds available to make a distribution among its retired shareholders or their heirs or assigns on a pro rata basis. Except where settlement is made pursuant to conservatorship proceedings, an association with impaired stock shall issue to each retiring shareholder, or his heirs or assigns, a certificate which recites, in effect, that the holder of the certificate is entitled to share in the distribution of any assets of the association which is made after all its indebtedness to creditors has been paid or provided for; such sharing to be on the basis of the shares of stock described in the certificate, but not to exceed the par value of such shares, and pro rata with other persons having similar rights.

§ 11.1011 *Eligibility determined by location of land.* A farm owner shall be eligible to membership in the national farm loan association within whose chartered territory any part of the land to be mortgaged is located, regardless of the applicant's place of residence. If the farm to be mortgaged lies within the territory of two or more associations, the applicant shall be eligible to join any one of the associations, but if the lands to be mortgaged are not adjoining, they will be treated as a single farm for loan purposes only if the separate units are under common management and are in such proximity to each other as to constitute practically one operative agricultural unit.

§ 11.1012 *Husband or wife as sole owner.* When husband and wife both sign a mortgage but one or the other is sole owner, the one in whose name the title stands is the one who is eligible to membership in the association.

§ 11.1013 *Joint owners.* In cases of joint ownership, each owner who assumes personal liability for a loan must be elected to membership in the association through which the loan is made and the association stock must be issued jointly to all such owners.

§ 11.1014 *Livestock corporations.* Corporations engaged in the raising of livestock are eligible to become members of national farm loan associations. If a livestock corporation which is eligible for a loan, purchases property mortgaged to a land bank it may, with the approval of the bank, assume the mortgage and stock interests of the vendor. If an association approves the application of a livestock corporation, the corporation itself should be elected to membership and the association stock issued in its name. The corporation must authorize, by power of attorney, one of its shareholders to act for it in all association matters. The person so authorized to act for the corporation may be elected a director of the association, provided he is a bona fide resident of the territory within which the association is authorized to do business. The power of attorney referred to should be so drawn that it will continue in full force and effect until the association has received another power of attorney to supersede the old one or until the old power has been revoked.

§ 11.1015 *Other corporations.* In the event a corporation becomes the purchaser of the mortgaged property, while it may assume the payment of the existing mortgage, it cannot become a member of or an actual stockholder in an association unless it qualifies as engaged in the raising of livestock. However, any corporation may purchase the equity of redemption of the original borrower in such stock and thereby become entitled to any dividends on said stock and ultimately to the proceeds thereof. Stock that has been so purchased cannot be transferred on the stock certificate book of the association, but the fact that an assignment has been made may be noted on the back of the certificate so that the proceeds, including the dividends, may be paid the person equitably entitled thereto. In this connection, it should be borne in mind that the stock in the association is collateral security for the payment of the loan, and, in addition, may carry the statutory double liability. The original owner, so far as the association is concerned, remains the stockholder whether the purchaser of the equity does or does not agree to assume the liability.

§ 11.1016 *Voting by proxy.* Voting by proxy shall not be permitted at stockholders' meetings of associations unless the proxy holder is (a) the person authorized to act for a livestock corporation owning the stock, (b) a joint owner of the stock, or (c) the husband or wife of the owner of the stock. In the latter case, said husband or wife shall not be eligible to any office in the association.

§ 11.1017 *Participation certificates.* If any shareholder or former shareholder does not desire to settle on the basis of the fair book value of the stock of the association as determined in conservatorship proceedings pursuant to section 29 of the Federal Farm Loan Act, as amended by section 25 (d) of the Farm Credit Act of 1937, he may, in lieu thereof, be given a participation certificate which will entitle him to share pro rata on the basis of the number of shares of stock which he owned in the association in the distribution of any assets of the association which is made after all its indebtedness to creditors has been satisfied, but not to exceed the par value of such shares. The holder of a participation certificate may, at any time, by surrendering the certificate to the secretary-treasurer of the association, receive the amount which is being paid to retired shareholders at the date of such surrender as the fair book value of the stock of the association less the amount of the credit for, or proceeds of, such stock which already shall have been allowed or distributed: *Provided, however,* That if the person surrendering such certificates shall have acquired his interest in the claim evidenced thereby through a voluntary assignment or pledge made after the commencement of any conservatorship proceedings in the association, such certificate shall not be redeemed at a value in excess of the fair book value of the association stock as of the date when the initial holder thereof became entitled to receive such certificate. Settlements with holders of participation certificates in accordance with the preceding sentence should be made only on condition that they accept the settlement as payment in full. Unless the holder surrenders his participation certificate as herein provided, he shall receive no cash payments in connection with such certificate, except as follows:

(a) If the association is liquidated by receivership or otherwise, he shall be entitled to share pro rata with other persons having similar rights in the distribution of any assets of the association which is made after all of its indebtedness to creditors has been satisfied.

(b) If, prior to liquidation as provided in (a) above, the fair book value of the stock of the association reaches par, he shall be entitled to receive par for such certificate.

(c) If, prior to liquidation as provided in (a) above, all indebtedness of the association is paid but the fair book value of the stock is not par, he may share pro rata with other persons having similar rights in the distribution of any assets of the association which may be made from time to time.

§ 11.1025–60 *Action of association board of directors.* The board of directors of any association desiring to enter into voluntary liquidation shall develop a complete plan of liquidation setting forth in detail the reasons why it is considered advisable for the benefit and best interests of the association members that the association should be liquidated, containing a current financial statement of the association, and specifically providing:

(a) That the association should be liquidated and its charter canceled;

(b) That all liabilities of the association, including contingent liabilities incurred by the association by reason of its endorsement of mortgages, shall be paid in full, or the payment thereof provided for to the satisfaction of the Administration;

(c) That the amount of contingent liabilities shall be mutually agreed upon by the association and the Federal land bank, but in the event such agreement cannot be reached, the amount of such liabilities shall then be determined by the Administration;

(d) In the event the association does not have sufficient assets to pay all its liabilities without creating an impairment of its capital stock, the manner in which the necessary funds will be raised: (In this connection an association may by unanimous action of its members levy an assessment on the members in proportion to the amount of stock held by each to raise the required funds, or it may accept voluntary contributions from its members for the purpose of restoring the stock to an unimpaired condition after making provision for all liabilities of the association.)

(e) That funds in an amount equal to the net legal reserve of the association after provision for all its liabilities shall be transferred to the bank of the district;

(f) That the remaining assets of the association, other than its capital stock in the Federal land bank, shall be distributed among its stockholders, or their successors in interest, of record on the books of the association as of the effective date of liquidation, pro rata according to their respective shareholdings;

(g) That the plan of liquidation shall not become effective until consent, in writing, is obtained from the Administration; and

(h) That the effective date of liquidation shall be the date specified by the Administration in the written consent to liquidation.

A copy of such plan shall be submitted to the stockholders of the association as provided in § 11.1025–61.

§ 11.1025–61 *Action by members.* A special meeting of the association members shall be called. Notice of the meeting shall be mailed to each stockholder of record at least 20 days prior to the date of such meeting, and shall contain a full statement of the voluntary liquidation proposal or shall have incorporated in it by reference and attached thereto a complete copy of the plan of liquidation developed by the directors of the association. A favorable vote of at least two-thirds of the stockholders of the association, at the special meeting called as herein provided, shall be necessary for the approval of the proposed liquidation. Such approval shall be evidenced by a resolution of the stockholders approving in its entirety the plan of liquidation developed by the directors and authorizing and instructing the officers of the association to do all things necessary to carry into effect the liquidation and render the plan of liquidation effective. The secretary-treasurer shall certify to the action taken at the meeting of the stockholders, and his certificate shall set out the resolution adopted by the stockholders authorizing the liquidation of the association and the fact that the number of stockholders voting for the motion in the assembled meeting constituted at least two-thirds of the stockholders of record of the association on the date of the meeting.

§ 11.1025–62 *Procedure for obtaining consent of Administration.* Upon completion of the stockholder action, two certified true copies of the resolution and two copies of the plan, together with the charter of the association, should be forwarded to the bank. The association shall be examined by a farm credit examiner as soon as possible following receipt by the bank of the liquidation plan. After the examination is made, the bank should forward to the Administration one copy of the resolution and plan, together with the charter of the association, and its recommendations in the matter with the supporting reasons for such recommendations. If the Administration consents to the plan, notices of such consent, setting forth the effective date of the liquidation and any other requirements of the Administration, will be sent to the bank and to the association.

§ 11.1025–63 *Completing liquidation.* Upon receipt of notice of consent from the Administration, the association shall immediately take the necessary action to liquidate its affairs, as required by the plan of liquidation and the consent thereto. When the necessary action has been completed, evidence thereof in the form required by the Administration in its written consent to the liquidation shall be transmitted to the bank and, if the bank is satisfied that all requirements of the plan have been carried out, such evidence shall be forwarded to the Farm Credit Administration. If the Administration is satisfied that all liquidation steps have properly been taken, it will advise the bank, and the bank upon the receipt of such advice shall cancel the stock held by the association in the bank and thereupon issue its stock to the borrowers through the association pursuant to the provisions of section 29 of the Federal Farm Loan Bank Act (12 U. S. C. 966). The Administration should be notified when the cancellation and reissuance of stock have been completed by the bank.

§ 11.1025–64 *Disposition of association records.* Upon completion of liquidation, the books and records of the association shall be forwarded to the office of the resident farm credit examiner for final examination: *Provided, however,* That upon the written request of the secretary-treasurer of the association, such final examination shall be made at the association's office prior to the release of the books and records by the association. Upon completion of the examination, the books and records will be forwarded to the Administration by the resident farm credit examiner.

PART 12—FEDERAL FARM MORTGAGE CORPORATION

Sec.
- 12.1 Organization of Federal Farm Mortgage Corporation.
- 12.2 Functions and procedures of Federal Farm Mortgage Corporation.
- 12.28–25 Interest rate on Commissioner loans guaranteed by Veterans' Administration.
- 12.102 Executors and administrators (including temporary administrators).
- 12.106 Trustees (whether appointed by will or deed), guardians and other fiduciaries.
- 12.111 Tenants for years.
- 12.150 Computing amount loanable to one borrower.

AUTHORITY: §§ 12.1 to 12.150, inclusive, issued under sec. 33, 48 Stat., as amended; 12 U. S. C. 1017.

NOTE: In §§ 12.28–25 to 12.150, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Policy and Operations Manuals of the Federal Land Banks, issued as of January 1, 1943.

§ 12.1 *Organization of Federal Farm Mortgage Corporaton.* (a) The Federal Farm Mortgage Corporation was created in 1934 by the Federal Farm Mortgage Corporation Act (48 Stat. 344; 12 U. S. C. and Sup. 1020–1020h), and has its principal office with the Farm Credit Administration in Washington, D. C. Its entire capital is provided by the United States, and it has the authority, with the approval of the Secretary of the Treasury, to issue bonds fully and unconditionally guaranteed both as to interest and principal by the United States. The administration and management of the Corporation is vested in its board of directors consisting of the Governor of the Farm Credit Administration as chairman, the Secretary of the Treasury or an officer of the Treasury designated by him, and the Land Bank Commissioner. While the board is authorized to appoint such agents, officers, and employees as it deems necessary, it utilizes, on a reimbursable basis, the services and facilities of the Farm Credit Administration and the Federal land banks in discharging its functions, and may utilize the services and facilities of the national farm loan associations, if convenient, in surplus property disposal.

(b) An executive vice president is the active executive officer of the Corporation. Between meetings of the board, an executive committee acts upon matters not specifically requiring initial consideration by the board.

§ 12.2 *Functions and procedures of Federal Farm Mortgage Corporation*—(a) *General.* The main purposes of the establishment of the Corporation were to provide funds for the Land Bank Commissioner loans made on behalf of the Corporation by the land banks as agents, and to assist in providing funds to the Federal land banks for making loans. The Federal Farm Mortgage Corporation is specifically authorized to make loans to the Federal land banks, or otherwise provide them with loanable funds in accordance with 48 Stat. 345, 346, 647, as amended; 12 U. S. C. and Sup. 1020c and 1020d.

(b) *Land Bank Commissioner loans.* These loans were first authorized in section 32 of the Emergency Farm Mortgage Act of 1933 (48 Stat. 48, as amended; 12 U. S. C. and Sup. 1016) as a temporary measure, but the authority to make them has been extended from time to time, most recently until July 1, 1947. Land Bank Commissioner loans may be made to eligible borrowers and for eligible purposes up to 75 percent of the appraised normal value of the farm property, or 75 percent of the prudent investment value under certain conditions, but not to exceed $7,500 to any one farmer. These loans are made as first mortgage loans or as second mortgage loans supplementing a first mortgage land bank loan which is now limited to 65 percent. The interest rate on Commissioner loans is 1 percent higher than the rate on Federal land bank loans made through associations at the same time. The procedure for applying for Commissioner loans is covered under "Loans" in § 10.2 of this subchapter.

When the Federal Farm Mortgage Corporation was created in 1934, there was transferred to it the Land Bank Commissioner loans which had already been made, and the Corporation was authorized to invest its funds in such loans to be made thereafter on its behalf. In making and servicing these loans, the land banks act as agents for the Commissioner and the Corporation.

(c) *Surplus property disposal.* The Federal Farm Mortgage Corporation has undertaken the functions of disposal agency for surplus agricultural and forest real property under the Surplus Property Act of 1944. The functions of the Department of Agriculture as such disposal agency were delegated by the Secretary of Agriculture, subject to his general supervision and direction and to regulations approved by him, to the Governor of the Farm Credit Administration. They were redelegated by the Governor, subject to his general supervision and direction, to the Federal Farm Mortgage Corporation. The Corporation in turn utilizes the services and facilities of the Federal land banks in discharging these functions, and may also use the national farm loan associations if convenient. A separate Surplus Property Disposal Manual has been issued to cover this activity, Part 5 of this chapter.

§ 12.28–25 *Interest rate on Commissioner loans guaranteed by Veterans' Administration.* On and after February 1, 1945, the contract rate on Commissioner loans approved for guaranty by the Administrator of Veterans' Affairs pursuant to Title III of the Servicemen's Readjustment Act of 1944 and the regulations issued thereunder shall be 4 percent per annum.

§ 12.102 *Executors and administrators (including temporary administrators).* Commissioner loans may be made to executors and administrators (including temporary administrators) when (a) the decedent was engaged in farming operations or derived the principal part of his income from farming operations, or the executor or administrator in his representative capacity is engaged, or shortly to become engaged, in farming operations, or the principal part of the income of the estate is derived from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the executor or administrator or some individual beneficiary of the decedent's estate can and will incur personal liability for the loan, or the executor or administrator can and will charge the general assets of the estate with liability for the loan.

§ 12.106 *Trustees (whether appointed by will or deed), guardians, and other fiduciaries.* Commissioner loans may be made to trustees (whether appointed by will or deed), guardians, and other fiduciaries when (a) the trustee or guardian in his fiduciary capacity is engaged, or shortly to become engaged, in farming operations, or the beneficiaries of the trust or wardship are engaged, or shortly to become engaged, in farming operations or derive the principal part of their income from farming operations; and (b) a valid lien can and will be given on the property on which the loan is sought; and (c) the trustee or guardian or some individual beneficiary of the trust or wardship can and will incur personal liability for the loan, or, in the event the beneficiaries are not sui juris and the trustee or guardian will incur liability in his fiduciary capacity only, some other person intimately connected by blood or interest with a beneficiary can and will incur personal liability for the loan as a coobligor with the trustee or guardian.

§ 12.111 *Tenants for years.* Commissioner loans may be made to tenants for years to the extent of the value as security of the leasehold interest on which the loan is sought if the tenant, by reason of farming operations conducted by him on the land covered by his leasehold, or otherwise, is eligible as a borrower. As used in this section, the term "eligible as a borrower" means a person who is engaged in farming operations, or who is shortly to become engaged in farming operations, or who derives the principal part of his income from farming operations.

§ 12.150 *Computing amount loanable to the borrower.* No Commissioner loan or loans shall be made to any one farmer or on any one farm for more than an aggregate total of $7,500. For the purpose of computing the maximum amount loanable by the Commissioner to owners of undivided interests, there shall be charged against each, such portion of the loan on the jointly owned property as his undivided interest in the property bears to the entire title, except that the borrowing capacity of such an owner need not be charged with any amount which one or more of his coowners who are "farmers" within the statutory definition consent to have charged against the unused portion of their borrowing capacity.

PART 14—JOINT STOCK LAND BANKS

Sec.
- 14.1 Applicability of Federal land bank rules and regulations.
- 14.2 Voting privileges of shareholders in joint stock land banks.
- 14.3 Method of calling for redemption farm loan bonds issued by joint stock land banks.
- 14.4 Determination of bonds to be called where less than all of outstanding bonds of any issue or issues will be redeemed.
- 14.5 Sales of assets by joint stock land banks to stockholders, directors, officers or employees.

AUTHORITY: §§ 14.1 to 14.5, inclusive, issued under sec. 6, 47 Stat. 14; 12 U. S. C. 665.

§ 14.1 *Applicability of Federal land bank rules and regulations.* The following rules and regulations pertaining to the Federal land bank system set out heretofore in Part 10 of this chapter apply also to joint stock land banks except to such extent as the rules and regulations, by their terms or necessary inference, are restricted to Federal land banks or are otherwise inapplicable to joint stock land banks:

Sec.	Subject
10.25	Normal agricultural value basis.
10.183 to 10.197	Insurance requirements for bank loans.
10.523 to 10.525	Lost, stolen, destroyed, mutilated, or defaced bonds and coupons.

§ 14.2 *Voting privileges of shareholders in joint stock land banks.* The bylaws of every joint stock land bank should contain a provision substantially as follows:

In all elections of directors, each shareholder shall have the right to vote the number of shares owned by him for as many persons as there are directors to be elected, or to cumulate such shares and give one candidate as many votes as the number of directors multiplied by the number of his shares shall equal, or to distribute them on the same principle among as many candidates as he shall think fit; and in deciding all other questions at meetings of shareholders, each shareholder shall be entitled to one vote on each share of stock held by him; except that (1) in the election of directors, shares of its own stock held by the bank as sole trustee, whether registered in its own name as such trustee or in the name of its nominee, shall not be voted by the registered owner unless under the terms of the trust the manner in which such shares shall be voted may be determined by a donor or beneficiary of the trust and unless such donor or beneficiary actually directs how such shares shall be voted, and (2) shares of its own stock held by the bank and one or more persons as trustees may be voted by such other person or persons, as trustees, in the same manner as if he or they were the sole trustee. Shareholders may vote by proxies duly authorized in writing; but no officer or employee of the bank shall act as proxy; and no shareholder whose liability is past due and unpaid shall be allowed to vote. Whenever shares of stock cannot be voted by reason of being held by the bank as sole trustee, such shares shall be excluded in determining whether matters voted upon by the shareholders were adopted by the requisite percentage of shares.

§ 14.3 *Method of calling for redemption farm loan bonds issued by joint stock land banks.* Any joint stock land bank desiring to call any bond or bonds issued by such bank (or of which the payment has been assumed by it), then callable according to the terms and tenor thereof, shall file with the Land Bank Commissioner, at least twenty days prior to the date on which the call is to become effective, a certified copy of the resolution(s) of its board of directors authorizing such call, and a formal notice of such call, describing by date of issue, date of maturity, call date, interest rate, and serial numbers (except in the case of a call of all the outstanding bonds, not theretofore called for redemption, of one or more issues) the bond or bonds so called for redemption, and des-

ignating the place or places where the same will be paid and the date on which payment will be made. The Land Bank Commissioner shall, at least fifteen days prior to the date on which the call is to become effective, approve or disapprove the call and cause the joint stock land bank concerned to be notified of his approval or disapproval. If the call is approved, the joint stock land bank calling such bonds for payment shall cause notice of such call to be published at least fifteen days prior to the effective date of the call, in such journals and newspapers as the Land Bank Commissioner may direct; and a certificate that the required publicity has been given shall be filed with the Land Bank Commissioner. Approval of the call and publication of the notice, as herein required, shall be deemed a complete call; and thereupon the bank making same will be relieved from paying any interest on the bonds called, after the date of payment specified in such notice.

§ 14.4 *Determination of bonds to be called where less than all of outstanding bonds of any issue or issues will be redeemed.* In any case in which it is desired to call for redemption less than all of the outstanding bonds of any issue or issues, the bonds to be so called shall be determined by said bank in such manner as the Land Bank Commissioner shall direct or approve.

§ 14.5 *Sales of assets by joint stock land banks to stockholders, directors, officers, or employees.* No joint stock land bank shall knowingly sell or otherwise dispose of any of its assets, directly or indirectly, to a stockholder, director, officer, or employee of the bank, or to a corporation, firm, syndicate, partnership, or other entity or group, in which any stockholder, director, officer, or employee of the bank has an interest, unless the prior written approval of the Farm Credit Administration is obtained.

PART 19—FEES AND CHARGES ON LAND BANK AND COMMISSIONER LOANS

19.320 Applications; association fees.
19.322 Bank application fees.
19.324 Closed loans; association fees.
19.325 Additional and refunding loans; association fees.
19.326 Bank closed loan fees.
19.328 Association fees on Commissioner loans; "New money" defined.
19.330 Additional and refunding loans; bank fees.
19.331 Division of loans; bank fees.
19.332 Loans on specialized farms; bank fees.
19.333 Nonresident investigations; bank fees.
19.334 Applicability of bank fees.
19.335 Appraisal fees.
19.339 Partial releases; bank fees.
19.340 Release of personal liability; bank fees.
19.344 Associations operating under section 25 (b) of Farm Credit Act of 1937.

AUTHORITY: §§ 19.282 to 19.344, inclusive, issued under secs. 7, 13 "Ninth," 39 Stat. 365, 372; 12 U. S. C. 723, 781 "Ninth."

NOTE: In §§ 19.282 to 19.344, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Operations Manual for Federal Land Banks, issued as of January 1, 1943.

§ 19.282 *Forbearance agreements.* No fees may be charged in connection with forbearance agreements but borrowers may be charged with direct outlays for determination of title including filing or notarial expense.

§ 19.320 *Applications; association fees.* Associations may collect an association application fee of not more than $5.00 in connection with each application; *Provided, however,* That the amount of any such fee shall not exceed 1 percent of the amount of the loan applied for. If the property offered as security is subject to any outstanding mortgage loan or loans held by the bank, the Corporation, or both, regardless of the amount stated in the application, the application fee shall be based on an amount applied for which includes the unmatured principal, as of the date of the application, of such outstanding mortgage loan or loans. The application fee may be collected at the time the application is filed. It may be retained by the association regardless of whether the loan is rejected or closed as a new, additional, or refunding bank loan, Commissioner loan, or joint bank and Commissioner loan; *Provided, however,* That if no association appraisal is made after a fee provided for in this section has been collected, the amount of such fee shall be refunded.

§ 19.322 *Bank application fees.* The banks may collect an application fee of not to exceed $10.00 on each application.

§ 19.324 *Closed loans; association fees.* Except as provided in § 19.325, when a bank loan is closed, associations may collect a closed loan fee in an amount which, when added to the association application fee already collected, will equal but not exceed 1 percent of the amount of the bank loan closed.

§ 19.325 *Additional and refunding loans; association fees.* Where, upon the basis of an application in which there is offered as security property which is mortgaged, in whole or in part, to a bank, the Corporation, or both, a bank loan is closed through an association which endorsed the outstanding bank loan, the association may, whether the transaction is completed by way of a supplemental loan or a rewriting of the outstanding loan, collect a closed loan fee which, when added to the association application fee already collected, will not exceed 1 percent of the amount which represents other than unmatured principal of the outstanding bank loan as of the date of the application. Where, upon the basis of such an application, a bank loan is closed through a different association than that which endorsed the outstanding bank loan, or through any association if only a loan held by the Corporation was outstanding, the association may collect a closed loan fee which, when added to the association application fee already collected, will not exceed 1 percent of the amount for which it endorses the bank loan or bank purchase money mortgage.

§ 19.326 *Bank closed loan fees.* When a loan is closed, the bank may deduct from the proceeds an amount not exceeding $1.00 for each $1,000.00, or fraction thereof, by which the amount loaned exceeds $5,000.00.

§ 19.328 *Association fees on Commissioner loans; "New money" defined.* Where an association is not operating under a plan which compensates it, or is intended to compensate it, for its total operating expenses, the association may be allowed a commission of one-half of 1 percent of the full amount of new Commissioner loans closed. On Commissioner loans made to refinance outstanding Commissioner loans, bank loans, or both, this loan closing commission may be allowed only on the new money loaned. Loan closing commissions allowed associations for closing Commissioner loans shall not be collected from the borrowers but shall be paid by the Corporation. "New money", as used in the regulations in this part, is defined as the amount of the new note or notes which represents other than principal of the outstanding loan held by the bank or the Corporation, or both, unmatured as of the date of the application.

§ 19.330 *Additional and refunding loans; bank fees.* In connection with applications for additional or refunding loans, whether or not additional security is offered, the bank may require that a fee of not more than $10.00 be submitted with the application, and if a loan is closed, the bank may deduct from the proceeds an additional fee amounting to $1.00 for each $1,000.00, or fraction thereof, by which the amount of new money loaned exceeds $5,000.00.

§ 19.331 *Division of loans; bank fees.* A fee of $5.00 may be charged in connection with each application for the division of an existing loan. If the application results in an increased loan, there may be deducted from the proceeds an additional fee of $1.00 for each $1,000.00, or fraction thereof, by which the amount of new money loaned exceeds $5,000.00.

§ 19.332 *Loans on specialized farms; bank fees.* In the case of applications for loans (or increased loans or divisions of loans) on specialized farms of certain types, such as turpentine farms, ranches, and orchards, where appraisal costs are unusually high, the banks may establish, subject to the approval of the Land Bank Commissioner, special additional fees in recognition of the higher cost of appraisal of such property.

§ 19.333 *Nonresident investigations; bank fees.* Where, in connection with an application for a new loan, an increased loan, or the division of an existing loan, it appears necessary for the bank to make a nonresident personal investigation, the applicant may be required to pay a fee of $7.50, such fee to be refunded in its entirety to the applicant if the investigation is not made.

§ 19.334 *Applicability of bank fees.* The fee schedule described in §§ 19.322, 19.326, 19.330, 19.331 and 19.332 is applicable to single Federal land bank or Land Bank Commissioner first mortgage loans; in the event the application results in a joint land bank and Land Bank Commissioner loan, the fee shall be computed upon the basis of the aggregate amount loaned.

§ 19.335 *Appraisal fees.* The fee deposits authorized by §§ 19.322, 19.330, 19.331, and 19.332 should be retained by the bank if an appraisal is made of the property but in any such case where an appraisal is not made, the fee should be refunded in its entirety to the applicant. Where a reappraisal is required because of delay of the applicant or is made at his request, the applicant may be required to pay a second fee computed on the basis set forth in §§ 19.322, 19.330, 19.331, and 19.332.

§ 19.339 *Partial releases; bank fees.* A fee of $10.00 may be charged in connection with each application for a partial release of the mortgaged security but the fee should be returned to the applicant in its entirety if an appraisal is not made. Provision may be made, subject to the approval of the Land Bank Commissioner, for additional fees in the case of applications for releases in connection with specialized farms.

§ 19.340 *Release of personal liability; bank fees.* Where, upon transfer of title to the mortgaged property, an application is made for release from personal liability, the bank may require a fee of $10.00 in connection with each application, such fee to be refunded in its entirety to the applicant in the event an appraisal of the property is not made.

§ 19.344 *Associations operating under section 25 (b) of Farm Credit Act of 1937.* The association and bank fee regulations herein contained and the resolutions adopted by the association in pursuance thereof will govern fees to be collected by an association operating under section 25 (b) of the Farm Credit Act of 1937 in connection with applications for 25 (b) loans.

Subchapter C—Regulations Issued by the Federal Land Banks

CROSS REFERENCE: For loan regulations of the Land Bank Commissioner, see Parts 10 and 19 of this chapter.

PART 21—FEDERAL LAND BANK OF SPRINGFIELD

§ 21.1 *Transfer fees.* $2.00 shall be charged by the Federal land bank in connection with the preparation of loan documents involving the transfer of the title of mortgage premises covered by a direct mortgage loan made by the Federal land bank, or a mortage loan made by the Federal land bank through an association, which association is inactive at the time of the transfer. (Sec. 13 "Ninth", 39 Stat. 372; 12 U. S. C. 781 "Ninth")

PART 22—FEDERAL LAND BANK OF BALTIMORE

Sec.
22.1 Application fees.
22.2 New loan fees.
22.3 Conversion fees.
22.4 Reamortization fees.
22.5 Liquidation or prepayment fees.

AUTHORITY: §§ 22.1 to 22.5, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 22.1 *Application fees.* The following new loan and other fees shall be charged within the Second Farm Credit District, exclusive of Puerto Rico, and such fees shall be paid in the manner and at the times herein indicated:

(a) Each application for a new loan shall be accompanied by a fee of $10.00; provided said fee shall not be required to be paid in connection with an application for a direct or association-endorsed loan for the purpose of refinancing a real estate contract or purchase money mortgage executed to the bank or the Federal Farm Mortgage Corporation unless the amount applied for exceeds the amount required for the purpose of refinancing such a real estate contract or purchase money mortgage.

(b) Each application for an increased or additional loan shall be accompanied by a fee of $10.00.

In the event no appraisal of the property is made, the entire application fee shall be refunded.

On each loan closed exceeding $5,000.00 in amount, an additional fee shall be deducted from the loan proceeds in an amount equal to $1.00 for each $1,000.00 or fraction thereof by which the amount loaned exceeds $5,000.00: *Provided,* That the amount of an additional loan shall be determined by the amount of new money loaned and the additional fee on joint land bank and Land Bank Commissioner loans shall be computed on the aggregate amount loaned. The amount of a direct or association-endorsed loan made partially for the purpose of refinancing a real estate contract or purchase money mortgage executed to the bank or the Federal Farm Mortgage Corporation shall likewise be determined by the amount of new money loaned.

When a reappraisal in connection with an application for a new loan or an additional loan is required because of the delay of the applicant or is made at the applicant's request, a second fee shall be charged computed on the basis of the fee applicable to the original application.

A single fee shall be charged on an application resulting in a single land bank or Land Bank Commissioner loan or on joint land bank and Land Bank Commissioner loans: *Provided, however,* That no initial application or loan closing fees shall be charged by the bank in connection with new or additional loans made through any national farm loan association after the date on which such national farm loan association makes effective a policy eliminating all initial application fees in connection with new and additional loans and reducing the amount of the association loan closing fees to be collected from borrowers to ½ of 1% of the amount of each new land bank loan closed or, in the case of an additional land bank loan, to ½ of 1% of the new money loaned.

Each applicant shall be required to pay actual cash outlays for abstract expenses, title insurance fees, notarial fees, recording fees or other disbursements necessary for the completion of the transaction.

§ 22.2 *New loan fees.* The following new loan and other fees shall be charged and collected from applicants and borrowers through the Puerto Rico Branch Bank of The Federal Land Bank of Baltimore:

(a) Each application for a new loan shall be accompanied by an initial fee in the amount of $10.00. If the application for loan is approved, an additional initial fee of $15.00 must be paid prior to the examination of title. If the application results in a Federal land bank loan in excess of $2,000.00, there shall be deducted from the proceeds of the loan an additional fee equal to 1¼% of each $100.00 or fraction thereof in excess of $2,000.00. If the application results in a joint land bank and Land Bank Commissioner loan, no fee shall be charged or collected from the applicant or borrower in connection with any loan made by the Land Bank Commissioner. If the application results in a single Commissioner loan, the initial fees totaling $25.00 shall be the only fees charged and collected from the applicant or borrower.

The foregoing fees shall not be required to be paid in connection with any application for a loan to refinance a real estate contract or purchase money mortgage executed to the bank or the Federal Farm Mortgage Corporation unless the amount applied for exceeds the amount required for the purpose of refinancing such a real estate contract or purchase money mortgage. If the amount applied for exceeds such amount, the initial fees shall be charged and collected and, if the application results in a loan in excess of the amount required to refinance the real estate contract or purchase money mortgage, there shall be deducted from the proceeds of the loan a fee comparable to the fee which would be collectible in connection with a new loan: *Provided, however,* That the amount of the fee shall be computed only on that part of the loan which exceeds the amount required to refinance the real estate contract or purchase money mortgage.

(b) Each application for an increased or additional loan shall be accompanied by a fee of $10.00 and, if the application is approved, an additional initial fee of $15.00 must be paid prior to the examination of title. If a loan in an increased amount is closed, there shall be deducted from the proceeds of such increased loan a fee comparable to the fee which would be collectible in connection with a new loan: *Provided, however,* That the amount of the fee shall be computed only upon the basis of the amount of new money loaned to the borrower.

(c) Fees in connection with divisions of loans, reappraisals, partial releases, and releases of personal liability shall be charged and collected from applicants and borrowers to the same extent and under the same conditions as such fees are charged and collected from applicants and borrowers within the states of the Second Farm Credit District as provided in § 22.1.

In the event no appraisal of the property is made, the entire application fee shall be refunded. Each applicant shall also be required to pay actual cash outlays for notarial fees, recording fees, or other disbursements necessary for the completing of the transaction.

§ 22.3 *Conversion fees.* Each borrower who converts a direct Federal land bank loan into a loan of a national farm loan association shall be required to pay to the association a conversion fee of $5.00, or one-fourth of one per centum (¼ of 1%) of the unpaid balance of the direct loan, whichever is greater.

§ 22.4 *Reamortization fees.* Applicants for reamortization of bank loans and Commissioner loans will not be required to pay a reamortization fee: *Provided, however,* That applicants will be required to pay any out-of-pocket costs such as abstract charges, recording fees, and other similar items.

§ 22.5 *Liquidation or prepayment fees.* Prepayment fees shall be charged only when a borrower makes prepayment of all or of a portion of a Federal land bank loan from funds borrowed from other sources and in such cases the fees shall be as follows:

(a) Two percentum (2%) of the amount prepaid if the payment is received within one year after the date of the note evidencing the loan.

(b) One percentum (1%) of the amount prepaid if the payment is received more than one year and less than two years after the date of the note evidencing the loan.

(c) One-half of one percentum (½ of 1%) of the amount prepaid if the payment is received more than two years and less than three years after the date of the note evidencing the loan.

PART 23—FEDERAL LAND BANK OF COLUMBIA

Sec.
23.1 Loan application fees.
23.2 Loan closing fees (direct loans).
23.3 Title determination fees.
23.4 Partial release of security fees.
23.5 Release of personal liability fees.
23.6 Transfer of mortgage and stock interests fees.
23.7 Insurance inspection and appraisal fees.
23.8 Reamortization of loan fees.
23.9 Fees for prepayment of land bank loans.

AUTHORITY: §§ 23.1 to 23.9, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 23.1 *Loan application fees.* The following fees shall be charged in connection with loan applications:

Appraisal fee. An appraisal fee of $10 is payable at the time the application is filed.

Reappraisal fee. If a reappraisal is required because of delay for which the Bank is not responsible, or is made at the applicant's request, the regular appraisal fee will be charged for the reappraisal.

Return of fee. If the application is withdrawn or cancelled before appraisal by the Bank, the appraisal fee will be refunded to the applicant. If the application is withdrawn or cancelled after appraisal by the Bank, the appraisal fee will not be refunded to the applicant.

Loans on naval stores farms. The regular appraisal fee will apply to this type of application. If preliminary appraisal and review are made, none of the fee will be refunded. If it is determined by the Bank and the applicant, after preliminary appraisal and contact with the applicant, that the application is to be handled to a definite conclusion, a fee of 5¢ per acre for timber cruise will be charged, to be paid prior to the making of the cruise. If the cost of the cruise is less than the timber cruise fee previously collected, the difference will be refunded to the applicant.

§ 23.2 *Loan closing fees (direct loans).* The following loan closing fees shall be payable when a direct loan is closed:

Amount of loan:	*Fee (percentage of loan)*
$100–$1,000	1%
$1,000–$1,900	½ of 1% plus $5
$2,000–$14,900	¾ of 1%
$15,000–$50,000	¼ of 1% plus $75

§ 23.3 *Title determination fees.* No title determination fee will be charged.

§ 23.4 *Partial release of security fees.* The following fees shall be charged in connection with applications for partial release of security:

Land Bank Commissioner loan	$10.00
Direct Federal Land Bank loan	10.00
Land Bank loan through national farm loan association	10.00

The $10 fee applies also to applications for the release of timber. However, if the regular appraisal in connection with an application for release of timber indicates that a special cruise of the timber is necessary, an additional fee, equal to the cost of such cruise, will be charged.

If an application for partial release is submitted simultaneously with an application for a new loan on the same security, or on the same security plus some additional security, the regular new loan appraisal fee is charged in connection with the new loan application and a fee of $5 is charged in connection with the partial release application.

§ 23.5 *Release of personal liability fees.* The following fees shall be charged in connection with applications for release of personal liability:

Land Bank Commissioner loan	$10.00
Direct Federal Land Bank loan	10.00
Land Bank loan through national farm loan association	10.00

§ 23.6 *Transfer of mortgage and stock interests fees.* For transferring the mortgage and stock interests of a direct loan borrower a fee not to exceed $5 is charged; *Provided,* That the amount shall not exceed 1 percent of the balance of the indebtedness.

§ 23.7 *Insurance inspection and appraisal fees.* The following fees shall be charged in connection with applications for reduction of insurance requirements:

Type of loan:	*Appraisal fee*
Land Bank Commissioner loan	$10.00
Federal Land Bank loan	10.00

If no appraisal is made the fee will be refunded.

§ 23.8 *Reamortization of loan fees.* Applicants for reamortization of bank loans and Commissioner loans will not be required to pay a reamortization fee; however, applicants will be obligated to pay any outside expense incident to the reamortization, such as abstract and recording fees.

§ 23.9 *Fees for prepayment of land bank loans.* No fee shall be charged for prepayment of land bank loans.

PART 24—FEDERAL LAND BANK OF LOUISVILLE

24.1 Application and loan fees.
24.2 Direct loan closed loan fees.
24.3 Title reserve fees.
24.4 Personal risk investigation fees.
24.5 Fees for partial releases.
24.6 Application fees for partial releases.
24.7 Fees for prepayment of land bank loans.
24.8 Fees and deposits for lending abstracts on closed land bank and Land Bank Commissioner loans.
24.9 Reamortization of loan fees.
24.10 Appraisal fee and other costs and expenses to be charged on reinstating loan called for foreclosure.
24.11 Fee for release of personal liability.
24.12 Fees for division of existing loans.

AUTHORITY: §§ 24.1 to 24.12, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 24.1 *Application and loan fees.* No application or loan fees shall be charged.

§ 24.2 *Direct loan closed loan fees.* Where a direct land bank loan is closed, a further fee of ¾ of 1 percent of the amount of such loan will be deducted for payment to the correspondent of the bank who acted for it in connection with the making of the loan.

§ 24.3 *Title reserve fees.* No title reserve fees shall be charged.

§ 24.4 *Personal risk investigation fees.* The bank charges other Federal land banks a flat rate of $7.50 each for personal risk investigations of persons in the Fourth Farm Credit District who are applying for loans through such other banks.

§ 24.5 *Fees for partial releases.* Effective ten days after October 29, 1946, a partial release fee of $10.00 will be charged on all partial releases where an appraisal is made in connection with a Federal land bank loan, a Land Bank Commissioner loan, or joint Federal land bank and Land Bank Commissioner loans.

§ 24.6 *Application fees for partial releases.* No fees, other than the fee established by § 24.5, shall be charged in connection with partial releases.

§ 24.7 *Fees for prepayment of land bank loans.* No fee shall be charged for prepayment of land bank loans.

§ 24.8 *Fees and deposits for lending abstracts on closed land bank and Land Bank Commissioner loans.* Abstracts of title held by the bank will be loaned in proper cases to secretary-treasurers of national farm loan associations, borrowers, attorneys, and purchasers provided the sum of $27.00 is deposited with it. $2.00 of this amount will be retained by the bank to cover postage and handling of abstracts, and the remaining $25.00 will be refunded upon return of the particular abstract to the bank.

§ 24.9 *Reamortization of loan fees.* No fees will be charged for reamortization of Federal land bank or Commissioner loans, but applicant will be required to pay actual cash outlays such as abstract fees, recording fees, notarial fees, and other similar expenditures incident to the reamortization.

§ 24.10 *Appraisal fee and other costs and expenses to be charged on reinstating loan called for foreclosure.* An appraisal fee of $10 is charged on each loan that is called for foreclosure, the security reappraised and the loan subsequently reinstated. This fee, together with all other costs and expenses incurred in calling such loan for foreclosure and/or incident to or because of the institution of foreclosure proceedings, whether by court action or otherwise (such as, attorney's fees, trustee's fees, court costs, abstract fees, or costs of depositions, advertisement, lis pendens notices or surveys) must be paid before the loan will be reinstated.

§ 24.11 *Fee for release of personal liability.* A fee of $10.00 is charged in connection with applications for release of personal liability for the payment of a Federal land bank loan, a Land Bank Commissioner loan, or joint Federal land bank and Land Bank Commissioner loan, if an appraisal is made.

§ 24.12 *Fees for division of existing loans.* No fees for the division of an existing loan shall be charged.

PART 25—FEDERAL LAND BANK OF NEW ORLEANS

Sec.
25.1 Appraisal fees.
25.2 Release fees.
25.3 Fees for reamortization and other loan treatments.
25.5 Prepayment fees.

AUTHORITY: §§ 25.1 to 25.5, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 25.1 *Appraisal fees.* (a) A fee of $5 will be collected with each application for a new loan of $1,000 or less, and a fee of $10 will be collected in such case where more than $1,000 is applied for. Should the application be withdrawn or declined before an appraisal is made, the fee will be returned to the applicant. A further fee of $1 per $1,000, or fraction thereof, will be charged and deducted from the loan proceeds at the time a loan is closed on any amount loaned by the land bank, the Land Bank Commissioner, or both, in excess of $5,000.

(b) A fee of $5 will be collected with each application for an increased or refunding loan where new money applied for is $1,000 or less, and a fee of $10 will be collected in such case where new money of more than $1,000 is applied for: *Provided,* That only a fee of $5 will be collected with each of two or more applications filed to refinance an existing loan (land bank, Land Bank Commissioner, or joint land bank and Commissioner loans but not purchase money mortgages) covering any part of the property offered as security. Should the application be withdrawn or declined before an appraisal is made, the fee will be returned to the applicant. A further fee of $1 per $1,000, or fraction thereof, will be charged and deducted from the loan proceeds at the time the loan is closed, on any amount of new money loaned by the land bank, the Land Bank Commissioner, or both, whether in one or in more than one refunding loan refinancing an existing loan, in excess of $5,000, which fee, in the case of several such refunding loans, will be prorated among the several applicants.

(c) A fee of $5 will be collected with each application for division of an existing loan (land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans). The fee will be returned if the application is withdrawn or declined before an appraisal is made.

(d) An additional fee of $7.50 will be collected with each application in any type of case where an applicant resides outside the Fifth Farm Credit District. The fee will be returned if an investigation outside the district is not made.

(e) A supplemental fee equal to the fee collected with the application will be charged in any type of case for each reappraisal made because of delay on the part of an applicant or made at the applicant's request.

§ 25.2 *Release fees.* An appraisal fee of $10 will be collected with each application for a partial release of security, subordination of a lien, adjustment of insurance, or release from personal liability. Only one such fee will be collected in cases where joint land bank and Land Bank Commissioner loans are involved. The fee will be returned if an appraisal is not made.

§ 25.3 *Fees for reamortization and other loan treatments.* An applicant for reamortization or other loan treatment changing the terms of any loan or contract will not be required to pay any fee in connection with such transaction, but will be obligated to pay any incidental outside expense, such as recording and reinscription costs.

§ 25.5 *Prepayment fees.* Payment in full or special payments on principal of a land bank loan will be accepted at any time with interest at the rate currently borne by the indebtedness to the date the payment is made, except that when the full payment arises from the refinancing of the loan from a non-Government lending source there will be an additional charge of 1 percent per annum from the date of payment to the end of the initial 5-year period, computed on the original amount of the loan less the principal portions of the regular installments already paid.

PART 26—FEDERAL LAND BANK OF ST. LOUIS

Sec.
26.1 Partial release of security and release of personal liability fees; land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans.
26.2 Reamortization fees on Federal land bank and Commissioner loans.
26.3 Prepayment fees.

AUTHORITY: §§ 26.1 to 26.3, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 26.1 *Partial release of security and release of personal liability fees; land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans.* (a) When no reappraisal by a land bank appraiser is necessary, no fee is charged. (If the application is for a release of personal liability or for a partial release of a small portion of security for school, church, cemetery, or other public use, ordinarily no reappraisal is necessary.)

(b) When reappraisal by a land bank appraiser is required, except as indicated in paragraph (c) of this section, a $10 fee is charged. (Ordinarily, reappraisal is required if more than 2% of the acreage included in the mortgage is involved in a partial release of security or subordination.)

(c) When the release or subordination is for public highway purposes, regardless of whether an appraisal is or is not required, no fee is charged.

§ 26.2 *Reamortization fees on Federal land bank and Commissioner loans.* Applicants for reamortization of land bank and Commissioner loans will not be required to pay a reamortization fee; however, applicants will be required to pay such out-of-pocket costs as abstract charges, recording fees, and other incidental items.

§ 26.3 *Prepayment fees.* In in any one year during the first five years a loan is in force, the borrower, through the refinancing of the loan from a non-Government lending source, makes special principal payments in excess of one-fifth of the original amount of the loan, a prepayment fee will be charged the borrower in a sum equal to 1% per annum on the amount of such excess for each year or fraction thereof of the unexpired portion of said five-year period.

PART 27—FEDERAL LAND BANK OF ST. PAUL

Sec.
27.1 Liquidation or prepayment fees.
27.2 Charges for reamortization; Federal land bank loans.
27.3 Charges for reamortization; Land Bank Commissioner loans.
27.4 Fees for change of maturity dates on loans.
27.5 Fees for subordination of mortgages and contracts, grants of and consents to easements, partial releases of mortgage security, partial conveyances of contract security, substitution of security and division of loans, Federal land bank and/or Land Bank Commissioner and/or Federal Farm Mortgage Corporation mortgages and land contracts.
27.6 Fees for release of personal liability in connection with Federal land bank and Land Bank Commissioner loans.

AUTHORITY: §§ 27.1 to 27.6, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 27.1 *Liquidation or prepayment fees.* No fee shall be charged in connection with the prepayment of any Federal land bank loan.

§ 27.2 *Charges for reamortization; Federal land bank loans.* For each loan reamortized the applicant therefor shall pay $3, said sum representing the average cash outlay in connection with each such reamortization for abstract of title charges and recording fees.

§ 27.3 *Charges for reamortization; Land Bank Commissioner loans.* For

each loan reamortized the applicant therefor shall pay $3, said sum representing the average cash outlay in connection with each such reamortization for abstract of title charges and recording fees. In the case of a joint loan where both the Federal land bank and the Land Bank Commissioner loans are reamortized simultaneously, a charge of $2 in addition to the foregoing is made.

§ 27.4 *Fees for change of maturity dates on loans.* Where the borrower requests that the maturity dates on any loan(s) be changed, the following fees are required: (a) Federal land bank loan, $3.00; (b) Commissioner loan, $3.00; and (c) Joint loan (FLB & Commissioner), $5.00.

§ 27.5 *Fees for subordination of mortgages and contracts, grants of and consents to easements, partial releases of mortgage security, partial conveyances of contract security, substitution of security and division of loans, Federal land bank and/or Land Bank Commissioner and/or Federal Farm Mortgage Corporation mortgages and land contracts.* The following fees and charges shall be paid to The Federal Land Bank of Saint Paul in connection with Federal land bank and/or Land Bank Commissioner and/or Federal Farm Mortgage Corporation mortgages and land contracts:

(a) Where an appraisal by a land bank appraiser is necessary, a fee of ten dollars ($10.00) shall be paid in connection with each application for subordination of mortgages and contracts, partial releases of mortgage security, partial conveyances of contract security, and grants of and consents to easements.

(b) Where an appraisal by a land bank appraiser is necessary, a fee of ten dollars ($10.00) shall be paid for each appraisal made in connection with an application for substitution of security.

(c) Where an appraisal by a land bank appraiser is necessary in connection with an application for division of a Federal land bank and/or Land Bank Commissioner loan, only one fee of five dollars ($5.00) shall be paid, regardless of the number of parts into which it or they may be divided.

(d) Where new loans are made involving a part of the security underlying an existing loan, partial releases necessitated thereby shall be made without fees.

§ 27.6 *Fees for release of personal liability in connection with Federal land bank and Land Bank Commissioner loans.* Where an appraisal by a land bank appraiser is necessary, a fee of ten dollars ($10.00) shall be paid in connection with an application for release of personal liability upon transfer of title to the mortgaged property.

PART 28—FEDERAL LAND BANK OF OMAHA

§ 28.1 *Reamortization fees.* Applicants for reamortization of bank loans and Commissioner loans will not be required to pay a reamortization fee: *Provided, however,* That applicants will be required to pay such out-of-pocket costs as recording fees, notarial fees and other incidental items. (Sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth").

AUTHORITY: §§ 29.1 to 29.5, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 29.1 *Application and loan fees.* Each application for a new loan, or an additional loan, shall be accompanied by a fee of $10.00, to be refunded if no appraisal is made. A further fee of $7.50 shall be required if it appears necessary for the bank to make a personal investigation outside of the Ninth Farm Credit District, such fee to be refunded if the investigation is not made. If a reappraisal is required because of delay of the applicant, or is made at the applicant's request, an additional fee of $10.00 may be required.

§ 29.2 *Partial release fees.* Each application for a partial release shall be accompanied by a fee of $10.00. An additional fee of $5.00 shall be required if the property to be released includes irrigated land or land in a drainage district, or both. If no appraisal is made, the foregoing fees shall be refunded. If a reappraisal is required because of delay of the applicant, or is made at the applicant's request, an additional fee of $10.00 may be required.

§ 29.3 *Fees for reamortization of existing loans.* In connection with the reamortization of existing loans, the borrower shall pay such out-of-pocket expenses as abstract charges, recording fees, and other incidental items.

§ 29.4 *Fees for release of personal liability.* Each application for a release of personal liability shall be accompanied by a fee of $10.00, such fee to be refunded if no appraisal or field investigation is made. An additional fee of $7.50 shall be required if it appears necessary to make a personal investigation outside of the Ninth Farm Credit District, such fee to be refunded if the investigation is not made.

§ 29.5 *Fees for division of existing loans.* Each application for the division of an existing loan shall be accompanied by a fee of $5.00. An additional fee of $2.50 shall be required if the loan involved includes irrigated land or land in a drainage district, or both. If no appraisal is made, the foregoing fees shall be refunded. An additional fee of $7.50 shall be required if it appears necessary for the bank to make a personal investigation outside of the Ninth Farm Credit District, such fee to be refunded if the investigation is not made. If a reappraisal is required because of delay of the applicant, or is made at the applicant's request, an additional fee of $10.00 may be required.

30.4 Deposits of fees for abstract handling.
30.5 Release of personal liability fees; land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans.

AUTHORITY: §§ 30.1 to 30.5, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 30.1 *Application fees; loan fees; land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans.* A fee of $10 will be collected with each new loan application and each application for an additional or increased loan; and

A fee of $5 will be collected with each application for division of an existing loan; and

An additional fee of $10 will be charged for reappraisals made because of delay on the part of an applicant or made at the applicants' request; and

The initial fee collected in each case will be refunded if no appraisal is made.

§ 30.2 *Partial release fees; land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans.* A fee of $10 will be collected with each application for partial release; and,

An additional fee of $10 will be charged for reappraisals made because of delay on the part of an applicant or made at the applicant's request; and,

The initial fee collected in each case will be refunded if no appraisal is made.

§ 30.3 *Reamortization fees; land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans.* No fee will be collected with an application for reamortization. Each applicant, however, will be required to pay actual cash outlays incurred for abstract expense, notarial fees, recording fees, obtaining tax certificates, and other incidental items necessary for the completion of the transaction.

If a reappraisal is required in any case because of a delay on the part of the applicant, or is made at the applicant's request a fee of $10 will be charged.

§ 30.4 *Deposits of fees for abstract handling.* The Abstract Section is authorized to charge and collect from the borrower of all abstracts loaned by the Federal Land Bank of Houston and the Land Bank Commissioner, where proper deposit has been made, the following fees:

(a) A handling fee of $2 where the abstracts are returned to the Bank in as good condition as when delivered.

(b) A handling fee of an additional $2 per loan file, when it becomes necessary to go into the files of additional loans to supply the abstracts borrowed.

(c) A handling fee of $1 per loan file where, after the abstracts are forwarded to the borrower of the abstracts, the related loan is paid in full and released.

(d) A reexamination fee of $5 is charged where reexamination of the abstracts becomes necessary by reason of their alteration while in the possession of the borrower of the abstracts or other persons. The necessity for the examination must be approved by the General Counsel of the Federal Land Bank of Houston.

§ 30.5 *Release of personal liability fees; land bank, Land Bank Commissioner, or joint land bank and Land Bank Commissioner loans.* A fee of $10 will be charged for release of personal liability to cover the expense of appraisal or investigation. Where no appraisal or investigation is necessary, no fee will be charged.

AUTHORITY: §§ 32.1 to 32.3, inclusive, issued under sec. 13 "Ninth," 39 Stat. 372; 12 U. S. C. 781 "Ninth".

§ 32.1 *Application fees; payable with application.* On each application for a partial release of mortgage security or for a release from personal liability on a loan, a fee is charged as follows:

Application for partial release of mortgage security	$10.00
Application for release from personal liability on loan	10.00

In the event no appraisal of the property is made, the entire application fee is refunded.

A single fee is charged on such application applicable to single land bank or Land Bank Commissioner loans, or to joint land bank or Land Bank Commissioner loans.

No application fee or other fees are charged in connection with applications for new loans, or additional loans or for the division of existing loans.

Each applicant will be required to pay actual cash outlays for abstract expenses, title insurance fees, notarial fees, recording fees, or other disbursements necessary for the completion of the transaction.

§ 32.2 *Reamortization and long-term extension fees.* Applicants for reamortization or long-term extension of bank loans and Commissioner loans will not be required to pay a reamortization or long-term extension fee; however, applicants will be required to pay actual cash outlays for abstract expenses, notarial fees, recording fees, and other disbursements necessary and incident to the reamortization or long-term extension.

§ 32.3 *Fees on prepayment of loan less than five years old.* A service fee of one per cent per annum will be charged for the unexpired portion of the first five year term of the loan, if it is paid from funds received from a new loan other than one made by the United States or by any agency or instrumentality thereof.

Subchapter D—Federal Intermediate Credit Banks

PART 40—GENERAL

Sec.
40.1 Organization of Federal intermediate credit banks.
40.2 Functions and procedures of Federal intermediate credit banks.
40.103 Debtor and creditor relationship with borrowing institutions.
40.104 Definitions.

AUTHORITY: §§ 40.1 to 40.104, inclusive, issued under sec. 2, 42 Stat. 1459; 12 U. S. C. 1101.

NOTE: In §§ 40.103 and 40.104, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Manual for Federal Intermediate Credit Banks, issued as of September 1, 1937.

§ 40.1 *Organization of Federal intermediate credit banks.* (a) The twelve Federal intermediate credit banks, of which there is one in each Farm Credit district, are corporations chartered under 42 Stat. 1454, as amended; 12 U. S. C. 1021 et seq. The location of the several Federal intermediate credit banks and the district served by each are stated in § 8.1 of this chapter. All of their capital stock is owned by the United States. The activities of the credit bank in each district are coordinated with those of the Federal land bank, production credit corporation, and bank for cooperatives of the district through the district organization described in § 8.2 of this chapter. The Federal intermediate credit banks discount agricultural paper for eligible lending institutions and make loans to such institutions, and are authorized to make loans to cooperative associations of farmers and stockmen.

(b) The farm credit board of each district elected or appointed under 50 Stat. 704, 12 U. S. C. 640b-640j, is ex officio the board of directors of the Federal intermediate credit bank of the district. The board of directors appoints the officers of the credit bank and is responsible for the management of its affairs under general supervision of the Farm Credit Administration. The president of the credit bank is its chief executive officer.

§ 40.2 *Functions and procedures of Federal intermediate credit banks—(a) Discounts for and loans to lending institutions.* The Federal intermediate credit banks are primarily banks of discount for agricultural and livestock lending institutions. The banks are authorized to discount agricultural paper for, to purchase such paper from, and to make loans secured by such paper to, various types of lending institutions including national and State banks, trust companies, agricultural credit corporations, incorporated livestock loan companies, savings institutions, cooperative banks, credit unions, and cooperative associations of agricultural producers. To be eligible for discount or purchase by a Federal intermediate credit bank, or as security for loans from a credit bank, the paper offered by such institutions must represent an obligation the proceeds of which have been advanced or used in the first instance for an agricultural purpose or for the raising, breeding, fattening, or marketing of livestock.

The Federal intermediate credit banks also discount loan paper for, purchase such paper from, and make loans to, the production credit associations and the banks for cooperatives.

The discounts and loans by the Federal intermediate credit banks are made in accordance with 42 Stat. 1454, as amended, 12 U. S. C. and Sup., Chapter 7, Subchapter III, and the rules and regulations contained in subsequent sections of this subchapter of the Code of Federal Regulations.

A lending institution desiring to rediscount the obligations of farmers and stockmen with a Federal intermediate credit bank, or to obtain loans from a Federal intermediate credit bank on the security of such obligations, should communicate with the credit bank serving the district in which the lending institution operates. To qualify for discounts and loans from the credit bank, the lending institution is required to submit to the bank, on prescribed forms available from the bank, an "Application for Rediscount Privileges" and related documents, in which the institution gives certain information and makes certain agreements regarding the types of obligations to be offered by it to the bank for discount or as security for loans, submits evidence of its eligibility and the authority of its officers to rediscount with and borrow from the bank, and sets forth its financial condition.

Applications of lending institutions to qualify for discounts and loans from a Federal intermediate credit bank, and their offerings of paper for discount or as security for loans, are approved or rejected by the bank's executive committee.

(b) *Loans to cooperative associations.* The Federal intermediate credit banks are authorized to make loans to cooperative associations of agricultural or livestock producers secured by staple agricultural products or livestock or by other collateral approved by the Governor of the Farm Credit Administration. Since such loans are available to eligible cooperative associations from the banks for cooperatives (see 6 CFR, Chapter I, Subchapter F), the credit banks do not ordinarily make such loans but refer requests to the banks for cooperatives. Occasionally, however, loans to cooperative associations are made by the Federal intermediate credit banks where extraordinary circumstances make it more advantageous to have the loans made by the credit bank rather than the banks for cooperatives. Applications for such loans from a Federal intermediate credit bank are made on prescribed forms furnished by the credit bank. Cooperative associations desiring to apply to a Federal intermediate credit bank for loans should first communicate with the credit bank regarding the special reasons for requesting that the loans be made by the credit bank rather than the bank for cooperatives.

(c) *Issue and sale of debentures.* The Federal intermediate credit banks finance their discount and lending operations for the most part by issuing consolidated collateral trust debentures which are sold to the general public. These debentures are the joint and several obligations of the twelve Federal intermediate credit banks and are issued and sold in accordance with 50 Stat. 718, as amended, 12 U. S. C. 1040–1045, and the rules and regulations contained in 6 CFR, Part 45. The debentures are secured by collateral as specified in sec. 2, 42 Stat. 1456, as amended, 12 U. S. C. 1041, and this collateral is deposited or pledged with the farm loan registrars of the several districts who are public officials appointed by the Farm Credit Administration. The United States Government assumes no liability for the payment of these debentures. New issues of debentures are offered for sale, generally each month, through the Fiscal Agent of the Federal intermediate credit banks, and the Fiscal Agent notifies dealers listed with him of debenture offerings. Dealers desiring to be placed on the list should communicate with the Fiscal Agent for the Federal Intermediate Credit Banks, 31 Nassau Street, New York 5, New York. Persons interested in purchasing debentures for investment may communicate with any securities dealer or with the Fiscal Agent.

§ 40.103 *Debtor and creditor relationship with borrowing institutions.* Cooperative associations and other institutions obtaining credit from a Federal intermediate credit bank are not subsidiaries or agents of such bank. The relationship of an intermediate credit bank to such concerns is that of a creditor, or the holder for value of paper discounted or purchased with the indorsement of such borrowing institution. Each intermediate credit bank will conduct its dealings with borrowing institutions in such manner as to preclude any inference, through correspondence or otherwise, of any relationship between them other than as stated.

Any concern which places upon its letterheads, stationery, advertising matter, etc., any inscription or statement referring in any manner to dealings with the Federal intermediate credit bank, should be advised promptly to discontinue the use of such representations as a condition to the continuance of its rediscounting or borrowing privilege.

§ 40.104 *Definitions*—(a) *Financing institution.* As used herein, the term "financing institution" shall be held to mean any incorporated organization for which a Federal intermediate credit bank may discount agricultural paper, or to which it may make loans, under the Federal Farm Loan Act, as amended (48 Stat. 271, 272; 12 U. S. C. 1031 and Sup.). Such institutions include production credit associations organized under the Farm Credit Act of 1933 (48 Stat. 257), State and national banks, savings institutions, cooperative banks, credit unions, trust companies, agricultural credit corporations, livestock loan companies, and similar corporations.

(b) *Agricultural credit corporation or livestock loan company.* The terms "agricultural credit corporation" and "livestock loan company" shall be held to mean any privately capitalized financing institution (other than a bank) organized under the laws of any State or of the United States for the primary purpose of lending money for agricultural purposes, as herein defined, and/or for the raising, breeding, fattening, or marketing of livestock, regardless of the corporate name of the concern.

(c) *Person.* The word "person" shall, unless the context otherwise requires, be construed to mean an individual, a partnership, an association, a corporation, or two or more persons having a joint or common interest.

(d) *Agricultural purpose and agricultural paper.* The term "agricultural purpose," as used herein, shall be held to mean the purpose of carrying on agricultural production and marketing the products thereof, including the raising, breeding, fattening, or marketing of livestock, defraying expenses incident thereto, or paying an indebtedness arising therefrom. The term "agricultural paper" shall be held to mean notes or other obligations of farmers and stockmen, the proceeds of which have been advanced or used in the first instance for an agricultural purpose as herein defined, and the credit instruments executed in connection therewith.

(e) *Staple agricultural product.* The term "staple agricultural product" shall be held to mean a product of agriculture having, in the opinion of the Farm Credit Administration, such uses as to make it the subject of constant dealings in ready markets with such frequent quotations of prices as to make (1) the price easily and definitely ascertainable and (2) the product itself easy to realize upon by sale at any time. To be regarded as a staple product a commodity should be of such character and keeping quality that it may be warehoused safely for such period as may be necessary to permit orderly marketing.

(f) *Discounts; purchases.* Unless otherwise stated, or indicated by its context, the term "discounts" as used herein and in the accounting terminology prescribed for the Federal intermediate credit banks, will be understood to cover both discounts and purchases, or obligations so discounted or purchased, regardless of whether interest is deducted at the time of acquirement or is accrued and collected at maturity or at stated intervals.

PART 41—INTEREST AND DISCOUNT RATES

NOTE: In §§ 41.204 the number to the right of the decimal point corresponds with the section number in the Manual for Federal Intermediate Credit Banks issued as of September 1, 1937.

§ 41.204 *Interest and discount rates*—(a) *Limitations and application of interest and discount rates.* Interest and discount rates of each Federal intermediate credit bank which, except with the approval of the Governor of the Farm Credit Administration, shall not exceed by more than 1 per centum per annum the rate borne by the last preceding issue of debentures which it issued or in which it participated, will be applied in the following manner:

(1) Interest, or discount, is to be charged on each original note (or upon such amounts as may be advanced thereon) at the rate in effect at the time the funds are advanced by the bank.

(2) On any renewal note the bank will charge its established rate in effect at the date such renewal is taken into its accounts.

(3) Extension notes, which mature in not to exceed 90 days from the date the original obligation matured, may be carried at the same rate as that charged on the note which has matured or, in the discretion of the bank, at its loan and discount rate prevailing at the time of extension.

(b) *Discounting (deducting interest, or collecting in advance).* Federal intermediate credit banks will not collect interest (deduct discount) in advance, except when paper offered to them bears interest after maturity only. All financing institutions dealing with a Federal intermediate credit bank should be urged, when taking paper to be offered to the bank, to draw the notes to bear interest from date.

(c) *Interest after maturity.* Should a note purchased or discounted by a Federal intermediate credit bank be not paid promptly at maturity the bank may, in its discretion, collect the full rate of interest called for by the note for such time as the indorsing financing institution permits such note to remain with the bank as past due and unpaid.

(d) *Interest on notes receivable (financing institutions in liquidation).* On paper which a Federal intermediate credit bank is obliged to take over from a financing institution for liquidation, interest will be collected at the rate specified in the notes. Renewals of such notes, when taken payable directly to the bank, should bear interest at a rate not to exceed the maximum rate that may

be charged by financing institutions on paper eligible for discount by the bank, under regulations prescribed by the Farm Credit Administration. In no event may such rate exceed the maximum interest rate permitted by applicable State laws. (Sec. 2, 42 Stat. 1459, sec. 7, 49 Stat. 316; 12 U. S. C. 1101, 1051)

PART 42—LOANS AND DISCOUNTS

Sec.
42.301 Applications.
42.302 Examinations and reports of borrowing and rediscounting organizations.
42.303 Character of paper.
42.304 Maturities.
42.306 Notes of farming corporations.
42.308 Rates of interest or discount charged note makers by financing institutions.
42.309 Fees and other charges.

AUTHORITY: §§ 42.301 to 42.309, inclusive, issued under sec. 2, 42 Stat. 1459, sec. 7, 49 Stat. 316; 12 U. S. C. 1101, 1051.

NOTE: In §§ 42.301 to 42.309, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Manual for Federal Intermediate Credit Banks issued as of September 1, 1937.

§ 42.301 *Applications.* Federal intermediate credit banks shall require, as a condition precedent to making loans to or discounting paper for any eligible organization, an application for such privilege duly executed by the applicant institution in form prescribed by the bank and approved by the Intermediate Credit Commissioner.

§ 42.302 *Examinations and reports of borrowing and rediscounting organizations.* Federal intermediate credit banks shall require, as a condition precedent to making loans to or discounting paper for any eligible organization (other than a production credit association or bank for cooperatives, organized under the Farm Credit Act of 1933) its agreement to furnish to the bank and/or the Farm Credit Administration and/or any farm credit examiner at any time upon call, a detailed statement of its financial condition in such form as may be prescribed; and its agreement to submit, at its own expense, to periodic examinations by examiners for the Federal intermediate credit bank, by national bank examiners and/or by farm credit examiners; *Provided, however,* That any bank, trust company, or savings institution operating under the supervision of State or national banking authorities, in lieu of such agreement, may submit its authorization to such supervising authority, in writing, to furnish the Federal intermediate credit bank and/or the Farm Credit Administration upon request any report of condition or examination, or other confidential information in the possession of such supervising authority.

§ 42.303 *Character of paper.* To be acceptable to a Federal intermediate credit bank, paper offered by a financing institution for discount or as collateral security for a loan shall be of such character as to assure liquidation of the obligation within a reasonable time, consistent with sound banking and agricultural practices. In any case where the collateral offered is the principal factor in determining the acceptability of a note, a margin of security adequate to protect the bank during the full term of the obligation will be required.

§ 42.304 *Maturities*—(a) *Notes from financing institutions.* Maturities of notes or other obligations discounted by a Federal intermediate credit bank or accepted as collateral for loans to financing institutions should coincide, as nearly as may be practicable, with the usual time for marketing the crops or livestock from which liquidation is expected. Except as hereinafter provided, maturities of such notes will not exceed one growing and/or marketing season, usually not more than twelve months.

(b) *Notes of dairymen.* A Federal intermediate credit bank may discount, or accept as collateral, notes of dairymen secured by chattel mortgages on dairy cattle and maturing not more than two and one-half years from the date of discount or pledge, except that in the event the dairy cattle are subjected to intensive feeding and milk production, the maturity shall be not more than two years from the date of discount or pledge: *Provided,* That, in either case, such notes are payable in regular monthly or semi-monthly installments in amounts ordinarily sufficient to liquidate the paper within such period but consistent with sound farming practices of the operator. In the discretion of the intermediate credit bank, such installments may be for fixed amounts or for a percentage of proceeds from dairy products and should, ordinarily, be covered by assignment of an appropriate part of future milk or cream checks.

(c) *Notes guaranteed under Servicemen's Readjustment Act of 1944.* Notes or other obligations which are guaranteed under the provisions of the Servicemen's Readjustment Act of 1944 (Public Law 346, 78th Congress, approved June 22, 1944), as amended, and which are otherwise eligible under the laws and regulations governing the Federal intermediate credit banks, may be discounted, purchased, or accepted as collateral for loans, when such notes or other obligations mature in not to exceed three years from date of acquisition or acceptance by a Federal intermediate credit bank.

§ 42.306 *Notes of farming corporations*—(a) *Eligibility.* Notes of a corporation are eligible for discount only if the corporation is principally engaged in farming or in raising, breeding, fattening, or marketing of livestock. To be considered so principally engaged, the major portion of the corporation's assets must be represented by property actually devoted to farming and/or livestock production; at least half of its gross income must be derived from such operations; and at least half of the time of its active officers and personnel must be spent in the conduct of such business.

(b) *Indorsements of stockholders.* (1) Notes of a farming corporation (as herein defined), to be accepted for discount or as collateral for a loan by a Federal intermediate credit bank, will be required to be indorsed, or signed as co-maker(s) by (i) the holder or holders of at least the majority of the outstanding shares of voting stock of the corporation or (ii) under certain conditions, by the principal stockholder or stockholders; or the bank will require that such stockholders execute a continuing guaranty of all indebtedness of such corporation to the financing institution and its successors or assigns.

(2) The Federal intermediate credit banks will require such stockholders' indorsements or guaranties on any renewals or extensions of obligations of farming corporations whose paper they may now hold, as a condition precedent to accepting such renewals or extensions. This requirement may not be waived in any case except with the express consent of the Intermediate Credit Commissioner.

§ 42.308 *Rates of interest or discount charged note makers by financing institutions.* The rate of interest or discount charged farmers and stockmen on notes or other obligations that may be discounted for, or accepted as collateral for loans to, production credit associations and other financing institutions shall not exceed by more than 3 percent per annum the loan and discount rate of the Federal intermediate credit bank in effect at the time the loan is made.

§ 42.309 *Fees and other charges.* No paper shall be eligible for discount, or as collateral for a loan by a Federal intermediate credit bank, if the financing institution charges any fee or commission aside from interest at a rate conforming to the regulations of the Farm Credit Administration and reimbursement for reasonable and necessary actual costs incurred by the financing institution in making the loan, such as the expenses of necessary inspections of the security, obtaining chattel mortgage abstracts or other evidences of title and priority of its liens, and filing or recording mortgages.

PART 43—PRIVATELY CAPITALIZED FINANCING INSTITUTIONS

Sec.
43.501 Eligibility of institutions.
43.503 General collateral requirements (financing institutions).
43.504 Loans to financing institutions.
43.504–1 Substitution of direct obligations (financing institutions).
43.504–2 Temporary advances to financing institutions.
43.505 Eligibility of paper.
43.507 Insolvent financing institutions.

AUTHORITY: §§ 43.501 to 43.507, inclusive, issued under sec. 2, 42 Stat. 1459, sec. 7, 49 Stat. 316; 12 U. S. C. 1101, 1051.

NOTE: In §§ 43.501 to 43.507, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Manual for Federal Intermediate Credit Banks issued as of September 1, 1937.

§ 43.501 *Eligibility of institutions.* In order to be eligible to obtain credit from a Federal intermediate credit bank, a privately capitalized financing institution (other than a bank or a credit union) must meet the following requirements:

(a) *Incorporation and capitalization.* It must be incorporated with a paid-in and unimpaired capital commensurate

with the volume of business it expects to handle and, in any event, not less than $10,000.

Ordinarily, such a corporation should have a minimum capital of $25,000 to enable it to handle a volume of business that will produce earnings sufficient to cover operating costs and establish reserves for possible losses.

(b) *Compliance with statutes.* It must comply with State laws applicable to it. Violations of State laws will be cause for revocation by an intermediate credit bank of the borrowing and rediscounting privilege of any concern which does not immediately rectify such conditions upon notice from the bank. Particular attention should be given to the corporation's articles of incorporation and bylaws; the issuance, sale, and retirement of its capital stock or other securities; and, in the case of foreign corporations, evidence will be required that the concern has complied with the laws of the State in which it is operating.

(c) *Nature of principal business.* It must be engaged, principally, in the business of extending seasonal short-term credit for agricultural and livestock production purposes.

(d) *Corporations acting under banking laws.* A corporation engaged in a banking business and operating under the banking laws of a State, but having the powers of an agricultural credit corporation, livestock loan company, or similar financing institution, must be limited to the amount of credit which may be granted to a banking institution under section 202 (b) of the Federal Farm Loan Act, as amended.

(e) *Definition of capital and surplus.* Only that portion of a corporation's authorized and subscribed capital which has been paid for, and for which stock certificates are actually outstanding in the names of bona fide stockholders, plus such sums as have been definitely and regularly credited to surplus account and remain therein, may be regarded as capital and surplus for the purposes of this section. Undivided profits may not be treated as surplus, until actually set aside for that purpose; but such undivided profits and any reserves set up will, to the extent of the amount available, be recognized as an offset against losses or other items which otherwise might impair the corporation's capital or surplus.

§ 43.503 *General collateral requirements (financing institutions).* A financing institution (other than a commercial bank, or a bank for cooperatives organized under the Farm Credit Act of 1933) as a condition precedent to borrowing from or rediscounting with a Federal intermediate credit bank, is required to pledge as general collateral to any and all obligations to the bank, cash, United States Government securities, Federal Farm Mortgage Corporation bonds, Federal land bank bonds, Federal intermediate credit bank debentures, or other readily marketable securities of high rating, in an amount equal to a substantial portion of its capital. In the discretion of the Federal intermediate credit bank concerned, banking institutions also may be required (unless prohibited by law or by supervisory authority) to deposit general, acceptable collateral.

§ 43.504 *Loans to financing institutions.* Loans may be made to a financing institution (other than a bank for cooperatives or a production credit association organized under the Farm Credit Act of 1933, as amended, or a production credit association in which a production credit corporation organized under that act owns stock) only when such loans are secured by paper that is in itself eligible for discount, that is, "the proceeds of which have been advanced or used in the first instance for any agricultural purpose or for the raising, breeding, fattening, or marketing of livestock," and which otherwise conforms to the requirements of eligibility for discount.

§ 43.504–1 *Substitution of direct obligations (financing institutions).* As an incident to the exercise of its specific powers, and as a step in the liquidation of paper discounted for or purchased from a privately capitalized financing institution pursuant to the provisions of section 202 (a) (1) of the Federal Farm Loan Act, as amended (12 U. S. C. 1031), a Federal intermediate credit bank may accept from such financing institution, in substitution for any such paper which is overdue or otherwise in default, a direct promissory note of such institution secured by the pledge of bonds or other acceptable collateral.

§ 43.504–2 *Temporary advances to financing institutions.* Advances may be made to financing institutions, for temporary periods only, upon the basis of their direct notes secured by the pledge of bonds or other acceptable collateral, provided such advances are incident to the extension of credit by means of loans and discounts as contemplated by section 202 (a) (1) of the act (12 U. S. C. 1031). Such advances shall be made only in cases where the bank finds that funds are required by the financing institution to enable it to close loans which are to be offered to the bank for discount or purchase, or as collateral for a loan or loans, pursuant to said section 202 (a) (1)

§ 43.505 *Eligibility of paper*—(a) *Summary of eligibility requirements.* To be eligibile for discount or as collateral for loans, notes offered to a Federal intermediate credit bank by privately capitalized financing institutions must meet the following requirements:

(1) The rate of interest or discount charged the note maker may not exceed the limitations set out in the rules and regulations promulgated by the Farm Credit Administration.

(2) Maturity dates may not exceed the limitations fixed by Farm Credit Administration rules and regulations and may not, in any event, exceed the legal limit of three years from the date discounted or accepted as collateral by the banks.

(3) The total indebtedness of the note maker to the financing institution may not exceed the maximum amount permitted by rules and regulations of the Farm Credit Administration.

(4) The proceeds of the notes must have been advanced or used in the first instance for an agricultural purpose, as defined by the Farm Credit Administration, and the Federal intermediate credit bank will require appropriate certificates or other suitable evidence that the proceeds have or will be so used.

(b) *Notes given to merchants.* Notes given by farmers and stockmen to dealers or merchants for the purchase of livestock, machinery, farm supplies, fertilizer, etc., ordinarily are not eligible for discount by (or as collateral for loans from) a Federal intermediate credit bank.

Where the proceeds of such notes are used primarily for the benefit of a merchant or dealer, rather than a farmer (e. g., to finance a merchant's credit sales) the purpose is commercial, or mercantile, not agricutural. A farmer's note given to a financing institution, when the proceeds have been used to purchase for cash from a merchant, or to pay a merchant for, farm supplies, machinery, fertilizer, etc., if otherwise acceptable, is eligible for discount by a Federal intermediate credit bank.

(c) *Notes of irrigation companies, etc.* Notes of irrigation companies, canal companies, and similar concerns engaged in the business of supplying farmers with irrigation water or other services or supplies, are not eligible for discount by (or as collateral for loans from) a Federal intermediate credit bank.

(d) *Maximum individual notes eligible for discount.* The maximum amount of any person's obligations which may be discounted for (or accepted as collateral for loans to) a financing institution shall not, except with the consent of the Intermediate Credit Commissioner, exceed the following limitations: (1) 20 percent of the paid-in and unimpaired capital and surplus of the financing institution, in the case of crop production and general agricultural paper; or (2) 50 percent of the paid-in and unimpaired capital and surplus of such institution, if the notes or other obligations are adequately secured by warehouse receipts representing readily marketable and nonperishable staple agricultural commodities, or by chattel mortgages on livestock; and shall be subject to such further limitations as may be imposed by the laws governing the operations of the financing institution concerned.

A Federal intermediate credit bank may not, except with the approval of the Intermediate Credit Commissioner, discount or make loans upon the security of any part of the obligations of a person whose indebtedness to the financing institution offering such paper to the bank exceeds the limitations prescribed herein, since undue concentration of credit in large lines involves special hazards which may impair the ability of the financing institution to meet its liabilities to the bank.

The term "obligations," as used in this section, includes all paper upon which one person is liable, whether as borrower, co-maker, indorser, or guarantor; *Provided, however,* That a Federal intermediate credit bank may, with the approval of the Intermediate Credit Commissioner, fix a different maximum amount of paper acceptable to it and bearing the indorsement for security only of a person having no direct interest in the farming operations being financed with the proceeds of such notes.

§ 43.507 *Insolvent financing institutions.* In any case where a financing institution becomes insolvent, or is in process of liquidation, particularly if it will not properly service its paper, and where supervision and orderly liquidation will be facilitated by direct handling of the obligations of the borrowers, a Federal intermediate credit bank may, with the consent of the Intermediate Credit Commissioner, take over such paper and at maturity accept renewals thereof made payable directly to the bank. Notes or other obligations pledged with an intermediate credit bank by a financing institution, either as collateral for a direct loan or as additional security for any and all indebtedness of the corporation to the bank, also may be taken over by the bank and handled directly with the makers after title has been acquired by the bank in accordance with the provisions of applicable State laws and the terms of the pledge agreements executed by the financing institution.

It is the policy of the Farm Credit Administration, in so far as is possible without jeopardizing the interests of the Federal intermediate credit banks, and within the limitations of the law governing their operations, to avoid the enforced liquidation of privately capitalized financing institutions as well as their borrowers whose paper may be held by the intermediate credit banks. Therefore, direct liquidation of paper carried for a financing institution should be resorted to only in cases where other measures have failed and it is apparent that direct liquidation is the only practicable means available to the bank for the protection of its interests. When it is determined by a bank that the affairs of a financing institution are to be closed out through the foregoing procedure, a complete statement of the facts shall be submitted to the Intermediate Credit Commissioner before definite action is taken by the bank.

Paper handled for insolvent financing institutions under the foregoing procedure will not be assigned to the farm loan registrar as collateral for debentures.

PART 44—COOPERATIVE ASSOCIATIONS

Sec.
44.701 Eligibility requirements.
44.704 Collateral other than approved agricultural products.
44.706 Commodities acquired from or handled for nonmembers.
44.710 Charge for non-use of funds.

AUTHORITY: §§ 44.701 to 44.710, inclusive, issued under sec. 2, 42 Stat. 1459, sec. 7, 49 Stat. 316; 12 U. S. C. 1101, 1051.

NOTE: In §§ 44.701 to 44.710, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Manual for Federal Intermediate Credit Banks issued as of September 1, 1937.

§ 44.701 *Eligibility requirements.* Only bona fide cooperative associations, composed of persons who are engaged in producing and marketing staple agricultural products or livestock, are eligible for loans from a Federal intermediate credit bank. Any properly organized cooperative association which complies with the provisions of section 12 of the Farm Credit Act of 1935 (49 Stat. 317; 12 U. S. C., Sup., 1141j), and meets the foregoing requirements shall be deemed to be eligible for credit from a Federal intermediate credit bank.

Loans may be made to farmers' cooperative associations engaged in purchasing, testing, grading, processing, distributing, and/or furnishing farm supplies and/or farm business services as well as to associations engaged in processing, handling, and/or marketing farm products for their members. Loans to cooperative marketing associations will be made only to permit such associations to carry out an orderly marketing program, as distinguished from a speculative holding venture.

§ 44.704 *Collateral other than approved agricultural products.* In view of the variety of collateral which might be tendered by a cooperative association, no definite rulings with respect to what would constitute approved additional collateral are prescribed, except that under certain conditions an assignment of a hedge contract covering a staple agricultural product will be considered as "other collateral" within the meaning of that term as used in section 202 of the act, as amended (42 Stat. 1455; 12 U. S. C. 1031 (3) and Sup.). Favorable consideration will be given to a request by a Federal intermediate credit bank that the Governor approve collateral in this form, under the following conditions:

(a) That such hedge contract is, in effect, a sale of the commodity in the futures market at a price not less than its current market value plus carrying charges to the date of its sale, as provided in the contract;

(b) That the commodity will be hedged continuously during the entire time the bank's loan is outstanding; and

(c) That the hedge contract is made with a reputable and financially responsible broker through a recognized commodity exchange.

§ 44.706 *Commodities acquired from or handled for nonmembers.* Commodities acquired by a marketing association from nonmembers, for the purpose of supplementing the products received from its members, may be accepted as collateral for loans to cooperative associations: *Provided,* The value of the products so purchased from or handled for nonmembers does not exceed the value of those received from or handled for members.

§ 44.710 *Charge for non-use of funds.* As funds for lending purposes are procured principally through sales of debentures, a Federal intermediate credit bank is authorized to charge any cooperative association, in addition to interest on the indebtedness of the association to the bank, such sums as will protect the bank against pecuniary loss on its outstanding debentures in the event, and to the extent, that the association:

(a) Fails to employ the funds made available for its use in the amounts and on the dates agreed upon; or

(b) Makes prepayment of a loan or any part thereof.

PART 45—COLLATERAL TRUST DEBENTURES

NOTE: In § 45.804 the number to the right of the decimal point corresponds with the respective section number in the Manual for Federal Intermediate Credit Banks, issued as of September 1, 1937.

§ 45.804 *Lost, stolen, destroyed, mutilated, or defaced debentures*—(a) *Authorization for relief.* Whenever a debenture issued by an individual Federal intermediate credit bank, or a consolidated debenture, is lost, stolen, destroyed or so mutilated or defaced as to impair its value to the owner, the Intermediate Credit Commissioner may authorize the issuance of a new debenture in lieu thereof upon the owner's compliance with the following requirements:

(b) *Application.* In the event of the loss, theft, destruction, mutilation, or defacement of a debenture, issued by a Federal intermediate credit bank, or a consolidated debenture, the owner or his authorized representative, to protect his interest, should immediately file an application with the Intermediate Credit Commissioner for the issuance of another debenture in lieu thereof. Such application must be filed within a reasonable time after the loss, theft, destruction, mutilation, or defacement is discovered.

(c) *Affidavit of loss.* The owner of the debenture which has been lost, stolen, mutilated, or destroyed, or his authorized representative, shall furnish to the Intermediate Credit Commissioner his affidavit, duly acknowledged before a notary public or other officer authorized by law to administer oaths, setting forth:

(1) That he is the lawful owner (or authorized representative of the owner) of such debenture, and that he is legally entitled to its possession;

(2) A complete identification of such debenture, including serial number, date of issue, face amount, date of maturity, and interest rate;

(3) A detailed statement of the circumstances surrounding the loss, theft, destruction, mutilation, or defacement of such debenture;

(4) A statement that the affidavit is made for the purpose of obtaining a new debenture, and an undertaking that, should the original debenture come into possession or control of the deponent, he will immediately surrender it to the Farm Credit Administration.

(d) *Bond of indemnity.* (1) The owner of the lost, stolen, or destroyed debenture or his authorized representative, shall also furnish to the Intermediate Credit Commissioner a bond of indemnity in a penal amount equal to the sum of the principal and interest to maturity of the said debenture, plus 10 percent, with corporate surety satisfactory to the Intermediate Credit Commissioner, with conditions to indemnify and save harmless the Farm Credit Administration and any and all Federal intermediate credit banks and officers, employees,

and representatives thereof, of and from all liability, loss, claims, or demands, arising in any manner by reason or on account of the debenture for which the issuance of another is requested.

(2) The owner of a mutilated or defaced debenture, or his authorized representative, shall, before another debenture is issued in lieu thereof, surrender such debenture or as much thereof as remains, to the Intermediate Credit Commissioner, and shall, if required by him, also furnish him a bond of indemnity in a penal sum satisfactory to the Intermediate Credit Commissioner, with corporate surety and conditions as above stated.

(3) A bond of indemnity which is otherwise satisfactory will be accepted if the corporation which is surety thereon holds a certificate from the Secretary of the Treasury as being acceptable on surety bonds. A list of such corporations (Section of Surety Bonds Form 356) may be obtained from the United States Treasury.

CROSS REFERENCE: For listing of corporations by Form 356 as being acceptable on surety bonds, see 31 CFR Part 226.

(e) *Additional evidence of loss.* The owner of a lost, stolen, mutilated, or destroyed debenture, or his authorized representative, shall also furnish such other and further evidence relating to the loss, theft, destruction, mutilation, or defacement of the debenture for which a new debenture is requested as may be required by the Intermediate Credit Commissioner in any specific case.

(f) *Recovery of debenture reported lost, stolen, or destroyed.* If a debenture reported lost, stolen, or destroyed is recovered by the owner, or his authorized representative, prior to the issuance of a new debenture in lieu thereof, the Intermediate Credit Commissioner should be notified immediately, whereupon the application for the issuance of the new debenture will be canceled, and any bond and affidavits relative thereto will be returned to the owner, or his authorized representative. If the original debenture is recovered by the owner, or his authorized representative, after a new debenture in lieu thereof has been issued, the said original shall be returned to the Intermediate Credit Commissioner for cancellation.

(g) *Immaterial mutilation or defacement.* Where a mutilation or defacement of a debenture is so slight that the debenture may be identified fully, and the missing fragments could not by any possibility form the basis of a claim against the Farm Credit Administration or any Federal intermediate credit bank, the Intermediate Credit Commissioner, upon application therefor, and the surrender of the defaced or mutilated debenture, may authorize the issuance of a new debenture in lieu thereof without requiring an affidavit or indemnity bond, or such debenture may be accepted and paid, at maturity, as if no mutilation or defacement had occurred. Subchapter E—Production Credit Division

PART 48—PRODUCTION CREDIT CORPORATIONS

Sec.
48.1 Organization of production credit corporations.
48.2 Functions and procedures of production credit corporations.

AUTHORITY: §§ 48.1 and 48.2 issued under sec. 2, 48 Stat. 257, as amended; 12 U. S. C. 1131.

§ 48.1 *Organization of production credit corporations.* (a) The twelve production credit corporations, of which there is one in each farm credit district, are corporations chartered by the Governor of the Farm Credit Administration under 48 Stat. 257, as amended; 12 U. S. C. and Sup. The location of the several production credit corporations and the district served by each are stated in § 8.1 of this chapter. All of their capital stock is held by the Governor of the Farm Credit Administration on behalf of the United States. The activities of the production credit corporation of each district are coordinated with those of the Federal land bank, Federal intermediate credit bank, and bank for cooperatives of the district through the district organization described in § 8.2 of this chapter. The production credit corporations assist in the organization and capitalization of the production credit associations in their respective districts and supervise the associations.

(b) The farm credit board in each district, elected or appointed under 50 Stat. 704, 12 U. S. C. 640b–640j, is ex officio the board of directors of the production credit corporation. The board of directors appoints the officers of the corporation and is responsible for the management of its affairs under general supervision of the Farm Credit Administration. The president of the corporation is its chief executive officer.

§ 48.2 *Functions and procedures of production credit corporations.* (a) The production credit corporations assist in the organization of production credit associations by advising with farmers desiring to form an association and by advising the Farm Credit Administration regarding the need and prospects for any proposed new associations. The corporations also consult with associations and make recommendations to the Farm Credit Aministration regarding proposals for changing the territories of, consolidating and liquidating associations.

(b) The production credit corporations assist in the capitalization of production credit associations by purchasing their class A stock in accordance with 48 Stat. 259; 12 U. S. C. 1131c.

(c) The corporations supervise the associations by prescribing rules and regulations which are contained in Parts 51 and 52 of this chapter, by reviewing their activities and records and consulting and advising with them, and otherwise in accordance with 48 Stat. 259, 12 U. S. C. 1131d–1131g, the rules and regulations (Parts 50, 51, and 52 of this chapter), and the bylaws of the associations.

PART 49—PRODUCTION CREDIT ASSOCIATIONS

Sec.
49.1 Organization of production credit associations.
49.2 Functions and procedures of production credit associations.

AUTHORITY: §§ 49.1 and 49.2 issued under sec. 20, 48 Stat. 259; 12 U. S. C. 1131d.

§ 49.1 *Organization of production credit associations.* (a) The production credit associations, of which there are about 500, are corporations organized by ten or more farmers and chartered by the Governor of the Farm Credit Administration pursuant to 48 Stat. 259; 12 U. S. C. 1131d.

(b) The farmer members of each association own some or all of its capital stock. Non-voting class A stock of the associations is purchased by the production credit corporations subject to retirement in accordance with 48 Stat. 259, 12 U. S. C. 1131c, and the aggregate amount of stock owned by the corporations is being progressively reduced.

(c) The farmer members of an association elect its board of directors from its membership. The board of directors appoints its officers and employees and manages its affairs under general supervision of the production credit corporation and the Farm Credit Administration. The secretary of the association is its managing officer. The association's executive committee, consisting generally of two directors and the secretary, acts as a loan committee and passes on loan applications.

§ 49.2 *Functions and procedures of production credit associations.* The production credit associations make loans to farmers and stockmen for general agricultural purposes, principally short-term loans for production purposes. The regulations prescribing the general terms and conditions on which such loans may be made are contained in Parts 50, 51, and 52 of this chapter. Applications for loans should be made to the production credit association serving the territory in which the applicant's farming operations are conducted. Loan applications should be made on prescribed forms, which may be obtained from the association, in which the applicant gives information regarding the amounts and purposes of the loan sought, his farming facilities, the anticipated sources of repayment, the security offered, and his financial condition. Each borrower from an association is required to own stock in the association as provided in 48 Stat. 261; 12 U. S. C. 1131g. The executive committee of the association has authority to approve or reject loan applications except that further approval is required for loans in excess of certain amounts (see 12 U. S. C. 1131g) and for loans to certain officials of the Farm Credit Administration, the production credit corporation, or the association (see § 51.2 (f) of this chapter).

PART 50—RULES AND REGULATIONS FOR PRODUCTION CREDIT ASSOCIATIONS PROMULGATED BY FARM CREDIT ADMINISTRATION

Sec.
50.13 Charges to borrowers.
50.15 Confidential information.
50.16 Territory.
50.17 Depositaries.
50.19 Consolidation of associations.
50.20 Voluntary liquidation of associations.

AUTHORITY: §§ 50.13 to 50.20, inclusive, issued under secs. 20, 60, 48 Stat. 259, 266; 12 U. S. C. 1131d, 1138. Exception is noted in parentheses following section affected.

NOTE: In §§ 50.13 to 50.20, inclusive, the numbers to the right of the decimal point correspond with the section numbers in the Rules and Regulations for Production Credit Associations, effective December 31, 1939.

§ 50.13 *Charges to borrowers.* Subject to the approval of the president of the corporation the association may prescribe charges and other fees to be charged applicants in connection with loans. Except as otherwise authorized by the president of the corporation, the cost of title and mortgage abstracts and searches, fees for filing or recording mortgages, fees in connection with releases, notarial fees in connection with the execution of loan papers, and other expenses incurred in closing loans must be paid by the borrower.

§ 50.15 *Confidential information.* The directors, officers, employees, and agents of an association shall not disclose information regarding the association's borrowers or applicants for loans or other information of confidential character, except as permitted by instructions issued by the corporation in conformity with the pertinent regulations promulgated in the General Administrative Manual issued by the Farm Credit Administration. (See Part 4 of this chapter.)

§ 50.16 *Territory.* (a) The association shall operate and conduct its business within such territory as may be prescribed by the Governor and evidenced in a certificate of district to be served.

(b) An application for a loan to finance operations wholly within the territory of the association may be accepted regardless of the residence of the applicant.

(c) An application for a loan to finance operations wholly without the territory of the association shall not be accepted even though the applicant resides within the territory served by the association.

(d) An application for a loan to finance operations on land partly within and partly without the association's territory may be accepted if such land may be regarded, in the opinion of the president of the corporation, as one farming or livestock unit. (Sec. 20, 48 Stat. 259; 12 U. S. C. 1131d)

§ 50.17 *Depositaries.* The depositaries for the funds of the association must be approved for the purpose by the corporation so long as it is the holder of any stock of the association, such depositaries wherever possible to be members of the Federal Reserve System or insured by the Federal Deposit Insurance Corporation.

§ 50.19 *Consolidation of associations.* (a) *Consolidation agreement.* By resolution, the board of directors of each association constituent to a consolidation shall authorize the execution of, and shall approve, an agreement (in the form prescribed by the corporation with the approval of the Production Credit Commissioner) designating the charter of one of the constituent associations as the charter of the consolidated association, providing an effective date for the consolidation, and setting forth the terms and conditions of the consolidation and the mode of carrying the same into effect.

Such consolidation agreement shall also provide that the shares of class A stock of the respective constituent associations shall be converted at the par value thereof into like shares of the consolidated association; that the shares of class B stock of the respective constituent associations which have a fair book value equal to or greater than the par value thereof shall be converted at the par value thereof into like shares of the consolidated association; that the shares of class B stock of the respective constituent associations which have a fair book value of less than par shall be converted into $5 par value shares of class B stock of the consolidated association having an aggregate value equal in each instance to the aggregate fair book value of such shares of such constituent associations.

(b) *Approval of consolidation agreement.* In order to become effective, the consolidation agreement must be approved:

(1) By a two-thirds vote of the class B stockholders of each association constituent to the consolidation who are present at a meeting duly called for the purpose (provided the stockholders so present constitute a quorum);

(2) By the president of the corporation; and

(3) By the Production Credit Commissioner.

(c) *Effectiveness of agreement.* When so approved the consolidation agreement shall be filed with the corporation and shall become effective as of its effective date. As of such date, the separate existence of the constituent associations shall cease, and the consolidated association shall succeed, without other transfer, to all rights and property of the constituent associations and shall be obligated to discharge all the debts, liabilities, and duties thereof in the same manner and to the same extent as if such consolidated association had originally incurred them.

(d) *Supervisory duties of corporation.* It shall be the duty of the corporation to supervise the consolidation for the purpose of insuring that the terms and conditions of the consolidation agreement are properly carried into effect and that the shares of stock of the constituent associations are retired and canceled and the proper number of shares of stock of the consolidated association issued in lieu thereof.

§ 50.20 *Voluntary liquidation of associations.* (a) Subject to the approval of the president of the corporation and of the Production Credit Commissioner an association may be placed in voluntary liquidation by resolution of its board of directors. The resolution shall authorize and direct the president of the corporation to appoint and fix the compensation of a liquidating agent for the association and to remove such liquidating agent at will and appoint a successor; and shall vest in the liquidating agent full and complete authority (without any reservation of power in the board) to liquidate the association subject to the direction and supervision of the president of the corporation.

(b) Subject to such direction and supervision, the liquidating agent shall convert all the association's assets into cash (except securities held by the corporation for the association's account), pay all its obligations, and distribute its remaining assets to the holders of class A and class B stock in accordance with their liquidation preference rights.

(c) The loan assets of the association may be converted into cash by either of the following methods:

(1) By their collection.

(2) By the sale of the loan assets of the association to another association or associations upon such terms and conditions as may be approved by the president of the corporation and by the Production Credit Commissioner: *Provided*, That immediately upon completion of such sale the liquidating association will be able to pay liquidating dividends of not less than $5 per share on all its outstanding stock. Each borrower whose loan is sold to another association shall be required to own class B stock in the purchasing association in the amount of $5 for each $100 or fraction thereof of the unpaid balance of such loan; and the liquidating association shall make payment to the purchasing association for such stock out of the borrower's liquidating dividends. (Sec. 65, 48 Stat. 269; 12 U. S. C. 1138e)

PART 51—RULES AND REGULATIONS FOR PRODUCTION CREDIT ASSOCIATIONS PROMULGATED BY ALL PRODUCTION CREDIT CORPORATIONS

Sec.
51.1 Loan purposes.
51.2 Eligibility.
51.4 Approval of loan.
51.5 Interest rates.
51.8 Inspections.
51.10 Time limit on closing loans.
51.11 Relation of association to other organizations.
51.21 Guaranteed loans to veterans.

AUTHORITY: §§ 51.1 to 51.21, inclusive, issued under sec. 23, 48 Stat. 261; 12 U. S. C. 1131g.

NOTE: In §§ 51.1 to 51.21, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Rules and Regulations for the Production Credit Associations, effective December 31, 1939.

§ 51.11 *Loan purposes.* The association is authorized to provide short-term and intermediate-term credit for any general agricultural purpose to qualified farmers and stockmen. Loans may include funds for the purchase of associa-

tion class B stock required to be held by members in connection with their loans.

When a doubt exists as to the authority of an association to make a particular type of loan, all pertinent facts in connection therewith should be forwarded to the president of the production credit corporation (hereinafter referred to as "the corporation") for a decision.

§ 51.2 *Eligibility*—(a) *In general.* To be eligible for a loan, an applicant must be a farmer within the meaning of that word as used in the Farm Credit Act of 1933 and amendments thereto and acts amendatory thereof. The term "farmer" as so used includes a natural person, partnership, or corporation engaged in the business of farming or of breeding, raising, or fattening livestock.

(b) *Natural persons.* To be an eligible applicant, a natural person must devote certain time and energy to the active management of his farming or livestock operations; and the enterprise must be conducted in such a manner that he reaps the benefits of the operation if it is successful, and suffers the loss if it is a failure. He need not be principally so engaged nor reside on the place where the farming or livestock operations are carried on. An applicant for a loan, the proceeds of which are to be used for farming or livestock operations conducted through tenants or sharecroppers, will be ineligible unless it affirmatively appears that he has a right to, and does actually exercise the substantial direction and control in the management of the enterprise. When a landlord is entitled only to a fixed return without regard to the success or failure of the farming operations, or does not rightfully exercise the substantial direction and control of the management of such operations, the tenant, not the landlord, is to be considered the "farmer."

(c) *Partnerships.* The eligibility of a partnership is governed by the same principles as those governing the eligibility of natural persons.

(d) *Corporations.* To be considered a "farmer," a corporation must be principally engaged in farming or in the breeding, raising, or fattening of livestock.

For a corporation to be considered as so principally engaged, the major portion of its assets must be represented by property actually devoted to farming and/or the raising, breeding, or fattening of livestock; at least half of its gross income must be derived from such operations; and at least half of the time of its active officers and personnel must be spent in the conduct of such business.

When a loan is made to a corporation, either the holder or holders of at least a majority of its outstanding shares of voting stock or, with the consent of the production credit corporation, the principal stockholder or holders must (1) endorse, or sign as comakers, all notes evidencing such loans; or (2) execute continuing guarantees of all indebtedness of such corporation to the association. When it is expected that future advances will be made to a corporate borrower, the association will require a continuing guaranty as above mentioned.

(e) *Fiduciaries and representatives.* Loans may be made to a fiduciary or representative (including a trustee, guardian, executor, administrator, or receiver) who, in such capacity, is engaged in farming or in the raising, breeding, or fattening of livestock: *Provided*, That (1) adequate security can and will be given and (2) some financially responsible individual (which may be the fiduciary or representative) will incur personal liability for the loan, or the general assets of the estate can and will be charged with liability for the loan. Loans shall not be made to the receiver of a corporation or to the trustee of a business trust (commonly called Massachusetts trust) unless the corporation or trust satisfies the requirements for eligibility of a corporation as prescribed in paragraph (d) of this section.

(f) *Loans to directors, officers, employees, and agents of the Farm Credit Administration, the corporation and the association.* (1) Loans to a director of the corporation or to an officer (as distinguished from an employee) of the Farm Credit Administration of Washington, D. C., shall be subject to prior approval by the board of directors of the corporation and by the Production Credit Commissioner.

(2) Loans to an officer, employee, or agent of the corporation shall be subject to prior approval by the board of directors of the production credit corporation.

(3) Loans to a director or officer of an association shall be subject to prior approval by the president of the corporation, or in his absence or unavailability, by the officer authorized to perform the duties of the president.

(4) Similar approval shall be required for any loan to a partnership, firm, or corporation of which any of the aforesaid persons is a member or stockholder, and for any loan to a third party where more than $500 of the loan proceeds is to be used in connection with real or personal property in which any such person has a present legal or equitable interest.

(5) No member of the executive committee of an association shall participate in the deliberation upon the application for a loan in which he or a member of his immediate family has a legal or equitable interest. The term "immediate family" shall include a father, mother, brother, sister, son, daughter, husband, or wife.

§ 51.4 *Approval of loan.* Unless otherwise provided in the bylaws of the association, or unless otherwise authorized by the board of directors of the association and the president of the corporation, no loan shall be made unless the executive committee has given prior approval thereof. Where executive committee action is required, no loan shall be made unless application therefor has received the unanimous approval of the qualified members of the executive committee present at the meeting at which such action is taken.

§ 51.5 *Interest rates.* The interest rate charged the borrower shall be 3 per cent per annum above the discount rate of the Federal intermediate credit bank at the time the loan or advance is made, unless a lower or a higher rate is prescribed by the corporation with the approval of the Production Credit Commissioner. Interest shall be charged on loans for the actual number of days that loans are outstanding. The number of days for which interest shall be charged shall be computed on the basis of 365 days for normal years and 366 days for leap years.

§ 51.8 *Inspections.* Inspections or field reports shall be made in accordance with policies approved by the production credit corporation. Inspections shall be made by individuals approved by the corporation for this purpose.

An association officer, employee, or agent shall not be authorized to make an inspection incident to a loan applied for or obtained by a member of his immediate family or in connection with property in which he has a present legal or equitable interest. (See § 51.2 (f) for definition of "immediate family.")

§ 51.10 *Time limit on closing loans.* The association may, in its discretion, refuse to make a loan to an applicant who does not furnish all documents necessary to close the loan within 30 days after notice has been sent him by the association that his application has been approved.

§ 51.11 *Relation of association to other organizations.* No borrowers shall be required by the association to enter into any contract or agreement with any particular association, individual, or corporation with respect to the purchase of supplies or the sale of agricultural products, livestock, or livestock products; nor shall the association require a borrower to become a member of any other organization or association: *Provided*, That, with the prior approval of the Production Credit Commissioner, any of such requirements may be imposed as special credit requirements in connection with the closing of particular types of loans.

§ 51.21 *Guaranteed loans to veterans.* Upon authorization by its board of directors, an association may make loans to veterans which are guaranteed in part by the Administrator of Veterans' Affairs under Title III of the Servicemen's Readjustment Act of 1944, for any agricultural purpose eligible for such guaranty. Notwithstanding the regulations governing other loans made by the association, such guaranteed loans to veterans shall bear interest at the rate of 4 percent per annum, shall have a maturity in keeping with the repayment ability of the business financed but for not more than 5 years, and shall be made in accordance with the other requirements of said act and the regulations promulgated thereunder by the Administrator of Veterans' Affairs.

CROSS REFERENCE: For regulations under the Servicemen's Readjustment Act of 1944 promulgated by the Administrator of Veterans' Affairs, see Title 38, Part 36.

PART 52—PARTICULAR PRODUCTION CREDIT ASSOCIATIONS

§ 52.1 *Supervision by corporation of associations in First Farm Credit District.* Wherever in Parts 50 and 51 of this chapter authority is conferred upon the president of the corporation, such authority with respect to the associations in the First Farm Credit District may be exercised by either the President or the Executive Vice President of the Production Credit Corporation of Springfield. (Secs. 20, 23, 60, 48 Stat. 259, 261, 266; 12 U. S. C. 1131d, 1131g, 1138)

Subchapter F—Banks for Cooperatives

PART 69—ORGANIZATION, FUNCTIONS, AND PROCEDURES OF BANKS FOR COOPERATIVES

Sec.
69.1 Organization of Central Bank for Cooperatives.
69.2 Organization of district banks for cooperatives.
69.3 Functions and procedures of banks for cooperatives.

AUTHORITY: §§ 69.1 to 69.3, inclusive, issued under sec. 30, 48 Stat. 261; 12 U. S. C. 1134f.

§ 69.1 *Organization of Central Bank for Cooperatives.* The Central Bank for Cooperatives is a corporation chartered by the Governor of the Farm Credit Administration under 48 Stat. 261; 12 U. S. C. 1134f. Its offices are located in Washington, D. C., with the Farm Credit Administration, and it serves the entire United States. Its capital stock is held partly by cooperative associations that borrow from it and partly by the Governor of the Farm Credit Administration on behalf of the United States. The Central Bank makes loans to large regional-type cooperative associations of farmers and assists in financing the district banks for cooperatives. The board of directors of the Central Bank consists of the Cooperative Bank Commissioner, who is ex officio chairman of the board, and six other directors appointed by the Governor of the Farm Credit Administration of whom three are appointed from among individuals nominated by cooperative associations borrowing from the Central Bank. The Cooperative Bank Commissioner, as chairman of the board, is the executive officer of the Central Bank and prescribes the terms and conditions of its loans. The business of the Central Bank is managed by its vice president and general manager under the direction of the Commissioner, subject to general supervision by the Governor of the Farm Credit Administration.

§ 69.2 *Organization of district banks for cooperatives.* (a) The twelve district banks for cooperatives, of which there is one in each farm credit district, are corporations chartered by the Governor of the Farm Credit Administration under 48 Stat. 257; 12 U. S. C. 1134. The location of the several district banks and the district served by each are stated in § 8.1 of this chapter. The capital stock of each district bank is held partly by cooperative associations that borrow from it and partly by the Governor of the Farm Credit Administration on behalf of the United States. The activities of the district bank for cooperatives in each district are coordinated with those of the Federal land bank, Federal intermediate credit bank, and production credit corporation of the district through the district organization described in § 8.2 of this chapter. The district banks for cooperatives make loans to farmers' cooperative associations.

(b) The farm credit board of each district, elected or appointed under 50 Stat. 704, 12 U. S. C. 640b–640j, is ex officio the board of directors of the district bank for cooperatives. The board of directors appoints the officers of the corporation and is responsible for the management of its affairs under general supervision of the Farm Credit Administration. The president of the district bank is its chief executive officer.

§ 69.3 *Functions and procedures of banks for cooperatives.* (a) The Central Bank and the twelve district banks for cooperatives make loans to eligible farmers' cooperative associations, as defined in 46 Stat. 18, as amended, 12 U. S. C. 1141j, for the purposes and subject to the conditions specified in the Agricultural Marketing Act (46 Stat. 11, as amended; 12 U. S. C. 1141–1141j). Such loans are made in accordance with the rules and regulations contained in subsequent sections of this subchapter of the Code of Federal Regulations.

(b) The amount of loans that a district bank may make to any one borrower is limited by regulation (§ 71.25 of this chapter), but a district bank may receive applications for loans in excess of such limit and offer the excess amount to the Central Bank for participation in the loan. A cooperative association desiring to apply for loans should apply to the district bank serving the State in which the association's principal office is located (see § 8.1 of this chapter). However, an association whose operations extend over several farm credit districts may apply to the Central Bank. In appropriate cases, applications submitted to a district bank may be referred by it to the Central Bank and vice versa.

(c) Loan applications should be made on prescribed forms furnished by the banks, in which the applicant gives information as to the amount and purposes of the loan desired, the security offered, the proposed method of repayment, and the association's eligibility as a cooperative. The association should submit with its application certified copies of its articles of incorporation, bylaws, and board resolution authorizing the application, and audit reports or financial and operating statements for the preceding three years. Each borrower from a bank for cooperatives is required to own stock in the bank in the amounts stated in § 70.128 of this chapter.

(d) Loan applications are approved or rejected, and matters relating to loans are determined, on behalf of the Central Bank by its vice president and general manager with the concurrence of the Cooperative Bank Commissioner; and on behalf of a district bank by its executive committee composed of its president and other officers, except that loans in excess of $500,000 to any one association require further approval by the Cooperative Bank Commissioner.

PART 70—LOAN INTEREST RATES AND SECURITY

Sec.
70.5 Nonproducer ownership of voting media in cooperative associations.
70.43 Loans entitled to commodity loan interest rate.
70.46 Eligible commodities.
70.90 Interest rate on continental loans for financing operations.
70.90–50 Interest rate on continental commodity loans.
70.90–51 Interest rate on loans secured by Commodity Credit Corporation loan documents.
70.90–52 Interest rate on continental facility loans.
70.90–53 Interest rate on commodity loans in Puerto Rico.
70.90–54 Interest rate on loans in Puerto Rico for financing operations.
70.90–55 Interest rate on facility loans in Puerto Rico.
70.128 Capital stock ownership required of borrowing cooperatives.
70.139 Stock of defaulting borrowers.

AUTHORITY: §§ 70.5 to 70.139, inclusive, issued under secs. 34, 38, 48 Stat. 262, 264, as amended; 12 U. S. C. 1134j.

NOTE: In §§ 70.5 to 70.139, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Manual for Banks for Cooperatives, issued as of September 15, 1940, except the last two paragraphs of § 70.5 which appear in the Manual as sections 6 and 7, and the last paragraph of § 70.46 which appears in the Manual as section 47.

§ 70.5 *Nonproducer ownership of voting media in cooperative associations.* Loans may not be made to a cooperative association, except a mutual fire insurance company, unless at least 90 percent of the voting media are held by either producers (individuals, partnerships, or corporations), or cooperative associations as defined in the Agricultural Marketing Act, as amended (see sec. 15, 46 Stat. 18 as amended; 12 U. S. C. 1141j).

In determining eligibility, all business transacted with members that are neither producers, nor cooperative associations as defined in the Agricultural Marketing Act, as amended, shall be deemed to be nonmember business.

Loans may not be made to a mutual fire insurance company unless at least 75 percent of the voting media are held by either producers (individuals, partnerships, or corporations), or cooperative associations as defined in the Agricultural Marketing Act, as amended.

§ 70.43 *Loans entitled to commodity loan interest rate.* No borrower from a bank for cooperatives shall be entitled to the interest rate prescribed in subsection (a) of section 8 of the Agricultural Marketing Act, as amended (Sec. 8, 46 Stat. 14, sec. 11, 49 Stat. 316; 12 U. S. C. 1141f, and Sup.), on any loan made upon the security of commodities, unless the following terms and conditions are complied with:

(a) Each loan shall be secured by a first lien on farm products or farm supplies, approved by the Cooperative Bank Commissioner, of sufficient value at the time the loan is made (as determined by the bank) to afford an adequate margin of security without the necessity for additional collateral or other kinds (liens for accrued storage or warehouse charges

and taxes not yet due will not be considered as prior liens: *Provided*, The bank is satisfied that adequate arrangements have been made to assure the payment of such charges, when and as the same become due and payable);

(b) The loan shall mature within the normal marketing period of the commodities securing the loan; and

(c) The proceeds of the loan shall not be used for the construction or acquisition by purchase or lease of physical facilities, or for refinancing the cost of construction or acquisition of such facilities.

(d) Such loans shall not be made on changing stocks of goods.

§ 70.46 *Eligible commodities. Until* further notice and within the limits of § 70.43 farm products and farm supplies coming within the general classifications listed below may be accepted as security for loans entitled to the interest rate prescribed in subsection (a) of section 8 of the Agricultural Marketing Act, as amended (Sec. 8, 46 Stat. 14, sec. 11, 49 Stat. 316; 12 U. S. C. 1141f), for loans made upon the security of commodities, when the products or supplies are marketable and generally are in bulk storage.

Loans made on the security of commodities or supplies not coming within the general classifications listed below shall not be entitled to the interest rate prescribed in subsection (a) of section 8 of the Agricultural Marketing Act, as amended, for loans made upon the security of commodities.

§ 70.90 *Interest rate on continental loans for financing operations.* The rate of interest on all loans, other than upon the security of commodities, made on or after February 24, 1939, by any district bank for cooperatives, the Central Bank for Cooperatives, or from the Revolving Fund authorized by the Agricultural Marketing Act (sec. 7, 46 Stat. 14; 12 U. S. C. 1141e), as amended, for the purposes specified in section 7 (a) (1) of that act, shall be 2½ percent per annum.

§ 70.90–50 *Interest rate on Continental Commodity Loans.* Except as specified in § 70.90–51, and except as provided in this section with respect to the Berkeley Bank for Cooperatives, the rate of interest on all loans upon the security of commodities made on or after February 24, 1939, by any district bank for cooperatives, the Central Bank for Cooperatives, or from the Revolving Fund authorized by the Agricultural Marketing Act (sec. 7, 46 Stat. 14; 12 U. S. C. 1141e), as amended, for the purposes specified in section 7 (a) (1) of that act, shall be 1½ per centum per annum. The rate of interest on all such loans made on or after March 1, 1947, by the Berkeley Bank for Cooperatives shall be 1¾ per centum per annum.

§ 70.90–51 *Interest rate on loans secured by Commodity Credit Corporation loan documents.* The rate of interest on loans made on or after May 10, 1944, by any district bank for cooperatives or the Central Bank for Cooperatives to eligible farmers' cooperatives, upon the security of the following types of Commodity Credit Corporation loan documents, shall be 1.00 per centum per annum:

(a) Those representing loans made by such farmers cooperatives as lending agents pursuant to agreements entered into with Commodity Credit Corporation and which are evidenced by notes of their producer members or farmer patrons, and qualified for purchase by and sale to Commodity Credit Corporation:

(b) Those representing cotton qualified for loans from Commodity Credit Corporation to such farmers' cooperatives pursuant to agreements entered into with Commodity Credit Corporation.

§ 70.90–52 *Interest rate on continental facility loans.* On and after February 1, 1946, the interest rate on all facility loans made or then outstanding in the continental United States by the district banks for cooperatives and the Central Bank for cooperatives shall be three and one-half per centum per annum.

§ 70.90–53 *Interest rate on commodity loans in Puerto Rico.* The rate of interest on all loans upon the security of commodities made on or after February 24, 1939, for the purposes specified in section 7 (a) (1) of the Agricultural Marketing Act (sec. 7, 46 Stat. 14; 12 U. S. C. 1141e), as amended, by the Baltimore Bank for Cooperatives to borrowers located in Puerto Rico shall be 2 percent per annum.

§ 70.90–54 *Interest rate on loans in Puerto Rico for financing operations.* The rate of interest on all loans made on or after February 24, 1939, for the purposes specified in section 7 (a) (1) of the Agricultural Marketing Act (sec. 7, 46 Stat. 14; 12 U. S. C. 1141e), as amended, other than upon the security of commodities, by the Baltimore Bank for Cooperatives to borrowers located in Puerto Rico, shall be 3 percent per annum.

§ 70.90–55 *Interest rate on facility loans in Puerto Rico.* On and after February 1, 1946, the interest rate on all facility loans made or then outstanding in Puerto Rico by the Baltimore Bank for Cooperatives and the Central Bank for Cooperatives shall be four per centum per annum.

§ 70.128 *Capital stock ownership required of borrowing cooperatives.* Cooperative associations borrowing from a bank for cooperatives shall be required to own, at the time the loan is made, an amount of stock of the bank as follows:

(a) *Operating capital and facility loans.* An amount of stock of the bank equal in fair book value (not to exceed par), as determined by the bank, to $100 per $2,000 or fraction thereof of the amount of the loan.

(b) *Commodity loans; loans secured by Commodity Credit Corporation documents.* An amount of stock equal in fair book value (not to exceed par), as determined by the bank, to $100 per $10,000 or fraction thereof of the amount of the loan(s) (exclusive of any loans made for the purchase of stock); *Provided, however*, That stock owned by a borrower in connection with any operating capital or facility loan(s) may be regarded as meeting the stock ownership requirements in connection with either commodity loans or "Commodity Credit Corporation secured" loans, to the extent that such stock equals $100 per $10,000 of the sum of such commodity or "Commodity Credit Corporation secured" loan(s).

§ 70.139 *Stock of defaulting borrowers.* (a) In any case where the debt of a borrower to the Central Bank for Cooperatives or any district bank for cooperatives is in default, such bank may retire and cancel all or a part of the stock of the defaulting borrower at the fair book value thereof (not exceeding par), in total or partial liquidation of the debt, as the case may be, if:

(1) The borrower has been declared bankrupt; or

(2) The borrower has had a substantial part of its property placed in the hands of a receiver; or

(3) The borrower has ceased operations, regardless of whether its charter has been surrendered; or

(4) In the judgment of the bank, the the indebtedness of the borrower to the bank is uncollectible.

(b) Any such stock that is so cancelled and retired may not again be reissued to the borrower.

71.25 Lending limits of district banks for cooperatives.
71.25–50 Excess loans district banks; sale of participations.
71.28 Territorial limitations on loans to cooperative associations made by the banks for cooperatives.
71.29 Appraisal and/or loan fees charged by the banks for cooperatives.
71.30 Relation of cooperative associations to general farm organizations.

Sec.
71.39 Policy on retirement of nonproducer ownership of voting media in cooperative associations.

AUTHORITY: §§ 71.25 to 71.39, inclusive, issued under secs. 34, 38, 48 Stat. 262, 264, as amended; 12 U. S. C. 1134j.

NOTE: In §§ 71.25 to 71.39, inclusive, the numbers to the right of the decimal point correspond with the respective section numbers in the Manual for Banks for Cooperatives, issued as of September 15, 1940.

§ 71.25 *Lending limits of district banks for cooperatives.* Except with the written approval of the Cooperative Bank Commissioner, the lending limits of each district bank for cooperatives are hereby fixed so that loans to any one borrower outstanding at any time may not exceed the following percentages of the bank's combined capital, surplus, and reserve for contingencies:

(a) Facility loans, 10 percent;

(b) Operating capital loans, 15 percent;

(c) Commodity loans (excluding loans secured by Commodity Credit Corporation documents), 25 percent;

(d) The sum of facility and operating capital loans, 15 percent;

(e) The sum of facility, operating capital, and commodity loans (excluding loans secured by Commodity Credit Corporation documents), 25 percent.

§ 71.25–50 *Excess loans district banks; sale of participations.* The district bank shall request the Central Bank for Cooperatives (or, when approved by the Cooperative Bank Commissioner, another district bank) to participate in the extension of credit for amounts which exceed the lending limits set forth in § 71.25, and, except when otherwise agreed, such participation shall take place in the following order: First, commodity loans; second, operating capital loans; and third, facility loans. Nothing contained in this section or in § 71.25 shall be construed to prevent a district bank for cooperatives from requesting the Central Bank for Cooperatives (or, when approved by the Cooperative Bank Commissioner, another district bank) to participate in the extension of credit to any borrower before its lending limits are reached.

§ 71.28 *Territorial limitations on loans to cooperative associations made by the banks for cooperatives.* A bank for cooperatives should make loans only to cooperative associations operating within, or with headquarters in, the farm credit district served by the bank for cooperatives. A bank for cooperatives may make loans to an association operating in or with headquarters in, another farm credit district under the following conditions:

(a) That the interests of the borrowing cooperative would best be served.

(b) That the bank for cooperatives in the farm credit district in which the cooperative association is located and the Farm Credit Administration at Washington, D. C., agree thereto.

Cooperative associations operating in more than one farm credit district should apply for loans to the bank for cooperatives in the district in which the principal operating office of the cooperative association is located.

§ 71.29 *Appraisal and/or loan fees charged by the banks for cooperatives.* As a general policy appraisal and/or loan fees not to exceed one-half of 1 percent of the amount of a loan applied for may be charged by the banks for cooperatives to applicant associations.

§ 71.30 *Relation of cooperative associations to general farm organizations.* The requirement that membership in a cooperative association is limited to persons who are members of a general farm organization shall not make such cooperative association ineligible to borrow from a bank for cooperatives; *Provided:*

(a) That the applicant cooperative association does not collect from its members (by deductions from sales proceeds or from patronage dividends or otherwise) dues payable by such members to a general farm organization, except where the members from whom such dues are so collected have individually and specifically, and in a manner satisfactory to the bank for cooperatives, authorized the cooperative association to collect and pay such dues to the farm organization concerned.

(b) That the applicant cooperative association will agree, at the request of the bank for cooperatives, to serve qualified nonmembers of the association who do not desire membership in the general farm organization concerned, and to handle (within the limitations of the Agricultural Marketing Act (46 Stat. 11–19; 12 U. S. C. 1141–1141j), as amended, such nonmember business as may be necessary to serve such producers who have no other opportunity to market their products, or purchase their supplies, cooperatively.

§ 71.39 *Policy on retirement of nonproducer ownership of voting media in cooperative associations.* If all the voting media of a cooperative association borrowing from a bank for cooperatives, except a mutual fire insurance company, are not held by either producers (individuals, partnerships, or corporations), or cooperative associations as defined in the Agricultural Marketing Act, as amended, (sec. 15, 46 Stat. 18; 12 U. S. C. 1141j), the bank, as a matter of policy, should suggest or insist upon the adoption by the cooperative of satisfactory measures designed to assure that substantially all voting media will be so held.

Subchapter G—Regional Agricultural Credit Corporations

PART 90—ORGANIZATION, FUNCTIONS, AND PROCEDURES OF REGIONAL AGRICULTURAL CREDIT CORPORATION OF WASHINGTON, D. C.

Sec.
90.1 Organization.
90.2 Functions and procedure.

AUTHORITY: §§ 90.1 and 90.2 issued under sec. 201 (e), 47 Stat. 713, as amended; 12 U. S. C. 1148.

§ 90.1 *Organization*—(a) *Central organization.* The Regional Agricultural Credit Corporation of Washington, D. C., is a corporation chartered by the Farm Credit Administration under sec. 33, 50 Stat. 717; 12 U. S. C. 1148c. Originally there were twelve regional agricultural credit corporations created under sec. 201 (e), 47 Stat. 713, as amended, 12 U. S. C. 1148, but all of them have been consolidated or merged into the Regional Agricultural Credit Corporation of Washington, D. C., pursuant to sec. 33, 50 Stat. 717; 12 U. S. C. 1148c. The principal office of the Corporation is located in Washington, D. C., with the Farm Credit Administration. All of the capital stock of the Corporation is held by the Secretary of the Treasury on behalf of the United States. The Corporation is empowered to make loans to farmers and stockmen for agricultural purposes. The directors and officers of the Corporation are appointed by the Farm Credit Administration. The board of directors of the Corporation, has general management of its affairs, and the president of the Corporation is its chief executive officer. The Corporation's loan committee passes on applications for loans and related matters referred to the principal office.

(b) *District offices.* When the Regional Agricultural Credit Corporation is engaged in a loan program in any particular area, it utilizes the farm credit district office serving that area (see §§ 8.1 and 8.2 of this chapter) as its district office, and utilizes the personnel and facilities of the farm credit district institutions. The district office of the Corporation is under the direction of a district vice president who is aided by an assistant district vice president and by local representatives as needed. Persons interested in learning the name and location of the local representative serving any particular county may obtain this information by writing to the district office of the Corporation serving the State in which the county is located, or by writing to the Regional Agricultural Credit Corporation of Washington, D. C., Farm Credit Administration, Washington, D. C.

(c) *Wenatchee Branch Office.* The Corporation has a branch office known as the Wenatchee Branch which makes loans to fruit growers in Chelan, Okanogan, Douglas, and Grant Counties in the State of Washington. The office of the Wenatchee Branch is located in Spokane, Washington. The Wenatchee Branch is managed by a manager under the general direction of a branch committee.

§ 90.2 *Functions and procedures.* (a) The Regional Agricultural Credit Corporation of Washington, D. C., is empowered to make loans to farmers and stockmen for agricultural purposes in accordance with sec. 201 (e), 47 Stat. 713, as amended; 12 U. S. C. 1148. Loans from the Corporation are made available from time to time in areas where adequate credit for agricultural purposes is not then available from other sources. Accordingly, new loans from the Corporation are made available only in specified areas and for specified purposes designated from time to time, and are made only to applicants who are unable to obtain suitable financing from other sources. New loans have been made

available during 1946 in the following areas for the following purposes:

Area and Purposes

(1) Chelan, Okanogan, Douglas, and Grant Counties, State of Washington (Wenatchee Branch Office): Fruit production.

(2) Accomac and Northampton Counties, State of Virginia (Baltimore, Md., District Office): Production of certain vegetable crops.

The Corporation is also engaged in liquidating loans previously made throughout the United States. Where necessary, additional loans may be made to assist in the liquidation of outstanding loans.

(b) Applications for loans in the area served by the Wenatchee Branch Office should be submitted to that office. Such applications are approved or rejected by the branch committee of that office. Applications for loans in other areas where loans are made available should be submitted to the local representative of the Corporation or to its district office. The district vice president is authorized to approve or reject loan applications, except those in excess of specified amounts which require further approval by the principal office, and he may delegate such authority to the assistant district vice president.

(c) Loan applications are made on prescribed forms in which the applicant gives information as to the purposes and amounts of the loan desired, his farming facilities, the security offered, the anticipated sources of repayment, and his financial condition. The applicant must also submit evidence of his inability to obtain suitable financing from other local sources. The terms and conditions on which loans are made are prescribed or approved by the Farm Credit Administration and are contained in subsequent Parts of this Subchapter of the Code of Federal Regulations.

(d) Requests for cancelation of obligations for special war crop advances made in 1943 (see § 96.200 (b) of this chapter) should be submitted to the local representative of the Corporatiton or to its district office. The district vice president has authority to approve or disapprove such requests for cancelation and he may delegate this authority to the assistant vice president. Such requests for cancelation are made on prescribed forms in which the applicant gives information regarding his fulfillment of the conditions required for cancelation.

PART 91—LENDING POLICIES

Sec.
- 91.1 Loans.
- 91.2 Purposes for which loans may be made.
- 91.3 Present status.
- 91.4 Qualifications as lending agencies re wool loan program.
- 91.5 Size of loans.
- 91.6 Maturity of loans.
- 91.7 Split lines.
- 91.8 Special requirements.
- 91.9 Renewals.
- 91.10 Interest rate.
- 91.11 Inspection fees.

AUTHORITY: §§ 91.1 to 91.11, inclusive, issued under sec. 201 (e), 47 Stat. 713; 12 U. S. C. 1148.

§ 91.1 *Loans*—(a) *Borrowers to whom loans may be made.* Regional agricultural credit corporations are authorized to make loans or advances to individual farmers and stockmen, partnerships and corporations engaged in the business of farming or raising, breeding, fattening, or marketing of livestock. Canners, packers, processors, commission merchants, etc., are ineligible. Also, the regional agricultural credit corporations will not make loans to cooperatives.

(b) *Method of handling loans.* All transactions of any one borrower should be handled by one office.

§ 91.2 *Purposes for which loans may be made.* Loans or advances to farmers and stockmen are to be made only where the proceeds of the loans are to be used for agricultural purposes (including crop production) or for the raising, breeding, fattening, or marketing of livestock.

§ 91.3 *Present status.* The regional agricultural credit corporations' present status is one of liquidation and applications only for the renewal of outstanding loans or for readjustment and restocking in specified areas, which have been affected by insect infestation and drought, will be received and acted on at the offices of the corporations.

§ 91.4 *Qualification as lending agencies re wool loan program.* Regional agricultural credit corporations, including their branches, have been instructed to qualify as lending agencies on Commodity Credit Corporation Form H and are authorized to make loans to regional agricultural credit corporation producer borrowers on 1937–38 wool and/or mohair in storage in accordance with the Commodity Credit Corporation wool loan program.

CROSS REFERENCE: For Commodity Credit Corporation wool loan program, 1937–38, see Part 202, Chapter II of this title.

§ 91.5 *Size of loans*—(a) *Livestock loans.* Regional agricultural credit corporations are not authorized to make, or commit themselves to make, any livestock loan in the amount of $50,000 or more until all the facts in connection with the application shall have been presented (with an appropriate recommendation and a statement of any necessary conditions to be imposed) to the Farm Credit Administration, and its approval obtained. In all instances where the aggregate loans to a borrower (individually and/or jointly with others) and/or to any corporation controlled by such borrower, equal or exceed $50,000, a report covering all such loans should be forwarded to the Farm Credit Administration.

(b) *Agricultural loans.* The corporations are not authorized to make, or commit themselves to make, any agricultural loan in the amount of $15,000 or more until all the facts in connection with the application shall have been presented (with an appropriate recommendation and a statement of any necessary conditions to be imposed) to the Farm Credit Administration, and its approval obtained. In all instances where the aggregate loans to a borrower (individually and/or jointly with others) and/or to any corporation controlled by such borrower, equal or exceed $15,000, a report covering all such loans should be forwarded to the Farm Credit Administration.

(c) *Restocking loans.* There is a minimum limitation of $5,000 on restocking and readjustment loans. All recommended applications for such loans, whether made by present borrowers or new applicants, are required to be submitted to the Washington office of the Farm Credit Administration for approval before commitment of the corporation is made. Such loans are available only in certain specified areas.

§ 91.6 *Maturity of loans*—(a) *Livestock loans.* It is contemplated that the following will be the maximum maturities for livestock loans:

Range and breeder loans: One year.

Pasture loans: One year, or an earlier point of time coincidental with the expected time for marketing the livestock.

Feeder loans: Eight months, or an earlier period of time coincidental with the expected time for marketing the livestock.

(b) *Agricultural loans.* No agricultural loan should be made with a maturity to exceed one year, unless a later maturity is specifically authorized by the Farm Credit Administration; and it is contemplated that such loans will usually be made for the period of time such loans are customarily made in the locality, or drawn to mature at such time as liquidation of the loans will be expected.

(c) *Restocking loans and all other loans not specifically mentioned.* These loans are limited in the same manner and to the same term, to wit: one year, as agricultural and livestock loans.

§ 91.7 *Split lines.* Regional agricultural credit corporations shall not handle "split lines" of credit. A regional agricultural credit corporation should either meet all of the applicant's financing requirements or none of them.

§ 91.8 *Special requirements.* In connection with any new loans made with cattle as security therefor, or renewals of old loans in which cattle are any part of the security, the regional agricultural credit corporation requires the borrower to execute, in addition to the note and mortgage evidencing the debt, a collateral undertaking in which the borrower agrees that, in the event any cattle belonging to him are infected with Bang's disease and are sold in accordance with the terms of a contract with the Agricultural Adjustment Administration, executed in furtherance of this proposed program of eradication, and an indemnity payment is received in connection with the elimination of such cattle, the borrower will (a) apply such indemnity payment towards the purchase of sound cattle of the same type, grade, and approximate value as those sold under the proposed program, and subject the cattle so purchased as security for the loan, as if pledged for the repayment of the loan at the time of the making thereof; and/or (b) apply such indemnity payment to the reduction of his debt.

§ 91.9 *Renewals.* At no time should paper be renewed (except where renewal will facilitate liquidation or pending action by a production credit association) until the regional agricultural credit corporation office is reasonably certain that the borrower is unable to obtain credit elsewhere and then only under express agreement that he will attempt to refinance elsewhere when asked to do so.

§ 91.10 *Interest rate.* The interest rate for agricultural loans is the same as that provided for livestock loans.

Effective June 1, 1940, the rate of interest on all loans now outstanding bearing a rate of interest in excess of 5½ percent per annum, and the rate of interest on all loans hereafter made or renewed, shall be 5½ percent.

§ 91.11 *Inspection fees.* Effective June 1, 1934, the corporations will charge borrowers for actual cost of inspections not to exceed rate charged by production credit associations in same areas, this charge to be made only on normal and regular inspections made necessary in handling, extending, renewing or increasing loans and not for interim inspections made solely for the purpose of keeping in touch with status of loan between regular inspections.

PART 92—LOANS, TYPES AND KINDS; ELIGIBILITY OF BORROWERS

Sec.
- 92.1 Agricultural loans.
- 92.2 Livestock loans.
- 92.3 Special types and kinds; eligibility of poultry raisers.
- 92.4 Silver fox growers.
- 92.5 Nurserymen.
- 92.6 Indians.
- 92.7 Corporations.

AUTHORITY: §§ 92.1 to 92.7, inclusive, issued under sec. 201 (e), 47 Stat. 713; 12 U. S. C. 1148.

§ 92.1 *Agricultural loans.* The term "agricultural loan" is used to designate a loan made for an agricultural purpose to an individual farmer or a partnership or corporation (other than a cooperative corporation) engaged in the business of farming. Such loans will include loans or advances secured by liens on growing crops or other property, for the purpose of defraying the cost of seed and cultivation; loans for harvesting, likewise secured by liens on crops; marketing loans secured by warehouse receipts (preferably issued by warehouses licensed under the U. S. Warehouse Act (39 Stat. 486; 7 U. S. C. 241–273)) covering agricultural commodities; and "barnyard loans", or loans secured by first mortgage liens on milch cows, hogs, work horses, mules, equipment and small stock.

§ 92.2 *Livestock loans.* The term "livestock loan" is used to designate a loan to a livestock grower, feeder, or breeder secured by a first lien on livestock, where the loan is expected to be repaid through funds obtained from: (a) the sale of the livestock and/or the increase and other available sources, in the case of a range or breeder loan, or (b) the sale of fat cattle and sheep, in the case of a feeder or pasture loan.

§ 92.3 *Special types and kinds; eligibility of poultry raisers.* Poultry raisers are farmers and, as such, eligible to apply to the regional agricultural credit corporations for poultry loans. Commercial hatcheries, engaged primarily in the business of producing and selling baby chicks, are not so considered.

The term "poultry loans" is used to designate loans which are secured primarily by liens on poultry and on the feed and equipment used in producing the same, as distinguished from so-called "barnyard loans", or loans "secured by first mortgage liens on milch cows, hogs, work horses, mules, equipment and small stock". The term "poultry raiser" is used to designate an applicant engaged primarily in the business of producing poultry and not merely following such pursuit for the purpose of providing supplementary income.

§ 92.4 *Silver fox growers.* Silver fox growers may be considered eligible as borrowers from regional agricultural credit corporations, where silver foxes are given as security for the loans.

§ 92.5 *Nurserymen.* Nurserymen engaged in the culture or propagation of ornamental shrubs and trees, and other products usually included in standard nurseries, as well as other products having "utilitarian value" such as fruit trees and evergreens are eligible for loans which are required to be within amounts which will be paid from expected sales to be made within one year from the date the loan is made.

§ 92.6 *Indians.* Loans to Indians should be made only upon the security of the so-called "unrestricted" property, located on a Government Indian reservation.

§ 92.7 *Corporations.* A corporation is considered to be a "farmer" or "stockman" only if its principal business is that of farming and/or raising, breeding, fattening and marketing of livestock.

PART 93—APPLICATION OF PROCEEDS OF SALE

§ 93.1 *Disposition of proceeds of sale.* All proceeds of sale should be applied on the loan affected and the borrower permitted, when desired, to make application for an additional loan under the additional advance clause contained in the mortgage. (Sec. 201 (e), 47 Stat. 713; 12 U. S. C. 1148)

PART 94—SECURITY REQUIREMENTS

§ 94.1 *Security requirements.* All loans made by the regional agricultural credit corporations shall be fully and adequately secured. Primary security to be acceptable must consist of first and paramount liens on personal property. It is not the intention that loans shall be secured primarily by mortgages or other liens on real estate, either farms or ranches; and while this class of security is acceptable as additional collateral, it is only to be so considered. (Sec. 201 (f), 47 Stat. 713; 15 U. S. C. 605b (f))

PART 95—LOANS FOR SPECIAL AREAS

Sec.
- 95.1 Loans in the Wenatchee-Okanogan District, State of Washington, and in the Counties of Yakima, Kittitas, Skamania, Klickitat, and Benton, in the State of Washington, and the County of Hood River, in the State of Oregon.
- 95.2 Eligible borrowers.
- 95.3 Loan purposes.
- 95.4 Applications.
- 95.5 Use of loan proceeds; right to withhold advances.
- 95.6 Adequacy of credit.
- 95.7 Security.
- 95.8 Loans to corporations.
- 95.9 Other creditors.
- 95.10 Packing and marketing of fruit.
- 95.11 Factors.
- 95.12 Sales of fruit; remittance of proceeds.
- 95.13 Interest and other charges.
- 95.14 Reserve fund.
- 95.15 Additional regulations; amendments.
- 95.16 Section 91.5 (b) not applicable to Wenatchee Branch.

AUTHORITY: §§ 95.1 to 95.16, inclusive, issued under sec. 201 (e), 47 Stat. 713; 12 U. S. C. 1148.

§ 95.1 *Loans in the Wenatchee-Okanogan District, State of Washington, and in the Counties of Yakima, Kittitas, Skamania, Klickitat, and Benton, in the State of Washington, and the County of Hood River, in the State of Oregon.* The Wenatchee Branch of the Regional Agricultural Credit Corporation of Washington, D. C. (hereinafter referred to as "the Wenatchee Branch"), is authorized to make loans during the 1941–1942 and the 1942–1943 crop seasons to fruit growers (a) in the Counties of Okanogan, Chelan, Douglas, and Grant, in the State of Washington (known as the Wenatchee-Okanogan District), and (b) subject to the limitation in § 95.3, in the Counties of Yakima, Kittitas, Skamania, Klickitat, and Benton, in the State of Washington, and the County of Hood River, in the State of Oregon.

§ 95.2 *Eligible borrowers.* Farmers (including orchardists and fruit growers) are eligible to borrow from the corporation when they can qualify under the terms and conditions set forth herein and in the application and agreements required by the Wenatchee Branch to be executed in connection with such loans. Loans shall be made direct to borrowers and the Wenatchee Branch shall not discount notes for any other financing institution. Borrowers shall be required to cooperate in such program or programs as may be promulgated by or developed in cooperation with the United States Department of Agriculture, and to comply with Federal and State requirements now in effect or hereafter promulgated, with respect to sanitation, grading, packing and marketing of fruit.

§ 95.3 *Loan purposes.* Loans may be made to finance the production, harvesting, packing, storing, and marketing of fruit, including the care and preservation of orchards as well as the reasonable living expenses of the operator, under terms and conditions prescribed by the Wenatchee Branch Committee. Loans may be made also for the purchase and repair of equipment, for rehabilitation

of orchards, and for such other purposes, including (but not by way of limitation) the processing of apple by-products, as may be approved by the Wenatchee Branch Committee, provided loans to fruit growers in the Counties of Yakima, Kittitas, Skamania, Klickitat, and Benton, in the State of Washington, and the County of Hood River, in the State of Oregon, shall be limited to the processing, packing, storing and marketing of apple by-products, the purchase and repair of equipment used in connection with such operations and the reasonable living expenses of the operator-borrower, all of which loans shall be in accordance with the terms and conditions prescribed by the Wenatchee Branch Committee.

§ 95.4 *Applications.* Each application (to be presented in triplicate) for a season's financing shall be accompanied by figures for an operating budget. Applicants will be required to agree to pursue approved agricultural and horticultural practices and to harvest, pack and market their fruit in a manner and upon terms approved by the Wenatchee Branch.

§ 95.5 *Use of loan proceeds; right to withhold advances.* Each applicant for a loan will be required to agree to use the proceeds of his loan in accordance with the terms of his operating budget approved by the Wenatchee Branch. All commitments as to future advances shall be optional with the lender. By making advances the Wenatchee Branch shall not be deemed nor held to have obligated itself to the making of any other or further advances.

§ 95.6 *Adequacy of credit.* Each applicant will be required to furnish evidence satisfactory to the Wenatchee Branch that the amount of his loan, together with other available resources, will be sufficient to finance the production, harvesting, and packing of his fruit crop in accordance with approved standards.

§ 95.7 *Security.* All notes shall be secured by (a) crop liens or mortgages conveying a first and paramount lien on crops grown or to be grown during the current season, or (b) liens on other personal property, such as farm and orchard machinery, equipment and livestock; or (c) liens on real estate; or (d) liens on either or all the above classifications of property, any of which may be accepted as primary security.

§ 95.8 *Loans to corporations.* Notes of each corporate borrower shall be endorsed or guaranteed by the holder or holders of at least a majority of the outstanding shares of voting stock of such corporate borrower; or, at the option of the Wenatchee Branch, by the principal stockholder or stockholders: *Provided*, That in lieu of endorsements upon the notes such stockholders may execute a continuing guaranty of all indebtedness of such borrower to the Wenatchee Branch and to its successors or assigns. At the option of the Wenatchee Branch, the shares of capital stock owned by the endorsing or guaranteeing stockholders shall be pledged as security for the loan.

§ 95.9 *Other creditors.* As a condition to the granting of a loan, the Wenatchee Branch may require the applicant to obtain from all creditors, whether secured or unsecured, such waivers and subordinations as in the opinion of the Wenatchee Branch are necessary to afford it a first and paramount lien upon the crops to be produced and any chattels or other property offered or required as security for its advances; and also may require standstill and nondisturbance agreements executed by the holders of chattel and real estate mortgages constituting liens upon the orchard or other property. All such waivers and agreements shall be so drawn as to remain in effect so long as the Wenatchee Branch, or its assignee, is a creditor of the borrower.

§ 95.10 *Packing and marketing of fruit.* Each applicant for a loan will be required to agree that he will pack and offer for sale only such grades and varieties of fruit as may be designated or approved by the Wenatchee Branch, and that he will conform to a program approved by the Wenatchee Branch for the disposition of less desirable grades and varieties.

§ 95.11 *Factors.* Borrowers will be required to arrange for the packing, storing, and marketing of their fruit by factors whose facilities, methods, and charges have been approved by the Wenatchee Branch.

§ 95.12 *Sales of fruit; remittance of proceeds.* Each borrower and each marketing agency will be required to agree to market all fruit in accordance with a marketing program satisfactory to the Wenatchee Branch. All net proceeds of sales of pledged fruit will be required to be remitted to the Wenatchee Branch by the marketing agency, which shall furnish accounts of sales showing the quantity, grade and variety of fruits sold, to whom sold, prices received, selling charges and other costs deducted, and the net proceeds remitted.

§ 95.13 *Interest and other charges.* Each borrower will be required to reimburse the Wenatchee Branch for the actual cost of title examination and the recordation of necessary legal instruments incidental to the loan. Interest will be charged on all loans and advances at the rate of 5½ percent per annum. An additional charge of ½ of 1 percent of the amount lent, to be deducted from the proceeds of the loan, will be made to reimburse the Wenatchee Branch for a portion of the cost of horticultural and supervisory services furnished by it.

§ 95.14 *Reserve fund.* Each applicant for a loan will be required to agree to participate in the creation of a reserve fund, to be established, held and administered in the following manner:

(a) There shall be deducted from the net sales proceeds of all pledged fruit the sum of 2 cents per packed box or its equivalent of packed fruit sold and 2 cents per field box or its equivalent for all fruit otherwise sold. Such deduction shall be made by the Wenatchee Branch from remittances received by it.

(b) The fund so created may be deposited in a Federal Reserve Bank, in a separate account, or the funds may be deposited with the Treasurer of the United States in the symbol finance account, together with other moneys, subject to the order of the Wenatchee Branch and held by it for the following purposes:

(1) To indemnify the Wenatchee Branch for any credit losses on loans made to fruit growers in the Wenatchee-Okanogan area, and in the Counties of Yakima, Kittitas, Skamania, Klickitat, and Benton, in the State of Washington, and the County of Hood River, in the State of Oregon. The Wenatchee Branch shall be authorized to charge against such fund any and all credit losses as determined by it;

(2) After all loans made by the Wenatchee Branch have been liquidated and all losses chargeable to the reserve fund have been determined and deducted therefrom, the balance shall be held for a reasonable time by the Wenatchee Branch available for the development of a comprehensive long-range program (including the establishment of a credit corporation to finance growers' production needs) when such program for the benefit of the fruit industry of the area is fixed and determined by a majority of the contributing interested growers in cooperation with the United States Department of Agriculture or otherwise. Upon the determination of such a program, the Wenatchee Branch shall be authorized to pay the balance of the reserve fund to the institution and/or institutions and/or agencies designated thereunder.

§ 95.15 *Additional regulations; amendments.* The right is reserved to amend the regulations in this part without notice, and to prescribe such additional rules and regulations as may be deemed necessary to protect the interests of the Wenatchee Branch and to make its lending program effective. If the Wenatchee Branch, with the approval of the Farm Credit Administration, continues to finance fruit production in the Wenatchee-Okanogan District after the close of the 1941–1942 season, the rules and regulations in this part, as amended, shall extend to such future financing in the same manner and to the same extent as though specifically prescribed for that purpose.

§ 95.16 *Section 91.5 (b) not applicable to Wenatchee Branch.* Section 91.5 (b) of this chapter shall not be applicable to the loans made by the Wenatchee Branch of the Regional Agricultural Credit Corporation of Washington, D. C.

SUBPART A—AGRICULTURAL LOANS FOR MAXIMUM WAR PRODUCTION

§ 96.100 *Introduction.* As announced by the Secretary of Agriculture on January 21, 1943, a new source of agricultural credit at the county level is now available to farmers and stockmen through the Production Loans Branch of the Food Production Administration to assist in financing increased production of needed agricultural commodities. The program will be carried out in the manner outlined below; and loans shall be made in accordance with the terms and conditions herein set forth.

§ 96.101 *General policies.* The following general principles and policies will serve as a guide to the Corporation's representatives, and the chairmen of the war boards and their designees in determining, according to their best judgment, whether a loan should be made in the amount applied for, or in a smaller amount, or whether the application should be declined:

(a) The purpose of the program is to provide adequate financing to assure maximum wartime production of essential agricultural commodities; therefore, no loan shall be made unless it will enable the borrower to engage in or increase his production of essential agricultural commodities. All loans made under the program are expected to be repaid. To qualify for a loan the applicant's farming operations should show a reasonable probability of successful production and, together with the collateral security offered, should afford reasonable assurance that the indebtedness will be liquidated in due course. It should be kept in mind that the success of the program depends largely upon the expeditious consideration of each application and the prompt closing of all loans which are approved.

(b) This program is not a substitute for other sources of credit, nor is it intended to compete with other lenders. Its purpose is to supplement other sources of credit where needed. Each producer will be urged to obtain his financial requirements, if possible, from any bank, production credit association, or other lender, including the emergency crop and feed loan office if the loan is eligible. In order to assure that the foregoing policies are carried out, the county war boards in each county shall invite the county bankers' association (or the bankers in the county if there is no such association) to name a representative or a committee to meet from time to time with the chairman of the county USDA war board and representatives of other credit agencies operating in the county to discuss credit problems relating to maximum production and types of loans made by the different agencies, to coordinate loan policies, and to make sure that all legitimate credit requirements of farmers are met. Applications for loans from the Corporation will be taken only where the producer desires to be financed through this program and the loan representative of the Regional Agricultural Credit Corporation and the chairman of the county war board should satisfy themselves that each applicant for a Regional Agricultural Credit Corporation loan is not in position to obtain the credit he needs from other sources at reasonable rates and terms. The Corporation reserves the right to sell or assign, without recourse, any note acquired by it to any bank or other lending institution desiring to purchase the paper, subject to the written consent of the notemaker. A charge of one-half of one percent of the unpaid principal of the loan will be made by the Corporation to the purchaser of any such notes to reimburse the Corporation for expenses incurred in making the loan.

(c) This is not a program for refinancing existing indebtedness. The mere transfer of a debt from one creditor to another will not aid production. An exception is to be made where an applicant for a loan under this program is presently indebted to any regional agricultural credit corporation. In such cases the amount of any loan approved shall include an amount sufficient to retire such existing loan in order that all obligations due from any individual to a regional agricultural credit corporation will be concentrated in one corporation. All collateral securing an existing debt to a regional agricultural credit corporation shall be included in the security to the new loan.

(d) Loans will not be made for the purchase of real estate or for extensive permanent improvements upon the farm. Loans for repairs and needed minor improvements which will facilitate increased production and for the purchase of essential livestock (including dairy cattle), work stock, machinery, equipment, etc., may be made even though liquidation of that portion of the loan made for capital expenditures may require two or three years' time. Thus, the construction of a house or barn will not be financed but provision may be made for construction of facilities such as cribs or storage bins, small poultry houses, and similar structures which may be needed to assist production of essential agricultural commodities, and which do not involve heavy outlays of money. Where it is determined that the producer actually needs equipment, such as a tractor, combine, peanut picker, or similar items of machinery, and that his operations (including any custom work which may be available to him) will enable him to pay for such equipment in two or three years, purchases of such equipment may be financed.

(e) This loan program does not extend to fruit growers in Okanogan, Chelan, Douglas, and Grant Counties in the State of Washington, which area is now served by the Wenatchee, Washington, Branch of the Corporation. That office will continue to function under its present program. Any fruit grower in that area whose financial requirements (whether for fruit production or for other purposes) are brought to the attention of a County War Board or the local loan representative of the Corporation should be referred to the Wenatchee Branch Office.

(f) All credit information obtained in connection with any application for a loan shall be held in strict confidence by all representatives, officials, or other employees, who have occasion to handle such applications or other papers, and shall not be released or divulged except upon the specific approval of the president, a vice president, or the secretary of the Corporation.

§ 96.102 *Loans to be made through duly authorized loan representatives of the Regional Agricultural Credit Corporation of Washington, D. C.* (a) To expedite the handling of applications and closing of loans, arrangements have been made to have a loan representative of the Regional Agricultural Credit Corporation of Washington, D. C. (hereinafter referred to as "the Corporation") located in each agricultural county in the United States. Such representatives are designated by the County War Boards; but in emergency cases where immediate change in loan representatives is essential to the effectiveness of the program the Corporation may terminate the services of a representative and designate a temporary replacement for him to serve until an acceptable

representative can be appointed in the regular manner. The Corporation will provide for bonds or equivalent protection covering its representatives and custodians.

(b) The Corporation will maintain an office in each District Farm Credit Administration headquarters city, in charge of an official designated as a District Vice President. All communications and inquiries by loan representatives relative to operations of the Corporation under its food production financing programs should be addressed to the appropriate District Vice President.

(c) Each application for a loan which, if approved would cause the total of all the applicant's loans and advances outstanding from the Corporation (including any undisbursed proceeds of any loans or advances previously approved) to exceed $2,500 shall be referred to the District Vice President for approval or disapproval.

Loans which, together with all the applicant's other loans and advances outstanding from the Corporation (including any undisbursed proceeds of any loans or advances previously approved), do not exceed $2,500 will be closed upon approval by the designated loan representative of the Corporation and the Chairman of the County War Board (or by their respective alternates if such alternates have been duly designated and authorized to act).

(d) Each application referred to the District Vice President for approval or disapproval shall be accompanied by such inspection reports and other data as the District Vice President may require, and by the recommendations of the loan representative and Chairman of the County War Board.

(e) It is preferable, where an application requires approval above the county level, that the mortgage securing the proposed loan be not filed or recorded prior to advice of final approval. If the mortgage is prepared before the papers are submitted to the District Vice President for consideration, a copy thereof should accompany the papers. If the mortgage is to be drawn later, the papers submitted should include a list of the property to be covered by such mortgage. The District Vice President will return all papers to the loan representative, with advice of the action to be taken. Upon final approval by the District Vice President, the proceeds of loans will be disbursed by the loan representative and Chairman of the County War Board, in the same manner as other loans or advances are disbursed.

(f) When procedures are settled for the handling of loans which the County War Board determines require supervision of the type given by Farm Security Administration supervisors, definite instructions for the handling of such loans will be issued by the Corporation. It is anticipated that upon the issuance of such instructions, loans recommended by the War Board for such supervision will be supervised by Farm Security Administration supervisors in accordance with such instructions.

§ 96.103 *Collection of loans.* Instructions relative to collections of loans, remittance of proceeds, and releases of collateral will be issued at a later date.

Terms, Conditions, and Requirements of Loans

§ 96.104 *Eligible borrowers.* Loans may be made to actual producers only. These include any farmer, stockman, or poultry producer, including any partnership or corporation engaged in agricultural or livestock production. Canners, packers, or other processors, dealers, commission merchants, and commercial hatcheries, as such, are not eligible and loans shall not be made to finance their commercial or processing operations but may be made to finance farming or livestock production, as defined in § 96.105, in which they may be engaged. Loans also may be made to any local group of farmers or stockmen formed for the purpose of acquiring larger items of machinery or equipment, sires, etc., for common use among the group, provided all members of the group join in executing the note, mortgage, etc.

§ 96.105 *Loan purposes.* Loans may be made to finance production, harvesting, and marketing of crops, purchasing, raising, breeding, fattening, and marketing of livestock; production and marketing of poultry, poultry products, and dairy products; purchase and repair of equipment essential to the farmer's production program; and for other purposes directly related or incident to the farming or livestock enterprise, including necessary labor and farm living expenses. Such loans may include provision for payment of existing obligations incurred in connection with the current season's operations (such as the purchase of seed, feed, fertilizer, and the payment of accrued wages for farm labor performed in connection with the current year's operations); the payment of income taxes and current taxes on real and personal farm property; and the payment of current interest on mortgage indebtedness as well as current installments on any amortized farm mortgage loan.

Ordinarily, the payment of delinquent interest, delinquent taxes, or other obligations may not be included in the financing, but this may be done in special circumstances where only relatively small amounts need to be loaned for such purposes and it reasonably appears to the persons approving the loan that the existence of such obligations is likely to impede the applicant's ability to attain his maximum production of essential agricultural commodities.

In cases where funds are required to complete an operation already partially financed (for example, to complete cultivation and harvesting a crop or to finish feeding livestock, etc.), and where the crops or livestock are mortgaged to a creditor who is unable or unwilling to provide additional funds, it may be advisable to take up the existing indebtedness. In such cases, where the loan representative and chairman of the county war board agree that a loan should be made in order to attain maximum production of essential agricultural commodities the existing indebtedness may be refinanced as a part of the loan transaction, subject of course to all other provisions and limitations of these instructions.

§ 96.106 *Loans to tenant farmers and sharecroppers.* Loans to tenant farmers or sharecroppers shall be conditioned upon their furnishing, on forms prescribed by the Corporation, such waivers or subordinations of statutory or recorded liens as will afford the Corporation a first lien upon the specific crops being financed: *Provided*, That no waiver or subordination need be taken in any case in which the statutory or recorded lien is limited to a specified share of the crops and the tenant or sharecropper has an unencumbered interest in such crops which is not susceptible to the creation of a subsequent overriding lien and which is, in the opinion of the loan representative and chairman of the county war board, sufficient to secure the repayment of the loan. In this respect, the established practices of other prudent lenders operating in the territory in which the crops are grown should be followed.

§ 96.107 *Loans to corporations.* To be considered a "farmer" a corporation must be engaged in farming or in the breeding, raising, or fattening of livestock as a substantial part of its business enterprise, as distinguished from incidental farming operations. Notes of each corporate borrower shall be endorsed or guaranteed by the holder or holders of at least a majority of the outstanding shares of voting stock of such corporate borrower, or by the principal stockholder or stockholders: *Provided*, That, in lieu of endorsements upon the notes, such stockholders may execute a continuing guaranty of all indebtedness of such borrower to the Corporation. Copies of the form of guaranty to be used may be obtained from the office of the Regional Agricultural Credit Corporation of Washington, D. C.

§ 96.108 *Collateral security.* In general, the minimum collateral security required will be a first and paramount lien upon the crops to be produced, the chattels purchased, and the livestock or poultry in the production and care of which the proceeds of the loan are to be expended. If the loan includes refinancing of an existing regional agricultural credit corporation loan, the collateral securing the old obligation will be included in the security to the new loan. In those States where a crop lien cannot be obtained until actual growth has begun (such, for example, as Nebraska and Wisconsin), an agreement to execute a crop lien will be required, in form prescribed by the Corporation. Such other and additional collateral as the County War Board or the Corporation's loan representative may deem necessary or advisable to afford adequate protection for the debt may be accepted.

§ 96.109 *Interest.* All notes shall be drawn with interest at the rate of 5 per centum per annum payable at maturity. Interest will be charged only on the unpaid balance, from date of each advance to date of payment.

§ 96.110 *Maturity.* All notes shall be drawn with a maturity of one year or less. The maturity date should coincide as nearly as may be practicable with the usual time for marketing the crops or livestock from which liquidation is expected. Although it is recognized that in some instances a borrower may be unable to repay within one year the full amount advanced for the purchase of equipment or for other capital expenditures, the maturity date of the notes shall not be more than one year from the date of the loan. In addition to repaying funds advanced to cover current production costs, the borrower will be expected to repay in the first year at least one-third of the amount advanced for capital purposes. The unpaid balances of loans for capital expenditures may then be renewed or extended at maturity where other conditions surrounding the transaction are satisfactory. Instructions for the handling of renewals and extensions will be issued at a later date.

§ 96.111 *Forms and documents.* The Corporation, through the various production credit associations, will furnish its loan representatives and County War Boards with a supply of the following forms: (a) Application for loan; (b) promissory note; (c) chattel mortgage or comparable lien instrument; (d) agreement to give a crop lien; (e) form of waiver; (f) form of subordination agreement; (g) assignment of proceeds; and (h) blank drafts to be used in disbursing loan proceeds.

§ 96.112 *Use of forms.* The forms prescribed by the Corporation will be used as outlined below:

(a) *The application.* It is the purpose of the application to obtain in concise form a request for a loan; financial statement of the applicant; information as to the use to be made of the proceeds; the plan of repayment; and such other information as may be necessary to enable the Corporation's representative and the County War Board to pass upon the loan applied for and to determine whether such loan would enable the applicant to contribute to the production of essential agricultural commodities. The application should be prepared and signed in duplicate. The original is to accompany the note and other supporting instruments, which are to be forwarded to a designated production credit association or other custodian, to be held for the account of the Corporation, and the copy is to be retained in the office of the loan representative.

To facilitate identification of subsequent transactions, each loan representative should assign the state and county code and farm serial number to each application filed with him. Should additional applications be filed by the same borrowers, such applications should bear the same numbers as the originals, with the addition of a suffix letter. (For example, No. 37–12–145 A, B, etc.)

(b) *Promissory note.* All notes are to be drawn for the amount of the approved loan; notes are to be made payable "on or before (insert specific date)", such maturity date to be fixed by the Corporation's loan representative and to be not later than one year after date; are to be made payable to the Regional Agricultural Credit Corporation of Washington, D. C., and are to provide for interest at the rate of 5 per centum per annum from date, payable at maturity. The loan representative shall have both the husband and wife execute the note and mortgage in the case of loans made to a married person in the States of Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, and Washington.

All notes should bear the number assigned to the individual borrower's application. (See instructions as to numbering applications.) It is advisable to prepare the note in duplicate, one copy to serve as the record of the loan representative and County War Board. Only the original note should be signed.

One note should be taken for the full amount to be loaned, even though the proceeds are to be advanced in two or more installments. In connection with such installment advances, the loan representative will enter on the reverse side of the note, in the space provided therefor, the date and amount of the first advance, which must correspond to the amount of the draft or drafts given at the time the loan is made. Subsequent advances will be posted by the custodian and may also be entered on the copy retained in the county office.

(c) *Chattel mortage.* The chattel or crop mortgage should be prepared in triplicate (or in quadruplicate if the borrower requests a copy or if the State law as indicated on the forms of mortgages, requires the mortgagee to furnish a copy to the mortgagor) at least two copies of which should be executed by the borrower. One copy (usually the original) shall be filed or recorded with the local official responsible for keeping the official record of such security instruments. Filing or recording fees shall be paid by the borrower, and may be paid out of the proceeds of the loan. The second (signed) copy should be endorsed to show the date and place of filing of the original and shall accompany the note and other papers to be sent to the designated custodian. The third copy is intended for the files of the Corporation's loan representative in the county office.

(d) *Agreement to give a crop lien.* Where agreements to execute a crop lien at a later date are taken, they should be executed in duplicate, the original to accompany the note and other papers; the copy to be retained in the local office.

(e) *Waivers and subordinations.* Where an applicant has other creditors who have prior liens upon the crops or chattels which are to constitute the collateral security for a loan from the Corporation, the Corporation's loan representative will require the applicant to obtain such waivers and subordinations as will afford the Corporation a first and paramount lien upon the property involved. Where an existing lien covers property which is not to be given as security for the loan applied for, but the continued possession of which is essential to enable the producer to carry on his operations, it is suggested that consideration be given to the desirability of obtaining standstill or nondisturbance agreements executed by the holders of chattel or real estate mortgages, if deemed to be necessary to assure the use of such property during the life of the loan. Such waivers and agreements should be drawn to remain in effect for the term of the loan and, if deemed advisable, for any renewal or extension thereof. Such instruments should be executed in duplicate. The executed original should be attached to the note and other papers; the other copy to be retained in the local office.

(f) *Drafts.* When a loan has been approved, a draft or drafts on the form prescribed are to be drawn on the Regional Agricultural Credit Corporation of Washington, D. C., payable at a designated Federal Intermediate Credit Bank. Any proceeds of a loan to be paid to someone other than the borrower shall be paid by draft made payable to the borrower and such third party, jointly. Separate instructions will be issued with respect to the manner in which proceeds of loans shall be applied to retire an existing obligation to a regional agricultural credit corporation.

If a loan is to be disbursed in two or more installments, in accordance with the budget schedule incorporated in or attached to the application, the initial advance is to be disbursed at the time of closing the loan and subsequent advances may be made in accordance with the approved budget, but in no event shall drafts be drawn payable to or for the account of any borrower in an amount exceeding the amount of his note, nor exceeding the amount approved, unless an additional loan is applied for and approved. Where total advances in excess of the original loan are to be made, a new application and note shall be obtained. Additional collateral may be required for additional loans.

Drafts will be signed by the Corporation's authorized loan representative, or a designated alternate, and countersigned by the Chairman of the County War Board or by an alternate designated by him for that purpose. Specimen signatures of all persons authorized to sign and countersign such drafts shall be furnished and delivered as may be directed by the Corporation. It is contemplated that signature cards will be sent to the Chairman of the State War Board and will be forwarded by him upon instructions, to a designated Federal Intermediate Credit Bank.

All drafts shall be drawn in duplicate, the duplicate copy to be sent to the custodian designated to hold the notes and other papers. If the loan representative desires a copy of the draft for his records, a third copy may be made. It is thought, however, that it will be sufficient for the records of the county office to place an appropriate notation upon the file copy of the application showing the date, number, amount, and payee of each draft issued.

§ 96.113 *Servicing of loans.* It is expected that the Corporation's loan representative, the Chairman and members of the County War Board, and members of the County and Community A. A. A. Committees ordinarily will keep in touch with farming activities within their respective counties and may from time to

time have opportunity to call upon borrowers under this program. It is the desire of the Corporation that the operations of the borrowers be given such general inspections as may be necessary to determine whether the crops and livestock being financed are being given proper care and attention; that such advice, guidance, or other assistance as may be needed to assure maximum production be given; and that, where necessary, appropriate steps be taken to protect the interests of the Corporation. Where any serious difficulty exists, a brief report of the facts should be sent to the Corporation at its office in Washington, D. C., or to such other office as may hereafter be designated.

In view of the fact that each County War Board will have in its files a copy of each producer's 1943 farm plan for war production, only such inspections (if any) as the chairman of the County War Board or the Corporation's loan representative deems necessary should be made, except in connection with problem cases that may develop, or as required by the District Vice President of the Corporation in connection with loans requiring his approval as provided in § 96.102 (d). It is contemplated that from time to time field representatives of the Washington office of the Corporation will visit some, or possibly all, counties in which loans are outstanding, for the purpose of making a general check up of the loan. Visits by such field representatives to the farms and ranches in a county ordinarily will be made in company with the Corporation's loan representative, or the Chairman of the County War Board, or such other person as may be designated and available.

Inspections deemed necessary by the chairman of the County War Board or the Corporation's loan representative, or required by the District Vice President, in connection with the making or renewal of loans, shall be made by an inspector approved by and serving the production credit association operating in the county, or such other inspector as may be approved by the District Vice President. Appropriate inspection report forms of the production credit association or other forms prescribed by the District Vice President may be used for this purpose.

The cost of such inspections, but not to exceed an amount equal to one-half of one percent of the amount for which the loan is approved, shall be paid by the borrower to the Corporation, and may be deducted from the proceeds of the loan. If the application is rejected, no charge will be made and the cost of the inspection will be borne by the Corporation. The procedures to be followed in compensating inspectors for their work and for remitting to the Corporation inspection fees collected from borrowers will be set forth in later instructions.

§ 96.114 *Custody of documents, handling of collections, etc.* It is contemplated that the personnel or facilities of production credit associations, and possibly other agencies of the Farm Credit Administration, will be utilized as custodians of the notes and other documents evidencing and supporting loans made under this program. Instructions with respect to the duties to be performed by such custodians will be issued at a later date, at which time the custodians will be designated and advice thereof will be sent to all loan representatives, County War Boards, and others interested.

The procedure for handling collections and remittances to the Corporation, and the channels through which such collections are to be made, are matters yet to be determined. These will be covered in subsequent instructions.

§ 96.115 *Further instructions.* These instructions may be supplemented or superseded by other instructions issued by the Corporation from time to time as conditions may warrant.

SUBPART B—ADVANCES TO FINANCE EXTRAORDINARY PRODUCTION OF ESSENTIAL AGRICULTURAL COMMODITIES

§ 96.200 *Introduction.* (a) In cases where the County War Board finds that a farmer has capacity to produce essential crops and when such production can be related definitely to the use of the proceeds of the advance, the Regional Agricultural Credit Corporation through its local representative may advance to such farmer the amount determined by the War Board to be necessary to finance such production.

(b) The borrower shall be personally liable for the full amount of such advances; except that if the district vice president of the Regional Agricultural Credit Corporation certifies that:

(1) The borrower has used the amount advanced for producing the crops for the production of which the advances were made;

(2) The borrower has provided for insurance on such crops to the extent and in the manner required by the Regional Agricultural Credit Corporation to protect its interest in such crops;

(3) The borrower, in good faith, has diligently applied principles of good husbandry to the production of such crops;

(4) The borrower has applied to the repayment of the advances an amount equal to all proceeds of such crops, including the proceeds of any incentive or other similar payments made by the United States on such crops and the proceeds of any insurance on such crops; and

(5) Such amount has been insufficient to repay the advances in full,

then the Regional Agricultural Credit Corporation will not look to other assets of the borrower for the repayment of that part of the advances which exceeds such proceeds but will cancel the borrower's obligation for the balance of the advances.

(c) No such advance shall be made except upon determination by the County War Board, evidenced in accordance with instructions of the Regional Agricultural Credit Corporation, that the proceeds of the production would be adequate to repay the advance, assuming reasonably expectable growing conditions and taking into consideration evident factors indicative of the price to be expected for the crops when produced, including support prices and other similar factors.

(d) Advances under this subpart will be made by the designated loan representatives of the Regional Agricultural Credit Corporation of Washington, D. C. In approving such advances the loan representatives shall take into consideration determinations and recommendations made by the County War Boards as required in this subpart. Such advances shall be made only to finance the production of crops designated as essential war crops and shall be subject to the following terms and conditions.

§ 96.201 *Essential war crops.* The following crops have been designated by the Food Production Administration as "essential war crops" the production of which may be financed under this program:

Soybeans for beans.
Flax for seed or fiber.
Peanuts to be harvested and picked.
Irish potatoes where farm goal is 3 acres or more.
Sweet potatoes on farms with goals determined.
American Egyptian cotton.
Hemp for seeed or fiber.
Dry beans.
Dry peas (excluding wrinkled varieties).
Castor beans.
Tomatoes, snap beans, lima beans, peas, and carrots for processing or sale fresh.
Cabbage, sweet corn, and table beets for processing only.
Sea Island cotton.
Corn and grain sorghums to be planted in rows and cultivated as cash grain crops in the counties in Arkansas, Illinois, Indiana, Kansas, Missouri, and Oklahoma, designated by the American Red Cross.
Food or feed crops to mature in 1943 planted on land which has been flooded in areas designated by the United States Department of Agriculture State War Boards in the Fourth, Sixth, and Ninth Farm Credit Districts.

§ 96.202 *Eligible borrowers.* Advances shall be made only to farmers who are actual producers. These include any farmer (individual, partnership, or corporation) engaged in agricultural production who proposes to engage in the year 1943 in the production of designated essential war crops and who has land suitable to the production of such crops and has, or will be able to procure, other facilities necessary for such production. To be considered a "farmer" a corporation must be engaged in farming as a substantial part of its business enterprise, as distinguished from incidental farming operations. Canners, packers, or other processors, dealers, or commission merchants, as such, are not eligible and advances shall not be made to finance their commercial or processing operations; but advances may be made to finance their actual production (including harvesting and delivery for sale or for processing) of designated essential war crops.

§ 96.203 *Purposes of advances.* Advances may be made to finance the actual current cash cost of producing and harvesting designated essential war crops and delivering such crops for sale or for processing. Such cash costs may include the cost of feed for workstock, seed, fertilizer, packages, insecticides and spraying, labor, motor fuel and oil, the repair of equipment, insurance on the essential war crop for the production of which the advance is made and other current expenses necessary or directly incidental to the production, harvesting, and disposition of such crops by the producer. Advances will not be made under the provisions of this subpart for the purchase of major items of farming equipment or other capital expenditures such as extensive improvements, etc., nor for the purpose of making payments for the use or ownership of land, such as cash rent, taxes, interest, installments or mortgage debts, etc., nor for the payment of existing debts, except that provision may be made for the payment of obligations incurred prior to the application in connection with the production of the crop being financed, such as prior purchase of feed for workstock, seed, fertilizer, etc., and the payment of wages for farm labor performed in the production of the current year's crop. No other outstanding obligations will be refinanced under this plan.

Applications for advances which are not eligible to be made hereunder such, for example, as applications involving the financing of major items of farming equipment, cash rent, or interest or installments on mortgage debts, but which meet the requirements set forth in Subpart A of this part may be handled through loans under Subpart A, using the forms therein prescribed.

§ 96.204 *Collateral security.* In all cases advances made hereunder must be secured by a first and paramount lien upon the specific crop to be produced. In the case of all designated essential war crops on which Federal crop insurance is available, the advances shall be secured also by such insurance on the crops for the production of which the advances are made, and in the case of all designated essential war crops, the Corporation may require that the borrower provide for such other insurance upon the crops for the production of which the advances are made, as it determines to be necessary for the protection of its interest in such crops.

It shall be a condition of the release of the borrower's obligation to the Corporation for any part of the amount of any advances made under this subpart that there shall have been paid to the Corporation for application against such advances the proceeds of any incentive or other similar payments made by the United States on the crops for the production of which the advances were made and the proceeds of any insurance on such crops, and that he shall have executed such documents as the Corporation may have required in order to provide for the payment to it of the proceeds of such payments and the proceeds of any insurance on such crops.

Except as provided in this section, no other collateral security will be required.

§ 96.205 *Advances to tenant farmers and sharecroppers.* Advances to tenant farmers or sharecroppers shall be conditioned upon their furnishing, on forms prescribed by the Corporation, such waivers or subordinations of statutory or recorded liens as will afford the Corporation a first lien upon the specific crop being financed.

§ 96.206 *Special review of applications.* (a) Each application for an advance which, if approved, would cause the total of all the applicant's loans and advances outstanding from the Corporation (including any undisbursed proceeds of any loans or advances previously approved) to exceed $2,500 shall be referred to the District Vice President for approval or disapproval.

Advances which, together with all the applicant's other loans or advances outstanding from the Corporation (including any undisbursed proceeds of any loans or advances previously approved), do not exceed $2,500 will be closed upon approval by the designated loan representative (or by his alternate if an alternate has been duly designated and authorized to act) and by the County War Board.

(b) Each application referred to the District Vice President for approval or disapproval shall be accompanied by such inspection reports and other data as the District Vice President may require and by the recommendations of the loan representative and the County War Board.

(c) It is preferable, where an application requires approval above the county level, that the mortgage securing the proposed advance be not filed or recorded prior to advice of final approval. If the mortgage is prepared before the papers are submitted to the District Vice President for consideration, a copy thereof should accompany the papers. If the mortgage is to be drawn later, the papers submitted should include a list of the property to be covered by such mortgage. The District Vice President will return all papers to the loan representative, with advice of the action to be taken. Upon final approval by the District Vice President the proceeds of the advance will be disbursed by the loan representative and Chairman of the County War Board, in the same manner as other loans or advances are disbursed.

(d) When procedures are settled for the handling of advances which the County War Board determines require supervision of the type given by Farm Security Administration supervisors, definite instructions for the handling of such advances will be issued by the Corporation. It is anticipated that upon the issuance of such instructions, advances recommended by the War Board for such supervision will be supervised by Farm Security Administration supervisors in accordance with such instructions.

§ 96.207 *Interest.* All notes shall be drawn with interest at the rate of 5 per centum per annum payable at maturity. Interest will be charged only on the unpaid balance, from date of advance (or partial advance) to date of payment.

§ 96.208 *Maturity.* All notes shall be drawn with a maturity of one year or less. The maturity date shall coincide as nearly as may be practicable with the usual time for marketing the crops for the production of which the advance is to be made.

§ 96.209 *Forms and documents.* The following forms shall be used in connection with advances made under the provisions of this subpart:

(a) *The application.* Each application for advances under the provisions of this subpart shall be prepared on Form RACC–FP3, which is especially designed to develop the information necessary to enable the loan representative and county war board to determine whether such advances may be made. The application shall be prepared and signed in duplicate and, in all other respects shall be handled in the same way as an application for a loan under Subpart A of this part. The letter "W" preceding the State and county code and farm serial number will identify the application and supporting papers as relating to advances made under the provisions of this subpart. The letter "W" shall be inserted before the State and county code and farm serial number on all documents related to the advance on which it is not printed and on all drafts issued in disbursing proceeds of the advance.

If the applicant is a corporation, it will be required to complete and execute "Corporation Form 1–A" in the same manner as required in connection with loans under Subpart A of this part.

(b) *Promissory note.* A special form of note (Form RACC–FP4) shall be taken covering advances made under the provisions of this subpart. Such notes shall be prepared and executed in the same manner as other notes, in accordance with § 96.112 (b). Notes of corporate borrowers shall be endorsed or guaranteed as provided in § 96.107.

(c) *Crop lien instrument.* All notes evidencing advances made under the provisions of this subpart shall be secured by a mortgage or other lien instrument, in form prescribed or approved by the Corporation. Such mortgages or other lien instruments shall describe the land upon which the crops being financed are grown in such manner as to permit definite identification of the specific crop involved. Such description may be in terms of fractions of designated sections or quarter-sections of land, by metes and bounds, or in such other manner as will indicate clearly the location of the area planted to the crops to be financed. In all cases, the number of acres planted to such crops shall be specified. Such instruments shall be prepared in triplicate (or in quadruplicate if the borrower requests a copy or if the State law, as indicated on the forms, requires the mortgagee to furnish a copy to the mortgagor). The original and one copy shall be executed by the borrower. One copy (usually the original) shall be filed or recorded with the local official responsible for keeping the official record of such security instruments. Either a certificate of filing or recording shall be obtained or the second (signed) copy shall be endorsed by the filing or recording officer to show the date and place of filing the original, and the signed copy together with any certificate of filing or recording, shall accompany the note and other papers sent to

the Corporation's custodian. The third copy is intended for the files of the Corporation's loan representative in the county office. Filing or recording fees and any lien search fees shall be paid by the borrower.

(d) *Other forms.* All other forms approved for use in connection with loans under Subpart A of this part shall be used, as needed, in connection with advances made under this subpart. Each such form shall bear the identification number assigned to the application, as provided in paragraph (a) of this section, including the prefix letter "W". Disbursements of proceeds are to be made in the same manner as is prescribed for loans under Subpart A of this part, and all drafts shall bear the identifying numbers of the applications and related loan documents, including the prefix letter "W".

§ 96.210 *Inspections.* The instructions with respect to inspections, set forth in § 96.113 shall be followed in connection with applications for advances to be made under this subpart.

§ 96.211 *Applicability of Subpart A.* Except as herein modified, instructions set forth in Subpart A of this part shall be observed in connection with advances under this subpart insofar as they are applicable to such advances.

§ 96.212 *Further instructions.* These instructions may be supplemented or superseded by other instructions issued by the Corporation from time to time as conditions may warrant.

SUBPART C—LOANS TO FINANCE THE PURCHASE BY DAIRYMEN AND FARMERS OF DAIRY CATTLE ACQUIRED BY COMMODITY CREDIT CORPORATION FOR THE PURPOSE OF INSURING THEIR UTILIZATION FOR MILK PRODUCTION

§ 96.300 *Introduction.* This subpart outlines the terms and procedures under which loans will be made by the Regional Agricultural Credit Corporation of Washington, D. C., to finance the purchase by dairymen and other farmers, of dairy cattle (including heifers and calves) acquired by Commodity Credit Corporation.

The Regional Agricultural Credit Corporation may be referred to hereinafter as "RACC"; the Farm Security Administration as "FSA"; County Rural Rehabilitation Supervisors of the Farm Security Administration as "FSA supervisors"; and Commodity Credit Corporation as "CCC."

§ 96.301 *Purpose of program.* Arrangements have been made for the RACC, where necessary, to finance the purchase by dairymen and other farmers and stockmen of dairy cattle acquired by CCC in its program designed to prevent the loss of such cattle as productive units, through slaughter, and to insure their utilization in the production of milk and milk products necessary for both civilian and military needs. The acquisition and sale of such cattle are to be handled by FSA supervisors, acting as agents or representatives of CCC.

It is understood that, as a general policy, preference in the sale of dairy cattle acquired by CCC is to be given to the following classes of purchasers, in the order stated:

1. To producers supplying fluid milk markets;
2. To producers supplying processing plants for the production of powdered, condensed, or evaporated milk, or cheese;
3. To producers supplying creameries; and
4. To other farmers, including those needing dairy cows to supply milk products for home consumption.

§ 96.302 *Loans by RACC.* Each purchaser of dairy cattle from CCC, who requires credit to finance such purchase, shall be urged to utilize, if possible, other established sources of credit. It is expected that rehabilitation clients of the FSA will borrow from the FSA if it has funds available to finance such purchasers.

If other suitable arrangements cannot be made by a dairyman, farmer, or stockman to purchase cattle from CCC, a loan for that purpose may be made by RACC, in accordance with the provisions of this subpart. Such loans will be made upon approval of the application by the FSA supervisor.

§ 96.303 *Forms.* Applications for loans to purchase dairy cattle from CCC shall be made upon RACC form FP7. If applicant is a corporation, supplemental Form 1A shall be executed by the applicant and attached to the application. The note and other required documents shall be upon forms prescribed for making loans under Subpart A of this part.

§ 96.304 *Terms of notes.* Notes evidencing loans made hereunder shall be in the form prescribed for loans under Subpart A of this part, and shall bear interest at the rate of 5 percent per annum, payable at maturity. All such notes shall be drawn to mature not later than 1 year after date. The unpaid balance of that portion of any loan made to pay for dairy cattle purchased from CCC may be renewed or extended at maturity where other conditions surrounding the transaction, including the progress made in reducing the debt, the collateral security, and the borrower's operations remain satisfactory.

§ 96.305 *Security.* The minimum collateral security required for a cattle purchase loan will be a first and paramount lien upon the cattle, including all increase therefrom, and upon any feed purchased with the proceeds of the loan. The chattel mortgage (or other similar lien instrument) shall describe the cattle, as nearly as may be practicable, in the same manner as they are described in the purchase agreement, Form FSA–CCC 7. Inasmuch as CCC warrants that the title to the cattle is free from encumbrances, it will be assumed with respect to the cattle that the title conveyed by CCC is not subject to any outstanding liens. However, where State laws permit mortgages or other lien instruments to cover after-acquired property, it may be necessary to ascertain that no such mortgage or lien instrument previously given by the borrower to a third person will constiute a prior lien against the cattle when purchased by the borrower.

Where payment of the loan is to be made from dairy income, it is advisable to obtain an assignment of proceeds of milk or cream sales. In each case where the producer has assigned or is expected to assign to a third party all or any portion of the proceeds from the sale of dairy products, he shall be required to assign to RACC such portion of his dairy income as will effect an equitable division of his total income between RACC and other assignees.

Notes of each corporate borrower shall be endorsed or guaranteed by the holder or holders of at least a majority of the outstanding shares of voting stock of such corporate borrower, or by the principal stockholder or stockholders; provided that, in lieu of endorsements upon the notes, such stockholders may execute a continuing guaranty of all indebtedness of such borrower to the Corporation. In any case where a corporate borrower already has given a continuing guaranty to RACC, no additional guaranty is required if the terms of the existing guaranty are sufficiently comprehensive to include the loan to purchase dairy cattle.

§ 96.306 *Handling of applications.* Upon approval of an application the FSA supervisor shall forward the application and all other documents to the county war board for closing of the loan. When the county war board receives such application the papers are to be examined for completeness and accuracy before any proceeds are disbursed. In the event any such application is submitted without all the necessary supporting documents, or if any such documents should be found incomplete or deficient in any important respect, all the papers shall be returned to the FSA supervisor for completion or adjustment and resubmission to the county war board.

§ 96.307 *Loan disbursements.* Upon delivery to the loan representative of RACC of the application, note, chattel mortgage and any other necessary documents, in proper form and duly executed, and upon filing or recording the chattel mortgage, the loan representative shall issue and the chairman of the county war board shall countersign such drafts as may be necessary to disburse the proceeds. Drafts covering the purchase price of the cattle shall be drawn payable to the borrower and CCC, jointly, and delivered to the FSA supervisor. Wherever practicable, drafts issued in payment for feed, likewise, shall be drawn payable to the borrower and the vendor of the feed, jointly.

§ 96.308 *Applicability of Subpart A.* Except with respect to the approval of the loan in the first instance, as herein set forth, all loans to purchase dairy cattle from CCC will be handled in the same manner as loans made under the provisions of Subpart A of this part. Thus, the dairy cattle loan program does not contemplate continuing supervision by FSA supervisors except in cases where the county war board determines that such supervision is necessary and furnishes the FSA supervisor a written certification to that effect.

§ 96.309 *Credit for other purposes.* If an applicant for a loan to purchase dairy cattle from CCC also requires credit for other purposes which are eligible to be financed under Bulletin F–1 or F–2, the applicant shall be referred to the county war board. A separate application (upon the prescribed forms) shall be taken to cover such requirements, and shall be handled in the manner outlined in the applicable bulletin.

§ 96.310 *Further instructions.* These instructions may be supplemented or superseded by other instructions issued by the Corporation from time to time as conditions may warrant.

I. W. DUGGAN,
Governor.
Farm Credit Administration.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Orange Reg. 118]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.344 *Orange Regulation 118*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., April 28, 1947, and ending at 12:01 a. m., e. s. t., May 12, 1947, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the United States standards for citrus fruits, as amended (11 F. R. 13239; 12 F. R. 1)); or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than a size that will pack 150 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)).

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 23d day of April 1947.

[Lemon Reg. 219]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.326 *Lemon Regulation 219*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., April 27, 1947, and ending at 12:01 a. m., p. s. t., May 4, 1947, is hereby fixed at 425 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 24th day of April 1947.

[Orange Reg. 174, Amdt. 1]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.320 *Orange Regulation 174, as amended*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* Orange Regulation 174 (12 F. R. 2554) is hereby amended as follows:

(1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., April 20, 1947, and ending at 12:01 a. m., p. s. t., April 27, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate Districts Nos. 1 and 2, no movement; and (*b*) Prorate District No. 3, 60 carloads.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, unlimited movement; (*b*) Prorate District No. 2, 1250 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached to Orange Regulation 174 (12 F. R. 2554) and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

[Orange Reg. 175]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.321 *Orange Regulation 175*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., April 27, 1947, and ending at 12:01 a. m., P. s. t., May 4, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1, 500 carloads; (*b*) Prorate District No. 2, no movement; and (*c*) Prorate District No. 3, 70 carloads.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, no movement; (*b*) Prorate District No. 2, 800 carloads; and (*c*) Prorate District No. 3, no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 24th day of April 1947.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter A—Administrative Organization

PART 60—FIELD SERVICE DISTRICTS AND OFFICERS

POWER OF ARREST WITHOUT WARRANT, OF BOARDING AND SEARCHING, AND OF EXECUTING WARRANTS

APRIL 16, 1947.

Section 60.28, Chapter I, Title 8, Code of Federal Regulations, is hereby amended to read as follows:

§ 60.28 *Power of arrest without warrant, of boarding and searching, and of executing warrants*— (a) *Definitions.* (1) The term "the act" as used in this section shall, unless otherwise indicated, mean the act of February 27, 1925, as amended by the act of August 7, 1946, 43 Stat. 1049, 60 Stat. 865 (8 U. S. C. 110).

(2) The term in the act "officer of the Immigration and Naturalization Service having authority to examine aliens as to their right to enter or remain in the United States" shall mean an immigrant inspector or any person designated an immigrant inspector by § 60.27.

(3) The phrase in the act "within a reasonable distance from any external boundary of the United States" shall mean within a distance not exceeding 100 air miles from any external boundary of the United States, or any shorter distance which may be fixed by the district director in charge of a district defined in § 60.1, or, so far as the power to board and search aircraft is concerned, any distance within any of the areas designated in paragraph (d) of this section.

(b) *Authorized employees.* All patrol inspectors, immigrant inspectors, and all persons designated immigrant inspectors by § 60.27 are authorized to exercise the power of arrest without warrant, the power to board and search vessels and other conveyances, and the power to execute warrants and other processes conferred by the act.

(c) *Reasonable distance; fixing by district directors.* In fixing reasonable distances of less than 100 air miles pursuant to paragraph (a) (3) of this section, district directors shall take into consideration topography, confluence of arteries of transportation leading from external boundaries of the United States, relative distance from such boundaries, density of population, possible inconvenience to the traveling public, types of conveyances used, and reliable information as to movements of persons effecting illegal entry into the United States: *Provided*, That whenever in the opinion of a district director a distance in his district of more than 100 air miles from any external boundary of the United States would because of unusual circumstances be reasonable, such district director shall forward a complete report with respect to the matter to the Commissioner of Immigration and Naturalization, who may, if he determines that such action is justified, declare such distance to be reasonable.

(d) *Powers; where exercised.* The powers conferred by the act may be exercised in the forty-eight States of the United States, the District of Columbia, Hawaii, Alaska, Puerto Rico, and the Virgin Islands.

(e) *Examining officer.* Although any officer authorized by paragraph (b) of this section to make arrests is qualified under paragraph (a) (2) of this section to conduct the examination required under clause (1) of the act, such examination shall be conducted by the arresting officer only in cases in which no other qualified officer is readily available and the taking of the alien before another officer would entail unnecessary delay and then only when the conducting of such examination is a part of the duties assigned to the arresting officer.

(f) *Disposition of cases of deportable aliens.* Whenever the examination which is required under clause (1) of the act in the case of an alien illegally entering or in the United States indicates that further action should be brought against the arrested alien, the examining officer shall proceed in accordance with the provisions of Part 150 of this chapter or shall take whatever action may be appropriate or required under the laws or other regulations applicable to the particular case. In so doing, the examining officer may utilize any record made by the arresting officer.

(g) *Disposition of felony cases.* The cases of persons arrested under clauses (3) of the act for felonies shall be handled administratively in accordance with the applicable provisions of § 60.25, but in no case shall there be prejudiced the right of the person arrested to be taken without unnecessary delay before the nearest available commissioner or before another nearby officer empowered to commit persons charged with offenses against the laws of the United States.

(h) *Powers not exclusive.* The powers conferred by the act upon the employees qualified thereunder are in addition to the powers conferred on immigrant inspectors by that provision of section 16 of the Immigration Act of 1917 (39 Stat. 885; 8 U. S. C. 152) which reads "Immigrant inspectors are hereby authorized and empowered to board and search for aliens any vessel, railway car, or any other conveyance, or vehicle in which they believe aliens are being brought into the United States" and in addition to any powers which are or may be conferred on officers or employees of the Immigration and Naturalization Service by other laws.

This section shall become effective on the date of its publication in the FEDERAL REGISTER. The requirements of section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238) relative to notice of proposed rule making and delayed effective date are inapplicable for the reason that the rules prescribed by this section pertain to agency organization and procedure, including delegation of authority. (Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 102, 222, 458; sec. 1, Reorg. Plan No. V, 3 CFR, Cum. Supp. ch. IV)

UGO CARUSI,
Commissioner of Immigration and Naturalization.

Approved: April 20, 1947.

Subchapter B—Immigration Regulations

PART 110—PRIMARY INSPECTION AND DETENTION

DESIGNATION OF LAREDO MUNICIPAL AIRPORT, LAREDO, TEXAS, AS A TEMPORARY AIRPORT OF ENTRY FOR ALIENS

APRIL 21, 1947.

Section 110.3 (b), *Designated ports of entry by aircraft*, Chapter I, Title 8, Code of Federal Regulations is amended by inserting "Laredo, Tex., Laredo Municipal Airport" between "Havre, Mont., Havre-Hill County Airport" and "Malone, N. Y., Malone-Bufort Airport" in the list of temporary airports of entry for aliens.

Notice of the proposed designation of the Laredo Municipal Airport as a temporary airport of entry for aliens was published in the FEDERAL REGISTER dated March 15, 1947 (12 F. R. 1775), pursuant to section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238). The designation shall become effective on May 1, 1947, the delayed effective date requirements of section 4 (c) of the Administrative Procedure Act being dispensed with for the reasons that (1) the public convenience will be served by making the immigration facilities available beginning on May 1, 1947; (2) no representations in opposition to the designation have been received; and (3) the designation for customs purposes has been made effective on May 1, 1947 (12 F. R. 2110). The designation of this airport is based on a determination that a sufficient need exists to justify such designation and the designation is made for the purpose of providing for convenient compliance with immigration requirements.

PART 116—CIVIL AIR NAVIGATION

SPECIAL REGULATIONS RELATING TO AIR TRAVEL BETWEEN FOREIGN CONTIGUOUS TERRITORY AND THE UNITED STATES

APRIL 22, 1947.

The regulations for the application to civil air navigation of the laws and regulations relating to customs, public health, entry and clearance, and immigration issued by the Acting Secretary of the Treasury, the Federal Security Administrator, the Acting Secretary of Commerce, and the Acting Attorney General, within their respective authorities, on August 28, 1941, June 5, 1942, September 21, 1942, April 14, 1943, August 26, 1944, July 16, 1945, October 18, 1945, July 3, 1946, July 27, 1946, and December 23, 1946 (6 F. R. 4516, 4536, 4537, 4514, 5582, 5583, 5596; 7 F. R. 4471, 4472, 4496, 7800, 7813; 8 F. R. 5291, 5296, 5320; 9 F. R. 10446, 10448, 10503; 10 F. R. 9314, 9315, 9338, 13102, 13103, 13130; and 11 F. R. 7655, 7661, 7663, 8075, 8078, 8122, 13775, 13785, 13792; 19 CFR, Cum. Supp., 6.1 to 6.11, 42 CFR, Cum. Supp., 11.501 to 11.516, and 8 CFR, Cum. Supp., 116.1 to 116.16), are hereby further amended as follows:

1. Paragraph (a) of § 6.3 of Title 19 of the Code of Federal Regulations, such section being also designated as § 11.503 of Title 42 and § 116.3 of Title 8 of that Code, is amended by changing the period at the end of the second sentence to a comma and adding the following: "except that permission to land in Alaska elsewhere than at an airport of entry may be granted to aircraft arriving from Canada, by the Collector of Customs at Juneau, Alaska, who upon granting such permission shall immediately notify the officer in charge of the Public Health Service, the Immigration and Naturalization Service, and any other agency affected thereby in Alaska."

2. The last sentence of subparagraph (1) of paragraph (b) of § 6.8 of Title 19 of the Code of Federal Regulations, such section being also designated as § 11.508 of Title 42 and § 116.8 of Title 8 of that Code, is amended to read: "The list is not required if the aircraft is not arriving from outside the United States or if it is arriving on a trip which originated in Canada, Newfoundland, or the French islands of St. Pierre and Miquelon, or if the information with respect to the crew is furnished in accordance with § 6.10."

3. Subparagraph (2) of paragraph (b) of § 6.8 of Title 19 of the Code of Federal Regulations, such section being also designated as § 11.508 of Title 42 and § 116.8 of Title 8 of that Code, is amended by adding a sentence reading: "This subparagraph shall not apply to aircraft arriving on a trip which originated in Canada, Newfoundland, or the French islands of St. Pierre and Miquelon."

4. *Omission of notice and public procedure.* This order shall become effective on the day of its publication in the FEDERAL REGISTER. Notice of proposed rule making and public procedure prescribed by section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238) are being dispensed with because they are found unnecessary and contrary to the public interest. Such finding is based on the fact that this order will result in the facilitation of travel and lessen the requirements on affected persons.

PART 807—SUSPENSION ORDERS

GEORGE B. CHARLSEN & R. M. STAUFFER

George B. Charlsen, 101 South Kansas Avenue, Newton, Kansas, and R. M. Stauffer, 300 West Fourth Street, Newton, Kansas, as his contractor, on or about November 23, 1946, without authorization from the Civilian Production Administration or the Office of the Housing Expediter, began and thereafter carried on construction of a building, size 60' x 70', to be used as a commercial store building at 105–109 South Kansas Avenue, Newton, Kansas, estimated to cost in excess of $25,000. The beginning and carrying on of such construction without authorization constituted a violation of Veterans' Housing Program Order 1, and diverted critical material to uses not authorized by the Civilian Production Administration or the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.10 *Suspension Order No. S-10.* (a) Neither George B. Charlsen nor R. M. Stauffer, their successors or assigns, nor any other person, shall do any further construction on the premises located at 105–109 South Kansas Avenue, Newton, Kansas, including completing or altering the structure, unless authorized in writing by the Office of the Housing Expediter.

(b) George B. Charlsen and R. M. Stauffer shall refer to this order in any application or appeal which they or either of them may file with the Office of the Housing Expediter for authorization to carry on such construction.

(c) Nothing contained in this order shall be deemed to relieve George B. Charlsen and R. M. Stauffer from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 24th day of April 1947.

PART 807—SUSPENSION ORDERS

DR. GERALD B. WINROD ET AL.

Dr. Gerald B. Winrod, Wichita, Kansas, as President of The Defenders of the Christian Faith, Inc., a Kansas non-profit corporation who also uses the names Defenders' Publishing Company and The Defender Publishers, in connection with their activities, on or about December 16, 1946, without authorization from the Civilian Production Administration or the Office of the Housing Expediter, began and thereafter carried on construction of a one-story building, size 50' x 90', containing 4,500 square feet of floor area, at 2500–2508 East Douglas Avenue, Wichita, Kansas, which was to be an addition to an existing one-story building, size 50' x 50', having 2,500 square feet of floor area, making the total floor area of the existing building and the addition 7,000 square feet. The addition was to be used as a printing plant and the estimated cost thereof was more than $14,000. The beginning and carrying on of construction of such addition was in violation of Veterans' Housing Program Order 1, and has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.19 *Suspension Order No. S-19.* (a) Neither Dr. Gerald B. Winrod, The Defenders of the Christian Faith, Inc., a corporation, The Defenders' Publishing Company, nor The Defender Publishers, their successors or assigns, shall do any further construction on the premises at 2500–2508 East Douglas Avenue, Wichita, Kansas, including the putting up, completing or altering the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) Dr. Gerald B. Winrod, The Defenders of the Christian Faith, Inc., The Defenders' Publishing Company, and the Defender Publishers, shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter for authorization to carry on such construction.

(c) Nothing contained in this order shall be deemed to relieve Dr. Gerald B. Winrod, The Defenders of the Christian Faith, Inc., The Defenders' Publishing Company, or the Defender Publishers, their successors or assigns, from any restriction, prohibition or provision contained in any other order, except insofar as the same may be inconsistent with the provisions hereof.

PART 1138—ANTIMONY

[General Preference Order M-112, as Amended Apr. 25, 1947]

§ 1138.1 *General Preference Order M-112*—(a) *Definitions.* For the purpose of this order "antimony" means and includes:

(1) Ores and concentrates, including beneficiated or treated forms, containing antimony commercially recognized;

(2) Antimony metal, otherwise known as "Regulus" and the element antimony in commercially pure form;

(3) Liquated antimony, sometimes known as "needle antimony", "crude antimony" or "Crudum", which is in any case the result of separating antimony sulphide from antimony ores by fusion, without essential chemical change;

(4) Any alloy containing 50 per cent or more by weight of antimony, as defined in (1), (2), and (3) above;

(5) Antimony oxide which results from the processing of antimony, as defined in (1), (2), (3) and (4) above;

(6) Antimony sulphide (precipitate or synthetic) which results from the processing of antimony, as defined in (1), (2), (3), (4), and (5) above.

(b) *Deliveries, allocations and uses*—(1) *Restrictions on deliveries.* No person shall deliver or accept delivery of antimony without a specific allocation in writing by the Civilian Production Administration, except as follows:

(i) Antimony may be delivered to any person in lots of 224 lbs. (contained antimony), or less, but the total quantity of contained antimony which any person may receive in any calendar month from all sources of supply under this subparagraph shall not exceed 224 lbs.

(ii) Antimony may be delivered to the Office of Metals Reserve, Reconstruction Finance Corporation, or to any other corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act, as amended, or to any agent of such corporation.

(2) *Allocations and uses.* The Civilian Production Administration may from time to time allocate and direct the manner and quantity in which antimony shall be delivered or used, including all antimony released by the Reconstruction Finance Corporation. Such action may also be taken with respect to the use of antimony-bearing lead scrap, secondary antimony-bearing lead alloys or any other practicable substitute in lieu of antimony. The Civilian Production Administration may also require any person seeking to place a purchase order for antimony to place the same with one or more particular suppliers. Such allocations and directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect and they may be made without regard to any preference ratings assigned to particular contracts or purchase orders.

(c) *Applications for and reports of antimony.* (1) Applications for an allocation of antimony should be made on Form CPA-2931 to the Civilian Production Administration not later than the 20th day of the month preceding the month in which delivery is requested. Applications for an allocation of antimony for export outside the United States, its territories or possessions or the Dominion of Canada may be made by letter addressed to the Civilian Production Administration furnishing the following information:

(i) The export license number and validation date;

(ii) The country to which the antimony is to be exported;

(iii) The name of the proposed supplier; and

(iv) The quantity allowed to be exported under the license.

Exports of antimony to any country other than Canada are also subject to any export license requirements of the Office of International Trade, Department of Commerce.

No application for an allocation of antimony should be filed if less critical materials obtainable from secondary sources, or substitute materials, are usable by and available to the applicant. Failure by any person to file an application in accordance with this paragraph may be construed as notice to the Civilian Production Administration that such person does not desire an allocation of antimony for the succeeding month.

(2) Any person who on the first day of a calendar month has in his possession or under his control 2240 pounds or more of antimony or who used during the preceding calendar month 2240 pounds or more of antimony shall not later than the 20th day of such month report to the Civilian Production Administration on Form CPA-2931 in accordance with the instructions accompanying such form, regardless of whether or not he seeks an allocation of antimony during the next succeeding month.

(d) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of antimony, if the total inventory in the hands of the person accepting delivery is, or by virtue of acceptance will become, in excess of his reasonably anticipated requirements for permissible uses in the next 30 days, excepting in the case of antimony as defined in paragraph (a) (1) which shall be limited to 45 days. This restriction does not apply to a producer of antimony as defined in paragraph (a).

(e) [Deleted March 12, 1947.]

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeals and Communications.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provisions appealed from and stating fully the grounds of appeal. Appeals, reports and all communications concerning this order shall, unless otherwise directed, be addressed to the Tin, Lead and Zinc Branch, Civilian Production Administration, Washington 25, D. C., reference M-112.

(h) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 25th day of April 1947.

PART 3290—MANILA (ABACA) AND AGAVE FIBERS AND CORDAGE

[Conservation Order M-84, Direction 1]

SPINNABLE CENTRAL AMERICAN ABACA (MANILA) FIBER

The following direction is issued pursuant to Conservation Order M-84:

(a) *Purpose of this direction.* Under paragraph (f) (1) of Order M-84, the Civilian Production Administration may from time to time allocate to processors the available supplies of manila and agave fiber held by the Reconstruction Finance Corporation, as provided in the order. This direction provides for the suspension of allocations by the CPA of spinnable Central American abaca (Manila) fiber held by the RFC, until further notice by amendment or revocation of this direction or otherwise.

(b) *Suspension of allocations of spinnable Central American abaca (Manila) fiber.* Until such time as the CPA may order otherwise, spinnable Central American abaca (Manila) fiber held by the RFC will not be allocated under Conservation Order M-84. Applications may be made to the RFC for such fiber, and not to the CPA.

(c) *Restriction on sales by RFC.* Spinnable Central American abaca (Manila) fiber

held by RFC may be sold and delivered by it to any person for use in making products in which use of such fiber is permitted under Conservation Order M-84 and directions issued under that order, or for resale for such uses, within the continental United States. Spinnable Central American abaca (Manila) fiber may not be sold by RFC for export.

(d) *Inconsistent provisions of Order M-84 suspended.* The provisions of paragraph (f) of Conservation Order M-84, to the extent they are inconsistent with the terms of this direction, are hereby suspended.

Issued this 25th day of April 1947.

MONTANA AND NORTH DAKOTA

ORDER PROVIDING FOR THE OPENING OF PUBLIC LANDS

APRIL 14, 1947.

Departmental Order approved July 13, 1945, revoked Departmental Orders of August 24, 1903, September 2, 1905, July 27, 1908, January 4, 1910, and May 16, 1932, so far as they withdrew in the first and second forms prescribed by section 3 of the Reclamation Act of June 17, 1902 (32 Stat. 388), the lands hereinafter described within the lower Yellowstone Project, Montana-North Dakota, and provided that such revocation shall not affect the withdrawal of any other lands by said orders or affect any other order withdrawing or reserving the lands described.

At 10:00 a. m. on June 16, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from June 17, 1947, to September 15, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from May 28, 1947 to June 16, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on June 17, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on September 16, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from August 27, 1947 to September 15, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on September 16, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Offices at Billings, Montana, and Bismarck, North Dakota, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code

of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Offices at Billings, Montana, and Bismarck, North Dakota.

The lands affected by this order are described as follows:

PRINCIPAL MERIDIAN, MONTANA

T. 19 N., R. 57 E.,
Sec. 26, Lot 1.

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

APRIL 14, 1947.

In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. 315g), the lands hereinafter described have been reconveyed to the United States.

At 10:00 a. m. on June 16, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from June 16, 1947, to September 15, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from May 27, 1947, to June 16, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on June 16, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on September 15, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from August 26, 1947, to September 15, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on September 15, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title to the extent such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Phoenix, Arizona.

The lands affected by this order are described as follows:

GILA AND SALT RIVER MERIDIAN

T. 27 N., R. 20 W.,
Sec. 20, SE¼NW¼ and NW¼SE¼.

WASHINGTON

ORDER PROVIDING FOR THE OPENING OF PUBLIC LANDS

APRIL 1, 1947.

Departmental Order approved December 11, 1945, revoked Departmental Order of December 26, 1913, so far as it withdrew in the first form prescribed by section 3 of the Reclamation Act of June 17, 1902 (32 Stat. 388), the lands hereinafter described within the Palouse Project, Washington, and provided that such revocation shall not affect the withdrawal of any other lands by said order or affect any other order withdrawing or reserving the lands described.

At 10:00 a. m. on June 13, 1947, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from June 14, 1947, to September 12, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from May 25, 1947, to June 13, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on June 14, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on September 13, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from August 24, 1947, to September 12, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on September 13, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Spokane, Washington, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Spokane, Washington.

[Docket No. G-881]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

Upon consideration of the application filed on April 1, 1947, Docket No. G-881,[1] by El Paso Natural Gas Company, a Delaware corporation, having its principal place of business in El Paso, Texas, pursuant to section 7 of the Natural Gas Act, as amended, to authorize applicant to construct and operate the following described natural gas pipeline facilities, subject to the jurisdiction of the Federal Power Commission:

A 6-inch O. D. Loop Line beginning at Applicant's mile Post 35.3 miles located on Applicant's Globe-Miami Transmission Line, Hidalgo County, New Mexico, and from that point extending in a northwesterly direction 17 miles, parallel and adjacent to Applicant's 8⅝-inch transmission line, to another point in Hidalgo County, near Applicant's mile Post 52.3.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the above facilities for the purpose of increasing the capacity of its transmission pipeline system by 2½ million cubic feet of natural gas per day to meet present and future demands of existing customers;

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on April 16, 1947 (12 F. R. 2460);

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the 13th day of May, 1947, at 9:30 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennnsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above entitled proceeding; *Provided, however,* That if no request to be heard, protest or petition to intervene, raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the conclusion of the hearing provided for herein, the Commission may then forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State Commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: April 23, 1947.

By the Commission.

UNLOADING OF COMMODITIES AT MURRAY HILL, N. J.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 22d day of April A. D. 1947.

It appearing, that 3 cars containing stone at Murray Hill, N. J., on The Delaware, Lackawanna and Western Railroad Company, have been on hand under

load for unreasonable lengths of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action: it is ordered, that:

(a) *Commodities at Murray Hill, N. J., be unloaded.* The Delaware, Lackawanna and Western Railroad Company, its agents or employees, shall unload immediately cars LV 31254, CIL 32094 and CIL 31940, loaded with granite and polished limestone, now on hand at Murray Hill, N. J., consigned to Mahoney Troast Construction Co.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., April 24, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

STATEN ISLAND EDISON CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of April 1947.

Staten Island Edison Corporation ("Staten Island"), an indirect subsidiary of General Public Utilities Corporation, a registered holding company, having filed a declaration, as amended, pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following transaction:

Staten Island proposes to issue and sell for cash at principal amount to three commercial banks an aggregate of $1,000,000 principal amount of eleven month notes which will bear interest at the rate of 1½% per annum. The net cash proceeds of the sale of the notes are to be used for construction requirements of the company and to repay an outstanding $350,000 sixty-day 1½% promissory note maturing May 5, 1947.

Such declaration, as amended, having been duly filed, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that no adverse findings are necessary with respect to the declaration, as amended, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective, and deeming it appropriate to grant a request of declarant that the order become effective at the earliest date possible:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the declaration, as amended, be, and the same hereby is, permitted to become effective forthwith.

EAST COAST PUBLIC SERVICE CO. AND VIRGINIA EAST COAST UTILITIES, INC.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 21st day of April A. D. 1947.

East Coast Public Service Company, a registered holding company, and its public utility subsidiary company, Virginia East Coast Utilities, Incorporated, have filed a joint declaration pursuant to sections 7 and 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder, regarding the proposed issue and sale by Virginia East Coast Utilities, Incorporated of its promissory note in the principal amount of $250,000, bearing interest at the rate of 2½% per annum and maturing on July 7, 1947, to the Baltimore National Bank of Baltimore, Maryland. The proceeds of such sale are to be used in part to retire its present loan of $200,000 from the Baltimore National Bank, and in part for the construction of property additions.

East Coast Public Service Company proposes to guarantee the repayment of such note with interest to the Baltimore National Bank.

Said joint declaration having been filed on the 4th day of April, 1947, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said joint declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and request having been made for accelerated action upon the joint declaration; and

The Commission finding with respect to said joint declaration that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint declaration be permitted to become effective; and

The declarants having requested that the Commission take appropriate action to accelerate its order herein, and that the order become effective forthwith, and the Commission deeming it appropriate to grant such request;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that said joint declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

[Vesting Order CE 379]

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN PENNSYLVANIA COURTS

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it having been found:

1. That each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or the enemy-occupied territory identified in Column 2 of said Exhibit A opposite such person's name;

2. That it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A opposite such person's name, and such measures having been taken;

3. That as a result of such action or proceeding each of said persons obtained or was determined to have the property particularly described in Column 4 of said Exhibit A opposite such person's name;

4. That such property is in the possession or custody of, or under the control of, the person described in Column 5 of said Exhibit A opposite such property;

5. That, in taking such measures in each of such actions or proceedings, costs and expenses have been incurred in the amount stated in Column 6 of said Exhibit A opposite such action or proceeding;

Now, therefore, there is hereby vested in the Attorney General of the United States, to be used or otherwise dealt with in the interest of and for the benefit of the United States, interests in the property in the possession or custody of, or under the control of, the persons described in Column 5 of said Exhibit A in amounts equal to the sums stated in Column 6 of said Exhibit A.

The term "designated enemy country" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended. The term "enemy-occupied territory" as used herein shall have the meaning prescribed in Rules of Procedure, Office of Alien Property, § 501.6 (8 CFR, Cum. Supp., 503.6).

Executed at Washington, D. C., on April 22, 1947.

For the Attorney General.

YANASE AUTOMOBILE CO.

In re: Debt owing to Yanase Automobile Co. F-39-5280-C-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Yanase Automobile Co., the last known address of which is Tokyo, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

2. That the property described as follows: That certain debt or other obligation owing to Yanase Automobile Co., by General Motors Overseas Operations, Division of General Motors Corporation, 1775 Broadway, New York 19, N. Y., in the amount of $128.39, as of December 31, 1945, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy county (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on April 16, 1947.

FEDERAL REGISTER

VOLUME 12 NUMBER 84

Washington, Tuesday, April 29, 1947

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9843

AUTHORIZING THE SECRETARY OF THE NAVY TO TRANSFER CERTAIN VESSELS AND MATERIAL AND TO FURNISH CERTAIN ASSISTANCE TO THE REPUBLIC OF CHINA

WHEREAS the act of July 16, 1946, Public Law 512, Seventy-ninth Congress, provides, in part:

"That notwithstanding the provisions of any other law, the President is authorized, whenever in his discretion the public interests render such a course advisable, or will assist in relieving United States forces of duty in China or putting the Government of the Republic of China in better position to protect or improve the safety of navigation in its waters, to provide to the Republic of China such naval services, training, plans, and technical advice as he may deem proper; and to dispose of naval vessels and craft, not to exceed two hundred and seventy-one vessels and craft under authority of this Act, which are in excess of the naval needs of the United States, floating drydocks of capacity sufficient to accommodate any vessel or craft disposed of under authority of this Act, and material necessary for the operation and maintenance of the vessels and craft disposed of under authority of this Act and for the training of the crews of such vessels and craft, to the Republic of China by sale, exchange, lease, gift, or transfer for cash, credit, or other property, with or without warranty, or upon such other terms and conditions as he may deem proper: *Provided*, That prior to the disposition under the authority of this Act of any battleship, aircraft carrier of any type, cruiser, destroyer (but not destroyer escort), or submarine the President shall first obtain the authority of the Congress in each instance: *Provided further*, That no information, plans, advice, material, documents, blueprints, or other papers, bearing a secret or top-secret classification shall be disposed of or transferred under authority of this Act.

"SEC. 2. The President is authorized, upon application from the Republic of China, and whenever in his discretion the public interests render such a course advisable, to detail not to exceed one hundred officers and two hundred enlisted men of the United States Navy and Marine Corps to assist the Republic of China in naval matters: *Provided*, That United States naval or Marine Corps personnel shall not accompany Chinese troops, aircraft, or ships on other than training maneuvers or cruises * * *."

WHEREAS the Republic of China has requested the United States to transfer to it certain specified naval vessels, craft, and floating drydocks, and to furnish it certain technical advice and assistance in connection with the organization and maintenance by it of a naval establishment; and

WHEREAS such vessels and craft are in excess of the naval needs of the United States; and

WHEREAS it appears that the transfer of such vessels, craft, and floating drydocks, and the furnishing of such advice and assistance to the Republic of China would be in accordance with the conditions and limitations of the said act of July 16, 1946, and would be in the public interest:

NOW, THEREFORE, by virtue of the authority vested in me by the said act of July 16, 1946, and as President of the United States and as Commander in Chief of the Army and Navy of the United States, it is hereby ordered as follows:

SECTION 1. Subject to the conditions and limitations contained in the said act of July 16, 1946, the Secretary of the Navy is authorized:

(a) To transfer to the Republic of China without compensation the said vessels, craft, and floating drydocks.

(b) To repair, outfit, and equip the vessels, craft, and floating drydocks which are to be transferred under paragraph (a) of this section, and to transfer material deemed by the Secretary of the Navy to be necessary for the operation and maintenance of the vessels and craft so transferred, all on the basis of cash reimbursement of the cost thereof by the Republic of China.

(c) To furnish to the Republic of China such plans, blueprints, documents, and other information in connection with such vessels, craft, and floating drydocks, and such technical information and advice in connection with the organization and maintenance of a naval establishment by the Republic of China which has not been classified as secret or top-secret as the Secretary of the Navy may deem proper.

(d) To train personnel for the operation of such vessels, craft, and floating drydocks, and for such other naval purposes as the Secretary of the Navy may deem proper.

(e) To detail not more than one hundred officers and two hundred enlisted men of the United States Navy or Marine Corps to assist the Republic of China in naval matters under such conditions and subject to such rules and regula-

EXECUTIVE ORDER 9844

DESIGNATING THE UNITED STATES MISSION TO THE UNITED NATIONS AND PROVIDING FOR ITS DIRECTION AND ADMINISTRATION

By virtue of and pursuant to the authority vested in me by the United Nations Participation Act of 1945 (59 Stat. 619) and as President of the United States, and for the purpose of defining further the functions of the Representative of the United States at the seat of the United Nations in connection with the participation of the United States in the United Nations, it is hereby ordered as follows:

1. The Representative at the seat of the United Nations, the Deputy Representative to the Security Council, Representatives in the Economic and Social Council and its Commissions, the Trusteeship Council, the Atomic Energy Commission, the Commission for Conventional Armaments and the Military Staff Committee, and representatives to organs and agencies of the United Nations hereafter appointed or designated and included within the United States Mission to the United Nations herein provided for, together with their deputies, staffs and offices, shall be known as the United States Mission to the United Nations.

2. The Representative of the United States at the seat of the United Nations shall be the Chief of Mission in charge of the United States Mission to the United Nations. The Chief of Mission shall coordinate at the seat of the United Nations the activities of the Mission in carrying out the instructions of the President transmitted either by the Secretary of State or by other means of transmission as directed by the President. Instructions to the Representatives of the Joint Chiefs of Staff in the Military Staff Committee of the United Nations shall be transmitted by the Joint Chiefs of Staff. On request of the Chief of Mission, such Representatives shall, in addition to their responsibilities under the Charter of the United Nations, serve as advisers in the United States Mission to the United Nations.

3. The Chief of Mission shall also be responsible for the administration of the Mission, including personnel, budget, obligation and expenditure of funds, and the central administrative services; provided that he shall not be responsible for the internal administration of the personnel, budget, and obligation and expenditure of funds of the United States Representatives in the Military Staff Committee. The Chief of Mission shall discharge his responsibilities under this paragraph in accordance with such rules and regulations as the Secretary of State may from time to time prescribe.

4. This order shall be published in the FEDERAL REGISTER.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 48]

REGULATIONS UNDER PRODUCE AGENCY ACT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision, as hereinafter proposed, of the regulations (7 CFR and Supps. 48.1 et seq.) under the so-called Produce Agency Act (44 Stat. 1355; 7 U. S. C. 494), entitled "An act to prevent the destruction or dumping, without good and sufficient cause therefor, of farm produce received in interstate commerce by commission merchants and others and to require them truly and correctly to account for all farm produce received by them."

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision shall file the same, in quadruplicate, with the Hearing Clerk, Room 0308 South Building, United States Department of Agriculture, Washington 25, D. C., not later than 5:30 p. m., e. s. t., on the 20th day after publication of this notice in the FEDERAL REGISTER.

The proposed revised regulations are as follows:

COMPLAINTS

48.11 Filing of complaints.

AUTHORITY: §§ 48.1 to 48.11, inclusive, issued under 44 Stat. 1355; 7 U. S. C. 491-497.

DEFINITIONS

§ 48.1 *Meaning of words.* Words in this part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 48.2 *Definitions.* Unless the context otherwise requires, the following terms shall be construed as follows:

(a) "Act" means "An act to prevent the destruction or dumping, without good and sufficient cause therefor, of farm produce received in interstate commerce by commission merchants and others, and to require them truly and correctly to account for all farm produce received by them," approved March 3, 1927 (44 Stat. 1355; 7 U. S. C. 491-497).

(b) "Person" means an individual, partnership, association or corporation.

(c) "Secretary" or "Secretary of Agriculture" means the Secretary of the United States Department of Agriculture or any preson to whom authority has heretofore lawfully been delegated, or to whom authority may hereafter lawfully be delegated, to act in his stead.

(d) "Administration" means the Production and Marketing Administration, United States Department of Agriculture.

(e) "Administrator" means the Administrator of the Production and Marketing Administration, United States Department of Agriculture, or any officer or employee of the Administration to whom authority has heretofore lawfully been delegated, or to whom authority may hereafter lawfully be delegated, to act in his stead.

(f) "Produce" means all fresh fruits and fresh vegetables generally considered by the trade as perishable fruits and vegetables, melons, dairy or poultry products, or any perishable farm products of any kind or character.

(g) "Truly and correctly to account" means, unless otherwise stipulated by the parties, that the consignee of produce shall, within ten days after the final sale is made of any produce received for sale on consignment in interstate commerce or in the District of Columbia, render to the consignor thereof a true and correct itemized statement of the gross sales as well as all selling charges and all other charges or expenses paid and a statement of the net proceeds or deficit, and make full payment to the consignor of the net proceeds so received together with a full explanation of the disposition of any and all produce not sold,

(h) "Good and sufficient cause" means, with respect to destroyed, abandoned, discarded, or dumped produce, that the produce so dealt with had no commercial value, or that some other legal justification for so dealing with such produce existed, such as an order of condemnation by a health officer or definite authority from the shipper.

(i) "Commercial value" means any value that the produce may have for any purpose that can be ascertained in the exercise of due diligence by the consignee without unreasonable expense or loss of time.

ADMINISTRATION

§ 48.3 *Administrator.* The Administrator shall perform, for and under the supervision of the Secretary, such duties as the Secretary may require in the administration and enforcement of the provisions of the act and the regulations in this part.

VIOLATIONS

§ 48.4 *Destroying or dumping.* Any person, receiving produce in interstate commerce or in the District of Columbia for or on behalf of another, who, without good and sufficient cause, shall destroy or abandon, discard as refuse, or dump any produce, directly or indirectly or through collusion with any person, shall be considered to have violated the act.

§ 48.5 *False report or statement.* Any person, receiving produce in interstate commerce or in the District of Columbia for or on behalf of another, shall be considered to have violated the act if, knowingly and with intent to defraud, he makes any false report or statement to the person from whom such produce was received concerning the handling, condition, quality, quantity, sale, or disposition thereof.

§ 48.6 *Failure to account.* Any person, receiving produce in interstate commerce or in the District of Columbia for or on behalf of another, shall be considered to have violated the act, if, knowingly and with intent to defraud, he fails truly and correctly to account to the person from whom such produce was received.

CERTIFICATES OF INSPECTION

§ 48.7 *Inspection and certification.* The classes of persons described in paragraphs (a), (b), and (c) of this section are hereby designed to make inspections regarding the quality and condition of produce received in interstate commerce or in the District of Columbia, and to issue certificates setting forth the quality and condition of such produce which is to be destroyed, abandoned, discarded as refuse, or dumped. Any person shipping, receiving, or financially interested in such produce may make application for such inspection to the designated classes of persons.

(a) Any person authorized by the United States Department of Agriculture to inspect fruits and vegetables under any law (including, but not being limited to, the so-called Farm Products Inspection Law (59 Stat. 158, 7 U. S. C. 414) or any amendment thereto, and the Perishable Agricultural Commodities Act, 1930 (46 Stat. 531, as amended, 7 U. S. C. 499a et seq.)), providing for the market inspection of farm products;

(b) Any health officer or food inspector of any State, county, parish, city, or municipality or of the District of Columbia;

(c) When, and only when, no inspector or health officer, designated in paragraph (a) or (b) of this section, is available, the inspection and certification provided herein may be made by any two persons having no financial interest in the produce involved or in the business of any person financially interested therein, and who are unrelated by blood or marriage to any such financially interested person, and who at the time of the inspection and certification, and for a period of at least one year immediately prior thereto, have been engaged in the handling of the same general kind or class of produce with respect to which the inspection and certification are to be made. Any certificate issued by any persons designated in this paragraph must include a statement that each of them possesses the requisite qualifications.

§ 48.8 *Certificates; issuance; contents.* Each certificate issued under the act and pursuant to the regulations in this part must identify the particular lot of produce inspected; name the commodity; give the date upon which the inspection was made; state the quantity of the produce, the name and address of the agent handling the same and the fee, if any, charged therefor; and shall certify as to the quality and condition of such produce, and that it was without commercial value at the time of inspection.

§ 48.9 *Application for inspection and certification; how made; contents.* Application for inspection may be filed with the person or persons authorized to make such inspection or with anyone employed in such person's office and may be made in writing or by telegraph, or orally or by telephone. If made orally, the person or persons requested to make the inspection may require that it be confirmed in writing by the applicant. The application must show the name and address of the shipper, the name and address of the applicant, and the location and description of the produce, with marks, brands, or other specific identification if practicable.

§ 48.10 *Copy of certificate to the Administrator.* Any person issuing a certificate under the regulations in this part must mail promptly a copy of the certificate to the Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

COMPLAINTS

§ 48.11 *Filing of complaints.* Any person having reason to believe that the act or the regulations in this part have been violated should submit promptly all available facts with respect thereto to the Administrator for investigation and appropriate action.

Done at Washington, D. C., this 23d day of April 1947. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Circular No. 1646]

ALASKA

SALE OF LOTS IN EAST ADDITION TO KODIAK TOWN SITE

1. *Statutory authority.* The lots in the East Addition to Kodiak Town Site, Alaska, will be disposed of under Section 2381, Revised Statutes (43 U. S. C. 712). The town site plat of survey No. 2538B for this addition was accepted on February 17, 1942, and officially filed on January 29, 1947.

2. *Lots, areas, and minimum prices.* The lots which will be offered for sale, and the areas and minimum prices thereof, are shown in the attached schedule.

3. *Public sale.* The lots will be offered for sale by the Regional Administrator or his representative at public outcry to the highest bidder at Kodiak, Alaska, on May 26, 1947, beginning at 10 a. m. The sale will be continued from day to day as long as may be necessary until all the lots have been offered.

4. *Payments.* No lot shall be sold for less than the appraised price. Full payment may be made in cash on the date of sale, or one-fourth of the purchase price may be paid in cash at that time and the balance in not to exceed three equal annual installments, with interest at the rate of four percent per annum to the date of payment. Payment on the date of sale must be made to the officer conducting the sale. The deferred installments, with the interest, must be paid to the Manager, District Land Office, Anchorage, Alaska.

5. *Citizenship requirements.* Every individual purchasing a lot will be required to furnish evidence that he is a citizen of the United States or that he has declared his intention to become such a citizen, and every corporation purchasing a lot will be required to furnish evidence, including a certified copy of its articles of incorporation, showing that it was organized under the laws of the United States or of some State, Territory, or possession thereof, and that it is authorized to acquire and hold real estate in Alaska.

6. *Manner of sale.* Bids and payments may be made in person or by agent, but

may not be made by mail nor at any time or place other than that fixed by these regulations. Any person may purchase any number of lots for which he is the successful bidder.

7. *Authority of officer conducting the sale.* The officer conducting the sale is hereby authorized to reject any and all bids for any lot, and to suspend, adjourn or postpone the sale of any lot or lots. After all the lots have been offered, the sale will be adjourned or closed, as the officer in charge may deem proper.

8. *Forfeitures for nonpayment.* If any person who has made partial payment on a lot fails to make any succeeding payment required under these regulations, at the date such payment becomes due, the money theretofore paid and his right to the lot will be forfeited.

9. *Disposal of lots after sale has been closed.* Lots remaining unsold at the close of the sale will be subject to private entry for cash at their appraised value, and lots the rights to which have been declared forfeited for nonpayment of any installment of the purchase price will be subject to private entry for cash at such purchase price.

10. *Reservations.* Patents for the lots, when issued, will contain a reservation of fissionable materials and conditions and limitations as provided by the Act of August 1, 1946 (60 Stat. 755). Patents will also contain reservations of rights-of-way for ditches or canals in accordance with the act of August 30, 1890 (26 Stat. 391), and for the construction of railroads and telegraph and telephone lines as provided by the act of March 12, 1914 (38 Stat. 305).

11. *Warning.* All persons are warned against forming any combination or agreement which will prevent any lot from selling advantageously or which will, in any way, hinder or embarrass the sale. Any persons so offending will be prosecuted under section 59 of the Criminal Code of the United States (18 U. S. C. 113).

(R. S. 453, 2381, 2478; 43 U. S. C. 2, 712, 1201)

FRED W. JOHNSON,
Director.

Approved: April 11, 1947.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, Part 522 of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862, and as amended June 25, 1942, 7 F. R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, learner occupations, wage rates, learning periods, and effective and expiration dates of the certificates are as follows:

Independent telephone learner regulations, July 17, 1944 (9 F. R. 7125):

The special learner certificates issued to the following companies under the above regulations provide for the employment of learners in the occupation of commercial switchboard operator for a period not in excess of 480 hours at not less than 30 cents per hour for the first 320 hours and 35 cents per hour for the remaining 160 hours of the learning period. The number of learners authorized to be employed depends on the number of operators in the exchange, i. e., one learner if the exchange employs 8 operators or less, two learners if the exchange employs from 9 to 18 operators, etc. See Regulations, Part 522, § 522.083.

Hooper Telephone Company, Hooper, Nebraska; effective April 13, 1947, expiring April 12, 1948.

Primghar Telephone Company, Primghar, Iowa; effective April 10, 1947, expiring April 9, 1948.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Regulations, Part 522.

Signed at Washington, D. C., this 16th day of April, 1947.

PAULINE C. GILBERT,
Authorized Representative of the Administrator.

NOTICE OF HEARING

In the matter of the application of Western Air Lines, Inc., and United Air Lines, Inc., under sections 401, 408 and 412 of the Civil Aeronautics Act of 1938, as amended, for an order approving an agreement for the sale of certain properties and the transfer and amendment of a certificate of public convenience and necessity for route No. 68, and amendment of a certificate of public convenience and necessity for route No. 1.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, that a hearing in the above-entitled proceeding is assigned to be held on May 5, 1947, at 10 a. m., eastern standard time, at the Carlton Hotel, 16th and K Streets NW., Washington, D. C., before Examiner Thomas L. Wrenn.

Without limiting the scope of the issues involved in this application, particular attention will be directed to the following matters:

1. Whether the transfer of the certificate under section 401 (i) of the act is consistent with the public interest.

2. Whether the agreement requires approval under section 408 (a) (2) of the Civil Aeronautics Act and, if so, whether it meets the statutory tests prescribed by the act.

3. Whether the agreement, insofar as section 412 of the act is applicable, is adverse to the public interest or is in violation of the act.

4. Inasmuch as the application requests in the event of approval of the agreement that United's certificate for route No. 1 be amended to include route No. 68, whether the public convenience and necessity requires such amendment under section 401 (h) of the act.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board on or before May 5, 1947, a statement setting forth the issues of fact or of law, raised by said application, which he desires to controvert.

For further details of the authorization requested, interested parties are referred to the application on file with the Civil Aeronautics Board.

Dated Washington, D. C., April 24, 1947.

By the Civil Aeronautics Board.

FEDERAL COMMUNICATIONS COMMISSION

CURRENT AM CONSTRUCTION AND OPERATING COSTS

QUESTIONNAIRE TO NEW STATIONS

APRIL 14, 1947.

Considerable interest has been shown by construction permit holders and applicants in the current cost of entering the standard broadcast industry and in the average revenues and expenses of new AM stations. A substantial number of AM stations have gone on the air since VJ-Day, and their experience offers a basis for making a realistic appraisal of the present situation with respect to these facts.

Accordingly, the Commission is mailing to each station authorized since October 8, 1945, a one-page questionnaire asking information on actual construction costs and monthly expenses and revenues. It is hoped that these reports will be returned to the Commission on or before April 30.

When study of these reports is completed, the over-all results will be made public, but individual station data will not be disclosed.

T. J. SLOWIE,
Secretary.

MUNICIPAL POLICE VHF RADIO CHANNELS

APRIL 17, 1947.

Frequency service-allocation reports for the non-government fixed and mobile services operating in the 30-40 Mc, 72-76 Mc and 152-162 Mc bands (Docket No. 6651) have been adopted and related public notices released (Nos. 3529, 95684 and 3544). Since a majority of the presently available equipment is not capable of adjacent channel operation, normally only alternate channels will be assigned at the present time. The attached list contains a summary of such alternate VHF channels available for assignment to municipal police radio stations.

Pending revision of Part 10 of the Commission's rules and regulations, certain of the alternate channels have been tentatively designated as "land" or "mobile" to aid in the proper selection of channels. Channels designated "mobile" are for assignment to mobile units exclusively. Channels designated "land" are primarily for assignment to land stations, but may also be assigned to mobile units associated with land stations operating on the specific channel.

In order to expedite the handling of applications, it is suggested that in areas where frequency assignment groups are organized each request for a new frequency or a change of frequency be accompanied by a statement from the appropriate state or area frequency assignment group indicating approval of the frequency requested.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

PRESS WIRELESS, INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Press Wireless, Inc., Docket No. 8057, File Nos. 6514-MLHT-B, 6515-MLHT-B; for modification of licenses to permit the handling of deferred commercial messages. In re applications of Press Wireless, Inc., Docket No. 7987, File Nos. 10367-MLHT-B, 10368-MLHT-B; for modification of licenses to permit the handling of administrative press messages.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 17th day of April 1947:

The Commission having under consideration the applications filed on February 12, 1947, and amendments thereto filed on March 27, 1947, by Press Wireless, Inc., for modification of its licenses in the fixed public press service and for special temporary authority, to permit the handling of messages not ordinarily falling within the press classification, but which relate to the operation and business administration of press, radio and other entities engaged in the gathering and dissemination of news or information for publication, broadcast, or other public dissemination; and also having under consideration the objections filed by RCA Communications, Inc., All American Cables and Radio, Inc., The Commercial Cable Company and Mackay Radio and Telegraph Company, Inc., to a grant of the aforementioned applications; and

It appearing, that the Commission upon examination of the above-described applications is unable to determine that public interest, convenience or necessity would be served by the granting thereof;

It is ordered, Pursuant to section 309 (a) of the Communications Act of 1934, as amended, that the above-described amended applications of Press Wireless, Inc., are designated for hearing for the following reason:

1. To determine whether there is a public need for the use of applicant's telegraph communication channels for the handling of administrative press messages which cannot be met adequately by existing cable facilities and the facilities of radio carriers in the fixed public service;

2. To determine the nature of the service proposed to be rendered by the applicant, including the charges and divisions thereof, the practices and regulations in connection therewith, as compared to the services now offered by the applicant;

3. To determine the relationship between the service proposed herein and the service proposed by the applicant in connection with its applications now pending in the proceedings in Docket No. 8057;

4. To determine the relative speed of service and scheduled hours of operation of the proposed service as compared with the service of competing cable and radio carriers;

5. To determine the extent to which applicant's authorized frequencies and facilities would be used for rendering the proposed service and whether such use is the most desirable and efficient use thereof from the standpoint of providing the United States public with rapid and efficient communication service;

6. To determine what effect, if any, the rendition of the proposed service by the applicant will have upon the communication services now being rendered by the applicant and upon the communication services rendered by other carriers furnishing foreign telegraph communication service;

7. To determine applicant's financial ability to provide the necessary physical equipment, offices and personnel in order to render the proposed service;

8. To determine the effect which the rendition of the proposed service would have on applicant's financial condition and on its ability to serve the public as a press carrier;

9. To determine any other relevant facts which would indicate whether or not a grant of the above-described applications would serve public interest, convenience or necessity;

It is further ordered, That the proceedings herein are consolidated with the proceedings in Docket No. 8057;

It is further ordered, That Press Wireless, Inc., is made a party respondent to these proceedings; that The Western Union Telegraph Company, RCA Communications, Inc., Commercial Pacific Cable Company, All America Cables and Radio, Inc., The Commercial Cable Company and Mackay Radio and Telegraph Company, Inc., interveners in the proceedings in Docket No. 8057, are hereby given leave to intervene and participate fully in the proceedings herein; and that a copy hereof be served upon each of the above named carriers, and upon all other carriers subject to the Communications Act of 1934, as amended, engaged in rendering telegraph communication service between the United States and foreign points.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

JOHN J. DEMPSEY

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of January 1947;

The Commission having under consideration the petition of John J. Dempsey, filed with the Commission on March 22, 1946, individually and as Governor of the State of New Mexico, requesting the Commission to investigate the charges contained in said petition and to take appropriate action thereon, and

It appearing, that said petition alleges, in substance, that the Albuquerque Broadcasting Company, licensee of Radio Station KOB, Albuquerque, New Mexico, through its sole stockholder, T. M. Pepperday, publisher of the Albuquerque Journal, a daily newspaper, has permitted the use of said radio station for broadcast purposes by one, Larry Bynon, and

It appearing further, that said petition alleges that the broadcasts of said Larry Bynon were designed to advance the editorial policies of said T. M. Peppperday on public questions of major importance without properly identifying the sponsor of such programs, and

It appearing further, that said petition alleges that said licensee of Station KOB has failed to comply with the provisions of section 317 of the Communications Act of 1934, as amended, and § 3.409 of the Commission's rules and regulations, in that it failed to identify the sponsors of said Bynon's broadcasts, and

It appearing further, that said Albuquerque Broadcasting Company has filed a response containing its "comments" regarding the allegations set forth in said petition, substantially denying the acts of wrongdoing alleged therein, and

It appearing further, that a reply to said "comments" has been filed by petitioner, and further "comments" have been filed by the licensee, and

It appearing further, that said petition, "comments" and reply have raised certain questions concerning the matters contained therein which require clarification, supplementation and further verification, and

It appearing further, that such clarification, supplementation and verification can best be obtained by the institution by the Commission, on its own motion, of an inquiry into the facts pursuant to sections 4 (i) and 403 of the Communications Act of 1934, as amended.

It is ordered, That said petition of John J. Dempsey, be, and it is hereby, designated for hearing, at a time and place to be fixed by subsequent order, for the purpose of inquiring into and ascertaining full information concerning the following matters which have been placed in issue by said petition, "comments" and reply:

1. Whether the Albuquerque Broadcasting Company, licensee of Radio Station KOB, through its sole stockholder, T. M. Pepperday, has used or permitted the use of the licensee's broadcast facilities by any person or persons for the purpose of advancing the editorial policies of said licensee, or of said T. M. Pepperday, on questions of public interest;

2. Whether the acts set forth in item "1" above occurred in connection with the broadcasts of said Larry Bynon on January 16 and 23, 1946; February 1, 8, 15, and 22, 1946; and March 1, 8, 15 and 22, 1946;

3. Whether the Albuquerque Broadcasting Company has at all times identified the sponsor of the broadcasts made by said Larry Bynon on the dates set forth in item "2" above, as required by section 317 of the Communications Act of 1934, as amended, and § 3.409 of the Commission's rules and regulations;

4. Full information concerning the programs broadcast over the facilities of Radio Station KOB by said Larry Bynon on the dates set forth in item "2" above, including the facts and circumstances surrounding these broadcasts.

It is further ordered, That the Hearing Officer to be designated to preside at said hearing shall not prepare any decision in this proceeding but shall certify the record of the hearing to the Commission for its consideration.

Notice is hereby given that the provisions of § 1.857 of the Commission's rules and regulations shall be applicable to the hearing designated herein.

CEDAR VALLEY BROADCASTING CO. AND MASON CITY BROADCASTING CO.

ORDER AMENDING ISSUES

In re applications of Cedar Valley Broadcasting Company, Austin, Minnesota, Docket No. 8165, File No. BP-5085; Louis Wolf, Abbott E. Wolf, J. George Worf and William Robert Worf, doing business as Mason City Broadcasting Company, Mason City, Iowa, Docket No. 8166, File No. BP-5324; for construction permits.

The Commission having under consideration a petition filed March 18, 1947 by Cedar Valley Broadcasting Company, Austin, Minnesota, requesting leave to enlarge the issues in the above-entitled proceeding so as to include the following issues:

1. To determine the amount and character of overlap in service between the proposed new station at Mason City, Iowa, and Station KATE, located at Albert Lea, Minnesota, the areas and populations involved and the service, if any, rendered therein by any other broadcast station.

2. To determine the interest in Albert Lea-Austin Broadcasting Company, Inc., the licensee of Station KATE and the offices in said corporation held by any of the applicants in Docket No. 8166, as well as any other connections between said applicants and said Radio Station KATE,

and

It appearing that the issues requested are too general and that the standard issue used by the Commission regarding questions of overlap is preferable;

It is ordered, This 18th day of April 1947, that the petition be, and it is hereby, granted in part; and the issues in the above-entitled proceeding, dated February 27, 1947 be, and they are hereby, enlarged to include the following: To determine the overlap, if any, that will exist between the service areas of the proposed station and of station KATE at Albert Lea Minnesota the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

ELLIS COUNTY BROADCASTING CO. AND TEXAS STAR BROADCASTING CO.

CORRECTED ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Ellis County Broadcasting Company, Waxahachie, Texas, Docket No. 8257, File No. BP-5339; Roy Hofheinz and W. N. Hooper, d/b as Texas Star Broadcasting Company, Dallas, Texas, Docket No. 8258, File No. BP-5820; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of March, 1947;

The Commission having under consideration the above-entitled applications of Ellis County Broadcasting Company requesting a construction permit for a new standard broadcast station to operate on 730 kc, with 250 w power daytime only, at Waxahachie, Texas, and

Roy Hofheinz and W. N. Hooper, d/b as Texas Star Broadcasting Company, requesting a construction permit for a new standard broadcast station to operate on 740 kc, with power of 10 kw day and 5 kw night, unlimited time, employing a directional antenna, at Dallas, Texas;

It is ordered, That, pursuant to section 309 (a) of the Communication Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicant partnership and the partners and of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operations of the proposed stations and the character of other broadcast service available to those areas and populations.

3. To determine type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operations of the proposed stations would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operations of the proposed stations would involve objectionable interference each with the other or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installations and operations of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

FOUNDATION CO. OF WASHINGTON

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Foundation Company of Washington, Washington, D. C., Docket No. 8279, File No. BP-4997, for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 4th day of April 1947;

The Commission having under consideration its action of March 20, 1947, dismissing, without prejudice, the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 580 kc, with 5 kw power, unlimited time, employing a directional antenna, at Washington, D. C.;

It is ordered, That said action of March 20, 1947, dismissing without prejudice, the above-entitled application and the order therefor, be and they are hereby, rescinded and vacated; and

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, and said application be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors, and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with Station WQQW, Washington, D. C., or with any other existing broadcast stations, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of The Patriot Company, Harrisburg, Pennsylvania (File No. BP-4091, Docket No. 6884), WHP, Inc. (File No. BP-4334, Docket No. 7115), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be incompliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Metropolitan Broadcasting Corporation, licensee of Station WQQW, Washington, D. C. be, and it is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled application for modification of a construction permit from 250 w to 1 kw, daytime only, to install a new transmitter, make changes in vertical antenna and to change transmitter location, using the assigned frequency of 1220 kc at Providence, Rhode Island;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate station WEPL as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station WEPL as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the station as proposed would involve objectionable interference with station WWON, Woonsocket, Rhode Island, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the station as proposed would involve objectionable interference with the services proposed in the pending application of Scenic City Broadcasting Co., Inc., Middletown, Rhode Island (File No. BP-4902), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of station WEPL as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That, Associated Electronic Enterprises, licensee of Station WWON, Woonsocket, Rhode Island, be, and it is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

DEMOCRAT PRINTING CO. (KSEO)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of R. F. Story and Bennett Story d/b as Democrat Printing Company (KSEO), Durant, Oklahoma, Docket No. 8303, File No. BMP-2566, for modification of construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of April 1947;

The Commission having under consideration the above-entitled application of construction permit so as to permit operation of station KSEO on the frequency 1340 kc with 250 watts power, unlimited time, rather than on the frequency 750 kc with 250 watts power, daytime only, as authorized in its present construction permit (File No. BP-4897);

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate station KSEO as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KSEO as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station KSEO as proposed would involve objectionable interference with station KAND, Corsicana, Texas, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station KSEO as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of station KSEO as proposed would be in compliance with the Commission's Rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Alto, Inc., licensee of station KAND, Corsicana, Texas, be, and it is hereby, made a party to this proceeding.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

[Docket No. IT-6057]

DEEPWATER LIGHT AND POWER CO. AND DEEPWATER OPERATING CO.

ORDER INSTITUTING INVESTIGATION

It appears to the Commission that:

(a) Deepwater Light and Power Company ("Power Company") and Atlantic City Electric Company are joint owners of Deepwater Generating Station located in Lower Penns Neck Township, New Jersey. Pursuant to an agreement executed January 3, 1933, by and between Power Company and Atlantic City Electric Company as joint owners, and Deepwater Operating Company ("Operating Company"), Deepwater Generating Station is operated by Operating Company. Under said agreement each of the owners is entitled to 50% of the entire output of the generating station, after supplying the requirements of E. I. du Pont de Nemours & Company, and either owner is entitled to the unused capacity of the other owner.

(b) Under an agreement dated February 1, 1933, Power Company sells its entire entitlement of electric energy from Deepwater Generating Station to Philadelphia Electric Company. The energy so sold is generated in New Jersey and transmitted and consumed in Pennsylvania by means of facilities, among others, owned or operated, by Deepwater Light and Power Company and Deepwater Operating Company. Such a sale is a sale of electric energy at wholesale in interstate commerce, and Deepwater Light and Power Company and Deepwater Operating Company are therefore "public utilities" within the meaning of the Federal Power Act.

(c) Pursuant to the aforesaid agreement of February 1, 1933, designated in the files of the Commission as Deepwater Light and Power Company Rate Schedule FPC No. 1 and Philadelphia Electric Company Rate Schedule FPC No. 3, Philadelphia Electric Company through "cost of service" payments for the energy it purchases, virtually guarantees Power Company a return of approximately 7% on the latter's undepreciated investment.

The Commission finds that:

(1) It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Federal Power Act, that an investigation be instituted by the Commission into and concerning any rate, charge, or classification, demanded, observed, charged or collected by Deepwater Light and Power Company or Deepwater Operating Company for or in connection with the sale of electric power and energy to Philadelphia Electric Company under Deepwater Light and Power Company Rate Schedule FPC No. 1, and any rule, regulation, practice or contract affecting such rate, charge or classification,

(2) It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Federal Power Act, that an investigation be instituted by the Commission into and concerning all other rates, charges, or classifications demanded, observed, charged or collected by Deepwater Light and Power Company or Deepwater Operating Company for or in connection with any transmission or sale of electric energy subject to the jurisdiction of the Commission, and any rules, regulations, practices, or contracts affecting such rates, charges, or classifications.

The Commission orders that:

An investigation be and it hereby is instituted for the purpose of enabling the Commission:

(A) To determine whether any rate, charge, or classification demanded, observed, charged, or collected by Deepwater Light and Power Company or Deepwater Operating Company for or in connection with the sale of electric power and energy to Philadelphia Electric Company under Deepwater Light and Power Company Rate Schedule FPC No. 1, or any rule, regulation, practice, or contract affecting such rate, charge or classification, is unjust, unreasonable, unduly discriminatory or preferential;

(B) To determine whether in connection with any transmission or sale of electric energy subject to the jurisdiction of this Commission under the Federal Power Act, by Deepwater Light and Power Company or Deepwater Operating Company, any rates, charges, classifications demanded, observed, charged, or collected, or any rules, regulations, practices or contracts affecting such rates, charges, or classifications, are unjust, unreasonable, unduly discriminatory or preferential; and

(C) If, after hearing, it shall find that any of such rates, charges, classifications, rules, regulations, practices or contracts are unjust, unreasonable, unduly discriminatory, or preferential, to determine and fix by appropriate order or orders, just and reasonable rates, charges, classifications, rules, regulations, practices, or contracts to be thereafter observed and in force.

FIRST IOWA HYDRO-ELECTRIC COOPERATIVE

ORDER DENYING PETITION TO RECONSIDER AND POSTPONING ORAL ARGUMENT

APRIL 23, 1947.

(1) On April 8, 1947, in this proceeding, oral argument before the Commission was ordered on the issues raised by the applicant's and the State of Iowa's exceptions and objections to the findings and conclusions and the recommended decision contained in the Trial Examiner's Report, other than on the issue of the Commission's jurisdiction, said argument to commence at 10:00 a. m. on May 9, 1947, in the Commission's Hearing Room, 1800 Pennsylvania Avenue, N. W., Washington, D. C.

(2) On April 21, 1947, the State of Iowa filed "Exceptions to Commission's Order Issued April 8, 1947, and Petition to Reconsider." The State objects to exclusion from oral argument of the issue of the Commission's jurisdiction and requests that it be granted the right to orally argue this excluded issue.

The Commission finds that:

(3) The oral argument should be postponed as hereinafter provided.

(4) No facts have been presented or alleged and no principles of law have been set forth which either were not fully considered by the Commission before it entered its order setting oral argument, or, having been considered, warrant modification of the order to permit oral argument on the issue of the Commission's jurisdiction.

It is ordered, That:

(5) The aforesaid petition to reconsider is hereby denied.

(6) Oral argument in the above-entitled matter is hereby postponed to commence at 10:15 a. m. on May 16, 1947, in the Commission's Hearing Room, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: April 24, 1947.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 23d day of April, A. D. 1947.

It appearing, that car Soo 40624 containing wire at New Orleans, Louisiana, on the Louisville and Nashville Railroad Company, has been on hand for an unreasonable length of time, and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Wire at New Orleans, Louisiana, be unloaded.* The Louisville and Nashville Railroad Company, its agents or employees, shall unload immediately car Soo 40624, loaded with wire, now on hand at New Orleans, Louisiana, consigned to Edmund Loeliger for export.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order for the detention period commencing at 7:00 a. m. April 25, 1947, and continuing until the actual unloading of said car is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

[No. 29679]

EXPRESS EARNINGS, PLAN AND METHOD OF DIVISION

At a general session of the Interstate Commerce Commission held at its office in Washington, D. C., on the 22d day of April A. D. 1947.

It appearing, that upon application under section 5 (1) of the Interstate Commerce Act and after hearing, the Commission authorized the grouping of carriers and division of express earnings, in accordance with the terms of Article V of the Standard Express Agreement, set forth at pages 437–441, "Securities and Acquisition of Control of Railway Express Agency," 150 I. C. C. 423.

Section 4 of Article V of the Agreement mentioned provides:

> The balance • • • designated as "Rail Transportation Revenue" shall be distributed among the carriers in the group executing this form of agreement • • • in the proportion that the gross express transportation revenues on other than carload business for the month earned on the line of each such carrier bears to the gross express transportation revenues on other than carload business earned on the lines of all such carriers in that group for that month: • • •

It further appearing, that upon the averment of the Railway Express Agency, Incorporated, that the cost of accounting on a monthly basis was excessive and reduced the express privilege payments by about $4,000,000 per annum, the Railway Express Agency, Incorporated, proposed to the rail carriers that apportionment be made on the basis of percentages arrived at by using the results of a test year; and that by separate supplemental agreement in 1938, substantially all the carriers agreed to the revised plan and it became effective July 1, 1938. The specific terms of the agreement are set forth in Appendix C to the report in Ex Parte No. 163, "Increased Express Rates and Charges, 1946," 266 I. C. C. 369;

It further appearing, that the revised plan for distributing express revenues was not submitted to the Commission for its approval, and has not been approved;

And it further appearing, that by petition dated December 10, 1946, the Railway Express Agency, Incorporated, requests that the Commission find that the revised plan for distributing express revenues does not require additional approval under section 5 (1) of the act; and that should the Commission determine that its approval is necessary, the Railway Express Agency, Incorporated, requests that the Commission approve and authorize such plan;

It is ordered, That a proceeding of investigation and inquiry be, and it is hereby instituted by the Commission on its own motion, under the provisions of the Interstate Commerce Act, sections 5 (1) and 15, as amended, into and concerning the present practice of the Railway Express Agency, Incorporated, in the pooling and distribution of express revenues, with the view of determining whether such practices are just and reasonable and otherwise conform to the requirements of the act; and if such practices or any of them shall be found to be unjust and unreasonable or to otherwise depart from the requirements of the act, with a view to determining and prescribing just and reasonable and lawful practices;

It is further ordered, That the Railway Express Agency, Incorporated, and all of the carriers parties to the existing pooling arrangement be, and they are hereby, made respondents in this proceeding, that a copy of this order be served upon them, and also served upon the parties in "Securities and Acquisition of Control of Railway Express Agency," supra, and "Increased Express Rates and Charges," 1946, supra; and that notice of this proceeding be given to the public by depositing a copy of this order in the Office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register;

And it is further ordered, That this proceeding be, and it is, hereby assigned for hearing on June 3, 1947, at 9:30 A. M., United States Standard Time, at the offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Leonard Way.

By the Commission.

BUFFALO, NIAGARA AND EASTERN POWER CORP. ET AL.

ORDER GRANTING APPLICATION FOR EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of April 1947.

In the matters of Buffalo, Niagara and Eastern Power Corporation, File Nos. 54-106, 31-524; Niagara Hudson Power Corporation, File Nos. 54-107, 31-523; Niagara Hudson Power Corporation and its subsidiary companies, respondents, File No. 59-52.

Niagara Hudson Power Corporation having filed an application requesting a six months extension to November 1, 1947, of the time within which Niagara Hudson Power Corporation must dispose of all its interest, direct or indirect, in Buffalo, Niagara Electric Corporation and all the subsidiaries thereof, as provided by the amended plan of Niagara Hudson Power Corporation approved by Commission order of October 4, 1945 issued in respect thereof (the time for compliance with such order having been subsequently extended for a period of six months by Commission order dated October 28, 1946); and

Said application having been filed on March 31, 1947 and public notice of such filing having been duly given, and the Commission not having received a request for hearing with respect to said application within the period specified in such notice or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission, upon the basis of the reasons advanced and representations made in support of the requested extension of time, that it is appropriate in the public interest and the interest of investors to grant said request:

It is therefore ordered, That Niagara Hudson Power Corporation's request for a six months' extension to November 1, 1947 of the time within which it must dispose of all its interest, direct or indirect, in Buffalo Niagara Electric Corporation and all the subsidiaries thereof, as provided in the amended plan of Niagara Hudson Power Corporation approved by the Commission's order of October 4, 1945, be, and the same is hereby, granted, effective as of May 1, 1947.

DALLAS POWER & LIGHT CO.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of April A. D. 1947.

Dallas Power & Light Company ("Dallas"), an electric utility subsidiary of Texas Utilities Company, a registered holding company subsidiary of American Power & Light Company, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, having filed a declaration and amendment thereto pursuant to sections 6 (a) (2) and 7 of the Public Utility Holding Company Act of 1935 regarding certain proposed amendments to its charter; and

The Commission having by order dated March 5, 1947 permitted said declaration, as amended, to become effective subject to the terms and conditions prescribed in Rule U-24; and

Dallas having advised the Commission that it now desires to submit said proposed charter amendments to the annual meeting of its stockholders to be called and held on June 12, 1947 instead of calling and holding a special meeting of its stockholders for that purpose; and

Dallas having requested the Commission to extend to July 1, 1947 the time within which the proposed transactions shall be carried out, in accordance with the terms and conditions of, and for the purposes stated in, the declaration; and

The Commission having considered such request and deeming it appropriate that it be granted:

It is ordered, That the time within which Dallas shall carry out the transactions proposed in said declaration be, and hereby is, extended to and including July 1, 1947.

By the Commission.

NORTHERN NATURAL GAS CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 22d day of April 1947.

Northern Natural Gas Company ("Northern Natural"), a public utility company and a registered holding company and a subsidiary of North American Light & Power Company and of The North American Company, both registered holding companies, having filed an application-declaration and amendments thereto pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") in which Northern Natural proposed to issue and sell pursuant to the competitive bidding provisions of Rule U-50 promulgated under the act $10,000,000 principal amount of its --% Serial Debentures, Dated May 1, 1947, Due 1956–1967; and

The Commission having by order dated April 11, 1947 granted said application and permitted said declaration to become effective subject to the condition, among others, that the proposed issuance and sale of debentures not be consummated until the results of the competitive bidding pursuant to Rule U-50 have been made a matter of record in the proceeding and a further order has been entered by the Commission in the light of the record so completed, jurisdiction being reserved for this purpose; and

Northern Natural having filed a further amendment to its application-declaration, as amended, in which it is stated that in accordance with the permission granted by the said order of the Commission dated April 11, 1947 it has offered its debentures for sale pursuant to the competitive bidding requirements of Rule U-50 and has received the following bids:

	Price to company [1]	Coupon rate	Net interest cost to company
	Per cent	*Per cent*	*Per cent*
Blyth & Co., Inc.	100.2005	2½	2.4998
Halsey, Stuart & Co., Inc.	99.639	2½	2.50605
The First Boston Corp.	99.559	2½	2.51107
Kidder, Peabody & Co.	99.031	2½	2.52418

[1] Plus accrued interest.

The amendment further states that Northern Natural has accepted the bid of Blyth & Co., Inc. for the serial debentures maturing in 1956 to 1967, inclusive. Blyth & Co., Inc. proposes to offer the serial debentures to the public at the following prices:

Series	Offering price (percent of principal amount)	Approximate yield to maturity
	Percent	*Percent*
1956	103.681	2.05
1957	103.501	2.10
1958	102.917	2.20
1959	102.087	2.30
1960	101.672	2.35
1961	101.482	2.375
1962	101.253	2.40
1963	100.658	2.45
1964	100.000	2.50
1965	99.282	2.55
1966	98.508	2.60
1967	98.066	2.625

The amendment further states that the aggregate of the various offering prices to the public amounts to $10,098,724 as compared with proceeds to the company of $10,020,050, resulting in a difference between the price to the company and the offering prices to the public of $78,674.

It appearing from the amendment and the exhibits attached thereto that it is proposed that Pam, Hurd & Reichmann, of Chicago, Illinois, be paid certain sums by Northern Natural representing fees and expenses for services rendered in connection with the registration of said securities, and that said Pam, Hurd & Reichmann also be paid fees and expenses estimated to be in the amount of $12,500, by Blyth & Co., Inc., the successful bidder, and it appearing that the amounts of fees and expenses to be paid to all the counsel for said Company are not specifically set forth in said application and declaration as so amended, and that jurisdiction should be reserved with respect to all such legal fees and expenses, including those to be paid to Pam, Hurd & Reichmann; and

The Commission having examined said amendment and considered the record herein, and finding that the applicable standards of the act and the rules and regulations thereunder have been complied with and that said application should be granted and said declaration should be permitted to become effective subject to a reservation of jurisdiction with respect to all the legal fees and expenses proposed to be paid in connection with said issue, including those proposed to be paid to Pam, Hurd & Reichmann, as hereinafter ordered;

It is ordered, That the jurisdiction heretofore reserved with respect to the results of competitive bidding for said debentures be, and the same hereby is, released and that the amendment filed on April 22, 1947 to the application-declaration herein be, and hereby is, granted and permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24; and

It is further ordered, That jurisdiction be and is hereby reserved with respect to all the legal fees and expenses proposed to be paid in connection with said issue, including those proposed to be paid to Pam, Hurd & Reichmann.

By the Commission.

NORTHERN STATES POWER CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 23d day of April A. D. 1947.

In the Matter of Northern States Power Company, a Minnesota corporation, File No. 70-1490; Northern States Power Company, a Wisconsin corporation, File No. 70-1491.

Northern States Power Company, a Minnesota corporation (Minnesota), a registered holding company, and Northern States Power Company, a Wisconsin corporation (Wisconsin), a public utility subsidiary of Minnesota, having filed applications and declarations pursuant to sections 6, 7, 9, and 10 of the Public Utility Holding Company Act of 1935 and Rules U-24, U-43, and U-50 promulgated thereunder regarding, among other things, the issuance and sale at competitive bidding of $19,000,000 principal amount of First Mortgage Bonds Series due April 1, 1977; and

The Commission having by order dated April 11, 1947, granted and permitted to become effective said applications and declarations subject to the condition that the proposed issuance and sale of bonds should not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered by the Commission in the light of the record so completed; and

Wisconsin having filed an amendment to its declaration setting forth the action taken to comply with the require-

ments of Rule U-50 and stating that pursuant to the invitation for competitive bids, five bids on said bonds by five groups of underwriters headed by the firms set forth below were received:

Underwriting group	Coupon rate	Price to company (percent of principal amount)	Annual cost to company
	Percent		*Percent*
Kidder, Peabody & Co. and White, Weld & Co.	2⅛	100.6811	2.5622
Glore, Forgan & Co.	2⅛	100.572	2.5674
The First Boston Corp.	2⅛	100.559	2.5681
Halsey, Stuart & Co., Inc.	2⅛	100.55	2.5685
Blyth & Co., Inc.	2⅛	100.329	2.6091

The said amendment having stated further that Wisconsin has accepted the bid of the group headed by Kidder, Peabody & Co. and White, Weld & Co., as set out above and that the bonds will be offered for sale to the public at a price of 101.25% of the principal amount thereof plus accrued interest from April 1, 1947, resulting in an underwriters' spread of 0.5689% of the principal amount of said bonds; and

A further hearing having been held and the Commission having examined the record herein and finding no basis for imposing terms and conditions with respect to the prices to be paid to Wisconsin for said bonds, the interest rate thereon, the underwriters' spread and the redemption price; and the Commission having examined the record and finding that the legal fee proposed to be paid to Messrs. Gardner, Carton & Douglas, if it does not exceed the estimate, is not excessive:

It is ordered, That the jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding under Rule U-50 and the legal fee of Messrs. Gardner, Carton & Douglas be and hereby is released and that said applications and declarations as amended be and hereby are granted and permitted to become effective forthwith, subject, however, to all other terms, conditions and reservations of jurisdiction prescribed in the Commission's order of April 11, 1947.

DELAWARE POWER & LIGHT CO. AND EASTERN SHORE PUBLIC SERVICE CO. OF MARYLAND

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of April 1947.

Notice is hereby given that a joint application-declaration with an amendment thereto has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Delaware Power & Light Company (Delaware), a registered holding company, and its public utility subsidiary, Eastern Shore Public Service Company of Maryland (Eastern Shore). Applicants-declarants designate sections 6 (d), 9 (a), 12 (d) and 12 (f) of the act and Rules U-43 and U-44 promulgated thereunder as applicable to the proposed transactions:

Notice is further given that any interested person may, not later than May 6, 1947, at 5:30 p. m., e. d. s. t. request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such application-declaration, as filed or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application-declaration which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Eastern Shore will issue and sell, from time to time, but not later than December 31, 1948, up to $2,000,000 principal amount of its 3½% promissory notes due October 1, 1973 and 20,000 shares of its common stock of the par value of $100 per share. Delaware will purchase said securities at the principal amount or par value, respectively, and upon the purchase of any notes, Delaware will purchase common stock of an aggregate par value equal to the principal amount of such notes. The major portion of the proceeds from the sale of said notes and common stock, which will not exceed $4,000,000 is to be used to finance its construction program and the remaining portion will be used to reimburse Eastern Shore's treasury for money previously expended for such construction program. The notes and stock to be acquired by Delaware will be pledged by it with the Trustee under its mortgage dated October 1, 1943 in accordance with the provisions of the Indenture of Mortgage.

The proposed transactions have been approved by the Public Service Commission of Maryland.

The applicants-declarants request that the Commission's order be issued herein on or before May 6, 1947, and become effective forthwith.

By the Commission.

ARKANSAS POWER & LIGHT CO. AND ELECTRIC POWER & LIGHT CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of April A. D. 1947.

Electric Power & Light Corporation ("Electric"), a registered holding company and its subsidiary, Arkansas Power & Light Company ("Arkansas"), having filed a joint application-declaration pursuant to sections 6 (b), 9 (a), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder regarding the following proposed transactions:

Arkansas has outstanding 1,360,000 shares of common stock, having a par value of $12.50 per share, all of which are owned by Electric. Arkansas proposes to issue and sell and Electric proposes to acquire an additional 100,000 shares of common stock of Arkansas for a cash consideration of $1,250,000. The proceeds from the sale of the new common stock will be used by Arkansas for the construction of needed facilities. Electric proposes to use treasury funds in making the proposed purchase.

The issue and sale by Arkansas of such common stock has been expressly authorized by the Arkansas Public Service Commission.

Such application-declaration having been filed on the 7th day of April 1947 and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated under said act and the Commission not having received a request for hearing with respect to said application-declaration within the period specified in said notice or otherwise and not having ordered a hearing thereon; and

Applicants-declarants having requested that the Commission's order in this matter become effective immediately in order that it may proceed with the proposed transactions without delay and the Commission deeming it appropriate to grant such request; and

The Commission finding that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration be granted and permitted to become effective:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that the said application-declaration be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

BROOKLYN NATIONAL CORP.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 18th day of April A. D. 1947.

The Commission having reasonable cause to believe that The Brooklyn National Corporation, a registered investment company, has been dissolved and has ceased to do business and that its assets have been liquidated;

It is ordered, Pursuant to section 40 (a) of said act, that a hearing be held on May 7, 1947 at 10:00 a. m., Eastern Standard Time, in Room 318 of the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia, Pennsylvania, to determine whether the Commission shall declare by order, pursuant to section 8 (f) of said act, that The Brooklyn National Corporation has ceased to be an investment company; and

It is further ordered, That William W. Swift, Esquire, or any other officer of the Commission designated by it for that purpose, shall exercise all powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's Rules of Practice.

Notice of such hearing is hereby given to The Brooklyn National Corporation and to any other persons whose participation in such proceedings may be in the public interest or for the protection of investors.

AMBI-BUDD VERWALTUNG K. G. AUF AKTIEN ET AL.

In re: Interests of Ambi-Budd Verwaltung K. G. auf Aktien in agreements of Edward G. Budd Manufacturing Company of Philadelphia, Pa., and others.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ambi-Budd Verwaltung K. G. auf Aktien is a corporation organized under the laws of, and having its principal place of business in, Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

All interests and rights (including all royalties and other moneys payable or held with respect to such interests and rights and all damages for breach of the agreements, and each of them, hereinafter described, all relating, among other things, to certain German or Austrian patents, together with the right to sue therefor) created in Ambi-Budd Verwaltung K. G. auf Aktien by virtue of:

(a) An agreement dated February 12, 1926 (including all modifications thereof and supplements thereto, if any) by and between Edward G. Budd Manufacturing Co. and Ambi-Budd Verwaltung K. G. auf Aktien,

(b) An agreement dated March 17, 1926 (including all modifications thereof and supplements thereto, if any) by and between Edward G. Budd Manufacturing Co. and Ambi-Budd Presswerk, G. m. b. H.,

(c) An agreement dated July 8, 1935 (including all modifications thereof and supplements thereto, if any), by and between Edward G. Budd Manufactur-

ing Co., Budd International Corporation, Ambi-Budd Presswerk G. m. b. H. and the Daimler-Benz A. G.,

(d) An agreement dated March 8, 1937 and April 19, 1937 (including all modifications thereof and supplements thereto, if any) by and between Edward G. Budd Manufacturing Co., Budd International Corporation, Ambi-Budd Presswerk G. m. b. H. and the Steyr-Daimler-Puch A. G.,

(e) An agreement dated October 2, 1937 (including all modifications thereof and supplements thereto, if any) by and between Edward G. Budd Manufacturing Co., Budd International Corporation, Ambi-Budd Presswerk G. m. b. H. and the Auto Union A. G. of Chemnitz,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person identified in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

This legislative mandate gives to the Secretary of War the same jurisdiction as heretofore possessed by Congress in this respect.

§ 2.21 *Undue delay as bar to relief.* An application for the correction of a military record as provided in section 207 may be refused by the Board on the ground that there has been undue delay in filing the application.

§ 2.22 *Application for relief.* (a) The applicant for relief will submit a written request to the Secretary of War, Attention: Board on Correction of Military Records. The request should be made on WD AGO Form 562, which may be obtained from The Adjutant General, Attention: AGPI, Washington 25, D. C.

(b) The application shall include:

(1) The full name, Army serial number, grade and organization or assignment of the person whose military record is involved.

(2) A description of the military record sought to be corrected.

(3) A particular description of the alleged error or injustice sought to be corrected or removed.

(4) The reasons in support of the relief requested.

(5) The full name and address of counsel if the applicant desires to be so represented.

(6) A request for a hearing before the Board in Washington, D. C., if the applicant so desires.

(7) The full name and address of any witness or witnesses whose testimony the applicant may desire the Board to consider at the hearing. The nature of each witness' testimony, or the principal facts concerning which he will testify, should be indicated.

(8) Any statements or affidavits from persons other than the applicant in support of the request for relief.

(9) Signature of the applicant.

(c) The application shall be executed under oath or shall contain a provision that the statements submitted in the application, as part of the claim, are made with full knowledge of the penalty provided for making a false statement.

(d) Upon request of the Board, The Adjutant General will assemble the originals or certified copies of all available War Department records pertinent to the relief requested. Such records together with the application and all supporting documents will be transmitted to the Chairman of the Board.

§ 2.23 *Proceedings of Board.* (a) The Board will be convened at the call of the Chairman and will recess or adjourn at his order.

(b) The Board will assemble in open or closed session for the consideration and determination of cases presented to it. Cases in which no request for hearing is made by the applicant will be considered in closed session on the bases of all documentary evidence presented to it, and any briefs submitted by or on behalf of applicant.

(c) A reporter will record the proceedings of the Board in open session and the testimony taken before it.

§ 2.24 *Hearings.* (a) An applicant for the correction of a military record, upon request, shall be entitled to appear before the Board in open session, either in person or by counsel of his own selection. At the discretion of the Board, the applicant may present witnesses to testify in support of his claim. As used in §§ 2.20 through 2.29, the term "counsel" will be construed to include members of the Federal bar in good standing, the bar of any State in good standing, accredited representatives of veterans' organizations recognized by the Veterans' Administration under section 200 of the act of 29 June 1936 (Pub. Law 844, 74th Cong.), and such other persons who, in the opinion of the Board, are considered to be competent to present equitably and comprehensively the claim of the applicant for review. In no case will the expenses of the applicant or expenses or compensation of witnesses or counsel for the applicant be paid by the Government.

(b) In each case in which hearing is requested the Board will transmit to the applicant and to designated counsel for the applicant, if any, a written notice stating the time and place of hearing. Such notice will be mailed at least 15 days prior to the date of hearing to the applicant and his counsel, if any. It will be the responsibility of the applicant to notify his witnesses, if any. The applicant may waive such time limit and an earlier date may be set by the Board. The record will contain evidence that written notice was given the applicant and his counsel, if any, and the time and manner thereof.

(c) An applicant who requests a hearing and who, after being duly notified of the time and place of hearing, fails without cause to appear at the appointed time, either in person or by counsel, shall be deemed to have waived his right to be present, and the Board will have authority to proceed with the consideration and determination of the case.

(d) The hearing will be conducted so as to insure a full and fair inquiry. Neither the applicant nor his counsel will have access to any classified papers or reports of investigation or papers related thereto or any document received from the Federal Bureau of Investigation. When it is necessary to acquaint the applicant with the substance of a document, such as above described, the Director of Intelligence, WDGS, or other appropriate official, on the request of the Board, will prepare a summary of, or extract from, the document deleting all references to sources of information and other matter the disclosure of which, in his opinion, would be detrimental to the public interest. Such summary then may be made available without classification to the applicant or his counsel.

(1) The Board will not be limited by the restrictions of common law rules of evidence.

(2) In order to justify correction of a military record, it is incumbent on the petitioner to show to the satisfaction of the Board, or it must otherwise satisfactorily appear, that the alleged entry or omission in the record was in error or unjust under directives, standards, administration, and practice either existing at the time, or subsequently changed in the petitioner's favor, effective retroactively. The directives, standards, administration, and practice in §§ 2.20 through 2.29 contemplated are those stated in statutes, regulations, manuals, directives of the War Department and other appropriate authority, together with interpretations thereof by the courts, the Attorney General, the Comptroller General and of The Judge Advocate General.

(3) The testimony of witnesses will be under oath administered by the presiding officer or by affidavit. If a witness testifies in person he will be subject to examination by members of the Board.

(4) The Board may continue a hearing on its own motion. A request for continuance by or on behalf of the applicant may be granted by the Board if a continuance appears necessary to insure a full and fair hearing.

(5) The Board may, at its discretion and for good cause shown, permit an applicant to withdraw his application without prejudice at any time before the Board makes its final recommendation.

§ 2.25 *Scope of inquiry.* (a) Unless directed by the Secretary of War, the

Board shall not review any case wherein final action has been taken by the President of the United States, the Secretary, the Under Secretary, or the Assistant Secretary of War. No application will be considered until the applicant has exhausted all remedies afforded him by existing law or regulations.

(b) It shall be adequate ground for denial of any application that effective relief cannot be granted or that a sufficient basis for review has not been established.

(c) The right to apply to the Board for relief shall not operate as a stay of any proceedings taken against the person involved.

§ 2.26 *Findings, conclusions, and recommendations.* (a) The Board will make findings in writing in each case. The findings and conclusions of a majority of the Board will constitute the findings and conclusions of the Board.

(b) In case of a disagreement between members of the Board a minority report may be submitted, either as to the findings, or to the recommendations, or to both. The reasons for the minority report will be clearly stated.

(c) The Chairman of the Board will, in the name of the Board, recommend to the Secretary of War such action as may be necessary to carry into effect the determinations of the Board.

§ 2.27 *Disposition of proceedings.* (a) When the Board has concluded its proceedings in any case, the Board will prepare a complete record thereof. Such record will include the application for relief; a transcript of the hearing, if any; affidavits, papers, and documents considered by the Board; all briefs and written arguments filed in the case; the report of the examiner, if any; the findings and conclusions of the Board and its recommendation for corrective action; any minority report prepared by a dissenting member of the Board; and all other papers and documents necessary to reflect a true and complete history of the proceedings. The record so prepared will be signed by the Chairman as being true and complete.

(b) All records of proceedings of the Board in closed session will be confidential.

§ 2.28 *Transmittal of records and action by The Adjutant General.* Upon the approval of the Secretary of War, the record of proceedings and recommendations in each case will be transmitted to The Adjutant General or other proper authority for appropriate War Department action. The Adjutant General will perform such administrative acts as may be necessary, and thereafter will notify the applicant and his counsel, if any, of the action taken. Written notice specifying the action taken and the date thereof will be transmitted by The Adjutant General to the Chairman of the Board.

§ 2.29 *Changes in procedure of Board.* The Board may initiate recommendation for such changes in procedure as established herein as may be deemed necessary for the proper functioning of the Board. Such changes will be subject to the approval of the Secretary of War.

TITLE 14—CIVIL AVIATION

Chapter II—Administrator of Civil Aeronautics, Department of Commerce

PART 501—AIRCRAFT REGISTRATION CERTIFICATES

Part 501 of the regulations of the Administrator of Civil Aeronautics was last revised on February 10, 1943. Since that time experience has disclosed the necessity for again revising this part by making a few minor changes. It appearing that:

This part, as herein revised, (including these minor changes) was published in proposed form in the FEDERAL REGISTER (12 F. R. 1247) on February 22, 1947; all interested persons, pursuant to such publication, were given an opportunity to submit written data, views, or arguments for consideration in connection with this proposed revision; all such data, views, and arguments submitted by interested persons were considered in the final preparation of the revision of this part which, in its present form as compared to its proposed form previously published in the FEDERAL REGISTER, contains changes of only a minor nature which will not impose any burden upon interested persons; the persons affected by this part (as herein revised) will be greatly benefited by its being made effective without delay; in view of the foregoing, sufficient notice and public procedure have been afforded to interested persons, and further notice or public procedure would serve no purpose other than to delay the issuance of the revision of this part of the regulations of the Administrator which it is in the public interest and benefit to adopt at this time. And finding that:

Further notice and public procedure provided for in sections 4 (a) and (b) of the Administrative Procedure Act is unnecessary with respect to the revision of this part; and that good cause exists to declare this part (as herein revised) effective immediately pursuant to section 4 (c) of that act.

Now therefore, acting pursuant to the authority vested in me by sections 308 and 501 of the Civil Aeronautics Act of 1938, as amended (52 Stat. 973, 986, 1005, 54 Stat. 1233, 1235, 1236, 49 U. S. C. 401, 458, 521)[1] I hereby revise Part 501 of the regulations of the Administrator of Civil Aeronautics to read as follows:

Sec.
501.0 Basis and purpose.
501.1 Scope.
501.2 Application.
501.3 Issuance of registration certificate.
501.4 Effective date.
501.5 Transferability.
501.6 Duration.
501.7 Display.
501.8 Invalidation.
501.9 Surrender.
501.10 Notice of change of address.

AUTHORITY: §§ 501.0 to 501.10, inclusive, issued under 52 Stat. 973, 986, 1005, 54 Stat. 1233, 1235, 1236, 49 U. S. C. 401, 458, 521.

§ 501.0 *Basis and purpose.* The purpose of the regulations in this part is to prescribe the regulations under which persons may register aircraft in accordance with the requirements of section 501 of the Civil Aeronautics Act of 1938, as amended. The basis for this part is found in sections 308 and 501 of the Civil Aeronautics Act of 1938, as amended.

§ 501.1 *Scope.* Except as provided in Part 502 of this chapter with respect to Dealers' Aircraft Registration Certificates, the requirements for aircraft registration certificates shall be as prescribed in this part.

§ 501.2 *Application.* Application for the registration of an aircraft shall be made upon the applicable form prescribed (and furnished) by the Administrator.

§ 501.3 *Issuance of registration certificate—*(a) *New or previously unregistered aircraft.* A registration certificate will be issued by the Administrator for aircraft not previously registered under the provisions of the Civil Aeronautics Act of 1938, as amended: *Provided*, That the applicant: (a) Mails or delivers a duly executed application for registration to the Administrator[1] accompanied by the required registration fee;[2] (b) certifies that applicant is a citizen of the United States;[3] and (c) submits with the application proof satisfactory to the Administrator that the applicant is the owner of such aircraft.

(b) *Previously registered aircraft.* A registration certificate will be issued by the Administrator for aircraft previously registered under the provisions of the Civil Aeronautics Act of 1938, as amended, if the applicant: (a) Mails or delivers a duly executed application for registration to the Administrator[1] accompanied by the required registration fee;[2] (b) certifies that applicant is a citizen of the United States;[3] and (c) submits with the application for registration a conveyance which meets the requirements prescribed in Part 503 of regulations of this chapter, evidencing applicant's ownership of the aircraft; and (d) the conveyance submitted with the above application establishes in the recordation system of the Administrator, title to the aircraft in the applicant: *Provided*, That this requirement shall not be applicable to contracts of conditional sale in which the seller is the recorded owner of the aircraft.

§ 501.4 *Effective date.* An aircraft will be deemed to be registered upon the date the documents required by § 501.3 (a) and (b), whichever is applicable, are mailed or delivered to the Administrator.

§ 501.5 *Transferability.* A registration certificate is not transferable.[1]

§ 501.6 *Duration.* Upon application for registration made upon the prescribed form, an aircraft may be operated for a period of sixty (60) days pending registration by the Administrator.[1] The registration and the certificate issued by the Administrator pursuant thereto shall remain in effect indefinitely unless suspended or revoked: *Provided*, That such registration and certificate shall immediately expire on the date: (a) The aircraft is registered under the laws of any foreign country; or (b) the registration of the aircraft is cancelled at the written request of the owner; or (c) the aircraft is totally destroyed or scrapped; or (d) the ownership of the aircraft is transferred.

§ 501.7 *Display.* The registration certificate issued for any aircraft shall be carried at all times in such aircraft and shall be presented upon request of any duly authorized representative for the Administrator,[2] or any state or municipal official charged with enforcing local laws or regulations involving Federal compliance.

§ 501.8 *Invalidation.* Any registration of an aircraft shall be null and void if at the time of registration: (a) The aircraft was registered under the laws of any foreign country; (b) the person registered as owner was not the true and lawful owner of the aircraft; (c) the person registered as owner was not a citizen of the United States; or the interest of such person in the aircraft was created by any transaction not entered into in good faith, but for the purpose of avoiding, with or without the knowledge of the registered owner, the provision of the Civil Aeronautics Act of 1938, as amended, prohibiting the registration of an aircraft in the name of a person not a citizen of the United States.

§ 501.9 *Surrender.* Upon the suspension, revocation, expiration or invalidation of a registration certificate, the owner of the aircraft shall, upon request, surrender such certificate to any authorized representative of the Administrator.

§ 501.10 *Notice of change of address.* The registered owner of any aircraft shall notify the Administrator immediately of any change of address.

This part as revised herein shall become effective May 1, 1947.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

[F. R. Doc. 47-4071; Filed, Apr. 29, 1947; 8:46 a. m.]

PART 502—DEALERS' AIRCRAFT REGISTRATION CERTIFICATES

Part 502 of the regulations of the Administrator of Civil Aeronautics was originally made effective on November 15, 1946. Since that date it has become necessary to revise this part in order to grant to bona fide distributors and dealers of used aircraft the same privilege to obtain and utilize dealers aircraft registration certificates as was granted to manufacturers, distributors and dealers of new aircraft under the original Part 502. It appearing that:

This part, as herein revised, was published in proposed form in the FEDERAL REGISTER (12 F. R. 1248) on February 22, 1947; all interested persons, pursuant to such publication, were given an opportunity to submit written data, views, or arguments for consideration in connection with this proposed revision; all such data, views, and arguments submitted by interested persons were considered in the final preparation of the revision of this part which, in its present form as compared to its proposed form previously published in the FEDERAL REGISTER, contains changes of only a minor nature which will not impose any burden upon interested persons; the persons affected by this part (as herein revised) will be greatly benefited by its being made effective without delay; in view of the foregoing, sufficient notice and public procedure have been afforded to interested persons, and further notice or public procedure would serve no purpose other than to delay the issuance of the revision of this part of the regulations of the Administrator which it is in the public interest and benefit to adopt at this time. And finding that:

Further notice and public procedure provided for in sections 4 (a) and (b) of the Administrative Procedure Act is unnecessary with respect to the revision of this part, and that good cause exists to declare this part (as herein revised) effective immediately pursuant to section 4 (c) of that act.

Now therefore acting pursuant to the authority vested in me by sections 308, and 501 of the Civil Aeronautics Act of 1938 as amended (52 Stat. 973, 986, 1005, 54 Stat. 1233, 1235, 1236; 49 U. S. C. 401, 458, 521), I hereby revise Part 502 of the regulations of the Administrator of Civil Aeronautics to read as follows:

Sec.
502.1 Basis and purposes.
502.2 Application.
502.3 Requirements.
502.4 Limitations.
502.5 Rules.
502.6 Notice.

AUTHORITY: §§ 502.1 to 502.6, inclusive, issued under 52 Stat. 973, 986, 1005, 54 Stat. 1233, 1235, 1236, 49 U. S. C. 401, 458, 521.

§ 502.1 *Basis and purposes.* The purposes of the regulations in this part are: (a) To prescribe regulations for the registration of aircraft by persons engaged in the business of manufacturing, distributing or selling of aircraft, (b) to facilitate the operation, demonstration, and merchandising of aircraft moving in the ordinary trade channels from the manufacturer, distributor, or dealer to the ultimate purchaser without imposing upon the manufacturer, distributor, or dealer the burden of obtaining an individual registration certificate for such aircraft with each transfer of title as required under the registration provisions of Part 501 of this chapter, and (c) to permit manufacturers to conduct required production flight tests. A dealer's aircraft registration certificate is an alternate form for the registration of civil aircraft from that prescribed by Part 501. Persons engaged in the business of manufacturing, distributing or selling aircraft, upon application, may obtain one or more dealers' aircraft registration certificates issued under the provisions of this part. The basis for this part is found in sections 308 and 501 of the Civil Aeronautics Act of 1938 as amended.

[1] Effective November 15, 1946, the Administrator issued a new Form ACA 500 with complete instruction for the execution of each part on the back of the form. Each transfer of aircraft ownership effected subsequent to November 15, 1946, and registration of the aircraft in the new owner's name will be accomplished by using the new Form ACA 500.

[1] See footnote on p. 2802.

[2] *Registration fee.* Section 651.31 (c) (1) of the regulations of the Administrator of Civil Aeronautics reads as follows:

(1) Effective November 15, 1946, aircraft registration other than Dealers' Aircraft Registration will be accomplished by the use of Form ACA 500. This form contains three parts: Part A, Registration Certificate, Part B, Application for Registration, and Part C, Bill of Sale.

(i) *Application and fee.* The applicant for such registration certificate will execute the original and duplicate of Part A and Part B, retain the original of Part B in the aircraft as a temporary registration for 60 days, and mail all duplicates of Parts A, B, and C together with the original of Part A and a registration fee of $4.00 to the Director, Aircraft and Components Service, Attention: Certification and Recordation Section, Civil Aeronautics Administration, Washington 25, D. C.

[3] As defined by section 1 (13) of the Civil Aeronautics Act of 1938, as amended, "'Citizen of the United States' means (a) an individual who is a citizen of the United States or of one of its possessions, or (b) a partnership of which each member is such an individual, or (c) a corporation or association created or organized under the laws of the United States or of any State, territory or possession of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions."

§ 502.2 *Application.* Application for a dealers' aircraft registration certificate shall be made upon a form prescribed by the Administrator and shall be accompanied by the required registration fee.[1]

§ 502.3 *Requirements.* To be eligible for a dealers' aircraft registration certificate an applicant shall be a citizen of the United States[2] with an established place of business located in the United States or any territory or possession of the United States, engaged in the following activities:

(a) The manufacture of aircraft, or

(b) The distribution or sale of new aircraft under authority of a franchise, license, letter of authority, agreement, or other arrangement from the manufacturer or his authorized agent, or

(c) The distribution or sale of used aircraft[3] to ultimate purchasers through ordinary trade channels.

§ 502.4 *Limitations—(a) Operation.* (1) A dealers' aircraft registration certificate shall be valid for the operation of an aircraft only by a person to whom such certificate was issued or by his duly authorized agent or employee.

(2) A dealers' aircraft registration certificate is valid only for an aircraft owned by a person to whom such certificate was issued and which is being operated, (i) in the ordinary trade channels between any two of the following persons: The manufacturer, the distributor, the dealer, or the purchaser from any of such persons, (ii) for demonstration purposes necessary to the sale of such aircraft, or (iii) to conduct required production flight tests.

Transfer of ownership. Whenever the ownership of an aircraft is transferred to a person who is not the possessor of a valid dealers' aircraft registration certificate, the purchaser shall make application for registration of the aircraft in his name in accordance with the provisions of Part 501 of this chapter prior to the operation of the aircraft.[3]

§ 502.5 *Rules—(a) Display.* The dealers' aircraft registration certificate shall be carried in the aircraft when operated by the person to whom the certificate was issued, or by his authorized agent or employee.

(b) *Duration.* A dealers' aircraft registration certificate shall expire one year from the date of issuance thereof.

(c) *Transferability.* A dealers' aircraft registration certificate is not transferable.

§ 502.6 *Notice.* The holder of a dealers' registration certificate shall notify the Administrator immediately of any change which affects his status as a citizen of the United States as defined in section 1 (13) of the Civil Aeronautics Act of 1938, or other change of the conduct of his business which affects his eligibility for a dealers' aircraft registration certificate.

This part as revised herein shall become effective May 1, 1947.

Administrator of Civil Aeronautics.

PART 503—RECORDATION OF AIRCRAFT OWNERSHIP

Part 503 of the regulations of the Administrator of Civil Aeronautics was adopted on February 10, 1943. Since that time experience has disclosed the necessity for revising this part by making a few minor changes. It appearing that:

This part, as herein revised (including these minor changes) was published in proposed form in the FEDERAL REGISTER (12 F. R. 1249) on February 22, 1947; all interested persons, pursuant to such publication, were given an opportunity to submit written data, views, or arguments for consideration in connection with this proposed revision; all such data, views, and arguments submitted by interested persons were considered in the final preparation of the revision of this part which, in its present form as compared to its proposed form previously published in the FEDERAL REGISTER, contains changes of only a minor nature which will not impose any burden upon interested persons; the persons affected by this part (as herein revised) will be greatly benefited by its being made effective without delay; in view of the foregoing, sufficient notice and public procedure have been afforded to interested persons, and further notice or public procedure would serve no purpose other than to delay the issuance of the revision of this part of the regulations of the Administrator which it is in the public interest and benefit to adopt at this time. And finding that:

Further notice and public procedure provided for in sections 4 (a) and (b) of the Administrative Procedure Act is unnecessary with respect to the revision of this part, and that good cause exists to declare this part (as herein revised) effective immediately pursuant to section 4 (c) of that act.

Now therefore acting pursuant to the authority vested in me by sections 308 and 503 of the Civil Aeronautics Act of 1938 as amended (52 Stat. 973, 986, 1006, 54 Stat. 1233, 1235, 1236; 49 U. S. C. 401, 458, 523) I hereby revise Part 503 of the regulations of the Administrator of Civil Aeronautics to read as follows:

Sec.
503.1 Basis and purpose.
503.2 Definitions.
503.3 Eligibility of conveyances.

AUTHORITY: §§ 503.1 to 503.3, inclusive, issued under 52 Stat. 973, 986, 1006, 54 Stat. 1233, 1235, 1236, 49 U. S. C. 401, 458, 523.

§ 503.1 *Basis and purpose.* The purpose of the regulations in this part is to prescribe regulations for recordation of conveyances affecting the title to, or interest in, any aircraft registered under the provisions of section 501 of the Civil Aeronautics Act of 1938, as amended, (52 Stat. as amended; 49 U. S. C. 521) and of Part 501 or Part 502 of this chapter. The basis for this part is found in sections 308 and 503 of the Civil Aeronautics Act of 1938, as amended.

§ 503.2 *Definitions.* As used in this part, "conveyance" means a bill of sale, contract of conditional sale, mortgage, assignment of mortgage, or other instrument affecting title to, or interest in, aircraft.

§ 503.3 *Eligibility of conveyances.* A conveyance shall be eligible for recordation only if:

(a) It is executed upon the form prescribed by the Administrator for such type of conveyance, or upon a form deemed by the Administrator to be its equivalent; and

(b) It is accompanied by a duly executed application for registration and the required registration fee, and complies with the other provisions of either § 501.3 (a) or (b) of this chapter, whichever is applicable: *Provided,* That this paragraph shall not apply to conveyances affecting an interest in, but not title to, the aircraft; and

(c) It affects an aircraft currently registered under the terms of the Civil Aeronautics Act of 1938, as amended; and

(d) It states the interest in the aircraft of the person by whom such conveyance is made or given, or in the case of a contract of conditional sale, the interest of the vendor; and, except in cases where the conveyor is the record title holder of such aircraft in the records of the Administrator, it is accompanied by a bill or bills of sale or similar instrument or instruments establishing title to such aircraft in the conveyor; and

(e) It states the interest transferred by the conveyance; and

(f) It is accompanied by the required recordation fee:[1] *Provided,* That this paragraph shall not apply to any conveyance accomplished by a bill of sale or similar instrument transferring title to an aircraft to the purchaser; and

(g) It is acknowledged before a Notary Public or other officer authorized by law of the United States, or a State, Territory, or possession thereof, or the District of Columbia, to take acknowledgment of deeds.

This part as revised herein shall become effective May 1, 1947.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

PART 651—PROCEDURE OF THE CIVIL AERONAUTICS ADMINISTRATION

MISCELLANEOUS AMENDMENTS

Acting pursuant to the authority vested in me by the Civil Aeronautics Act of 1938, as amended (52 Stat. 986–1005, 54 Stat. 1233, 1235, 1236; 49 U. S. C. 458, 521), and in accordance with the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d sess.), I hereby amend Part 651, Procedure of the Civil Aeronautics Administration, as follows:

1. By amending § 651.31 (c) (11 F. R. 177A–321) to read as follows:

§ 651.31 *Aircraft certificates.* • • •

(c) *Aircraft registration certificates.* An aircraft registration certificate is conclusive evidence of the nationality of the aircraft for international purposes, but not in any proceeding under the laws of the United States. The registration of the aircraft by the Civil Aeronautics Administration is not evidence of ownership in any proceeding in which ownership by a particular person is or may be, in issue.

(1) Effective November 15, 1946, aircraft registration other than Dealers' Aircraft Registration will be accomplished by the use of Form ACA 500. This form contains three parts: Part A, Registration Certificate, Part B, Application for Registration, and Part C, Bill of Sale.

(i) *Application and fee.* The applicant for such registration certificate will execute the original and duplicate of Part A and Part B, retain the original of Part B in the aircraft as a temporary registration for 60 days, and mail all duplicates of Parts A, B, and C together with the original of Part A and a registration fee of $4.00 to the Director, Aircraft and Components Service, Attention: Certification and Recordation Section, Civil Aeronautics Administration, Washington 25, D. C.

Effective November 15, 1946, Certificates of Ownership (Form ACA 1160) will not be issued by the Administration. However, such certificates issued prior to November 15, 1946, may be used subsequent to that date in effecting the transfer of ownership of an aircraft if it is accompanied by the registration fee of $4.00. If the Form ACA 1160, Certificate of Ownership is not used in effecting the transfer of ownership, it should be surrendered at the time the next application is made on Form ACA 500 for the registration of the aircraft.

(ii) *Requirements.* For the evidence required for the issuance of a registration certificate and the general rules pertaining to the registration of aircraft, see Part 501 of this chapter.

(2) *Dealers' aircraft registration certificates.* (Form ACA 1707) provides an alternate form of registration permitting the operation, demonstration, and merchandizing of civil aircraft owned by the certificate holder, such as manufacturer, distributor, or dealer and moving in the ordinary trade channels from such manufacturer, distributor, or dealer to the ultimate purchaser.

(i) *Application and fee.* Application is made on a form, "Application for Issuance of Dealers' Aircraft Registration Certificate(s)" (ACA–1706) which requires a statement of the citizenship of the dealer and certain data as to his status as a bona fide dealer in aircraft. An application containing current data must be submitted each time certificates are requested and may cover as many certificates as are desired at that time. This application is obtained from, and is submitted to, the Aircraft and Components Branch of the Regional Office for the area in which the applicant's business is located. A fee of $5.00 is charged for the first certificate, and $1.00 for each additional or subsequent certificate, issued to the same dealer. Certificates are valid for twelve months from date of issuance. Duplicates will not be issued.

(ii) *Requirements.* For further information as to the requirements pertaining to the issuance and use of Dealers' Aircraft Registration Certificates see Part 502 of this chapter.

(52 Stat. 986–1005, 54 Stat. 1233, 1235, 1236, Pub. Law 404, 79th Cong.; 49 U. S. C. 458, 521)

2. By amending Subpart E (Part 651) (11 F. R. 177a–323) to read as follows:

SUBPART E—RECORDATION OF AIRCRAFT CONVEYANCES

Sec.
651.51 General.
651.52 Forms of conveyance.
651.53 Application.
651.54 Requirements.

AUTHORITY: § 651.51 to 651.54, inclusive, issued under 52 Stat. 986–1005, 54 Stat. 1233, 1235, 1236, Pub. Law 404, 79th Cong.; 49 U. S. C. 458, 521)

§ 651.51 *General.* All conveyances which affect the title to, or interest in, any aircraft registered under the provisions of the Civil Aeronautics Act are eligible for recordation with the Civil Aeronautics Administration. Upon receipt of any such conveyance, it is entered upon the Administration's record of conveyances. A receipt showing the recording of any document evidencing indebtedness will be furnished to the holder of such document.

§ 651.52 *Forms of conveyance.* The following forms have been prepared by the Administrator for use in recording of conveyances and are available upon request to the Certification and Recordation Section, Civil Aeronautics Administration, Washington 25, D. C.

(a) *Form ACA 500: Part C, Bill of Sale.* (For further information concerning Form ACA 500, see § 651.31 (c).)

(b) *Form ACA 506: Release.* (This form appears on the back of a letter acknowledging receipt of a chattel mortgage and should be in the possession of the mortgagee or his assignee to be used when the mortgage is cleared.)

(c) *Form ACA 818: Release Contract of Conditional Sale.* (This form appears on the back of a letter acknowledging receipt of a contract of conditional sale and should be in the possession of the seller or his assignee to be used when all conditions of the contract have been met.)

(d) *Form ACA 905: Aircraft Chattel Mortgage.*

(e) *Form ACA 906: Aircraft Conditional Sale Contract.*

(f) *Form ACA 909: Supplemental Affidavit to Application for Registration for All Types of Aircraft.* (To be filled in and submitted with Application for Registration (Form ACA 500, Part B) when the aircraft has been repossessed pursuant to the provisions of a chattel mortgage or contract of conditional sale and the person repossessing desires registration of the aircraft in his name.)

§ 651.53 *Application.* A conveyance may be recorded by submitting the original document, or a properly executed duplicate thereof, to the Director, Aircraft and Components Service, Civil Aeronautics Administration, Washington 25, D. C. There is no fee (other than the $4.00 registration fee) for recording a bill of sale. A fee of $4.00 is charged for the recording of a lien covering one aircraft. If more than one aircraft is covered by such lien the fee shall be $4.00 for each aircraft. Fees shall be submitted in the form of a check or money order made payable to the Treasurer of the United States. No fee is required for the recording of a satisfaction of a lien.

§ 651.54 *Requirements.* For further information with respect to the requirements and instructions for the recordation of aircraft conveyances, see Part 503 of this chapter, or mail requests to the Director, Aircraft and Components Service, Attention: Certification and Recordation Section, Civil Aeronautics Administration, Washington 25, D. C.

---

[1] *Registration fee.* Section 651.31 (c) (2) (i) of this chapter reads as follows:

(i) *Application and fee.* Application is made on a form, "Application for Issuance of Dealers' Aircraft Registration Certificate(s)" (ACA–1706) which requires a statement of the citizenship of the dealer and certain data as to his status as a bona fide dealer in aircraft. An application containing current data must be submitted each time certificates are requested and may cover as many certificates as are desired at that time. This application is obtained from, and is submitted to, the Aircraft and Components Branch of the Regional Office for the area in which the applicant's business is located. A fee of $5.00 is charged for the first certificate, and $1.00 for each additional or subsequent certificate, issued to the same dealer. Certificates are valid for twelve months from date of issuance. Duplicates will not be issued.

[2] As defined by section 1 (13) of the Civil Aeronautics Act of 1938 as amended, "'Citizen of the United States' means (a) an individual who is a citizen of the United States or of one of its possesions, or (b) a partnership of which each member is such an individual, or (c) a corporation or association created or organized under the laws of the United States or of any State, territory, or possession of the United States of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions."

[3] Upon the transfer of the ownership of the aircraft to a person who is not the possessor of a valid dealers' registration certificate, the parties to the sale will execute the new form ACA 500 in accordance with the instructions on the reverse side thereof. The portion marked "Part B" shall be retained in the aircraft and will entitle the purchaser to operate the aircraft for 60 days pending registration in his name by the Administrator.

[1] Section 651.53 of the regulations of the Administrator of Civil Aeronautics reads as follows:

§ 651.53 *Application.* A conveyance may be recorded by submitting the original document, or a properly executed duplicate thereof, to the Director, Aircraft and Components Service, Civil Aeronautics Administration, Washington 25, D. C. There is no fee (other than the $4.00 registration fee) for recording a bill of sale. A fee of $4.00 is charged for the recording of a lien covering one aircraft. If more than one aircraft is covered by such lien the fee shall be $4.00 for each aircraft. Fees shall be submitted in the form of a check or money order made payable to the Treasurer of the United States. No fee is required for the recording of a satisfaction of a lien.

This amendment shall become effective May 1, 1947.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

[Priorities Reg. 28, Direction 25, as Amended April 29, 1947]

PART 803—PRIORITIES REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

PRIORITIES ASSISTANCE FOR MERCHANT PIG IRON FOR CAST IRON SOIL PIPE AND CAST IRON SOIL FITTINGS

The following direction is issued pursuant to Priorities Regulation 28:

(a) *What this direction does.* The continued shortage of merchant pig iron, particularly in certain areas, threatens the production of cast iron soil pipe and cast iron soil fittings, critically short for the Veterans' Emergency Housing Program. It is necessary to maintain such production at a high level and for this purpose this direction provides for the placing of certified orders for p' iron for the production of cast iron soil pipe and cast iron soil fittings, after March 31, 1947. This direction is necessary in the public interest and to effectuate the purposes of the Veterans' Emergency Housing Act of 1946.

(b) *Applications and authorizations*—(1) *What foundries may apply.* Only foundries which make cast iron soil pipe or which make both cast iron soil pipe and cast iron soil fittings may apply under this direction for authorization to place a certified order for merchant pig iron.

(2) *When to file application.* Applications should be filed on Form OHE 14-186 (formerly Form CPA-4570) with the Housing Expediter on or before the 15th day of the month preceding the month in which delivery is required. (Until copies of FORM OHE 14-186 are available, applications may be made on Form CPA-4570.)

(3) *Authorizations.* The Housing Expediter upon receipt of an application on Form OHE 14-186 may authorize the placing by the applicant of certified orders for merchant pig iron required to make cast iron soil pipe and cast iron soil fittings. Authorization will be returned to the applicant in time for the applicant to place his orders with the supplier for the required delivery. Such authorization will not be granted to increase inventories and will only be granted where it is determined that the authorization is necessary to maintain or increase production of cast iron soil pipe and cast iron soil fittings. In making such authorization, the Housing Expediter will take into account the extent to which the applicant in the production of cast iron soil pipe and cast iron soil fittings conserves pig iron through the use of scrap iron.

(4) *Limitation on use of merchant pig iron obtained on certified orders.* Each foundry must put into production in each month for which it receives authorization not less than the amount of merchant pig iron authorized for that month on Form OHE 14-186 to make cast iron soil pipe and cast iron soil fittings.

(c) *Placement of certified orders.* A foundry which receives an authorization on Form OHE 14-186 may certify its order on its supplier for merchant pig iron by furnishing with the order, a certificate in substantially the following form, signed as provided in Priorities Regulation 7.

> I certify, subject to the penalties of section 35A of the United States Criminal Code, that I have been authorized to place this order for merchant pig iron under Direction 25 to Priorities Regulation 28, serial number ———.

(1) *Restrictions on placing certified orders.* Orders may be certified for delivery only as authorized on Form OHE 14-186. Thus they must be certified to the suppliers for the amount and in the month indicated on the form when it is returned by the Housing Expediter.

(d) *Certified orders must be treated as rated orders.* Any purchase order certified under this direction must be treated as a rated order under Priorities Regulation 1 and accepted, scheduled and delivered accordingly, except that a producer of merchant pig iron need not accept a certified order received after the 25th day of the month preceding the month in which delivery is required. The provisions of Priorities Regulation 1 will apply except to the extent that this direction is inconsistent with them.

(e) *Reports.* Producers of merchant pig iron and foundries making cast iron soil pipe or both cast iron soil pipe and cast iron soil fittings must furnish such reports as may be required by the Housing Expediter from time to time, subject to approval by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

Issued this 29th day of April 1947.

[Suspension Order S-1077, Reinstatement and Amdt.]

PART 807—SUSPENSION ORDERS

GROVER D. KING

Grover D. King, 1821 West Whittier Boulevard, Whittier, California, engaged in the construction of several housing projects in Southern California, was suspended on February 8, 1947 by Suspension Order No. S-1077. He appealed from the provisions of the suspension order and, pending determination of the appeal, the order was stayed by the Chief Compliance Commissioner on February 17, 1947. The appeal has been considered by the Chief Compliance Commissioner who has denied the appeal, directed that the stay be terminated, and the suspension order reinstated and amended. In view of the foregoing: *It is hereby ordered*, That §1010.1077, Suspension Order No. S-1077, issued January 29, 1947 and effective February 8, 1947, be and hereby is reinstated as of April 28, 1947; the stay of execution directed by the Chief Compliance Commissioner on February 17, 1947 be and hereby is revoked as of April 28, 1947; and the suspension order be and hereby is amended by substituting the following paragraphs (a) and (f) for the present paragraphs (a) and (f):

(a) For a period beginning April 28, 1947, and extending to and including August 19, 1947, no authorization shall be granted to Grover D. King to construct, nor shall he during such period apply or extend any preference ratings regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(f) This order shall take effect on the 28th day of April.

Issued this 28th day of April 1947.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Gen. Order 1]

PART 705—ADMINISTRATION

ESTABLISHMENT OF SUGAR RATIONING ADMINISTRATION IN DEPARTMENT OF AGRICULTURE

§ 705.101 *Establishment of Sugar Rationing Administration in the Department of Agriculture.* The Secretary of Agriculture, acting by virtue of authority vested in him by law, including the Sugar Control Extension Act of 1947, hereby establishes within the Department of Agriculture an agency known as the Sugar Rationing Administration for the purpose of carrying out the functions vested in the Secretary of Agriculture by such act. The personnel of such administration shall include the personnel transferred to the Department of Agriculture in accordance with the Sugar Control Extension Act of 1947.

I hereby designate Irvin L. Rice Acting Administrator and Seymour Friedman Acting Deputy Administrator of the Sugar Rationing Administration. The Acting Administrator of the Sugar Rationing Administration shall report to the Secretary of Agriculture through, and be under the general supervision of James H. Marshall. The legal aspects of the work of the Sugar Rationing Administration shall be subject to the general supervision of the Solicitor of the Department of Agriculture.

As provided in section 3 (b) of the Sugar Control Extension Act of 1947, every order, directive, rule or regulation relating to any power, function, or duty transferred by such act, issued by any officer, department, or agency heretofore performing such power, function, or duty, which is not in conflict with the provisions of such act and which is in effect on March 31, 1947, shall continue in full force and effect, according to its terms, unless and until modified or rescinded by the Secretary of Agriculture.

The Secretary of Agriculture delegates to James H. Marshall administrative authority to act for the Secretary in all matters relating to the Sugar Rationing Administration, except that the authority to issue sugar price and rationing regulations and amendments thereto, and the authority to maintain in his own name civil proceedings relating to matters within the scope of that act are hereby expressly reserved to the Secretary of Agriculture.

Subject to the authority of the Secretary of Agriculture and of James H. Marshall herein set forth, the Secretary of Agriculture delegates to the Sugar Rationing Administration authority and responsibility to discharge all of the functions, powers, and duties conferred upon the Secretary by the Sugar Control Extension Act of 1947.

There is hereby delegated to the Office of Administrative Hearings to be set up within the Sugar Rationing Administration all of the functions, powers, and duties relating to sugar heretofore delegated to the Office of Administrative Hearings of the Office of Price Administration by Second Revised General Order 46 of the Office of Price Administration, dated October 25, 1946.

Until changed, revoked, or modified by order of the Secretary of Agriculture, James H. Marshall or the Administrator of the Sugar Rationing Administration, and except to the extent they may be inconsistent with this memorandum, all delegations and sub-delegations of authority and designation of functions of the Sugar Rationing Administration as they are now described in the Office of Price Administration manual covering the organization of those portions of the Office of Price Administration whose functions are transferred to the Department of Agriculture under the Sugar Control Extension Act of 1947 are hereby ratified, confirmed, and validated and shall remain in full force and effect. (Pub. Law 30, 80th Cong.)

Issued this 31st day of March 1947.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

Subchapter B—Regulations

PART 5—CLASSIFICATION AND RATES OF POSTAGE

FOURTH-CLASS MAIL; DISCONTINUANCE OF REQUIREMENT OF REQUESTS

Section 5.70 *Fourth-class mail matter defined*, (39 CFR, Part 5), is amended by the addition of the following:

(c) *Discontinuance of requirement of requests from army personnel overseas for parcels, effective May 1, 1947.* The War Department advises that the requirement of a written request from the addressees for the mailing of parcels to overseas Army Post Offices, and the limitation with respect to the acceptance of not more than one parcel in any one week when mailed by or on behalf of the same sender, to or for the same addressee, will be eliminated, effective May 1, 1947.

Therefore, on and after that date, postmasters may accept parcels not exceeding 70 pounds in weight or 100 inches in length and girth combined addressed to persons who are authorized to receive mail through overseas Army Post Offices, containing articles for the personal use of the addressees.

Air mail (except official mail) addressed for delivery through overseas Army Post Offices, in care of the postmasters of New York, New York, and San Francisco, California, is restricted to 8 ounces in weight.

PART 6—PROVISIONS APPLICABLE TO THE SEVERAL CLASSES OF MAIL MATTER

POISONS, EXPLOSIVES, LIQUIDS, MEDICINES, MOTION PICTURE FILMS

Section 6.13 *Poisons, explosives, liquids, medicines, motion picture films* (11 F. R. 10057), is amended as follows:

Paragraph (d) (2) is amended by the addition of the following:

Rat poison having a low percentage of alphanapthylthiourea (Antu) as the active ingredient, and not containing other substances that are unmailable, may be mailed in quantities not to exceed 5 pounds of the low percentage preparation in any one parcel. The inside container must be of metal, glass or fiberboard, surrounded with cushioning material and placed in an outside container of metal, wood or fiberboard, tightly closed and securely fastened. The inside container must be plainly labeled to show its contents and marked "Poison" with the antidotes for first aid treatment. The label on the inside container must also bear the name and address of the manufacturer.

[Order 130-M]

PART 12—AMATEUR RADIO SERVICE

ALLOCATION OF FREQUENCIES AND FREQUENCY BANDS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the matter of allocating frequencies to the Amateur Radio Service, and having by separate order dated and effective this date designated as available for the Amateur Radio Service the frequency band 27.160 to 27.430 Mc in lieu of the band 27.185 to 27.455 Mc; and

It appearing, that the allocation of frequencies in the band 27.185 to 27.455 Mc to the Amateur Radio Service, as set forth in the Commission's Order No. 130-L dated January 2, 1947, is inconsistent with the frequency allocations effected by the order referred to in the preceding paragraph hereof; and

It further appearing, that as the change in the allocation of frequencies mentioned in the preceding paragraphs hereof is already in effect, general public notice and procedure for rule making required by section 4 (a) of the Administrative Procedure Act is unnecessary;

It is ordered, That for the purpose of correlating the Commission's orders in the 130-series with the changed allocation of frequencies hereinbefore referred to, the paragraph numbered 2 (a) (4) of the first ordering clause of Order No. 130-L be, and it is hereby amended to read as follows:

(4) 27.160 to 27.430 Mc, using types A0, A1, A2, A3, and A4 emissions, and also special emissions for frequency modulation (radio-telephone transmissions and radio-telegraph transmissions employing carrier shift or other frequency modulation techniques), subject to such interference as may occur from the operation of industrial, scientific and medical devices also assigned to this band and centered on 27.320 Mc.

For the reasons above indicated, this order is made effective immediately.

(Secs. 4 (i), 303 (c), 48 Stat. 1068, 1082; 47 U. S. C. 154 (i), 303 (c))

[9 CFR, Part 131]

HANDLING OF ANTI-HOG-CHOLERA SERUM AND HOG-CHOLERA VIRUS

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO APPROVAL OF BUDGET AND FIXING OF RATE OF ASSESSMENT FOR CALENDAR YEAR 1947

Consideration is being given to the approval of a budget of expenses of the Control Agency established under the marketing agreement and the marketing order (9 CFR 131.1 et seq.), regulating the handling of anti-hog-cholera serum and hog-cholera virus, and the fixing of the rate of assessment to be paid by handlers, for the calendar year 1947, as follows: (1) The expenses which will necessarily be incurred by the Control Agency, established pursuant to the provisions of the marketing agreement and of the marketing order, for the maintenance and functioning of said Control Agency during the calendar year 1947, will amount to $31,525, from which shall be deducted the unexpended balance of $4,269.77 on hand with said Control Agency on January 1, 1947, from assessments collected during the calendar year 1946, leaving a balance of $27,255.23 to be collected during the calendar year 1947, and (2) of the amount of $27,255.23 to be collected during the calendar year 1947, the sum of $26,255.23 shall be assessed against handlers who are manufacturers, and $1,000 shall be assessed against handlers who, as distributors, market their products principally through veterinarians or other channels.

The pro rata share of the expenses of the Control Agency to be paid for the calendar year 1947 by each handler who is a manufacturer shall be $17.45 per million cubic centimeters (determined by the nearest whole number) of hyperimmune blood collected by such handler during the calendar year 1946; and the pro rata share of such expenses to be paid for the calendar year 1947 by each handler who, as a distributor, markets his products principally through veterinarians or other channels shall be $2.25 per million cubic centimeters (determined by the nearest whole number) of serum sold by such handler. Such assessments shall be paid by each respective handler in accordance with the provisions of the marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid considerations shall file the same with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate. (49 Stat. 781; 7 U. S. WAGES FOR SUGARCANE WORKERS

NOTICE OF HEARING AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsection (b) and (d) of section 301 and section 511 of the Sugar Act of 1937 (Public, No. 414, 75th Congress, as amended,) notice is hereby given that a public hearing will be held at Clewiston, Florida, in the High School Auditorium, on May 10, 1947, at 9:30 a. m.

The purpose of such hearing is to receive evidence likely to be of assistance to the Secretary in determining (1), pursuant to the provisions of section 301 (b) of the said act, fair and reasonable wages for persons employed in Florida in the production, cultivation, and harvesting of sugarcane during the period from July 1, 1947 to June 30, 1948 on farms with respect to which applications for payments under the said act are made, and (2), pursuant to the provisions of section 301 (d) of the said act, fair and reasonable prices for the 1947 crop of sugarcane to be paid, under either purchase or toll agreements, by processors who as producers apply for payments under the said act; and to receive evidence likely to be of assistance to the Secretary in making recommendations, pursuant to the provisions of section 511 of the said act, with respect to the terms and conditions of contracts between producers and processors of sugarcane and with respect to the terms and conditions of contracts between laborers and producers of sugarcane.

George A. Dice, Ward S. Stevenson, and Frank T. Gradoville are hereby designated as presiding officers to conduct, either jointly or severally, the foregoing hearing.

Issued this 24th day of April 1947.

[Docket No. AO 85-A2]

MARKETING AGREEMENT AND ORDER REGULATING HANDLING OF ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

NOTICE OF PROPOSED RULE MAKING

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure as amended (7 CFR and Supps. 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of a public hearing to be held in the Court Room, County Court House, Vero Beach, Florida, beginning at 10:00 a. m., e. s. t., May 12, 1947, and in the Assembly Room, Florida Citrus Commission, Lakeland, Florida, beginning at 10:00 a. m., e. s. t., May 14, 1947, with respect to proposed amendments to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR, Cum. Supps., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida. These proposals have not received the approval of the Secretary of Agriculture.

Such public hearing is for the purpose of receiving evidence with respect to economic or marketing conditions relating to the proposed amendments, which are hereinafter set forth, and appropriate modifications thereof.

The following amendments have been proposed by the Growers Administrative Committee and the Shippers Advisory Committee, established pursuant to the aforesaid amended marketing agreement and order:

1. Add to section 1 of the amended marketing agreement and § 933.1 *Definitions* of the amended order the following new paragraph:

(m) (1) "Regulation Area I" shall include all that part of the State of Florida not included in "Regulation Area II" as hereinafter described.

(2) "Regulation Area II" shall include that part of the State of Florida particularly described as follows: Beginning at a point on the shore of the Atlantic Ocean where the line between Flagler and Volusia Counties intersects said shore, thence follow the line between said two counties to the Southwest corner of Section 23, Township 14 South, Range 31 East; thence continue South to the Southwest corner of Section 35, Township 14 South, Range 31 East; thence East to the Northwest corner of Township 15 South, Range 32 East; thence South to the Southwest corner of Township 17 South, Range 32 East; thence East to the Northwest corner of Township 18 South, Range 33 East; thence South to the St. Johns River; thence along the main channel of the St. Johns River and through Lake Harney, Lake Poinsett, Lake Winder, Lake Washington, Sawgrass Lake, and Lake Helen Blazes to the range line between Ranges 35 East and 36 East; thence South to the South line of Brevard County; thence East to the line between Ranges 36 East and 37 East; thence South to the Southwest corner of St. Lucie County; thence East to the line between Ranges 39 East and 40 East; thence South to the South line of Martin County; thence East to the line between Ranges 40 East and 41 East; thence South to the West Palm Beach Canal (also known as the Okeechobee Canal);

thence follow said canal eastward to the mouth thereof; thence East to the shore of the Atlantic Ocean; thence Northerly along the shore of the Atlantic Ocean to the point of beginning.

2. Delete the provisions of (b) (1) of section 4 of the amended agreement and of (b) (1) of § 933.4 *Regulations by grades and sizes* of the amended order and substitute therefor the following:

(b) *Recommendation for regulations.* (1) Whenever the Shippers Advisory Committee deems it advisable to regulate any variety pursuant to this section, the said committee shall recommend the particular grades and sizes or either thereof deemed by it advisable to be shipped, and any such recommendation may include a proposal that shipments of any variety grown in Regulation Area II shall be limited to the grades and sizes different from the proposed grade and size limitation applicable to shipments of the same variety grown in Regulation Area I. In making such determination, the said committee shall give due consideration to the following factors relating to the citrus fruit produced in Florida and in other States: (a) Market prices, including prices by grades and sizes of the fruit for which regulation is recommended; (b) amount on hand at the principal markets, as evidenced by supplies on track; (c) maturity, conditions, and available supply, including the grade and size thereof in the producing areas; (d) other pertinent market information; and (e) the level and trend in consumer income. The Shippers Advisory Committee shall promptly report the recommendations so made, with supporting information, to the Growers Administrative Committee, which committee shall, in turn, submit the same to the Secretary, together with its own recommendations and supporting information respecting the factors hereinbefore enumerated.

3. Delete the provisions of (c) of section 4 of the amended agreement and of (c) of § 933.4 of the amended order and substitute therefor the following:

(c) *Regulation by the Secretary.* Whenever the Secretary shall find from the recommendations and reports of the Shippers Advisory Committee and the Growers Administrative Committee, or from other available information, that to limit the shipment of any variety to particular grades and sizes would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety during a specified period or periods, and any such regulation may provide that shipments of any variety grown in Regulation Area II shall be limited to grades and sizes different from the proposed grade and size limitation applicable to shipments of the same variety grown in Regulation Area I. Prior to the beginning of any such regulation the Secretary shall notify the Growers Administrative Committee of the regulation issued by him, which committee shall notify all handlers, by publication in daily newspapers, selected by the said committee, of general circulation in the citrus-producing districts of Florida: *Provided*, That when the regulation as issued is different from the recommendation of the committee, notice thereof shall be given also by mailing a copy thereof to each handler who has filed his address with said committee for this purpose.

The Fruit and Vegetable Branch, Production and Marketing Administration, has proposed that consideration be given to such other changes in the provisions of the amended marketing agreement and order, as may be necessary to make the entire amended marketing agreement and order conform with the proposed amendments contained in this notice of hearing.

Copies of this notice of hearing may be obtained from the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., or from the Fruit and Vegetable Branch, Production and Marketing Administration, Drane Building, Lakeland, Florida.

Dated April 25, 1947, Washington, D. C.

HANDLING OF SHIPPERS' PROCEEDS BY MARKET AGENCIES AND LICENSEES UNDER THE PACKERS AND STOCKYARDS ACT

NOTICE OF PROPOSED RULE MAKING

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), the Secretary of Agriculture proposes to issue a rule amending § 201.42 of the regulations under the Packers and Stockyards Act (9 CFR Part 201) to read as follows:

Every market agency and licensee shall deposit the gross proceeds received from the sale of livestock or live poultry handled on a commission or agency basis in a separate bank account designated as follows (using the name of "John Doe Commission Company," as an example): "John Doe Commission Company—Custodial Account for Shippers' Proceeds." Such acount shall be drawn on only for the payment of the net proceeds to the person or persons entitled thereto and to obtain therefrom the sums due the market agency or licensee as compensation for its services as set out in its tariffs and for such sums as may be required to pay all legal charges against the consignments of livestock or live poultry as a market agency or licensee may, in its capacity as agent, be required to pay for and on behalf of the owner or consignor. No funds, other than the gross proceeds received from the sale of livestock or live poultry, shall be deposited in said account. The market agency or licensee in each case shall keep such accounts and records as will at all times disclose the names of consignors and the amount due and payable to each from funds in the Custodial Account for Shippers' Proceeds.

Therefore, notice is hereby given that any interested person who desires to do so may submit within 60 days after the publication of this notice any data, views, or argument in writing on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 24th day of April 1947.

TRADE-MARKS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Patent Office proposes to issue rules and regulations relating to the registration of trade-marks, and to practice before the Patent Office in trade-mark matters, under the Trade-Mark Act of July 5, 1946 (Pub. Law 489, 79th Cong.), which will come into effect on July 5, 1947.

The proposed rules and regulations are issued pursuant to the authority contained in sections 1 (c) and 41 of said act, and will upon promulgation supersede and replace the rules now in force, 37 CFR Part 5.

The proposed rules and regulations, including some representative forms, will be available in printed form for distribution on Wednesday, April 30, 1947, and will be given or sent to all interested parties upon request to the Commissioner of Patents, Washington 25, D. C. They will also be published in the Official Gazette of the United States Patent Office on May 13, 1947.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed rules and regulations are invited to forward the same to the Commissioner of Patents, Washington 25, D. C., before Thursday May 22, 1947.

In addition to submitting briefs or statements, those who so desire may be heard orally. Hearings are scheduled to commence at 10:00 o'clock a. m. on Friday, May 23, 1947, in the Auditorium of the Department of Commerce.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 8]

[Docket No. 8308]

SHIP SERVICE

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 8 of the rules and regulations governing ship service to establish a 5-year regular term for ship station licenses and to establish the ship radar station with a 5-year license term as a new class of station within the ship service.

Notice is hereby given of proposed rule making in the above-entitled matter.

The proposed rules and regulations, which are amendments of and additions to existing rules and regulations, are set forth in this notice.

The proposed rules are issued under the authority of section 301 and sections 303 (b), (c), (e), (f), (j) and (r) of the Communications Act of 1934, as amended.

The amendment of § 8.20 and 8.21 of the existing rules is for the purpose of showing that the terms "maritime mobile service" and "ship service" as used in Part 8 of the rules do not apply generally to ship radar stations. The amendment of § 8.61 of the existing rules is for the purpose of making the license term of ship station and ship radar station licenses uniform. The addition of new § 8.195 is to provide particulars covering ship radar stations.

Any interested person who is of the opinion that these proposed revisions of the rules should not be adopted, or should not be adopted in the form set forth, may file with the Commission, on or before May 19, 1947, a written statement or brief setting forth his comments. Before final action is taken, all comments received will be considered, and if any comments are received which appear to warrant the Commission's holding an oral argument, notice of the time and place of such oral argument will be given.

1. Sections 8.20 and 8.21, respectively, are amended by inserting the notation "[2a]" after the term "maritime mobile service" in § 8.20 and after the term "ship service" in § 8.21.

2. The following footnote is added (cf. paragraph 1 above):

[2a] The term does not apply to the use of radar installations on board ship except where radar is specifically mentioned.

3. Section 8.61 is amended to read as follows:

§ 8.61 *Ship station license.* All new, renewed, or modified ship station licenses normally will be issued to expire at 3:00 a. m., e. s. t. on a date 5 years from the date on which they became effective.

4. The following new rules governing ship radar stations are added after § 8.192:

SHIP RADAR STATIONS

§ 8.195 *Ship radar stations*—(a) *Ship radar station.* The term "ship radar station" means a radio station located on board a ship licensed for the transmission of energy by radio for the purpose of automatically detecting land and other objects through the reception of the effects of such transmission, with or without a determination of their direction and distance from the ship.

(b) *Applications for ship radar station licenses.* Applications for ship radar station licenses shall be made in accordance with the provisions of Part 1 of the Commission's rules and regulations.

(c) *Term of ship radar station licenses.* All new, renewed, or modified ship radar station licenses normally will be issued to expire at 3:00 a. m., e. s. t., on a date 5 years from the date on which they became effective.

(d) *Posting of ship radar station license.* The ship radar station license shall be posted in a conspicuous place at the principal operating position.

(e) *Station identification.* Section 2.65 requiring station identification by call letters shall not apply to ship radar stations. For administrative purposes, the call letters assigned to a ship radar station normally will be the same as the ship station call letters or ship signal letters.

(f) *Authorized emission for radar transmitters.* Any transmitter of a ship radar station which operates within a frequency band allocated in paragraph (g) of this section shall use special (pulsed) type of emission only.[71a]

(g) *Allocation of frequencies for ship radar stations.* The following frequency bands are allocated for use by ship radar stations:[71b]

3000 to 3246 Mc
5460 to 5650 Mc
9320 to 9500 Mc

(h) *Frequency tolerance.* All emissions of a ship radar station outside an assigned frequency band shall be attenuated at least 60 decibels below the maximum emission within the assigned frequency band. The frequency at which maximum emission occurs shall not be within 20 Megacycles of either end of an assigned band.

(i) *Frequency measurements.* The licensee of a ship radar station shall take the necessary measures to insure that the transmitter operates within the tolerance limits specified in paragraph (h) of this section.

(j) *Name plate on radar installation.* Each ship radar station installation the manufacture of which was completed on or after June 1, 1947, shall be furnished with a durable name plate with the manufacturer's name, transmitter model number, and month and year of completion of manufacture, permanently inscribed thereon. Such name plate shall be affixed to the indicator housing at the principal operating position.

(k) *External adjustments.* Radar transmitters which have means available for external adjustments, the manipulation of which may cause operation not in accordance with paragraph (h), of this section, will not be licensed in the ship service.[71c]

(l) *Design and construction.* The design and construction of radar equipment intended for licensing in the ship service shall be such that its use will produce no interference to the radio communication service of any ship.

(m) *Type approval of radar equipment.* To determine the acceptability of radar equipment for licensing in the ship service, such equipment will be examined by duly authorized representatives of the Commission for compliance with the provisions of paragraphs (f), (g), (h), (j), (k) and (l) of this section 5 and if found in compliance therewith, appropriate type approval will be issued.

(n) *Reports.* The licensee, by such arrangement as may be necessary with the ship master, operating agency, or ship owner, shall, upon request of the Commission, be responsible for the submission of such reports as may be required to show the value and performance of a ship radar station.[71d]

Adopted: April 17, 1947.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[71a] For the purpose of this part of the rules, the term "special (pulsed) type of emission" means radio frequency energy which is emitted in the form of short bursts of energy repeated at regular intervals, the duration of each burst being much shorter than the interval between bursts.

[71b] The associated transmitting frequencies of radar beacons (Racons) are, respectively, as follows: 3256, 5450, and 9310 Megacycles.

[71c] This provision does not necessarily prohibit the licensing of such radar transmitters experimentally on board ship in accordance with Part 5 of the rules.

[71d] For assistance in preparing these reports, daily records should be kept showing at least the following:

(a) Number of hours of use while the ship is in operation.

(b) Number of service failures, and duration, nature, and cause of each failure.

(c) Performance under abnormal weather conditions.

(d) Unusual incidents, including, among others, cases in which radar may have aided or hindered safe operation of a vessel.

FEDERAL COMMUNICATIONS COMMISSION

EMPLOYMENT OF SHIP RADIO OPERATORS POSSESSING LESS THAN SIX MONTHS SHIP RADIO EXPERIENCE

STATEMENT REGARDING WAIVERS

APRIL 18, 1947.

The Commission has recently received several requests for individual waivers of the requirement of section 353 (b) of the Communications Act of 1934, as amended, that for safety purposes ship radio operators shall, in certain instances, have had at least six months previous experience as ship radio operators.

The Commission has been careful to assure itself, and will continue to do so, that every party who has or may hereafter request a waiver of the above-mentioned statutory safety requirement is fully cognizant of the responsibility he thereby assumes for the safety of the particular vessel on any voyage made as a result of any waiver granted. Because of the safety aspect, the Commission has required each applicant for a waiver to submit a written request and to specify therein that he has exhausted every reasonable possibility of obtaining a qualified operator with the required experience. The requests received, even if couched in somewhat general terms, have been construed literally to mean that a complete and detailed search for operators at every recognized source within reasonable distance has been made without favorable result. As indicated below, a detailed statement will hereafter be required.

In many cases in which requests for waiver have been received, the application has not contained sufficient information to enable the Commission to take expeditious action, and delay has ensued. The Commission is presently studying the over-all situation with a view to taking such action of a general nature as may be appropriate. However, in order to avoid unnecessary delay on such interim requests for waiver as may be received, the Commission deems it advisable to make clear the procedure to be followed and the minimum information to be presented before action on an application can be taken.

In each case, the request for waiver should be submitted by the owner, charter party, or operating agent of the ship, and the procedure to be followed should be as follows: (1) Exhaust the sources, including appropriate local field engineering offices of the Federal Communications Commission; (2) submit directly to the Commission at Washington, D. C. a written request for waiver which specifies at least the following information: (a) name of ship and port of expected departure, (b) date and time of expected departure, (c) nature of cargo, (d) destination, (e) statement that all recognized sources of ship radio operators within a reasonable distance have been exhausted, including both all union and non-union sources, listing by name the sources contacted and including identification of the local Federal Communications Commission offices contacted, (f) name and description of qualifications of the radiotelegraph operator presently available and intended to be employed under the requested waiver.

VARIOUS CLASSES OF NON-GOVERNMENT SERVICES IN RADIO SPECTRUM FROM 10 KC TO 30,000,000 KC

ALLOCATION OF FREQUENCIES

APRIL 14, 1947.

At a meeting of the Federal Communications Commisison, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the frequencies 27.185-27.455 megacycles heretofore designated for industrial, scientific, medical purposes, and

that portion of the hearing and oral argument held on December 18 and 19, 1946, "In the Matter of Promulgation of Rules and Regulations Governing Medical Diathermy Equipment and Industrial Heating Equipment" (Docket No. 7858), concerning the advisability of allocating a wider band of frequencies in the 27 megacycle region of the spectrum for such purposes; and

The Commission also having under consideration its recommendation dated February 18, 1947, to the Department of State, for approval at the forthcoming Conference of the International Telecommunications Union that the frequency band 27.160–27.480 megacycles be made available for industrial, scientific, and medical uses and to the amateur, fixed, and mobile services, subject to interference from industrial, scientific or medical operation; and the fact that no objection from interested parties has been received by the Commission to its recommendation which was made after full opportunity for the submission of such objection; and

The Commission having determined that the public interest, convenience and necessity would be served by allocation for use in the United States by industrial, scientific and medical devices of the frequency band 27.160–27.480 mc as set forth in the proposal referred to above, with certain provision for use of such frequencies by the amateur, fixed and mobile services; and

The Commission having further determined that under the circumstances set forth above the said amendments should become effective immediately:

Now, therefore, *It is hereby ordered*, That the frequency allocation plan set out below for the frequency band 27.160–27.480 megacycles, be, and the same is hereby, adopted, effective immediately to supersede any plan heretofore adopted for the said frequency band or any portion thereof:

Band, Mc	*U. S. Service-Allocation*
27.160–27.430	(a) Amateur.[1]
	(b) Industrial, scientific, Medical.[2]
27.430–27.480	(a) Fixed (non-Government).[1]
	(b) Industrial, scientific, medical.[2]
	(c) Mobile (non-Government).[1]

[1] This service recognizes that interference to its operations within this band may result from the emissions on the frequency 27.320 Mc of industrial, scientific and medical devices.

[2] The frequency 27.320 Mc is designated for the operation of industrial, scientific and medical devices.

By direction of the Commission.

FEDERAL TRADE COMMISSION

[Docket No. 5455]

W. L. ABT

ORDER APPOINTING TRIAL EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 21st day of April A. D. 1947.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That Everett F. Haycraft, a Trial Examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered, That the taking of testimony and the receipt of evidence begin on Wednesday, May 21, 1947, at ten o'clock in the forenoon of that day (eastern standard time), in Room 505, 45 Broadway, New York, New York.

Upon the completion of the taking of testimony and the receipt of evidence in support of the allegations of the complaint, the Trial Examiner is directed to proceed immediately to take testimony and receive evidence on behalf of the respondent. The Trial Examiner will then close the taking of testimony and evidence and, after all intervening procedure as required by law, will close the case and make and serve on the parties at issue a recommended decision which shall include recommended findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and an appropriate recommended order; all of which shall become a part of the record in said proceeding.

By the Commission.
